The PRESIDING OFFICER. Is there further debate on the amendment? If not, the question is on agreeing to the amendment.

The amendment (No. 548) was agreed to.

AMENDMENT NO. 549

(Purpose: Clarifying amendment)

Mr. NICKLES. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Oklahoma [Mr. NICKLES] proposes an amendment No. 549.

Mr. NICKLES. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

Strike from "The report" on page 2, line 19 through "Conservation Service." on page 4, line 9 and insert in lieu thereof:

" 'The Secretary of Energy shall conduct a survey in consultation with the Comptroller General to collect the information the Comptroller General determines is necessary for the preparation of such report. The report shall examine and assess, for the programs under this part:

(1) the potential for achievable energy savings through implementation of residential energy conservation measures in residential dwellings in the United States and the importance of the Residential Conservation Service in achieving these savings;

(2) Residential Conservation Service program costs from a representative sample of states, taking into account costs to the taxpayer and ratepayers of affected utilities;

(3) Residential Conservation Service program benefits from a representative sample of states, taking into account the value of energy conservation and the value of deferral of investment in new capacity to provide energy;

(4) efforts of utilities to encourage the implementation of residential energy efficiency measures by their customers and the relationship between these efforts and the observed response rate under Residential Conservation Service Programs;

(5) measured energy savings achieved in residential dwellings in which measures are installed under such programs;

(6) to the extent to which utilities have adopted programs voluntarily or under State law that offer more promise in encouraging energy efficiency than has been the case under the Residential Conservation Service;

(7) to the extent to which modifications in the regulations implementing the Residential Conservation Service could improve the cost effectiveness of the program;

(8) legislative changes that are necessary to improve the cost effectiveness of the program;

(9) the extent of unfair, deceptive or anticompetitive acts or practices affecting commerce that relate to the implementation of such residential energy conservation programs, and the adequacy of procedures which are in effect to prevent such unfair, deceptive or anticompetitive acts or practices; and

(10) such other matters as seem appropriate in order to assist Congress in deciding the future of the Residential Conservation Service.' ".

The PRESIDING OFFICER. Is there further debate on the amendment? If not, the question is on agreeing to the amendment.

The amendment (No. 549) was agreed to.

AMENDMENT NO. 550

(Purpose: To keep commercial and apartment conservation State plans approved before August 1, 1984 in effect)

Mr. NICKLES. Mr. President, I send an amendment to the desk on behalf of Senator LEVIN and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Oklahoma [Mr. NICKLES], for Mr. LEVIN, proposes an amendment numbered 550.

Mr. NICKLES. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 2, after line 7 add the following new subsection:

(c) Notwithstanding subsection (a) any state energy conservation plan for commercial buildings and multifamily dwellings approved under Section 721 of the National Energy Conservation Policy Act prior to August 1, 1984, may with respect to regulated utilities, continue in effect until one year after the date of enactment of this Section if such plan meets the requirements of Section 722 of such Act as in effect on August 1, 1984.

Mr. LEVIN. Mr. President, the amendment I am offering today addresses a problem which Michigan will face if the Commercial and Apartment Conservation Service [CACS] is unconditionally repealed.

Although the Department of Energy [DOE] has approved 21 CAS plans, Michigan is the only State which has a CACS Program in actual operation. The other States are not yet offering commercial energy audits services.

In 1980, the Congress passed the Energy Security Act which added the CACS title to the National Energy Conservation Policy Act [NECPA]. The law required States to submit their CACS State plans to DOE by June 4, 1984. Michigan's CACS plan was approved in July 1984 and utilities in Michigan have been offering commercial audits since January of this year.

So Congress required States like Michigan to go ahead and prepare a CACS plan which cost Michigan approximately $1 million to implement. Now Congress is preparing to repeal that law—we are in effect penalizing Michigan for complying with the law.

My amendment simply extends the CACS statute for Michigan because its State plan was approved before August 1, 1984—until the State has had adequate time to pass a State law authorizing the program—a period of 1 year after enactment.

This will hopefully give the State adequate time to pass State legislation without having to interrupt the CACS Program which is already in effect. Without Federal or State statutory authority, Michigan utilities face a real threat of antitrust litigation. Michigan utilities have already been subjected to legal challenge with respect to the Residential Conservation Program.

I strongly feel that the Federal Government has an obligation to help States continue programs which it originally mandated. If the Congress feels it must repeal the Commercial Energy Audit Program, let's at least give States like Michigan adequate time to pass State law authorizing this program.

I urge adoption of this amendment.

Mr. McCLURE. The committee recognizes the difficulty utilities in Michigan and the State of Michigan would be faced with if no Federal statute for CACS remained in effect for the CACS Program which is already in operation. I commend Senator LEVIN for bringing his State's unique problem of total repeal of CACS to the committee's attention and agree that his amendment will allow Michigan's program to continue for up to 1 year. This year will provide Michigan with the opportunity to pass State legislation authorizing continuation of their CACS Program beyond 1 year if the State so chooses. I move the amendment be adopted.

Mr. LEVIN. I thank the distinguished chairman of the committee

and the ranking member, Mr. JOHNSTON, for their cooperation in this matter.

Mr. NICKLES. Mr. President, I move adoption of the amendment.

The PRESIDING OFFICER. Without objection, the amendment is agreed to.

The amendment (No. 550) was agreed to.

AMENDMENT NO. 551

(Purpose: Clarify rights of persons to take actions with respect to anticompetitive acts or practices related to activities under the RCS program, and for other programs)

Mr. NICKLES. Mr. President, I send to the desk an amendment on behalf of Senator SPECTER and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Oklahoma [Mr. NICKLES], for Mr. SPECTER, proposes an amendment numbered 551.

Mr. NICKLES. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of the bill, add a new section 6 as follows:

"SEC. 6. Subsection 220(b) of Title II of the National Energy Conservation Policy Act (42 U.S.C. 8211 et seq.) is amended by inserting after 'Acts.—', '(1)', and by inserting after the words 'acts or practices.' the following new paragraph:

'(2) Nothing in this Part shall be construed to—

'(A) bar any person from taking an action with respect to any anticompetitive act or practice related to activities conducted under any program established under this Part, including activities conducted under subsections 216(b), (d), or (e); or

'(B) convey to any person immunity from civil or criminal liability, create defenses to actions under antitrust laws, or modify or abridge any private right of action under such laws."

Mr. SPECTER. Mr. President, today I am proposing an amendment to S. 410 that is designed to clarify the protections in existing law against unfair or anticompetitive acts or practices in the business of selling and installing residential energy conservation equipment.

The National Energy Conservation Policy Act [NECPA] has long contained safeguards at the Federal level to make sure that competition between public utilities and private contractors takes place on a level playing field. NECPA also contains important provisions preserving the discretion of our State governments to provide means for the protection and promotion of vigorous competition within their economies. For instance, section 220(b) of NECPA specifically states that noting in the statutory provisions dealing the residential conservation program "shall be construed as restricting the authority of any agency or instrumentality * * * of any State under any provision of law to prevent unfair methods of competition and unfair or deceptive acts or practices." Moreover, so far as the 1980 amendments to NECPA are concerned, section 548 of the Energy Security Act provides even more broadly that nothing in those amendments "bar(s) any person from taking any action with respect to any anticompetitive act of practice related to activities conducted under any program established under this title. * * *" Still other provisions provide even further confirmation of Congress' intention of leaving State powers almost entirely untouched.

Almost everyone who has studied these provisions agrees that, taken together, they give State governments the freedom to establish procedures to terminate or modify exemptions obtained by public utilities from NECPA's restrictions on participation by such utilities in residential energy conservation equipment sales and installations. Nothing in NECPA requires the State to exercise this authority, or tells them how to do it. But the States are left room to maneuver as they wish.

Unfortunately, some State agencies have apparently been unwilling to accept the view that Congress left them so much latitude, claiming that the law is ambiguous. This has sometimes led States to deny small contractors a forum in which to obtain a resolution of allegations of anticompetitive activity, not because the State does not wish to provide one, but because of the mistaken view that Federal law does not permit it to do so.

My amendment makes it crystal clear that Federal law provides no excuse for denying a forum to those who claim to be victims of anticompetitive practices. If State decide not to provide such a forum for their own reasons, that remains their prerogative. But nothing Congress has done should be claimed as the reason.

The amendment achieves this result in a very simple way. It takes the language of section 548 of the Energy Security Act and makes it applicable to all of NECPA's residential conservation programs by placing it squarely in the residential conservation sections of the statute. The wording is modified slightly to make clear that it applies to all sections of the residential part of the act, not just the 1980 amendments. And a specific reference is added to the section 216 exemptions, eliminating any shadow of a doubt about the fact that States have the discretion to make decisions terminating or revoking those exemptions if they wish to do so.

Mr. President, because my amendment is designed only to restate and clarify the law that Congress has already adopted, it should not be regarded as controversial. I urge my colleagues to adopt it forthwith.

Mr. President, I would like to direct an inquiry to the distinguished chairman of the Energy and Natural Resources Committee, Senator MCCLURE. I have been contacted by a number of wholesalers, suppliers, and contractors in the plumbing, heating, air-conditioning, and lumber businesses who are concerned about maintaining their ability to compete against public utilities for the business of selling and installing energy conservation equipment. This business flows naturally from the energy audit mandated under the Residential Conservation Service Program. I endorse the idea that there must be a level playing field for competition between all of those enterprises engaged in this kind of business. These contractors and suppliers, many of whom are in Pennsylvania, ask only for the chance to be heard. They believe that unfair competition can sometimes result from a waiver of the Federal prohibitions that otherwise keep public utilities out of the sales and installation business. Proceedings before State public utility commissions are sometimes inadequate, because the commissions take the position that they have no authority to consider issues of competition. Antitrust proceedings in the courts are simply beyond the resources of these small businesses. And since the residential conservation service is a Federal program, some State government agencies even take the position that they have no authority voluntarily to consider any issues not specified in the National Energy Conservation Policy Act.

I believe that these contractors and suppliers deserve an opportunity at the State level to have their concerns addressed. I have examined the bill before us today, and the law that it extends, and it appears to me that under existing law, as well as under the law we are about to pass, State governments enjoy full authority to convene proceedings to consider the competitive effects of waiver applications. I would like to inquire of the distinguished chairman, whose deep familiarity with these issues is well known, whether he concurs with this conclusion?

Mr. MCCLURE. The distinguished Senator from Pennsylvania is correct. The original intent of Congress in adopting the National Energy Conservation Policy Act in 1978 was to leave States entirely free to convene proceedings to consider these and any other issues they consider important. And certainly, S. 410 does not change that intent. I also agree with the Senator from Pennsylvania that it is highly advisable for States to afford opportu-

nities under State law for contractors, suppliers, and other affected parties to bring their concerns about unfair competition to the attention of State officials. Each State must decide for itself, of course, how to implement such opportunities. But as a matter of policy, simple fairness certainly militates in favor of hearing these issues out.

Mr. SPECTER. I thank the distinguished Senator from Idaho. I think his comments remove any doubt, if any doubt there ever was, about State authority in this area. We agree that no State should decline to afford affected parties an opportunity to be heard on the grounds that this is a Federal program and that the statute creating it omits exclusive mention of such authority. We agree on the affirmative advisability of States making such forums available.

The amendment that I am offering this morning is intended to confirm the interpretation of the law that we just discussed. I take it that the distinguished chairman has no difficulty in accepting my amendment?

Mr. McCLURE. That is correct.

Mr. SPECTER. I thank the distinguished Chairman.

Mr. FORD. Mr. President, the amendments we are making to the Residential Conservation Service Program are designed to get us better utility energy conservation programs. We have a waiver option put in by Senators JOHNSTON, EVANS, MCCLURE, and GRASSLEY that will allow utilities to have more flexible, more effective energy conservation activities.

We have an amendment by Senator SPECTER that applies to the entire RCS Program the same savings clause—Section 548—that applied to RCS amendments enacted in 1980. This savings clause preserves the rights of persons to take actions with respect to anticompetitive acts or practices related to activities under RCS and makes clear that no one obtains immunity from liability under the antitrust laws.

Nothing in this amendment grants any new authority to States to terminate RCS activities such as the supply, installation or financing of energy conservation measures. This amendment merely clarifies the application of existing law to this program.

Mr. METZENBAUM. Mr. President, I am pleased to support S. 410, a bill which repeals the Commercial and Apartment Conservation Service while providing for a 3-year extension of the Residential Conservation Service.

On balance, this bill is a worthy compromise between those of us who favored continuing both the Residential and Commercial Conservation Programs and those who favored repeal of one or both of those programs. While I would have preferred to continue the CACS Program, I think this bill represents an important reaffirmation of our commitment to a strong Residential Energy Conservation Program.

That is especially important at a time when the present administration has lost interest in conservation.

They say we are awash in oil and gas;

They want to stop filling the strategic petroleum reserve;

They want to cut funding for energy conservation;

They want to relax fuel efficiency standards; and

They want to end the Federal Residential and Commercial Conservation Services.

I believe they are pursuing a policy that may be penny wise but is certainly energy foolish.

In certain areas of the country, the Residential Conservation Service has been tremendously effective, especially where utilities aggressively marketed the availability of the service; of course, I recognize that the Residential Conservation Service has not yielded all we hoped.

But you do not improve results by killing the program. With changes, RCS can still make important contributions to energy security.

A September 1983 General Accounting Office report noted that the RCS Program is one of two Federal conservation mandates "that seem to spark most state or utility conservation efforts."

A Congressional Research Service study for the House Subcommittee on Energy Conservation and Power concluded that residential conservation could supply the equivalent of 131,000 megawatts—that is about 131 powerplants—by 1990 at a cost below that of building new powerplants.

A followup study concluded that the Nation could have used 28 to 38-percent less residential energy than it did in 1981 if cost-effective conservation improvements had been made in the Nation's homes.

But the administration will not give RCS a chance. In March, the DOE issued a bizarre opinion that the legal authority for the RCS Program has expired.

A few weeks ago, the Comptroller General concluded that DOE's position was dead wrong. GAO said that the administration's legal analysis was "premised on a fundamental error of statutory construction" and that the RCS Program "remains legally in effect until terminated by future legislation."

Despite the GAO ruling, DOE is intent on pursuing its ill-conceived plan to dismantle the RCS Program.

This bill would stop them.

It extends the RCS Program for 3 years and requires the GAO to conduct a comprehensive evaluation of the program.

Senator JOHNSTON's amendment would give States additional discretion to implement residential conservation strategies that would result in greater savings than the Federal RCS Program. I support this amendment. I am also pleased that Senator JOHNSTON agreed to modify the original amendment so that if the Governor determines that a State program failed to achieve better results than the RCS Program the Governor would be required to ask the Department of Energy to revoke the waiver—and DOE would be required to do so. This change is designed to prevent States from using the waiver authority to avoid Federal regulation for the sake of avoiding Federal regulation. Under this amendment, the only way a State can get—and keep—a waiver is if the Governor finds that the State's own program actually results in conservation equal to or greater than the Federal program. Otherwise, the Governor must ask DOE to revoke the waiver.

In sum, S. 410, along with the amendment of Senator JOHNSTON, allows us to continue a good Federal program, with incentives for States to adopt even better programs.

Mr. GRASSLEY. Mr. President, as a cosponsor of the amendment offered by Senator JOHNSTON, I urge my colleagues to support the waiver process for State residential conservation energy plans. Over the past 2 years, I have been an outspoken critic of the Residential Conservation Service Program as a good idea with a bad track record. This amendment, however, will improve the program by allowing States and utilities to operate alternative conservation programs which are more effective than the DOE-approved program.

My dissatisfaction with the program has led me to introduce legislation to repeal both the Residential Conservation Service Program and the Commercial and Apartment Conservation Service Program, which has not yet been fully implemented. My criticism has not been aimed at the intent of the RCS Program. Energy conservation is a laudable goal, however, the actual implementation of the program has fallen far short of meeting that goal.

The RCS Program was conceived in a period of rapidly rising energy shortages, with the expectation of continued energy price increases. The purpose of the service was to provide energy users with an audit of their usage and suggestions on how to improve their energy conservation. Homeowners were encouraged to take actions to improve their energy efficiency and a special emphasis was placed on achieving savings for low-income homes. Public utilities were to provide this service for a charge of $15.

Certainly, the above scenario is a worthwhile one. However, instead of encouraging energy conservation among the lower income homeowners, the RCS Program has developed into a "seal of approval" for upper income homeowners who have already taken steps to improve energy efficiency. Low-income individuals generally do not utilize the service, and furthermore, if they do, they seldom have the financial resources to take the action recommended by the utilities as a result of the energy audit.

The real cost of an audit is almost nine times as high as the allowed utility charge. Therefore, the cost of the service is included in the rate base for all utility customers. As a result, nonparticipating, low-income households are actually subsidizing the energy audits for their affluent neighbors.

Additionally, the cost-effectiveness of the RCS Program and the participation rate have been tremendously disappointing. The program has elicited response from only 4 percent of eligible participants, despite extensive utility advertising, and has resulted in minimal energy savings. Audited customers, who took conservation steps only marginally more often than those not audited, saved only 2.8 percent in dollar savings compared to nonaudited customers. It is estimated that the RCS Program has only reduced national energy use by one-hundredth of 1 percent.

The manner in which the Department of Energy has chosen to implement the program has made the RCS Program even more ineffective. States must follow rigid Federal guidelines in structuring the program, and DOE has virtually no flexibility in granting States leeway in fashioning the program to meet individual State needs.

The State of Iowa was one of the first States to adopt a RCS Program and conducted exhaustive studies to tailor the program to benefit Iowa's energy customers. The State found that in addition to offering its full-blown federally mandated audit, it could offer a scaled-back audit which concentrates on installation of low-cost quick-payback items, such as caulking and furnace wraps.

This program has achieved a 40-percent participation rate in Fort Dodge, ten times the participation rate nationwide, and promises more energy conservation than the DOE-approved program. The Department, however, has determined that Iowa is not in compliance with Federal guidelines and has threatened to step in and run Iowa's program under the Federal standby plan.

It seems incredible to this Senator that a State could develop a superior plan to the Federal RCS Program, one that is better suited to its energy consumers and has an outstanding participation rate, and not be allowed to operate such a program.

It is clear that the residential conservation service as it exists today is not an effective means to achieve energy conservation. However, it is kept alive under the guise of being proconsumer. I suggest there is little about the program that is proconsumer or proconservation. Rather, it has become an infrequently used service utilized by those most able to afford an energy audit, the cost of which is picked up by the entire rate paying public in the form of higher utility bills.

Mr. President, I would just as soon see the Residential Conservation Program repealed, to allow those States that are serious about pursuing energy conservation programs a chance to do so without Federal interference. If my colleagues insist on extending the RCS Program, however, I urge them to adopt this amendment. This amendment will allow States and utilities the flexibility to operate alternative conservation programs which are as effective or more effective than the DOE Program.

Mr. NICKLES. Mr. President, I move adoption of the amendment.

The PRESIDING OFFICER. Without objection, the amendment is agreed to.

The amendment (No. 551) was agreed to.

Mr. NICKLES. Mr. President, I have no further amendments. Unless someone else has an amendment, and I hope they do not, I am prepared to move to third reading.

Mr. EVANS addressed the Chair.

The PRESIDING OFFICER. The Senator from Washington.

AMENDMENT NO. 552

Mr. EVANS. Mr. President, I hate to disappoint my colleague, but I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Washington [Mr. EVANS], for himself, Mr. DANFORTH, Mr. HARKIN, Mr. BENTSEN, Mr. KENNEDY, Mr. CRANSTON, Mr. BOSCHWITZ, Mr. GORTON, Mr. KERRY, Mr. PELL, Mr. PROXMIRE, Mr. WEICKER, Mr. EAGLETON, Mr. HEINZ, Mr. COHEN, Mr. INOUYE, Mr. MATSUNAGA, Mr. LAUTENBERG, Mr. BAUCUS, and Mr. HOLLINGS, proposes an amendment numbered 552.

Mr. EVANS. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(a) Since: (1) This Nation should pursue an energy policy that encourages energy efficiency and reduces our vulnerability to interruptions of foreign supplies;

(2) Corporate average fuel economy (CAFE) standards, in addition to price-induced conservation, have been responsible for the near doubling since 1975 of the average fuel economy of new cars sold in the United States;

(3) Previous Government estimates of United States domestic oil and gas reserves, especially offshore supplies, recently have been revised significantly downward;

(4) General Motors, Ford, and a number of Japanese and European automobile manufacturers have petitioned the Administrator of the National Highway Traffic Safety Administration (NHTSA) to roll back the CAFE standard beginning with the 1986 model year; and

(5) The Administrator has issued a notice of proposed rulemaking to reduce the current standard from 27.5 mpg to 26 mpg.

(b) It is the sense of the Senate that the Administrator of the National Highway Traffic Safety Administration (NHTSA) should retain the CAFE (corporate average fuel economy) standard for passenger automobiles specified in current law.

Mr. EVANS. Mr. President, I ask for the yeas and nays on the amendment.

The PRESIDING OFFICER. Is there a sufficient second. There is a sufficient second.

The yeas and nays were ordered.

Mr. EVANS. Mr. President, over the past few weeks we have been subjected to, first, a ruling by the Environmental Protection Agency and, second, by the Department of Transportation, both of which affect the fuel efficiency standards on American automobiles. The combination of these two amendments represent, in my view, a serious relaxation of a long-standing devotion to greater fuel efficiency and the benefits that brings in energy independence to the United States.

Let me read the first two paragraphs of a letter I sent to my colleagues a few days ago.

Corporate average fuel economy standards have been under assault in recent weeks. Within the past month the Environmental Protection Agency promulgated a final rule that grants credits to automobile manufacturers for their fuel efficiency achievements retroactively to 1980. The effect of the EPA action is to lower the standards for new automobiles from .3 to .8 miles per gallon.

If that weren't enough, last week the National Highway Traffic Safety Administration took a similar step and issued a proposed rule which would, if made final, result in lowering congressionally established fuel efficiency standards from 26.5 to 26 miles per gallon. I believe those decisions are unwarranted, uncalled for and unwise.

I recently introduced Senate Resolution 78 which expresses the sense of the Senate that the Administrator of the National Highway Traffic Safety Administration should not roll back the standards. By passing the resolution during the public comment period, which ends on August 21, the Senate can express to the Traffic Safety Administration the view that it

is imperative we not step back from our commitment to energy conservation. Today I have introduced an amendment, the language of which is identical to that resolution.

To some who say that we have already passed 10 years ago a fuel efficiency standard and that encompassed in that was the authority for the Secretary of Transportation to eliminate or to rollback that standard, certainly, it is also true that the Senate, like all other Americans, has the opportunity to comment and to offer its opinion to the Secretary of Transportation during the comment period which ends on August 21. That is precisely what this sense-of-the-Senate resolution does, offer the comments of this body on what the Administrator, quite legitimately, has the power to do, and that is to relax those standards.

But I hope this effort will be sufficient to cause the Administrator to propose a final rule calling for no rollback. If that does not happen, and if there is no rollback, I suspect I will once again come to the Senate, this time with an amendment that is more specific in nature.

I am offering this amendment at what might be considered a curious time. We seem to be awash in oil. Gasoline prices are falling. OPEC seems to be in substantial disarray. All in all, our immediate energy picture, insofar as transportation is concerned, appears to be positive indeed.

However, I am not sanguine about our energy future and I do not think any American ought to be. That goes particularly if we fail to consistently strive to save and use as efficiently as possible whatever energy whenever we can.

I am not here to propose draconian measures. I am not here to force us into the unhappiness that some kinds of energy conservation might provide. But I remember the deep unhappiness of 10 years ago, the long gasoline lines, the sharp increases in energy prices, the emergencies which we faced and found difficult indeed to react to.

It seems logical that if we are at all serious about energy conservation, if we are at all concerned about the dependence on foreign oil, we should look for solutions to that sector of the economy that uses the most petroleum, the transportation sector.

Over 60 percent of all petroleum used in this Nation is used by the transportation sector.

Let us look at the future a little bit. We know what the past has been. Anyone who can remember the last 10 years remembers the successive fuel crises and fuel shortages which we went through. Everyone, if their memory is not too short, remembers that gasoline once cost 25 to 30 cents per gallon and is now five times that.

A 1985 study by the Energy Information Administration of the Department of the Interior states that from 1985 to 1995, the next 10 years, domestic production of petroleum will fall from 11.1 to 7.6 million barrels per day. Net oil imports during the same period will rise from 5.1 to 11.7 million barrels per day. That is a doubling of imported oil, and even if we are much more successful than is now anticipated in domestic search and bringing into production of domestic oil, we still will gradually, inexorably, unless we uphold the highest of efficiency standards, move toward a greater and greater dependence on imported oil once again.

Where had these imports come from? Well, 57 percent of the world's proven oil supply and oil and gas reserves lie under the sands of Middle Eastern countries. Another 12 percent is controlled by Communist-bloc countries. Moreover, many countries we now rely on for oil, such as Ecuador, Indonesia, and Nigeria, are developing countries which, within the next decade, will likely use virtually all the oil they produce or all that their own development demands. Available oil supplies then will be increasingly concentrated in the hands of Saudi Arabia, Iraq, Iran, and, to a lesser extent, Kuwait and the United Arab Emirates.

Mr. President, we have been down that road once. We did not like it. Through fuel efficiency standard legislation and a good many other private and public initiatives, we have extricated ourselves from that grip. Are we now going to undo all that we have done during the past 10 years and, once again, be subject to an OPEC cartel? Another estimate by the Office of Technology Assessment indicates a dramatic reduction in expected U.S. petroleum reserves. Most is due to downward revision in reserve estimates for the Alaskan North Slope where, 4 years ago, we expected 12 billion barrels. Now it is down to a little over 3 billion barrels. For the entire United States, that same Office of Technology Assessment said that reserve estimates for oil have dropped by 55 percent and for gas by 44 percent.

Mr. President, I hope and I think everybody in this body hopes that they are wrong. I hope and everyone in this body hopes that new discoveries will be made domestically. But the most optimistic picture of all does not do much better than hold us at current expectations for production domestically. And if we are going to embark on larger and larger total use, particularly in the transportation sector, we are simply going to be faced with a greater dependence on imports.

That is why I am here today, Mr. President. But, frankly, I am saddened that I feel impelled to support energy conservation standards that are being assaulted by some of our largest automobile makers. These automobile makers, for the better part of this century, have, in many respects, been the miracle workers. As they have grown, they have faced challenges boldly. They have, through ingenuity and perseverance, accomplished extraordinary engineering feats. They have offered millions of jobs to Americans and they have helped fuel the dramatic industrialization of this Nation. They have always been on the offensive and they have been the challengers. Now, however, I am afraid we can best characterize them as defensive. Their response to competition from Japan was to cry out for import restrictions. Now they are saying let the free market decide whether fuel efficiency standards are required.

You really cannot have it both ways. A totally free market would reopen to the American consumer as many imported automobiles as they felt they wanted to buy. The automobile manufacturers do not want that. I am not even sure that the country wants that. But we ought to understand that it is not a totally free market. We ought to understand that every time we put limits on imports, the price to the consumer for automobiles, both domestic and foreign, goes up. The result has been fewer and higher priced imports, less choice for the American consumer, and even higher prices for American automobiles.

Now they have cried out once again for relief—relief which was in an act that was passed almost 10 years ago.

President John Kennedy, when he first came into office, gave a dramatic speech to America suggesting that we focus on space and that, within 10 years, we put a man on the Moon. We did not have the technology at that time to do it. We were a long way from anything other than the very first American satellite which had been put into space. But less than 9 years later, the first American did stand on the Moon, a dramatic response to American ingenuity.

Almost 10 years ago, Congress asked the automobile manufacturers to meet certain standards in terms of automobile fuel efficiency. I suggest that was a whale of a lot smaller technological request than the one President Kennedy laid before this Nation 25 years ago. But they have not met it as dramatically, at least some. They come back to Congress saying they just cannot do it because the marketplace will not allow it; people want to buy bigger and bigger cars.

But that is not the real case, Mr. President. There are many families in America who need larger cars. There are many who have a good many children; there are those who want roomy station wagons. But what is really at stake here? It is not those automobiles, many of which, according to today's technology, can, in conjunc-

tion with the other mix of automobiles, readily meet the fuel efficiency standards. What relief are the automobile companies really crying out for?

Well, it is for the ability to sell more gas-guzzling vanity cars, the pretentious, flamboyant, ostentatious, splashy automobiles, not those that are needed by American citizens because of large families or for other reasons. What I do object to is that the manufacturers simply have failed, compared to their aerospace competitors, to meet the national challenge set a decade ago.

The technology is here today. It is available now. It is being used in some automobiles. Let us make no mistake, the staff doing the analysis at the National Highway Traffic Safety Administration recommended against lowering the standards. The staff which did the analysis recommended against lowering the standards. It was only as the recommendations went up the ladder in the Department, away from those who did the analysis and toward those who are the policymakers, that somehow, that recommendation was changed.

The biggest single factors—let us face it—for Ford and General Motors not meeting the standards was their failure to discontinue production of fuel-inefficient cars as they introduced their new technology successors of the same size, the same capacity, the same result insofar as consumers were concerned.

The overall conclusion of the National Highway Traffic Safety Administration staff was that in relation to the technology we now have available and which is now being utilized in automobiles on the market, many cars still being sold are too heavy, the engines too large, and there are too few new and fuel-efficient transmissions.

The sales mix is not the problem. Manufacturers are today selling more small automobiles as a percentage of the total mix than was anticipated in 1977. If there is such a demand for big cars, I would expect General Motors and Ford to retool those plants and build the new-technology cars and comply with the law instead of spending their efforts to buy computer and defense companies.

Let me give a couple of very specific examples, Mr. President, and there are scores of others like them, of the difference between new- and old-technology automobiles.

A Chrysler Fifth Avenue is even an old technology car. They might not quite agree with that, but nonetheless the list cost is approximately $18,000, a six-passenger car with rear-wheel drive and a V-8 engine. The EPA miles per gallon in the city is 16. On the highway it is 21 to 24. A Chrysler New Yorker with new technology, same price, same size, four-cylinder turboengine and front-wheel drive, miles per gallon, in the city, 22; highway, 25 to 27. And to quote the automobile dealer, "Basically, the same car in terms of what it will do for you." But certainly different in terms of what it does for fuel efficiency—22 in the city compared with 16; 25 to 27 on the highway compared with 21 to 24, and that difference is ample to allow fuel efficiency standards to be met.

Well, another example. From General Motors. The Fleetwood Brougham Cadillac, which is the top of the line, the old model, still being sold, rear-wheel drive, 4.1-liter engine, four-door automobile, $27,000 to $30,000, city mileage 16, highway 22. The new, essentially same automobile in terms of passengers and what it will do and how it will take you from place to place, in style I might add, is a front-wheel drive, same engine, about $1,000 less expensive, same size, city gasoline mileage 18½, and the highway 24½, in both cases about 2½ miles per gallon better than the old model.

If the major automobile manufacturers raised their big car miles per gallon by an average of 2.7, they could clearly meet the standards. They could do it. They not only have the technology, they are already manufacturing the automobiles. If they want to build the old automobiles, the old models, with the old technology, even if the list price is the same, I suspect the difference is that the automobile manufacturers have long since depreciated the cost of that automobile in terms of its design and have an exceptionally large profit margin in those old automobiles as compared with the new.

Remember, this has not been just something recent. They have had 10 years to come into compliance.

I am a little disturbed—more than a little disturbed, I am greatly disturbed by the economic blackmail by Ford and General Motors. They argue that if the standard is not lowered, they would have to restrict large car production and cut jobs so as not to be in an "unlawful" situation. Now, how gullible do they think we are? This is a specious argument used by the automakers as a smokescreen to obscure the fact that it was the automakers themselves that made the conscious marketing decisions which caused them to miss the standard.

Now, we all ought to understand, and particularly those consumers who go into buy automobiles, that the profit on a large car can be upward of $1,500 while on a smaller car only a couple of hundred or less. Obviously, it is in the best interests of the manufacturers to sell as many large automobiles as they can and especially those large automobiles of old technology where the profit margin is even larger. Their objective, as I suppose it should be, is to maximize profits. No doubt they decided they could make more money by holding back on capital investments and selling old technology big cars and then pay the fine. They could do that and end up better off than if they met their legal obligation. But I want to indicate that the job analysis can cut both ways.

Right now, to be counted as part of a domestic manufacturer's fuel efficiency, a car must be manufactured, at least 75 percent of it, in the United States. Thus, if carmakers want to build large, low mileage cars, they must build compensating small automobiles in the United States to meet the standards.

If we lower the standard, presumably they then can abandon a share of their small car production or move it overseas, which some are already suggesting doing.

Now that it is apparent that General Motors is going to build their Saturn plant in Tennessee, as reported at least in several newspapers, maybe we do not have to worry about that overseas production at least for that one company, but I think we ought to remember that very clearly, that to the degree we lower standards in order to supposedly continue the manufacture of larger automobiles, we give the automobile companies a chance to move smaller automobile production overseas.

Now, while the focus of this proposal is on the Department of Transportation, I think it is important to mention at least in passing the recent decision of the Environmental Protection Agency because they both work in concert. As we look at legislation in the future, I want to serve notice that we ought to look—and we will insofar as I can have you look, Mr. President—at ways to ensure that future adjustments in the way we measure fuel efficiency take into account those factors which have the effect of lowering the standards but also those factors which have the effect of increasing standards. EPA made a selective decision just a month or so ago. They added up all of the factors that would result in lowering the measurements on fuel efficiency, and even though the staff and the analysis which had been done showed there were other factors which would have raised the measurement, they chose to ignore those. It was a one-sided operation, a benefit, a bonus, if you will, to all of those manufacturers who were having their automobiles measured.

Now, Mr. President, while I am saddened by the inability of those great manufacturers of this Nation to meet even a respectably small technological requirement, I am outraged at what has been happening at the National Highway Traffic Safety Administration. Let me be very clear. The automobile makers, while they have been

begging for a rollback, have at the same time been making a much less well publicized appeal for carryback credits from future years. Let me reiterate that. A much less well publicized, in fact pretty confidential, appeal for carryback credits from future years. Now, in order to get carryback credits a manufacturer must exceed the standard. The Traffic Safety Administration has proposed that the standard be reduced to 26 miles per gallon for model year 1986. Now, in confidential memorandums which have been submitted to the National Highway Traffic Safety Administration, in estimates by automobile companies for their average miles per gallon, to be achieved in 1986—and listen to this—they reduce the standards to 26 miles per gallon. Ford estimates it will achieve 26.4. GM will achieve 26.2. Chrysler will achieve 28.1. That makes the Highway Transportation Agency and everyone who votes against this amendment even more generous than Santa Claus. They are going to give presents even when you have been bad, for heaven's sake.

The automobile companies cannot meet the standards. They ask for relief. Relief is granted. That puts them at the point where they not only meet but beat—you might say by just a small margin—the standards in 1986. But if the estimates of those mileages submitted by the companies are correct and if you assume 1984 sales levels, General Motors next year, instead of being out of compliance, will get a credit of approximately $48 million, while Ford will get a credit of approximately $41 million.

I think it is unconscionable for us to relax the standards and, in relaxing the standards, to give them a credit, to allow them to pursue the same old technologies and miss, for even more years, the fuel efficiency we asked them to gain 10 years ago.

Mr. President, I will conclude by reading from a letter written by a man whose automobile company has met the challenge set by Congress. I hold no brief, necessarily, for any of the automobile manufacturers. I might say that few, if any, of them have plants in my State. My own constituents buy a good many of their products from all three manufacturers. I admire all of them, as I have said, for the enormous contributions they have made to the American economy in the last 80 years, but that does not make this a right thing to do. So let me read a portion of this letter from the chairman of the Chrysler Corp., Lee Iaccoca. It is from a letter written to Secretary Dole, a copy of which was sent to my office. He says:

But the unfairness the Chrysler isn't as important as the unfairness to America.

Ten years ago, the whole country was held hostage by OPEC. We had a gun to our head, and reacted responsibly by getting tough on ourselves. The EPCA Act of 1975 was designed to reduce our vulnerability, and it has been effective. Now we're considerning relaxing that discipline, and leaving ourselves open to becoming hostages again. But the deteriorating situation in the Middle East should move us toward a tougher, not an easier, energy policy, because we don't know who will control all that oil in the future.

Instead of asking for renewed discipline, the administration is sending wildly mixed signals on energy. For example, between the first and second Treasury Department tax reform proposals, someone determined that the oil interests should keep a $30 billion break because we need an adequate fuel supply for national security.

Now the Transportation Department is considering relaxing the CAFE standards, which, if enforced, would help accomplish the same thing.

A barrel of oil is a barrel of oil, whether you pump it or save it. So, if the oil is precious, it doesn't make sense to give tax breaks to produce more, and then relax the CAFE law so people can burn more.

I don't understand those mixed signals.

I do, however, after 40 years as a businessman, understand profits. I'm afraid, in this case, I understand them all too well.

I also understand how our tax policies give Americans the cheapest gas in the world. And that there is very little economic incentive for the consumer today to save gas. Dialing back the CAFE standards can only hasten our return to the profligate ways of our past.

I think if we should have learned anything from the energy crises of the seventies, it's that effective energy planning has to be disciplined, and it has to look ten years ahead.

Relaxing the CAFE standards would not be looking ahead. It would be looking back, and not back ten years when we were unified in our determination to be energy independent, but back twenty years when we were mindlessly joyriding into an ambush.

Ten years ago, the public blamed shortsighted leadership in Detroit for our problems. The next time, the blame will clearly fall on shortsighted leadership in Washington.

As chairman of Chrysler Corporation, and as an American, I intend to take every opportunity during the coming months to oppose the easing of the CAFE standards. I intend to point out how patently unfair it would be to Chrysler, and how dangerous it would be for all Americans.

Mr. President, I ask unanimous consent that the entire letter from Mr. Iaccoca be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

CHRYSLER CORP.,
July 22, 1985.

Hon. ELIZABETH H. DOLE,
Secretary of Transportation,
U.S. Department of Transportation,
Washington, DC.

DEAR MRS. DOLE: Recently you and I had a frank and positive discussion on dialing back the passenger car CAFE standards. I gave you my views on the implications for Chrysler and, much more importantly, for the country. So you can understand my deep disappointment July 18 when NHTSA issued its NPR to take the 1986 standard down from 27.5 to 26 MPG.

It appears that for the second time in a year, the administration may send the strongest possible signal to the American public that the energy crisis is over. And it will also send another signal—that companies who ignored that crisis, and the law of the land, will be rewarded for their foresight.

I've already told you how unfair this is to Chrysler. We invested billions to meet the law. We proved that the standards could be met. We did so because we believed the law made sense, and because we fully expected to pay a severe penalty for not meeting it.

General Motors and Ford, with their great resources could have met the law with even less effort. They chose not to. They chose not to invest in the technology, but rather to produce larger, less fuel efficient, and more profitable models that they knew all along could not meet the law.

They now say that it is simply consumer demand that keeps them from meeting the standards. Doesn't anybody understand that curbing demand for these cars is exactly what the law was intended to do? Of course there is some demand for these cars, largely as a result of cheap gas. But if that demand were as pressing as the others say, you would not see the sales incentives that exist today on those cars.

The facts are simple:

It's technologically feasible to meet the law. Chrysler has proved it.

It's economically feasible to meet the law. Chrysler has never been more profitable than it is today.

Chrylser invested to meet the law, and the other companies did not.

Some people have tried to cloud these simple facts with phony claims and idle threats. It's not true, for example, that Chrysler only meets the law because it offers a limited product line. We sell a complete line, and as the attached chart shows, our sales in the "family segments" of the industry are substantially above Ford's. We also satisfy customer demands for larger, upscale cars, but we do it within the law.

And I hope nobody takes seriously General Motors's threat to reduce big car production and throw people out of work if the standards aren't lowered. It won't happen. There's too much profit from those models, even with the penalties under the current law.

If the standards are eased, Chrysler will pay a competitive penalty for obeying the law. The others, meanwhile, reap a windfall for scoffing at that law. They've already avoided the investment in technology. They'll avoid the penalties stated in the law. And they'll continue to enjoy the higher profits that come from the very cars that the law was intended to eliminate.

But the unfairness to Chrysler isn't as important as the unfairness to America.

Ten years ago, the whole country was held hostage by OPEC. We had a gun to our head, and reacted responsibly by getting tough on ourselves. The EPCA Act of 1975 was designed to reduce our vulnerability, and it has been effective. Now we're considering relaxing that discipline, and leaving ourselves open to becoming hostages again. But the deteriorating situation in the Middle East should move us toward a tougher, not an easier, energy policy, because we don't know who will control all that oil in the future.

Instead of asking for renewed discipline, the administration is sending wildly mixed signals on energy. For example, between the first and second Treasury Department tax

reform proposals, someone determined that the oil interests should keep a $30 billion break because we need an adequate fuel supply for national security.

Now the Transportation Department is considering relaxing the CAFE standards, which, if enforced, would help accomplish the same thing.

A barrel of oil is a barrel of oil, whether you pump it or save it. So, if the oil is precious, it doesn't make sense to give tax breaks to produce more, and then relax the CAFE law so people can burn more.

I don't understand those mixed signals.

I do, however, after 40 years as a businessman, understand profits. I'm afraid, in this case, I understand them all too well.

I also understand how our tax policies give Americans the cheapest gas in the world. And that there is very little economic incentive for the consumer today to save gas. Dialing back the CAFE standards can only hasten our return to the profligate ways of our past.

I think if we should have learned anything from the energy crises of the seventies, it's that effective energy planning has to be disciplined, and it has to look ten years ahead.

Relaxing the CAFE standards would not be looking ahead. It would be looking back, and not back ten years when we were unified in our determination to be energy independent, but back twenty years when we were mindlessly joyriding into an ambush.

Ten years ago, the public blamed shortsighted leadership in Detroit for our problems. The next time, the blame will clearly fall on shortsighted leadership in Washington.

As chairman of Chrysler Corporation, and as an American, I intend to take every opportunity during the coming months to oppose the easing of the CAFE standards. I intend to point out how patently unfair it would be to Chrysler, and how dangerous it would be for all Americans.

Sincerely,

LEE IACOCCA.

[From the Wall Street Journal, May 13, 1985]

CHRYSLER: A FULL-LINE MANUFACTURER? YOU BET!

Chrysler Corporation responds to all of the demands of the automotive marketplace with a full line of modern, fuel-efficient vehicles which meet the needs of Americans in all walks of life. These vehciles—products of some of the most technologically-advanced assembly plants in the world—range from the sub-compact Omni/Horizon to the luxurious Chrysler Fifth Avenue and the turbopowered, front-wheel-drive New Yorker to the most innovative automotive people mover in America—the Caravan/Voyager mini-van which, with its front-wheel-drive, fuel-efficient, 4-cyclinder power plant and its easy-access, 7-passenger capacity, makes the so called "large family station wagon" an anachronistic throwback to an era now outmoded and passed by.

For some reason Chrysler's competitors point to the EPA fuel economy categories to support a contention that Chrysler is not a full-line manufacturer. Using the EPA measuring stick, Chrysler is clearly a full-line manufacturer with more than 62 percent of its 1985 model year car sales in cars which EPA rates as mid-size and larger. Ford Motor Company, by contrast, has only 36 percent of its sales in these categories which it claims are necessary to be considered a full-line manufacturer. (see attached chart)

The argument that Chrysler is not a full-line manufacturer leans on the fallacious presumption that says you have to stick with the outmoded technology of its competitors which market big "luxury" cars accounting for barely 5 percent of all car sales and large wagons which manifest "bigness" and "conspicuous consumption" with little or no regard for efficiency of passenger packaging or fuel utilization.

State-of-the-art, front-wheel-drive technology coupled with space-saving, transverse-mounted, 4-cylinder power plants has enabled Chrysler to offer downsized vehicles from the utilitarian to the luxurious and still meet the CAFE standards of the Energy Policy and Conservation Act.

A look at Chrysler's 1985 fleet confirms its commitment not only to fuel economy but to responding to the transportation needs of all America! Chrysler's hugely successful mini-vans are an excellent example of this commitment. The Plymouth Voyager and the Dodge Caravan prove that modern technology and fuel economy will sell extremely well and that it is not necessary to persist with outmoded 1970-era vehicles to satisfy "market demand."

Chrysler is clearly responding to the dictates of these "market forces" while it compile with the law. Chrysler's share of the domestic car market has improved by 30 percent over the past five years; GM's has remained flat!

In summary, the "full line" argument is just a smokescreen not supported by an objective look at the facts. The facts remain incontrovertible—Chrysler meets the requirements of the law—GM and Ford do not! All manufacturers had the same 10 years to meet the CAFE standards. Chrysler did the job! GM and Ford did not!

1985 SALES RESULTS IN FAMILY CARS

CHRYSLER VS. FORD

(1985 Model Year Sales through June 20, 1985 Mid-size and Larger Cars Per the EPA Classification):

Percent of Each Company's Car Sales in the "Family Segments."

Chryler—62.8 percent.

Ford—36.0 percent.

(1) Actual number of cars sold model year through 6/20/85:

Chrysler—514,427.

Ford—547,109

Without including the modern, state-of-the art Caravan/voyager mini-vans, Chrysler comes within 32,632 units of outselling Ford.

(2) Chrysler Caravan/Voyager sales are more than double the combined sales of Ford's mid- and large-size outmoded rear-wheel-drive station wagons—154,892 vs. 66,000.

Mr. EVANS. Mr. President, as I said earlier, I do not speak here on behalf of any one automobile company nor against any one automobile company. Rather, I speak on behalf of sensible energy conservation administration. I believe we were right 10 years ago. We have made remarkable strides, and it is no time at this point to retract from those.

Mr. NICKLES. Mr. President, will the Senator yield for a question?

Mr. EVANS. I yield.

Mr. NICKLES. Mr. President, I appreciate the efforts of the Senator from Washington in energy conservation. I have the pleasure of serving with him on the Energy Regulation Conservation Subcommittee. He is a faithful and diligent member and works very hard and does his homework.

Does the Senator from Washington find it a little inconsistent that the chairman of Chrysler Corp., Mr. Iacocca, criticizes the Department of Transportation for the proposed rollback from 27.5 miles per gallon to 26 miles per gallon, when in 1979 they petitioned successfully the Department of Transportation to revise the light truck fuel economy standards, I believe, from 18 miles per gallon to 16.7 miles per gallon for two-wheel drive trucks, and from 15.5 miles per gallon to 15 miles per gallon for four-wheel drive trucks?

How could it make sense that he would be so critical of a rollback today for automobiles, but successfully petitioned for a rollback a few years ago for their light trucks?

Mr. EVANS. That is a question the Senator, obviously, would have to ask Mr. Iacocca.

I said that I do not in any respect carry the water for any automobile company, nor do I attempt here to object to any automobile company in the management of their own affairs.

What I am here today to suggest is that we continue to need to have good, overall fuel efficiencies.

I suspect if you added all those together, including the amounts that were dropped so far as Chrysler Corp. is concerned, they would still be over all fuel efficiency standards. They are still above the standards by a substantial amount. The expectation next year is that it would be 28.1 miles per gallon, which is 0.6 of a gallon on their overall automobile fleet more than is called for by our amendment.

As to the specifics of that, I do not know. The Senator would have to ask Mr. Iaccoca.

I suspect that I would have objected just as strenuously to that reduction then. I did not have the opportunity that I have today, but I would be just as strenuous in my objection then as I am now.

Mr. NICKLES. I agree with the Senator. Personally, I find that somewhat inconsistent on behalf of Chrysler.

Let me ask another question:

The Senator mentioned that the Department of Transportation staff or the National Highway Traffic Administration staff was also against the rollback. I conducted hearings and participated in the hearings, as did the Senator, before the Commerce Committee. I never heard that in the statements made by any of the Administration witnesses to that effect.

Also, I am concerned about hearing it. I wish to know if there is any substantiation of that fact.

I am aware of the fact that the Department of Transportation staff did prepare the economic impact analysis which clearly reflects the need to go to 26 miles per gallon.

So is there any clarification that the staff was reversed in this case?

Mr. EVANS. Of course, the people we heard from in the hearings were the administrators and the policymakers of that division. We have looked at a good many of the materials that had been drafted by their staff and, just as I have said that staff material, the analytical material, suggested that this not be a wise idea.

I think the policymakers make the determination from all that they have in front of them and they essentially made their determination.

Mr. NICKLES. I appreciate the Senator's response.

Mr. EVANS. Mr. President, do I still have the floor?

The PRESIDING OFFICER (Mr. COCHRAN). The Senator from Washington does have the floor.

Mr. EVANS. I shall be brief. Mr. President, I will conclude very shortly.

Mr. President, I ask unanimous consent that Senator BENTSEN and Senator BIDEN be added as original cosponsors of the amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. EVANS. Mr. President, I ask unanimous consent to have printed in the RECORD a letter supporting Senate Resolution 178 and this amendment signed by 20 public interest organizations; an article by Hobart Rowen in the Washington Post, Thursday, July 25, 1985; an editorial in the Los Angeles Times of May 28, 1985; an article in the New York Times, Tuesday, May 21, 1985; an editorial in the Spokane, WA, Spokesman-Review of June 14, 1985; and an article in the New York Times, Sunday, July 21, 1985.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

JULY 16, 1985.

DEAR SENATOR: We, the below signed representatives of twenty public interest organizations, are concerned about the future of the federal fuel economy program, and urge you to support Senator Evans' S. Res. 178—which expresses opposition to a rollback of the automobile fuel economy standard—and other efforts aimed at protecting the standards.

S. Res. 178 was introduced in response to the National Highway Traffic Safety Administration's (NHTSA) apparent willingness to grant a Ford and GM request to roll back the passenger automobile fuel economy standard from 27.5 mpg to 26 mpg for 1986 and subsequent model years.

Rolling back the standard would reserve eight years of steady increases in the passenger auto fuel economy standard. It would be an admission that our energy problems are behind us, and that we can relax our drive toward energy efficiency. Yet, our energy problems are not behind us. Despite the current oil glut and low oil prices, long-term oil problems are still severe and demand long-term plans to deal with them, like improved auto fuel economy. The International Energy Agency issued a report only a few weeks ago warning of potential world oil supply problems starting in 1990.

A rollback of the standard is not the first time the fuel economy program has been weakened. In fact, it would follow a long succession of changes that have weakened the program.

NHTSA staff devoted to the fuel economy program has been cut from its 1980 level of 27 employees to its present level of 6. Many of the agency's fuel economy research records have been discarded and its research stopped. At the end of 1984 the light truck fuel economy standard was rolled back from 21 mpg to 19.5 mpg. The Department of Energy has drastically cut its publication of Gas Mileage Guides (a statutorily mandated consumer guide that lists new car and light truck fuel economy ratings). The Federal Trade Commission is now proposing that advertisers of new cars be allowed to use the fuel economy ratings of their choosing in their advertisments, instead of the standardized EPA rating. And most recently, the EPA changed its method of calculating automobile fuel economy, which has the effect of substantially weakening the fuel economy standards and relieves the auto companies of hundreds of millions of dollars of fines for failing to meet the standards.

The record is long and consistent. The fuel economy program is being destroyed, and is in near shambles. A rollback of the standard is almost enough to render it totally ineffective.

Were it not for the enormous conservation efforts of the United States over the last ten years, and the near doubling of automobile fuel economy required by the federal mileage standards, our country might not now be enjoying the fruits of cheap and plentiful oil. Lest we be surprised by expensive and scarce oil again, for a third time, our drive for efficiency should continue. Please help prevent a rollback of the standard.

Sincerely,

Marc Ledbetter, Energy Conservation Coalition; Jan Beyea, National Audubon Society; Debbie Bleviss, Federation of American Scientists; Ruth Caplan, Environmental Action; Karl Gawell, National Wildlife Federation; David Goldstein, Natural Resources Defense Council; Jaydee Hanson, United Methodist Church, Board of Church and Society; Brooks Yeager, Sierra Club; Mark Cooper, Consumer Federation of America; Charles M. Clusen, Wilderness Society; Paul Markowitz, Public Citizen; Joan Moody, Solar Lobby; Norris McDonald, Environmental Policy Institute; Robert Percival, Environmental Defense Fund; Grant Thompson, Conservation Foundation; Linda Golodner, National Consumers League; Geoff Webb, Friends of the Earth; James McKenzie, Union of Concerned Scientists; Ellen Berman, Consumer Energy Council of America; Clarence Ditlow, Center for Auto Safety.

[From the Washington Post, July 25, 1985]

COP-OUT ON FUEL EFFICIENCY

(By Hobart Rowen)

Ford and General Motors last week pulled off an outrageous coup: They pushed a weak-spined government regulatory agency into a tentative decision to reduce the federal fuel-economy standard for 1986 model cars from 27.5 miles per gallon to 26 miles.

Unless public indignation rises, forcing transportation Secretary Elizabeth Dole to reverse a ruling by the National Highway Traffic Safety Administration, this cop-out will lower the Corporate Average Fuel Economy standard mandated by a 1975 congressional act. In turn, this would short-circuit what has been a brilliant energy-conservation drive, a key factor in depressing oil prices and OPEC power.

Ford and General Motors told the NHTSA that unless the agency bowed to their demand, they would curtail production of bigger, high-performance cars that are selling well—and eating up more gasoline. The cost, the Ford and General Motors lawyers said, could be more than 100,000 jobs.

Horsefeathers!

Ford and General Motors—like Chrysler and Japanese and European car-makers—have had 10 years notice that they would be required to get average consumption down to 27.5 miles per gallon by this time. Chrysler, which strongly supports the standards and is put at a competitive disadvantage by the ruling, reportedly has spent close to $5 billion in obtaining the necessary fuel economies.

Nonetheless, the two biggest producers appear to have sold their sob story to NHTSA. It issued a preliminary ruling that Ford and GM would suffer "severe adverse economic consequences" if they obey the law. It's not the first time that the agency, operating in the Ronald Reagan-inspired deregulation atmosphere, has acted to take the industry off the hook.

Soon after Reagan took office, NHTSA began to sabotage a decision made earlier that fuel-economy standards in the post-1985 period would have to be even tougher "to assure that this country minimizes its reliance on imported oil."

Instead, the agency abruptly announced on April 16, 1981, that "market pressures are adequate" to curb petroleum use in the national interest. It's been downhill ever since. Clarence M. Ditlow III, director of the nonprofit Center for Auto Safety, ticked off NHTSA's anti-conservation steps in testimony before the Senate Commerce Committee:

Semi-annual reports the companies had been making on their progress toward achieving fuel efficiency were abandoned, and the agency made plain it had no interest in pursuing fuel-economy standards beyond 1985.

Standards for light trucks—advertised by the car companies as substitutes for passenger cars—were relaxed for 1984 and then for 1985 models. The latter step, Ditlow said, "we believe to be illegal since it was done after the model year . . . only to relieve GM and Ford of paying penalties."

NHTSA accepted GM and Ford excuses that they don't have the technology to meet tougher mileage standards. Chrysler Executive Vice President Robert S. Miller Jr. told the Senate Energy Committee on May 14, 1985: "Chrysler will meet the 27.5 MPG standard in 1986. Therefore, the standard must be technologically feasible. . . . So what's going on here? The technology is there, as Chrysler has proven."

What's going on? The answer is spelled M-O-N-E-Y. The major factor in the refusal of GM and Ford to match the mileage performance required by law, according to Ditlow, is the deferral of plans to replace old rear-wheel drive cars introduced in the mid-1970's with more efficient front-wheel drive cars of the same size.

It's not just "consumer demand" for rear-wheel drives that keeps the Ford LTD and Crown Victoria, or the Chevrolet Malibu and Caprice in production, says Ditlow, but the big bucks that go with each sale. With the investment costs on these cars long-since recovered, "these models are vitual cash cows," each yielding as much as $1,500 in profit.

Relaxation of the oil crisis doubtless has diminished the need for fuel efficiency in the eyes of some auto buyers. But the NHTSA, pre-Reagan, forsaw that a nation determined to conserve oil could not simply rely on the market, fulfilling whatever happens to be consumer demand. It noted that consumers continued to purchase, and the industry happily supplied, gas-guzzlers even after the 1973-74 Arab oil embargo.

A conscientious NHTSA said that it comes down to an issue of lead time: It takes about five years for the industry to put the technology of greater fuel efficiency into commercial applications. Now, by bowing to Ford's and GM's greed, easing the current standard, and abandoning the effort to do even better in the next decade, the Reagan administration, is once again playing into the hands of the oil cartel and exposing the whole nation to needless economic and political risks.

[From the Los Angeles Times, May 28, 1985]

LET THEM TRY HARDER

A decade ago, with the energy crisis much on its mind, Congress hardened its heart against the moans and groans of the auto industry and ordered tough fuel-efficiency standards for new cars. The payoff has been impressive. Steadily improved mileage gains have shaved foreign oil purchases by billions of barrels, and saved motorists billions of dollars. But now Ford and General Motors, most of whose business comes from selling bigger and thus less fuel-efficient cars, are crying for relief. They have the Reagan Administration on their side.

Ford and GM have fallen short of meeting the fuel standards for the last two years, but because of earlier success in meeting the requirements they had credits to offset these deficiencies. But now the credits are running out, and Ford and GM, unable to meet this year's 27.5-miles-per-gallon fleet average on the cars that they sell, face heavy fines. In Ford's case those could come to $150 million, and for GM as much as $500 million. The Big Two want the fuel-economy requirement rolled back to 26 miles per gallon. Both the Energy Department and the National Highway Traffic Safety Administration, which administers the standards, sympathize with that request.

The Administration's unsurprising position is that auto-efficiency standards should be set in the marketplace, rather than by government controls. Now the marketplace is a wonderful thing, and it can usually be counted on eventually to give consumers what they want. Of course, the last time there was a free market in cars millions of people each year chose to buy Japanese products, not least because of the superior mileage that they delivered compared to American models.

The free market worked so well in the late 1970's, in fact, that U.S. auto companies came close to losing their shirts and hundreds of thousands of auto workers lost their jobs. In response the Reagan Administration, without any great objection from a worried Congress, pressured Japan into slashing its auto exports. This form of government control, however, was considered salutary by everyone involved—except, of course, consumers, who had trouble getting the cars that they wanted and who were forced to overpay for what they bought.

Four years of quotas worked to keep at least 2 million high-mileage cars from Japan off American roads, and in so doing lowered the overall fuel efficiency of the U.S. vehicle population. Meanwhile, after 10 and more years of trying, the Big Two American auto companies find that they still can't economically build and sell enough small cars to raise their fleet-mileage average to acceptable levels. This they blame on the public's revived preference for the bigger and more profitable cars that they choose to build.

Chrysler, however, *is* able to build and sell small cars, and is able to meet existing federal mileage standards. That's why Chrysler opposes changing the mileage rules now. Its argument, and it's a good one, is that to roll back the standards would be to punish Chrysler for its success and put it at a competitive disadvantage in the marketplace. There's no more justification for doing that than there is generally for watering down the mileage standards. They've worked, to the national benefit, and they should be retained. Ford and GM ought to be told that they will just have to try harder.

[From The New York Times, May 21, 1985]

THE "FREEDOM" TO GUZZLE GAS

"Free-market factors," not Government, asserts the Reagan Administration, should determine how much gasoline America's cars consume. Therefore the Transportation Department wants to lower the current average standard of 27.5 miles per gallon, which Ford and General Motors are unable to meet. It also wants Congress to enact a looser standard for future years.

The Administration's argument is that the consumer knows best what products are worth buying. That's right, more often than not. But in the case of auto fuel consumption, the public is party to every purchase: it bears some of the costs. The more fuel cars consume, the higher the price of all oil and the greater the risk of a supply crisis.

Unless Government represents this public interest, the "free-market" choice is bound to be an inefficient one. A mileage standard for auto fuel is not the only way to correct this inefficiency, and it certainly isn't the best way. But for the moment, it is the only way we have.

Mileage standards were decreed by Congress in 1975. Since then, the amount of gasoline needed for the average new car has been nearly halved. With oil plentiful and getting cheaper, Ford and General Motors are struggling, unsuccessfully, to sell enough small cars to make the average for their entire fleets comply with the current standard.

Both are capable of turning out large, peppy cars that manage 30 or more miles to the gallon. But that would require expensive, radical retooling. Then why not let consumers buy the cars they want and pay the price at the pump? Because excessive gasoline consumption threatens national security.

Oil is now in glut. Yet American consumption is rising while American production is declining. Eventually, the world oil market will tighten again; the only question is when. Cars designed today for sale in the 1990's will still be on the road at the turn of the century. The gasoline they require will determine the degree of America's dependence on foreign oil suppliers.

Our foreign sources of oil are more diverse than in the 1970's, and our ability to cope with a shortage has probably improved. But even if we manage to avoid a 1979-style shock and the resulting worldwide recession, gas guzzling still would impose enormous costs on the entire nation.

The price of oil is highly sensitive to demand. If world consumption were to grow quickly by, say, 10 percent, prices would skyrocket and, at least for a time, OPEC would be back in the driver's seat. Conversely, if the major oil consuming nations could manage to grow without greatly increasing their oil consumption, their import bills would probably continue to fall for a while.

The ideal way to let these true market forces express themselves is to hold car buyers to account—by taxing gasoline, not the machines that consume it. Some consumers would then drive less. Others would choose smaller cars, or pay a premium for fuel-efficient cars. Still others would wince and pay up. The decision would be theirs; the real costs of their choices would be plain.

But Congress reacts to the idea of a gasoline tax the way 8-year-olds react to brussels sprouts. The awkward but appropriate alternative to such a tax is a mileage standard. A fine for the sale of too many high-consumption cars raises their price and forces the consumer to weigh the true cost.

The Administration is right to want commerce to be shaped by the market. But removing the mileage standard without substituting a gas tax is to distort the market and guarantee the wrong result.

[From the Spokesman-Review, Spokane, Wash., June 14, 1985]

NO TIME TO RELAX IN BATTLE FOR ENERGY SELF-SUFFICIENCY

American consumers, primarily motorists, have done an admirable job of curtailing their thirst for imported petroleum during the past five years.

When U.S. oil imports peaked in 1980, we gave foreign producers $74.9 billion worth of business. But by 1984, conservation conscious Americans imported only $51.7 billion worth of petroleum.

That progress seems to have inspired a misguided sense of confidence, at least at General Motors Corp. and Ford Motor Co. The nation's two largest automakers, unable to comply with fuel-efficiency standards set down by Congress in 1975, have petitioned the U.S. Department of Transportation to relax those requirements.

Transportation Secretary Elizabeth Dole could decide next week whether to reduce the corporate average fuel economy requirement from 27.5 miles per gallon to 26 miles per gallon.

This is one case when what is good for General Motors definitely is not good for the country.

The 1975 law, which established a timetable for achieving the 27.5-miles-per-gallon standard, provides for a rollback to 26 miles per gallon if automakers can convince the transportation secretary that other federal requirements, such as clean-air equipment, have had an adverse effect on mileage.

However, Ford's and GM's petition (which, incidentally, is supported by certain European automakers who also manufacture large cars) deals only in passing with the impact of airpollution controls on mileage.

Mainly, it dwells on the fact that American buyers want large cars and that the

price of gasoline has not soared to the levels that an embargo-stunned Congress expected 10 years ago.

Chrysler Corp., which has met the standards by putting more emphasis on small cars, objects to having Dole rescue its competitors from their own shortsightedness.

Chrysler has a legitimate complaint, but the automakers' marketplace dispute is overshadowed by a serious question involving national energy policy:

At a time when public commitment to conservation practices clearly is working, is it wise to abandon the effort and reward GM and Ford for working against the goal of energy self-sufficiency?

Even with the progress of the past five years, the nation continues to import a third of its oil. Last year, petroleum imports accounted for 48 percent of a record $107.6 billion U.S. trade deficit.

Washington's Republican Sen. Daniel J. Evans who has introduced a resolution calling on Dole to keep the current mileage standards in place, warns that a rollback would amount to serious erosion in the efforts to achieve energy independence.

The automakers can be expected to interpret moderation in the world petroleum market to their own advantage. Dole, like Evens, has an obligation to the public to take a more farsighted look.

[From The New York Times, July 21, 1985]

CAR MAKERS ARE GETTING BACK IN THE DRIVER'S SEAT

(By Reginald Stuart)

WASHINGTON—Forcing Detroit to design engines that did not burn vast amounts of gasoline once seemed a No. 1 priority among Federal rule-makers. So did the building of cars and trucks that would not fold like accordions in accidents. Complaints from automobile manufacturers about the cost of the Government's rules were largely shrugged off.

But now Washington's regulators are shifting gears, and some critics contend that the Reagan Administration has put the process into reverse. The Transportation Department last week proposed lowering the required fuel-economy standard for passenger cars for the 1986 model year to an average of 26 miles to the gallon, down from 27.5 miles a gallon.

The current standard failed to meet the statutory test of "economic practicability," the agency said, because the General Motors Corporation and the Ford Motor Company had said they could not reach the required mileage level without shutting plants that make less fuel efficient cars and laying off workers.

The change would allow manufacturers to sell bigger, less fuel efficient (and more profitable) passenger cars. It would also spare G.M. and Ford, the first and second largest automobile manufacturers respectively, from paying millions of dollars in fines for being unable to meet the higher standard.

A Ford official called the fuel proposal "a common-sense victory for consumers who need and want to buy family sedans and station wagons." General Motors, which had requested a three-year relaxation of the rules, said it would continue to seek a further reduction in the standard.

Last week's announcement was not exactly a surprise; in what was regarded as a sign of things to come, the transportation agency in November eased its fuel economy standards for light trucks. Nonetheless, the department's newest proposal, which will not become final for several months, was soundly criticized by members of Congress and by consumer groups. "Transportation Secretary [Elizabeth Hanford] Dole has destroyed the most effective energy conservation program operating today," declared the consumer advocate Ralph Nader.

Lee A. Iacocca, chairman of the Chrysler Corporation and an opponent of the change, complained that his company had nearly gone broke retooling to meet the Federal standards. "I guess it's turning out we were pretty damned stupid," he said. "Now it looks like we are going to get penalized for obeying the law."

The furor almost matched that of a year ago when transportation officials in Washington issued a new standard for passive restraints. The standard requires all new passenger cars to be equipped with automatic seat belts or air bags by the fall of 1989; however, a provision sharply criticized by insurance companies and spokesmen for consumer groups added that the requirement would be dropped automatically if mandatory seat-belt laws were passed in enough states to include two-thirds of the nation's population.

In October, in another move that drew fire, the three largest auto makers said they were recalling more than four million cars because of potential safety defects, but the Federal agency elected to not supervise the recall, even though it was the largest in more than a decade, Meanwhile, bumper collision standards have been eased, and attempts, unsuccessfull so far, have been made to eliminate tire quality grading standards.

By most accounts, the Government began easing up on Detroit in the late 1970's—well before Ronald Reagan moved into the Oval Office and advocates of deregulation were appointed to top policy making jobs—when the finances of the big American car makers were nosediving. Some officials now say the Government in shrewdly, but not recklessly, accelerating the easing of rules that cover the industry.

"I think it's a conscious decision to go with more sensible regulation," said Diane K. Steed, head of the transportation Department's National Highway Traffic Safety Administration. "If we see an area where Government regulation makes sense and the benefits outweigh costs, we are not going to shirk our responsibility."

The Administration has stirred a lot of criticism from powerful Republicans and Democrats on Capitol Hill for saying, in effect, that marketplace forces would be a better governor of fuel economy than Government regulations. "It's a pretty appalling record," said Timothy E. Wirth, Democrat of Colorado and chairman of the House subcommittee on telecommunications, consumer protection and finance.

Legislation is pending that would, among other things, raise the minimum fuel economy requirements, increase the bumper collision standard to its former level of 5 miles an hour from the lowered 2-miles-an-hour level and order certain passenger-safety tests.

In Detroit, some experts say that the industry still has plenty to worry about. "What is happening [in Washington] is a loosening on one hand and tightening on the other," said Gerald Greenwald, vice chairman of Chrysler. While allowing that "the direct regulatory process has become sensible," he asserted that lingering doubts about the implications of massively out-of-balance Federal budgets, huge trade deficits and proposed tax changes has Detriot wondering whether Washington is really on its side.

Mr. EVANS. Thank you, Mr. President. I yield the floor.

Mr. DURENBERGER. Mr. President, I rise in support of the amendment by my colleagues, Senators EVANS and METZENBAUM, which expresses that it is the sense of the Senate that the Administrator of the National Highway Traffic Safety Administration [NHTSA] should retain the CAFE standard for automobiles.

The motor vehicle fuel economy standards mandated by Congress in the Energy Policy and Conservation Act [EPCA] represent the most significant energy conservation program in this country. The express purpose of the fuel economy program was to reduce the U.S. vulnerability to foreign events, by improving vehicle fuel efficiency over 1974 levels by 50 percent by 1980, and 100 percent, to 27.5 miles/gallon by 1985.

Although there is a shortfall between the mileage new cars actually get on the road and the CAFE standards, there can be little doubt that the congressionally mandated fuel economy standards are a spectacular success that should be encouraged rather than dropped. When the National Highway Traffic Safety Administration [NHTSA] produced its last detailed annual fuel economy report in 1981, the agency estimated that in 1980 alone the mileage standards reduced foreign oil imports by $3 billion. Purchasers of a 1985 car would save $3,300 in gasoline costs due to the mileage standards.

On a broader level, the CAFE standards have advanced major national policies. These include enhanced national security through reduced dependence on imported oil; significantly reduced fuel consumption; improved U.S. balance of trade and balance of payments resulting from reduced oil imports; reduced inflationary pressure, lessened dependence of the U.S. economy on foreign petroleum supplies; and stimulation of substantial innovation in automotive design and production technology. There can be little doubt that the CAFE standards by decreasing the demand for petroleum have helped break OPEC's ability to fix high oil prices.

The current discussion centers around the increased demand for large cars, the historic gas guzzler, which some say is the result of the oil glut and stabilized gasoline prices. GM and Ford argue that they cannot meet the CAFE standards this year because the consumer does not want the small car. Chrysler, on the other hand, exceeds the standards on all their models, large and small.

To a large extent, the choices made by the driving public is determined by

the price at the pump. Prices have stabilized, the economy is improving, and Americans are taking to the roads again.

How quickly they forget the gas lines, the high prices, and the crunch of the energy crisis.

But just because the driving public forgets does not mean we can forget. Reduction of fuel efficiency standards signals an abandonment of long-term energy independent and national security goals. It tells the American people that our oil supplies are endless, we don't need to develop energy independence and you don't need to practice energy conservation.

Transportation is the largest sector in the U.S. economy with respect to oil use. It is almost totally independent on oil and uses over 60 percent of all the oil in the United States. Now is not the time to abandon the road to energy independence. CAFE standards are an important link to that goal. Let us not weaken them.

Mr. DOMENICI. Mr. President, I take a moment to comment on this legislation in the context of the Senate budget resolution. According to CBO, S. 410 could result in net additional outlays of $100,000 to $350,000 in excess of the levels assumed in the Senate budget resolution for fiscal year 1986. However, the Senate Energy and Natural Resources Committee should be commended for taking a step to eliminate an unneeded program, the commercial and apartment conservation service. As a result, this legislation will provide net outlay savings of almost $1 million over fiscal year 1986 to 1988. I congratulate the managers of the bill and the Senate Energy and Natural Resources Committee and urge the passage of this legislation.

Mr. EVANS. Mr. President, I voted for S. 410 with some reluctance in the Energy Committee. The reluctance stems from my strong belief that our country is not doing enough to encourage greater energy efficiency efforts from residential and industrial users of electricity. It comes from my experience as chairman of the Northwest Power Council for 3 years, where we identified about 8,000 megawatts of cost-effective conservation over the next 20 years. It also comes from my experience in oversight hearings before the Energy Committee, where I have learned the Department of Energy's conservation efforts are inadequate and uncoordinated.

Yet I conclude that the Commercial and Apartment Conservation Service [CACS] was not the appropriate vehicle to realize such savings. CACS focuses on the small energy users with its eligibility requirements of less than 4,000 kilowatt-hours per month of electricity or 100 mBtu maximum for other sources. These are not the areas with the largest savings. For example, we are finding in the Pacific Northwest that the aluminum companies may provide the largest resource of electricity over the next 10 years. The aluminum load in the region today amounts to about 2,300 megawatts in installed capacity, or about 19 percent of the Bonneville Power Administration's load. And one company has come up with a plan to conserve about 170 megawatts over 5 years. This may just be the beginning.

I have also concluded that the Residential Conservation Service [RCS] has not been the most effective way to achieve conservation savings in the residential sector. Basically, RCS is a program that requires utilities to notify its customers that energy audits are available at a cost of not more than $15. But it does little more than that. The results of the RCS Program in the Pacific Northwest have been minimal, mainly due to the fact that Northwest utilities have already put programs into place that achieve more energy savings. Most of the utilities, such as Seattle City Light and Puget Power & Light, have programs to provide interest-free, 10-year loans for single-family residences to implement conservation measures. The savings by these non-RCS programs have been substantial and the penetration rates of energy audits have been high. In that context, the RCS Program has become more of a burdensome reporting requirement than an aggressive, effective program.

But I realize that RCA may be an effective program in other parts of the country. That is why I believe that a study by the GAO is appropriate in order to collect and analyze original data on what the program has actually done over the last 7 years. DOE does not have original data by which to evaluate the program and has been relying on secondary data. In fact, some of the most interesting data on the results of actual conservation efforts will be forthcoming soon from the Hood River conservation project in The Dalles, OR. I hope that the GAO will visit the Dalles and study the methodology that they have employed as part of the overall study.

When I voted for the bill in committee, I agreed to work with Senators JOHNSTON and MCCLURE on drafting an amendment to provide a waiver for those utilities that can achieve greater energy savings through programs other than RCS. At that markup, I was assured by the chairman of the committee, Senator MCCLURE, that the CACS repeal did not mean an end to the efforts of the Energy Committee to address seriously energy-efficiency issues. In that light, I am sending today a letter to Senator NICKLES, the chairman of the Energy Regulation and Conservation Subcommittee, requesting a hearing in September on innovative approaches in industrial efficiency. The private sector has been developing new approaches to share the savings in carrying out energy conservation in industrial and commercial buildings. This is an example of the type of conservation programs that I think the Energy Committee should consider.

Mr. President, I believe that the waiver amendment is explained in more detail by Senators JOHNSTON and MCCLURE in their statements. In brief, I believe that it is appropriate to give each State the primary responsibility to evaluate a utility's request for a waiver from RCS requirements. Each State, both the Governor's office and the public utility commission, has the best information on the energy conservation programs of each utility and should be able to make the right decision. The Secretary of Energy will approve the waiver after reviewing the request from the Governor of the State in which the utility operates.

Mr. President, I thank the chairman and ranking minority members of the committee—Senators JOHNSTON and MCCLURE—for their cooperation in drafting this amendment. I was pleased to cooperate in our joint efforts to report an RCS/CACS bill from the Energy Committee and the full Senate.

Mr. NICKLES. Mr. President, I rise in opposition to my good friend and colleague, Senator EVANS, on his amendment concerning the CAFE amendment—corporate average fuel economy.

Most Senators probably are not aware of CAFE and have not heard about it. I am sure before the day is over they will have an opportunity to vote on it. It is important. It is an issue that affects a lot of people and affects a lot of jobs. Most importantly, Mr. President, it affects a lot of consumers directly.

I think our colleagues and Senators who are voting on this issue today need to realize what the economic impact of this resolution really is.

I chaired the committee, as I stated earlier, when we had the hearing, and we had some outstanding witnesses from both sides before the Energy Committee, and the Commerce Committee did as well.

I think a lot of Senators when they go into a meeting like that might say, "Well, I am not sure. I kind of like the idea of having the higher average fuel economy. That makes sense. I would like to see that happen."

And this Senator would agree with that.

But, also, Mr. President, I have a problem. At times when we see the regulations or statutes that are written, sometimes with very good intentions, they sometime have adverse results, and in many cases we find we need to make adjustments.

Congress, when it passed the Energy Policy Conservation Act of 1975, allowed a mechanism where manufacturers could petition the National Highway Traffic Administration for an adjustment.

This is a law, Mr. President, passed over 10 years ago that each year would set up various fuel averages or goals that they hoped they would make, and, by and large, they have made them. The manufacturers have done some good. I do not think it is directly as a result just because of this piece of legislation that Congress passed. The times have changed, the price of fuel went up substantially, conservation was important, and conservation in many and most cases has been achieved.

There has been a substantial amount of progress in the last 10 years. As a matter of fact, the automobiles today are actually averaging about 10 miles per gallon more today than what they were in 1975. I do not think it is solely because of this act. Incidently, I think it has more to do with economics. But we have seen the average miles per gallon increase from 15 miles-per-gallon average in 1975 to 25 miles per gallon in 1985.

I would argue with some. You talk about energy conservation and if that is the objective, and I believe it is a well intentioned objective of this legislation and of this resolution, I would argue whether or not it would actually increase conservation. I think there is a big argument that could be made that, yes, you are going to, as a result of this legislation, make fewer cars and if you make fewer big cars that means the person that you know in Mississippi or the friends that I have in Oklahoma may not be able to replace their gas guzzler with a newer, more fuel-efficient car if that fuel-efficient car may get 26 miles per gallon; it may not make the 27½, but it is probably about 8 or 10 miles per gallon more fuel-efficient than the old gas guzzler they have been driving for years. The net result, if this resolution is passed, is we are going to make fewer big cars, and it just so happens that consumers are demanding more big cars, and so we in Congress are going to say, "Oh, no, that is wrong, you cannot have that. Manufacturers have to make less big cars or more small cars."

In my opinion, you are going to see more imports coming in from overseas. So you are going to see more small cars and less big cars, and if you happen to be situated with a large family or if you happen to do a lot of traveling, maybe as a salesperson, you want to have a little bigger car because you live in the automobile, Congress is going to say, "Yes, you can have it, but since the manufacturers can only make so many, since they are limited by their numbers, the cost of that big car is going to go up and go up substantially." And, if anyone thinks that big cars are cheap today, you are wrong. They are not cheap.

The effect of this resolution is going to make them more expensive. I think people need to be aware of that.

If you go down to the store today or to the auto dealer and you look at the window price on a full-sized car, you will find out they are quite high, and I do not think we should arbitrarily, by a resolution, be dictating in this or anywhere else, yes, we want fewer big cars and increase the price for consumers and our constituents. I think that is a fallacy. I hope we do not do it.

I hope we will be successful.

At the appropriate time, either myself or the majority leader, I believe, will move to table this amendment.

I think there are a lot of things that do need to be considered. We talk about jobs. I heard the comments made earlier, well, this is a veiled threat. It is going to shut down plants and going to decrease jobs.

Quite frankly, if we in Congress say no, you cannot make as many big cars, you are going to see some plants in all likelihood either curtail or shut down, and you are going to see a loss of employment and, again, in this Senator's opinion, probably making up some of that by more imports.

I think we need to be helping domestic industry as much as we possibly can in this country and certainly not doing anything that would encourage more imports in this industry.

I am kind of bothered by it when I hear some of those statements. I hope that that will not be the case.

It is estimated that, if in this resolution we mandated the higher standards and 27½ miles per gallon, we could lose or be actually having a reduction of 1 million vehicles per year and a loss of over 100,000 jobs. I think that is significant. I think it is serious. And, again, I hope that the Senate today will not support the resolution.

I have also heard the fact that well, technology has failed or the technology is there if the manufacturers would just use it. Again, I think most people would realize that if we had projected energy costs as high today as they were projected in 1975 we probably would not be sitting here today.

If we are looking at $2 gasoline, I think most people would agree with the fact that you would see less big cars and these fuel standards at 27½ or even greater would be met.

I have heard the argument, "Well, we are not energy independent and we need to do everything we can to be less dependent on imports." I certainly agree with that argument but, again, I do not think this piece of legislation is it.

I think if you really want to talk about energy independence, we could talk about other things that have a far, far greater impact—things such as actually some oil and gas leasing offshore and not the moratoriums that we see coming from the Department of the Interior or from the Appropriations Committee; we could see possibly a licensing of nuclear powerplants and not the strung out and long delays we see there; we could see deregulation of the natural gas, again, a significant option that we could take that would decrease our dependence on imports. This resolution will not do that.

There are a lot of things that are involved. Mr. President, I ask unanimous consent that a letter that was sent to all Senators from the Secretary of Transportation, Elizabeth Dole, be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

THE SECRETARY OF TRANSPORTATION,
Washington, DC, July 18, 1985.

DEAR SENATOR: The Department of Transportation is issuing today a Notice of Proposed Rulemaking (NPRM) proposing to revise the corporate average fuel economy standard for model year 1986 passenger automobiles from 27.5 miles per gallon to 26.0 mpg. The proposal is issued under authority provided by Congress in the Energy Policy and Conservation Act of 1975.

Our review of the data indicates that the current standard does not meet the statutory test of "economic practicability" for model year 1986. Two of the large domestic automobile manufacturers are not expected to meet the 27.5 mpg standard, and serious adverse economic consequences—such as plant closings, unemployment, and restrictions on consumer choice—could result if the standard is not changed.

General Motors and Ford filed petitions on March 1, 1985, which requested a reduction in the passenger car standard to 26.0 mpg for model year 1986 and beyond. Our National Highway Traffic Safety Administration (NHTSA) had requested public comments on the GM and Ford petitions in the Federal Register on March 28.

Although the 1975 law established the 27.5 mpg standard for 1985 and later years as a goal to strive for, Congress also recognized that such long-term goals are subject to considerable uncertainty. Accordingly, the Act permits the standard for any year to be raised or lowered, if the Secretary of Transportation determines that some other standard represents the "maximum feasible average fuel economy level." In making this determination, the Act, requires us to consider four factors: technological feasibility, economic practicability, the effect of other federal motor vehicle standards on fuel economy and the need of the nation to conserve energy.

Our proposal carefully considers all four factors. Our NPRM and the supporting preliminary regulatory impact analysis indicate that GM and Ford, the two largest domestic automakers, have made substantial, good-faith efforts to meet the current standard, and they have achieved considerable success in raising their fuel economy levels over the past ten years. However, our analysis also shows that the manufacturers' efforts have

been partically offset in recent years by unforeseen events, such as falling gasoline prices and shifts in consumer demand. Our analysis also indicates that a 26.0 mpg standard is consistent with energy conservation needs, and the Department of Energy supports the issuance of the NPRM.

As a result, we have tentatively concluded that the maximum feasible average fuel economy level for model year 1986 is 26.0 mpg, and we have proposed to set the corporate average fuel economy standard at that level.

Since the proposed rule may be of interest to many of your constituents, I have enclosed a copy of a fact sheet summarizing its major provisions. We are inviting comments on the NPRM through August 21, 1985. We will also hold a public hearing on the proposal in Washington on August 8 and 9. All comments and new data will be carefully considered before a final rule is issued. We plan to complete this rulemaking in an expeditious manner before the start of the new model year.

We look forward to receiving comments from you and your constituents on this matter. If you have any questions on the proposal, please feel free to contact the Department's Office of Congressional Affairs.

With best wishes.

Sincerely,

ELIZABETH HANFORD DOLE.

Mr. NICKLES. Mr. President, I will not read all of it, but I will read the second paragraph, which is somewhat the conclusion. It says:

Our review of the data indicates that the current standard does not meet the statutory test of "economic practicability" for model year 1986. Two of the large domestic automobile manufacturers are not expected to meet the 27.5 mpg standard, and serious adverse economic consequences—such as plant closings, unemployment, and restrictions on consumer choice—could result if the standard is not changed.

Mr. President, I also ask unanimous consent to have printed in the RECORD a letter from Richard Shay, who is Acting General Counsel of the United States Department of Commerce.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

WASHINGTON, DC,
April 30, 1985.

Re: Docket No. FE-85-01.

Hon. DIANE K. STEED,
Administrator, National Highway Traffic Safety Administration, Washington, DC.

DEAR MS. STEED: This responds to the National Highway Traffic Safety Administration's (MHTSA) request for comments on the petitions submitted by General Motors (GM) and Ford to reduce the passenger car fuel economy standards for the 1986 model year and beyond from 27.5 mpg to 26.0 mpg. NHTSA specifically requested comments on the issues raised by GM and Ford with respect to model year 1986.

The Department of Commerce supports reducing the model year 1986 passenger car fuel economy standard, based on NHTSA's determination of the maximum feasible level for that year. We believe that such a reduction would not have important consequences for the nation's energy security. The Department further urges that prompt consideration be given by NHTSA to the petitioners' request to reduce the postmodel year 1986 passenger car fuel economy standards. These actions are necessary in view of recent major changes in the U.S. automobile industry's operating environment, which were not contemplated when the present standard was set at 27.5 mpg.

The enclosed comments state or views in detail.

Sincerely,

RICHARD H. SHAY,
Acting General Counsel.

Mr. NICKLES. Mr. President, in summary, without reading the entire letter, it says:

The Department of Commerce supports reducing the model year 1986 passenger car fuel economy standard, based on the National Highway Traffic Safety Administration's determination of the maximum feasible level for that year.

Mr. President, the data that was submitted by the Secretary of Transportation is 69 pages long. I will not ask that the entire report be printed in the RECORD. It is available if Senators would like to see it. They went into great length and detail in their study. I will highlight the results. This is from page 55 of their statement. It says:

The agency made several tentative conclusions concerning the manufacturers' abilities to improve their projected CAFE levels. First, given the imminence of the 1986 model year, there is insufficient time now for the manufacturers to make further significant technological changes to their product plans. Therefore, any additional efforts by the manufacturers to increase their MY 1986 CAFE would largely be limited to attempts to change product mixes through increased marketing efforts and/or product restrictions. Second, based on past experience and current competitive conditions, NHTSA tentatively concludes that GM and Ford cannot significantly improve their CAFE's by increased marketing efforts. Third, the types of product restrictions that would be required for GM and Ford to significantly improve their CAFE's could result in significant adverse economic impacts and restrict consumer choice to an unreasonable degree. The unacceptability of the resulting product mix to a significant segment of the consuming public would likely result in MY 1986 sales losses well into the hundreds of thousands of units and job losses well into the tens of thousands. The agency considers these effects to be beyond the realm of economic practicability.

Mr. President, I believe the evidence, if one wants to listen to the evidence and look at the results, would be higher prices for the big cars. I hope Congress does not adopt that.

Mr. President, I ask unanimous consent that an editorial from the Tulsa Tribune, dated May 13, 1985; an editorial from the Washington Post, dated May 23, 1985; an editorial from the Wall Street Journal, dated May 8, 1985; an editorial from the New York Times, dated May 13, 1985; an editorial from the Washington Times, dated April 8, 1985; an editorial from the USA Today, dated May 23, 1985; and also an article from the Christian Science Monitor, dated May 22, 1985, be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Tulsa Tribune, May 13, 1985]

FOR EASING MILEAGE

The 1985 mandated average of 27.5 miles per gallon for all automobiles produced by a single company is currently producing a war in Washington. Ford and General Motors are pressing the Department of Transportation to ease the requirement to 26 mpg for the next five years. On the other side are environmentalist groups, pleading a continued necessity for fuel conservation, and the Chrysler Corp., which says it will have no difficulty in meeting the government goal.

Chrysler is in good shape because Lee Iacocca, in re-engineering the line, nearly got out of the big car business. GM and Ford say the popularity of their larger cars and the difficulty of selling smaller cars against Japanese competition has upset their projections for reaching the 27.5 average.

GM and Ford make a sound point. With $2 gas no longer a near-term prospect, fewer Americans than had been anticipated have been driven to small cars. Many prefer large-body comfort and safety. If companies are to be fined for failing to meet the 27.5 average, they must reduce larger car production below market demand. Where demand exceeds supply, prices will go up. Parents with more than two children, seeking ample-sized cars and unable to afford such prices, will retain or buy on the used car markets old, large and fuel-inefficient autos.

For the government to hold GM and Ford to the 27.5 mpg average at the same time it lets down the bars on Japanese imports could hardly help employment in the U.S. industry. Backing off 1.5 miles per gallon could, by encouraging the retirement of old fuel-hungry clunkers, actually save gas.

[From the Washington Post, May 23, 1985]

HOW MANY MILES PER GALLON?

The two biggest American automobile companies, General Motors and Ford, are asking the government to relax its fuel standard for the coming year. The current standard requires each company's cars—large and small taken together—to average 27.5 miles per gallon. Neither GM nor Ford is likely to meet it this year.

The chief reason is that the price of gasoline has been falling for four years and the market is swinging back toward big cars. And there's another, more recent, reason: the Reagan administration's decision to allow rising imports of Japanese cars means that the American companies will sell fewer of their small models than they had expected.

Under present law the secretary of transportation, Elizabeth Dole, has the authority to drop the required average to 26 miles per gallon, and that's what GM and Ford are asking. If they don't get it, they will have to conform next year by raising the price of their bigger cars high enough to force their customers to choose small ones.

The industry is not unanimous, Chrysler is vigorously opposing any relaxation. Since it no longer makes big cars and will easily meet the present standard, it indignantly asks why it should now be put at a disadvantage in favor of those who have not complied. That's not a trivial objection.

But neither does it settle the case. The purpose of the gasoline efficiency standard is to save fuel and reduce American depend-

ence on imported oil. The reality is that the Reagan administration is not prepared to lift a finger in support of that purpose and, with imports currently declining again, Congress itself is divided. The administration simply says: let the market settle it.

The market? The same oil market that twice in the past dozen years has shot upward and then slowly sunk downward? The market that has twice lurched toward much smaller and more efficient cars, and them each time slowly begun to slide back toward bigger and more powerful ones? The market has its virtues; but in oil and automobiles it is radically unstable and a terrible forecaster. These sudden unpredictable swings have severely whipsawed the auto companies, and have proved immensely costly to the country as a whole.

The way to stabilize both oil demand and the auto market, pushing both toward conservation, is to impose a steadily rising gasoline tax. But since neither President Reagan nor Congress has the slightest intention of doing anything like that, Secretary Dole would be justified—as a very second-best expedient—in reducing the standard by a-mile-and-a-half per gallon. It's unfair to require an industry to bear the full burden of a public policy that the president himself declines to support.

[From the Wall Street Journal, May 8, 1985]

BACK TO THE SAD CAFE

"Congress shall punish companies found guilty of indulging the wishes and needs of consumers."

We have read the United States Constitution caretully and nowhere in it do we find that sentence, or any other evidence that the Founding Fathers wanted legislators to ride herd on the buying tastes of Americans. And yet U.S. auto producers are once more wrestling with a 10-year-old law that sets "Corporate Average Fuel Economy" (CAFE) standards for U.S. auto makers, thereby putting a ceiling on their ability to meet consumer demand for large and less fuel-efficient cars.

CAFE has been an economic mischief-maker from the very beginning. Its first important effect was to yield unintended benefits to the Japanese auto industry. Because of the Washington-created "energy crisis," U.S. consumers were already switching to smaller cars in the mid-1970s, but Congress, which was in a corporation-bashing mood, didn't want to wait for the market. As a concession to the UAW, it limited the ability of U.S. auto makers to bring in cars from their plants abroad to meet the CAFE standards and small-car demand. This forced the U.S. companies into crash retooling programs, at large costs in equipment and in the quality of their products. The Japanese, who had already achieved design quality and large economies of scale in small cars, moved in. When the U.S. then slapped on "voluntary" quotas, the Japanese made the most of their quotas by moving in on the midsize car market as well.

The most recent development is an intramural struggle for regulatory advantage between General Motors and Ford on the one hand and Chrysler on the other. Chrysler years ago focused production and sales efforts on small and midsized cars, attaining a higher CAFE. GM and Ford retained some large cars. Now that the energy crisis is long forgotten and Americans are more prosperous, demand for big cars is rising. GM and Ford want the National Highway Traffic Safety Administration to roll back the CAFE standard for 1986 models to 26 miles per gallon from the current 27.5. Chrysler, naturally, objects. Transportation Secretary Elizabeth Dole must decide whether to favor Ford, GM and would-be buyers of large cars or to protect Chrysler.

Chrysler, with refreshing candor, complained that this deregulatory move would give GM and Ford a competitive advantage. Sens. John Heinz and Daniel Evans dashed off a letter to Secretary Dole urging her to reject the proposed lowered standard on "economic and moral" grounds. They were done one better by Rep. Pete Stark, who introduced a bill (HR 1425) to rescind the transportation secretary's authority to reduce fuel-economy standards without congressional approval.

So now we will have an argument in Congress over which auto company the U.S. government shall favor. None of this has anything to do with either economics or morality. It is merely unwarranted interference, born out of an earlier dimwitted era of economic-policy mismanagement, with the rights of consumers to buy products that fit their wishes and needs.

[From the New York Times, May 13, 1985]

IT IS TIME TO TAKE ANOTHER LOOK AT THE FUEL-ECONOMY LAW

To the Editor:

"Reject the Plea From Ford, G.M." by Senators Daniel J. Evans and John Heinz (Op-Ed, April 20) was disappointing in view of their well-earned reputations for fairness and objectivity. But, by suggesting the law affords vehicle manufacturers the alternative of paying civil penalties instead of complying with fuel-economy standards, they do a disservice to readers and to the cause of promoting understanding of the havoc wrought by the fuel-economy law.

The National Highway Traffic Safety Administration recently ruled that such suggestions "evidence a misunderstanding of the act."

"Noncompliance with fuel economy standards," the ruling continued, "is unlawful conduct. Petitioners appear to assume that penalties are merely a tax. In assisting economic practicability, the agency must consider the ability to meet a standard rather than the ability to pay the penalties for not meeting a standard."

If the civil penalty was simply a tax, the Senators' concern that the Federal treasury will be deprived of hundreds of dollars would assume some substance.

If full-line manufacturers are unable to sell enough small cars to meet the standard and are unwilling to engage in unlawful conduct, the alternative would be to cut back and, if necessary, stop production of the lower-fuel-economy family—not just luxury—cars, station wagons and utilitarian trucks that many of the authors' constituents need. The economic consequences are too obvious to need elaboration.

Contrary to the implication that the current average is about 17 miles to the gallon, the Traffic Safety Administration's ninth annual report to Congress states that the total fleet average of 1984 model cars is 26.5. The report indicates that the averages for Ford and G.M. are 25.3 and 24.8, respectively, which for Ford represents an 82 percent improvement since the law was enacted in 1975. This is a remarkable accomplishment.

The fuel-economy standard is forcing manufacturers to ignore the needs of consumers, to take actions that are neither in their own interest nor that of the economy and to consider even more sourcing of products offshore—with obvious adverse employment consequences in North America. By contrast, the net impact of granting the requests of Ford and G.M. to relax the 1966 standard, for example, from 27.5 miles to the gallon to 26 would be only .06 percent of total U.S. petroleum consumption.

Rather than prejudging these requests and prejudicing the process, is it not time to engage in an evaluation of whether fuel economy could be achieved without impairing the interests of the public, government and industry?

LOUIS R. ROSS,
Executive Vice President, Automotive Operations, Ford Motor Company, Dearborn, Mich., April 26, 1985.

[From the Washington Times, April 8, 1985]

AMERICAN CAFE

"Why did General Motors announce in April 1984 that because large car sales were unusually strong, it would extend small car production until October or November?" The answer to this intriguing question, posed by economist David R. Henderson in the current Regulation magazine, is that federal energy regulations are still forcing American car makers to make noncompetitive decisions, damaging the American auto industry and hurting consumers.

Under federal Corporate Average Fuel Economy (CAFE) standards, in force since the government created the "energy crisis" of the mid-70's. Washington takes all the cars a company sells in a year—big cars, little cars, medium-size cars—and averages their gas mileage, which is required to meet a minimum standard. In 1985 it's 27.5 miles per gallon. Because American consumers, who like big cars better than small ones, bought more large GM cars than the company expected, GM found itself facing up to $150 million in fines. To avoid the fines, it boosted its average by selling small cars at a loss, cutting overall profits and weakening GM's capital position, making it a less powerful competitor for foreign car makers.

Because CAFE is calculated separately for domestics and imports, it also discourages American car makers from importing small cars to be sold under American labels. According to Regulation, Ford's former chief economist says Ford dropped its German-built Fiesta because its sales potential was so good. Selling more of the less-promising but domestically built Escort. Instead let Ford meet its CAFE requirement. The United Auto Workers likes CAFE, because it acts like a domestic content bill. This may be shortsighted. Probably many Fiestas were replaced not by Escorts, but by Hondas.

Without government bullying, the post-energy crisis car market probably would have looked very much like the pre-crisis car market. The Japanese and the Germans would have built lots of little cars, which they're good at and American car companies would have built mostly mid-size and large cars, which they're good at. Since large cars produce larger profits, that would have been nice. Instead, American auto makers are being forced to build small cars that are decidedly inferior to Japan's small cars, and they have been taking a beating.

CAFE is still defended by Club of Rome types, who think we're running out of oil and ozone and everything else. In fact, the only thing we were running out of in the 70's was leaders who understood markets. Under current relatively free-market energy policies, oil is plentiful and prices do all

that's needed to encourage conservation. Repeal CAFE and buy American.

[From USA Today, May 23, 1985]

JUNK FUEL STANDARD, LET MARKETPLACE RULE

Twenty-two million people across the USA will be on the road this Memorial Day weekend. They will drive 15.3 billion miles in search of beaches, parks, or just some time on the farm with Aunt Sue and Uncle Ned.

Driving is fun again. Even though gas costs about $1.25 a gallon, there is enough to go around.

In 1973 and 1974, during the Arab oil embargo, driving was no fun at all. Gas that used to cost 30 cents a gallon suddenly shot up to 50 and 60 cents a gallon, if you could find it. Our cars averaged only 14 miles to a gallon.

Since then, we have changed our cars, and our driving habits. Today's cars average 25 miles to the gallon. Even mid-size models get 30 miles per gallon on the highway.

Automakers have spent billions on lighter cars that run on smaller engines and use less gas.

They didn't do it voluntarily. In 1975, a federal law set mileage standards, and by 1978, all the cars a company made had to average 18 miles to the gallon. Now it's 27.5.

Chrysler meets that standard. But Ford and General Motors say their family-size cars are so popular, the fleets they will build won't average 27.5 miles per gallon. They make many smaller, high-mileage cars, but they're less popular. So they want the standard reduced to 26 mpg for 1986.

Twelve years ago, when the energy crunch created a crisis, government was right to enforce strict mileage standards. That emergency measure forced automakers to build what consumers needed—fuel-efficient cars.

Now that the auto companies have responded, the government controls should be junked. The Reagan administration is right: The rules have done their job.

The government doesn't dictate how much electricity a manufacturer can use, or how much fuel an airline can burn, or how many diesel rigs a trucker can put on the road. Why should it dictate the efficiency of an auto engine?

But that does not mean that consumers and car companies can be complacent about conservation, or foolish about fuel. If another oil shock hits, and it could, then carmakers and consumers must be ready for it.

Consumers must continue to demand fuel-efficient cars. And manufacturers must continue to develop and build cars that will take us even farther on a gallon of gas.

But we should let carmakers use their creativity to continue to cut fuel consumption, without a government hammer over their heads.

They must understand that if they fail, or if short-sighted consumers demand only muscle cars and gas guzzlers, then government will be forced to bring that hammer down again—on car companies and consumers alike.

If we insist on driving gas guzzlers and forget the lessons of the last energy crisis, we'll invite a new crisis—with lines at the pump, high prices, and regulations that are stricter than ever.

[From the Christian Science Monitor, May 22, 1985]

U.S. SHOULD SCRAP LAW ON CAR FUEL ECONOMY

(By Murray L. Weidenbaum)

A decade ago the United States faced an energy situation that had the public clamoring for the federal government to "do something." The Energy Policy and Conservation Act of 1975 was the quick response. One section of that law required new automobiles to meet certain corporate average fuel economy (CAFE) standards.

Ten years later the energy situation has changed dramatically, but the CAFE "leftovers" remain unchanged. Though these regulations have been of dubious worth from the start, they have also been relatively harmless. But changing consumer preferences and stable gasoline prices now call CAFE in question.

The CAFE regulations are also an example of how government interference begets more government interference. In reaction to the dramatic increase in the price of oil imports, Washington placed controls on the price of domestic oil in 1975. Sensing that such action discourages conservation, lawmakers mandated greater fuel economy from new automobiles. A freely determined market price for gasoline would have produced far greater conservation than regulating only a small portion of the fuel users: new car owners.

The 1975 law requires manufacturers of more than 10,000 autos annually to meet average fuel efficiency standards for the cars they sell in a given model year. These standards were set for 1978 and selected other years, notably 27.5 miles per gallon (m.p.g.) in 1985. Congress also specified a fine of $5 per auto sold be levied for each tenth of a mile per gallon that the overall fleet average fell below CAFE standards.

Until recently, however, CAFE regulations have escaped public attention, because they have been irrelevant. In 1974, new autos averaged 14.2 miles per gallon. The 1985 models for General Motors, Ford, and Chrysler are expected to average 25.1, 25.9, and 27.5 m.p.g., respectively. Auto producers exceeded CAFE requirements in each year before 1983 primarily because the consumer—rather than the federal government—demanded fuel-efficient cars.

Another reason that CAFE regulations have not been big news is that "voluntary" export restraints by the Japanese from March 1981 to March 1985 helped the sales of domestic small cars. Had imports been available in greater quantities, American buyers might have bought fewer U.S. subcompacts, thus making it much more difficult for domestic automakers to meet the standards. While quotas may be good news for auto manufacturers and their employees, they are bad news for the consumer. They resulted in auto prices some $1,300 higher for Japanese imports and $660 higher for domestic models in '84. Now that trade restraints have expired, meeting government standards will be more difficult.

How important are CAFE regulations in holding down oil consumption? William Niskanen, former member of the President's Council of Economic Advisers, points out that autos account for only 30 percent of US oil consumption. New cars represent only 10 percent of the auto inventory. Thus, whether new cars average 27.5 m.p.g. or 25 m.p.g. makes less than a 0.3 percent difference in oil consumption. Furthermore, when oil prices were decontrolled in '81, the original justification for fuel economy standards was removed. Given how sensitive consumer preferences for fuel-efficient autos are to changes in gas prices, why does CAFE linger on?

One answer is that the regulations preserve employment in the US auto industry, at least for now. By forcing manufacturers to produce more small cars domestically (imports by US auto companies do not count in calculating average fuel efficiency), jobs are maintained. Buyers of intermediate and full-size cars pay for this unofficial jobs programs, since low profitability on subcompacts is made up by higher prices for larger cars.

Then there are those who fear the rest of the world has overestimated, and thereby underpriced, oil supplies. The fact that these requirements result in only a minor difference in oil consumption is ignored.

If the fuel economy standards are not lowered or rescinded, buyers of Ford and GM products will suffer. If the two automakers elect to incur the CAFE fines and produce the large cars American consumers want, a 1986 Ford may well cost an average of $80 extra, while GM price increases could average $120. Another possibility is that the two producers will attempt to comply by reducing large-car production to increase average fuel economy. In that case, the consumer will pay dearly for the fewer large autos, while auto workers and stockholders will suffer from less production and less profit.

As gas prices have stabilized, consumers have begun to value size and comfort. This is good news for U.S. automakers and their employees, since these manufacturers enjoy an advantage over imports in larger cars. CAFE, however, has turned this silver lining into a cloud. But in the final analysis, CAFE is a consumer issue. Rather than allowing an obsolete law to deny American consumers the opportunity to purchase a US-made automobile of their choice, it is time for Congress to throw out the CAFE "leftovers"!

Mr. NICKLES. Mr. President, I yield the floor.

Mr. EVANS. Mr. President, will my colleague from Oklahoma yield for a question?

Mr. NICKLES. I am happy to yield.

Mr. EVANS. Mr. President, there has been much talk about the companies restricting production or somehow finding it impossible to go ahead and make those large cars, even though, as I suggested, the technology is there to make them and make them fuel efficient. The only penalty, as I understand it, which is provided is a civil penalty, a fine. Does the Senator from Oklahoma agree that over the last several years the automobile companies have, in essence, been paying a fine because they have been failing to meet the fuel efficiency standards and that they have not cut back jobs, they have not cut back employment, they have not restricted the manufacture of various models of automobiles? They have merely paid the fine out of credits which they had achieved in previous years. So the only difference is whether they pay the credits out of past years or whether they pay the credits out of their own pocket.

My specific question is: What would encourage automobile manufacturers the most for the years 1987, 1988, and 1989 to continue aggressively to move toward more fuel-efficient automobiles, maintaining the standard, or reducing it this year and giving them the hope that perhaps next year we would reduce it and continue to do that? Would the Senator not agree that that would act to delay movement toward fuel efficiency if the automobile manufacturers thought we were not serious?

Mr. NICKLES. Mr. President, in response to the Senator's question, I do not think what we do is going to make any difference on 1986. It is too late to change 1986.

Mr. EVANS. I am talking about 1987 and beyond. What we do for 1986 clearly could have an effect, from the view of the manufacturers, as to what was going to happen in 1987 and beyond and what is going to push them in those future years most actively toward better and more fuel-efficient cars and newer technology.

Mr. NICKLES. Again, in response to the Senator's question, it is not my belief that the act that we are now looking at is largely responsible for increased fuel efficiency. It may or may not have contributed somewhat.

I think the result of the increase in fuel prices is largely responsible for the fact that we have made—I say "we have made"—that the industry has made an increase in 10 miles per gallon in the last 10 years. And I also think that if the price of fuel had continued to increase that the standard of 27.5 would not really have been a significant problem.

Mr. EVANS. If I might pursue that, does the Senator suggest that with today's cheap gas we should abandon the search for more fuel efficiency?

Mr. NICKLES. I would question whether or not we have cheap gas. It may be cheap in relation to what Congress passed some time ago. But it still takes $20 for a lot of people to fill up their cars. That is not exactly cheap on many people's budgets. I just want to reiterate the fact, and if you want to take the Senator's argument very far, what is sanctimonious about 27½? Why not make it 40 or 50? There are probably many Members that would want to.

Mr. EVANS. I would say to the Senator from Oklahoma: That may come next.

Mr. NICKLES. This Senator will oppose it because I would still like to see where consumers have some input in this agrument and not have it be mandated by Congress.

Mr. JOHNSTON addressed the Chair.

The PRESIDING OFFICER. The Senator from Louisiana.

Mr. JOHNSTON. Mr. President, let me speak in opposition to the amendment. But as one who basically supports the CAFE standards, I was in Congress when we we enacted that legislation which provided for the CAFE standards. I quite agree with the distinguished Senator from Washington. I think it has had a very salutary effect upon fuel efficiency of automobiles. I for one would strongly oppose junking the whole system of CAFE standards. I think it is a very important step forward. However, Mr. President, I do oppose this amendment. Let me tell you why.

First of all, the amount of savings by this amendment would be almost infinitesimally small, less than two-tenths of 1 percent per year, at most. So what we are dealing with is a very small amount of change in terms of total overall fuel efficiency. On the other hand, the impact upon the automobile industry would be a very big impact at least. The U.S. Department of Commerce, of course, has estimated that the product restrictions that could result from the imposition of these regulations could result in possible sale losses of 1 million vehicles for Ford and GM, as well as losses of 110,000 jobs.

I am not certain that is correct, Mr. President. But I know that the Department of Commerce has projected that. When you weigh on the one hand a possibility of two-tenths of 1 percent savings on fuel standards as against the possibility of 110,000 jobs and a million vehicles for Ford and GM, the choice is a rather clear one. We can neither prove the savings of two-tenths of 1 percent nor the loss of jobs. But it seems to me when the Department of Commerce makes that projection it is one that the Congress ought to listen to. We have very little to gain by this amendment. We have the possibility of losing a great deal.

Mr. President, at the time we enacted this legislation—and as I say I was a strong proponent of it—we did so in the face of projected cost of gasoline for 1985 of $2.50 per gallon. My colleagues who were here at the time will remember that those were the days when we were projecting the price of crude oil to be over $100 a barrel, and that the price of gasoline likewise would be at $2.50. The Congress did know at that time that predicting of energy prices was a chancy exercise at best, and for that reason we built into the statute the very kind of discretion which is at issue here; that is to say, we wanted to give to the Department the discretion to lower those standards if in fact the price of gasoline was not $2.50 a gallon, but was more than $1 less than that price. We wanted the Department of Commerce to be able to look at the whole situation, weigh the possible savings on the one hand, as opposed to the possible job impact on the other hand. That is the way we wrote the law at that time. It seems to me the Department has properly applied that law in this case. We are not asking for a change in the law. We are simply asking that the rules under which all of the companies have operated which is the law of the land be continued, that the Department of Commerce be allowed to make what I think was a sound decision in the face of all the facts. We are not asking that we junk CAFE standards. To the contrary, we are asking for the law to be kept as it is so that companies will know that CAFE standards are going to be the law of the land in the future but they will be administered with some degree of discretion particularly in light of the facts.

Mr. President, I strongly urge my colleagues not to adopt this amendment, to keep our commitment to CAFE standards, but to do so in light of the law as presently written.

Mr. NICKLES. Will the Senator yield for a question?

Mr. JOHNSTON. Certainly.

Mr. NICKLES. This Senator was not here when this act originally passed, but when you did pass it, did you not leave in it the flexibility—since it was a 10-year program, not knowing really what gasoline prices would be, not knowing what supply and demand would be 10 years hence—nor a caveat that would allow the administration to review the circumstances, and after they heard the testimony and so on to have some discretion to allow the rollback.

Mr. JOHNSTON. The Senator is precisely correct. I might say that nobody—I will not say no one—dreamed that the price of gasoline would be as low as it is now, or the price of crude oil. We may have dreamed it, but in our conscious thought, nobody ever thought that would be so. But we knew we could never predict it with any degree of precision. That is why we put in the discretion. It seems to me we wanted to put in that discretion for the very kind of circumstance we find ourselves in; that is, where there is a surplus of crude oil in the world, where the price is down and they are asking for only a very small change, if we do not give them that change or if we take away that change legislatively, you could risk 110,000 jobs. Is the Department of Commerce correct? I do not know. But we have very little to gain by taking away this discretion.

Mr. BENTSEN addressed the Chair.

The PRESIDING OFFICER. The Senator from Texas.

Mr. BENTSEN. Mr. President, I want to state my support in the strongest possible terms of this sense of the Senate resolution to retain the corporate average fuel economy standards.

Mr. President, when we put this piece of legislation into effect we did it because we wanted to promote conservation in this country. We understood the price we were paying, along with the long gasoline lines, we had transferred power and wealth to the Middle East. We understood what it was doing to our balance of trade. I can recall the manufacturers coming in and swearing that they could not do it—that it was technologically impossible, and that we were absolutely going to put them out of business if we required them to meet these CAFE standards. If we had not required them to comply with this kind of conservation, they would be out of business. They would be broke today if it were not for that legislation. The Japanese would have run them out of business. The Japanese would have taken over the automobile market because the Japanese understood what the American people wanted. The Congress acted because it understood what was in the long-term interests of the people of this country.

These standards were set with good reason, and the evidence shows that they are doing what they were designed to do. Frankly, I think the whole matter of a reduction in these standards is irresponsible.

I can remember the car I was driving at the particular time the standards were set was getting 11 miles per gallon; the one I am driving today gets far more than that.

Now they have the nerve—the audacity—to come in here and say they cannot meet the standards. I do not accept that. Chrysler has doubled its fuel economy since 1975 and expects to meet the 27.5 miles per gallon that we are talking about for this year.

That helps all of us in trying to meet the objectives that are important to our country.

My friend was talking about the price of oil coming down. That is right. But I am sure neither my friend from Louisiana, nor I, believe that is going to last. That bubble will burst. We spend all kinds of money trying to develop alternative sources of fuel. Because of budget constraints, we are backing off and not developing those sources.

I think my friends, that the CAFE legislation is one of the best actions that the Congress has taken over the last several years.

I think the people who want to reverse the standards—these manufacturers that are trying to do so—are certainly shortsighted, and they are putting short-term profits ahead of what is in the long-term best interests of this country.

Under the Energy Policy and Conservation Act, failure to meet fuel economy standards means very large fines. There has never been any secret about that.

The manufacturers have known it for years.

Some manufacturers chose to meet the law, to make the enormous capital investment to try to accomplish what the Congress set out for them to do in the way of energy conservation for our country. But others said, "No, we can get out of that. We can cop out. We can get Congress to give us a loophole and not enforce the law."

My friend says they want to know what the law of the land is for the future. I do not know, especially if we do this type of thing.

My friend says it is not that much of an incremental gain.

I say when you have been increasing mileage and achieving higher standards and then turn around and reduce the standards, that sends a full, clear signal that from now on all one has to do is come up here and plead one's case and get an exception.

Let us stop and recall what this was all about. There was an energy shortage, and Congress came to the conclusion that we needed to take action on the issue. Our memory is not so short that we have forgotten just how vulnerable we are to interruptions of foreign supplies. Has someone discovered some vast new pool of energy that makes conservation no longer necessary?

I read where we should reduce the standards because oil is in surplus, and we do not need to worry about mileage any more. I can assure my colleagues that this is a myth. We have less oil and gas today than we did yesterday, and we will have even less tomorrow. It would be tragic to send a signal that indicates anything less to Americans who support conservation measures.

I don't know anyone who enjoyed those long lines at the service stations, sitting idly by at the mercy of OPEC. But we knew then and we know now that it could have been much worse, and we can't risk it. We can't be mislead by temporary market conditions.

In response to those threats from OPEC, we set out to seek new forms of energy for the future, cutting back consumption, getting people to turn back their thermostats in their homes, driving at 55 miles per hour or less. We were greatly concerned, and this country was pulled together in that effort. We have taken enormous strides.

Those that do not meet these standards have only themselves to blame. To those who say that the standards are not fair, I quote columnist Hobart Rowan on the subject in a recent article in the Washington Post. He said: "Horse feathers."

I can think of other descriptions, but that is not a bad one. I, for one, am fed up with the shortsighted attitude on the part of a few American manufacturers who should be more concerned with their responsibility to their country. I hope we pass this resolution and send it to each and every one of them and the National Highway Traffic Safety Administration. I would like to see a copy hanging on their walls. They need to be reminded that we set a reasonable target and that their efforts to get out from under the standards would serve the Nation better if directed at efforts to achieve those standards. We should not say to those who have spent the billions of dollars necessary to comply with that law: "Tough luck. You should have known that the Congress would not hold you to this kind of a statute."

We should say, instead, to those who refuse to make the investment: "Next time comply with the law as it is written."

Mr. EAGLETON. Mr. President, I am a cosponsor of the resolution and strongly support its adoption as an amendment to this bill.

I also represent Missouri, a State which ranks second in auto assembly, with five plants in the St. Louis area and three in the Kansas City region. No one could have a greater concern for the future of the U.S. auto industry than I, and that concern is a major factor in my cosponsoring this measure.

The arguments we are hearing today from a couple of domestic automakers—that Americans love big cars and ought to be able to buy whatever they want—are the exact arguments we heard in 1974 and 1975 when Congress was considering the fuel economy legislation. I put it to my colleagues: With all the problems U.S. automakers have competing against Japanese autos as it is, where would they be if they were still turning out those 14-mile-per-gallon land barges of the early 1970's because that's what the American consumer wants? In response to that question, I submit there would not be much cause for this debate because there would not be a domestic auto industry left to plead for a return to the good old, gas-guzzling days.

Harvard Business School Prof. Malcolm Salter, writing in a recent edition of the Washington Post, made the point as well as anyone:

> Only fuel economy regulations, which forbid U.S. auto makers from counting new vehicles with less than 75 percent local manufacturing content in their corporate fuel economy averages, will keep U.S. auto makers from totally abandoning the domestic production of small cars.

There is no question that the market for larger, less fuel-efficient cars has enjoyed a small, temporary comeback as a result of the easing of gasoline supplies and prices. But, we should not be deluded by a short-term blip on our energy-consumption graph. The long-range picture remains as bleak as ever and the need for mean-

ingful conservation policies remains as vital as ever for the future of this country.

Only a few weeks ago, for example, the Department of Interior and the Office of Technologies Assessment [OTA] released a radically revised assessment of U.S. offshore oil reserves which reduced by 55 percent the reserves estimated only a few years before. Further, oil imports are on the rise again and, according to the OTA report, could reach or exceed the heavy dependence levels of the 1970's sometime in the next 10 years.

On this point of conservation, Mr. President, there is considerable talk these days about a possible tax on oil both as a way of producing new revenues and of encouraging conservation. I want to say that, if it's done in the right way, I will support such a tax.

But let me ask those who are arguing today for less fuel-efficient cars, what are you going to tell your constituents when you vote for an oil tax which means higher gasoline prices? How are you going to explain your effort to have it both ways?

You want to help bring back the gas guzzler while at the same time supporting an increase in gasoline prices?

Of course, that is a rhetorical question. After the rationalizations I have heard from that side today, I have no doubt they will find some line of argument to bridge this logical gap. I will just predict they are not going to find many people back home who are going to buy it.

Is this the time for Congress to say to the American people, "Forget about our energy future, this is the roaring 1980's?" Is now the time to tell the public, "There's time enough to worry about gasoline when the needle's on empty?" Make no mistake about it, that is what is at issue here today. Are we going to abandon our most important and visible commitment to conservation, or are we going to continue a reasonable policy which serves the interests of this and future generations?

In recent weeks, there has been something of a scare campaign afoot to persuade people that unless the Ford and GM petition for a lower fuel standard is approved, some companies may curtail big-car production, resulting in the loss of thousands of jobs.

Weigh that rhetoric against the fact that U.S. automakers reap huge profits on big cars and will continue to do so even if they have to pay fines for violating the fuel standards. Domestic automakers will not voluntarily walk away from those fat profits.

If production of big cars is cut back, it will not be because of Federal fuel standards. It will be because consumers do not want relics of the wasteful past and even million-dollar ad campaigns and discount financing are not going to sell them. Analysts already are pointing to weakness in the market for big, rear-wheel vehicles as the primary cause of the sales slump that some automakers are now feeling.

Mr. President, as a practical matter, General Motors and Ford have already violated the 1986 fuel economy standard even before their petition was submitted to the National Highway Traffic Safety Administration. There was no way the cars they will introduce in showrooms next month could be reengineered to meet the requirement. Thus, the only real question before the agency was whether these two corporate giants should be forgiven the roughly $500 million in fines they owe for noncompliance.

I believe reducing the auto fuel economy standard is totally unjustified and would sacrifice our energy future on the altar of short-term profits. I urge the adoption of the amendment.

Mr. President, I yield the floor.

Mr. FORD. Mr. President, this is a very difficult situation for a good many Senators, Senators who have auto manufacturing in their States. As the distinguished senior Senator from Missouri [Mr. EAGLETON] just said, his State is the second largest manufacturer of automobiles in this country.

I remember, when we passed this legislation, how hard it was to get it into place and how sensitive we were to not having a crystal ball to see what the future would hold. We set up certain items in that legislation to be sure that there was a pressure valve; that if we had made a mistake, there would be procedures to follow. And now that we see this well-crafted legislation at work, we find ourselves objecting to it. That is perfectly legitimate, and I understand it very well. But what has happened now, as I understand it, Ford and General Motors have applied to the Secretary of Transportation for an extension of time as it relates to compliance to the 27½ miles-per-gallon fleet average. That was part of the legislation.

As I understand it, the Department has said they will extend the time 1 year, and they are now going through the normal procedure for comments, for hearings to put it together, as we would in other operations, to see if, in the judgment of those who testify, the 1-year extension is warranted.

What is a 1-year extension? Two-tenths of 1 percent. There is the requested extension for 2 years, which will go beyond; we will have the hearings, and that will come together. But what really bothers me is that we have a process, and that process has been triggered, but all who have spoken made two points:

One. If the Congress had not acted, we would not be in the position we are today as it relates to fuel economy;

Two. We misjudged the cost of gasoline; we misjudged the glut.

Mr. President, there are several hundred million dollars in fines if this finding is not approved by the Department of Transportation. We have seen billions of dollars spent in order to comply with the congressional mandate, and additional billions of dollars being spent in order to have that small car built by the major car manufacturers by 1989.

We have seen a lot of publicity in the papers recently about 500,000 automobiles, a possibility of up to 60 miles per gallon on the road and 45 miles per gallon in the city—an American-made automobile.

That technology is in place. That commitment has been made—$3.5 billion, 6,000 new American jobs, 14,000 new jobs related to that industry. And now we are standing on the Senate floor today wanting to kick them in the teeth and say, "Look, you missed it. Therefore, you are going to pay and you are going to pay dearly"—one company will pay an additional $6 million or $8 million, another one almost $100 million. And they are spending billions of dollars to try to comply with the mandate that Congress enacted 10 years ago.

It is a lesson in our ability to project and understand. I remember when we had so much dependency on foreign oil that we were standing in line. They had the power to bring us to our knees. That bothered me a great deal. But it is very difficult today to see those who would stand up and support this amendment and at the same time dismantle the Synthetic Fuels Corporation. That money is being set aside to try to find new sources of energy so that we can be energy independent, yet they want to dismantle that corporation which was set up by this body in order to find new sources of energy.

We are talking now about methanol mixed with gasoline that would give 100 miles per gallon. All of this technology is coming on board, yet we want to say to our auto manufacturers, "You didn't comply; you couldn't make it and so we want to stick it to you."

It bothers me some, Mr. President, that we find ourselves in that position. What we passed 10 years ago was a good law. Look how far it has brought us down the road to energy self-sufficiency. It has brought us a long, long way. Prior to the passage of the Average Fuel Economy Act, the average miles per gallon for a new American car was around 14 or less miles per gallon. Now the American automakers are turning out cars that are averaging 25 or 26 miles per gallon for the fleet. In my opinion, that almost 100 percent improvement is a great milestone. As a result, we have been saving millions and millions of barrels of oil each day, oil that we would otherwise have to import.

I hear another proposal that is getting some activity these days, a tax on oil imports, $5 a barrel, $10 a barrel as it relates to oil products, and what is that supposed to do? Well, that is supposed to bring in a few billion dollars to help us balance the budget and allow our domestic refiners to raise their prices up to that level, which is supposed to increase the drilling for new sources of energy.

So all we have to do is to impose a tax and everything is going to be all right. Sometimes I wonder about that. But 10 years ago this Chamber made a good judgment. It said to the auto manufacturers, "We want you to have 27½ miles per gallon fleet average by next year."

We also said, "Let's trigger it. We can't see into the future. We can't understand everything that is going to happen."

But at that time we were projecting $2.50 per gallon of gasoline. It is $1 less than that today. We made a mistake; we missed that. Now the law is triggering. It says that the manufacturers have the opportunity to petition the Department. The Department has said with that petition we are going to have a hearing on a 1-year extension. And then we are going to possibly broaden that, after we make the decision, to 2 years.

That brings me back to the statement I made earlier, Mr. President, that the major auto manufacturer has committed $3.5 to $4 billion to the construction of a plant that will produce 500,000 automobiles a year which will get 45 miles per gallon in town and 60 miles per gallon on the road.

I promise you today that if we had gone far enough with the research and development as it relates to methanol, they would be getting 100 miles per gallon, based on the law we have written. Yet, we want to kill research. Yet, we want to kill the development of the possibility of increasing our energy independence.

There is no question in my mind, Mr. President, that the congressional planning and foresight in the mid-1970's has resulted in greater energy security for America. It is a point that I think we all should understand.

Now we are at a point where we must reexamine just where we are going in our quest for further energy independence. Specifically, we must ask ourselves whether the gains we have yet to make can really be achieved by continuing to put the squeeze on our domestic oil industry. We must also look at the big picture, at the overall economy, and determine the point at which these stringent regulations become self-defeating.

Before us is the amendment by the distinguished Senator from Washington and several of our other colleagues attempting to express a sense of the Senate that the 1986 CAFE standards should be retained at 27.5 miles per gallon. If not, one company will be fined between $600 and $800 million and another between $50 and $100 million as a result of that sense of the Senate, if that has any influence on the department.

I suppose the first question that comes to mind is, why should these two major manufacturing companies apply for this extension? It appears that both GM and Ford will not be able to reach that 27.5 miles per gallon standard. They will miss it by about a mile and a half per gallon. Do we want to punish them for this? If so, the penalties are as I have just stated. What is it we want? Our pound of flesh? Force the automobile companies to pay hundreds of millions of dollars when they have already committed billions to reach that goal by 1989? I seriously question the wisdom of this approach. Our auto industry is struggling.

The distinguished Senator from Missouri talked about the 75 percent domestic content. I remember when domestic content was a sort of hot item around here 2 or 3 years ago, maybe 4 years ago. All of a sudden, we are beginning to see cars previously made in other countries now being manufactured here, hiring Americans, and selling the cars to Americans. That is what I think we should do.

We hear a great deal about the large automobile market today. At one GM dealer in my hometown, all the large cars will be gone, except one station-wagon of one model in 1986. All the cars are small now. They are meeting the standard. The overall is not.

I want to bring one fact to attention and to restate it. We have heard several times this afternoon that when this standard was set, almost all the experts were predicting that the retail price of gasoline would be $2.50.

(Mr. ANDREWS assumed the chair.)

Mr. LONG. Mr. President, will the Senator yield at that point?

Mr. FORD. I yield to the distinguished Senator from Louisiana.

Mr. LONG. I am sure the Senator heard some of the arguments that were made. One that impressed me—and I ask him if he thinks it has merit—is that the people do not want to buy all these small cars that can be made available. There is nothing new about that. In the first big energy crisis, we called upon everybody to buy the small cars. Then when the crisis passed, the people would not buy the small cars. The fuel was available, and they wanted to drive the larger, more comfortable cars—and the safer cars, I might say—as they had done before.

In the main, the people of this country would like to buy the larger cars as long as energy is available freely, as it is now, at a lower price than it was at a previous point.

Assuming that the people who prefer to buy the larger cars are not permitted to do so because the cars are not available in sufficient number, it is argued that many of those people will simply defer making any purchase, will not buy any, and will wait until a later date to buy something more suitable to their needs.

Mr. FORD. The Senator is absolutely correct.

I can name neighbors and friends of mine who still have 1978 and 1979 cars and they are holding on to them.

Mr. LONG. At the time when we had the big cars and you could buy them, a good friend of mine bought three big Lincolns and put two of them on blocks in a warehouse. When one wore out, he would get the next one. They were the big, comfortable Lincolns, the gas guzzlers we call them. But the argument was that you would not be able to get them in the future and he wanted the big, comfortable automobiles, and he bought them while he could. Others would make the old car last longer.

I have an old car that I suppose I will trade in this year for whatever it brings. It is a big, comfortable thing that would certainly be classified as a gas guzzler by these standards.

That is one thing about the big cars—they will take you a long, long way. In World War II we learned that we could make the old cars last throughout the entire war without building more than a quarter of a million automobiles a year, whereas we used to build 7 million or 8 million.

If they continue to drive old automobiles we will get even less mileage than with the new equipment. We would get less mileage because we declined to let the companies produce something more in line with what the country is interested in buying.

Mr. FORD. The Senator is correct.

If my neighbor could trade in his 1978 for a 1986, which is a fairly good sized automobile, he would be getting twice the miles per gallon with the 1986 than he is now getting with his 1978.

So we would have that improved. They say there would be two-tenths of 1 percent loss if we delay this 27.5 miles for a year or two or three. Well, what have we gained if that fellow trades in his 1978, which is a gas guzzler, and buys a 1986 which gets twice the mileage? We gain a good bit.

Let me make another point to the Senator about big automobiles. The Japanese are our biggest competitor with respect to automobiles. What are they going to? They are going to the larger automobiles. That is where the market is; that is where they are bringing their cars. So they are bringing in the biggest cars they make and are putting those on the market. They may get a mile or two better mileage,

but we are on the verge of catching them.

So I hate to see us kick our own manufacturers in the teeth, so to speak, while we let the foreign imports come in, and they are selling more and more of the larger automobiles.

Mr. LONG. Mr. President, if the Senator will yield further, just given a few more years, there is no doubt, in my mind, that the automobile companies can find ways to get even better mileage without so drastically reducing the size of the automobiles.

For example, just new technology of which this Senator has some knowledge that has not yet been installed in the automobile, it should make it possible to reduce the size of the differential so you reduce the size of the gears you have to carry around. You will find something smaller, even more efficient to do the same job. So you have efficient automobiles with less weight to carry. Every time you can reduce the weight——

Mr. FORD. You improve the mileage.

Mr. LONG. You improve your mileage.

Mr. FORD. Right.

Mr. LONG. So as they find more ways to reduce the weight of the automobile they are able to give the public a more comfortable automobile, more like what the public wants to buy.

When you really get down to it, what they are really talking about here is are we going to let the American people buy the kind of automobiles they want to buy. That is what is involved if you put the penalty on General Motors and put the penalty, I believe it is, on the Ford Motor Co. that is also hit.

Mr. FORD. Both of them.

Mr. LONG. You penalize General Motors and penalize Ford. All you are really doing is telling the American people they cannot buy the automobiles they would like to buy. So what a great number would do is just postpone the purchase. That means they would be using more gasoline rather than less and we would have a less fuel-efficient automobile fleet out there on the highway than they would if we told them to go ahead and build the automobile they are trying to build.

Mr. FORD. Is it not strange, also, that when General Motors has just committed $3½ billion to make a more fuel-efficient automobile, they have to build the plant in order to do it, and it would take them roughly 3½ years to construct a plant, another 6 months or so to have it up, so to speak, to begin producing those cars, so by 1989 they are going to have a car on the road that gets 60 miles per gallon on the road, 45 miles per gallon in town, yet we are going to say no to them, we do not want you to have any kind of break, we want to fine you $800 million while you commit $3½ billion to building a new plant to have the automobile on the road that more than meets the standards.

So it just does not make any sense to me that we want to do those sorts of things to those who are providing jobs for Americans.

Mr. LONG. I ask the Senator is this new automobile the Senator is speaking about the Saturn automobile?

Mr. FORD. The Senator is correct.

Mr. LONG. There has been all sorts of publicity around the United States about the site. The site has been selected, I believe, in Tennessee, not in Louisiana or Kentucky, but that is the breaks of the game, as it goes.

Mr. FORD. The Senator is correct.

Mr. LONG. So they have developed the technology and are building the machines and are going to install them at a location in Tennessee.

Mr. FORD. That is correct.

Mr. LONG. And they will proceed to build these new automobiles that will get the kind of mileage to which the Senator refers.

Mr. FORD. That is correct.

Mr. LONG. So the automobiles will be built, they will be designed and, in fact, I think the prototypes are already out, are they not?

Mr. FORD. The Senator is correct.

Mr. LONG. They have been on display and they have had a chance to test the performance and see what they will do. So the automobiles will be built.

But we are talking about what happens between now and then and with the capacity we can build automobiles the public would like to buy. The question is do we let the companies build and sell the product, produce what public would like, which will increase the mileage and give us a more modern fleet of cars on the highway, or do we tell them, oh, no, we know that is what the public wants to buy but we are going to insist that you provide something that will have a little more miles per gallon.

Mr. FORD. The Senator is absolutely correct, as I find him most often, and I hope that those Members who are listening to him now will see his wise advice and help us to defeat this amendment this afternoon on this sense-of-the-Senate resolution.

Mr. LONG. Mr. President, I am simply agreeing with the Senator from Kentucky because I believe he is right.

May I say to the Senator I think my record would indicate I have nothing against the Chrysler Co., and I am not saying this is just a fight between automobile companies, but the Chrysler people oppose it because they are not building this size automobile. They feel it would give the other people of a competitive advantage.

But I do not know how the Senator voted. Did he vote as I did with the Chrysler loan?

Mr. FORD. I sure did.

Mr. LONG. If it had not been for Senators like the Senator from Kentucky and the Senator from Louisiana, Chrysler would not even be in business. So we thought enough of Chrysler to fight for them and help Chrysler to have whatever financial assistance was needed to keep that company going through bad times, and I am glad we did.

Mr. FORD. I am, too.

Mr. LONG. I am sure the Senator joins me. We are just tickled to death that the Chrysler Co. is succeeding in making good. We are glad we voted to do whatever was necessary to help sustain that great company through a bad time and help make it succeed.

To anyone who thinks we do not love Chrysler, I say why did we vote to save them if we did not feel kindly toward that great company and toward their very able chief executive officer, Mr. Lee Iacocca?

We have a situation where the statute clearly contemplates that at this point in our history the automobile makers have the right to come before this Board and to ask that there be some adjustment in the projected increase in the mileage that they would have, and it was intended.

Mr. FORD. That is right. The Senator is absolutlely right. It was put there because we could not see 10 years in the future.

Mr. LONG. And it was intended that certain factors be considered.

Mr. FORD. That is right, and if we were right at the $2.50 a gallon cost of gasoline today at 10 years ago then everything would be fine. But we were wrong on that. Maybe we were wrong on mandating 27.5 miles per gallon in 1986.

Mr. LONG. Is it not true that this Board is one that was appointed by the President and confirmed by Congress or the Senate at least?

Mr. FORD. That is the way I understand.

Mr. LONG. So here are people who are appointed to do this job and to pass on such a request.

Mr. FORD. But you go through the public hearings and all those who hear testimony, and you get all those things. It is just like you are going through the whole law again, but there is only 1 year extension involved and then they will expand it, as I understand it, to 2 years beyond that, but only have to look at a 1-year grant.

Mr. LONG. Is it correct to say that this Board either has or will hold extensive hearings and hear from all those people who have arguments to make for both sides of the argument.

Mr. FORD. They have already scheduled 2 full days of the hearings already.

Mr. LONG. I would like to ask the Senator, can the Senator explain to

me why we, without knowing what the hearings would produce, should undertake to judge the case for them in advance, to deny them the opportunity or at least to try to dictate what their answer would be when we have not even held the hearing.

Mr. FORD. The Senator is absolutely correct. We are prejudging, and I would venture to say that not many people understand the full impact of what this means until all the facts are out on the table. I would hate to have a jury make a judgment for me before the facts are known fully.

So what I see happening here is that we are prejudging what the testimony and hearings will develop and they will hear, "We just want to have our input to say you should not do it, and we are going to put this sense of the Senate in, it is not binding, but we want that to be a part of the hearing."

That is well and good. But we are prejudging. We are making a judgment before all the facts are in—and the Senator is absolutely right.

Mr. LONG. If you assume for the sake of argument that we do our duty just as we expect others to do theirs, and the President did his duty in appointing people he thought properly qualified and we did our duty in confirming people after looking at them and examining their credentials and deciding these were the kinds of people who were well qualified to do this job, can the Senator explain to me why we should dictate to them that they decide it one way before we even have an opportunity to hear what their decision would be and the reasons for it?

Mr. FORD. The Senator just said that we pass laws, we labor through putting it together and sometimes in very minute detail, we dot every i and cross every t, and then at a point we say this is the law and this is the procedure and this is what we have to follow and we demand that those we govern do that, but yet we are saying no, we want to change all that. We want our input. We want to say you should not do it even though we pass the law to allow it to happen. Everyone is following the law. The tract is there. And what we said is now happening. It is transpiring. But yet there is a sense-of-the-Senate resolution here that says do not do it.

Mr. LONG. Is it not true that those of us who are supporting the position taken by the Senator from Kentucky are not seeking to change the law?

Mr. FORD. That is correct.

Mr. LONG. We are not seeking to change what the law contemplated.

Mr. FORD. The Senator is correct.

Mr. LONG. All we are seeking is that the law and the people appointed pursuant to the law do their duty as they were expected to do.

Mr. FORD. The Senator is absolutely correct.

Mr. LONG. And we are not trying to prejudge the case before we have heard it.

Mr. FORD. That is correct. The Senator could not be more right and his statements, I think, are very emphatic as to what is trying to be done here. We are trying to say, "Follow the law."

Mr. LONG. I thank the Senator.

Mr. FORD. In closing, Mr. President, let me just say, no matter what we do here today, no matter what the Secretary of Transportation ultimately decides with respect to the General Motors and Ford Motor Co. petitions, Americans are still going to demand the larger car. If GM and Ford are not allowed to fill that demand, I am sure there are foreign car manufacturers who are only happy to satisfy that market.

So, Mr. President, the CAFE standards have been good for America. Nobody argues that they have been bad. They forced American automobile manufacturers to drastically improve the fuel economy of their products. Nobody is arguing that they have not. And they have helped reduce our Nation's dependence on foreign oil. We have come a long way. We have come a long way from the days of Arab oil embargo and gasoline shortages. Now, we must reassess our objectives.

At a time when gasoline prices and availability have stabilized, we must determine whether the goal of even higher automobile fuel efficiency is worth the risk of crippling our domestic auto manufacturers who are merely trying to satisfy the demand of the American consumer.

I believe it is not worth the risk. It is not worth the jobs it will cost. It is time to declare victory in our efforts to improve our fuel economy and back off a little—1 mile; back off a little bit—and just give them another year or two to comply.

Vast improvements have been made, and I could not feel any stronger about the position that the distinguished Senator from Louisiana took. If we do not give them an opportunity to get the kind of car they want, they are going to keep their old guzzler, getting about 10 or 11 miles per gallon. They can trade it in and get 20, 22, 24 miles per gallon on a new car, and that satisfies them. And if that is not improvement—that is 100 percent. I yield the floor.

Mr. DANFORTH. Mr. President, America's dependence on foreign oil has been a subject of great concern for more than a decade. Our Nation has made substantial progress in our efforts to achieve energy independence in recent years, but we should not become complacent about this progress. The oil crisis has eased for now, but future disruptions in oil supply certainly are possible.

One of the key factors in the reduction of our energy needs has been the corporate average fuel economy [CAFE] standard for motor vehicles. The CAFE standard was established in 1975, with an amendment to the Motor Vehicle Information and Cost Savings Act by the Energy Policy and Conservation Act. The fuel economy program has helped to bring about a near doubling of the fuel economy of new automobiles. But further improvements in fuel economy remain technologically feasible.

Earlier this year, however, General Motors [GM] and Ford submitted petitions to the National Highway Traffic Safety Administration [NHTSA] requesting that NHTSA reduce the CAFE standard for passenger cars for the 1986 model year and beyond from 27.5 to 26.0 miles per gallon. GM and Ford argued that they cannot meet the 27.5 miles per gallon standard, primarily due to strong consumer demand for large cars. These large cars, which are less fuel efficient than their small counterparts, are in such demand mainly due to low fuel prices. Without a reduction in the CAFE requirement for model year 1986, GM and Ford would be subject to large fines for not meeting the standard and, according to these companies, possibly be forced to shut down some production facilities. Ford and GM also maintain that any fuel savings brought about by the 27.5, as opposed to a 26.0 miles per gallon standard, would be negligible.

On July 17, NHTSA issued a notice of proposed rulemaking [NPRM] on the automakers' petitions to reduce the CAFE standard. In this NPRM, NHTSA tentatively concluded that the maximum feasible average fuel economy level for model year 1986 is 26 miles per gallon. NHTSA said that Ford and GM's efforts to meet the 27.5 miles-per-gallon standard "have been overtaken by unforeseen events."

But why can Ford and GM and others not meet the standard? At a June 20 Commerce Committee hearing on Senate Resolution 178, Chrysler pointed out that it consistently has met the CAFE requirements and will meet the 27.5 miles-per-gallon standard in model year 1986. Chrysler undertook a significant investment—about $5 billion—to improve the fuel efficiency of its cars and is continuing to develop fuel-efficient high-performance engines. Chrysler believes any weakening of the CAFE standard would put Chrysler at a competitive disadvantage to its competitors.

As for energy considerations, the Environmental Policy Institute maintains that if the CAFE standard were reduced to 26 miles per gallon, U.S. fuel consumption could increase by approximately 100,000 barrels per day, rising to 200,000 barrels per day by the

mid-1990's. Even NHTSA estimates a maximum increase in fuel consumption associated with a 26 miles-per-gallon CAFE standard would be 1.54 billion gallons, 37 million barrels, over the life of the model year 1986 fleet. This translates into a yearly impact on U.S. gasoline consumption of 210 million gallons.

I am concerned about NHTSA's recent action to reduce the CAFE standard for cars. We must take steps to reduce further our Nation's energy consumption. For this reason, I am pleased to be a cosponsor of Senate Resolution 178, which was introduced by Senator EVANS. This resolution notes the importance of encouraging fuel efficiency and expresses the sense of the Senate that NHTSA should retain the 27.5 miles-per-gallon passenger car CAFE standard specified in current law.

NHTSA will issue its final regulation soon on the model year 1986 CAFE standard. It is not too late for the Senate, however, to take action to encourage NHTSA not to reduce the standard. I urge my colleagues to join me in supporting this important amendment.

Mr. President, I compliment the Senator from Washington for his amendment. It reflects an interest that has been taken by Senator EVANS for some time on the whole question of the energy policy or lack of energy policy in this country. He has raised it today for the Senate to consider.

Mr. President, the issue that is before us now is not a new issue at all. It is an issue which goes back 10 years because, in 1975, the Congress created the concept of the corporate average fuel economy, the so-called CAFE standard. In 1975, Congress believed that if we set targets over a period of years for automobile fuel efficiency, those targets could be phased in over a period, the automobile companies could adjust and plan for those targets, and they could create fuel-efficient cars. The theory that was adopted by Congress in 1975 was that while market principles generally are sufficient to serve national purposes, in the case of fuel economy, we needed something more than just market standards; we needed to do something which would move auto industry in the direction of more fuel-efficient cars, a direction toward which they would not move solely because of market forces. Therefore, we created a table.

We agreed to the table back in 1975. That table provided, among other things, that 10 years later, in 1985, automobiles would have to meet a standard of 27.5 miles. Now, Mr. President, what has happened is that two of the automobile companies, Ford and General Motors, have appealed to the Department of Transportation and have asked that the standard that was set by Congress 10 years ago should not be adhered to and that there should be a rollback.

I think there are two problems with the rollback. The first problem is that it is not fair. The second problem is that the rollback is contrary to the policy that was created 10 years ago and would mean the increased consumption of oil and the increased consumption of gasoline in the United States.

Why is it not fair? The auto industry is a competitive industry. We have three leading manufacturers of automobiles in this country—Ford, General Motors, and Chrysler. All three were told the standard that was to be met; all three were able to plan to meet those standards. Chrysler worked on it, and did meet the standard, and can meet the standard of 27.5 miles per gallon by 1985. Ford and GM claim that consumer preference is for the larger car and that they want a 26-mile standard and they cannot meet 27.5.

So we have created in Congress a set of rules. We have told the auto manufacturers 10 years in advance the rules that they should abide by. Now the Department of Transportation says, let us change the rules. I do not think that is fair. I do not think that is fair to Chrysler, which played by the rules.

Mr. President, if consumer preference were all that should be considered in the fuel efficiency of automobiles, then we would never have passed the law in the first place back in 1975. If it is enough to establish our national policy with respect to energy to say that the consumers prefer large cars, then there is no energy policy. Then we are simply saying to the auto manufacturers, "Build large cars, advertise large cars, promote large cars because that is good enough for us."

Chrysler met the standard. Chrysler played by the rules. Chrysler is being penalized for playing by the rules by the Department of Transportation and it is not fair.

Second, Mr. President, there is still the question of national energy policy and what we are to do, if anything, in order to try to control the consumption of oil within the United States.

The indication from NHTSA itself is that the difference between a 27.5-mile standard and a 26-mile-per-gallon standard is 210 million gallons of gasoline a year, or 1.54 billion gallons of gasoline over the life of the fleet that would be built next year, a difference of 1.5 billion gallons of gasoline.

Now, Mr. President, I suppose the argument can be made, "Well, we now have a glut of oil. There is no current oil shortage, and therefore we don't have to be concerned about it."

I do not share that view. The United States is still dependent on foreign sources of oil. If there is any unstable region of the world, it is the Middle East. The United States is a vulnerable country. The Middle East is liable to do anything at any time. If we cannot protect our passengers on a TWA flight, how can we protect our source of energy? To say that the Department of Transportation should take a step which is going to mean the consumption of 1.5 billion gallons of gasoline over the life of the fleet is to say that energy is no longer a problem, that consumption is fine, that the day of the gas guzzler can return.

The position of the Department of Transportation is not fair. The position of the Department of Transportation is contrary to what should be the energy policy of this country. Therefore, Mr. President, I am pleased to join with the Senator from Washington in urging the adoption of his amendment.

The PRESIDING OFFICER (Mr. MCCONNELL). The Senator from Washington is recognized.

Mr. GORTON. Mr. President, in these times of complacency about our Nation's long-term energy outlook, I commend my distinguished colleague from Washington for his foresight in introducing the amendment that we are considering today. While gasoline prices may now be at an unanticipated low, and supplies at an unexpected high, we would be naive to presume that these conditions will prevail indefinitely. Our foreign oil sources continue to be vulnerable and unpredictable because they are for the most part located in politically volatile regions, and because of their own interests in high prices. Moreover it has recently come to light that our domestic sources are not as plentiful as we had believed. We must therefore remain diligent in our efforts to conserve energy.

The CAFE standards were developed in 1975 to require American auto manufacturers to develop the technology to market fleets of fuel efficient cars. On the whole, these standards have been a great success, leading to a reduction in our Nation's reliance on foreign oil supplies. But now two auto companies have successfully petitioned the National Highway Traffic Safety Administration, gaining at least temporary relief from their obligations to achieve the final standards required under the CAFE law. Their justification is that consumer demand requires them to sell so many large, low mileage cars that they simply cannot meet their overall fleet average requirement. This argument is not new. If it had been heeded in 1975, there would have been no CAFE laws, and American cars would be substantially less fuel-efficient, and competitive, as a result.

In addition to representing a retreat from sound energy policy, a reduction in CAFE standards would be a conces-

sion to the special interests of Ford and GM at the expense of Chrysler, which has fully complied with its CAFE requirements. I believe this unfairly penalizes Chrysler, which has incurred substantial expense in order to meet its obligations under the law.

Again, I wish to commend the Senator from Washington for his leadership on this issue, and I lend my full support to his effort.

Mr. METZENBAUM addressed the Chair.

The PRESIDING OFFICER. The Senator from Ohio.

Mr. METZENBAUM. Mr. President, my colleagues know that I originally cosponsored this resolution with the distinguished Senator from Washington, and I rise today to indicate my concern and my strong feeling that Congress has an obligation to speak out to defend the integrity of the CAFE standard. It is both an important symbol of our national commitment to energy conservation and, frankly speaking, one of our most effective energy efficiency measures. Even the Department of Energy admitted that fuel efficiency improvements have yielded savings of 1 million barrels of oil per day.

Now, that is not exactly hay—a million barrels of oil a day is a major energy factor. But to be quite frank, I think we all must recognize that events have outpaced this resolution. Two weeks ago the National Highway Traffic Safety Administration announced that it planned to roll back the CAFE standard from its current level of 27½ miles per gallon to 27 miles per gallon for the 1986 model year. The decision to lower this 10-year-old standard was in response to a plea from Ford and General Motors, who faced hundreds of millions of dollars in fines for refusing to comply with the standard. The concerted efforts of Ford, General Motors, and NHTSA to roll back the standard have been one of the most shameless displays of cynicism and greed that I have seen in a long time. For this reason I believe that if we adopt the resolution under consideration, it will fall on deaf ears. The decision has been made regardless of what the Senate of the United States says. Only strong and direct legislative action will protect the CAFE standard.

Ford and General Motors are reneging. They are reneging on a series of commitments they made to Congress, but, more important, than that, they are also reneging on the series of commitments they made to the country.

Over the last 10 years they continually promised to meet the CAFE standard of 27½ miles per gallon. In fact, in 1977 and 1978 Senator Jackson, of revered memory, and I worked hard to establish mandatory mileage minimums. Our proposal would have banned the production of cars achieving less than 16 miles per gallon and increased the minimum by 1 mile per gallon per year until the minimum standard for all cars was 21 miles per gallon.

I am frank to say to my colleagues that I have a car that is less than 2 years old and gets somewhere between 12 and 14 miles per gallon. If that minimum standard has been enacted, we would be getting anywhere from 7 to 9 miles per gallon more, and it is a small car. It is a Ford. If we had had that mandatory minimum, we would have ensured there would be no gas guzzlers to hold down the overall corporate average. But the car companies opposed us. They assured us, they promised us that they would meet the CAFE standard without the additional regulation. As a matter of fact, as recently as last year Ford and General Motors were telling a House subcommittee that they would meet the standard. Now, facing hundreds of millions of dollars in fines, they suddenly ask the administration to change the standard under the law to protect them. Why? Ford and General Motors would tell us that they are victims of the market, that consumer demand for large gas-guzzling cars has prevented them from complying with the standard.

Well, let me say this. If you read your newspapers, if you watch your TV ads, you would find that General Motors and Ford were hyping, were pushing, were advocating the sale of their big cars. And they were willing to sell those big cars and give a lower interest rate than would otherwise be charged in financing an automobile.

Ford and General Motors overstate the consumers' shift to large cars. As a matter of fact, Government studies show that the demand for large cars has remained fairly constant since 1980, in spite of the extra push and hype of GM and Ford. These companies are not victims. Ford and General Motors spend millions and millions of dollars each year to convince the American people of what kind of car they want. What do they push? Big cars. Why do they push them? Because they make a bigger dollar in selling the big cars.

Mr. President, it is very telling that even the Automotive News, the newspaper of the industry, accused Ford and GM of speaking out of both sides of their mouths when they ask that the CAFE standard be surrendered to the forces of the free market, while simultaneously employing artificial marketing standards to push their gas guzzlers.

Mr. President, I ask unanimous consent to have printed in the RECORD the editorial from Automotive News.

There being no objection, the editorial was ordered to be printed in the RECORD, as follows:

[From the Automative News, July 8, 1985]

MILEAGE AND MARKETING

EPA has given automobile makers an early Christmas present on fuel-economy adjustments, and just about every maker except Chrysler is happy as a clam.

But the really big question is yet to be settled and that has to do with whether NHTSA will change the 27.5-MPG Corporate Average Fuel Economy (CAFE) and higher numbers that lurk ahead for the domestic and import automobile makers.

While we have previously discussed the pros and cons of big cars and small cars, there is one thing that continues to trouble us. We think it is an industry practice that should be stopped.

We have heard the arguments over the years about a free marketplace—arguments that the automobile industry should let the consumers decide just what automobiles they want to drive and buy and that the government should not get involved in this aspect of a free economy. All that is well and good and it would be pretty hard to argue with that aspect of marketing and a free economy.

At the same time, we believe that it is in the best interest of society to help convince the public that smaller, more-fuel-efficient automobiles are a great way of helping conserve our limited resources.

The automobile industry has made some gigantic strides in the last decade in developing safer, more-fuel-efficient and cleaner automobiles. Cars that used to get 12 MPG are now getting 22 MPG, and it is no longer breathtaking to hear about an automobile that gets 40 or 50 MPG on the open road.

And let us not forget that almost all of those improvements resulted from laws that mandated safer, more-fuel-efficient and cleaner automobiles. If there is any doubt, just look at any other country with lower standards and you will find that cars are built to the minimum standards necessary to comply with the laws of that nation. Some car companies, different countries, different laws.

In the U.S., automobile companies are still building passenger vehicles that meet truck safety, emission and fuel standards and are used and marketed as passenger cars.

We are seeing too many incentives for cars that have less than the average fuel economy. If we believe in a free economy, we should not create artificial marketing standards to pump up sales of larger, less-fuel-efficient cars by using rebates and other marketing devices that are designed to inflate sales. If an auto company wants a free marketplace, it should let the marketplace exist without promotions and incentives for the cars that don't meet the standards and the public didn't want in the first place.

If the public doesn't want big cars, then don't help to change its mind. The auto makers are talking out of both sides of their mouths.

Mr. METZENBAUM. Mr. President, it is also important to note that Ford and General Motors clearly had the opportunity and ability to meet the standard. They refused to comply with the law because they could make more money by selling older, inefficient large cars than if they replaced them with more fuel-efficient models.

Their motivation is not the national interest. It is greed, just pure and simple greed. The Reagan administra-

tion, with such a tough reputation for law enforcement, in this instance is abetting the strategy for Ford and General Motors. No one says that they are violating the law, because the law did provide that there could be a modification, that the regulations could be changed. But those averages were set with the understanding that they would be met, and Chrysler lived up to them, and everybody expected General Motors and Ford to do so as well.

In early July, the Environmental Protection Agency retroactively increased CAFE ratings for the 1980 and later model years.

Then, as already noted, NHTSA announced plans to rollback the 1986 CAFE standard. The combined effect of these two actions will allow the two companies which have chosen to disregard the standards set under the law to be absolved of the hundreds of millions of dollars in fines they face, and escape bearing the responsibility of their actions.

What is now coming to light is the fact that NHTSA may have set the standard at a level below what Ford and GM claim they will be able to achieve.

The most recent 1986 CAFE projection submitted to NHTSA by Ford shows that the company expects to exceed that 26 mpg level in 1986. There are indications that the latest GM projection reaches a similar conclusion.

How NHTSA can determine the most technically feasible and economically practicable standard is at a level lower than the companies themselves say they expect to achieve is beyond comprehension. But we know what is going on. The fix is in. The die has been determined. We knew it months ago. We knew that the two automakers were going to get what they wanted and that nobody was going to be able to stand in the way of General Motors and Ford.

General Motors and Ford came down to Congress, telling us about all the unemployment that would result and telling us that if we did not change the standard, it was going to be a travesty, and they would be laying off workers. Whom are they kidding? Would they really lay off workers and shutdown, or would they figure out some way to pay the penalties they owe and continue making the hundreds of millions of dollars they have been making?

NHTSA is setting the standard so low that Ford and General Motors are guaranteed to exceed it and build up enough credits to offset the huge penalties they face.

It is quite clear that the administration acted to protect these two powerful corporations from the law, rather than enforce a standard which has been met by many other auto companies, including two American firms.

We make a mockery of the fuel-efficiency standards and our national commitment to energy conservation when we permit the administration to get away with it.

What Ford, General Motors, and NHTSA have shown us is that it is easier and more profitable to get the administration to change the rules than it is to comply with them.

So it is up to Congress to step in and reaffirm our commitment to energy security and preserve the fuel-efficiency standard.

That is why I am reluctant to use this resolution as the vehicle.

I believe that we must do more than urge this administration to retain the current CAFE standard. If it is to be preserved, it will be necessary for Congress to mandate that it be retained.

Mr. President, I am going to vote with the distinguished Senator from Washington. I am going to support the resolution. I urge my colleagues to support the resolution—not because I believe that the resolution will solve the problem, because I do not believe it will; but if this body has the temerity and the courage to stand up to General Motors and Ford and to support the Evans resolution, then I think we can return and, perhaps by legislation, do that which we should be doing in the first instance.

The defeat of a motion to table the resolution and subsequent adoption of the resolution would send a loud and strong signal to the administration that we do not approve of their actions favoring Ford and General Motors.

Mr. EVANS. Mr. President, we have listened to arguments on both sides of this issue, and I should like to take a few moments toward the end of this debate to respond to some of those who are against this resolution.

Several Members talked about the potential of jobs lost if companies were not able to meet the standards. Even in the Department of Commerce study, they did not suggest that some of those expectations would happen. They only said that in a worst case scenario that could happen.

Ford and General Motors, faced with the alternative of not meeting the standards and paying a fine or closing down some of those plants, would obviously pay a fine. It is no more credible to believe that they would shut down those plants than it is credible to believe that someone driving round and round a busy place to which he wants to go, finding the parking lots full and suddenly finding a place in front—illegal to park in, but nonetheless available—would not find it tempting to pull in, park, and pay the fine. Of course they would. But that is not what is really at stake. It is not a question of paying the fine or laying off people. It is doing every possible thing to meet the standards as they were established 10 years ago.

The distinguished junior Senator from Louisiana talked about the price versus the amount of gasoline, and there has been much emphasis on the miscalculation as to the price of gasoline today as compared with our expectations of 10 years ago. There has been a lot of talk about a glut of oil. There is no glut of oil. There is not one more gallon of oil on this Earth today than there was 10 years ago, if you take from that the amount that was used in the intervening period of time. There is only so much. The so-called glut is just a question of demand versus supply.

There are a good many sitting up in this gallery who are young, who have a long life to live, and because of the perceived glut of oil, the perceived low price of oil, we simply are going to use an inordinate share of what remains because it is convenient.

I do not think that it is appropriate for the Senate, I do not think it is appropriate for the country.

Some have suggested that somehow we passed a law 10 years ago giving the Department of Transportation a chance to ameliorate these standards, and they are going through the process of attempting to do that now and somehow that it is wrong, therefore, for the Senate to express its opinion.

If it is wrong for the Senate to ever express its opinion on the actions or the activities of the executive branch of Government, we could shorten our yearly sessions by several months, because we spend an inordinate amount of time perhaps dealing with actions of administrative agencies. We do it all the time.

I think that the method I have chosen is one which is particularly appropriate. After all, this does not interfere with the process that has been established by Congress 10 years ago; in effect, a public comment during the comment period by a group of concerned citizens.

If we are not concerned citizens, if we have not the opportunity and the privilege of presenting our views during this public comment period, then something is wrong. Rather than interfering with the process, I suggest that it contributes to its vitality, and certainly the Secretary of Transportation I think would like to hear from the Senate and from the House of Representatives, for that matter.

Some have suggested that, well, it really does not make much difference. It is only a fraction of 1 percent decrease in what otherwise would be called for.

That reminds me of the famous statement of Senator Everett Dirksen many, many years ago: "A billion here and a billion there, and pretty soon it adds up to real money."

A tenth of a gallon here and a tenth of a gallon there and multiplied by the number of miles and the number of automobiles it does add up to real gallons.

Some have talked about the need to do this. Well, the major consideration is that while prices of fuel can change overnight, today if we have not met the standards as suggested it is because prices are too low, that they are not where they were expected to be 10 years ago. Well, that may be true. We also know that prices can change virtually without notice. It has already happened twice in the last 10 years. But you do not change automobile models overnight. You do not change them in a week or a year. It takes several years of lead time and to consider only price, as some have suggested, to consider only price is simply inadequate, and, in fact, it is inadequate according to the law.

Listen to the four factors that the National Highway Traffic Safety Administration was required to consider. Now, I personally think they paid no more than lip service to everything except one of those four determinations.

To determine the maximum feasible average fuel economy the Secretary shall consider, first, technological feasibility.

I think it is quite clear that the technological feasibility is there. It has been there. It is there not only for small cars. It is there for large cars as well.

Let me repeat, for the benefit of some of those who may not have heard it, a couple of those examples which I think are important to understand.

Large cars: Chrysler Fifth Avenue old model, $18,000, six-passenger, rear-wheel drive, V-8, gets 16 miles to a gallon in the city and 21 to 24 miles per gallon on the highway; the Chrysler New Yorker, a new technology automobile, same price, same size, four-cylinder, turbine engine, front-wheel drive, gets 22 miles per gallon in the city and 25 to 27 on the highway, and what is more it has every bit the same acceleration, the same performance, will do everything for you that the old model will do, with one exception—it gets a whale of a lot better gas mileage. And both are available. Why anyone buys the old one I will never know.

Or Cadillac Eldorado or Fleetwood Brougham, the top-of-the-line Cadillac, a $30,000 automobile, the old one, rear-wheel drive, 4.1-liter engine, 16 miles to a gallon in the city and 22 on the highway; the new car, same model, front-wheel drive, same engine, about $1,000 less expensive, same size, 18½ miles in the city and 24½ on the highway.

The technological feasibility—no question that it is there.

The effect of other Federal motor vehicle standards on fuel economy, No. 2—now since the original estimates were made, the only motor vehicle standard which is relevant that has affected fuel economy estimates is simply the failure of the industry to implement mandatory restraints which would have reduced, by approximately four-tenths of a mile per gallon, the fuel efficiency estimates. That is a choice which could have been made and which, because it was not made, the automakers have received some benefits on the fuel efficiency standard.

The third consideration: the need of the Nation to conserve energy. That need is still there. It still must be considered.

Some suggest that this is not very much, but the differences we are talking about adds up, just for this one model year to 12 days' worth of oil imports. It is equivalent to 12 days' worth of withdrawals from the strategic petroleum reserve (SPR), and we have a preciously difficult time getting anyone to add to that supply, saying that it costs too much; we did not have the budget; we want to delay filling SPR. Here is the way to add to SPR, in a sense. It is just the same thing. You cut down the use or you add to the amount that you put in reserve.

I have stated before extensively the increasing dependence which we now have on foreign sources—others have talked about the same thing—that clearly points up the need of the Nation to conserve energy.

That is three of the four considerations.

It seems to me all three of those, particularly the technological feasibility and the need of the Nation to conserve energy, speaks strongly for maintaining the standards, and it is only economic practicability that some suggest require its lowering.

I have already pointed out that the cars are available. They are on the lots. They could be sold. The advertising could lead people in that direction.

But let us talk about for just a moment this question of people demanding large cars. Is that really true?

Well, if you look through the market share for our domestic fleet over the last 4 years, and I can pick the last 3 years, 6 years, 5 years—going back to 1980 is a good example—to look at the number of large cars. The market share of large cars in 1980 was 19.2 percent; in 1984 it is 18.9 percent. It is down, not up. Mid-sized cars, the next smaller, 1980, 43.9 percent; in 1984 it is 37.7 percent, which incidentally is the lowest at any time in the last 6 years. In 1980, the number of compact cars—the number of compact cars is up from 6 percent to 27 percent, and the number of subcompact cars down—here is where it is down from 26.9 to 14.3 percent.

If there has been a real movement in market share it has not been to the large cars. That market share is down. It has not been to mid-sized cars. That market share is down. What is has been is a movement from subcompact to compact cars, and in both of those areas all manufacturers clearly meet the fuel efficiency standard.

So the purported demand of people for large cars may be a good anecdote, but it is not borne out by the facts. It is not borne out by the sales records. It is not borne out by the market share.

Mr. President, I think the four standards set by this Congress 10 years ago, if looked at adequately, honestly, and completely, would lead to but one conclusion, and that is we ought not to retreat from what we started to do 10 years ago but to keep the standards where they are. It is perfectly appropriate for this Senate, through a sense-of-the-Senate resolution, to tell the Secretary of Transportation that this is what we believe. Certainly we have every right, just as other citizens do, to express our opinions in a public comment period.

Mr. NICKLES. Mr. President, I think the arguments on this issue have been hashed back and forth and probably repeated. I will endeavor not to repeat those.

I will make about two or three comments and then hopefully the majority leader will make a tabling motion, which I hope the Senate will adopt.

Just to maybe correct or give a counter viewpoint of a couple of items, I have heard three or four speakers in the last several minutes mention that if we do not adopt the Evans-Metzenbaum resolution that we are being unfair to Chrysler. Well, Mr. President, I totally disagree. I think our colleagues should know and should be aware of the fact that Chrysler, in 1979, also petitioned the Department to revise their standards and roll them back for light trucks, which the Department did.

Now we have GM and Ford that are petitioning for a rollback, and now we hear it said that it is unfair. They also say, "Well, they are competitors. We need to treat them equally."

I do not recall that GM or Ford received billions of dolllars' worth of Government loans. So I do not think that argument holds up and I hope that Members will be aware of that.

We have also heard, "Well, we are changing the rules at the 12th hour."

Mr. President, the law written by Congress in 1975 allowed for the manufacturers to petition if they felt it damaged their companies. It allowed them to petition to roll back the standard. That is exactly what they are doing. They are doing it exactly as prescribed by the law.

I personally believe they have legitimate gripes. It is not just those manufacturers. We have heard how greedy they are. We have also heard it would not cost jobs. I heard someone mention, "Well, it really would not cost jobs."

I will quote from the Department of Commerce report.

The Department of Commerce estimated that the effect of GM and Ford achieving 27.5 miles per gallon CAFE in 1986 could mean sales losses ranging from 750,000 to 1 million units. Based on the labor required for producing large domestic cars, including suppliers, the Department estimated job losses between 80,000 and 110,000 jobs.

I think that is important. I hope that people will realize that.

Then we talk about being fair. "Well, they just don't want to pay their fines." Well, I heard GM and I heard Ford. No; they did not want to be fined millions of dollars, but they also did not want the board of directors saying, "Wait a minute, we are breaking the law." So, they want to be in compliance with the law. It is not just the fines.

In the second place, if they paid the fines, who is going to pay the fines? It is going to be the people buying these cars and the cars are going to cost that much more. The net result of this ruling will be that we are mandating to the manufacturers that they do not make as many big cars, and if they do not make as many big cars, those cars are going to cost that much more, as well. I think it is in the interest of the consumers not to be mandating GM and Ford to make less big cars and, therefore, the prices go up and up.

I hope we will support the majority leader's motion to table.

Mr. LEVIN. Mr. President, I am voting to table the Evans amendment for reasons which are mainly those of carrying out congressional intent.

The law provides the Secretary of Transportation the flexibility to—

Amend the average fuel economy standard to a level which he determines is the maximum feasible average fuel economy level for such model year.

The law goes on to make an exception to that flexibility as follows:

Except that any amendment which has the effect of increasing an average fuel economy standard to a level in excess of 27.5 mi/gal or of decreasing any such standard to a level below 26.0 mi/gal * * * shall not take effect if either House of the Congress disapproves such amendment in accordance with the procedures specified in such section.

The legislative history also addresses this issue. The House Committee report says:

The committee in this instance set the standard at the highest potential level of fuel economy (28 mi/gal) which any of the studies available to the committee indicated was attainable, but provided that the standard could be modified administratively (subject to congressional veto) on the basis of information which becomes available in the next 5 years. It is the committee's hope that this procedure will provide the industry with a clear target for 1985 while at the same time providing the program with the necessary flexibility.

The Conference Report on the Energy Policy and Conservation Act [EPCA] makes it very clear that:

The Secretary of Transportation is given authority to adjust the "1985 and thereafter" standard within the range 26.0–27.5 mi/gal to a level which he determines is the maximum feasible average fuel economy level for any such model year.

What is implicit in these statements is that as long as the Secretary of Transportation sets the standard for 1985 between 26.0 and 27.5 mi/gal, it is presumed reasonable and the Secretary should have the flexibility to set standards within that framework.

The Secretary of Transportation has proposed to set the standard at 26.0 mi/gal for model year 1986. If I were the Secretary of Transportation, I might have proposed another standard. However, the statute and the congressional reports with regard to this law seems to point to the range of 26.0–27.5 mi/gal as being within the flexibility given to the Secretary.

Mr. President, for these reasons I will support the motion to table the amendment.

Mr. McCONNELL. Mr. President, I not only disagree with the substance of this amendment but with the tactic, as well. The Senator's amendment "urges" the Department of Transportation not to roll back the Federal auto fuel efficiency standards. I believe this is neither our place nor should this be our goal.

On July 18, the Department of Transportation issued a Notice of Proposed Rulemaking to revise the Corporate Average Fuel Economy [CAFE] standards from 27.5 to 26 mi/gal. When Congress passed the Energy Policy and Conservation Act in 1975, it recognized that unforeseen circumstances might dictate different standards. For that reason, Congress granted the Department the discretionary authority to modify the standards, up or down. Circumstances have changed, Mr. President, and it is only practical and feasible that the Department has chosen to exercise its authority to modify the standards.

The Department of Transportation has found that the 26 mi/gal standard is consistent with our energy conservation goals. The Department of Energy supports this view. If this is the case, and I trust that it is, then I see no justificable reason for pushing a standard that was set 10 years ago. Times have changed, Mr. President. There was a time and a place for mandating increasingly higher fuel economy standards. But that time has passed.

Our car manufacturers have responded to our energy supply problems by retooling and producing a more energy-efficient fleet. They should not now be penalized for the strides that have been made over the past decade or for their efforts to respond to market demand. These penalties could be far-reaching.

It is my understanding that product restrictions imposed by the higher standard could result in possible sales losses of 1 million vehicles for Ford and General Motors. In addition, 110,000 jobs, and possibly more, could be lost. Are we willing to let this happen to our domestic manufacturers and their employees just because Congress happened to determine some standard 10 years ago. I hope not, Mr. President, and I urge defeat of the amendment.

Mr. LAUTENBERG. Mr. President, I rise today in support of Senator Evans' amendment expressing a sense of the Senate to retain the current fuel efficiency [CAFE] standard. I am a cosponsor of the original resolution that was introduced to retain the standards because I believe that the Nation's conservation goals will not be served by rolling back the standard. Maintaining the CAFE standard is an important part of our commitment to energy conservation, and it has proven to be a cost-effective way of conserving energy while reducing U.S. vulnerability to foreign supply interruptions.

Congress must stay involved in energy management. While we are currently enjoying lower gas prices and an oil surplus, we must not forget that America's natural resources are limited. Recent estimates by the Department of the Interior indicate that U.S. offshore oil and gas reserves have decreased by 50 percent in the last 5 years and that Alaska, considered the last major U.S. oil frontier, will decline in production by 70 percent by 1990. The Congressional Research Service predicts that total domestic production of oil will decline by as much as 30 percent by the year 2000. Meanwhile, oil imports rose last year for the first time since 1979. The United States imports one third of its crude oil, much of it from unstable regions in the world.

With the proposed decrease of corporate average fuel economy standards to 26 mi/gal from 27.5 mi/gal, Americans would use an additional 2.6 billion gallons of gas a year. And if all the cars on the road today achieved the 27.5 mi/gal standard rather than the current average of 17 mi/gal, oil imports could be reduced by more than 29 billion gallons of gas a year. The Americans for energy independence estimate that, with current technology, a 35 mi/gal target is not unrealistic.

Mr. President, lowering the CAFE standard would send the wrong signal to the American public. We must continue efforts to become energy independent.

Mr. HOLLINGS. Mr. President, I support retention of the Corporate Average Fuel Economy [CAFE] standards established for passenger automobiles under the Energy Policy and Conservation Act [EPCA] of 1975. The motor vehicle fuel economy standards represent one of the most significant energy conservation programs in this country. Although Federal law grants the Secretary of Transportation the power to roll back the CAFE standard, it was Congress which created the law. In 1975, I played a key role in seeking passage of the Automobile Fuel Economy Act of 1975, which was incorporated into EPCA.

That was 1975. We Americans had just had our first cruel lesson in the politics of the world energy market. The 1973 Arab oil embargo woke us up to the fact that America was woefully dependent on foreign oil, and that energy policy was just too important to our economic well-being and national security to be left totally to the uncertainties of the marketplace. So we in Washington set out to establish long range planning, with the particular goal of reducing our dependency on foreign oil. EPCA and the CAFE standards are part of that legacy.

Now, 10 years later, we are realizing how valuable this planning has been. New passenger car fuel economy has almost doubled, thanks to the CAFE standards, and because of that we're saving more than 1 million barrels of oil each day. Thanks partly to our conservation efforts and partly to stabilization in the world market, gasoline has not hit $2 per gallon as we had projected in 1975. The price is significantly lower.

Although the Nation's energy situation has eased greatly since the previous decade, the single largest item in the U.S. trade deficit is still petroleum. Our Nation's recoverable offshore oil and gas reserves may take us through the next decade, but our supply is limited and is unexpectedly lower than we anticipated. Maintaining mandatory fuel economy standards is necessary not only to conserve energy in the best possible manner, but to reduce our Nation's dependency upon foreign energy supplies now and in the future.

Congress adopted the CAFE standards to improve vehicle fuel efficiency over 1974 levels by 50 percent in 1980, and 100 percent in 1985. The 1985 standard was set at 27.5 mi/gal. The Secretary of Transportation was also given authority to amend the standard for a given model year by considering the following four criteria: First, technological feasibility; second, economic practicability; third, the effect of other Federal motor vehicle standards on fuel economy and; fourth, the Nation's need to conserve energy. Now, after 10 years notice, GM and Ford, two of the largest automobile manufacturers in the world, have petitioned the National Highway Traffic Safety Administration [NHTSA] to lower the present CAFE standard from 27.5 to 26 miles per gallon. I find this hard to believe when Chrysler and other car manufacturers can and will meet both the transportation needs of the public and the current CAFE standards.

I would hope we have learned from our experiences of the past how important it is to reduce this Nation's dependency on foreign oil. Although we are now experiencing energy complacency, there is no guarantee that we'll never again be the target of an oil embargo similar to that of 1973. It may be summer now, but we should still be prepared for the possibility of a long, hard winter.

I support the amendment urging the Administrator of NHTSA to retain the current automobile fuel economy standards for passenger automobiles.

Mr. BUMPERS. Will the Senator from Oklahoma yield?

Mr. NICKLES. Yes.

Mr. BUMPERS. I have just one or two questions. In the past, I believe that the automobile industry has taken advantage of a rule which permits, for example, General Motors, if they exceed the standards, they are entitled to some credit, are they not?

Mr. NICKLES. The Senator is correct.

Mr. BUMPERS. And they will have used up all of those credits sometime this year, is that correct?

Mr. NICKLES. I believe the Senator is correct.

Mr. JOHNSTON. Will the Senator yield?

Mr. NICKLES. Yes.

Mr. JOHNSTON. Am I not correct that they would not have used them all up but they expire at the end of 3 years? I think they have some unused credits which would expire this year and, therefore, could not be used next year. I believe that is correct.

Mr. BUMPERS. Well, let me ask the Senator this: Does NHTSA have the authority to waive the 3-year rule, or is that statutory?

Mr. JOHNSTON. If the Senator will yield, I believe that is statutory.

Mr. BUMPERS. My second question is: Under the present proposal—and I do not guess it is in the form of a proposal yet, it is just a regulation about to be issued by the Department of Transportation—if a 1-year moratorium is declared and the 26-mile-per-gallon limit prevails for 1986, will General Motors and Ford, are they proposing to pay back the excess that they exceeded the standards by in 1986 by achieving the standards at sometime in the future, or is this lost forever?

Mr. NICKLES. I am not sure.

Mr. BUMPERS. Do I need to repeat the question?

Mr. NICKLES. Let me try and answer what little bit I know on that. I believe that GM and Ford are petitioning for a 3-year extension. It would be 26 for the next 3 years instead of 27½ the next 3 years. But the ruling today is just for 1986 and the Transportation Department would then make a decision on subsequent years.

Mr. BUMPERS. Well, General Motors and Ford are not proposing, then, to exceed the 27½ or meet the 27½-mile standard by some period of time, or exceed it by some period of time to make up for the deficiencies that might accrue if we had not waived the rules over the next 3 years.

In other words, they get the benefit of this mile-and-a-half standard over the next 3 years and they are not proposing to pay it back after that; is that correct?

I understood in hearings—and I believe the Senator was there—I understood in hearings that General Motors, for example, is saying once they get their Saturn plant operational they will achieve the standards by far.

Mr. NICKLES. That may well be the case. But the Senator is also aware the Saturn will not really be produced until probably beyond the years that we are talking about. I would be surprised if the Saturn rolled off before 1988.

Mr. BUMPERS. The answer to my question is, no, they are not proposing to ever make up for the deficiency that will exist over the next 3 years?

Mr. NICKLES. Not to my knowledge.

Mr. DOLE. Mr. President, I move to table amendment No. 552 offered by the distinguished Senator from Washington, Senator EVANS and others, and ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

Mr. DOLE. Mr. President, there will be one additional vote after this.

Mr. HELMS. Mr. President, I ask unanimous consent that I may be allowed to proceed for 1 minute with a suggestion.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HELMS. Mr. President, I have an amendment which I think will be unanimously agreed to, but I do want a rollcall vote on it. I suggest to the majority leader, if it be his wish, that we lay aside this pending amendment temporarily and let me talk on mine, get the yeas and nays on it, and then you could stack the votes.

Mr. DOLE. Is that all right with the managers? How much time does the Senator need?

Mr. HELMS. Four minutes, equally divided.

Mr. DOLE. Let us see if we can clear that on the other side.

Mr. JOHNSTON. Will the distinguished Senator tell us what the subject matter is?

Mr. HELMS. I will read it. It is a very short amendment.

At the appropriate place, insert the following: It is the sense of the Senate that the Congress should not adjourn in August of 1985 until the Congress has agreed to a conference report on S. Con. Res. 32 and until the Senate has undertaken consideration of the farm bill, S. 616.

Mr. JOHNSTON. I cannot agee to that without discussing it on our side.

Mr. HELMS. I would say to the Senator that we will vote on it this afternoon, one way or the other. I am just trying to save the time of the Senate.

Mr. JOHNSTON. As the floor manager, I simply cannot agree to that. It is not that I oppose it, however.

Mr. HELMS. I understand. Very well.

I thank the Chair.

The PRESIDING OFFICER. The question is on agreeing to the motion of the Senator from Kansas to lay on the table the amendment of the Senator from Washington. On this question, the yeas and nays have been ordered, and the clerk will call the roll.

The bill clerk called the roll.

Mr. SIMPSON. I announce that the Senator from Alabama [Mr. DENTON], the Senator from Virginia [Mr. TRIBLE], and the Senator from Connecticut [Mr. WEICKER] are necessarily absent.

Mr. CRANSTON. I announce that the Senator from Delaware [Mr. BIDEN], the Senator from New Mexico [Mr. BINGAMAN], the Senator from New Jersey [Mr. BRADLEY], the Senator from New York [Mr. MOYNIHAN], the Senator from Georgia [Mr. NUNN], and the Senator from Michigan [Mr. RIEGLE] are necessarily absent.

The PRESIDING OFFICER [Mr. MATTINGLY]. Are there any other Senators in the Chamber who wish to vote?

The result was announced—yeas 52, nays 39, as follows:

[Rollcall Vote No. 166 Leg.]

YEAS—52

Abdnor	Gore	Melcher
Andrews	Gramm	Murkowski
Boren	Grassley	Nickles
Boschwitz	Hatch	Pressler
Bumpers	Hawkins	Pryor
Byrd	Hecht	Quayle
Chafee	Heflin	Rockefeller
Cochran	Helms	Sasser
D'Amato	Humphrey	Simpson
DeConcini	Inouye	Stennis
Dodd	Johnston	Stevens
Dole	Kassebaum	Symms
Domenici	Kasten	Thurmond
East	Levin	Wallop
Exon	Long	Warner
Ford	Lugar	Wilson
Garn	McClure	
Goldwater	McConnell	

NAYS—39

Armstrong	Chiles	Dixon
Baucus	Cohen	Durenberger
Bentsen	Cranston	Eagleton
Burdick	Danforth	Evans
Glenn	Lautenberg	Pell
Gorton	Laxalt	Proxmire
Harkin	Leahy	Roth
Hart	Mathias	Rudman
Hatfield	Matsunaga	Sarbanes
Heinz	Mattingly	Simon
Hollings	Metzenbaum	Specter
Kennedy	Mitchell	Stafford
Kerry	Packwood	Zorinsky

NOT VOTING—9

Biden	Denton	Riegle
Bingaman	Moynihan	Trible
Bradley	Nunn	Weicker

So the motion to lay on the table was agreed to.

Mr. DOLE. Mr. President, I move to reconsider the vote by which the motion to lay on the table was agreed to.

Mr. McCLURE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. DOLE. Mr. President, let me indicate that there is a good likelihood of one additional vote. It should not take any lengthy period of time, but I am advised by the distinguished Senator from North Carolina that he will offer an amendment and he does want a vote on the amendment. I am notifying Senator DOMENICI, who wanted to modify the amendment. It is my hope we can dispose of it rather quickly.

AMENDMENT NO. 1553

(Purpose: To express the sense of the Senate that the Senate will not recess until the Congress has agreed to a conference report on S. Con Res. 32 and until the Senate has undertaken consideration of the Farm Bill, S. 616)

The PRESIDING OFFICER. The Senator from North Carolina.

Mr. HELMS. Mr. President, I have an amendment at the desk which I call up and ask to have considered.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from North Carolina [Mr. HELMS] proposes an amendment numbered 553.

At an appropriate place, insert the following new section:

SEC. . It is the sense of the Senate that the Congress should not adjourn in August of 1985 until the Congress has agreed to a conference report on S. Con. Res. 32 and until the Senate has undertaken consideration of the farm bill, S. 616.

Mr. MELCHER addressed the Chair.

The PRESIDING OFFICER. The Senator from North Carolina has the floor.

Mr. HELMS. Mr. President, it has been suggested that I seek a time agreement on this amendment. I am perfectly willing to do so: 4 minutes equally divided. I propound that as a unanimous-consent request.

Mr. DANFORTH. I object Mr. President.

The PRESIDING OFFICER. The objection is heard.

Mr. MELCHER addressed the Chair.

The PRESIDING OFFICER. The Senator from North Carolina has the floor. Does the Senator from North Carolina yield?

Mr. HELMS. Mr. President, I shall yield the floor in just a minute, because if ever a piece of legislation or proposed piece of legislation spoke for itself, this does.

Throughout this country, the American people are wondering what is going on in Washington, DC. And my answer to that is "practically nothing." We have spent 7 months. We are hung up on the budget. We are hung up on the farm bill, even though, I might add, we are moving along toward resolution of the latter. But I think we ought to send word through this sense-of-the-Senate amendment to the effect that this Senate is willing to forgo, if necessary, a part of its August recess in order to complete the business of the people.

Now, Senator DOMENICI has suggested a slight alteration of the wording with reference to the budget resolution conference report, and I am perfectly willing to accept his modification if and when he comes to the floor. Otherwise, Mr. President, I hope we can vote up-or-down on this amendment.

Mr. NICKLES. Will the Senator yield?

Mr. HELMS. Yes.

Mr. NICKLES. Will the Senator be kind enough to make me a cosponsor of his amendment?

Mr. HELMS. I will be honored to do so. I ask unanimous consent.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. ABDNOR. Will the Senator yield?

Mr. HELMS. Yes.

Mr. ABDNOR. Mr. President, I, too would like to be added as a cosponsor. If I might say so, just today I wrote our majority leader asking him to do this very thing. I know of nothing that is more vital to my State and probably to the Midwest than this matter of passing farm legislation. By the time I am home in the August recess, near the end of it, the farmers will be in the field planting their crops for the fall and for next year. When you have the number one industry in this country wondering what the floor plan is going to be, what the rules are, what the regulations are, I cannot think of asking it to go out and try to plan for the future, invest all this money and not know what the program is going to entail.

I am not suggesting it is anyone's fault, but I am saying we better stay here until we pass a piece of legislation dealing with the new farm program.

Mr. HELMS. I thank the Senator, and I certainly agree with him. I am honored to add Senator NICKLES and Senator ABDNOR as cosponsors.

Mr. GOLDWATER. Will the Senator yield?

Mr. HELMS. And Senator MATTINGLY as well.

Mr. GOLDWATER. Mr. President, will the Senator yield?

Mr. HELMS. Yes, I am delighted to yield to my friend.

Mr. GOLDWATER. I would like to have my name added as a cosponsor to this resolution.

Mr. HELMS. I thank the Senator. I ask unanimous consent that the able Senator from Arizona [Mr. GOLDWATER] be added as a cosponsor.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MELCHER addressed the Chair.

Mr. HELMS. And Senator BOSCHWITZ and Senator FORD.

Mr. EXON addressed the Chair.

Mr. HELMS. I yield the floor.

MR. EXON. Mr. President, I would like to be added as a cosponsor to the amendment introduced by the Senator from North Carolina.

The PRESIDING OFFICER. The Senator from Montana is recognized.

Mr. MELCHER. Mr. President, this is a sense-of-the-Senate resolution, and it is just as binding as the Senate wishes to make it. Let me state that under a unanimous-consent arrangement this bill was brought before the Senate with no farm-related legislation to be attached to it by amendment. Now, it could be construed that this sense-of-the-Senate resolution is farm related. However, it is not what I was seeking to prevent, but I will tell you what I was seeking.

I seek to prevent bringing to the floor as an amendment the farm bill unless it is brought to the floor the way the committee has acted on it, plus filling in some chinks, some pieces, and some sections on which the committee has not yet acted. But the committee did act on a very key part in the commodity section of the bill. We have been looking at this bill for some weeks, or months I think it is accurate to say, with not sufficient resolution of some of the key parts.

Last Thursday, just a few days ago, one of those key parts was addressed. It has to do with whether or not the target prices for wheat and feedgrains would be held at their present level for the life of the bill, which we anticipate would likely be 4 years. That amendment carried by a vote of 9 to 8, eight Democrats and one Republican. There are only 17 on the committee so everybody was recorded.

Now, since that time—Thursday—we met on Friday. And even late Thursday we were urged to back off of that position, having just carried the day on something we sought to do as a key part of the bill, in the commodity title of the bill. We were asked immediately to back off from it. We did not. We were told that if we would back off, then everything could be wrapped up quickly and we were holding up the bill by not backing off.

Mr. President, I do not think you are holding up a bill when you finally get to a vote on a key section where you are going to protect the remnants of what we call the safety net for grain producers. We have reduced this target price previously enacted into law, and we are trying now to hold it where it is. That is it. That was the amendment. That is what we would like to keep. We are told to agree to water it down, to take away two-thirds of what we gained.

So, Mr. President, we may lose by votes, but I hope we do not have to agree to lose what we worked so hard by an arbitration procedure, so to speak, where, "OK, so you won, you got the majority of votes, but let us arbitrate to reduce it."

The reason I think this is a very important part of this bill is that, naturally, nobody in the grain business likes to be told they are going to lower that safety net when times are tough. And times are, indeed, tough.

Now, the farm credit situation has not improved since last winter and early this spring when we debated it and we were very concerned about how many farmers were being liquidated. In fact, it has gotten worse. The number of loans that are under stress has increased during the past several months for those agricultural producers, not just grain producers but other types of producers. But what I am addressing right now just applies to grain producers.

Because the credit situation is so bad and has deteriorated over the last several months, and looks like it is going to be even worse during the next several months, I believe this part of the bill is very vital and for that reason, Mr. President, I have not been able to say, "Well, we will arbitrate that down and then we will wrap this bill up and get it on the floor, we will start debating it this week," even though it cannot be completed this week and it will be held over until September.

The resolution that we have would say let us stay here until we finish the farm bill. Mr. President, I am not adverse to that. I think it would take some time, however. I recognize that and I think the chairman of the Agriculture Committee, the Senator from North Carolina, has indeed expressed a very troublesome matter, a double-barreled troublesome matter where it is a budget resolution and where it is a farm bill, and so if the Senator chooses to stay here during August, I think it would be a wise step and I will not oppose this amendment, nor make a point of order at this time on this proposal because I think it would be wise to stay here. However, realistically, let me tell you what this means in terms of the farm bill.

We could probably get through with the farm bill—a weak bill, a good bill, a bad bill—sometime this week. It is not complete yet. There is a farm credit title to the bill that needs to be completed. A food stamp title of the bill needs to be completed. There is an export title of the bill which will be the hopeful part of the bill, because we can do a better job on exporting American agricultural products, which could stabilize commodity prices and give some hope for a rise in commodity prices for agricultural producers. That needs a little work, but not much. We could complete action on that this week.

We could take it up at the very end of the week. There is no report with it, and therefore, the 3-day rule would not necessarily have to be waived. We could take it up sometime close to the end of this week and debate it the week following, and perhaps the week following that, and it could go to conference if the House passes the bill. If we are lucky, we could get out of conference in 2 or 3 weeks, and we would be able to complete action on the bill sometime after Labor Day.

All that can be done, and I say well and good. The Senate would work its will, the House would work its will; and the farmers, as my friend from South Dakota admonishes us—correctly, by the way—need to know what kind of legislation we are going to have for the coming year and the years thereafter.

I do not know about the budget part of it. Others can speak to the budget part. I understand that there is some problem in resolving that. Since the President has expressed his opposition, I imagine that is going to have some bearing on what the conferees on the budget resolution are going to do. Others who are more knowledgeable can express their views on that.

For my part, I am not going to resist this resolution. I shall not make a point of order on it. If other amendments are attached to it that are legislation dealing with the farm legislation, I hope I can be recognized again, and I will seek to make a point of order on that.

What we really need to do for farm legislation is to come back with a strong bill.

The last thing we need to do is to get a turkey for a farm bill. We are very good about getting bad farm bills. We can let the process roll, and 9 chances out of 10 we will get a bad farm bill, a real turkey.

For my part, I am going to do what is obvious. You try to do the best job possible in the committee; and if you can, you bring that bill, a good bill, to the floor. But I shall resist any effort to attach a contrived bill on the Senate floor, on a bill such as is before us. That means just what I said.

Why should we settle for a turkey when we happen to have a pretty good

section that was carried by a 9 to 8 vote? I hope it holds, because it means a lot to the grain producers of this country if it does hold. If it does not hold, we will have to give in, but it will not make me like it any better. But I am not going to give in by arbitrating what we worked long and hard—weeks, mind you—to gain.

Several Senators addressed the Chair.

The PRESIDING OFFICER. The Senator from North Carolina.

Mr. HELMS. Mr. President, I say to the distinguished Senator from Montana that there is absolutely no intention to add any part of the farm bill to this amendment. But I have made my point, and I withdraw the amendment.

WHEAT FARMERS TO SUFFER FINANCIALLY WITHOUT 1986 PROGRAM DETAILS

Mr. NICKLES. Mr. President, imagine this scenario, the Congress is on vacation, the farm bill is in committee, and the farmer is in the field wondering what to do.

This is the path we are headed down and I warn my colleagues that if we take a monthlong recess without setting guidelines for farm programs we will be doing wheat farmers throughout the Nation a great disservice.

This is the third time I've stood before the Senate stressing the need to complete action on the wheat title of the farm bill prior to a congressional vacation. In my opinion, Congress is misdirected if it feels justified in going home with such important work unfinished.

Be assured, farmers aren't taking a vacation during the month of August. Right now, they are in the fields, preparing the seedbed for the 1986 crop of winter wheat. They're wondering how much land Congress is going to require them to set aside in order to receive program benefits. Will it be 30 percent as proposed by the House? Will it be 20 percent as the Senate is working on in committee? The answers to these questions make a difference to farmers.

Farmers make production decisions based on program details. An acre of land set aside for conservation purposes does not and need not receive the same treatment as an acre of land intended for harvest. Faced with rising production costs and low prices, farmers are forced to squeeze cost savings wherever possible. By knowing program provisions prior to planting and fertilizing, farmers can achieve much needed savings on set aside acreage.

Putting this in dollars and cents, the 10-percent difference in set-aside requirements between the House and Senate versions of the farm bill could cost an 800-acre wheat farmer an unnecessary $3,600 and possibly much, much more. According to Oklahoma ASCS personnel, on average, wheat farmers in my State spend a little over $50 preparing and planting an acre of land for harvest. On the other hand, they can spend as little as $5 per acre to establish the cover crop required on conservation acreage. It is a difference of extensive seedbed preparation, fertilization, and planting versus minimum tillage and allowing the cover crop to grow volunarily. More important to the farmer, it is a difference of $45 per acre. If the 800-acre farmer gears up for harvest under the Senate proposal, he will prepare and plant all but 20 percent of his land, or 640 acres. Yet, if the House set-aside proposal of 30 percent were to prevail, he would be out $45 on 10 percent of his land, or 80 acres, resulting in an unnecessary outlay of $3,600.

Mr. President, if Congress goes home before outlining next year's wheat program, I hope my colleagues realize the burden they will be placing on an industry that is already suffering from more than its fair share of hard knocks.

AMENDMENT NO. 554

Mr. KENNEDY addressed the Chair.

The PRESIDING OFFICER. The Senator from Massachusetts.

Mr. KENNEDY. Mr. President, I send an amendment to the desk on behalf of myself and the Senator from Maryland [Mr. MATHIAS].

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Massachusetts [Mr. KENNEDY], for himself and Mr. MATHIAS, proposes an amendment numbered 554:

At the appropriate place add the following new section:

SEC. —

"Whereas August 6 marks the 40th anniversary of the detonation of the nuclear bomb at Hiroshima, and whereas the Soviet Union has announced its intention to begin a moratorium on nuclear testing on August 6, and whereas the United States has invited the Soviet Union to send its experts to monitor a U.S. nuclear test, therefore

"It is the sense of the Senate that,

"At the earliest possible date, the President of the United States should propose to the Soviet Union the immediate resumption of negotiations toward conclusion of a verifiable comprehensive test ban treaty."

The PRESIDING OFFICER. The amendment contains a preamble and is not in order.

Mr. KENNEDY. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BUMPERS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

Mr. DOLE. I object.

The PRESIDING OFFICER. Objection is heard.

Mr. BUMPERS. Objection is heard?

The PRESIDING OFFICER. That is correct.

The assistant legislative clerk proceeded to call the roll.

Mr. KENNEDY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

Mr. DOLE. I object.

The PRESIDING OFFICER. Objection is heard.

The assistant legislative clerk continued the call of the roll.

Mr. DOLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOLE. Mr. President, I think we have reached some resolution here, at least overnight, on a number of amendments that might want to be considered. I would hope what we could do is go ahead and pass by a voice vote the pending S. 410 and then agree that following the action on the DOD authorization conference report, which we have promised we would take up at 2 p.m. tomorrow afternoon, following action on that, the distinguished Senators from Massachusetts and Maryland, Senators KENNEDY and MATHIAS, could offer their proposition as a freestanding whatever, and then that could not in any way prejudice the rights of the distinguished Senator from North Carolina.

Is that satisfactory?

Then we could go home tonight.

Mr. STEVENS. Mr. President, what is the subject?

Mr. KENNEDY. That is perfectly satisfactory for us.

Mr. DOLE. Could the Senator kind of give a summary of what he has in mind that passed the Senate last year by a vote of 77 to 26? That would give the distinguished Senators on the committee time to look at it sometime tomorrow.

Mr. KENNEDY. Mr. President, we expect that the modified amendment would be printed in the RECORD this evening.

It is basically urging the President to resume the discussions on a comprehensive test ban, given the recend developments today that the Soviet Union has announced a moratorium for a period of 5 months starting on the date of August 6, the date of the Hiroshima explosion.

I say to the majority leader, in terms of his proposal, the point I wish to make is that obviously if it is just a sense-of-the-Senate resolution or joint resolution, points of order would lie against it. I imagine what the majority leader is asking is a unanimous-consent request that it be in order for the Senate to be able to consider that for a period tomorrow after the conclusion of the DOD authorization.

Mr. DOLE. The Senator is correct. I have not yet propounded the unanimous-consent request because the distinguished minority leader is not in the Chamber. I would not want to do that in his absence.

It would be my hope that the Senator might introduce the resolution now and we could agree to take it up following the DOD authorization conference report tomorrow, complete action on S. 410, and then dispose of it, hopefully with rather brief debate, tomorrow afternoon.

Mr. KENNEDY. That is satisfactory to me. The only point that I would make is that as proposed by the leader now any Senator could raise an objection to it unless unanimous-consent be in order. They could raise an objection and it would go to the calendar and have to run through the legislative days and other procedures.

I want to accommodate the leader. The procedure which he has outlined is perfectly satisfactory. I want to make sure that we would not be excluded by a procedural point on this. I know that is not the intention of the leader. But I just want to be protected, after we go ahead and pass the other bill.

Mr. DOLE. Mr. President, let me find out. I will not do anything until the minority leader is present.

I would inquire of my colleagues would there be any objection in the event a unanimous consent request was proposed, that it be in order following the DOD authorization bill.

Mr. McCLURE. Mr. President, will the Senator yield?

Mr. DOLE. I am happy to yield.

Mr. McCLURE. I have not had an opportunity to read the proposal and it may well be that I will oppose it, but I will certainly not object to it coming up and for the opportunity to debate and its disposition by the Senate.

Mr. DOLE. Mr. President, let me now propound a unanimous-consent request.

The PRESIDING OFFICER. Will there please be order in the Senate?

The majority leader.

Mr. DOLE. Mr. President, I ask unanimous consent that, following the disposition of the DOD authorization bill on tomorrow, it be in order for the distinguished Senator from Massachusetts, Senator KENNEDY, and the Senator from Maryland, Senator MATHIAS, to call up their resolution, the Comprehensive Test Ban Treaty resolution.

Mr. BYRD. Mr. President, reserving the right to object, as the request is stated, if the DOD authorization conference report is not disposed of tomorrow, then the request will not guarantee the taking up by the Senate of the Senators' proposal.

Mr. DOLE. I could draw that to indicate whenever the conference report on the DOD authorization is disposed of; I am advised it will probably take 2 hours. It is my hope we will be on the Comprehensive Test Ban Treaty resolution by about 4 o'clock. But I would amend the request not on tomorrow but when the DOD authorization conference report is disposed of.

Mr. BYRD. Mr. President, I have no objection.

Mr. HELMS. Mr. President, reserving the right to object, and I shall not object, do I assume correctly that it would be the intent of the Senator from Massachusetts to lay down his amendment tonight?

Mr. DOLE. I would hope he might introduce the resolution tonight.

Mr. KENNEDY. Mr. President, we are prepared to just have the resolution printed in the RECORD so it would be available for the Members. We would not expect to be involved in debate on it this evening. I would indicate to the leader we are quite prepared to get into a reasonable time agreement if that is the desire of the leader. So the resolution will be printed in the RECORD this evening.

Mr. HELMS. That is not quite responsive. Continuing to reserve the right to object, that is not responsive to my question. Will the resolution be laid down tonight under the terms of the unanimous-consent request propounded by the majority leader?

Mr. KENNEDY. As far as I am concerned, I think what was outlined by the leader is a perfectly satisfactory way to proceed.

Mr. HELMS. I am just asking what it is.

Mr. KENNEDY. We can introduce it.

Mr. DOLE. Let me respond to the Senator from North Carolina that the request pending would be to take up the resolution following disposition of the conference report on DOD authorization bill. The Senator from Massachusetts could introduce it this evening and lay it aside. Does the Senator from Massachusetts have it in final form? Could it be introduced this evening?

Mr. KENNEDY. Yes. It was sent to the desk as an amendment. I now have it as a joint resolution. I would just send it to the desk and have it printed tonight.

Mr. DOLE. Does the Senator have any trouble with having us pass S. 410 and making the resolution the pending business?

Mr. KENNEDY. That would be satisfactory.

Mr. DOLE. Then we could set it aside.

Mr. HELMS. I still do not understand. Is the Senator laying down the resolution or is he not?

Mr. DOLE. He is prepared to lay down the resolution if we dispose of S. 410. Then we will get consent to lay it aside, if necessary, take care of some other unanimous-consent requests this evening and the DOD conference report tomorrow afternoon.

Mr. HELMS. So the distinguished Senator from Massachusetts is in fact sending his resolution to the desk to lay it down?

Mr. DOLE. That is correct. After we dispose of S. 410.

Mr. HELMS. Why does he not do it now by unanimous consent and get it out of the way?

REQUESTING THE PRESIDENT OF THE UNITED STATES TO RESUME NEGOTIATIONS WITH THE SOVIET UNION FOR A VERIFIABLE COMPREHENSIVE TEST BAN TREATY

Mr. KENNEDY. Mr. President, I send a joint resolution to the desk.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

S.J. RES. 179

Whereas August 6 marks the 40th anniversary of the detonation of the nuclear bomb at Hiroshima, and whereas the Soviet Union has announced its intention to begin a moratorium on nuclear testing on August 6, and whereas the United States has invited the Soviet Union to send its experts to monitor a U.S. nuclear test: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That it is the sense of the Congress that at the earliest possible date, the President of the United States should propose to the Soviet Union the immediate resumption of negotiations toward conclusion of a verifiable comprehensive test ban treaty.

Mr. HELMS. Mr. President, I send a substitute to the desk and ask for its immediate consideration.

Mr. BYRD. Mr. President, has the Senator's request been acted on yet?

The PRESIDING OFFICER. Is there objection to the immediate consideration of this joint resolution?

Mr. NICKLES. Mr. President, reserving the right to object.

Mr. HELMS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. HELMS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HELMS. Mr. President, I ask unanimoius consent that it be in order for me to file a substitute to the resolution of the Senator from Massachusetts and that the form be considered in order.

The PRESIDING OFFICER. Is there objection?

Mr. MELCHER. Mr. President, could we be advised what it is? Reserving the right to object.

Mr. HELMS. Mr. President, I object to the unanimous-consent request. We will put an end to this.

The PRESIDING OFFICER. Objection is heard.

AMENDMENT NO 555

Mr. KENNEDY. Mr. President, I call up our previous amendment.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Massachusetts [Mr. KENNEDY] proposes an amendment numbered 555.

It is the sense of the Senate that, at the earliest possible date, the President of the United States should propose to the Soviet Union the immediate resumption of negotiations toward conclusion of a verifiable comprehensive test ban treaty.

Mr. KENNEDY. Mr. President, I offer this proposal in behalf of myself and the Senator from Maryland [Mr. MATHIAS]. It is self-evident from the reading by the clerk what this sense-of-the-Senate resolution incorporates. We have seen the Soviet Union propose the moratorium—earlier today. It seems to me that the best way for reaching real restraint in terms of testing is to do it as a result of negotiations between the United States, the Soviet Union, and Great Britain, and that has been a part of these negotiations for a period of many years.

Every President since Eisenhower has supported a comprehensive test ban proposal. We have addressed this issue in previous Congresses. Clearly, in any proposal, if any negotiations were to be successful, they would report back to the Congress outlining in very particular detail the kinds of verification which they believe would be essential for our national security. We had a similiar resolution which included urging the Senate to consider favorably the passage of the 1974 and 1976 treaties of last year. That is not a part of this particular resolution.

In our resolution last year we asked that the President send to the Congress any additional requests that he felt were necessary to ensure adequate verification. This amendment is a very clear, simple statement that calls the Soviet Union to the task of finding out whether they really are interested in a comprehensive test ban. We believe those that support this resolution feel that the best way to really test that concept is through negotiations.

I hope that we will get about the business of accepting this particular amendment, and that we will be able to find out exactly who is really interested in getting some restraint in terms of additional testing. I hope the Senate will accept this amendment.

Mr. BUMPERS addressed the Chair.

The PRESIDING OFFICER. The Senator from Arkansas.

Mr. BUMPERS. Mr. President, I support the amendment of the Senator from Massachusetts and the Senator from Maryland. The language is very clear as to the intention. It is a joint resolution which expresses the sense of the Senate and the House saying that we ought to continue negotiating a comprehensive test ban treaty. It does not dictate the terms of such a treaty. It does not say where the negotiations ought to occur. There is not a single mandate in the resolution. It is an idea. And it is a valid idea. I really fail to see how anybody can object in these tenuous, perilous times to try to take one small step in the Senate of the United States at 6:55 on July 29—one small step to bring just one little step of sanity to the nuclear arms race.

In this month's Harpers—the August issue, and I recommend it to all of my colleagues—a retired major general makes the comment that President Reagan and Mikhail Gorbachev ought to be required to meet twice a year—whether they like each other or not, and whether they get along or not. During that meeting they ought to pick out all of the potential hot spots in the world where our interests may come into conflict, and try as best they can to resolve them before they start. Dr. Oppenheimer after the nuclear blast at Hiroshima which is alluded to in this resolution said that man has always had a predisposition to kill his fellow man. It has always been that way. After the dropping of the first bomb, the difference is that man will not change his predisposition but he just is going to have to be more selective about the weapons he uses.

Mr. President, can I have the attention of the majority leader? Did the majority leader have a potential solution to what seems to be a developing impasse? I am just talking to avoid putting in a quorum call. [Laughter.]

Mr. DOLE. If the Senator will yield, there is a ball game in Baltimore. I do not know. It involves a number of staff who really call the shots around here. We try to accommodate.

Mr. BUMPERS. Will the Senator let the staff work this thing out?

Mr. DOLE. Senators do not want to go to the ball game. It is the staff. [Laughter.]

If we let the staff go, I know we cannot work it out. But in any event, I think the Senator from North Carolina has a little substitute. I do not know what will happen after that. I appreciate your assistance.

(The names of Senators HATFIELD, KERRY, MELCHER, and CRANSTON were added as cosponsors of the amendment.)

Mr. McCLURE. Mr. President, will the Senator yield?

Mr. BUMPERS. I yield for a question.

Mr. McCLURE. If the Senator will permit the Senator from Idaho just a very few brief comments—without losing his right to the floor—my comments are pertinent to the resolution which is pending.

Mr. BUMPERS. Let me say I just have another minute or two. I just want to say that I remember President Kennedy took a very bold initiative in stopping unilaterally atmospheric testing by the United States. You can imagine the outcry in this country when he said we are going to stop testing in the atmosphere because it is having a devastating effect. The Soviet Union said that is fine and good for you, because you know you are light years ahead of us. President Kennedy went ahead with his moratorium. The Soviet Union made one more exploration in the atmosphere, and then signed a test ban treaty. Sometimes it just takes a bold initiative on the part of a leader who has the confidence, intelligence, and the perception to get something that noble done. We stopped atmospheric testing.

I am not suggesting the United States be that bold again. But I do not see anything wrong with it. This resolution is not nearly that bold. It just says let us invite the Soviet Union back to the conference table, and talk about a comprehensive test ban treaty. Who can argue with that?

I yield the floor.

Mr. McCLURE addressed the Chair.

The PRESIDING OFFICER. The Senator from Idaho.

Mr. McCLURE. Mr. President, I have read very carefully the text of the resolution that is pending before us now. I have no objection. As a matter of fact, I support the statement of the resolution because in addition to what it does, there are some things it does not do. There are those who argue with us that we should have a unilateral or even a bilateral cessation or moratorium on testing pending the resolution of the discussion. I note that this resolution does not call for a moratorium on testing.

But I am grateful that it does not because I have very strong feelings that the Soviet Union probably came to the point in their testing where they had nothing planned for the next 5 or 6 months. So it is easy for them to call for a moratorium because they did not plan anything anyway.

As a matter of fact, we have seen with SALT I and SALT II that those agreements really did not inhibit or limit very much what the Soviet Union was planning to do. Therefore, they were willing to enter into an agreement that did not inhibit them but limited what we could do.

So I am grateful that the formulation does not call for a moratorium pending the negotiations.

I would say to my good friend from Arkansas that, indeed, sometimes initiatives——

Mr. DOLE. Mr. President, may we have order?

The PRESIDING OFFICER (Mr. HECHT). The Senate will be in order. Will Senators please take their seats?

The Senator from Idaho.

Mr. McCLURE. Sometimes the initiatives of a unilateral nature do lead to good results. I think the ban on at-

mospheric testing was, over the long period of time, proven to be a good initiative which brought a good result, even though there was a period of time following the Russian test that followed our cessation that they may have, because of that test, had some incremental advantage in terms of technology that would work to the disadvantage of the United States.

But over the period of time since then, whatever that advantage may have been, it has been erased.

I think we can also point to another action taken by a President of the United States in declaring an absolute cessation of any activity by the United States with respect to the development of biological weapons.

We stopped. The President of the United States stopped that, and I think it was a very good expression of emotion, of an emotional response on the part of Americans. We said, "We do not want to go down the road in the development of that kind of horrible mass destruction to put mass pestilence on humans during a conflict."

The fact is that the evidence indicates the Soviet Union did not stop. They may have modified their program, but they have continued their program. As a result of that unilateral cessation on our part and the continuation on their part, the United States is more exposed to a risk of one of the most horrible potentials for mankind that we have known in modern times and may indeed outstrip our concern with respect to chemical weapons.

So while we may point in one instance to a happy result, unfortunately we can point in another instance to a very unhappy result, the reduction of our capacity to protect our own security as we took unilateral action which was not matched, which has not yet been matched, by the Soviet Union.

While I express the hope that in this instance we will not take unilateral action by way of a moratorium, that we do not even impose a moratorium upon ourselves in the presence of these negotiations, I join with my colleagues in urging that the negotiations be undertaken in the hope that indeed we will be able to negotiate an agreement which is bilateral, which does limit both sides, that is comprehensive, and that is verifiable.

I put some emphasis on verification because I think we sometimes allow ourselves, as we have in the Threshold Test Ban Treaty, to set up the standard of verification and then allow ourselves to be diverted away from their violations by the inconclusive scientific nature of the question of whether or not there is a violation of that test ban treaty, as I believe most observers believe there is.

There are some who believe that the evidence is inconclusive enough or ambiguous enough that we cannot charge violation. But in my opinion that is one of the pitfalls with respect to verification. You cannot demand proof that would stand up in a court of law when you are dealing with questions of this nature. So there is a problem with verification.

Having said that, I do not think it is impossible to negotiate treaties that have adequate procedures for verification, verification that can give us confidence that indeed the treaty is being complied with or, in the absence of compliance verification, that gives us confidence that indeed we know that the Soviet Union is not complying with the terms of the treaty.

For those reasons, I have no objection to and will indeed support the statement in the resolution which the distinguished Senators from Massachusetts and Maryland have introduced, but I would not want that support to indicate anything that I have outlined in my remarks.

Mr. KENNEDY. Mr. President, I welcome the support of the Senator from Idaho.

We have disagreements on some areas of arms control but the merit of a Comprehensive Test Ban Treaty has long been obvious to a large majority of the Senate.

I would hope that our resolution will give this critical idea in arms control new momentum, at a time when the entire country, and indeed all the world, will be considering the initiation taken today by the Soviet Union.

Mr. MATHIAS addressed the Chair.

The PRESIDING OFFICER. The Senator from Maryland.

Mr. MATHIAS. Mr. President, I welcome the support of the Senator from Idaho. I am happy to say that the sponsors of this resolution are in accord with him on the concept that it must be thoroughly verifiable. But the history of the comprehensive test ban negotiations has always been based upon the theory that they would, in fact, be adequately and fully verifiable, and, in fact, I can assure the Senator from Idaho, there is a rather interesting history relating to the proposals for verification of a Comprehensive Test Ban Treaty. That has been the Soviet Union has not agreed, as indeed we have agreed, to on-site inspection, that there would be mutual on-site inspection. This is, of course, of great precedental value in addition to the substantive contribution for verification because it would provide a precedent for such on-site inspection which we have been willing to accept, and, in fact, which President Reagan has just now agreed to in a proposal we are planning to undertake.

So what we are talking about is moving forward not only with an important proposal to comprehensively ban nuclear tests, but also to move forward in the whole field of international agreement, and, in effect, international procedures, providing for on-site inspections. I believe that we can meet the test proposed by the Senator from Idaho, that we can do something that is constructive, something which I believe will move us forward.

Mr. DOLE addressed the Chair.

The PRESIDING OFFICER. The majority leader.

Mr. DOLE. Mr. President, I wonder if we might try one more time to see a way for taking this up tomorrow without prejudicing anyone's rights. Would the distinguished Senator from Massachusetts and the distinguished Senator from Maryland be willing to withdraw this amendment, let us complete action on S. 410, and then agree that following the disposition of the DOD authorization report, it would be in order for the distinguished Senators to go forward with the resolution, the comprehensive test ban resolution, which would be subject to amendment?

It would not prejudice the right of the distinguished Senator from North Carolina. It would allow the distinguished Senator from Arizona to complete action on the conference report tomorrow, which he tells me will take about 2 hours. Then we can recess for the evening. Is there objection?

Mr. KENNEDY. That would be perfectly satisfactory to me.

Mr. DOLE. The Senator is willing to withdraw his amendment?

Mr. KENNEDY. Yes, if there is an agreement.

Mr. STEVENS. Reserving the right to object, Mr. President, is the amendment to be submitted tomorrow in the same language as today?

Mr. KENNEDY. It is the same language. There are some technical changes. It is prepared one way for a joint resolution and a different way as an amendment. They are virtually identical.

Mr. MATHIAS. I would agree.

Mr. MELCHER. Mr. President, reserving the right to object, can I inquire of the majority what will be the amendment?

Mr. DOLE. There will not be farm amendments. We will do that tomorrow afternoon.

Mr. MELCHER. I thank the Chair.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. DOLE. Third reading.

The PRESIDING OFFICER. The bill is before the Senate and open to further amendment. If there be no further amendment to be proposed, the question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed for a third reading and was read the third time.

The PRESIDING OFFICER. The bill having been read the third time, the question is, Shall it pass?

So the bill (S. 410), as amended, was passed, as follows:

S. 410

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Conservation Service Reform Act of 1985".

SEC. 2. (a) IN GENERAL.—Title VII of the National Energy Conservation Policy Act (relating to energy conservation for commercial buildings and multifamily dwellings) is hereby repealed.

(b) CLERICAL AMENDMENT.—The table of contents for such Act is amended by striking out the items relating to title VII.

(c) Notwithstanding subsection (a) any State energy conservation plan for commercial buildings and multifamily dwellings approved under section 721 of the National Energy Conservation Policy Act prior to August 1, 1984, may with respect to regulated utilities, continue in effect until one year after the date of enactment of this section if such plan meets the requirements of section 722 of such Act as in effect on August 1, 1984.

SEC. 3. (a) INFORMATION REQUIREMENTS.—Sections 215(a), 215(d), and 217(a)(1) of the National Energy Conservation Policy Act (relating to utility programs and home heating supplier programs) are amended by striking out "January 1, 1985" each place it appears and inserting in lieu thereof "January 1, 1988".

(b) REPORT.—The Comptroller General shall prepare and transmit to Congress before June 30, 1986 a report evaluating the utility and home heating supplier programs of the Residential Conservation Service implemented under part 1 of title II of the National Energy Conservation Policy Act. The Secretary of Energy shall conduct a survey in consultation with the Comptroller General to collect the information the Comptroller General determines is necessary for the preparation of such report. The report shall examine and assess, for the programs under this part:

(1) the potential for achievable energy savings through implementation of residential energy conservation measures in residential dwellings in the United States and the importance of the Residential Conservation Service in achieving these savings;

(2) Residential Conservation Service program costs from a representative sample of States, taking into account costs to the taxpayer and ratepayers of affected utilities;

(3) Residential Conservation service program benefits from a representative sample of States, taking into account the value of energy conservation and the value of deferral of investment in new capacity to provide energy;

(4) efforts of utilities to encourage the implementation of residential energy efficiency measures by their customers and the relationship between these efforts and the observed response rate under Residential Conservation Service Programs;

(5) measured energy savings achieved in residential dwellings in which measures are installed under such programs;

(6) to the extent to which utilities have adopted programs voluntarily or under State law that offer more promise in encouraging energy efficiency than has been the case under the Residential Conservation Service;

(7) to the extent to which modifications in the regulations implementing the Residential Conservation Service could improve the cost effectiveness of the program;

(8) legislative changes that are necessary to improve the cost effectiveness of the program;

(9) the extent of unfair, deceptive or anticompetitive acts or practices affecting commerce that relate to the implementation of such residential energy conservation programs, and the adequacy of procedures which are in effect to prevent such unfair, deceptive or anticompetitive acts or practices; and

(10) such other matters as seem appropriate in order to assist Congress in deciding the future of the Residential Conservation Service.

(c) EXPIRATION.—The provisions of part 1 of title II of the National Energy Conservation Policy Act shall expire on January 1, 1988, but such expiration shall not affect any action or pending proceeding not finally determined on such date of expiration nor any action or proceeding based upon such act committed prior to such date of expiration.

SEC. 4. Section 218(a) of the National Energy Conservation Policy Act is amended by striking the last sentence thereof and inserting "Such temporary exemption may be granted or renewed until such date as determined by the Secretary.".

SEC. 5. (a) Part 1 of title II of the National Energy Conservation Policy Act (42 U.S.C. 8211 et seq.) is amended by adding at the end thereof the following:

"SEC. 226. WAIVER FOR REGULATED AND NONREGULATED UTILITIES.

"(a) WAIVER.—Any utility subject to this part may, upon request, receive a waiver from the Secretary from any provision of this part or from any provision of a State residential energy conservation plan under this part if the utility shows in appropriate State proceedings and the appropriate State officials find that—

"(1) the existing and planned residential energy conservation programs that will be implemented by the utility if a waiver from such provision is approved will result in savings in petroleum, natural gas or electric energy consumed in residential buildings served by the utility that are equal to or greater than the savings that would be achieved if the utility were subject to the provision; and

"(2) adequate procedures are in effect that prevent unfair, deceptive or anticompetitive acts or practices affecting commerce that relate to the implementation of such residential energy conservation programs, including provisions to assure that any person who alleges any injury resulting from unfair, deceptive or anticompetitive acts or practices in connection with such programs shall be entitled to redress under such procedures as may be established by the Governor in the State in which the utility provides utility service.

"(b) DEFINITION.—For purposes of this section the term 'residential energy conservation program' means any program carried out by a utility that has as its purpose

"(1) increasing the efficiency with which petroleum, natural gas or electric energy is consumed in residential buildings served by such utility; or

"(2) utilizing solar or other forms of renewable energy in residential buildings served by such utility.

"(c) APPROVAL.—The Secretary shall approve a request of a utility for a waiver under subsection (a) if the Secretary determines that

"(1) opportunity for a hearing on the request for a waiver has been provided in the State in which the utility provides utility service; and

"(2) in the case of a regulated utility, the Governor of the State in which the utility provides utility service and the State regulatory authority that has ratemaking authority with respect to such utility both

"(A) find that the showings under subsection (a) (1) and (2) are sufficient; and

"(B) support the request by the utility for the waiver; or

"(3) in the case of a nonregulated utility subject to a State residential energy conservation plan under section 212(c)(2), the Governor of the State in which the utility provides utility service

"(A) finds that the showings under subsections (a) (1) and (2) are sufficient; and

"(B) supports the request by the utility for the waiver.

"(d) ANNUAL REVIEW AND REVOCATION OF WAIVER.—(1) The provisions of this subsection do not apply to a nonregulated utility unless such utility is subject to a State residential energy conservation plan under section 212(c)(2).

"(2) Any utility that receives a waiver under this section shall provide the Governor of the State in which that utility provides utility service with an annual report describing the performance of its residential energy conservation programs in relation to the showings of such utility under subsections (a) (1) and (2).

"(3) The Secretary shall revoke any waiver received by a utility under this section upon a request under this subsection by the Governor of the State in which the utility provides utility service. Such a request shall be made upon a finding

"(A) in the case of a regulated utility, by such Governor with the concurrence of the State regulatory authority that has ratemaking authority with respect to such utility; or

"(B) in the case of a nonregulated utility subject to a State residential energy conservation plan under section 212(c)(2), by such Governor,

that the savings described in subsection (a)(1) on an annual basis are less than the savings in the year prior to the approval of the waiver or that the procedures referred to in subsection (a)(2) are no longer adequate.

"(4) A request under paragraph (3) with respect to any utility may be submitted to the Secretary by a Governor only after review and opportunity for a hearing on the performance of the residential energy conservation programs of such utility. In order to facilitate such review and hearing, the utility shall provide to the Governor such information as the Governor requests about such residential energy conservation programs.".

(b) The table of contents for the National Energy Conservation Policy Act is amended by adding at the end of the table of contents for part 1 of title II the following:

"Sec. 226. Waiver for regulated and nonregulated utilities.".

SEC. 6. Subsection 220(b) of title II of the National Energy Conservation Policy Act (42 U.S.C. 8211 et seq.) is amended by inserting after "Acts. —", "(1)", and by inserting after the words "acts or practices.", the following new paragraph:

"(2) Nothing in this part shall be construed to—

"(A) bar any person from taking an action with respect to any anticompetitive act or practice related to activities conducted

under any program established under this part, including activities conducted under subsection 216 (b), (c), (d), or (e); or

"(B) convey to any person immunity from civil or criminal liability, create defenses to actions under antitrust laws, or modify or abridge any private right of action under such laws.".

Mr. DOLE. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. JOHNSTON. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. DOLE. Mr. President, there will be no more votes this evening.

Mr. KENNEDY addressed the Chair.

The PRESIDING OFFICER. The Senator from Massachusetts.

Mr. KENNEDY. Mr. President, I ask unanimous consent that the resolution which was introduced by myself and Senator MATHIAS be printed at this point in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. KENNEDY. I ask unanimous consent that Senators HATFIELD, KERRY, MELCHER, and CRANSTON be added as cosponsors at this point in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

Text of the joint resolution follows:

S.J. RES. 179

"Whereas August 6 marks the 40th anniversary of the detonation of the nuclear bomb at Hiroshima, and whereas the Soviet Union has announced its intention to begin a moratorium on nuclear testing on August 6, and whereas the United States has invited the Soviet Union to send its experts to monitor a U.S. nuclear test,

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, that

"It is the sense of the Congress that at the earliest possible date, the President of the United States should propose to the Soviet Union the immediate resumption of negotiations toward conclusion of a verifiable comprehensive test ban treaty."

EXECUTIVE SESSION

Mr. SIMPSON. Mr. President, I ask unanimous consent that the Senate now go into executive session to consider the following nomination on the Executive Calendar: Calendar No. 332, Douglas H. Ginsburg.

The PRESIDING OFFICER. Is there objection? The Chair hears none, and it is so ordered.

The nomination will be stated.

DEPARTMENT OF JUSTICE

The assistant legislative clerk read the nomination of Douglas H. Ginsburg, of Massachusetts, to be an Assistant Attorney General.

The PRESIDING OFFICER. The nomination is considered and confirmed.

Mr. SIMPSON. Mr. President, I move to reconsider the vote by which the nomination was confirmed.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. SIMPSON. Mr. President, I ask unanimous consent that the President be immediately notified of the confirmation of this nomination.

The PRESIDING OFFICER. Without objection, it is so ordered.

LEGISLATIVE SESSION

Mr. SIMPSON. Mr. President, I ask unanimous consent that the Senate return to legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT OF THE MERCHANT MARINE ACT OF 1936

Mr. SIMPSON. Mr. President, I send a bill to the desk and ask for its first reading.

The PRESIDING OFFICER. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (S. 1522) to amend section 607 of the Merchant Marine Act of 1936 to ensure consistent use of funds made available for capital construction of vessels, and for other purposes.

Mr. STEVENS. Mr. President, today, along with Senator INOUYE, I am introducing a bill to amend section 607 of the Merchant Marine Act, 1936, as amended, to help preserve an important and successful maritime program. Section 607 established the Capital Construction Fund [CCF] under which operators of ships can make deposits on a tax deferred basis to replace their fleets. Many operators have done so. In fact, there are over 125 such funds today. But those operators who have established the funds and made their deposits are now suddenly finding themselves as targets for corporate takeovers by those who would siphon off these accumulations of dollars, rather than build ships.

Presently, there are two ways of withdrawing these deposits. The first is called a qualified withdrawal which goes into the building or acquisition of capital assets. The second is a nonqualified withdrawal which requires approval of the Secretary of Transportation. There is no sanction for failure to secure approval. It was recognized in the original act that nonqualified withdrawals might be necessary to take care of unforseen financial conditions in a company. A nonqualified withdrawal, with or without approval, is subject to the applicable tax plus an interest penalty. But this penalty is so modest that it would have little or no effect on an outsider expecting to invade the funds and take out the cash for other reasons. Thus, the companies which have followed the law and have attempted to build cash reserves for the construction of American-flag ships could face severe problems from those who simply seek the accumulated cash.

The bill I am proposing provides that where there is a hostile change of control, as determined by the Secretary of Transportation after a hearing on the record, and such change is inconsistent with the purposes for which the fund was established, the Secretary shall terminate the fund and assess a penalty for withdrawal of up to 50 percent of the balance of the fund after applicable taxes and interest. If the Secretary does not make such determination, it will be presumed that a nonqualified withdrawal made or requested within 3 years after a hostile change of control is inconsistent with the purpose of the fund and the Secretary shall terminate the agreement with the same penalties.

I cite an example of this problem which is going on today. Sea-Land, the largest American-flag container shipping company, which has deposits of hundreds of millions of dollars in such a fund, is the only liner company that is currently building American-flag ships in this country. Sea-Land now faces a possibiliity of an attack on those deposits from outsiders. Clearly, this is detrimental to the future of the American merchant marine. Companies will be discouraged from making such deposits if this is allowed. We need this legislation to keep that from happening. In offering the bill I recognize that the President's proposed tax amendments would terminate all capital construction funds within 10 years. But we have to face the more urgent issue of improper use of the fund in the interim.

I hope that the Senate will take quick action on this pressing matter.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1522

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 607(i) of the Merchant Marine Act, 1936 (46 App. U.S.C. 1177(i)) is amended—

(1) by inserting "(1)" immediately before "Under";

(2) by redesignating paragraphs (1) and (2) as subparagraphs (A) and (B), respectively; and

(3) by adding at the end thereof the following:

"(2)(A) Notwithstanding any other provision of law, if a hostile change in control of a corporation that has entered into an agreement pursuant to this section occurs on or after August 1, 1985, the Secretary shall hold an evidentiary hearing to determine if such change in control is inconsistent with the purpose of such agreement (as provided in subsection (a) of this section) or is otherwise inconsistent with the purposes

of this Act. Such hearing shall be conducted in accordance with the provisions of title 5, United States Code.

"(B) If the Secretary determines, as a result of such hearing, that such hostile change in control is inconsistent with the purpose of such agreement or with the purposes of this Act, as provided in subparagraph (A) of this paragraph, the Secretary may terminate such agreement.

"(C) Notwithstanding the provisions of subparagraph (B) of this paragraph, if a nonqualified withdrawal under subsection (h) is made or requested within three years after the date on which such hostile change in control occurs, there shall be a conclusive presumption that such hostile change in control was inconsistent with the purpose of such agreement. The Secretary shall terminate such agreement.

"(D) If the Secretary terminates an agreement pursuant to subparagraphs (B) or (C) of this paragraph, there shall be imposed a penalty of not to exceed 50 percent of the amount of the balance of the nonqualified withdrawal, after calculation of taxes and interest. Such penalty shall be in addition to any taxes and interest which may be applicable under this section.

"(E) The existence of control of a corporation and whether a hostile change in control of a corporation has occurred shall be determined by the Secretary. No minimum stock ownership shall be required for such determination. If a majority of the directors of such corporation in office prior to a change in control determine that the change is or would be hostile, such determination shall be conclusive and binding upon the Secretary. Trusts or other similar arrangements established or used to circumvent the purposes of this section shall be deemed by the Secretary as part of a hostile change in control.

"(F) For purposes of this paragraph, the term 'control' means the power, directly or indirectly, to direct the management or policies of a corporation.".

Mr. BYRD. Mr. President, I ask for second reading.

The PRESIDING OFFICER. Is there objection?

Mr. SIMPSON. There is objection.

The PRESIDING OFFICER. Objection having been heard to the second reading of the bill, the bill will remain at the desk pending the second reading on the next legislative day.

WATER QUALITY RENEWAL ACT OF 1985

Mr. SIMPSON. Mr. President, I ask the Chair to lay before the Senate a message from the House of Representatives on S. 1128.

The assistent legislative clerk laid before the Senate the amendment of the House of Representatives to the bill (S. 1128) to amend the Clean Water Act, and for other purposes.

(The amendment of the House is printed in the RECORD of July 23, 1985, beginning at page 20088.

Mr. SIMPSON. Mr. President, I move that the Senate disagree to the House amendments and request a conference on the disagreeing votes thereon and the Chair be authorized to appoint conferees on the part of the Senate.

The motion was agreed to, and the Presiding Officer [Mr. HECHT] appointed Mr. STAFFORD, Mr. CHAFEE, Mr. SIMPSON, Mr. DURENBERGER, Mr. BENTSEN, Mr. MITCHELL, and Mr. MOYNIHAN conferees on the part of Senate.

TENTH ANNIVERSARY OF THE SIGNING OF THE HELSINKI FINAL ACT

Mr. SIMPSON. Mr. President, I send the enclosed joint resolution to the desk on behalf of Senator D'AMATO and ask for its immediate consideration.

The PRESIDING OFFICER. The joint resolution will be stated by title.

The assistant legislative clerk read as follows:

A joint resolution (S.J. Res. 180) commemorating the 10th anniversary of the signing of the Helsinki Final Act.

There being no objection, the Senate proceeded to consider the joint resolution.

Mr. D'AMATO. Mr. President, I rise today in support of the joint resolution commemorating the 10th anniversary of the signing of the Helsinki Final Act.

Ten years ago, on August 1, 1975, the United States, Canada, and 33 European states, including the Soviet Union and its Warsaw Pact allies, adopted the Helsinki Final Act, a many faceted agreement that took 3 years to negotiate. This agreement since has come to be known as the Helsinki accords. The Helsinki accords are a balanced agreement the provisions of which foresaw cooperation among the signatory states in a wide variety of endeavors, including military security, economic and environmental initiatives, cultural and education exchanges, and human contacts. Most importantly, the signatory states adopted 10 basic principles of conduct between states as provided for in the United Nations Charter. Among these principles are respect for national sovereignty, nonuse of force, respect for human rights and fundamental freedoms, and fulfillment of obligations under international law.

From the moment of its adoption, the Helsinki Final Act generated controversy and misunderstanding in the West. Critics said we had "sold out," that the Helsinki Final Act legitimized post-World War II Soviet control of the Baltic and Central European nations in return for empty promises in the area of human rights. Critics charged that the Soviets and their Warsaw Pact allies never intended to honor their commitments to respect human rights. Also, overly optimistic advocates of détente saw the Helsinki Final Act as heralding a new era of cooperation between East and West. They believed that détente would eradicate the basic differences between the free societies of the West and the totalitarian systems of the East.

Neither of these views was valid. The U.S. Government has never accepted the status of the captive nations of Europe as a fait accompli, nor did we have any illusions about the prospects of substantial change in the basic political structure of the East bloc countries. What the West sought at Helsinki was recognition by all the signatory states that human rights is integral to the entire question of security and cooperation in Europe. The representatives of the East accepted this reality as a matter of international law with their signatures on the Helsinki accords.

Clearly, the Soviet Government and its allies have not lived up to their human rights pledges in the Helsinki Final Act. The human rights records of the Soviet Union and its allies are well known. Since the signing of the Helsinki accords, thousands of citizens of the Warsaw Pact states have been persecuted for attempting to take advantage of those rights to which they are entitled under the Helsinki accords. The bitter fates of individuals like Sakharov, Shcharansky, Orlov, and many other human rights activities are far to familiar to us.

Since the Soviet invasion of Afghanistan, the Soviet leadership has conducted a severe and continuing campaign of repression intended to punish those who desire to exercise the basic human rights and fundamental freedoms guaranteed to the citizens of all signatory states by the Helsinki Final Act. The Soviet leaders employ the KGB, their Committee for State Security, as an instrument of internal terror to enforce their barbaric purposes.

More than five million Soviet citizens suffer behind the barbed wire fences of the Gulag Archipelago, or slave under the machine guns of bored, brutal guards. More than 10,000 of these helpless captives are prisoners of conscience—political prisoners. Many others, officially classified as criminals, are in fact the victims of a thinly disguised conscript labor scheme which employs the police and courts as slave catchers for the masters of the Gulag's factories.

The Soviets have made a special effort to deny the exercise of freedom of conscience and religion. Terrified by the combined power of Polish Solidarity and a vital, active Polish Roman Catholic Church, the Soviets are attempting to suppress all religious activity outside state authorized, controlled, and supervised organizations. As a result, Baptists, Pentacostals, Catholics, Jews, Muslims, and Russian Orthodox believers have suffered under a range of KGB-directed actions intended to deny them the right to freely practice their faiths.

How do we respond to this dismal and tragic record? Should we abrogate the Helsinki accords unilaterally, or, on the other hand, continue "business as usual" while human rights activists languish in the gulag? Obviously, "business as usual" is unacceptable. While I understand the views of those who would have us abandon the Helsinki accords as a failure, I also reject this course. If we abandoned the Helsinki accords, we would also be abandoning those behind the Iron Curtain who look to us for support in their struggle.

Let us make no mistake about it. The Helsinki accords put the Kremlin on the defensive. By signing the Helsinki accords, Chairman Brezhnev assured that his country's leadership could not dismiss discussion of human rights as an illegal interference in the Soviet Union's internal affairs. By agreeing to the inclusion of human rights as an integral element in a package of security and trade measures, the Soviet Government has accepted a process in which measures favorable to its narrow, parochial interests are legitimately linked to measures intended to alleviate the oppressive situation under which Soviet citizens continue to suffer.

This is the rationale behind this resolution. This is not merely a commemorative message on the Helsinki anniversary, but instead a reaffirmation, if any is needed, of the Senate's commitment to human rights as a guiding principle of American foreign policy. It is also condemnation of the Soviet Union for its continuing violations of the human rights provisions of the Helsinki accords and other international agreements. In addition, this resolution expresses the sense of Congress that not only the Soviets, but also our allies, must understand the importance the Congress attaches to the issue of human rights in international diplomacy. And finally, this resolution calls upon the President to use every opportunity to stress the inherent link between respect for human rights and the achievement of lasting peace.

Mr. President, the linkage between this respect for human rights and the achievement of lasting peace has been noted on numerous occasions by Dr. Andrei Sakharov, currently in illegal internal exile in Gorky, U.S.S.R. Let us stand with Sakharov, if only in spirit, by adopting this resolution. I call upon all of my colleagues who share my deep concern over the suffering of those behind the Iron Curtain who are struggling for recognition of their basic dignity as human beings and for respect for their human rights to join me in support of this resolution.

The PRESIDING OFFICER. The question is on the engrossment and the third reading of the joint resolution.

The joint resolution was ordered to be engrossed and to be read a third time.

The joint resolution was read the third time and passed.

The preamble was agreed to.

The joint resolution (S.J. Res. 180), together with its preamble, is as follows:

S.J. RES. 180

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,

Whereas, on August 1, 1975 the United States joined thirty-four other nations, including the Soviet Union and other Warsaw Pact states, as signatories to the Final Act of the Conference on Security and Cooperation in Europe, known as the Helsinki Final Act, and

Whereas, the Final Act is a balanced document incorporating provisions concerning human rights and fundamental freedoms, military security, cooperation in the fields of economic, scientific, cultural and educational affairs, free flow of information, and humanitarian affairs, and

Whereas, the Helsinki process has evolved into the primary tool of East-West human rights diplomacy and continues to serve as a beacon of hope to victims of oppression in the Soviet Union and Eastern Europe, and

Whereas, the United States, our NATO Allies and a number of neutral and nonaligned countries have documented and protested many serious violations of the human rights and human contacts provisions of the Final Act by the Soviet Union and other Warsaw Pact states, and

Whereas, the Soviet Union displays contempt for basic civil and political rights, such as freedom of thought, conscience, religion and belief; confines in prisons, labor camps and psychiatric institutions or internally exiles hundreds of citizens who have sought to know and act upon their rights, among them thirty-seven imprisoned members of Helsinki monitoring groups, and

Whereas, the Soviet Union callously disregards its pledge to facilitate human contacts and has drastically reduced the numbers of Soviet citizens permitted to emigrate; has consistently denied exit permission to Soviet citizens married to U.S. citizens and to other individuals who have claims to U.S. citizenship; and deliberately impedes the East-West flow of information by jamming Western radio broadcasts, and

Whereas, disregard for human righs also is evident in the other Warsaw Pact states of Eastern Europe, and

Whereas, inter alia, Bulgaria maintains virtually total control over the life of its people and recently has engaged in a campaign of forcible assimilation aimed at the Turkish minority population;

Czechoslovakia harshly represses independent social, political, religious, minority and cultural expression and persecutes members of Charter '77 and VONS (Committee for the Defense of the Unjustly Persecuted); The German Democratic Republic enforces a restrictive emigration policy; Hungary continually harasses citizens who publish or possess unofficial material; Poland outlaws the Solidarity Union, harasses and prosecutes Solidarity and human rights advocates and currently imprisons over 200 persons for exercising their human and workers' rights; Romania maintains a repressive internal regime and seriously violates the freedoms of conscience, expression and association, as well as religious liberty and minority rights; and

Whereas, meetings of Helsinki signatory states present important opportunities for Western democracies to call the Soviet Union and its allies to account for these human rights violations, and

Whereas, at the recent Ottawa Human Rights Experts Meeting of Helsinki signatory states, East Bloc human rights violations were raised and deplored by U.S. Ambassador Richard Schifter and by other Western and Neutral envoys on behalf of their respective states, and

Whereas, U.S. Secretary of State George P. Shultz will lead the U.S. Delegation to the 10th anniversary commemoration of the signing of the Final Act,

Now, therefore be it resolved by the Senate and the House of Representatives of the United States of America in Congress assembled, That

(1) the Congress strongly reaffirms the human rights principles and humanitarian provisions of the Helsinki Final Act and Madrid Concluding Document;

(2) the Congress recognizes and condemns continued East Bloc violations of international obligations under the U.N. Charter, the Universal Declaration on Human Rights, the Helsinki Final Act, the Madrid Concluding Document, and other relevant international instruments;

(3) the Congress requests that the President of the United States direct the U.S. Department of State to convey to the Soviet Union and its allies the United States' deep and abiding human rights concerns;

(4) the Congress urges the President to direct the U.S. Department of State to take full advantage of the opportunities provided by all upcoming meetings of Helsinki signatory states to call the Soviet Union and its allies to account for ongoing human rights violations and to work constructively with the governments of the other Western democracies to promote human rights progress in the Eastern signatory states; and

(5) the Congress calls upon the President to use every opportunity to stress the inherent link—explicitly stated in the Helsinki Final Act and the Madrid Concluding Document—between respect for human rights and the achievement of lasting peace.

Mr. SIMPSON. Mr. President, I move to reconsider the vote by which the joint resolution was passed.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

PROLIFE ACTION TASK FORCE

Mr. HUMPHREY. Mr. President, I wish to make an announcement regarding a hearing to be held Wednesday, July 31, 1985, from 1 p.m. to 4 p.m. in room 628 Dirksen SOB. This marks the first hearing to be held under the auspices of the newly formed Prolife Action Task Force for Women, Children and the Unborn. This hearing will investigate the most recent developments in fetal diagnosis and fetal surgery. We will also explore some of the ethical questions surrounding the issue.

PRESIDENT REJECTS COMPROMISE BUDGET PLAN

Mr. EXON. Mr. President, I should like to enter into the RECORD the following story by the United Press wire indicating President Reagan has rejected the compromise budget plan offered by the Republican leadership of the U.S. Senate. I do that only to show how difficult our job is with no cooperation whatsoever in solving the deficit crisis from the President of the United States.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

PRESIDENT REJECTS COMPROMISE BUDGET PLAN

(By Henry David Rosso)

WASHINGTON.—President Reagan Monday rejected a budget proposal drafted by Senate Republican leaders and said Congress must find a compromise plan that reduces the deficit before it takes its summer recess.

White House spokesman Larry Speakes said Reagan, in a telephone call to Senate Republican leader Robert Dole, rejected any plan that imposes oil import fees, tampers with income tax indexing or deviates from his stand on social security.

Paraphrasing Reagan's message, Speakes said: "A Federal budget for 1986 is essential for maintaining economic recovery. It is up to Congress to act on the budget before they leave for summer vacation."

Despite the items swept off the bargaining table, Speakes said Reagan "firmly believes there is sufficient ground for a compromise between the Senate and the House that can provide in excess of $50 billion in deficit reductions."

"Deficit reduction is the No. 1 issue in America," Speakes said. "The only way to have deficit reduction is to cut Federal spending and to do so this year."

The hardline position taken by Reagan torpedoed a proposal crafted by Senate Republicans to reduce the deficit by some $340 billion over three years and cast new doubt over whether the budget impasse on Capitol Hill can be broken.

Speakes said Reagan hoped his action would help "break the logjam," White House Chief of Staff Donald Regan scheduled meetings in the afternoon with the chairmen of the House and Senate Budget Committees to reinforce Reagan's position.

"Reasonable men and women can agree," Speakes said. "Its up to the conferees to meet without delay and act with dispatch. They need to put aside their differences, get down to business and produce a budget."

Dole said Sunday that congressional leaders would have to agree on curbing social security cost-of-living hikes and raising revenue with an oil import fee for a budget compromise to be achieved. Dole also said he was willing to delay Friday's scheduled start of the congressional recess if Reagan and O'Neill reached an accord on the budget.

Speakes said possible postponement of the recess is "a decision up to the leadership."

MESSAGES FROM THE HOUSE

At 12:03 p.m., a message from the House of Representatives, delivered by Ms. Goetz, one of its reading clerks, announced that the House has passed the following joint resolution, without amendment:

S.J. Res. 161. Joint resolution to appeal for the release of Soviet Jewry.

The message also announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 3037. An act making appropriations for Agriculture, Rural Development, and Related Agencies programs for the fiscal year ending September 30, 1986, and for other purposes.

At 1:19 p.m., a message from the House of Representatives, delivered by Mr. Berry, one of its reading clerks, announced that the House has passed the following bill, with amendments, in which it requests the concurrence of the Senate:

S. 1128. An act to amend the Clean Water Act, and for other purposes.

The message also announced that the House has passed the following bills and joint resolutions, in which it requests the concurrence of the Senate:

H.R. 2908. An act to amend title XI of the Education Amendments of 1978, relating to Indian Education programs;

H.R. 3038. An act making appropriations for the Department of Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 1986, and for other purposes; and

H.J. Res. 187. Joint resolution to approve the "Compact of Free Association," and for other purposes.

MEASURES REFERRED

The following bills were read the first and second times by unanimous consent, and referred as indicated:

H.R. 3037. An act making appropriations for Agriculture, Rural Development, and Related Agencies programs for the fiscal year ending September 30, 1986, and for other purposes; to the Committee on Appropriations.

H.R. 3038. An act making appropriations for the Department of Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 1986, and for other purposes; to the Committee on Appropriations.

MEASURES PLACED ON THE CALENDAR

The following bill and joint resolution were read the first and second times, and placed on the calendar:

H.R. 2908. An act to amend title XI of the Education Amendments of 1978, relating to Indian Education programs.

H.J. Res. 187. Joint resolution to approve the "Compact of Free Association", and for other purposes.

PETITIONS AND MEMORIALS

The following petitions and memorials were laid before the Senate and were referred or ordered to lie on the table as indicated:

POM-359. A concurrent resolution adopted by the Legislature of the State of Louisiana; to the Committee on Agriculture, Nutrition, and Forestry.

CONCURRENT RESOLUTION 278

"Whereas, the 1981 Farm Bill passed by the U.S. Congress contained a highly successful sugar program which will expire after the harvest of the 1985 crop; and

"Whereas, the current sugar program has been simple to operate and has not cost the government any money; and

"Whereas, the current sugar program has helped the consumer by stabilizing the price of sugar while, at the same time, it has helped sugar producers by insuring a fair market price for their product; and

"Whereas, the production of sugar cane in Louisiana involves over 245,000 acres and employs approximately 925 farmers, 5090 permanent workers, and 8350 seasonal workers; and

"Whereas, the production of raw sugar from sugar cane in Louisiana involves 21 sugar mills which employ approximately 1220 permanent workers and 2310 seasonal workers; and

"Whereas, the continuation of the sugar industry in Louisiana and the United States depends upon the continuation of a sugar program similar to our current sugar program; and

"Whereas, the Congress should support the continuation of the current sugar program in order to preserve the sugar industry in Louisiana and the United States and to avoid dependence upon the importation of sugar from the unstable and unreliable world sugar market.

"Therefore, be it resolved that the Legislature of Louisiana does hereby memorialize Congress to support the continuation of a sugar program similar to the one now in place, with the adjustment of Commodity Credit Corporation loan levels to reflect increases in production costs.

"Be it further resolved, that a copy of this Resolution shall be transmitted to the presiding officer of each house of Congress and to each member of the Louisiana delegation to Congress."

POM-360. A concurrent resolution adopted by the Legislature of the State of Louisiana; to the Committee on the Judiciary.

"HOUSE CONCURRENT RESOLUTION No. 182

"Whereas, the federal government has, since 1964, embarked on a course of continuous and ever increasing deficit spending; and

"Whereas, the public debt engendered thereby now exceeds hundreds of billions of dollars, and current budget proposals include provision for a further deficit; and

"Whereas, such national debt is, in and of itself, a major contributor to unemployment to which the United States is committed to reducing; and

"Whereas, This massive national debt is inimical to the public welfare, limiting the amount of credit available to private citizens, thus curtailing opportunities for economic and thus employment growth; and

"Whereas, continued fiscal irresponsibility can only result in an eventual financial debacle; and

"Whereas, payment of the massive interest reqired to service national debt imposes an undue hardship on the citizenry, particularly those on fixed incomes; and

"Whereas, the ability of the federal government to avoid the difficult budgetary choices posed by zero debt financing has re-

sulted in a lack of objective budgetary analysis and thus the funding of unnecessary or ineficient programs.

"Therefore, be it resolved that the Legislature of Louisiana does hereby memorialize the Congress of the United States to propose a constitutional amendment to authorize the president of the United States to line-item veto the Federal Budget.

"Be it further resolved that this application by the Legislature of Louisiana constitutes a continuing application pursuant to Article V of the Constitution of the United States.

"Be it further resolved that a duly attested copy of this Resolution be immediately transmitted to the president of the United States, to the secretary of the United States Senate, to the clerk of the United States House of Representatives, to each member of the Louisiana delegation to the United States Congress, and to the presiding officer of each house of each state legislature in the United States."

POM-361. A resolution adopted by the House of Representatives of the State of Kentucky; to the Committee on Foreign Relations.

"RESOLUTION

"Whereas, the government of Nicaragua is presently creating an "iron curtain" by burying tens of thousands of land mines along the Nicaragua/Honduras border; and

"Whereas, during the last several weeks the Nicaragua/Honduras border south from El Paraiso to El Triunfo and extending to the Gulf of Fonseca has been mined by Sandinista troops; and

"Whereas, the mining of national borders in this hemisphere is unprecedented; and

"Whereas, this action prevents refugees from escaping Nicaragua and is dangerous to the civilian populations of both countries; and

"Whereas, last week three women, as well as a farmer herding his cows, were blown up by mines; and

"Whereas, communist troops in Nicaragua have buried mines as far as one kilometer inside Honduras; now, therefore,

Be it resolved by the House of Representatives of the General Assembly of the Commonwealth of Kentucky:

"Section 1. That this honorable body urges President Reagan to take appropriate measures to stop the killing and maiming of innocent noncombatants in Central America.

"Section 2. That the Clerk of the House is directed to transmit a copy of this resolution to President Reagan, the U.S. State Department, the Kentucky Congressional delegation, the Embassy of Nicaragua, the Associated Press Wire Service, the United Press International Wire Service, and the Kentucky Network."

POM-362. A resolution adopted by the Philadelphia Council of AFL-CIO regarding hospital cost containment; to the Committee on Labor and Human Resources.

POM-363. A resolution adopted by the School Board of Dade County, Florida opposing S. 415 and H.R. 1523, the Education of All Handicapped Children Act; to the Committee on Labor and Human Resources.

POM-364. A resolution adopted by the Whitesboro United Methodist Church relating to alcohol; ordered to lie on the table.

POM-365. A resolution adopted by the House of Representatives of the State of Kentucky; to the Committee on Veterans' Affairs.

"RESOLUTION

"Whereas, legislation establishing financial assistance to United States Veterans for educational programs, and commonly referred to as the G.I. bill, has been provided since the 1940s; and

"Whereas, hundreds of thousands of veterans have enrolled in educational programs and participated in on the job training and apprenticeship programs under G.I. bills enacted during the World War II era, the Korean War era and the Vietnam War era; and

"Whereas, the most recent version of the G.I. bill, which was enacted during the 99th Session of Congress and became effective July 1, 1985, deleted the provision for veterans to elect to participate in on the job training and apprenticeship programs in lieu of pursuing a formal educational curricula; and

"Whereas, G.I. bills have historically recognized the paramount importance of providing alternatives to veterans for securing on the job training as opposed to obtaining a formal college education; and

"Whereas, thousands of Kentucky veterans have benefited from the on the job training and apprenticeship programs of the G.I. bill; and

"Whereas, on the job training and apprenticeship programs benefit employers as well as veterans; and

"Whereas, Senators Cohen and Cranston have introduced Senate Bill 962 which if enacted, would amend Title 38, Chapter 30, U.S.C., to include the provisions of on the job training and apprenticeship programs for veterans in the newly enacted G.I. bill; Now, Therefore, be it

Resolved by the House of Representatives of the General Assembly of the Commonwealth of Kentucky:

"SECTION 1. That the House rallies behind Senators Cohen and Cranston for sponsoring Senate Bill 962.

"Sec. 2. That this honorable body fully supports Senate Bill 962 and urges Congress to swiftly enact this needed legislation.

"Sec. 3. That the Clerk of the House is directed to transmit a copy of this resolution to President Ronald Reagan, the President of the United States Senate, the Speaker of the House of Representatives and the members of the Kentucky Congressional delegation."

POM-366. A concurrent resolution adopted by the Legislature of the State of Louisiana; to the Committee on Banking, Housing, and Urban Affairs.

"CONCURRENT RESOLUTION 248

"Whereas, federal flood insurance programs are extremely vital in obtaining federal financing for homes and businesses; and

"Whereas, many communities are still under the Federal Emergency Insurance Rating System and are having difficulty in qualifying for regular federal flood insurance rates prior to September 1, 1985.

"Therefore, be it resolved, That the Legislature of Louisiana does hereby memorialize the Congress of the United States to extend the Federal Emergency Flood Insurance Program for an additional three years, through 1988.

"Be it further Resolved, That certified copies of this Resolution shall be forwarded to the secretary of the Senate and the clerk of the House of Representatives of the Congress of the United States, and to each member of the Louisiana Congressional delegation."

POM-367. A concurrent resolution adopted by the Legislature of the State of Louisiana; to the Committee on Finance.

"CONCURRENT RESOLUTON/178

"Whereas, the regional administrator of Region VI Health Care Financing Administration has mandated direct pricing for eight manufacturers and a ten and one-half percent reduction of Average Wholesale Price guidelines utilized by the Pharmacy Program to establish maximum acquisition costs for drugs dispensed by participating pharmacists; and

"Whereas, this mandate was received from the regional administrator of Dallas Region VI Health Care Financing Administration without benefit of federal regulation or application to all states who participate in Medicaid reimbursement for prescription drug services; and

"Whereas, this mandate is in violation of 42 CFR 447.332(c) and the Louisiana State Plan agreement with the Health Care Financing Administration; and

"Whereas, this mandate reduction is based on an Office of Inspector General report (Audit Control Number 06-40206) in which the Health Care Financing Administration was criticized for its alternative pricing data; and

"Whereas, the Office of Inspector General report found that states with a Maximum Allowable Cost (MAC) program have reduced acquisition costs for reimbursement of drugs purchased by providers; and

"Whereas, Louisiana's Maximum Allowable Cost program is the third largest in the nation; and

"Whereas, an audit was performed only upon the three largest pharmacists in the state and no audits have been performed in Louisiana on a representative sample of participating pharmacies; and

"Whereas, no comparison has been allowed by the regional administrator of the Region VI Health Care Financing Administration office to demonstrate equal or greater acquisition cost reduction than the mandated reduction through the State Maximum Allowable Cost Program; and

"Whereas, fiscal sanctions have been threatened by the Dallas Region VI Health Care Financiing Administration if the mandated reduction is not adopted by Louisiana by July 1, 1985; and

"Whereas, the effects of this reimbursement limit will have a severe impact on the ability of needy recipients to obtain the necessary medication prescribed by their treating physicians and dentists and on rural pharmacies in Louisiana.

"Therefore, be it resolved, That the Legislature of Louisiana does hereby memorialize the Congress of the United States and in particular the members of the Louisiana Congressional delegation to intercede and preclude Dallas Region VI Health Care Financing Administration from reducing Medicaid funding for drug reimbursement until a fair and representative audit has been performed by Louisiana.

"Be it further resolved, That the legislature also memorializes Congress to take action to provide that any proposed action to implement a drug reimbrusement limit of Average Wholesale Price less ten and one-half percent and direct pricing for eight manufacturers be delayed until audits are performed by Louisiana on a representive sample of participating Louisiana pharmacies and compared with the cost savings currently derived from our state Maximum Allowable Cost Program and that any pro-

posed sanctions be withdrawn until further study of Estimated Acquisition Cost is completed by the Health Care Financing Administration and a new methodology is established or further expansion of Maximum Allowable Cost regulations is authorized through revised federal regulations.

"Be it further resolved, That certified copies of this Resolution shall be forwarded to the regional administrator of the Health Care Financing Administration of Region VI, Dallas, Texas, to the secretary of the Senate and the clerk of the House of Representatives of the Congress of the United States, and to each member of the Louisiana Congressional delegation."

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. GOLDWATER, from the committee of conference:

Conference report on the disagreeing votes of the two Houses on the amendments of the House to the bill (S.1160) to authorize appropriations for the military functions of the Department of Defense and to prescribe personnel levels for the Department of Defense for fiscal year 1986, to authorize certain construction at military installations for such fiscal year, to authorize appropriations for the Department of Energy for national security programs for such fiscal year, and for other purposes (Rept. No. 99-118).

By Mr. PACKWOOD, from the Committee on Finance, with an amendment:

S.J. Res. 77. Joint resolution to approve the "Compact of Free Association", and for other purposes.

By Mr. THURMOND, from the Committee on the Judiciary, with an amendment in the nature of a substitute:

S. 104. A bill to amend chapter 44, title 18, United States Code, to regulate the manufacture and importation of armor piercing bullets.

By Mr. HATCH, from the Committee on Labor and Human Resources, without amendment:

S. Res. 205. An original resolution waiving section 402(a) of the Congressional Budget Act of 1974 with respect to the consideration of S. 974; referred to the Committee on the Budget.

By Mr. SYMMS, from the Committee on Environment and Public Works, without amendment:

S. 1514. An original bill to approve the Interstate Cost Estimate and Interstate Substitute Cost Estimate.

● Mr. SYMMS. Mr. President, I am pleased that the Committee on Environment and Public Works has acted unanimously and quickly to approve the Interstate Cost Estimate [ICE] and Interstate Substitute Cost Estimate [ISCE] so that $3.6 billion in interstate construction, $538 million in interstate highway substitute, approximately $650 million in minimum allocation, and the interstate transit substitute funds can be released on October 1 of this year.

The Surface Transportation Assistance Act of 1982 [STAA of 1982] provided authorization of the interstate construction program through fiscal year 1990 and the other Federal-aid highway categories through fiscal year 1986. A policy was continued in the STAA of 1982 which directs that before interstate construction funds can be appropriated to the States, Congress must approve an interstate cost estimate. In addition, the STAA of 1982 included a new provision which required Congress to approve an interstate substitute cost estimate before interstate substitute funds can be released to the States.

In the past, Congress has generally approved an ICE for 2 years. States are required to update this interstate cost completion information and submit to the Department of Transportation every 2 years. The STAA of 1982 also required the States to submit information to the Secretary regarding interstate substitute projects. In the past, approval of the ICE has been a fairly routine matter. However, during the past 2 years Congress has had difficulty in reaching agreement on an ICE and ISCE approval.

I cannot emphasize enough how important it is to make these funds available to the States on time if we are serious about completing the Interstate Highway System in a reasonable amount of time and for a reasonable cost. Highway user fees have been collected from people using our highway system with the promise that these funds would be available to construct a superior network of highways that would aid mobility, productivity, and the national defense. It is time we kept that promise to those paying highway user fees.

In order to expedite consideration and approval of the cost estimates, the Committee on Environment and Public Works reported an original bill which contains only a 1-year approval of the ICE and ISCE. We did not include any other items. There is no provision for an administrative release of these funds in the future even though the committee has strongly supported that concept and continues to do so. There is no amendment concerning the minimum allocation program even though our distinguished ranking member believes very strongly in that concept. There are no special projects. The committee members have agreed to postpone items they consider to be of great important so that the interstate money can go to the States on time. I hope all my distinguished colleagues in the Senate and the House will follow their lead so that over $5 billion can be used in every State this fall on critically needed highway projects.

The approval of the ICE also does not resolve the disagreement over the eligibility of depressing the central artery in Boston. Committee Print 99-68 contains a neutral number for this project which has been used in the previous two cost estimates approved by Congress. We have taken the figures for the central artery and the third harbor crossing contained in the 1981 cost estimate and updated them for inflation. The committee intends that the approval of the cost estimate contained in Committee Print 99-68 continues the status quo situation with regard to the central artery.

The Subcommittee on Transportation is holding a series of hearings on the reauthorization of the Federal-aid Highway Program. The many witnesses who have already testified have raised many issues of vital concern and importance to the Federal Highway Program. I know many of my colleagues also have important items. I want to assure them that the committee will give careful attention to all these items during the reauthorization process. We will move as expeditiously as possible on the reauthorization legislation.

Mr. President, Secretary Dole has also been greatly concerned about the timely release of the interstate construction funds. I ask that a copy of a letter I received from her be placed in the RECORD.

Mr. President, many witnesses who testified during the subcommittee's hearings during this past month took the opportunity to express their support for the early passage of a simple ICE and ISCE bill. They all agreed that the interstate construction funds should be released now and all other issues should be resolved later in reauthorization legislation.

Mr. President, I want to thank the distinguished chairman of the Environment and Public Works Committee [Mr. STAFFORD], the ranking member [Mr. BENTSEN] and the ranking member of the Transportation Subcommittee [Mr. BURDICK] for their tireless efforts and support for a strong, effective Federal-aid Highway Program.

I ask that a letter and enclosed resolution from Mr. Francis B. Francois, executive director of the American Association of State Highway and Transportation Officials be included in the RECORD. This organization is made up of the State officials who carry out the Federal-aid Highway Program and who have made it such a successful Federal program. I believe they clearly state the negative impact any further delays will have on the highway program.

Mr. President, I ask unanimous consent that the bill reported by the Environment and Public Works Committee be printed in the RECORD along with Committee Prints 99-68 and 99-69 shown as tables 3, 4, and 5 and the attached apportionment tables.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1514

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

APPROVAL OF INTERSTATE COST ESTIMATE FOR FISCAL YEAR 1987

SEC. 1. The Secretary of Transportation shall apportion for the fiscal year ending September 30, 1987, the sums authorized to be appropriated for such period by section 108(b) of the Federal-Aid Highway Act of 1956, as amended, for expenditure on the National System of Interstate and Defense Highways using the apportionment factors contained in revised table 5 of the committee print numbered 99-68 of the Committee on Environment and Public Works of the Senate.

APPROVAL OF INTERSTATE SUBSTITUTE COST ESTIMATE FOR FISCAL YEAR 1986

SEC. 2. The Secretary of Transportation shall apportion for the fiscal year ending September 30, 1986, the sums to be apportioned for such year under section 103(c)(4) of title 23, United States Code, for expenditure on substitute highway and transit projects, using the apportionment factors contained in the committee print numbered 99-69 of the Committee on Environment and Public Works and the Committee on Banking, Housing and Urban Affairs of the Senate.

AMERICAN ASSOCIATION OF STATE HIGHWAY AND TRANSPORTATION OFFICIALS,

July 26, 1985.

Hon. STEVEN D. SYMMS,
Chairman, Transportation Subcommittee of the Committee on Environment and Public Works, Hart Senate Office Building, Washington, DC.

DEAR MR. CHAIRMAN: The Policy Committee of AASHTO met this week in Itasca, Illinois, and on July 23 reviewed progress this year in the Federal-aid highway program. From that review, it is clear that all of the obligation authority provided by the Congress for Fiscal Year 1985 will be utilized by the states by October 1, 1985, and that on that date there will be an extensive backlog of ready-to-go projects.

It is also clear that unless an Interstate Cost Estimate and Interstate Substitute Cost Estimate are available before October 1, there will again be significant disruptions in the nation's highway program. Accordingly, the members of the Policy Committee adopted a motion on July 23 urging enactment of a clean ICE-ISCE bill on or before October 1. A copy of Policy Resolution 1-85 is enclosed, which contains the motion as passed.

We are aware of your public statements that an ICE-ISCE should be approved this fall by Congress, to avoid a repetition of the disruptions to the highway program we have seen in the recent past. We share your hope that legislation can be enacted during September, to allow the distribution of obligation authority for Fiscal Year 1986 to occur as scheduled on October 1.

If there is any way we can be of further assistance, we of course are as usual prepared to respond.

Very truly yours,

FRANCIS B. FRANCOIS,
Executive Director.

POLICY RESOLUTION 1-85

(Title: Supporting Enactment of an ICE-ISCE by October 1, 1985)

Whereas, meeting in Itasca, Illinois on July 23, 1985, the Policy Committee of the American Association of State Highway and Transportation Officials reviewed the record of the 50 states, the District of Columbia and Puerto Rico to date during Fiscal Year 1985 in obligating Federal-aid highway funds; and

Whereas, it was reported that to date a total of $10.623 billion has been obligated, and that all remaining currently available obligation authority will be utilized by October 1, 1985; and

Whereas, it was further reported that it is expected that the member departments of AASHTO will collectively be in a position to request some $3 billion or more in additional obligation authority this year in the redistribution of obligational authority process, against only about 10 percent or less of this amount that is expected to be available; and

Whereas, it was further reported that several states have already fully obligated their available Interstate completion funds for this fiscal year, and cannot move further toward completion of their portion of the National System of Interstate and Defense Highways without further action by Congress; and

Whereas, it was the consensus of the Policy Committee that if the some $5 billion in funds dependent upon the timely passage of an Interstate Cost Estimate and Interstate Substitute Cost Estimate is not made available for obligation in Fiscal Year 1986 as scheduled on October 1, 1985, this will cause severe disruption to state highway programs, and will result in extended delays and increased costs in Interstate and other highway projects that will adversely affect everyone.

Therefore, it was moved by James Harrington, North Carolina, seconded by Robert Hunter, Missouri, and approved by more than the required two-thirds favorable vote of all 52 members of the Policy Committee:

That the American Association of State Highway and Transportation Officials support a prompt, diligent effort to obtain enactment of a clean Interstate Cost Estimate and Interstate Substitute Cost Estimate prior to October 1, 1985.

THE SECRETARY OF TRANSPORTATION,
Washington, DC, July 19, 1985.

Hon. STEVEN D. SYMMS,
Chairman, Subcommittee on Transportation, Committee on Environment and Public Works, U.S. Senate, Washington, DC.

DEAR STEVE: I would like to ask your help on a very important issue. On October 1, 1985, a little over two months from now, the Federal Highway Administration will be unable to make a timely apportionment of more than $4.7 billion of Interstate construction, Interstate substitution and minimum allocation funds unless Congress has acted to approve the 1985 Interstate Cost Estimate (ICE) and to release Interstate substitution funds. Enclosed you will find a state-by-state analysis of the amounts that will be available for obligation in fiscal year 1986, once Congress has acted.

It is time once again to make the ICE approval an orderly process that can be relied on by the States. The past two years have been characterized by delays that serve only to disrupt construction plans and prevent the timely completion of the Interstate system. These delays directly affect the people who depend on our Interstate highway system.

I would encourage the Committee not to link the 1985 ICE approval bill to the reauthorizing legislation. There is insufficient time before October 1 to approve the ICE as part of a bill reauthorizing the Surface Transportation Assistance Act of 1982. There will be many complicated issues in the reauthorization bill that will require more time for careful analysis than we have available at this point.

I urge the Committee to schedule action quickly on the clean ICE approval bill that has been introduced on behalf of the Administration. Your continuing leadership and concern for this issue are sincerely appreciated.

With best wishes.

Sincerely,

ELIZABETH HANFORD DOLE.

U.S. Department of Transportation, Federal Highway Administration, estimated apportionment of fiscal year 1987 interstate construction funds

States:	*Amount*

● Mr. STAFFORD. Mr. President, the Environment and Public Works Committee acted unanimously today to report the approval of an Interstate Cost Estimate [ICE] and Interstate Substitute Cost Estimate [ISCE]. These approvals are necessary so the Department of Transportation can apportion interstate construction, interstate substitute, and minimum allocation funds to the States on October 1. After 2 years of uncertainty and delays in approving cost estimates, I believe it is time Congress carries out its responsibilities on time.

The Surface Transportation Assistance Act of 1982 provided authorizations for these categories through fiscal year 1986. These funds are already authorized so we are not creating any new budget authority in this legislation. Second, the Federal-aid Highway Program is financed entirely by user fees so we are not adding to the Federal deficit by approving this legislation. Once Congress has approved these cost estimates and the President has signed the legislation into law, the Department of Transportation can apportion and allocate over $5 billion in interstate construction, interstate substitute, and minimum allocation funds on October 1, 1985.

Approval of these cost estimates will permit States to continue with necessary projects this fall. Even though 18 months of interstate funds were released only 5 months ago, as of July 1, nine States had already obligated most of their funds and need additional money to go forward with interstate construction projects. Those States are Arizona, Florida, Georgia, Illinois, Minnesota, Missouri, Nevada, Tennessee, and Wyoming.

Mr. President, I am very pleased that the members of the Environment and Public Works Committee have joined together to support simple, unencumbered cost-estimate approvals.

They all have issues that are important to them and they have agreed to lay them aside so that each State can make use of highway funds which have already been authorized and for which highway user fees have already been collected. I want to take this opportunity to especially thank Senator BENTSEN, the ranking member of the committee, for his statesmanship in agreeing to postpone consideration of an issue of extreme importance to him—the minimum allocation provision. I would call on my colleagues in the Senate and the House to follow Senator BENTSEN'S, and that of the other committee members, fine example of supporting a clean ICE and ISCE approval and resolving all other issues during the reauthorization process.

The Subcommittee on Transportation is in the process of holding hearings on the entire Federal-aid Highway Program and is working on legislation to reauthorize the program by October 1, 1986. I assure my colleagues that the committee will work hard on this legislation and move it as quickly as possible. We will be happy to review any concerns Members have and work toward a resolution beneficial to the highway program.

The Committee on Environment and Public Works did not file a committee report with the original legislation reported today. However, the committee reported similar legislation in February of this year—Senate Joint Resolution 44—and did file a report, 99-3, to accompany that legislation which explains the purpose and history of cost estimate approvals.

The legislation reported by the committee today is a simple, 1-year approval of the ICE and ISCE. No other provisions are included. Because of extensive discussion and debate in the past on the eligibility of the depression of a segment of I-93 through downtown Boston, I want to point out that nothing in this legislation or in Committee Print 99-68 changes the current status of that project or any other interstate highway project. In order to retain a neutral position with regard to the Boston project, a number was used in the ICE which takes the amount in the 1981 ICE and adjusts it for inflation. Congress has used this figure in the past two ICE approvals. Any disagreements over the eligibility of interstate projects should be resolved by legislation during the reauthorization process and should not be debated during approval of a simple, 1-year ICE approval.

It is my position that the numbers contained in any House or Senate committee print are merely estimates of the cost to complete the Interstate System in that State. These numbers have no bearing on or any relation to the eligibility of any elements of any project or any entire project. It is also my position that any headnote or footnote in any Senate or House committee print regarding the interstate cost estimate is only explanatory and has no effect on the eligibility of any project or element of a project for interstate construction funds.

Mr. President, I want to thank the Environment and Public Works Committee for their cooperation and support in reporting this legislation today. I particularly want to thank Senator BENTSEN, ranking member of the committee, Senator SYMMS, chairman of the Transportation Subcommittee, and Senator BURDICK, ranking member of the subcommittee, for their outstanding work on this legislation. I want to urge my colleagues to join with us in support of this legislation so that the National System of Interstate and Defense Highways can be completed.●

By Mr. HUMPHREY, from the Committee on Environment and Public Works, without amendment:

S. 1515. An original bill to authorize a partial transfer of the authority of the Maine-New Hampshire Interstate Bridge Authority to the States of Maine and New Hampshire.

● Mr. HUMPHREY. Mr. President, today Senator MITCHELL and I are offering a bill which will serve to ratify legislation regarding the Maine-New Hampshire Interstate Bridge Authority.

In late June, the States of Maine and New Hampshire enacted identical bills which would change the compact governing the Maine-New Hampshire Interstate Bridge Authority. These bills require congressional ratification in order to be implemented.

The authority, which was created by acts of the Maine Legislature and the New Hampshire Legislature in 1936-37. The compact between the States was approved by the Congress of the United States on June 16, 1938. Construction of the bridge over the Piscataqua River was financed by proceeds of a bond issue. This bridge, 2,798 feet in length with a 224-foot center-lift span, was opened to vehicular traffic on November 8, 1940.

Due to inflation and declining revenues over the past decade, the condition of the Maine-New Hampshire Interstate Bridge Authority facilities have been deteriorating at an accelerated rate. A recent report concluded that funding for the maintenance and operation of the existing facilities combined with needed capital improvements in the near future would be insufficient, resulting in the demise of the authority.

The authority facilities are critical for commerce between the States of Maine and New Hampshire. Additionally, the bridge serves as an important transportation link for our national defense. A joint task force of officials from the State of Maine Department of Transportation and the New Hampshire Department of Public Works and Highways was established to analyze available alternatives for the operation of the interstate bridge authority. The objective of the task force was to review the various alternatives to keep authority facilities in adequate condition for the future with a minimal impact upon the two States.

The task force recommended the transfer of the roadway approaches and grade separation structures to the States while the interstate bridge authority would retain control of the main river structure and approach spans. Some assets of the authority would be used for roadway and grade separation improvements. This spring, both State legislatures adopted legislation that would provide for the revised maintenance responsibilities.

The plan will also require congressional ratification. The bill we are offering will facilitate such ratification. The bill does not authorize any new Federal spending, and it has been cleared by the administration. We would like to move forward as quickly as possible with the bill, and I thank the leadership of the committee for their cooperation in this matter.

I believe that the revised compact between the States of Maine and New Hampshire will ensure the continued integrity of the facilities of the interstate authority for the benefit of the citizens of northern New England and the Nation.●

● Mr. MITCHELL. Mr. President, in late June, both Maine and New Hampshire enacted identical bills regarding the Maine-New Hampshire Interstate Bridge Authority [IBA]. These measures require congressional ratification in order to be implemented. This legislation, which I have sponsored with my colleague from New Hampshire, Senator HUMPHREY, would accomplish this.

The IBA was created by an act of Congress in 1937 to oversee the construction, maintenance, and operation of a toll bridge and approach roads between Kittery, ME, and Portsmouth, NH. This facility presently constitutes what is commonly referred to as the U.S. Route 1 Bypass connecting Kittery and Portsmouth, and provides the only rail service to the Portsmouth Naval Shipyard.

The discontinuance of tolls on October 31, 1972, combined with limited revenues derived from interest on the IBA endowment account and high inflation in the last decade, have forced the authority to delay or cancel several capital improvement projects for the facility. As a result, the entire facility is experiencing increasingly rapid deterioration.

A task force comprised of representatives from both State transportation agencies analyzed the mandate, operation, and viability of the IBA. It found, after assessing numerous alternatives over the past 2 years, that the IBA cannot financially carry out its mandate. The authority needs the assistance of both States and their available Federal funds in order to continue to provide transportation services for the shipyard and for vehicles utilizing the bypass. The State and Federal bills would provide them assistance.

The Federal legislation would constitute an amendment to the original 1937 compact as ratified by Congress. No additional funds are necessary to support this legislation as the proposed realignment of responsibilities will be funded by a combination of authority assets and currently allocated Federal highway funds.

The provisions of the proposed act would accomplish the following:

Transfer ownership of the approach roadways and grade separation structures—underpasses, overpasses, and so forth—to the respective State transportation agencies;

Allow each State to channel available Federal-aid primary highway funds to the transferred portion of the facility for capital improvements and rehabilitation;

Require the authority to fund the non-Federal share of such capital improvements and rehabilitation when deemed necessary by the authority and engineering representatives of both States;

Continue the authority's obligation for the main bridge structure as well as the roadway and railway facilities presently on the structure;

Transfer authority employees to Maine or New Hampshire's transportation agency, thus providing comparable wages and benefits; and

Transfer authority equipment presently used on the facility to the respective State transportation agencies.

I would like to submit a letter from the Governor of Maine, Joseph E. Brennan, requesting prompt consideration of this proposal, as well as copies of the Maine and New Hampshire bills; and I ask unanimous consent that they be printed in the RECORD. I believe this legislation is noncontroversial and I hope that congressional approval of its provisions will proceed expeditiously.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

STATE OF MAINE,
OFFICE OF THE GOVERNOR,
Augusta, Maine, July 9, 1985.

Senator GEORGE J. MITCHELL,
Russell Senate Building, Washington, DC

Re: Congressional Ratification of Legislation Regarding the Maine-New Hampshire Interstate Bridge Authority.

DEAR GEORGE: I am seeking your support of legislation recently enacted in both Maine and New Hampshire regarding the Maine-New Hampshire Interstate Bridge Authority (IBA) which requires Congressional ratification.

As you know, the Authority was created by an Act of Congress in 1937 to oversee the construction, maintenance and operation of a toll bridge and approach roads between Kittery, Maine, and Portsmouth, New Hampshire. This facility presently constitutes what is commonly referred to as the U.S. Route 1 Bypass connecting Kittery and Portsmouth, and provides the only rail service to the Portsmouth Naval Shipyard. The discontinuance of tolls on October 31, 1972, combined with limited revenues derived from interest on the IBA Endowment Management Account and high inflation in the last decade, have forced the Authority to delay or cancel several capital improvement projects for the facility. As a result, the entire facility is experiencing increasingly rapid deterioration.

In order to provide a framework which will preserve the life of the facility for an extended period at the lowest cost possible, a task force comprised of representatives from both State transportation agencies analyzed the mandate, operation and viability of the IBA. It found, after assessing numerous alternatives over the past two years, that the IBA cannot financially carry out its mandate. The Authority needs the assistance of both States and their available Federal funds in order to continue to provide transportation services for the Shipyard and for vehicles utilizing the Bypass. I believe the legislation before you represents the best long term allocation of responsibilities and resources to address this situation.

The Federal legislation would constitute an amendment to the original 1937 Compact as ratified by Congress. No additional Federal funds are necessary to support this legislation as the proposed realignment of responsibilities will be funded by a combination of Authority assets and currently allocated Federal Highway Funds.

The provisions of the proposed Act would accomplish the following:

(a) Transfer ownership of the approach roadways and grade separation structures (underpasses, overpasses, etc.) to the respective State transportation agencies;

(b) Allow each State to channel available federal funds to the transferred portion of the facility for capital improvements and rehabilitation;

(c) Require the Authority to fund the non-federal share of such capital improvements and rehabilitation when deemed necessary by the Authority and engineering representatives of both States;

(d) Continue the Authority's obligation for the main bridge structure as well as the roadway and railway facilities presently on the structure;

(e) Transfer Authority employees to Maine or New Hampshire's transportation agency, thus providing comparable wages and benefits;

(f) Transfer Authority equipment presently used on the facility to the respective State transportation agencies.

In short, this legislation, if passed by Congress, would assure the continued use of this major facility while providing the most cost-effective expenditure of state and federal funds.

Ratification prior to the August Congressional recess would allow the Authority, the Maine Department of Transportation and the New Hampshire Department of Public Works and Highways to formulate a smooth, efficient and expeditious transfer of responsibilities, employees and equipment prior to the upcoming fall and winter maintenance seasons.

I appreciate your help in this matter, George. As always, members of my staff and the Maine Department of Transportation are available to provide whatever assistance you may need.

Sincerely,

JOSEPH E. BRENNAN,
Governor.

S.P. 601—L.D. 1577

(An Act Relating to the Maine-New Hampshire Interstate Bridge Authority, Portsmouth-Kittery Bridge and Approaches Thereto)

Be it enacted by the People of the State of Maine as follows:

P&SL 1937, c. 18, § 20 is enacted to read:

Sec. 20. Compact amendment relating to the Maine-New Hampshire Interstate Bridge Authority Portsmouth-Kittery Bridge and approaches thereto.

1. Amendment of compact between Maine and New Hampshire.

Whereas, the states of Maine and New Hampshire, with the express consent of the United States Congress, have entered into a compact creating the Maine-New Hampshire Interstate Bridge Authority, which has resulted in the construction, operation and maintenance of a bridge across the Piscataqua River between Kittery, Maine and Portsmouth, New Hampshire and approach roads thereto; and

Whereas, the United States Congress expressly reserved the right to alter or amend the provisions of this compact; and

Whereas, the condition of the Maine-New Hampshire Interstate Bridge Authority highway and railroad bridge now serving vehicular and rail traffic over and across the Piscataqua River between the State of New Hampshire and the State of Maine and the approach roads thereto have been deteriorating at an accelerated rate due to facility age, inflation and effective declining revenues; and

Whereas, the present Maine-New Hampshire Interstate Bridge Authority financial obligations for maintenance, operation and repair of the bridge and its approaches have expanded to the extent that the authority's financial resources face rapid depletion in the near future; and

Whereas, the states of Maine and New Hampshire do not have the financial resources to undertake the costs for proper maintenance, operation and repair on the bridge and its approaches without cooperation with the Maine-New Hampshire Interstate Bridge Authority; and

Whereas, the Maine-New Hampshire Interstate Bridge Authority's bridge and road facilities remain critical for national defense and interstate rail and highway transportation and commerce; and

Whereas, the realignment of various responsibilities between the Maine-New Hampshire Interstate Bridge Authority and the states of New Hampshire and Maine will allow the authority to continue to provide adequate highway and rail service for the citizens of both states while providing for the least burdensome financial impact upon the states; and

Whereas, the best remedy for the conditions now existing which would have the least long-term financial impact on the

states of New Hampshire and Maine is to transfer some of the responsibility of the Maine-New Hampshire Interstate Bridge Authority to the states; and

Whereas, such a result can best be accomplished through the joint cooperation of the Maine-New Hampshire Interstate Bridge Authority and the states of Maine and New Hampshire to effectuate such a transfer;

Now, therefore, the Maine-New Hampshire Interstate Bridge Authority and the states of New Hampshire and Maine do hereby agree and pledge each to the other as follows:

ARTICLE I

DEFINITIONS

1. "Main River Structure" shall include only that portion of the present Maine-New Hampshire Interstate Bridge Authority facility which spans the Piscataqua River from the New Hampshire bridge abutment to the Maine bridge abutment, inclusive, for a distance of 2,880 feet or 0.5456 mile.

2. "Approach Roads" shall include those roadway portions of the present Maine-New Hampshire Interstate Bridge Authority facility known as the U.S. Route 1 Bypass running from the New Hampshire bridge abutment of the main river structure to the U.S. Route 1 Bypass/U.S. Route 1 Junction in Portsmouth, New Hampshire, a distance of approximately 2.4 miles, and running from the Maine bridge abutment of the main river structure to the U.S. Route 1 Bypass/U.S. Route 1 Junction in Kittery, Maine, a distance of approximately 1.4 miles.

3. "Grade Separation Structures" shall include 10 structures on the present Maine-New Hampshire Interstate Bridge Authority facility which allows the approach roads to pass either over or under predecessor facilities, namely, at Stark Street, U.S. Route 1, Maplewood Avenue, Middle Road, Hodgton Brook, Islington Street, and at the B & M Railroad, all located in Portsmouth, New Hampshire, and at Route 236, Eliot Road and an abandoned railroad tunnel, located in Kittery, Maine.

4. "Authority" shall mean the Maine-New Hampshire Interstate Bridge Authority.

5. "Compact" shall mean the compact set forth in Maine Private and Special Laws, Chapter 18, Session of 1937, and New Hampshire R.S.A. Chapter 234:43.

ARTICLE II

The authority shall transfer the approach roads to the main river structure, all grade separation structures on said approach roads and any of its real property incidental to present or future highway use to the respective states of Maine and New Hampshire. The respective state transportation agencies shall therefore assume the responsibility for the maintenance, operation and repair of those grade separation structures and that portion of said approach roads which lie within the territorial limits of each state, except as set forth in Article III herein. The authority shall retain all responsibilities and obligations for the main river structure from the New Hampshire abutment to the Maine abutment, inclusive.

ARTICLE III

The authority shall be responsible for providing authority funds to be used in possible combination with Federal Aid funds through the states of New Hampshire and Maine for capital improvements to the main river structure as well as the transferred approach roads and grade separation structures. The authority's responsibility for capital improvements on the transferred approach roads and grade separation structures will be limited to one major improvement for each grade separation structure and approach road segment. The specific type capital improvement and the timing for the performance of each said improvement shall be determined by the authority in conjuction with the joint findings of an annual inspection performed by engineering representatives of each state.

ARTICLE IV

Authority employees and their positions of employment shall be transferred to the Maine Department of Transportation and the New Hampshire Department of Public Works and Highways. In effecting said transfer, the respective state transportation agencies shall endeavor to provide each tranferred employee with comparable wages and benefits afforded similarly situated state employees. Said transfer shall be in accordance with the agreement between the State of Maine and the Maine State Employees Association, 1984-1986. For those authority employees being transferred to Maine, notwithstanding 5 M.R.S.A. Section 1092(14), all funds held by the Maine State Retirement System in the Members' Contribution Fund to the credit of employees of the authority shall be transferred on the records of the Maine State Retirement System to the state account in the Members' Contribution Fund. Creditable service rendered by these employees for retirement purposes shall be the same as if the employment had been rendered as a state employee. Former employees of the authority who have retired under the Maine State Retirement System shall have their retirement benefits continued at the same level as would be paid if those retired employees had retired from state service. Said former employees may not obtain military service credit pursuant to 5 M.R.S.A. Section 1094(13). Funds held by the Maine State Retirement System in the account of the authority in the Retirement Allowance Funds which were paid by the authority, shall be transferred to the state account in the Retirement Allowance Fund to pay benefits to retired persons and for future retirees. If, after a review by the Actuary of the Maine State Retirement System, it is determined that additional funds are required to finance in full the accrued retirement benefits for present and retired employees of the authority, the authority shall provide funds necessary to fulfill this obligation within a period of time mutually agreeable between the authority and the Board of Trustees of the Maine State Retirement System. Former employees of the authority and those who are not transferred to the Maine Department of Transportation who have not withdrawn their contributions shall be treated in the same manner as if they had been state employees with respect to Maine State Retirement System rights and benefits. Former employees who have withdrawn their contribution may repurchase creditable service time with the authority from the Maine State Retirement System only if said former employees become contributing members on or before January 1, 1986

ARTICLE V

The authority shall transfer its equipment necessary for the operation, maintenance and repair of the transferred approach roads and grade separation structures to the New Hampshire Department of Public Works and Highways and the Maine Department of Transportation by mutual agreement. The Authority shall contract with the states of Maine and New Hampshire for performance of necessary services on the roadway portion of the main river structure.

ARTICLE VI

The respective states and the authority agree to and pledge, each to the other, continued faithful co-operation in both the implementation and execution of the provisions of this compact amendment in addition to the faithful cooperation for the operation, maintenance and repair of the facility in the future.

ARTICLE VII

The provisions of the compact creating the authority shall remain in full force and effect except for those provisions inconsistent with the provisions of this compact amendment.

1. Additional legislation. This act contemplates corresponding and concurrent legislation be enacted by the Legislature of the State of New Hampshire. Thereafter, the respective state enactments contemplate an Act by the United States Congress to ratify the provisions of said state enactments. Only when both congressional ratification occurs and the respective state enactments become effective shall said enactments become binding upon the respective states.

2. Filing of compact. This compact amendment, when signed and sealed by the Governors and Attorneys General of each state and ratified by the United States Congress and shall be filed in the offices of the secretaries of state for each state.

3. Implementation. The states of Maine and New Hampshire shall make every reasonable effort to implement the provisions of this compact amendment as expeditiously as possible, so as to prevent any undue hardship to or burden upon authority employees or the transportation agencies of the respective states. Said states shall endeavor to implement the provisions of said compact amendment within 6 months of the binding date of this amendment.

4. Separability clause. In the event any provision of this compact amendment is rendered invalid for any reason, the remainder of said amendment shall not be affected by such invalidity. This Act shall be liberally construed so as to effectuate the purposes thereof.

COMMITTEE OF CONFERENCE REPORT ON SB 4

The committee of conference to which was referred Senate Bill 4, an Act relative to funding for the department of public works and highways federal aid construction program having considered the same, report the same with the following recommendations:

That the Senate recede from its position of nonconcurrence with the House amendment, and concur with the House amendment, and

That the Senate and House adopt the following new amendment to the bill as amended by the House, and pass the bill as so amended:

Amend the bill by striking out section 6 and inserting in place thereof the following:

6. Compact Amendment. Amend RSA 234 by inserting after section 59 the following new sections:

234:60. Compact Amendment. The governor, with the advice and consent of the council, shall enter into, with the state of Maine, by and through the governor of the state of Maine, an agreement or compact subtantially in the following form:

COMPACT AMENDMENT

Whereas, the states of Maine and New Hampshire, with the express consent of the United States Congress, have entered into a compact creating the Maine-New Hampshire Interstate Bridge Authority, which has resulted in the construction, operation, and maintenance of a bridge across the Piscataqua River between Kittery, Maine, and Portsmouth, New Hampshire, and its approach roads; and

Whereas, the United States Congress expressly reserved the right to alter or amend the provisions of this compact; and

Whereas, the condition of the Maine-New Hampshire Interstate Bridge Authority highway and railroad bridge now serving vehicular and rail traffic over and across the Piscataqua River between the state of New Hampshire and the state of Maine and the approaches to it have been deteriorating at an accelerated rate due to facility age, inflation, and effective declining revenues; and

Whereas, the present financial obligations of Maine-New Hampshire Interstate Bridge Authority for maintenance, operation, and repair of the bridge and its approaches have expanded to the extent that the Authority's financial resources face rapid depletion in the near future; and

Whereas, the states of Maine and New Hampshire do not have the financial resources to undertake the costs for proper maintenance, operations, and repair on the bridge and its approaches without cooperation with the Maine-New Hampshire Interstate Bridge Authority; and

Whereas, the Maine-New Hampshire Interstate Bridge Authority's bridge and road facilities remain critical for national defense and interstate rail and highway transportation and commerce; and

Whereas, the realignment of various responsibilities between the Maine-New Hampshire Interstate Bridge Authority and the states of New Hampshire and Maine will allow the authority to continue to provide adequate highway and rail service for the citizens of both states while providing for the least burdensome financial impact upon the states; and

Whereas, the best remedy for the conditions now existing which would have the least long-term financial impact on the states of New Hampshire and Maine is to transfer some of the responsibility of the Maine-New Hampshire Interstate Bridge Authority to the states; and

Whereas, such a result can best be accomplished through the joint cooperation of the Maine-New Hampshire Interstate Bridge Authority and the states of Maine and New Hampshire to effectuate such a transfer;

Now, therefore, the Maine-New Hampshire Interstate Bridge Authority and states of New Hampshire and Maine do hereby agree and pledge each to the other as follows:

ARTICLE I

In this compact:

I. "Maine river structure" means only that portion of the present Maine-New Hampshire interstate bridge authority facility which spans the Piscataqua river from the New Hampshire bridge abutment to the Maine bridge abutment, inclusive, for a distance of 2,880 feet or 0.5456 mile.

II. "Approach roads" means those roadway portions of the present Maine-New Hampshire interstate bridge authority facility known as the U.S. Route 1 Bypass running from the New Hampshire bridge abutment of the main river structure to the U.S. Route 1 Bypass/U.S. Route 1 junction in Portsmouth, New Hampshire, a distance of approximately 2.79 miles, and running from the Maine bridge abutment of the main river structure to the U.S. Route 1 Bypass/U.S. Route 1 junction of Kittery, Maine, a distance of approximately 1.4 miles.

III. "Grade separation structures" means 10 structures on the present Maine-New Hampshire Interstate Bridge Authority facility which allow the approach roads to pass either over or under predecessor facilities, namely, at Stark Street, U.S. Route 1, Maplewood Avenue, Middle Road, Hodgson Brook, Islington Street, and at the B and M Railroad, all located in Portsmouth, New Hampshire, and at Route 236, Eliot Road, and an abandoned railroad tunnel, located in Kittery, Maine.

IV. "Authority" means the Maine-New Hampshire Interstate Bridge Authority.

V. "Compact" means the compact set forth in Maine Private and Special Laws, Ch. 18, Session of 1937 and New Hampshire RSA 234:43.

ARTICLE II

The authority shall transfer the approach roads to the main river structure, all grade separation structures on the approach roads, and any of its real property incidental to present or future highway use to the respective states of Maine and New Hampshire. The respective state transportation agencies shall thereafter assume the responsibility for the maintenance, operation, and repair of those grade separation structures and that segment of the approach roads which lie within the territorial limits of each state, except as set forth in Article III herein. The Authority shall retain all responsibilities and obligations for the main river structure from the New Hampshire abutment to the Maine abutment, inclusive.

ARTICLE III

The Authority shall be responsible for providing Authority funds to be used in possible combination with federal aid funds through the states of New Hampshire and Maine for capital improvements to the main river structure as well as the transferred approach roads and grade separation structures. The Authority's responsibility for capital improvements on the transferred approach roads and grade separation structures shall be limited to one major capital improvement for each grade separation structure and approach road segment. The specific type of capital improvement and the timing for the performance of each improvement shall be determined by the Authority in conjunction with the joint findings of an annual inspection performed by engineering representatives of each state.

ARTICLE IV

Authority employees and their positions of employment shall be transferred to the Maine department of transportation and the New Hampshire department of public works and highways. In effecting the transfer, the respective state transportation agencies shall endeavor to provide each transferred employee with comparable wages and benefits afforded similarly situated state employees. For retirement benefit purposes, creditable service rendered by the employees shall be the same as if the employment had been rendered as a state employee. If, after review by the board of trustees of the New Hampshire retirement system, it is determined that additional funds are required to finance in full the accrued retirement benefits for present and retired employees of the Authority, the Authority will provide the funds necessary to fulfill this obligation within a period of time mutually agreeable to the Authority and board of trustees of the New Hampshire retirement system.

ARTICLE V

The Interstate Bridge Authority shall transfer its equipment necessary for the operation, maintenance, and repair of the transferred approach roads and grade separation structures to the New Hampshire department of public works and highways and the Maine department of transportation by mutual agreement. The Authority shall contract with the states of Maine and New Hampshire for performance of necessary services on the roadway portion of the main river structure.

ARTICLE VI

The respective states and the Authority agree to and pledge, each to the other, continued faithful cooperation in both the implementation and execution of the provisions of this compact amendment in addition to the faithful cooperation for the operation, maintenance, and repair of the facility in the future.

ARTICLE VII

The provisions of the compact creating the Maine-New Hampshire Interstate Bridge Authority shall remain in full force and effect except for those provisions inconsistent with the provisions of this compact amendment.

234:61. Additional Legislation. The state of New Hampshire contemplates that corresponding and concurrent legislation will be enacted by the legislature of the state of Maine. Thereafter, the respective state enactments contemplate an act by the United States Congress to ratify the provisions of the state enactments. Only when both congressional ratification occurs and the respective state enactments are effective shall the enactments by Maine and New Hampshire become binding upon the respective states.

234:62. Filing of Compact. This compact amendment, when signed and sealed by the governors and attorneys general of each state and ratified by the United States Congress shall be filed in the offices of the secretaries of state for each state.

234:63. Implementation. The states of Maine and New Hampshire shall make every reasonable effort to implement the provisions of this compact amendment as expeditiously as possible, to prevent any undue hardship to or burden upon authority employees or the transportation agencies of the respective states. The states shall endeavor to implement the provisions of this compact amendment within 6 months of the binding date as specified in RSA 234:61.

234:64. Severability Clause. If any provision of this compact amendment is held invalid for any reason, the remainder of the amendment shall not be affected by such invalidity. This compact amendment shall be liberally construed to effectuate its purposes.

234:65. Former Authority Employee Retirement Benefit Obligations. The board of trustees of the New Hampshire Retirement System shall accept as members of the system, pursuant to RSA 100-A:3, all Maine-New Hampshire Interstate Bridge Authority employees who, pursuant to Article IV of this compact amendment, transfer to the department of public works and highways, whether or not the employees are currently members of the New Hampshire retirement system. Acceptance shall be with full credit

for service rendered by the employees while employees of the authority and shall be conditional only upon the payment, within a period of time agreeable to the board of trustees of the New Hampshire retirement system, of any funds required to finance in full the accrued retirement benefits of the employees.

7 Interim Funding. The funding required to effectuate the purposes of the compact amendment, including the funding necessary for the transfer of employees and their positions of employment pursuant to Article IV of the compact amendment and of equipment pursuant to Article V of the compact amendment to the department of public works and highways, in the interim between the binding date of the compact amendment and the effective date of the appropriation to the department of public works and highways for fiscal year 1988, shall be supplied by the highway surplus account, as provided in RSA 228:12.

8 New Members. Amend RSA 100-A:3 by inserting after paragraph VII the following new paragraph:

VIII. The board of trustees of the New Hampshire retirement system shall accept as members of the system all Maine-New Hampshire Interstate Bridge Authority employees, who, pursuant to RSA 234:65, are transferred to the department of public works and highways, whether or not the employees are currently members of the New Hampshire retirement system. Acceptance shall be with full credit for service while employees of the Authority, and shall be conditional only upon the payment, within a period of time agreeable to the board of trustees of the New Hampshire retirement system, of any funds required to finance in full the accrued retirement benefits of the employees.

9 Positions Authorized. The positions of 2 drawbridge operators and 6 gatemen shall be authorized, for the biennium ending June 30, 1987, to be funded from funds available from the highway surplus account under RSA 228:12. The authorization for these positions shall become effective upon the effective date of this act; provided, however, the positions shall be filled only when and as vacancies occur in like positions on the Maine department of transportation Memorial Bridge operation and maintenance crew and after the state of Maine agrees to refund the state of New Hampshire ½ of the total operating cost of department of public works and highways expenditures for the operation and maintenance of the Memorial Bridge. The details shall be incorporated in a formal agreement between the Maine department of transportation and the New Hampshire department of public works and highways.

10 Effective Dates.

I. Sections 1-3 and 10 of this act shall take effect upon its passage.

II. Sections 4 and 5 of this act shall take effect 60 days after its passage.

III. Sections 6-9 of this act shall take effect 60 days after its passage, or upon the effective date of similar legislation in Maine, whichever is later.●

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of committees were submitted:

By Mr. THURMOND, from the Committee on the Judiciary:

Vinton DeVane Lide, of South Carolina, to be United States Attorney for the District of South Carolina for the term of four years.

By Mr. STAFFORD, from the Committee on Environment and Public Works:

William P. Horn, of Virginia, to be Assistant Secretary for Fish and Wildlife, Department of the Interior; and

J. Winston Porter, of Virginia, to be Assistant Administrator, Office of Solid Waste, of the Environmental Protection Agency.

(The above nomination was reported from the Committee on Environment and Public Works with the recommendation that they be confirmed, subject to the nominees' commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.)

By Mr. ROTH, from the Committee on Governmental Affairs:

Patti Birge Tyson, of Texas, to be a Commissioner of the Postal Rate Commission for the term expiring November 22, 1990.

(The above nomination was reported from the Committee on Governmental Affairs with the recommendation that it be confirmed, subject to the nominees' commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.)

Curtis E. vonKann, of the District of Columbia, to be an Associate Judge of the Superior Court of the District of Columbia for a term of fifteen years.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second time by unanimous consent, and referred as indicated:

By Mr. PROXMIRE:

S. 1512. A bill to repeal provisions of law authorizing the provisional listing of color additives; to the Committee on Labor and Human Resources.

By Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. PRYOR, Mr. BOREN, Mr. HARKIN and Mr. MITCHELL):

S. 1513. A bill to amend the Internal Revenue Code of 1954 to allow monthly deposits of payroll taxes for employers with monthly payroll tax payments under $5,000, and for other purposes; to the Committee on Finance.

By Mr. SYMMS, from the Committee on Environment and Public Works:

S. 1514. An original bill to approve the Interstate Cost Estimate and Interstate Substitute Cost Estimate; placed on the calendar.

By Mr. HUMPHREY, from the Committee on Environment and Public Works:

S. 1515. An original bill to authorize a partial transfer of the authority of the Maine-New Hampshire Interstate Bridge Authority to the States of Maine and New Hampshire; placed on the calendar.

By Mr. HEFLIN:

S. 1516. A bill to amend title 11 of the United States Code with respect to proceedings under chapter 11 and chapter 13 therein involving debtors who are family farmers, and for other purposes; to the Committee on the Judiciary.

By Mr. McCLURE:

S. 1517. A bill to amend the Low-Level Radioactive Waste Policy Act of 1980 to authorize continued financial and technical assistance of the Department of Energy to the regional low-level waste compact regions, and to revise the guidelines and procedures for the establishment and use of regional disposal facilities for low-level radioactive waste, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. GLENN (for himself, Mr. DIXON and Mr. QUAYLE):

S. 1518. a bill to provide for cost efficiency in the shipment of the United States Government cargoes, to establish the Great Lakes and Saint Lawrence Seaway Advisory Council, and for other purposes; to the Committee on Governmental Affairs.

By Mr. NICKLES:

S. 1519. A bill to provide a separate appropriation for all Congressional foreign travel, and for other purposes; to the Committee on Rules and Administration.

By Mr. HATCH:

S. 1520. A bill to amend the Federal Food, Drug, and Cosmetic Act and related statutes, and for other purposes; to the Committee on Labor and Human Resources.

S. 1521. A bill to clarify the intent of the Racketeer Influenced and Corrupt Organizations Act with respect to private civil actions; to the Committee on the Judiciary.

By Mr. SIMPSON (for Mr. STEVENS (for himself and Mr. INOUYE)):

S. 1522. A bill to amend section 607 of the Merchant Marine Act, 1936, to ensure consistent use of funds made available for capital construction of vessels, and for other purposes; read the first time.

By Mr. MATHIAS (for himself and Mr. BENTSEN):

S. 1523. A bill to amend title 28 of the United States Code to set up a regime of repose for certain archeological and ethnological material and cultural property; to the Committee on the Judiciary.

By Mr. KENNEDY (for himself, Mr. MATHIAS, Mr. HATFIELD, Mr. KERRY, Mr. MELCHER, and Mr. CRANSTON):

S.J. Res. 179. Joint resolution requesting the President of the United States to resume negotiations with the Soviet Union for a verifiable comprehensive test ban treaty; read the first time.

By Mr. SIMPSON (for Mr. D'AMATO (for himself, Mr. PELL, Mr. BOSCHWITZ, Mr. DECONCINI, Mr. LEAHY, Mr. HEINZ, Mr. HUMPHREY, Mr. LEVIN, and Mr. SPECTER)):

S.J. Res. 180. Joint resolution commemorating the 10th anniversary of the signing of the Helsinki Final Act; considered and passed.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. HATCH, from the Committee on Labor and Human Resources:

S. Res. 205. An original resolution waiving section 402(a) of the Congressional Budget Act of 1974 with respect to the consideration of S. 974; to the Committee on the Budget.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. PROXMIRE:

S. 1512. A bill to repeal provisions of law authorizing the provisional listing of color additives; to the Committee on Labor and Human Resources.

(The remarks of Mr. PROXMIRE on this legislation appear earlier in today's RECORD.)

By Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. PRYOR, Mr. BOREN, Mr. HARKIN, and Mr. MITCHELL):

S. 1513. A bill to amend the Internal Revenue Code of 1954 to allow monthly deposits of payroll taxes for employers with monthly payroll tax payments under $5,000, and for other purposes; to the Committee on Finance.

SMALL BUSINESS TAX SIMPLIFICATION AND TAXPAYER PROTECTION ACT

● Mr. BAUCUS. Mr. President, today, I am introducing legislation for myself and Senators GRASSLEY, PRYOR, BOREN, and HARKIN, to make the Tax Code more responsive to the needs of small businesses.

As we in Congress look for ways to spur economic growth, we must not forget that strengthening small businesses will play a large part in that recovery.

The Nation's economy rests on a solid foundation of small businesses.

As former Montana Senator James Murray said to the New York Times in 1941:

Small business is the biggest business of them all. No one can properly understand America if he underestimates the tremendous importance of the little fellow in our present day economy.

Today, new employment is coming almost exclusively from small business. According to the State of Small Business Report to the President for 1985, firms with fewer than 20 employees accounted for a staggering 233 percent of net jobs created between 1980–82. In other words, small business provided all of the 1-million new jobs generated during the recession years of 1981 and 1982, while large business laid off its workers.

Firms with fewer than 20 workers employ one-fifth on this Nation's work force. Companies employing fewer than 100 workers employ two-fifths.

And yet, small businesses produce half of all major innovations at about 4 percent of what it costs big business and government to produce the remainder.

In Montana, small business is even more important than it is in the Nation in general.

We have only 13 businesses with more than 500 people. But we have over 18,000 businesses employing 50 or less. The small retailer—averaging fewer than 10 employees—is the State's largest employer.

In States like Montana, small business is the only business.

SMALL BUSINESS TAX HEARINGS

Yet the overwhelming evidence is that our tax code does little to encourage small business growth.

I recently conducted hearings in my State to hear what small business people had to say about the Tax Code. Those hearings convinced me that tax reform is needed, but that simplicity, stability, and fairness are critical.

Simplicity is critical, according to one accountant who testified, because the public perception is that a complex Tax Code is an unfair Tax Code.

A former IRS employee stated:

Because of the complexities of the laws and the all-consuming tax shelter audit programs, the agents are getting very frustrated with the system. This certainly makes it difficult for the administrators of our taxing system to function properly.

If an IRS officer in the field lacks understanding and confidence in the system, then the taxpaying public cannot be expected to feel any better about it.

It is absolutely essential that taxpayers be able to see for themselves that it is fair.

Fair is everyone paying his/her share.

In the words of one witness:

This perception of fairness is at the heart of the voluntary compliance system that has worked effectively in this country.

It is a system that has, up to now, had the support and confidence of the country. The former IRS agent himself testified that, "99 percent of the taxpayers whose returns I examined wanted to pay their fair share of the tax bill under the law."

And fairness also means that small business taxpayers are willing to lose cherished deductions as long as other taxpayers also make similar sacrifices.

One young farmer said he would be better off without many of the deductions and shelters in agriculture. He rightly pointed out that many of those incentives have only attracted investors who use the farms as a tax write-off.

Perhaps the most important plea throughout the hearings was for consistency in the Tax Code.

Listen to some of those comments:

Based on an extrapolation of the size of the past three (major tax reform) bills, it would appear that the proposed 1985 tax simplification act will run approximately 1,800 pages in length with the concise explanation running 680 pages. This will probably be followed by the Technical Corrections Act of 1986 and the Tax Reform Act of 1987.

And;

We had the Reduction Act of 1975, Reform Act of 1976, Reduction and Simplification Act of 1977, Economic Recovery Act of 1981, Equity and Fiscal Responsibility Act of 1982, and the Reform Act of 1984. We cannot stand anymore reduction, reform, equity or simplification!

ARE WE LISTENING?

Mr. President, I was most disturbed to find that small business people feel excluded from the decisionmaking process in Washington.

One witness, admonished by a colleague before the hearing, was told:

You're just wasting your time in testifying. Why do you want to participate in this charade? The small businessman will not get a fair shake on the proposed tax revision. These hearings are nothing more than a political platform to further someone's political career.

Another person commented:

(Small business people) feel the so-called poor have the ear of Congress, the elderly have the ear of Congress, big business have the ear of Congress, the big organized unions with their powerful lobbyists have the ear of Congress, yet the small retailer, the small business people feel frustrated and ignored.

TAX REFORM

"Treasury I," the first tax package proposed by the administration last November, shows why those feelings are unwarranted.

The proposal flunked the crucial test of fairness by eliminating graduated corporate tax rates. Under this proposal, for example, the taxes for more than 60 percent of Montana corporations would have doubled.

That is why I and Senator ARMSTRONG, along with our colleagues, Senators BUMPERS, WEICKER, and HEINZ, sponsored Concurrent Resolution 41 expressing the sense of the Senate that corporate tax rates should remain graduated.

I was delighted that the President revised his proposal and restored graduated corporate tax rates under "Treasury II."

But there is a lot more that needs to be done to reform the Tax Code for the benefit or small businesses.

The President wisely made simplicity one of his three major tax reform objectives. The legislation I am introducing today would help simplify the tax system by reducing tax related paperwork and increasing protections against unreasonable IRS conduct.

BAUCUS BILL: THE SMALL BUSINESS TAX SIMPLIFICATION AND TAXPAYER PROTECTION ACT

PAYROLL TAX DEPOSIT DATE RELIEF

The most significant tax for small business is the payroll tax. This tax has been increasing steadily—from about 6 percent of Federal Revenue in 1946 to about 30 percent now—and so has the paperwork associated with it. To reduce this paperwork, section 2 of my bill permits some small businesses to file payroll tax payments less frequently than they otherwise would have to.

Under current law, all employers must withhold Federal FICA and income taxes from employees' paychecks and deposit them with the IRS, according to a schedule established by IRS regulations. Those regulations re-

quire employers whose monthly deposits are more than $500 but less than $3,000 to make their deposits once a month, and employers whose monthly deposits are more than $3,000 to make their deposits eight times a month.

For a small business, the difference between the two schedules is mammoth. The accelerated eight times a month schedule substantially increases paperwork and the likelihood of confusion, mistakes, and unnecessary confrontations with the IRS.

Section 2 would provide relief for these very small businesses. Specifically, it would increase the accelerated payment schedule threshold from $3,000 to $5,000—a level that generally includes businesses employing 20 or fewer employees; thereafter, the threshold would be indexed. That way, section 2 would reduce paperwork burdens and increase cash-flow.

In 1983, Senator ARMSTRONG and I offered an amendment to the Social Security package similar to this provision. The Senate approved it 96 to 0, but it was dropped in conference this time. I hope we can enact it into law.

REGULATORY FLEXIBILITY

Many other paperwork burdens have been imposed on small businesses. Frequently, these burdens arise because regulatory agencies draft their regulations with large businesses in mind and without considering the regulations' potential impact on small businesses that have fewer resources to keep informed about complicated regulations and comply with them.

In 1980, Congress responded to this problem by enacting the Regulatory Flexibility Act, directing Federal regulatory agencies, in the words of the Judiciary Committee's report, to "tailor regulations to the size and resources of those who will be affected by them."

To accomplish this, the RFA requires agencies to prepare a regulatory flexibility analysis that describes the impact proposed regulations will have on small businesses and describes regulatory alternatives that could minimize that impact.

These regulatory flexibility analyses are important tools. However, some agencies take the position that the RFA does not apply to interpretive regulations that are exempt from section 553(b) of the Administrative Procedures Act. As a practical matter, such an exception would amount to a blanket exemption for many important IRS regulations that have a major impact on small businesses.

For example, in late 1984 the IRS issued regulations implementing the automobile recordkeeing requirements of the 1984 tax bill. These regulations required every small business that used an automobile for business purposes to keep a detailed log of all business trips. Obviously, this requirement imposed great burdens on small businesses. Nevertheless, the IRS asserted that:

> The Internal Revenue Service has concluded that the regulations proposed herein are interpretive and that the notice and public procedure requirements of U.S.C. section 553 do not apply. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act.

Whether or not these automobile recordkeeping regulations and other similar IRS regulations technically are interpretive, they have a dramatic practical impact. They are heavily relied upon by IRS agents, courts, tax advisors, and small business operators. In light of this, I believe, as John Motley of the National Federation of Independent Businesses told the Finance Committee a few weeks ago, that:

> As a part of tax reform, the IRS [should] be brought into the mainstream and be required to perform regulatory flexibility analyses on new regulations.

Accordingly, section 3 of the Small Business Tax Simplication Act and Taxpayer Protection Act would apply the RFA to all IRS rules and regulations, including interpretive ones.

ATTORNEYS' FEES

One consequence of the proliferation of Government regulations is more frequent Government litigation against small businesses over the interpretation and application of those regulations. In fact, a few years ago, a survey revealed that 1 out of every 25 small businesses had been subject to Federal fines—many of them quite large—during the preceding 2 years.

During such litigation, small businesses face a significant disadvantage. Challenging a Federal agency can cost a great deal of time and money.

Before 1980, the so-called American rule prevented small businesses and other taxpayers from recovering their litigation costs, even if they prevailed against the Government and the Government's position had been unreasonable.

In 1980, Congress responded to this unfair situation by enacting the Equal Access to Justice Act, which provides that parties prevailing in certain civil litigation against the Government can recover their attorneys' fees and other litigation expenses, unless the Government demonstrates that its position was "substantially justified." Unfortunately, the EAJA did not apply to the Tax Court, were about 80 percent of civil tax litigation occurs.

Even before the EAJA passed, I advocated awarding attorneys' fees in certain Tax Court cases, beginning with the introduction of S. 1444 in 1979. In the 97th Congress, this work finally paid off, when the Tax Equity and Fiscal Responsibility Act added the Baucus-Grassley attorneys' fees provision as Tax Code section 7430. Briefly stated, section 7430 permits a prevailing taxpayer to recover up to $25,000 in attorneys' fees and other litigation expenses from the IRS if he demonstrates that the IRS's position was unreasonable.

Both the EAJA and section 7430 expire at the end of this year. Last week, the Senate approved legislation, S. 1987, reauthorizing the EAJA. Without further action, however, coverage for the tax cases will expire.

Section 4 of the Small Business Tax Simplification and Taxpayer Protection Act would augment our recent action by reauthorizing section 7430 and making it permanent. It would also reform section 7430 in four significant ways.

First, section 4 would change the standard for evaluating the Government's position to conform to the EAJA standard. The EAJA standard is whether the Government's position was "substantially justified"; the section 7430 standard is whether the Government's position was not "reasonable." Some courts have concluded that the section 7430 reasonableness standard is lower—and hence favors the Governme , more—than the EAJA standard.

There is no compelling reason to have two standards, much less to apply a lower standard to the IRS than to other agencies. By conforming the section 7430 standard to the EAJA "substantial justification" standard, we will establish a uniform, consistent rule for all attorneys' fees cases, which should benefit small businesses and simplify this issue considerably.

Second, section 4 would shift the burden of proof from the taxpayer to the Government so that in Tax Court cases—as currently in all cases under the EAJA—the Government would bear the burden of proving that its position had been "substantially justified." This makes sense because it is much easier for the Government to explain its position than for a taxpayer to gather the necessary facts from the Government and try to determine why the Government acted as it did.

Third, section 4 would expand the definition of the "position of the United States" subject to review. Section 7430 currently defines this as the position taken by the IRS "in the civil proceedings" themselves. Usually, this position will be the same as the action that initiated the proceeding—for example, the issuance and administrative litigation of a deficiency notice. But sometimes it will be different, and making an arbitrary distinction between the position taken in the civil proceeding itself and in the prior administrative action will affect the outcome of the attorneys' fees issue. For example, one court has refused to consider awarding attorneys' fees incurred during administrative proceedings because the Government had reversed

its position and consented to a judgment for the taxpayer 1 day before answering the complaint. The court said that "although this court is sympathetic with plaintiff's concern that the Government should be required to set reasonably both the litigation and in its administrative proceedings, to consider the Government's administrative position in determining whether to award fees and costs * * * would be clearly contrary to the specific wording of section 7430." And another court has held that fees could not be awarded because the IRS had consented to judgment for the taxpayer shortly after litigation began, even though "clearly, the position of the IRS in the underlying case was unreasonable."

To eliminate this artificial and unnecessary distinction, section 4 expands section 7430 to permit the court to consider not only the position the Government took in the civil litigation itself, but also the agency action or failure to act which led to the litigation.

Fourth, section 4 removes the $25,000 cap on reimbursable costs but imposes limits on attorneys' hourly fees and experts' fees in conformity with the EAJA system.

Mr. President, these reforms are important to small businesses. They will ease the inappropiate burden imposed by Government convenience, restore their confidence in the Government and the tax system, and allow them to refocus their time and energy on their businesses.

I hope my colleagues will study these measures carefully, discuss them with their small business constituencies, and join us in passing this bill as quickly as possible.●

● Mr. PRYOR. Mr. President, I'm pleased to join my colleague from Montana [Mr. BAUCUS] and others in introducing the Small Business Tax Simplification and Taxpayers Protection Act of 1985. This bill, if enacted, would help the small businesses of this country cope with Government regulation and would ease the paperwork burden many of them face.

Mr. President, we've all heard the horror stores about unreasonable Government regulation and how some innocent businesses have had to spend literally thousands of dollars and hundreds of hours correcting mistakes made by Government agencies, including the Internal Revenue Service [IRS]. This bill offers us a chance to change three provisions of existing law to ensure that small businesses can continue being productive—instead of spending needless hours filling out forms—and if they are subjected to unnecessary and unfounded charges, will have some recourse.

The bill being introduced today has three parts:

First, it will change existing IRS regulations dealing with deposit of payroll taxes. Under present law, businesses with monthly payroll deposits exceeding $3,000 must make payroll deposits eight times a month. If you're under $3,000 you only have to make the deposit once a month. The $3,000 limitation is too low and requires many very small businesses to employ people who spend a great deal of time simply meeting this requirement. In fact, I've heard from small businessmen in Arkansas who have stated that this provision is extremely onerous and should be changed. The bill will increase the $3,000 threshold to $5,000. This change, I might point out, was offered as an amendment by Senators BAUCUS and ARMSTRONG and approved by the Senate unanimously, but was later dropped in conference with the House.

Second, the bill will extend the provisions of the Equal Access to Justice Act of the IRS, and will change the standard for allowing the taxpayer to recover costs and attorney fees when the action of the Government wasn't substantially justified. The Equal Access to Justice Act was passed in order to give private citizens the opportunity to recover attorney's fees when the position of the Government in litigation was later found not to have been substantially justified. This burden was on the Federal agency. Initially, however, this act did not apply to the IRS. Later, in 1982, when it was extended to the IRS, the burden of proof was put on the taxpayer—not the IRS—and the taxpayer has to prove the position of the Government was unreasonable. The bill being introduced today will change the standard and make it conform with that of other agencies. Thus, the IRS will have to prove its position was substantially justified. Further, the bill makes the provision—contained in section 7430 of the Tax Code—a permanent provision. Currently, it is scheduled to expire at the end of this year.

Third, the bill will extend the provisions of the Regulatory Flexibility Act to the IRS. If there is one area where small businesses need the most help it is in complying with the massive amount of paperwork, particularly in the tax area. Recently, at a hearing of the Senate Finance Committee, a representative of the National Federation of Independent Business told us that in his opinion 6 out of every 10 forms filled out by small businesses were tax forms. This is a figure that should be reduced. Extending the provisions of the Regulatory Flexibility Act, which will require the agency to consider the effect of all proposed regulations on small entities should help in reducing both the number of regulations, and the amount of forms these businesses must fill out.

Mr. President, this bill is a step in the right direction toward reducing paperwork and allowing businesses, which create the most jobs and provide the real growth in this economy, to pay more attention to the forces of the marketplace and less attention to the demands of agencies of the Federal Government. There will obviously be other steps we can take, and I look forward to working with my colleagues on them. I commend the efforts of the Senator from Montana. I hope we can have hearings on this measure, and other steps that can be taken to alleviate the paperwork burden on small businesses, and I hope this bill is adopted by the full Senate.●

● Mr. GRASSLEY. Mr. President, last Wednesday the Senate took a major step toward protecting the rights of small businesses and individuals harmed by the arbitrary and unjustified acts of Federal agency bureaucrats.

By a 95-to-2 vote, the Senate passed and sent to the President S. 1487, my bill to permanently reauthorize the Equal Access to Justice Act. As you know, the EAJA allows small businesses and individuals to recover their legal expenses when they prevail in court against the Federal Government and when the Government cannot show its actions to be substantially justified. The EAJA levels the legal playing field for these parties. It allow them to fight back when they've been wronged, without having to go bankrupt in order to win relief.

This is a law that has worked well for 3 years and at minimal cost to the Government. More important, agencies think twice before they act contrary to the clear rights of our citizens. That's the reason why we made the law permanent.

But the job is not through yet. You see, one agency remains beyond the scope of the EAJA's coverage. And that one agency has the capacity to be the most arbitrary in its dealings with private citizens. That one agency is, of course, the Internal Revenue Service. This agency is subject to a much more lenient standard before being required to pay fees to a party that has just beaten the IRS in court. In fact, over the last 3 years, it has been demonstrated in case after case that's it's virtually impossible to win an award against the IRS. We all know that this result is not attributable to the IRS always being reasonable either.

There is no reason to have inconsistency in attorney fees treatment. That's why I'm happy to cosponsor this bill, which reflects much of the language we recently sent to the President on the EAJA.

I'm also happy to support the provision in the bill which makes clear the applicability of the Regulatory Flexibility Act to IRS rulemakings. The RFA ensures that agencies consider and analyze the impact of rules that substantially impact small firms. IRS

rules often have a substantial impact on small business. However, the agency has taken a position that the RFA does not apply to interpretive rulemaking; the bulk of IRS rules are interpretive, in the agency's view. This position means that nearly all tax regulations escape the scrutiny of the standards of the RFA. Section 4 of this bill would conform IRS practice to the spirit, if not the letter, of the RFA. This is an area within the jurisdiction of my Judiciary Subcommittee on Administrative Practice and Procedure, and it is a matter on which I plan continued oversight.

Section 2 of this bill is a provision supported by the NFIB and others. Raising the limit upon which small businesses must withhold taxes, and reducing the frequency of their reporting requirements will help to reduce their paperwork burden, without risking a loss of Federal revenues.●

By Mr. HEFLIN:

S. 1516. A bill to amend title 11 of the United States Code with respect to proceedings under chapter 11 and chapter 13 therein involving debtors who are family farmers, and for other purposes; to the Committee on the Judiciary.

FAMILY FARM CREDIT REHABILITATION ACT

Mr. HEFLIN. Mr. President, I rise today to introduce a legislative remedy for the protection of our family farmers. Similar legislation, H.R. 2211, unanimously passed the House of Representatives on June 24, 1985. Passage of H.R. 2211 was the culmination of hearings, discussions, and a continued study of the farm credit crisis under the leadership of House Judiciary Committee Chairman PETER RODINO and Congressman MIKE SYNAR. This legislation is a concrete and workable solution to the plight of American farmers.

I have long been deeply concerned about the economic conditions affecting Alabama agriculture as well as other food and fiber-producing States scattered across our great land. This vital legislation goes right to the heart of the problem: Helping family farmers keep their most important asset—their land.

The latest USDA data is clear—the number of commercial farms experiencing financial stress has exploded in recent years. In early 1985, one-third of commercial farms were estimated to be in financial trouble. More farmers than ever before are being forced to seek the protection of title 11 of the United States Code.

For example, in my home State of Alabama, farm bankruptcies increased by 57 percent from 1981 to 1983. Farmer's Home Administration data indicates that in 1984, 42 percent of all their loans were delinquent. Faced with the prospect of an upward trend in farm failures, the time to act is now.

Existing Federal law provides two mechanisms for financial rehabilitation and reorganization for individuals and businesses within title 11 of the United States Code. Chapter 11 provides for relief for most businesses and individuals with considerable assets and liabilities. Chapter 13 provides a less complicated procedure, designed to assist wage earners and individuals with significantly less financial responsibility.

Currently, many farmers forced to file for protection under the Federal bankruptcy laws must do so under chapter 11, because the amount of their indebtedness, in most cases, is too high to file under chapter 13 provisions. Currently, to be eligible to file under chapter 13, a debtor must have noncontingent, liquidated, unsecured debts of less than $100,000 and noncontingent liquidated debts of less than $350,000. Many family farmers have debts in excess of this ceiling and cannot utilize chapter 13. Chapter 13 is less expensive, quicker, simpler, and more flexibile in its procedures, affording debtors a greater opportunity to retain their farm land than chapter 11.

My bill allows the family farmer, defined as a person who has more than 80 percent of his debt arising from farming operations, a greater opportunity to file for relief under chapter 13. It raises the debt ceiling for family farmers so that a family farmer can file under chapter 13 if the total of the farmer's secured and unsecured debts is less than $1.5 million.

This legislation affords the family farmer flexibility and increases his chances of retaining his farmland while still making payments to his creditors, and makes several other modifications in current law. Under this bill, the family farmer is given the right to modify secured debt on a principal residence if the residence is used in connection with farming operations. Because many family farmers live on the land they farm, this is often the largest part of their debt. Under current law, farmers cannot modify this secured debt.

Farmers currently have trouble meeting the 30-day deadline for first payments on their debt repayment plan, since farm income is sporadic and tied to seasonal harvests. The presiding judge is provided the flexibility to adjust the 30-day requirement for the debtor's first payment on his plan. The court is also authorized to provide family farmers filing under chapter 13 up to 7 years, increased from the statutory 5 years, to make their complete payments under the plan.

Farmers filing under chapter 11 will also benefit from this bill, as the time period for filing a plan under chapter 11 is extended from 120 days to 240 days. If no plan has been filed after 240 days, creditors can file their own proposed repayment plan. Farmers often have difficulty in meeting this deadline through an inability to determine how successful their next harvest season will be.

The House has taken the initial step toward much-needed relief for American's family farmers. Now is the time to move on necessary amendments to our bankruptcy law. My legislation makes modifications to H.R. 2211, and through the hearing process and further examination, other concerns as to appropriate relief in this area will be advanced.

Mr. President, I urge my colleagues to join me in this effort and support this desperately needed assistance for our family farmers in financial straits. We all hope that conditions will improve and the burden on our farmers will be lifted. However, we cannot ignore the upward statistical trends, and must act now to offer relief to farmers who are struggling to make ends meet. This modest effort will make a difference for family farmers faced with a financial crisis beyond their control and enable them to continue their livelihood—farming—despite adverse financial setbacks.

Mr. President, I ask unanimous consent that the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1516

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "The Family Farm Credit Rehabilitation Act".

DEFINITIONS

SEC. 2. Section 101 of title 11, United States Code, is amended—

(1) in paragaph (17) by inserting "(except when such term appears in the term 'family farmer')" after "means",

(2) by redesignating paragraphs (17) through (49) as paragraphs (18) through (50), respectively, and

(3) by inserting after paragraph (16) the following new paragraph:

"(17) 'family farmer' means a person not less than 80 percent of the aggregate amount of whose debts, at the time the case commences, arises out of a farming operation owned or operated by such person and, if such person is a corporation—

"(A) more than half of the aggregate value of the outstanding equity securities of such corporation are held by one family or by one family and the relatives of the members of such family; and

"(B) if such corporation issues stock, such stock is not publicly traded;

except that such aggregate amount does not include a debt for the principal residence of such person unless such debt arises out of a farming operation;".

WHO MAY BE A DEBTOR

SEC. 3. Section 109(e) of title 11, United States Code, is amended—

(1) by striking out "or an individual" and inserting in lieu thereof "; an individual", and

(2) by inserting before the period to the end thereof "; or a family farmer with regular annual income that owes on the date of the filing of the petition noncontingent, liquidated, secured and unsecured debts of less than $1,500,000".

INVOLUNTARY CASES

SEC. 4. Section 303(a), of title 11, United States Code, is amended by inserting ", family farmer," after "farmer".

FILING OF PLAN

SEC. 5. (a) PERIOD FOR FILING BY DEBTOR.—Section 1121(b) of title 11, United States Code, is amended by inserting before the period at the end thereof "or, in the case of a debtor who is a farmer, until after 240 days after the date of the order for relief under this chapter".

(b) FILING BY ANY PARTY IN INTEREST.—Section 1121(c) of title 11, United States Code, is amended—

(1) in paragraph (2)—

(A) by inserting "(other than a farmer)" after "debtor", and

(B) by inserting before the semicolon at the end thereof the following: "or, in the case of a debtor who is a farmer, before 240 days after the date of the order for relief under this chapter", and

(2) by amending paragraph (3) to read as follows:

"(3) the debtor has not filed a plan that has been accepted—

"(A) in the case of a debtor who is not a farmer, before 180 days; or

"(B) in the case of a debtor who is a farmer, before 300 days;

after the date of the order for relief under this chapter, by each class of claims or interests that is impaired under the plan.".

(c) AUTHORITY TO EXTEND PERIODS.—Section 1121(d) of title 11, United States Code, is amended by striking out "the 120-day period or the 180-day period referred to in" and inserting in lieu thereof "any period referred to in subsection (b) or (c) of ".

COMPENSATION OF TRUSTEE

SEC. 6. (a) AMENDMENT TO TITLE 11 OF THE UNITED STATES CODE.—Section 1302(e)(1)(B) is amended to read as follows:

"(B) a percentage fee not to exceed—

"(i) in the case of a debtor who is not a family farmer, ten percent; or

"(ii) in the case of a debtor who is a family farmer, the sum of—

"(A) not to exceed ten percent of the payments made under the plan of such debtor, with respect to payments in an aggregate amount not to exceed $450,000; and

"(B) three percent of payments made under the plan of such debtor, with respect to payments made after the aggregate amount of payments made under the plan exceeds $450,000;

based on such maximum annual compensation and the actual, necessary expenses incurred by such individual as standing trustee."

(b) AMENDMENT TO TITLE 28 OF THE UNITED STATES CODE.—Section 586(e)(1)(B) of title 28, United States Code, is amended to read as follows:

"(B) a percentage fee not to exceed—

"(i) in the case of a debtor who is not a family farmer, ten percent; or

"(ii) in the case of a debtor who is a family farmer, the sum of—

"(A) not to exceed ten percent of the payments made under the plan of such debtor, with respect to payments in an aggregate amount not to exceed $450,000; and

"(B) three percent of payments made under the plan of such debtor, with respect to payments made after the aggregate amount of payments made under the plan exceeds $450,000;

based on such maximum annual compensation and the actual, necessary expenses incurred by such individual as standing trustee."

CONVERSION

SEC. 7. (a) AMENDMENT TO CHAPTER 11.—Section 1112(c) of title 11, United States Code, is amended by inserting ", family farmer," after "farmer".

"(b) AMENDMENT TO CHAPTER 13.—Section 1307(e) of title 11, United States Code, is amended by inserting "or family farmer" after "farmer".

CONTENTS OF PLAN

SEC. 8. (a) CONTENTS OF PLAN.—Section 1322(b)(2) of title 11, United States Code, is amended by striking out "debtor's principal residence" and inserting in lieu thereof "principal residence of a debtor who is not a family farmer whose principal residence is located on real property used by such family farmer in connection with a farming operation or is located within a reasonable proximity to the farming operation of such family farmer".

"(b) PERIOD FOR PAYMENTS UNDER PLAN.—Section 1322(c) of title 11, United States Code, is amended by inserting before the period at the end thereof the following: "in the case of a debtor who is not a family farmer, or longer than ten years in the case of a debtor who is a family farmer".

PAYMENTS

SEC. 9. Section 1326(a)(1) of title 11, United States Code, is amended by adding at the end thereof the following: "If the debtor is a family farmer who requests, not later than 15 days after the order for relief, that the court hold a hearing to determine whether to order a different time for the commencement of payments proposed by the plan, then the court shall, not later than 30 days after the date of such request, hold a hearing and determine from the facts and circumstances of the debtor and the case a reasonable time after the plan is filed within which the debtor shall commence making the payments proposed by the plan.".

TECHNICAL AMENDMENTS

SEC. 10. (a) The table of chapters for title 11 of the United States Code is amended in the item relating to chapter 13 by inserting "or a Family Farmer" after "Individual".

"(b) The heading for chapter 13 of title 11 of the United States Code is amended by inserting "OR A FAMILY FARMER" after "INDIVIDUAL".

APPLICABILITY OF AMENDMENTS

SEC. 11. The amendments made by this Act shall not apply with respect to cases commenced under title 11 of the United States Code before the date of the enactment of this Act.

By Mr. McCLURE:

S. 1517. A bill to amend the Low-Level Radioactive Waste Policy Act of 1980 to authorize continued financial and technical assistance of the Department of Energy to the regional low-level waste compact regions, and to revise the guidelines and procedures for the establishment and use of regional disposal facilities for low-level radioactive waste, and for other purposes; to the Committee on Energy and Natural Resources.

LOW-LEVEL RADIOACTIVE WASTE POLICY ACT AMENDMENTS

● Mr. McCLURE. Mr. President, today I am introducing legislation that is crucial to the avoidance of a crisis in the future of low-level radioactive waste disposal. This legislation is needed primarily because the January 1, 1986, deadline set in the original Low-Level Radioactive Waste Policy Act of 1980 is nearly upon us, yet we are a long way from ratification of the regional compacts, let alone the establishment of new low-level disposal facilities, which was the purpose of the original bill.

Since the passage of the 1680 act, six regional compacts covering 40 States have been formed and sent to Congress. Yet, no new waste facilities are expected to open before the January 1, 1986, deadline. In fact, it now appears that siting, design, construction, and licensing of these new facilities may require much more time than Congress anticipated in 1980.

Meanwhile, the three States with existing disposal facilities—at Barnwell, SC; Beatty, NV; and Hanford, WA—are growing weary of the burden they have borne for so long.

We cannot let a potential impasse develop between the sited and unsited regions of the country. We need to provide adequate time for environmentally sound development of new sites. Yet, we cannot afford to force utilities, pharmaceutical companies, or hospitals to shut down because of lack of low-level waste storage options. Neither can we rely on the Department of Energy to unfairly bear the burden of providing emergency storage capacity. And we must avoid as much as possible the proliferation of a crop of small, interim storage facilities dotted all over the country that would unnecessarily increase worker exposure, add to consumer costs, and could conceivably reduce the pressure on States to develop permanent disposal sites.

The bill I am introducing today seeks a reasonable balance of these concerns, and provides for an interim period of time during which the regions can proceed toward an ultimate resolution of their disposal problems. The bill would deny out-of-region access to the existing disposal facilities if compact ratification is not achieved by July 1, 1986. The bill would extend, until January 1, 1993, the deadline for regional development of new low-level waste storage facilities, while at the same time, it would restrict the volume of waste going to the three existing disposal facilities. Thus, it would relieve the current disposal facilities of an unfair and open-ended responsibility to accept wastes from outside

their region. More importantly, the bill would extend the authority of the Department of Energy to continue its technical and financial assistance to States for the timely establishment of new disposal sites, and would require the Department to report to Congress on an annual basis the progress toward that end.

Mr. President, this bill is a necessary ingredient of the Nation's formula to provide for regional disposal of low-level radioactive wastes. It is the responsibility of this Congress to provide a reasonable, predictable, and timely mechanism by which the States and the various compact regions can proceed to meet the low-level waste disposal needs of their region. I urge the Congress to give prompt attention to this matter.

Mr. President, I ask unanimous consent that the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1517

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SHORT TITLE

SECTION 1. This Act may be cited as the "Low-Level Radioactive Waste Policy Act Amendments of 1985".

SEC. 2. The Low-Level Radioactive Waste Policy Act (42 U.S.C. 2021b et seq.) is amended by striking out section 4 and inserting in lieu thereof the following:

"SEC. 4. (a) It is the policy of the Federal Government that—

"(1) each State is responsible for providing for the availability of capacity either within or outside the State for the disposal of low-level radioactive waste generated within its borders except for waste generated as a result of defense.

"(2) low-level radioactive waste can be most safely and efficiently managed on a regional basis.

"(b) To carry out the policy set forth in paragraph (a), the States may enter into such compacts as may be necessary to provide for the establishment and operation of regional disposal facilities for low-level radioactive waste.

"(c) A compact entered into under subparagraph (1) shall not take effect until the Congress has by law consented to the compact. Each such compact shall provide that every 5 years after the compact has taken effect the Congress may by law withdraw its consent.

"DEPARTMENT OF ENERGY FINANCIAL AND TECHNICAL ASSISTANCE

"SEC. 5. (a) The Secretary shall, to the extent provided in appropriations Acts, provide to compact regions, States that are members of compacts, and States that are not members of compacts, that are determined by the Secretary to require assistance for purposes of carrying out this Act—

"(1) continuing technical assistance to assist them in fulfilling their responsibilities under this Act. Such technical assistance shall include, but not be limited to, technical guidelines for site selection, alternative technologies for low-level radioactive waste disposal, volume reduction options, management techniques to reduce low-level waste generation, transportation practices for shipment of low-level wastes, and health and safety considerations in the storage, shipment, and disposal of low-level radioactive wastes, and

"(2) at least through the end of fiscal year 1993, financial assistance to assist them in fulfilling their responsibilities under this Act.

"(b) The Secretary shall prepare and submit a report to Congress on an annual basis which (1) summarizes the progress of low-level waste disposal siting and licensing activities within each compact region, (2) reviews the available volume reduction technologies, their applications, effectiveness, and costs on a per unit volume basis, (3) reviews interim storage facility requirements, costs, and usage, (4) summarizes transportation requirements for such wastes on an inter- and intra-regional basis, (5) summarizes the data on the total amount of low-level waste generated on a yearly basis, the proportion of such wastes that underwent volume reduction, the average volume reduction attained, and the proportion of wastes stored on an interim basis, and (6) projects the interim storage and final disposal volume requirements anticipated for the upcoming year, on a regional basis.

"APPLICABILITY TO FEDERAL REGULATIONS

"SEC. 6. Nothing contained in this Act or any compact may be construed to limit the applicability of any Federal law or to diminish or otherwise impair the jurisdiction of any Federal agency, including the regulatory responsibilities of the Nuclear Regulatory Commission and the Department of Transportation.

"LIMITED AVAILABILITY OF REGIONAL DISPOSAL FACILITIES FOR LOW-LEVEL RADIOACTIVE WASTE GENERATED OUTSIDE COMPACT REGION

"SEC. 7. (a) IN GENERAL.—Subject to the limitations in subsection (b), each compact region that has a regional disposal facility in operation before January 1, 1985, shall, before the expiration of the 3-month period following the date of the enactment of the Low-Level Radioactive Waste Policy Amendments of 1985, offer to enter into agreements with any compact region that does not have such a regional disposal facility in operation (and with any State that is not a member of a compact region and does not have a low-level radioactive waste disposal facility in operation) to allocate all available disposal capacity to such compact regions (and States) through January 1, 1993, for the disposal of low-level radioactive waste generated in such compact regions (and States). Each such offer to enter into agreements shall remain available for not less than a 9-month period.

"(b) LIMITATIONS.—The availability of regional disposal facilities under subsection (a) shall be subject to the following limitations:

"(1) The regional disposal facility located at Barnwell, in the State of South Carolina, shall not be required under subsection (a) in any year beginning after December 31, 1985, to dispose of more than 60 percent of the number of cubic feet of low-level radioactive waste received for disposal at such facility from outside the compact region in 1983.

"(2) The regional disposal facility located at Hanford, in the State of Washington, shall not be required under subsection (a) in any year beginning after December 31, 1985, to dispose of more than 60 percent of the number of cubic feet of low-level radioactive waste received for disposal at such facility from outside the compact region in 1983.

"(3) The regional facility located at Beatty, in the State of Nevada, shall not be required under subsection (a) in any year beginning after December 31, 1985, to dispose of more than 150,000 cubic feet of low-level radioactive waste.

"(c) SURCHARGES.—(1) Each agreement entered into under subsection (a) may provide for a surcharge on any low-level radioactive waste disposed of under such agreement that is not in excess of the limits established in subsection (b). Such surcharge shall be in addition to the fees generally applicable for disposal of low-level radioactive waste in the disposal facility involved, and may not exceed $5 per cubic foot of low-level radioactive waste.

"(2) Each agreement entered into under subsection (a) may provide for a surcharge on any low-level radioactive waste disposed of under such agreement that is in excess of the limits established in subsection (b). Such surcharge shall be in addition to the fees generally applicable for disposal of low-level radioactive waste in the disposal facility involved, and may not exceed $10 per cubic foot of low-level radioactive waste.

"(d) NONDISCRIMINATION.—Except as provided in subsections (b) and (c), low-level radioactive waste disposed of under an agreement entered into under section (a) shall be subject without discrimination to all applicable legal requirements of the compact region and State in which the disposal facility is located as if such low-level radioactive waste were generated within such compact region.

"(e) RECIPROCITY.—Each compact region that does not have a regional disposal facility and that enters into an agreement under subsection (a) shall be required to accept wastes from the State with whom such an agreement has been made, the amount of such wastes to be equivalent to the aggregate wastes shipped prior to January 1, 1993, from the nonsited compact region that is in excess of the amounts as defined under subsection (b).

"(f) LIMITATION ON ACCESS TO EXISTING DISPOSAL FACILITIES—If any non-sited compact region or non-member State fails to ratify compact legislation or fails to enact legislation to develop its own disposal facility by July 1, 1986, any low-level radioactive waste generated within such non-sited compact region or non-member State may be denied access to the existing regional disposal facilities.●

By Mr. GLENN (for himself, Mr. DIXON, and Mr. QUAYLE):

S. 1518. A bill to provide for cost efficiency in the shipment of U.S. Government cargoes, to establish the Great Lakes and Saint Lawrence Seaway Advisory Council, and for other purposes; to the Committee on Governmental Affairs.

GREAT LAKES CARGO ENHANCEMENT

Mr. GLENN. Mr. President, for too long, the Great Lakes, this Nation's fourth seacoast, has been functioning at a competitive disadvantage in overseas shipping when compared to the other U.S. coastal ranges. The fourth seacoast is the only seacoast which operates under any form of user fee. The limitations imposed by the locks on the St. Lawrence Seaway have hindered the use of larger, more efficient vessels on the lakes. And some would

even argue that the application of cargo preference laws has adversely impacted the lakes due to the lack of U.S.-flag vessels serving the lakes in overseas trade. These are all serious concerns within the Great Lakes region. There are no simple remedies to these problems, nor is there a unified position for addressing these problems by Great Lakes interests.

Today, I wish to address just one aspect of the lakes' problem. One which is all too familiar to each Great Lakes Senate and congressional office. We all are aware that the Federal Government generates a substantial amount of cargo for overseas trade. Even though a large percentage of this cargo is grown or manufactured in the Great Lakes region, it is often diverted, at greater Government expense, to other coastal ranges for overseas transport.

One very good example of this occurred just this year. The U.S. Department of Agriculture negotiated the sale of surplus butter oil to the Egyptian Government. The Department also intended to transport this cargo by truck or rail to the east of gulf coast to meet an Egyptian vessel.

This would have been fine except for the fact that the cargo had originated near Milwaukee, WI. Milwaukee, by the way, has a fine port and an aggressive port director. Through the work of Senators PROXMIRE and KASTEN, Congressman KLECZKA, and Dan Shaughnessy of the Western Great Lakes Maritime Association, the Department of Agriculture was convinced to move this cargo from the Port of Milwaukee, at a savings to the Federal Government of over $100,000.

To encourage continued savings of this type and ensure competitive equity for the Great Lakes, I am introducing, along with four of my Senate Great Lakes colleagues, Senators DIXON, QUAYLE, LEVIN, PROXMIRE, legislation directing Federal agencies to move Government impelled cargo at the least cost to the U.S. Government.

Before I describe the provisions of this legislation, let me assure my colleagues that this bill is neither an attack upon nor an endorsement of cargo preference. Personally, I support cargo preference because I believe the United States needs to maintain a strong merchant marine fleet for strategic purposes as well as to guarantee that U.S. exports are not held hostage to foreign shippers. However, many of the cosponsors and supporters of this legislation do not share my views. So it should be obvious from the outset that this legislation is not a cargo preference bill.

Let me briefly outline the significant provisions and intentions of this bill. First, it would establish a new principle in shipping Government impelled cargo to be known as least cost to the Federal Government. This principle is based, in part, upon the lowest landed cost principle developed by Senator DIXON in the 98th Congress. I have included the good work done by Senator DIXON, directing agencies to ship cargoes fully paid for by the Government at the lowest landed cost. This legislation also would direct agencies to ship commodities partially paid for or financed by the Federal Government under a least cost principle.

This should ensure that Great Lakes ports have the opportunity to compete in the movement of such cargoes. And, by ensuring the most efficient use of Government funds, this proposal will guarantee that the creative financing programs authorized by Congress will be available to encourage even more U.S. exports.

Another provision included in this legislation would encourage U.S. ship operators to serve the Great Lakes in overseas trade. This legislation requires Federal agencies to solicit bids from U.S. ship operators for the movement of cargoes available at U.S. ports not served or underserved by U.S. ship operators. Currently, only one regularly scheduled U.S.-flag liner company serves the Great Lakes.

Finally, this legislation would establish a Great Lakes Advisory Council to study the shipping problems plaguing the Great Lakes and report to Congress with possible solutions. While other reports have been done on the lakes, I believe the makeup of this body will add extra credibility to the findings. This council would include the Secretaries of Commerce, Transportation, and Agriculture, along with other high level Government officials and individuals representing various Great Lakes interests.

This legislation would not establish set-asides or subsidies for the lakes. It would not give the lakes any special advantage in shipping Government impelled cargoes. It is only intended to guarantee competitive equity for the Great Lakes in moving Government impelled cargoes.

In closing I would like to mention that in developing this legislation I have worked with representatives of the maritime and agricultural industries and have tried to address their concerns. It is endorsed by the International Association of Great Lakes Ports, and the Western Great Lakes Maritime Association. I am sure that upon further review other groups will join the current list and endorse this legislation.

Mr. President, I ask unanimous consent that the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1518

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE I—COST EFFICIENCY IN THE SHIPMENT OF UNITED STATES GOVERNMENT CARGOES

FINDINGS

SEC. 101. The Congress finds that—

(1) it is in the best interests of the United States to maintain a strong merchant marine fleet for the efficient transport of United States Government cargo;

(2) it is in the best interests of the United States to ensure fair and reasonable participation for all four port ranges in the movement of United States Government impelled cargo; and

(3) such cargo should be shipped in the most efficient manner, at the lowest cost to the United States Government, which is not inconsistent with the provisions of section 901(b) of the Merchant Marine Act of 1936 (46 U.S.C. 1241(b)), the joint resolution entitled "Joint Resolution Requiring agricultural or other products to be shipped in vessels of the United States where the Reconstruction Finance Corporation or any other instrumentality of the Government finances the exporting of such products", approved March 26, 1934 (46 U.S.C. 1241-1), section 603 of the Foreign Assistance Act of 1961 (22 U.S.C. 2353), and section 2631 of title 10, United States Code (commonly known as the cargo preference laws).

DEFINITIONS

SEC. 102. For purposes of this title—

(1) the term "least cost to the United States" means the lowest expense to the United States Government determined by calculating the total cost of a commodity and all related transport costs, including but not limited to inland, freight, ocean freight, wharfage, dockage, terminal transfer, stevedoring charges, freight forwarding, customs brokers, and freight differential charges; and

(2) the term "lowest landed cost" means—

(A) in the case of export cargo, all costs associated with the procurement and transportation of cargo from the United States to the port of entry abroad; and

(B) in the case of import cargo, the cost of transporting the cargo from the originating port abroad to the point of final destination in the United States.

SHIPMENT OF UNITED STATES GOVERNMENT CARGO AT LOWEST COST

SEC. 103. (a) Any agency of the United States that ships, generates, finances, or otherwise impels United States Government cargo shall ship such cargo at the lowest cost to the United States. Such cargo shall be shipped at—

(1) the least cost to the United States if such cargo is—

(A) an agricultural commodity that—

(i) the sale and exportation of which is fully paid by the Commodity Credit Corporation; and

(ii) is exported under an agreement with a foreign nation pursuant to title I of the Agricultural Trade Development and assistance Act of 1954;

(B)(i) shipped, generated, financed, or otherwise impelled by the Department of Defense; and

(ii) is not cargo shipped at the lowest landed cost pursuant to paragraph (2)(B);

(C) a commodity shipped pursuant to an agreement financed by the Export-Import Bank of the United States;

(D) a commodity shipped pursuant to chapter 4 of part II of the Foreign Assistance Act of 1961 pursuant to an agreement financed under the Commodity Import Pro-

gram, or any other export generating program administered by the Agency for International Development; or

(E) any other United States Government cargo, except a cargo shipped at the lowest landed cost pursuant to paragraph (2); and

(2) the lowest landed cost to the United States if such cargo is—

(A) an agricultural commodity that—

(i) the sale or donation of which, including freight and associated expenses, is financed by the Commodity Credit Corporation; and

(ii) is exported as assistance or a donation pursuant to title II of the Agricultural Trade Development and Assistance Act of 1954; or (B) shipped, generated, financed, or otherwise impelled by the Department of Defense and such Department pays all expenses associated with such cargo.

(b) Nothing in the provisions of subsection (a) shall be construed to supercede, or applied inconsistently with the provisions of—

(1) section 901(b) of the Merchant Marine Act of 1936 (46 U.S.C. 1241(b));

(2) the joint resolution entitled "Joint Resolution Requiring agricultural or other products to be shipped in vessels of the United States where the Reconstruction Finance Corporation or any other instrumentality of the Government finances the exporting of such products", approved March 26, 1934 (46 U.S.C. 1241-1);

(3) section 2631 of title 10, United States Code; or

(4) section 603 of the Foreign Assistance Act of 1961 (22 U.S.C. 2353).

PROMPT PAYMENT TO UNITED STATES SHIPPING INTEREST FOR THE SHIPMENT OF UNITED STATES GOVERNMENT CARGO

SEC. 104. (a) Any agency of the United States that contracts with a foreign entity for the sale or transfer of United States Government cargo shall include as a term of such contract a provision for—

(1) the prompt payment within thirty days of any cost incurred by a United States shipping interest; and

(2) a late charge or interest penalty based on the principal amount owed, if such prompt payment provision is breached.

(b) If a foreign entity breaches a prompt payment provision of such contract made pursuant to subsection (a)(1), the affected United States shipping interest may petition the Federal agency that negotiated the contract to take action regarding payment. If such foreign entity has not made such payment within thirty days after the filing of the petition, the agency, in cooperation with the affected shipping interest, shall file suit in the appropriate Federal district court for the recovery of such payment and the late charge or interest penalty for late payment.

(c)(1) If the prompt payment provision included as a term of a contract pursuant to subsection (a)(1) provides that a Federal agency shall make such payment to a United States shipping interest and such agency breaches such provision, such shipping interest aggrieved by nonpayment may—

(A) file a petition for such payent and the amount of the late charge or interest penalty included in such contract pursuant to subsection (a)(2); and

(B) after thirty days from the date of filing of a petition under subparagraph (A), file suit in the appropriate Federal district court for recovery of such payment and the late charge or interest penalty.

(2) If the district court determines that the United States agency is liable in any suit filed pursuant to subparagraph (B) of paragraph (1), the court may award to the shipping interest an amount equal to three times the late charge or interest penalty in addition to the principal amount owed and the late charge or interest penalty.

(d) For the purposes of this section the term—

(1) "foreign entity" means any foreign nation, agent of a foreign nation, or foreign person; and

(2) "United States shipping interest" means any person or business concern of the United States involved in the transport of such cargo, including but not limited to port authorities, stevedoring companies, producers and processors, ship owners, and inland freight companies.

EFFICIENT USE OF THE UNITED STATES MERCHANT MARINE FLEET

SEC. 105. (a) Any Federal agency shipping United States Government cargo shall solicit bids from any ship operator for the transport of United States Government cargo over a route which is not serviced by such ship operator if—

(1)(A) there is no ship operator using United States-flag vessels that services such route; or

(B) any ship operator using United States-flag vessels that services such route is unable or unwilling to transport such cargo;

(2) such cargo would be transported in United States-flag vessels; and

(3) the transport of such cargo shall result in the lowest cost to the United States pursuant to section 103.

(b) Notwithstanding any other provision of law, any United States-flag vessel constructed in the United States may transport United States Government cargo on any route if such transport—

(1) is the first voyage of such vessel; and

(2) shall result in the lowest cost to the United States pursuant to section 103.

REPORT TO CONGRESS

SEC. 106. Within twenty-four months after the date of enactment of this Act, the General Accounting Office shall review the compliance of all Federal agencies with the provisions of this title and report the findings and recommendations from such review to Congress.

TITLE II—THE GREAT LAKES AND SAINT LAWRENCE SEAWAY ADVISORY COUNCIL

FINDINGS

SEC. 201. The Congress finds that it is in the long-term economic interests of the Nation to develop a coordinated economic revitalization strategy for shipping activities on the Great Lakes, the connecting channels, and the Saint Lawrence Seaway (commonly known as the fourth seacoast of the United States) in order to increase exports from the Great Lakes region and favorably affect the United States balance of trade.

COUNCIL ESTABLISHED

SEC. 202. (a) There is hereby established a council to be known as the Great Lakes and Saint Lawrence Seaway Advisory Council (hereinafter referred to as the "Council").

(b) The Council shall be composed of twelve members which shall include—

(1) the Secretary of Commerce, or his designee, who shall chair the Council;

(2) the Secretary of Transportation, or his designee;

(3) the Secretary of Agriculture, or his designee;

(4) the Assistant Secretary of the Army for Civil Works;

(5) the Administrator of the Saint Lawrence Seaway Development Corporation or his designee;

(6) the Administrator of the Environmental Protection Agency, or his designee;

(7) the Chairman of the Council of Great Lakes Governors; and

(8) five members of the transportation industry, appointed by the Chairman from nominations by the industry of whom—

(A) two shall represent ports on the Great Lakes, of whom—

(i) one shall represent ports on Lakes Michigan and Superior; and

(ii) one shall represent ports on Lakes Huron, Erie, and Ontario and connecting channels;

(B) one shall represent operators of ocean going United States-flag vessels;

(C) one shall represent operators of ocean going foreign-flag vessels; and

(D) one shall represent maritime unions active on the Great Lakes.

(c) Members of the Council shall serve until the expiration of the Council.

(d) Seven members of the Council shall constitute a quorum but a lesser number may hold hearings.

(e) The Council shall meet at the call of the Chairman or a majority of its members.

FUNCTIONS OF THE COUNCIL

SEC. 203. (a) The Council shall make a complete study of the means to develop and implement a comprehensive economic strategy to improve the capacity of the Great Lakes region to market and transport commodities in a timely manner and to maximize the efficiency and benefits of market products produced in the Great Lakes region and products shipped through the Great Lakes Saint Lawrence Seaway system. The strategy shall include—

(1) methods to improve and promote both bulk and general cargo overseas trade through Great Lakes ports;

(2) methods to accelerate the movement of grains and other agricultural commodities through the Great Lakes;

(3) methods materials, and programs to promote trade from the Great Lakes region and through Great Lakes ports, particularly with European, Mediterranean, African, Caribbean, Central American, and South American nations;

(4) methods to increase the overseas routing of cargoes owned, financed, and sponsored by the Government of the United States through Great Lakes ports; and

(5) methods to encourage United States-flag vessels to engage in international trade from the Great Lakes.

(b) In developing the strategy, the Council shall conduct and consider the results of—

(1) an analysis of the constraints on overseas shipments of agricultural products through the Seaway resulting from marketing problems caused by—

(A) a late harvest season;

(B) the need for additional storage capacity;

(C) the loss of grain shipment from Great Lakes ports due to diversion by rail to Canadian or United States tidewater ports; and

(D) other constraints identified by agricultural interests;

(2) an analysis of—

(A) the types and quantities of export cargoes produced in the Midwest and North Central region that are owned, financed, and sponsored by the Government of the United States;

(B) the constraints on the shipment of such cargoes through the Great Lakes and Saint Lawrence Seaway system; and

(C) administrative and statutory changes that could achieve increased shipments of such cargoes through Great Lakes ports; and

(3) an analysis of—

(A) the effectiveness of ongoing promotional programs by Federal, regional, State, and local agencies directed at attracting shippers to the Great Lakes and Saint Lawrence Seaway system; and

(B) recommendations on types of promotional programs to enhance the image and awareness of the Great Lakes and Saint Lawrence Seaway system by importers and exporters in the United States or overseas.

(c) No later than September 30, 1987, the Council shall transmit to the President and to each House of the Congress a report stating the strategy developed under this section and the results of each analysis conducted under this section. Such report shall contain a detailed statement of the findings and conclusions of the Council together with its recommendations for such legislative and administrative actions as it considers appropriate to carry out such strategy and to assure maximum economic benefits to the Great Lakes region.

(d) The Council shall cease to exist one-hundred and eighty days after submitting its report pursuant to subsection (c).

POWERS AND ADMINISTRATIVE PROVISIONS

SEC. 204. (a) The Council may, for the purpose of carrying out the provisions of this title, hold such hearings, sit and act at such times and places, take such testimony, and receive such evidence, as the Council considers appropriate.

(b) Subject to such rules as may be adopted by the Council, the Chairman, without regard to the provisions of title 5, United States Code, governig appointments in the competitive service, and without regard to the provisions of chapter 51 of subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates, is authorized—

(1) to appoint and fix the compensation of such staff personnel as he deems necessary, including an executive director who may be compensated at a rate not in excess of that provided for level V of the Executive Schedule in title 5, United States Code, and

(2) to procure the services of experts and consultants in accordance with section 3109 of title 5, United States Code.

(c) Each department, agency, and instrumentality of the executive branch of the Federal Government, including independent agencies, is authorized and directed to furnish to the Council, upon request made by the Chairman, such information as the Council deems necessary to carry out its functions.

(d) Upon request of the Council, the head of any Federal agency is authorized to detail, on a reimbursable basis, any of the personnel of such agency to the Council to assist the Council in carrying out its duties.

(e) The Administrator of General Services shall provide to the Council on a reimbursable basis such administrative support services as the Council may request.

(f) The Council may use the United States mail in the same manner and under the same conditions as other departments and agencies of the United States.

(g) Any member or agent of the Council may, if so authorized by the Council, take any action which the Council is authorized to take by this section.

COMPENSATION OF MEMBERS

SEC. 205. Members of the Council shall serve without compensation, but shall be reimbursed for travel or transportation expenses under subchapter I of chapter 57 of title 5, United States Code, while away from home or a regular place of business and engaged in the actual performance of duties vested in the Council.

AUTHORIZATION OF APPROPRIATIONS

SEC. 206. There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this title.

Mr. DIXON. Mr. President, I am pleased to join my colleague, Senator GLENN, in introducing this bill to provide for cost efficiency in the shipment of United States Government cargoes, and to encourage the use of the Great Lakes as an international trade route for these cargoes.

Increasing the volume of government cargo shipments through the Great Lakes has been a major priority of mine since I have been in the Senate. The Great Lakes/St. Lawrence Seaway system is an important and integral part of our national water transportation system. This system affords the significant farming and manufacturing interests in the Midwest access to low-cost water transportation, which, in turn, allows our region to provide low-cost waterborne commodities to world markets. In doing so, the Great Lakes creates thousands of jobs and generates millions of dollars of economic activity in our farm and manufacturing sectors as well as in our maritime industries.

At the same time, the Great Lakes region is underserved by the U.S. merchant marine fleet. Eight years ago, there were 18 U.S. flag shipping lines operating on the Great Lakes. Today, there are only three. This decline has had a devastating impact on our region's ability to attract and to transport government cargoes, even in instances in which those cargoes are manufactured or grown in our region and near our ports. For example, although 38 percent of the Defense Department cargoes are manufactured in the Great Lakes region, less than one-tenth of one percent of those cargoes are presently transported via Great Lakes ports.

This bill goes a long way toward correcting this problem by requiring all Government agencies to ship their goods at the lowest possible cost. This requirement, which was the basis for bills that I introduced in the 97th and the 98th Congresses, will provide the Great Lakes with an opportunity to compete for those cargoes. By forcing the Government to ship at the lowest cost, this bill will place our region on equal footing with other coastal ranges. No longer can cargoes be transported overland out of the Great Lakes to other ports at a higher cost to the Federal Government.

This bill will save the United States Government and the taxpayers a significant amount of money. The Government finances for export a wide range of products through many Federal agencies. According to a recent General Accounting Office study, U.S. flag vessels carried 12.4 million tons of preference cargoes in 1980, which was more than one-third of all U.S. flag cargo shipped between U.S. and foreign ports.

In order to increase the use of Great Lakes ports by these U.S. flag vessels, the bill will solicit bids from any ship operator for Government cargo transport on a trade route that is not being serviced by that operator. This provision will provide the opportunity for U.S. ships to compete for cargoes if they use the Great Lakes.

In addition, this bill does not alter existing Cargo Preference laws that protect our national merchant marine. It is my understanding that the bill has the support of all maritime interests.

Mr. President, this bill will enact into law some very important principles that the Federal Government must follow in its contracting policies if it is to be faithful to the taxpayer and to the businesses of this country. The most important of these is competition—the bill will require agencies to ship at the lowest possible cost, and it will provide access to these cargoes for all interested parties and for all coastal ranges, including the Great Lakes.

I applaud Senator GLENN for his leadership on this issue, and I urge my colleagues to support this bill.

Mr. QUAYLE. Mr. President, I am pleased to join my colleague, Senator GLENN, and seven of my fellow Great Lakes Senators in cosponsoring the Government Cargo Transport bill. This legislation encourages Federal agencies to ship cargoes on the basis of least cost to the Federal Government. Such a goal would encourage greater movement of government generated cargoes through the Great Lakes ports and hopefully, attract more U.S. flagged vessels to engage in international trade from the Great Lakes.

As Chairman of the Senate Armed Service's Subcommittee on Defense Acquisition Policy, I have experienced a firsthand education on the problems of controlling costs in our Federal agencies. As we have witnessed in the Department of Defense, procurement practices exist that do not serve the interests of efficiency or frugality. The U.S. taxpayer rightfully demands that the Federal Government operate as any other business operation. The Government Cargo Transport bill can assure least cost to the taxpayers by encouraging Federal agencies which generate Government cargoes to ship those cargoes at the lowest cost to the Government.

The Government Cargo Transport bill also establishes a prompt payment process for government cargo transactions. Under this provision, the Federal agencies would be required to act as responsible business partners. Agencies would be required to pay for transport of government cargoes within 30 days or face penalty payments.

In addition, it is important to note the interest in this legislation by the Great Lakes States and its ports. I believe it is fair and reasonable to seek equal participation of all four of our Nation's seacoasts for government cargoes. I have worked together with a number of Senators from Great Lakes States to encourage greater movement of government generated cargoes through the Great Lakes ports. This effort has met with some degree of success and I am pleased to acknowledge the presence of a new U.S. flag carrier serving the Lakes. I believe that Great Lakes shipping will continue to prove competitive with the other coasts and can offer the Federal Government efficient and cost-effective service.

I am pleased to cosponsor this bill and I urge prompt consideration of the Government Cargo Transport bill, as we continue to strive for effective management by agencies of the Federal Government.

By Mr. NICKLES:

S. 1519. A bill to provide a separate appropriation for all congressional foreign travel, and for other purposes; to the Committee on Rules and Administration.

CONGRESSIONAL FOREIGN TRAVEL ACCOUNTABILITY ACT

● Mr. NICKLES. Mr. President, it seems appropriate to me as we near the eve of Congress' departure for the August recess, that I reintroduce my bill entitled the Congressional Foreign Travel Accountability Act. The purpose of this bill is to allow the public to scrutinize how their tax dollars are being spent, and who is doing the spending.

Let me be quick to add, Mr. President, that if Congress' travel expenses became public, I believe that in many cases, the public would learn that the tax-dollar-sponsored travels of their elected representatives are legitimate and proper. However, until disclosure is required, sensationalized reports of "junketeering" will continue and will undermine legitimate trips.

Congress funds the activities of all of Government, but it does not directly fund its own travel expenses. Rather, money comes from some seemingly secret State Department accounts, U.S. Embassies around the globe and even the defense budget. My bill would require that Congress appropriate each year the amount of money it will allow for foreign travel. It would eliminate the indirect funding for congressional travel from the State Department, Defense Department, and any other agencies presently underwriting this expense.

Further, in the name of eliminating duplication of efforts, my bill also requires Congress to keep track of what trips its Members take and for what purpose. The report must list the accomplishments of the trip along with itemized expenditures. Most cost-conscious businesses require this type of accounting of their employees; can Congress, in the face of our ever-growing deficit, afford not to?

Mr. President, national cynicism about congressional travel has deteriorated to the point where every trip is labeled a "junket." I first introduced this reform measure in June of last year. Since then, our national debt has increased by a whopping $262 billion. It it wasn't time then, then certainly it must be time now that we in Congress demonstrate our willingness to do our share in reducing wasteful and unnecessary spending.●

By Mr. HATCH:

S. 1520. A bill to amend the Federal Food, Drug, and Cosmetic Act and related statutes, and for other purposes; to the Committee on Labor and Human Resources.

FOOD, DRUG, AND DEVICE AMENDMENTS

Mr. HATCH. Mr. President, today I am introducing the Food, Drug, and Device Amendment of 1985. This bill, drafted by the Department of Health and Human Services and representing administration policy, makes several worthwhile improvements to the Federal Food, Drug, and Cosmetic Act.

First, this bill would amend the medical device provisions of the Federal Food, Drug, and Cosmetic Act (the Act) to make those provisions more sensible and efficient. Under present law, devices in class I are subject only to general controls under the act while the Secretary of Health and Human Services is arguably required to establish performance standards for all devices in class II.

This provision of the medical device law has proven very difficult for the Food and Drug Administration to administer. Since the enactment of the 1977 Medical Device Amendments, the Food and Drug Administration has placed or proposed to place 1,100 different device types in class II. To date, however, none of the corresponding technical performance standards have been published. It has become widely recognized that issuance and enforcement of mandatory standards for each of these 1,100 devices is simply not practicable. As pointed out in a 1983 General Accounting Office report, the system is not working and is not providing any real advantage to the public. GAO confirmed in its 1984 study, Federal Policies and the Medical Device Industry, that: "The fact remains that, as a practical matter, there is little possibility that standards can be formulated for the large number of device types that have been placed in class II."

GAO noted elsewhere that, given rapid development in the technologically advanced medical devices industry, and the cumbersome standards-setting procedure called for in the statute, performance standards would often be obsolete upon final publication, serving little purpose other than to put a damper on further innovation. And based on current experience, for many class II devices the general controls of the act and the adoption of voluntary standards by industry have proved entirely sufficient.

Thus the amendments I am proposing would incorporate the flexibility advocated by the General Accounting Office. They would combine current classes I and II into a new class I, and would clarify that the Secretary is authorized, but not required, to establish a performance standard for any device upon a finding that a standard is necessary to provide reasonable assurance of safety or effectiveness.

This step would fully protect the consumer while removing from FDA the debilitating and pointless burden of promulgating standards for all 1,100 devices.

Further, as I have mentioned, in those cases where a Federal performance standard is desirable, the present cumbersome statutory procedure is extremely time-consuming and wasteful of administrative resources. The procedure requires, at a minimum, six separate publications in the Federal Register to establish a standard for a device, resulting in both governmental waste and unnecessary expense to affected persons participating in this procedure. The amendments I am proposing would streamline the procedure by substituting informal notice-and-comment rulemaking under the Administrative Procedure Act, with a stipulation that the Secretary of Health and Human Services consult with an appropriate advisory committee.

Let me pause for a moment to note that some commentators argue that these amendments could be interpreted as broadening the authority of the Food And Drug Administration to require premarket approval for devices that do not now require such approval. Briefly, the bill deletes language that places in class III those devices which lack certain data and which support or sustain life, or are employed for a use which is substantially important in preventing impairment of human health, or which present a potential unreasonable risk of illness or injury. The mirror-image converse of these criteria is also stated negatively in the current class I definition. Rather than

maintaining this needless duplication of criteria, this bill states simply that class II devices (the new class for which pre-market approval would be required under this proposal) are those that cannot be classified as class I. And the new class I retains the current language excluding, under appropriate conditions, life support/sustaining/impairment/unreasonable risk devices.

I am assured by the Department of Health and Human Services that the intent of this revision is nonsubstantive and reflects no more than an effort to streamline a long and detailed statute.

I concur with the Department that the effect of the amended language should be merely to simplify the statutory scheme, not expand or contract the number of devices requiring premarket approval. It is my belief that the language of the bill accomplishes no more than this. If, however, it becomes apparent on further reflection that a greater measure of specificity would be prudent, I will consider offering an amendment to utilize the present law's criteria when the committee considers the bill.

The bill would also make various other amendments intended to improve the ability of the Department of Health and Human Services to administer the act, and would reduce administrative burdens both for the Department and for regulated firms without compromising the protection of the public health. The bill would enable the Secretary to obtain injunctions against the manufacture and distribution of counterfeit drugs. As we have learned recently, the counterfeiting problem is much larger than previously suspected. FDA needs this basic injunctive tool in order to better protect the public from this pernicious fraud. Further, the bill would repeal the requirement that the Department certify batches of antibiotic drugs upon request by the manufacturer; would repeal reporting requirements concerning electronic product radiation; and it would repeal the obsolete Filled Milk Act.

Mr. President, I ask unanimous consent that the text of the bill and a section-by-section summary be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1520

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SHORT TITLE

SECTION 1. This Act may be cited as the "Food, Drug, and Device Amendments of 1985".

AMENDMENT TO COMBINE CLASSES I AND II MEDICAL DEVICES INTO A SINGLE CLASS I

SEC. 2. (a)(1) Section 513(a)(1)(A)(i) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360c(a)(1)(A)(i)) is amended by inserting "514," after "510".

(2) Section 513(a)(1)(A)(ii) of that Act (21 U.S.C. 360c(a)(1)(A)(ii)) is amended in the matter preceding clause (I) by striking out "or to establish a performance to provide such assurance".

(3) Section 513(a)(1)(B) of that Act (21 U.S.C. 360c(a)(1)(B)) is repealed.

(4) Section 513(a)(1)(C) of that Act (21 U.S.C. 360c(a)(1)(C)) is redesignated as section 513(a)(1)(B), and is amended to read as follows—

"(C) CLASS II, PREMARKET APPROVAL.—A device which cannot be classified as a class I device is to be subject, in accordance with section 515, to premarket approval to provide reasonable assurance of its safety and effectiveness.".

(5) Section 513(c)(2)(A) of that Act (21 U.S.C. 360c(c)(2)(A)) is amended by striking out "section 514" and all that follows and inserting instead "section 514 to a device recommended to be classified in class I or II, or of section 515 to a device recommended to be classified in class II.".

(6) Section 513(c)(2)(C) of that Act (21 U.S.C. 360c(c)(2)(C)) is amended by striking out "class III" each place it occurs and inserting instead "class II".

(7) Section 513(d)(2)(B) of that Act (21 U.S.C. 360c(d)(2)(B)) is amended by striking out "class III" each place it occurs and inserting instead "class II".

(8) Section 513(d)(3) of that Act (21 U.S.C. 360c(d)(3)) is amended by striking out "class II" and inserting instead "class I" and by striking out "class III" and inserting instead "class II".

(9) Section 513(e) of that Act (21 U.S.C. 360c(e)) is amended by striking out "from class III to class II" and inserting instead "from class II to class I".

(1) Section 513(f) of that Act (21 U.S.C. 360c(f)) is amended—

(A) by striking out "class III" each place it occurs and inserting instead "class II";

(B) by striking out "or II" each place it occurs;

(C) in paragraph (2)(A), by striking out "or class II";

(D) in the second sentence of paragraph (C)(i), by striking out "or class II" and by striking out "or (a)(1)(B))".

(11) Section 513(h)(1) of that Act (21 U.S.C. 360c(h)(1)) is amended by inserting "514," after "510,".

(12) Section 513(h)(2) of that Act (21 U.S.C. 360c(h)(2)) is amended to read as follows:

"(2) a reference to "class I" or "class II" is a reference to a class of medical devices described in subparagraph (A) or (B) of subsection (a)(1), and".

(b) Section 510(h) of that Act (21 U.S.C. 360(h)) is amended by striking out "or III".

(c)(1) Section 515 of that Act (21 U.S.C. 360e) is amended by striking out "class III" each place it occurs and inserting instead "class II".

(2) Section 515(c)(1)(D) of that Act (21 U.S.C. 360e(c)(1)(D)) is amended by striking out "class II" and inserting instead "class I".

(d)(1) Section 520(c) of that Act (21 U.S.C. 360j(c)) is amended by striking out "from class III to class II" each place it occurs and inserting instead "from class II to class I".

(2) Section 520(1) of that Act (21 U.S.C. 360j(1) is amended—

(A) by striking out "class III" each place it occurs and inserting instead "class II";

(B) in paragraph (1)(F), by striking out "or II";

(C) in the first sentence of paragraph (2), by striking out "or class II";

(D) in the third sentence of paragraph (2), by striking out "section 513(a)(1)(A)" and all that follows and inserting instead "section 513(a)(1)(A), of the device in class I.";

(E) in paragraph (4), by striking out subparagraph (B) and redesignating subparagraph (C) as subparagraph (B).

(e) All devices classified (or proposed for classification) in class II under section 513 of that Act (21 U.S.C. 360c) on the date of enactment of this Act are deemed to be devices classified (or proposed for classification) in class I; such devices are not subject to the requirements of sections 513(c)(2)(B) and 513(d)(2)(A) of that Act with respect to exemptions from section 510, 519, and 520(f). All devices classified (or proposed for classification) in class III under section 513 of that Act on the date of enactment of this Act are deemed to be devices classified (or proposed for classification) in class II. For purposes of this subsection, the term "classified" includes the term "reclassified", and the term "classification" includes the term "reclassification".

REVISION OF PROCEDURES FOR ESTABLISHING MEDICAL DEVICE PERFORMANCE STANDARDS

SEC. 3. (a)(1) Section 514(a)(1) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360d(a)(1)) is amended by striking out "for a class II device" and all that follows and inserting instead "for a device if the Secretary finds that the other general controls are by themselves insufficient, and that such a standard is necessary to provide reasonable assurance of the safety or effectiveness of the device with respect to one or more aspects of the performance of the device".

(2) Section 514(a)(4) of that Act (21 U.S.C. 360d(a)(4)) is amended—

(A) in subparagraph (B), by inserting ", and consider any relevant standards developed by," before "other Federal agencies",

(B) by striking out "and" at the end of the subparagraph (B),

(C) by redesignating subparagraph (C) as subparagraph (D), and

(D) by inserting after subparagraph (B) the following new subparagraph:

"(C) consider relevant safety and effectiveness data, and relevant voluntary standards developed by private organizations, and".

(3) Section 514(a) of that Act (21 U.S.C. 360d(a)) is further amended by adding at the end the following new paragraphs:

"(5) The Secretary may by regulation amend or revoke any performance standard prescribed under this section.

"(6) In promulgating, amending, or revoking any performance standard prescribed under this section, the Secretary shall consult with the appropriate panel or panels established under section 513.".

(b) Section 514(b) of that Act (21 U.S.C. 360d(b)) is repealed.

(c) Section 514(c) of that Act (21 U.S.C. 360d(c)) is amended—

(1) in the caption, by striking out "Invitation for Standards" and inserting instead "Establishment of Standards";

(2) in paragraph (1), to read as follows:

"(c)(1) A proceeding for the establishment of a performance standard for a device shall be initiated by the Secretary by the publication in the Federal Register of a notice of proposed rulemaking to establish a performance standard for the device. Such notice shall set forth the basis of the findings required under subparagraph (a)(1).";

(3) by repealing paragraphs (2) through (4) and replacing them with the following new paragraphs:

"(2) A notice of proposed rulemaking for the establishment of a performance standard for a device published under paragraph (1) shall set forth proposed findings with respect to the risk of illness or injury designed to be eliminated or reduced by the proposed standard and the benefit to the public from the device.

"(3) After the expiration of the period for comment on a notice of proposed rulemaking published under paragraph (1) respecting a performance standard, and after consideration of such comments and any report from the appropriate panel or panels established under section 513, the Secretary shall publish in the Federal Register (i) a regulation establishing a performance standard, together with findings on the matters referred to in paragraph (2), or (ii) a notice terminating the proceeding for the development of the standard, together with the reasons for such termination.

"(4) Each regulation prescribing, amending, or revoking a standard shall specify the date on which it shall take effect which, in the case of any regulation prescribing or amending any standard, may not be sooner than one year after the date on which such regulation is issued, unless the Secretary determines that an earlier effective date is necessary for the protection of the public health and safety, in which case such earlier date shall apply." Such effective date shall be selected so as to minimize, consistent with the public health and safety, economic loss to, and disruption or dislocation of, domestic and international trade."

(d) Subsections (d) through (g) of section 514 of that Act (21 U.S.C. 360d(d) through (g)), including the captions thereof, are repealed.

(e) Section 517(a)(3) of that Act (21 U.S.C. 360g(a)(3)) is amended by striking out "514(b)(2) or".

(f) Section 517(c) of that Act (21 U.S.C. 360g(c)) is amended in the second sentence by striking out "(2) or".

(g) Section 520(i) of that Act (21 U.S.C. 360j(i)) is amended by striking out "section 514(g)(5)(B) or".

AUTHORITY TO ENJOIN PROHIBITED ACTS INVOLVING COUNTERFEIT DRUGS

SEC. 4. Section 302(a) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 332(a)) is amended by striking out ", (i),".

REPEAL OF REQUIREMENT TO CERTIFY BATCHES OF ANTIBIOTIC DRUGS UPON REQUEST BY MANUFACTURER

SEC. 5. Section 507(c) of the Federal Food, Drug, and Cosmetic Act is amended by striking out the third sentence.

REPEAL OF ELECTRONIC RADIATION REPORT REQUIREMENTS

SEC. 6. (a) Section 357 of the Public Health Service Act (42 U.S.C. 263e) is repealed.

(b) Section 360D of the Public Health Service Act (42 U.S.C. 2631) is repealed.

REPEAL OF THE FILLED MILK ACT

SEC. 7. (a) The Act of March 4, 1923 (42 Stat. 1486), known pursuant to Fifty-seventh Statutes at Large, page 499 (1943) as the Filled Milk Act, is repealed.

(b) Section 902(c) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 392(c)) is amended by striking out "the Filled Milk Act of March 4, 1923 (U.S.C. 1946 ed., title 21, ch. 3, secs. 61-64);".

SECTION-BY-SECTION SUMMARY

SHORT TITLE

Section 1 would provide the short title of the bill. When enacted, it would be cited as the "Food, Drug, and Devices Amendments of 1985".

AMENDMENT TO COMBINE CLASS I AND CLASS II MEDICAL DEVICES INTO A SINGLE CLASS I

Section 2 of the draft bill would combine into a single class I the medical devices currently in class I (for which general controls under the Federal Food, Drug, and Cosmetic Act (FFD&C Act) are sufficient to provide reasonable assurance of safety and effectiveness) and class II (for which performance standards are required). Current class III (devices for which premarket approval is required) would be redesignated class II.

REVISION OF PROCEDURES FOR ESTABLISHING MEDICAL DEVICE PERFORMANCE STANDARDS

Section 3 of the draft bill would authorize the Secretary to establish a performance standard for any medical device, regardless of its classifications, if she finds that such a standard is necessary to provide reasonable assurance of the safety or effectiveness of the device with respect to one or more aspects of the performance of the device. Under present law, the Secretary may establish performance standards only for class II devices.

This section would also repeal the present statutory procedures under the FFD&C Act for developing and establishing performance standards for medical devices, and would substitute a procedure similar to the one presently in use for prescribing performance standards for radiation-emitting electronic products under section 358 of the Public Health Service Act. Under this revised procedure, the Secretary would set standards by informal notice-and-comment rulemaking under the Administrative Procedure Act, in consultation with an appropriate advisory committee.

AUTHORITY TO ENJOIN PROHIBITED ACTS INVOLVING COUNTERFEIT DRUGS

Section 4 of the draft bill would eliminate the provision of the FFD&C Act which bars the Secretary from obtaining injunctions against the manufacture and distribution of counterfeit drugs and the making, selling, or concealing of the equipment used to make counterfeit drugs.

REPEAL OF REQUIREMENT TO CERTIFY BATCHES OF ANTIBIOTIC DRUGS UPON REQUEST BY MANUFACTURER

Section 5 of the draft bill would repeal a provision of the FFD&C Act which requires the Secretary, upon request by a manufacturer, to certify batches of antibiotics for conformity to applicable standards of identify, strength, quality, and purity. This provision, which has never been used, is included under the requirement that the Secretary certify each batch of antibiotics unless she has specifically exempted the antibiotic from this requirement.

Because of improvements in manufacturing, it has been determined that batch certification of antibiotics is no longer necessary to protect the public health, and the Department has, through regulations, exempted all antibiotics from batch certification requirements. (Batch certification could be reinstated temporarily where needed.) The remaining requirement for certification of batches of antibiotics upon demand by manufacturers is not necessary to protect the public health, and would be repealed by this proposed amendment.

REPEAL OF ELECTRONIC RADIATION REPORT REQUIREMENTS

Section 6(a) of the draft bill would repeal the requirement in the Public Health Service Act that the Secretary periodically study and report to the Congress on State and Federal control of health hazards from electronic product radiation, standards for the use of nonmedical electronic products, and procedures for the detection and measurement of electronic product radiation. This information would continue to be supplied to the Congress upon request and, as appropriate, in the FDA annual report.

Subsection (b) would repeal the requirement that the Secretary annually submit to the President for submission to the Congress a report on the administration of the electronic product radiation control program. This information would continue to be supplied to the Congress upon specific request and, as appropriate, in the FDA annual report.

REPEAL OF THE FILLED MILK ACT

Section 7 of the draft bill would repeal the Filled Milk Act. The Act, which bars interstate shipment of milk, cream, or skimmed milk which has any added fat or oil other than milk fat, was declared unconstitutional in 1972 and is not enforced.

By Mr. HATCH:

S. 1521. A bill to clarify the intent of the Racketeer Influenced and Corrupt Organizations Act with respect to private civil actions; to the Committee on the Judiciary.

CIVIL RICO AMENDMENTS ACT

Mr. HATCH. Mr. President, today I am introducing S. 1521, the Civil RICO Amendments Act of 1985.

The Racketeer Influenced and Corrupt Organizations Act (RICO), Public Law 91-452, title IX, 84 Stat. 941, as amended, 18 U.S.C. 1961-68, has, as a result of the Supreme Court's ruling in Sedima versus Imrex Co., Inc., evolved to encompass situations never intended by Congress to be covered by that act. The Court's decision, handed down on July 1, 1985, threatens to further burden the caseload of the Federal judiciary, as well as to distort the integrity and original purpose of RICO.

The civil provisions of the RICO statute, like the rest of RICO, were intended to combat the infiltration of legitimate businesses by organized crime. Unfortunately, civil RICO has been distorted to harm legitimate businesses. It now permits, for example, a customer who elects not to sell a security when the market is declining to sue his broker solely because the broker might have recommended over the telephone that the customer not sell the security.

When RICO was first enacted, the provisions for civil suits within its purveiw were little used. In recent years, however, garden-variety business and contractual disputes have blossomed into extensive Federal litigation under section 1964(C) in increasing numbers. Of 270 district court civil RICO decisions prior to this year, only 3 percent

(nine cases) were decided throughout the 1970's, 2 percent were decided in 1980, 7 percent in 1981, 13 percent in 1982, 33 percent in 1983, and 43 percent in 1984. Report of the ad hoc civil RICO task force of the ABA section of corporation, banking, and business law 53A, 55 (1985) (hereinafter ABA report). As the Sedima Court recognizes, the ABA task force that studied civil RICO found that 40 percent of the reported cases litigated under the civil RICO provisions involved securities fraud, 37 percent involved commonlaw fraud in a commercial and business setting, and only 9 percent of all civil RICO cases have involved allegations of criminal activity normally associated with professional criminals. (ABA report, 55-56). The Racketeer Influenced and Corrupt Organizations Act is instead becoming a "business disputes-litigation act."

There has been an exponential increase in the number of civil suits dealing with situations that Congress never envisaged would be litigated under the authority of RICO. The Court's ruling in Sedima would allow a private RICO action based on nothing more than two allegedly fraudulent mailings or uses of the wires occurring within 10 years of each other. For example, a business which transmits two or more accounting errors through the mails within a 10-year period could conceivably be subject to treble damages in a civil suit. Even the Supreme Court concedes in the majority opinion in Sedima that "in its private civil version, RICO is evolving into something quite different from the original conception of its enactors." (Majority opinion, at 19). Yet the Court goes on to conclude that it is compelled by the statutory language to construe section 1964(C) to encompass small-time fraud and breach of contract cases. An examination of the statute and legislative history indicates that the Court was correct in noting that the abuse of civil RICO provisions is "quite different" from Congress' intent.

CONGRESSIONAL INTENT

RICO was passed as title IX of the Organized Crime Control Act of 1970. Its authors did not want or intend RICO to be used to harass legitimate businesses. It was not to be used for business litigation at all. The statement of findings and purpose of the Organized Crime Control Act of 1970, section 1 of Public Law 91-452, state Congress' intent clearly:

The Congress finds that (1) organized crime in the United States is a highly sophisticated, diversified, and widespread activity that annually drains billions of dollars from America's economy by unlawful conduct and the illegal use of force, fraud, and corruption; (2) organized crime derives a major portion of its power through money obtained from such illegal endeavors as syndicated gambling, loan sharking, the theft and fencing of property, the importation and distribution of narcotics and other dangerous drugs, and other forms of social exploitation; (5) organized crime continues to grow because of defects in the evidence-gathering process of the law, inhibiting the development of the legally admissible evidence necessary to bring criminal and other sanctions or remedies to bear on the unlawful activities of those engaged in organized crime and because the sanctions and remedies available to the Government are unnecessarily limited in scope and impact.

It is the purpose of this act to seek the eradication of organized crime in the United States by strengthening the legal tools in the evidence-gathering process. By establishing new penal prohibitions, and by providing enhanced sanctions and new remedies to deal with the unlawful activities of those engaged in organized crime (Emphasis added).

RICO was enacted as a response to a growing concern on the part of Congress and the public about the ability of organized crime to profit from illegal activity. The avowed purpose of RICO was to decrease the incidence of, and act as a deterrent to, organized crime. Nowhere do these purposes mention private business litigation. The only reason RICO contained civil provisions at all was that some authors were concerned about limited enforcement capability on the part of the Government in the fight against organized crime. Therefore, RICO was written broadly to fill an existing gap in civil remedies and to provide a means of compensation that otherwise did not exist for the honest businessman harmed by the unfair economy pressure of "racketeers."

PRESENT CIVIL RICO PROVISIONS

As I mentioned, the provisions for private civil suit were included in RICO to provide economic victims of organized crime adequate redress for their injuries. Section 1964(C), Title 18, United States Code, grants a private right of action to any person "injured in his business or property by reason of a violation of section 1962." Section 1962, in turn, makes it unlawful to invest funds "derived from a pattern of racketeering activity," or to acquire or operate an interest in a business enterprise through "a pattern of racketeering activity," or to conduct or participate in the conduct of a business "through a pattern of racketeering activity." Section 1961(1) defines "racketeering activity" as any of numerous acts "chargeable" or "indictable" under enumerated State and Federal laws, including State-law murder, arson, and bribery statutes, Federal mail and wire fraud statutes, and the anti-fraud provisions of Federal securities laws. It states that "a pattern" of racketeering activity requires proof of at least two acts of racketeering within 10 years.

Section 1964(C) further states that any person so "injured in his business or property * * * may sue therefor in any appropriate U.S. district court and * * * recover threefold the damages he sustains and the cost of the suit, including a reasonable attorney's fee." This private civil action was linked to "racketeering activity" to enhance enforcement against organized crime, not to create a vehicle for commercial and business litigation. Unfortunately, however, the breadth of the Federal mail and wire fraud statutes made it easy for business litigation to qualify under the technical definition of "racketeering activity." Moreover, the breadth of the definition of "pattern of racketeering activity" made it possible for two technical violations of those broad statutes to give rise to Federal civil litigation under RICO. Another aspect of RICO contributed to this unanticipated civil use of RICO.

EFFECT OF ABSENCE OF SEPARATE RACKETEERING INJURY

By its terms, section 1964(C) grants a cause of action to a person injured "by reason of a violation of section 1962." In Sedima, the Supreme court held that a plaintiff need only allege an injury occuring by reason of a predicate, or racketeering, act—that is, one of the offenses listed in section 1961(1)—in order to get Federal jurisdiction. To the contrary, section 1964(C) does not by its terms provide a remedy on the basis of such easy allegations; it should be read to require a separate injury by reason of section 1962. In other words:

While section 1962 prohibits the involvement of an "enterprise" in "racketeering activity," racketeering itself is not a violation of section 1962. Thus, a construction of RICO permitting recovery for damages arising out of the racketeering acts simply does not comport with the statute as written by Congress. In effect, the broad construction replaces the rule that treble damages can be recovered only when they occur "by reason of a violation of section 1962," with a rule permitting recovery of treble damages whenever there has been a violation of section 1962. Such unwarranted judicial interference with the act's plain meaning cannot be justified. Comment 76 NW.L. Rev. 100, 28 (1981).

The Supreme Court, with its broad interpretation of civil RICO in Sedima, has replaced the requirement that private plaintiffs suing under section 1964(C) be injured by reason of a violation of section 1962 with a requirement that the plaintiff need only to have suffered injury by one of the predicate acts named in section 1961(1). (See also Bridges, private RICO litigation based upon "Fraud in the Sale of Securities," 18 GA.L. Rev. 43, 67 (1983); Blakey, the RICO civil fraud action in context: reflection on Bennett versus Berg, 58 Not. Dam. L. Rev. 237). In other words, a plaintiff should be required to show a "racketeering injury" to the infiltrated or endangered business beyond the harm caused by the predicate crime. The harm caused by the predicate crimes are redressable under State law.

The status clearly contemplates recovery for injury resulting from the confluence of events described in section 1962 and not merely from the commission of a predicate act. The Court's contrary interpretation distorts the statutory language under the guise of adopting a plain meaning definition. Moreover, the Court offers no indication of congressional intent that justifies a deviation from what actually is the plain meaning of the statute. Even conceding that the statutory language might be ambiguous, the scope of the civil RICO provision should not be expanded because an interpretation requiring a racketeering injury separate from the injury from the predicate acts themselves finds strong support in the legislative history.

The committee reports and hearings in no way suggest that Congress considered and rejected a requirement of a separate and distinct racketeering injury. On the contrary, Congress offered considerable indication that the kind of injury it primarily sought to attack and compensate was that for which existing civil and criminal remedies were inadequate or nonexistent. The kind of injury necessary to give rise to a civil RICO suit should thus be different in kind from that resulting from the underlying predicate acts.

The principal target of Congress was the economic power of racketeers and its tool on legitimate businessmen. To this end, Congress sought to fill a gap in the civil and criminal laws and to provide new remedies broader than those already available to private or Government antitrust plaintiffs, different from those available to Government and private citizens under State and Federal laws, and significantly narrower than those adopted by the Court in Sedima.

The Court's expansion of the civil RICO provision has several unintended ramifications. Aside from the obvious flood of cases from private business and commercial litigants, who are attracted to RICO because of treble damages, attorneys' fees, and a guaranteed Federal forum, further burdening the Federal judicial system, there are other, substantial—and negative—impacts resulting from the Court's decision in Sedima.

FEDERALIZATION OF STATE LAW

The Court's interpretation of the civil RICO statute federalizes broad areas of State common law of frauds. It also displaces well-established Federal remedial provisions. Prior to RICO, no Federal statute had expressly provided a private damage remedy based on a violation of the broadly written mail or wire fraud statutes, which make it a Federal crime to use the mail or wires in furtherance of a scheme to defraud. Moreover, courts of appeals consistently had held that no implied Federal private courses of action accrue to victims of these Federal violations. (See, E.G., *Ryan* v. *Ohio Edison Co.*, 611 F.2D 1170, 1178-1179 (CA6 1979) (mail fraud); *Napper* v. *Anderson, Henley, Shields, Bradford & Pritchard*, 500 F.2D 634, 636 (CA5 1974) (wire fraud), cert. denied, 423 U.S. 837 (1975).) The victims were restricted to bringing actions in State court under common-law fraud theories.

Since the Supreme Court's ruling, two fraudulent mailings or uses of the wires occurring within 10 years of each other might lead to civil RICO liability. In recent years, there has been an extraordinary expansion of mail and wire fraud statutes to permit Federal prosecution for conduct that some had thought was subject only to State criminal and civil law. In bringing criminal actions under those statutes, prosecutors need not show either a substantial connection between the Scheme to defraud and the mail and wire fraud statutes, see *Pereira* v. *U.S.*, 347 U.S. 1, 8 (1954), or that the fraud involved money or property.

The only restraining influence on the inexorable expansion of the mail and wire fraud statutes has been the prudent use of prosecutorial discretion. Prosecutors simply do not invoke the mail and wire fraud provisions in every case in which a violation of the relevant statute can be proved. The responsible use of prosecutorial discretion is particularly important with respect to criminal RICO prosecutions, which often rely on mail and wire fraud as predicate acts.

In the context of civil RICO, however, the restraining influence of prosecutors is completely absent. Unlike the Government, private litigants have no reason to avoid displacing State common-law remedies. On the contrary, such litigants, lured by the prospect of treble damages and attorney's fees, have a strong incentive to invoke RICO's provisions whenever they can allege two instances of mail or wire fraud. The defendant, facing financial exposure and the threat of being labeled a racketeer, has a strong incentive to settle the dispute. Many a prudent defendant, facing ruinous exposure, will decide to settle even a case with little merit. It is thus not surprising that civil RICO has been used for extortive purposes, giving rise to the very evils that it was designed to combat. (ABA report, 69). See Rakoff, some personal reflections of the Sedima case and on reforming RICO, in RICO: Civil and Criminal 400 (Law Journal Seminars—Press 1984).

The civil RICO provision consequently stretches the mail and wire fraud statutes to their absolute limits and federalizes important areas of civil litigation that until now were solely within the domain of the States.

DISPLACEMENT OF FEDERAL LAW

In addition to fundamentally altering the Federal-State balance in civil remedies. The broad reading of the civil RICO provision also displaces important areas of Federal law. For example, one predicate offense under RICO is "fraud in the sale of securities." By alleging two instances of such fraud, a plaintiff may bring a case within the scope of the civil RICO provision. It does into take great legal insight to realize that such a plaintiff would pursue the case under RICO rather than do so solely under the Securities Act of 1933 or the Securities Exchange Act of 1934, which provide both express and implied causes of action for violations of the Federal securities laws. The Federal securities laws contemplate only compensatory damages and ordinarily do not authorize recovery of attorney's fees. By invoking RICO, in contrast, a successful plaintiff will recover both treble damages and attorney's fees.

The Court's interpretation of the civil RICO provisions virtually eliminates decades of legislative and judicial development of private civil remedies under the Federal securities laws. Securities law has developed special requirements regarding standing, culpability, causation, reliance, and materiality, as well as definitions of "Securities" and "fraud." See, for example, *Blue Chip Stamps* v. *Manor Drug Stores*, 421 U.S. 723 (1975). All these requirements of securities law have been endangered because plaintiffs can avoid the limitations of securities law merely by alleging violations of other predicate acts. For example, even in cases in which the investment instrument is not a "security" covered by the Federal securities laws, RICO provides a treble damage remedy to a plaintiff who can prove the required pattern of mail or wire fraud. Cf. *Crocker National Bank* v. *Rockwell International Corp.*, 555 F. supp. 47 (ND Cal. 1982). Before RICO, the plaintiff could not have recovered under Federal law for the mail or wire fraud violation.

As discussed earlier, a customer who refrains from selling a security during a period in which its market value is declining could allege that, on two occasions. His broker recommended by telephone, as part of a scheme to defraud, that the customer not sell the security. The customer might thereby prevail under civil RICO even though, as neither a purchaser nor a seller, he would not have had standing to bring an action under the Federal securities laws. The circuit court's decision in Sedima, 741 F.2d 482, also said that two misstatements in a proxy solicitation could subject any director in any national corporation to racketeering charges and the threat of treble damages and attorney's fees.

The effect of civil RICO on Federal remedial schemes is not limited to the

securities laws. For example, even though commodities fraud is not a predicate offense listed in section 1961, the carefully crafted private damage causes of action under the Commodity Exchange Act may be circumvented in a commodities case through civil RICO actions alleging mail or wire fraud. See, for example, *Parnes* v. *Heinold Commodities, Inc.*, 487 F. Supp. 645 (ND Ill. 1980). The list goes on and on.

Nothing in the language or legislative history of RICO suggests that Congress intended either the federalization of State common law or the displacement of existing Federal remedities. Quite to the contrary, all that the statute and the legislative history reveal as to these matters is what Judge Oakes called a clanging silence, 741 F.2d, at 492.

Moreover, if Congress had intended to bring about drastic changes in the nature of commercial litigation, it would at least have paid more than cursory attention to the civil RICO provision. This provision was added in the House of Representatives after the Senate already had passed its version of the RICO bill; the House itself adopted a civil remedy provision almost as an afterthought; and the Senate thereafter accepted the House's version of the bill without even requesting a conference. This is not the way Congress acts when it intends to effect fundamental changes in the structure of the law.

THE CIVIL RICO AMENDMENTS ACT OF 1985

It is to restore the original intent of Congress regarding civil RICO provisions that I am introducing S. 1521, the Civil RICO Admendments Act of 1985. S. 1521 will clarify the scope of the civil remedies available under section 1964(C) and restore desplaced State and Federal law. S. 1521 has three major provisions: First, It requires private plaintiffs suing under the authority of RICO to have suffered an injury separate from the injury of the predicate acts themselves mentioned in section 1961. This amendment requires that any civil plaintiff suing under section 1964 suffer a competitive, investment, or other injury in his business as a result of a violation of section 1962 involving a pattern of racketeering practice. The language of this provision is taken directly from the dissent in Sedima:

> The only way to give effect to Congress' concern is to require that plaintiffs plead and prove that they suffered RICO injury—injury to their competitive, investment, or other business interests resulting from the defendant's conduct of a business, or infiltration of a business or a market, through a pattern of racketeering activity . . . (t)his requirement is manageable, and it puts the statute to the use to which it was addressed. In addition, this requirement is faithful to the language of the statute, which does not appear to provide recovery for injuries incurred by reason if individual predicate acts.

The sentiments of the dissent in Sedima echo the opinion of the Second Circuit Court of Appeals. This idea, then, is based on important case law, and it is by no means an unmanageable standard. It has been defined by the courts which have already required such a "racketeering injury. The treble damages, attorneys' fees, and Federal forum provisions have been retained.

Second, this bill requires that at least one act of racketeering activity required under RICO must be an act of racketeering activity other than first, an act indictable under Section 1341, Title 18, U.S.C. or second, an act indictable under 1343, Title 18, U.S.C. or third, an act which is an offense involving fraud in the sale of securities. This provision serves to limit application of the civil remedy. Since one of the injurious acts must be a predicate offense other than mail, wire, or securities fraud, civil plaintiffs suing under RICO will have to focus on true organized criminal activity. This was the real intent of Congress when it originally included the civil remedy in the RICO Act.

Finally, this bill allows a judge, in his or her discretion, to award attorneys' fees to the defendant if the judge finds the suit which has been brought to be frivolous. This provision is necessary to discourage would-be plaintiffs from litigating their conventional business and commercial injuries under the auspices of civil RICO.

Mr. President, I am pleased to sponsor S. (1521), the Civil RICO Amendments Act of 1985. It will restore the intent of Congress in enacting the Organized Crime Control Act. The civil RICO provisions should be used to combat organized crime, not to harass legitimate business enterprises. I urge my fellow Senators to join me in reinstating the true intent of Congress in regard to the civil RICO provisions.

By Mr. MATHIAS (for himself and Mr. BENTSEN):

S. 1523. A bill to amend title 28 of the United States Code to set up a regime of repose for certain archeological and ethnological material and cultural property; to the Committee on the Judiciary.

CULTURAL PROPERTY REPOSE ACT

● Mr. MATHIAS. Mr. President, today I introduce the Cultural Property Repose Act of 1985 to create a Federal statute of limitations against civil suits by foreign governments seeking the return of art, artifacts, and other cultural property. It establishes a sliding scale of limitations ranging from 2 to 10 years, depending on who holds the object and how it is held. Thus, an institution that openly displayed an object or publicized its acquisition could not be sued after 2 years. A private collector would enjoy protection after 5 years, if for 3 of those years the object was publicly exhibited or its acquisition publicized. A 10-year repose would apply to all others unless the foreign state could prove the holder aware of the object's illegal removal from the country of origin.

I want to make clear that this bill would not shield from suit the purchasers of objects that the buyer knew were stolen or were removed from the country of origin in violation of that country's laws. Instead, the Cultural Property Repose Act reduces some of the uncertainties surrounding ownership of cultural property in this country. Under current law, the various anomolous state statutes of limitation encourage foreign governments to engage in civil litigation. These governments may press suits against owners of items acquired in the distant past and obtained in good faith. The recent suit of the Romanian Government against the Kimbell Art Museum in Fort Worth, TX, to recover an El Greco painting, and the blanket Peruvian claim to all pre-Columbian artifacts, are examples of this practice. Those countries make their claims today despite the fact that their own laws would bar a reciprocal suit by the United States, or indeed any other nation, to recover legitimately held cultural property within their borders.

This bill complements Public Law 97-446, which implemented the 1970 UNESCO Convention on the Means of Prohibiting Illicit Imports, Exports and Transfer of Ownership of Cultural Property. Under this law, foreign governments may request that the United States enter into treaties to restrict the import of designated items, in response to specific problems of pillage. The law provides for seizure and return of the items, subject to a sliding scale of repose ranging from 3 to 20 years. Public Law 97-446 represents 10 years of carefully constructed legislation. It does not apply to items imported into the United States before the date of mutual designation, nor does it apply to undesigned items regardless of date of export. And it applies only to a suit by the United States to enforce import restrictions.

The Cultural Property Repose Act would extend the protection of the law to areas not covered by Public Law 97-446. It applies to all cultural property as defined in the UNESCO convention, regardless of when the objects were acquired, and whatever the form of civil litigation. Moreover, if fulfills the goals established by enacting Public Law 97-446. This bill permits legal trade by protecting the rights of those who legally acquire cultural property. It discourages illegal trade by exempting from repose illicitly obtained items.

I ask unanimous consent that the text of the bill be printed in the RECORD.

S. 1523

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Cultural Property Repose Act of 1985".

SEC. 2. (a) Title 28, United States Code, is amended by adding the following new chapter after chapter 99:

"CHAPTER 101—REPOSE FOR CERTAIN ITEMS OF ARCHEOLOGICAL AND ETHNOLOGICAL MATERIAL AND CULTURAL PROPERTY

"§ 1641. Repose for certain items of archeological and ethnological material and cultural property

"(a) Notwithstanding any other provision of Federal or State law, no foreign state shall, except as provided in subsection (b) of this section, bring an action in any court of the United States or of any State, including the District of Columbia, to recover possession of, or to obtain damages related to, any archeological or ethnological material or any article of cultural property which, before the institution of such action—

"(1) has been held in the United States for five years prior to the date of enactment of this chapter, and no such action shall be maintained if, on the date of enactment of this chapter, the archeological or ethnological material or cultural property, with respect to which such action was instituted, has been held in the United States for five years; or

"(2) has been held in the United States for two years irrespective of the date of enactment of this chapter by a recognized museum or religious or secular monument or similar institution, if, for that period, the institution has exhibited the item or has made knowledge of it available through publication, cataloguing, or otherwise; or

"(3) has been held in the United States for five years irrespective of the date of enactment of this chapter if, for three years of that period, that fact of such holding was public through public exhibition or publication, through consultation by the holder with scholars or experts, through published studies or otherwise; or

"(4) has been held in the United States for ten years irrespective of the date of enactment of this chapter unless the foreign state establishes that the United States holder acquired the item with actual knowledge that it had been removed from the possession of the country of origin in violation of the law of the country of origin, in which event the foreign state shall have two years from the date such state acquired knowledge of the identity of the holder in which to bring such action.

"(b) Notwithstanding any other provision of Federal or State law, no foreign state shall bring an action in any court of the United States or of any State, including the District of Columbia, to recover possession of, or to obtain damages related to, particular archeological or ethnological material or any article of cultural property, which was exported from the country of origin after designation pursuant to section 305 of the Convention on Cultural Property Implementation Act (19 U.S.C. 2602), or after the President has applied import restrictions pursuant to section 304 of such Act, and which, before the institution of such action, qualified for exemption to section 312 of such Act.

"(c) For purposes of this section—

"(1) the term 'any archeological or ethnological material or any article of cultural property' means any article described in Artical 1 (a) through (k) of the Convention on the Means of Prohibiting and Preventing the Illicit Import, Export, and Transfer of Ownership of Cultural Property, adopted by the General Conference of the United Nations Educational, Scientific, and Cultural Organization on November 14, 1970, whether or not any such article has been designated as such by a foreign state for the purposes of such article; and

"(2) the term 'foreign state' means a foreign state (as defined in section 1603 of this title) and includes any assignee or successor in interest of a foreign state with respect to archeological ethnological material or articles of cultural property.".

(b) The Chapter analysis of part IV of title 28, United States Code, is amended by adding at the end thereof the following:

"101. Repose for Certain Items of Archeological and Ethnological Material and Cultural Property

SEC. 3. The amendments made by this Act shall apply with respect to any proceeding which is pending on or after the date of the enactment of this Act.●

● Mr. BENTSEN. Mr. President, I am pleased to join my friend and colleague [Senator MATHIAS] in cosponsoring the Cultural Property Repose Act of 1985. Through a Federal statute of limitations, the act creates a regime of repose against civil claims by foreign governments for cultural property that is legitimately held in the United States.

Foreign governments have threatened, by civil suit, to claim works of art that have been in the United States for many years, owned by both collector and museum alike. Many individuals and institutions have acquired these art works in good faith. An example is the Government of Peru, which is claiming title to all pre-Columbian artifacts from that region by virtue of a 1929 "patrimony" law, no matter how long the artifacts have resided in this country. Such litigation in this country is actually prompted by State statutes of limitations which look to the date of a foreign government's demand for the cultural property to start the limitation period running, rather than the date of the original export from the country of origin, the date of import into the United States, or other relevant date. Thus, foreign nations are proceeding on the theory that they may sue in the United States for the possession of objects that left their country in the distant past, even when their own laws would bar a reciprocal suit by the U.S. Government to recover property held within their borders.

This bill complements the action taken by the 97th Congress when it implemented, in Public Law 97-446, the UNESCO convention on the means of prohibiting and preventing the illicit import, export, and transfer of ownership of cultural property. By carrying forward that law's twin purposes of discouraging illegal trade in cultural property while affording proper protection for the rights long established to items that are held here legitimately.●

ADDITIONAL COSPONSORS

S. 383

At the request of Mr. BUMPERS, the name of the Senator from Arkansas [Mr. PRYOR] was added as a cosponsor of S. 383, a bill to authorize appropriations for a highway demonstrations project in the vicinity of Fort Smith, AR, that would widen a segment of the Federal-aid urban system and would improve signalization on such segment.

S. 384

At the request of Mr. BUMPERS, the name of the Senator from Arkansas [Mr. PRYOR] was added as a cosponsor of S. 384, a bill to authorize appropriations for a highway demonstration project on U.S. Highway 71 between Alma, AR, and Bella Vista, AR, that would increase the number of lanes on this segment of the route from two to four.

S. 415

At the request of Mr. WEICKER, the name of the Senator from Kansas [Mr. DOLE] was added as a cosponsor of S. 415, a bill to amend the Education of the Handicapped Act to authorize the award of reasonable attorneys' fees to certain prevailing parties, and to clarify the effect of the Education of the Handicapped Act on rights, procedures, and remedies under other laws relating to the prohibition of discrimination.

S. 434

At the request of Mr. D'AMATO, the name of the Senator from Alaska [Mr. MURKOWSKI] was added as a cosponsor of S. 434, a bill to extend the authorization of the Robert A. Taft Institute Assistance Act.

S. 797

At the request of Mr. HATCH, the names of the Senator from Idaho [Mr. SYMMS], the Senator from Kentucky [Mr. MCCONNELL], and the Senator from Alaska [Mr. MURKOWSKI] were added as cosponsors of S. 797, a bill to authorize an employer to pay a youth employment opportunity wage to a person under 20 years of age from May through September under the Fair Labor Standards Act of 1938 which shall terminate on September 30, 1987, and for other purposes.

S. 841

At the request of Mr. BUMPERS, the name of the Senator from Arkansas [Mr. PRYOR] was added as a cosponsor of S. 841, a bill to amend section 144 of title 23, United States Code, to give States the discretion of using a portion of their bridge replacement funds to replace certain bridges of ferryboat operations.

S. 865

At the request of Mr. MATHIAS, the name of the Senator from Iowa [Mr. HARKIN] was added as a cosponsor of S. 865, a bill to award special congressional gold medals to Jan Scruggs, Robert Doubek, and Jack Wheeler.

S. 974

At the request of Mr. WEICKER, the name of the Senator from Utah [Mr. HATCH] was added as a cosponsor of S. 974, a bill to provide for protection and advocacy for mentally ill persons.

S. 987

At the request of Mr. EXON, the names of the Senator from Ohio [Mr. GLENN], the Senator from Wisconsin [Mr. PROXMIRE], and the Senator from Alabama [Mr. HEFLIN] were added as cosponsors of S. 987, a bill to recognize the organization as the Daughters of Union Veterans of the Civil War 1861-65.

S. 1084

At the request of Mr. GOLDWATER, the names of the Senator from Utah [Mr. GARN] and the Senator from Indiana [Mr. QUAYLE] were added as cosponsors of S. 1084, a bill to authorize appropriations of funds for activities of the Corporation for Public Broadcasting, and for other purposes.

S. 1233

At the request of Mr. D'AMATO, his name was added as a cosponsor of S. 1233, a bill to amend the Animal Welfare Act to ensure the proper treatment of laboratory animals.

S. 1292

At the request of Mr. BAUCUS, the name of the Senator from Montana [Mr. MELCHER] was added as a cosponsor of S. 1292, a bill to amend title VII of the Tariff Act of 1930 in order to apply countervailing duties with respect to resource input subsidies.

S. 1298

At the request of Mr. ANDREWS, the name of the Senator from New Jersey [Mr. BRADLEY] was added as a cosponsor of S. 1298, a bill to coordinate and expand services for the prevention, identification, and treatment of alcohol and drug abuse among Indian youth, and for other purposes.

S. 1301

At the request of Mr. GRAMM, the names of the Senator from Nevada [Mr. HECHT], the Senator from South Dakota [Mr. PRESSLER], and the Senator from Idaho [Mr. SYMMS] were added as cosponsors of S. 1301, a bill to strengthen the counterintelligence capabilities of the Department of Defense, to amend the Uniform Code of Military Justice to establish penalties for espionage in peacetime, to provide increased penalties for espionage, and for other purposes.

S. 1406

At the request of Mr. DECONCINI, the name of the Senator from Utah [Mr. HATCH] was added as a cosponsor of S. 1406, a bill to make permanent the formula for determining fees for the grazing of livestock on public rangelands.

S. 1418

At the request of Mr. HELMS, the name of the Senator from Nevada [Mr. HECHT] was added as a cosponsor of S. 1418, a bill to amend the Agricultural Adjustment Act of 1938 and the Agricultural Act of 1949 to improve the Tobacco Program, and for other purposes.

S. 1454

At the request of Mr. TRIBLE, the name of the Senator from Virginia [Mr. WARNER] was added as a cosponsor of S. 1454, a bill to amend title 5, United States Code, to expand the class of individuals eligible to receive a rebate or other return of contributions when amounts held in contingency reserve under the Federal Employees Health Benefits Program exceed certain levels.

S. 1506

At the request of Mr. NUNN, the name of the Senator from Massachusetts [Mr. KENNEDY] was added as a cosponsor of S. 1506, a bill to amend the act establishing the Martin Luther King, Jr. National Historic Site.

SENATE JOINT RESOLUTION 156

At the request of Mr. MURKOWSKI, the name of the Senator from Georgia [Mr. MATTINGLY] was added as a cosponsor of Senate Joint Resolution 156, a joint resolution authorizing a memorial to be erected in the District of Columbia or its environs.

SENATE JOINT RESOLUTION 166

At the request of Mr. MOYNIHAN, the names of the Senator from Ohio [Mr. GLENN], the Senator from Missouri [Mr. EAGLETON], and the Senator from South Carolina [Mr. HOLLINGS] were added as cosponsors of Senate Joint Resolution 166, a joint resolution to appeal for the release of Dr. Yury Orlov and other Helsinki Final Act monitors.

At the request of Mr. DURENBERGER, the name of the Senator from Illinois [Mr. SIMON] was added as a cosponsor of Senate Joint Resolution 166, supra.

SENATE JOINT RESOLUTION 168

At the request of Mr. TRIBLE, the name of the Senator from Maryland [Mr. MATHIAS] was added as a cosponsor of Senate Joint Resolution 168, a joint resolution designating August 13, 1985, as "National Neighborhood Crime Watch Day."

SENATE CONCURRENT RESOLUTION 49

At the request of Mr. GLENN, the names of the Senator from Michigan [Mr. LEVIN], and the Senator from Indiana [Mr. LUGAR] were added as cosponsors of Senate Concurrent Resolution 49, a concurrent resolution expressing congressional approval of the plans being made to commemorate the 200th anniversary of the Northwest Ordinance, and calling for a national celebration of such anniversary.

SENATE RESOLUTION 205—ORIGINAL RESOLUTION REPORTED WAIVING CONGRESSIONAL BUDGET ACT

Mr. HATCH, from the Committee on Labor and Human Resources, reported the following original resolution; which was referred to the Committee on the Budget:

S. RES. 205

Resolved, That pursuant to section 402(c) of the Congressional Budget Act of 1974, the provisions of section 482(a) of such Act are waived with respect to the consideration of S. 974, a bill to provide for protection and advocacy for mentally ill persons. Such waiver is necessary to permit the authorization of funds for allotments for the purpose of establishing systems for the protection and advocacy of the established rights of mentally ill persons.

AMENDMENTS SUBMITTED

REPEAL OF COMMERCIAL AND APARTMENT CONSERVATION SERVICE

JOHNSTON (AND OTHERS) AMENDMENT NO. 548

Mr. JOHNSTON (for himself, Mr. EVANS, Mr. GRASSLEY and Mr. MCCLURE) proposed an amendment to the bill (S. 410) to repeal the Commercial and Apartment Conservation Service, and for other purposes; as follows:

At the end of the bill add a new section 5 as follows:

SEC. 5. (a) Part 1 of title II of the National Energy Conservation Policy Act (42 U.S.C. 8211 et seq.) is amended by adding at the end thereof the following:

"SEC. 226. WAIVER FOR REGULATED AND NONREGULATED UTILITIES.

"(a) WAIVER.—Any utility subject to this part may, upon request, receive a waiver from the Secretary from any provision of this part or from any provision of a State residential energy conservation plan under this part if the utility shows in appropriate State proceedings and the appropriate State officials find that—

"(1) the existing and planned residential energy conservation programs that will be implemented by the utility if a waiver from such provision is approved will result in savings in petroleum, natural gas or electric energy consumed in residential buildings served by the utility that are equal to or greater than the savings that would be achieved if the utility were subject to the provision; and

"(2) adequate procedures are in effect that prevent unfair, deceptive or anticompetitive acts or practices affecting commerce that relate to the implementation of such residential energy conservation programs, including provisions to assure that any person who alleges any injury resulting from unfair, deceptive or anticompetitive acts or practices in connection with such programs shall be entitled to redress under

such procedures as may be established by the Governor in the State in which the utility provides utility service.

"(b) DEFINITION.—For purpose of this section the term "residential energy conservation program" means any program carried out by a utility that has as its purpose.

"(1) increasing the efficiency with which petroleum, natural gas or electric energy is consumed in residential buildings served by such utility; or

"(2) utilizing solar or other forms of renewable energy in residential buildings served by such utility.

"(c) APPROVAL.—The Secretary shall approve a request of a utility for a waiver under subsection (a) if the Secretary determines that—

"(1) opportunity for a hearing on the request for a waiver has been provided in the State in which the utility provides utility service; and

"(2) in the case of a regulated utility, the Governor of the State in which the utility provides utility service and the State regulatory authority that has ratemaking authority with respect to such utility both

"(A) find that the showing under subsection (a) (1) and (2) are sufficient; and

"(B) support the request by the utility for the waiver; or

"(3) in the case of a nonregulated utility subject to a State residential energy conservation plan under section 212(c)(2), the Governor of the State in which the utility provides utility service—

"(A) finds that the showings under subsections (a) (1) and (2) are sufficient; and

"(B) supports the request by the utility for the waiver.

"(d) ANNUAL REVIEW AND REVOCATION OF WAIVER.—(1) The provisions of this subsection do not apply to a nonregulated utility unless such utility is subject to a State residential energy conservation plan under section 212(c)(2).

"(2) Any utility that receives a waiver under this section shall provide the Governor of the State in which that utility provides utility service with an annual report describing the performance of its residential energy conservation programs in relation to the showings of such utility under subsections (a) (1) and (2)

"(3) The Secretary shall revoke any waiver received by a utility under this section upon a request under this subsection by the Governor of the State in which the utility provides utility service. Such a request shall be made upon a finding—

"(A) in the case of a regulated utility, by such Governor with the concurrence of the State regulatory authority that has ratemaking authority with respect to such utility; or

"(B) in the case of a nonregulated utility subject to a State Residential energy conservation plan under section 212(c)(2), by such Governor,

that the savings described in subsection (a)(1) on an annual basis are less than the savings in the year prior to the approval of the waiver or that the procedures referred to in subsection (a)(2) are no longer adequate.

"(4) A request under paragraph (3) with respect to any utility may be submitted to the Secretary by a Governor only after review and opportunity for a hearing on the performance of the residential energy conservation programs of such utility. In order to facilitate such review and hearing, the utility shall provide to the Governor such information as the Governor requests about such residential energy conservation programs."

(b) The table of contents for the National Energy Conservation Policy Act is amended by adding at the end of the table of contents for part 1 of title II the following:

"Sec. 226. Waiver for regulated and nonregulated utilities."

NICKLES AMENDMENT NO. 549

Mr. NICKLES proposed an amendment to the bill S. 410, supra; as follows:

Strike from "The report" on page 2, line 19 through "Conservation Service." on page 4, line 9 and insert in lieu thereof:

" 'The Secretary of Energy shall conduct a survey in consultation with the Comptroller General to collect the information the Comptroller General determines is necessary for the preparation of such report. The report shall examine and assess, for the programs under this part:

(1) the potential for achievable energy savings through implementation of residential energy conservation measures in residential dwellings in the United States and the importance of the Residential Conservation Service in achieving these savings;

(2) Residential Conservation Service program costs from a representative sample of states, taking into account costs to the taxpayer and ratepayers of affected utilities;

(3) Residential Conservation Service program benefits from a representative sample of states, taking into account the value of energy conservation and the value of deferral of investment in new capacity to provide energy;

(4) efforts of utilities to encourage the implementation of residential energy efficiency measures by their customers and the relationship between these efforts and the observed response rate under Residential Conservation Service Programs;

(5) measured energy savings achieved in residential dwellings in which measures are installed under such programs;

(6) to the extent to which utilities have adopted programs voluntarily or under State law that offer more promise in encouraging energy efficiency than has been the case under the Residential Conservation Service;

(7) to the extent to which modifications in the regulations implementing the Residential Conservation Service could improve the cost effectiveness of the program;

(8) legislative changes that are necessary to improve the cost effectiveness of the program;

(9) the extent of unfair, deceptive or anticompetitive acts or practices affecting commerce that relate to the implementation of such residential energy conservation programs, and the adequacy of procedures which are in effect to prevent such unfair, deceptive or anticompetitive acts or practices; and

(10) such other matters as seem appropriate in order to assist Congress in deciding the future of the Residential Conservation Service.' ".

LEVIN AMENDMENT NO. 550

Mr. NICKLES (for Mr. LEVIN) proposed an amendment to the bill S. 410, supra; as follows:

On page 2, after line 7, add the following new subsection:

(c) Notwithstanding subsection (a) any state energy conservation plan for commercial buildings and multifamily dwellings approved under Section 721 of the National Energy Conservation Policy Act prior to August 1, 1984, may with respect to regulated utilities, continue in effect until one year after the date of enactment of this Section if such plan meets the requirements of Section 722 of such Act as in effect on August 1, 1984.

SPECTER AMENDMENT NO. 551

Mr. NICKLES (for Mr. SPECTER) proposed an amendment to the bill S. 410, supra; as follows:

At the end of the bill, add a new section 6 as follows:

"SEC. 6. Subsection 220(b) of Title II of the National Energy Conservation Policy Act (42 U.S.C. 8211 et seq.) is amended by inserting after 'Acts.—', '(1)', and by inserting after the words 'acts or practices.', the following new paragraph:

'(2) Nothing in this Part shall be construed to—

'(A) bar any person from taking an action with respect to any anticompetitive act or practice related to activities conducted under any program established under this Part, including activities conducted under subsections 216(b), (d), or (e); or

'(B) convey to any person immunity from civil or criminal liability, create defenses to actions under antitrust laws, or modify or abridge any private right of action under such laws."

EVANS (AND OTHERS) AMENDMENT NO. 552

Mr. EVANS (for himself, Mr. DANFORTH, Mr. HARKIN, Mr. BENTSEN, Mr. KENNEDY, Mr. CRANSTON, Mr. BOSCHWITZ, Mr. GORTON, Mr. KERRY, Mr. PELL, Mr. PROXMIRE, Mr. WEICKER, Mr. EAGLETON, Mr. HEINZ, Mr. COHEN, Mr. INOUYE, Mr. MATSUNAGA, Mr. LAUTENBERG, Mr. BAUCUS, Mr. HOLLINGS, and Mr. BIDEN) proposed an amendment to the bill S. 410, supra; as follows:

(a) Since,

(1) This Nation should pursue an energy policy that encourages energy efficiency and reduces our vulnerability to interruptions of foreign supplies;

(2) Corporate average fuel economy (CAFE) standards, in addition to price-induced conservation, have been responsible for the near doubling since 1975 of the average fuel economy of new cars sold in the United States;

(3) Previous Government estimates of United States domestic oil and gas reserves, especially offshore supplies, recently have been revised significantly downward;

(4) General Motors, Ford, and a number of Japanese and European automobile manufacturers have petitioned the Administrator of the National Highway Traffic Safety Administration (NHTSA) to roll back the CAFE standard beginning with the 1986 model year; and

(5) The Administrator has issued a notice of proposed rulemaking to reduce the current standard from 27.5 mpg to 26 mpg.

(b) It is the sense of the Senate that the Administrator of the National Highway Traffic Safety Administration (NHTSA) should retain the CAFE (corporate average fuel economy) standard for passenger automobiles specified in current law.

HELMS (AND OTHERS) AMENDMENT NO. 553

Mr. HELMS (for himself, Mr. ABDNOR, Mr. GOLDWATER, Mr. NICKLES, Mr. MATTINGLY, Mr. BOSCHWITZ, Mr. FORD, and Mr. EXON) proposed an amendment to the bill S. 410, supra; as follows:

At an appropriate place, insert the following new section:

SEC. . It is the sense of the Senate that the Congress should not adjourn in August of 1985 until the Congress has agreed to a conference report on S. Con. Res. 32 and until the Senate has undertaken consideration of the farm bill, S. 616.

KENNEDY (AND MATHIAS) AMENDMENT NO. 554 AND 555

Mr. KENNEDY (for himself and Mr. MATHIAS) proposed an amendment to the bill S. 410, supra; as follows:

AMENDMENT No. 554

At the appropriate place add the following new section:

SEC.

"Whereas August 6 marks the 40th anniversary of the detonation of the nuclear bomb at Hiroshima, and whereas the Soviet Union has announced its intention to begin a moratorium on nuclear testing on August 6, and whereas the United States has invited the Soviet Union to send its experts to monitor a U.S. nuclear test, therefore

"It is the sense of the Senate that,

At the earliest possible date, the President of the United States should propose to the Soviet Union the immediate resumption of negotiations toward conclusion of a verifiable comprehensive test ban treaty."

KENNEDY (AND OTHERS) AMENDMENT NO. 555

Mr. KENNEDY (for himself. Mr. MATHIAS, Mr. HATFIELD, Mr. KERRY, mr. MELCHER, and Mr. CRANSTON) proposed an amendment to the bill S. 410, supra; as follows:

AMENDMENT No. 555

At the appropriate place add the following new section:

SEC.

"It is the sense of the Senate that,

At the earliest possible date, the President of the United States should propose to the Soviet Union the immediate resumption of negotiations toward conclusion of a verifiable comprehensive test ban treaty."

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS

Mr. MATTINGLY. Mr. President, I ask unanimous consent that the Committee on Environment and Public Works be authorized to meet during the session of the Senate on Monday, July 29, at 2 p.m., to consider the nominations of William Horn, to be Assistant Secretary of Interior; and Winston Porter, to be Assistant Administrator of EPA.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON THE JUDICIARY

Mr. MATTINGLY. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate on Monday, July 29, 1985, in order to receive testimony concerning S. 1300, individual treble damage liability.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON HEALTH

Mr. MATTINGLY. Mr. President, I ask unanimous consent that the Subcommittee on Health, of the Committee on Finance, be authorized to meet during the session of the Senate on Monday, July 29, at 1:30 p.m., to hold a hearing on adjustment factors for disproportionate share hospitals.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADDITIONAL STATEMENTS

CONGRESSIONAL CALL TO CONSCIENCE FOR SOVIET JEWRY

● Mr. HUMPHREY. Mr. President, I am pleased to join in the Congressional Call to Conscience for Soviet Jewry. This week marks the 10th Anniversary of the signing of the Helsinki Final Act, which held promise for an increased flow of Jewish emigration from the Soviet Union. That promise has faded, and the Soviet reign of oppression against their Jewish citizens continues. In 1979, a high of 51,320 Jews were allowed to leave the Soviet Union. Last year, an all-time low of only 869 Soviet Jews were granted exit visas. In June 1983, the official Soviet Anti-Zionist Committee announced that Jewish emigration was essentially completed. However, at least 10,000 dissidents continue actively to seek emigration.

Meanwhile, the repression against Soviet Jews continues to worsen. More than twenty Jewish prisoners of conscience are being held by the government. A concerted campaign against unofficial Hebrew teachers and Jewish cultural leaders has begun. Jewish refuseniks face harassment from the authorities, job loss or demotion, constant surveillance and must live under a never-ending threat of prosecution.

These actions are egregious violations of the Helsinki accords. As a member of the U.S. Helsinki Commission on Security and Cooperation in Europe, I have urged the administration to emphasize the inherent link between the pursuit of peace and the promotion of human rights. It is our duty as Americans to speak for those who are silenced.

Mr. President, in recognition of the plight of the Soviet Jews and the 10th Anniversary of the Helsinki accords, I would like to share with you an article in the New York Times entitled "Soviet Human Rights Battle: Only the Isolated Voices Remain." This article is a chilling account of what Soviet repression has done to the dissident movement in that country. Ten years after Helsinki, the human rights situation in the Soviet Union is worse than before. As we mark the 10th anniversary of the signing of the Helsinki accords, we must seize the opportunity to reaffirm our commitment to the cause of human rights and to the freedom for Soviet Jewry.

I ask that the following article be printed in the RECORD.

SOVIET HUMAN RIGHTS BATTLE: ONLY ISOLATED VOICES REMAIN

(By Seth Mydans)

Moscow, July 28—Naum Meiman laughs when he remembers the noisy scenes in his apartment, where groups of dissidents used to gather with Western reporters in the heyday of the human rights movement.

"There was certainly humor in it," he said the other day. "Everbody with his story to be told, nobody waiting for anybody else."

Today, a decade after the signing of the Helsinki accords that touched off that flurry of dissident activity, 18 of the 20 people who joined the Moscow Helsinki watch group have been imprisoned or sent into internal exile or have gone abroad.

ONLY A FEW ISOLATED VOICES

Apart from a few isolated voices, the dissident movement of the 1970's is dead, and Mr. Meiman says that after his years of activism and the imprisonment of many of his friends, the human rights situation in the Soviet Union is worse today than it was when the Helsinki pact was signed.

Mr. Meiman, a 74-year-old mathematician, is one of the two group members who are in the Soviet Union and not in prison or in exile. He, too, has given up agitating for the rights of others and appears to be preoccupied with his personal tragedy: a seemingly hopeless quest to gain medical treatment abroad for his wife, who is dying of cancer.

"After my years of working for the rights of others," he tells visitors, with a touch of embarrassment, "I feel I have earned the right to plead for help for my own case."

When Mr. Meiman remembers those days in the late 1970's, he said, his thoughts turn to the friends who are now suffering for their participation—people such as the Jewish activist Anatoly B. Shcharansky, the computer programmer Tatyana Osipova, the poet Viktor Nekipelov and the physicist Yuri F. Orlov, who founded the Helsinki group in May 1976.

All these are in prison, in labor camps, or in a harsh exile, and most are in deteriorating health, Mr. Meiman said.

"I like to believe that all we did was not in vain," he said. "But of course, I feel a great heaviness and distress both for my friends personally and for society."

On Aug. 1, 1975, the United States, the Soviet Union and 33 other nations signed the final act of the Helsinki Conference on Cooperation and Security in Europe. The document included commitments to ease cultural and informational exchanges, family reunification across borders, international travel and the like. A few months later the Moscow group was formed to monitor the Soviet Government's behavior under the humanitarian provisions of the act.

Now, 10 years later, Mr. Meiman agreed, the hopes the Helsinki accords fired in the Soviet Union have died out.

"It is hard for me to say I am optimistic," he said. "I have a difficult personal situation, and that always colors one's feelings."

Mr. Meiman's wife, Inna Kitrosskaya, 52, has been seeking for two years to travel to the West for treatment of a tumor on her neck that he said Soviet doctors concede they are not equipped to treat.

ENERGIES DEFLECTED

His concentration on his own problems is another small victory for the authorities here, who throughout the 1970's successfully deflected the energies of the Helsinki group away from broad social issues to a narrow defense of their own associates.

The heady activism of that time spread across the country from the Moscow group to small Helsinki watch groups in Latvia, Armenia, Georgia and the Ukraine and was reflected in specialized groups that publicized purported abuses of psychiatry and religious oppression. But that activism appears to have been crushed with a thoroughness nobody seems to have expected at the time.

The mutual support that was growing among intellectuals agitating for democratic rights, Jews who wanted to emigrate, Russian orthodox activists, Pentecostalists and others has again become fragmented.

Andrei D. Sakharov, the physicist who became a symbol of dissent in the Soviet Union and won the Nobel prize for Peace in 1975, was banished to the city of Gorky, 250 miles east of Moscow in 1980.

He is said to have gone on a hunger strike, he is said to be ill, he is said to be in a hospital. But the authorities have succeeded so remarkably in cutting him off from the outside world—Gorky is not open to foreigners, and Russians have apparently been kept from extensive contact with him—that nobody really knows what has become of him.

As the Kremlin must have intended, even Dr. Sakharov's name has faded bit by bit from the attention of the world.

The authorities have also ignored campaigns on behalf of Mr. Shcharansky, Mr. Orlov and others, proving, as Soviet Government spokesmen have insisted all along, that they will not bow to pressure on what they consider their internal affairs.

One disappointment for human rights activists here is that a new generation of idealists has not sprung up to take the places of those who have been arrested.

"That was the sadness and the failure of the Helsinki group in its last years," Mr. Meiman said. "It was impossible to bring in young people because of the certainty of arrest."

REPRESSION, THEN THE END

Asked why he thought the human rights movement had not rejuvenated itself, one Western diplomat said, "Maybe repression works."

In September 1982, as the arrests and harassment continued, the last three members of the Moscow Helsinki watch group who remained in the Soviet Union held a final news conference to say: "The group cannot fulfill its duties and is forced, under pressure from the authorities, to discontinue its work."

At that news conference, in an atmosphere very different from the ones Mr. Meiman likes to recall, were Yelena G. Bonner, Sofiya V. Kalistratova and Mr. Meiman.

Mrs. Bonner, who is the wife of Dr. Sakharov, was convicted last August of "anti-Soviet slander" and sentenced to five years of confinement with her husband in Gorky.

Mrs. Kalistratova, a 78-year-old-lawyer, was threatened with criminal prosecution. The prosecution was suspended because of her ill health, but it hangs over her head as a warning against further activism.

As Mr. Meiman sits alone in the study where dissidents once gathered, his wife in bed in a back room, he sees around him a country that seems content, even relieved, to have left behind the difficult issue of human rights.

For the moment, the country seems caught up in hopes of material progress under Mikhail S. Gorbachev, the new leader. Nothing has occurred in the first four months of his rule to suggest that any new atmosphere of liberalism may affect human rights.

The excitement of those very different days in the late 1970's did at times, as Mr. Meiman recalls, have its comic aspect, as roomfuls of the nation's oppressed and unfortunate interrupted each other to read out long statements of their woes, each more horrifying than the last.

'SHORT AND SWEET'

"All right, hurry up, hurry up," Mr. Meiman would order as some frightened Bapist or Volga German or Crimean Tatar told his story to a group of Western reporters. "These people like to hear it short and sweet."

Mr. Orlov, a quiet, pipe-smoking physicist, was arrested in the first months of 1977, as were Mr. Shcharansky and Aleksandr I. Ginzburg, a young man whose entire life seemed to have been devoted to human rights activism. Their three trials in the spring and summer of 1978 marked the climax of the crackdown on human rights in the period of detenté.●

TIMBER

● Mr. PRYOR. Mr. President, I have made speeches on several occasions in this Chamber about the serious trade problems that are devastating our timber industry. In particular, massive subsidies by the Canadian Government have seriously harmed our timber industry, one that is vital to the economic health of the State of Arkansas.

I frequently tell the story that, due to stumpage subsidies of the Canadian Government, lumber can be grown, cut, and transported from that country to southern Arkansas, and sold cheaper than lumber locally produced. Simply put, Mr. President, it's due to unfair subsidies by that government, and should not be tolerated. That's why I've joined several of my colleagues in introducing legislation aimed at curbing this practice and putting our timber producers on equal footing with foreign competitors.

On July 9, 1985, the Board of Forestry Commissioners of the State of Arknasas adopted a resolution calling on the Congress to take steps to correct these trade problems. Imported timber from Canada now accounts for 38 percent of all sales in Arkansas, according to a letter I received from Edwin Waddell, State forester, and accounts for about one-third of all sales in the country. This industry, which accounts for 51,000 jobs in Arkansas and adds $2 billion to Arkansas' economy, needs the attention and help of the Congress.

Mr. President, I ask that the resolution adopted by the Arkansas Forestry Commission by printed in the RECORD.

The resolution follows:

RESOLUTION

Whereas, forestry is Arkansas' largest manufacturing industry producing $2 billion annually while providing jobs for over 51,000 people; and

Whereas, forests occupy almost 50% of the State's total land area and provide present and future raw materials and natural resources for citizens of Arkansas and the nation; and

Whereas, the continued unfair competition from Canadian forest products seriously reduces Arkansas' forest industry related jobs and its economic security; and

Whereas, Arkansas' forest industry is a vital part of the growth and development of the state. Now Therefore

Be it resolved, That the Arkansas Forestry Commission proposes a strong commitment to the correction of these unfair trade practices caused by the import of subsidized Canadian forest products; and

Be it further resolved, That the State Legislature, the Arkansas Congressional Delegation, and the Federal Administration be called upon to provide necessary corrective measures.

In witness whereof we have hereunto affixed our signatures this ninth day of July in the year of our Lord, nineteen hundred and eighty-five.●

THE ANIMAL WELFARE ACT AMENDMENT TO ENSURE THE PROPER TREATMENT OF LABORATORY ANIMALS

● Mr. D'AMATO. Mr. President, I rise today to cosponsor an important piece of legislation introduced by my revered colleague, the majority leader. This legislation, S. 1233, amends the Animal Welfare Act to ensure the proper treatment of laboratory animals.

S. 1233 addresses the enormous issue of proper and humane treatment of animals, particularly while used in laboratory experiments. This issue has been a concern for many years, but a comprehensive piece of legislation has yet to address all of the concerns involved.

This legislation calls for humane treatment of animals by requiring pre- and postsurgical care, pain-relieving drugs to relieve unnecessary suffering, anesthesia to be used with paralytic drugs, and an avoidance of using the same animal for multiple painful procedures. These requirements are minimal precautions that should be taken to ensure the well-being of animals used for biological research.

Another significant provision of S. 1233 is the establishment of an infor-

mation service at the National Agricultural Library. An information center will help researchers coordinate their efforts and will provide information on alternative types of research that do not require the use of animals. This center also will help to proliferate progressive and promising research and, at the same time, will alleviate duplicate research which harms animals for no beneficial research purpose.

S. 1233 encourages researchers to consider other research techniques which do not require the use of animals and to use less painful methods when animals must be involved. This type of encouragement will raise the consciousness of researchers. Because the individual researcher is ultimately responsible for his or her relationship to the animal, this aspect of the legislation is essential.

A final area that this legislation addresses is the need for continual assessment and evaluation, both from within the laboratory and from the outside. All researchers involved with a project must be instructed about humane practices toward animals. Furthermore, a representative of the community who exhibits a concern for the care of animals would be allowed to monitor and inspect the laboratory to be certain animals are treated in a respectful and caring manner. The legislation ensures that individuals who work in research laboratories cannot be discriminated against for reporting animal abuses. It is my belief that these precautions will help researchers check themselves, to continually remind themselves of their responsibility to treat animals humanely and respectfully.

This bill is a joint effort of the animal welfare and biomedical research communities to approach the problems created by the use of animals in experimental research and to come to some reasonable and progressive conclusions. This effort addresses numerous areas that have proven to be problems with the use of animals in research laboratories. It is my hope that the all-encompassing nature of this legislation will protect our animals from unnecessary violations and will help to make the research community more aware of the need for humane treatment of animals while performing experiments.

I hope my colleagues will look into this legislation and will join me in this effort to ensure the safety of the animals of this country.●

THE U.S. DEPARTMENT OF ENERGY'S SUPERCOMPUTING HIGH SCHOOL HONORS PROGRAM

● Mr. PRYOR. Mr. President, from August 11 through August 24, 1985, the Department of Energy's first High School Supercomputing Honors Program will be held at the Lawrence Livermore National Laboratory in Livermore, CA. High school students from each of the 50 States, the District of Columbia, and Puerto Rico will participate in the program, using the facilities of the National Magnetic Fusion Energy Computer Center. These accomplished young people were selected on the basis of their scholastic aptitude, with particular emphasis placed on competence in math and science.

The program will feature presentations about career opportunities, and extensive tours of the Livermore National Laboratory. The students will work on individual programming projects, under the guidance of the National Laboratory's esteemed computer science specialists, obtaining hands-on experience using one of the most highly developed computer systems in operation today.

Ms. Barbara Mulach, a senior at Central High School in Little Rock, is Arkansas' finalist to the program. This outstanding young woman has demonstrated excellent proficiency in both science and math programs, and her selection from among the many gifted and talented students in my State is a tribute to her tremendous capability.

Energy Secretary John Herrington, along with the staff of the Department's Office of Energy Research, should be commended for the leadership shown in coordinating such a unique learning situation. I urge my colleagues to join with me in congratulating each of the program finalists.●

MEL FISHER—AMERICAN SUCCESS STORY

● Mrs. HAWKINS. Mr. President, I am sure the Members of the Senate have joined with the majority of Americans in thrilling to the success of Mel Fisher and his associates in discovering the lost treasure of the Spanish galleon *Nuestra Senora de Atocha.* This is truly a classic American success story—years of adversity, even tragedy, ending in success beyond anyone's wildest dreams.

Mel, whom I have known for many years, is indeed a man with an all-consuming dream. He has pursued his dream—the treasure of the *Atocha*—for 16 years, with a singlemindedness not often seen today. From the beginning, he has had to endure ridicule, financial problems, governmental harrassment, and seemingly endless fruitless searches. Yet the spirit of his characteristic slogan, "Today's the day," carried him through.

Ironically, the worst tragedy occurred 10 years to the day before the discovery of the treasure. On July 20, 1975, one of his ships capsized in the search area, drowning his son, his daughter-in-law, and crew. But like the true American dreamer, Mel persevered in his efforts.

Last Saturday, Mel's dream came true. Divers found a veritable reef of silver bars. The main treasure of the *Atocha* had been discovered at last.

My interest in all this lies less in the fact of Mel's success—although he surely deserves his rewards—than in the realization that our Nation still has such people, and that we still permit determined men and women to pursue such dreams, to success or failure.

I would be remiss, however, if I did not point out that Mel Fisher found his treasure only after overcoming disgraceful efforts by the State and Federal governments to take it away from him. From the moment in 1971 when he first removed artifacts enabling him to confirm that he was on the trail of the *Atocha,* he suffered from the efforts of the Federal and Florida governments to claim the yet-undiscovered treasure, efforts based on appallingly flimsy grounds.

Florida contended that because the area of the wreck was once thought to be under State jurisdiction, the treasure should belong to the State when it was discovered. This absurdity was resolved in Fisher's favor. Even worse, however, was the Justice Department's claim that it had somehow inherited the "sovereign prerogatives of George III" and was thus somehow entitled to the gold and silver. Three opinions of the Fifth Circuit Court of Appeals and one by the Supreme Court, along with hundreds of thousands of dollars in legal fees, were necessary before Mel Fisher had uncontested right to his discovery.

This attitude on the part of government, that is entitled to all or part of every effort by its citizens, is in my judgment one of the primary evils of modern political life. It is foreign to our traditions, and I sincerely hope that this is not the last case where citizens prevail over government in these matters.

It was for this reason that I last year opposed legislation that would give unrestricted control over ancient wrecks to the States, repealing the very rights of access to the Federal courts that enabled Mel Fisher to succeed. Yes, it is important that the salvage of ancient wrecks be accompanied by proper archeological efforts, so we receive knowledge along with artifacts and gold; but it is also important that the rights of our citizens to fulfill their dreams not be blocked by the paternalistic hand of government.

Mr. President, I ask that three articles from the Miami Herald and one from the New York Times on the discovery be printed in the RECORD at this point.

The articles follow:

TREASURE HUNTERS HIT JACKPOT OFF KEY WEST

(By Patty Shillington)

KEY WEST.—Treasure-seekers, teased by an undersea trail of gold for 16 years, discovered Saturday what they believe to be the mother lode of a Spanish galleon laden with untold riches when it sank in a 1622 hurricane.

"Put the charts away—we've got it! Silver bars . . . we've got it!" the captain of one search ship screamed over a radio to Bleth McHaley, vice president of Treasure Salvors Inc. in Key West.

"The captain said there are millions of coins and copper ingots," McHaley said. "We don't know how much is there yet. It's going to take weeks and weeks and weeks and weeks.

"It's incredible, just incredible."

Mel Fisher, founder of Treasure Salvors, has been trailing the spilled cargo of Nuestra Señora de Atocha for 16 years.

"It's like when you put the last piece in a jigsaw puzzle," said Fisher, 62. "It's fantabulous."

Over the years, divers using electronic sensors off the Lower Keys have brought up gold bars and chains, silver, jewels and artifacts worth about $60 million. But the bulk of the 17th Century treasure, valued at up to $300 million, was elusive.

Up until now, that is. The five-foot wall just discovered under the sea 41 miles west of Key West is Atocha's main ballast, adorned with a huge amount of treasure, McHaley said.

But the salvors can't even measure the value of the other royal treasure believed to be buried underneath the main ballast: the wreckage of the three-masted Atocha, bound for Spain in a fleet when a Sept. 4, 1622, hurricane sent it and the galleon Santa Margarita to the ocean depths.

Archeologists call Saturday's find "the primary cultural deposit," but the phrase belied the mood at Treasure Salvors' offices in Key West, where employees celebrated with passion as spirits flowed.

"It's been mayhem here all day," Fisher said. "We've been toasting and congratulating."

Treasure fever has soared in Key West since the Memorial Day weekend, when Fisher's divers found a piece of the ship's timber, 13 gold bars, seven feet of gold chain, 414 silver coins and 16 emeralds set in gold—all worth about $2 million.

Fisher knew he was close to the mother lode. But in the last week there was much frustration.

"It was perplexing about three or four days ago when we couldn't find anything," Fisher said.

Nuestra Señora de Atocha, built in Havana and on her maiden voyage, was heading to Spain when the hurricane disabled much of the fleet off the Cuban coast. In all, nine ships were lost and about 550 people aboard the vessels were killed.

Along with the galleon Santa Margarita, Atocha was swept over a barrier reef and into the Florida Straits. The two vessels sank three miles apart in about 50 feet of water.

A month later, another hurricane wrought violent currents that broke up the pair, scattering debris over an eight-square-mile area. Then for 3½ centuries, tides and shifting undersea silt buried the wreckage.

As with past treasure finds, profits from the ship will be split among investors, with Treasure Salvors crewmen getting a share.

But legal battles with state authorities, who claimed sovereign rights to the treasure, have been expensive. The federal courts finally ruled that Fisher owned his rich hauls. Now he is fighting federal proposals that would give the state ownership of treasure found in its waters.

For Fisher, the consuming hunt has also been costly outside the courtroom.

The salvage ship Northwind capsized 10 years ago, claiming four lives, including one of Fisher's sons, Dirk, and the latter's wife Angela.

But Saturday, a jubilant Fisher repeated the phrase of hope he has uttered every day for years:

"Today's the day."

JUBILANT DIVERS MINE SILVER LODE

(By Patty Shillington)

KEY WEST.—A jubilant crew on the converted tugboat Dauntless lowered milk crates into the ocean Sunday and hauled up load after load of heavy 17th Century silver bars—booty from the mother lode of a sunken Spanish galleon.

"I'm going to be loading up till I can't take no more!" whooped Kane Fisher, 26, captain of the Dauntless and son of Treasure Salvors founder Mel Fisher, who has searched 16 years for the underwater remains of the Nuestra Señora de Atocha.

That search ended Saturday, 41 miles off Key West, when Treasure Salvors divers found the main ballast of the three-masted Atocha, which sank in a 1622 hurricane after it left Cuba laden with riches.

Treasure Salvors officials said Sunday it was the most valuable sunken treasure ever found. Its worth: $300 million to $400 million, which doesn't include the $60 million trail of treasure that led divers to the wreck.

"It looked just like I dreamed it would," said diver Shaky Jake, 33. "There were some rocks and some pieces of wood and then bars, bars, bars, bars. And there were lobsters all around the bars."

"When we hit the silver," added Del Scruggs, 23, "It was like ecstasy! They're beautiful!"

And valuable. The 16-inch-long, four-inch-thick silver bars weigh between 70 and 100 pounds and are worth from $40,000 to $100,000 each. There were 1,200 bars on the Atocha, according to the ship's manifest.

Divers, 45 feet underwater, stacked the bars together and loaded them into the rusty milk crates attached to an electric winch on the deck of the Dauntless. By Sunday afternoon, about 200 bars had been lifted aboard the 65-foot salvage vessel, then taken to a storage space below.

Ten-gallon buckets filled with silver coins and silver plates also sat on the deck while copper ingots were piled on the sides of the vessel.

"There's gold down there, too," Kane Fisher said. "We just haven't found it yet."

In addition to 161 registered gold bars, the personal jewels of the Atocha's passengers are yet to be found. They are believed to be buried under the ballast.

To shipwreck archaeologist R. Duncan Mathewson III, the real treasure is the remains of the Atocha itself—one in a fleet of Spanish galleons bound for Spain when the Sept. 4, 1622 hurricane hit. Nine ships were lost and 550 people killed.

Sunday, Mathewson examined an 18-foot-long, six-foot-wide section of the Atocha's ribs and began mapping and surveying the wreckage.

"Oh, it looks terrific! They [the timbers] are in good condition," Mathewson said when he emerged from the ocean depths and climbed aboard the Dauntless. "By studying her timber, we'll learn a lot about shipbuilding in the 17th Century."

Divers have used electronic devices to find treasure from the Atocha and the Santa Margarita, the other Spanish galleon that was swept over a barrier reef and into the Florida Straits before it sank.

But they put the equipment away Sunday, needing only the unaided eye to gather up the treasure.

"It's all visual now," said Kim Dickson, 24, the only woman on the Dauntless's nine-member crew.

The silver has been well-preserved in a layer of mud under the sandy bottom. Insignias on some of the coins are visible after just a superficial cleaning.

Dubuque, Iowa, native Greg Wareham, 26, was the first diver to stumble upon the mother lode. He, like all crew members, will get a share of the profits.

"It's probably one of the most significant things I'll ever do in my life," Wareham said. "There was a big pile of silver and some ballast stone. I was surprised that I found it."

Three other search and salvage vessels were anchored at the site Sunday, but the press outnumbered the crew. Photographers and reporters hired charter boats to take them to the wreck, about 2½ hours from Key West riding a 40-foot fishing boat.

Singer Jimmy Buffett went out to the site to serenade the salvage crews.

"My life is different after seeing that," one scuba-diving photographer said after snapping some underwater pictures.

The salvage operation is expected to take weeks.

Back in Key West, tourists gathered Sunday at Mel Fisher's Treasure Salvors headquarters, which boasts the world's largest public exhibition of sunken treasure.

Visitors posed for pictures in front of the museum, as a contagious case to treasure fever swept the island.

FISHER LEAVES THE GOVERNMENT HIGH AND DRY

(By Carl Hiaasen)

One afternoon six years ago, treasure hunter Mel Fisher squinted into the Key West sun, fingered a serpentine gold necklace, and said: "It was never the money. It was the hunt, the challenge. Some guys go to Siberia for polar bears."

Mel Fisher went down to the sea. He lost a son but found the Spanish galleon of his dreams. And when he finally began to raise its treasure, bit by bit, from a marly grave off the Marquesas, everyone wanted a piece.

Now Fisher's divers have found the mother lode, the crusted guts of his beloved Nuestra Senora de Atochia, shipwrecked in 1622. It's a discovery of unfathomable proportions—a hill of gold coins, silver bars, copper ingots—and there is no telling what it will someday be worth.

But the best part is this: Every splendid doubloon belongs to Mel Fisher, his divers and his investors.

The two governments that for years connived to get their plundering paws on Fisher's fortune get absolutely nothing. "They can eat their hearts out," says Bleth McHaley, vice president of Fisher's Treasure Salvors Inc.

Mel Fisher's legal nightmare is too complicated to recount in detail. At times, both the state of Florida and Uncle Sam have tried to claim the galleon—despite the fact that Fisher's company alone had located the wreck, explored it and mined its bounty.

U.S. District Judge William Mehrtens was so appalled that in 1978 he wrote: "As grave as the perils of the sea are and were, the gravest perils to the treasure itself come not from the sea but from two unlikely sources, agents of two governments . . .

"It would amaze and surprise most citizens of this country, when their dreams at the greatest of costs were realized, that agents of respective governments would, on the most flimsy of grounds, lay claim to the treasure . . ."

Ultimately, it took eight years and a trip to the U.S. Supreme Court for Mel Fisher to prove that the Atocha lay outside state territorial waters and that no government had a right to the wreck.

Ironically, from that spring day in 1971 when the first musketball was found among the sea dunes, Fisher had always agreed to share the riches; he had even offered to donate 25 percent to the state so that his investors could get a tax break.

In the early days, he turned over hundreds of artifacts to the good folks in Tallahassee who, characteristically, managed to misplace or destroy 523 pieces worth about $400,000. The state said the artifacts were lost "in cleaning"—lost by the same geniuses who's said Fisher wasn't qualified to protect the treasure.

True, Mel is not exactly a model businessman; more than one contract has been inked on the back of a cocktail napkin, and more than one payday has slipped by unmarked. And there have been assorted expeditions when the crafty 62-year-old diver certainly tested the limits of salvage law.

Jealous rivals occasionally have branded him a huckster, but Fisher is really just a dreamer, befuddled by legalities and stubborn as a barnacle. All he ever wanted was to find sunken treasure.

He has paid a terrible price. Last week's triumph of a lifetime came 10 years to the day after Mel Fisher's darkest tragedy. In the morning darkness of July 20, 1975, 21-year-old Dirk Fisher, his wife, Angel, and diver Rick Gage drowned when their salvage vessel suddenly capsized near the galleon site.

"I felt in my heart Dirk wanted me to continue, to bring in the rest of the treasure. That's why I'm still working on it," Fisher told me, years ago.

At the time, the Atocha surrendered teasing trinkets and little else. But Mel talked, as always, of striking the main ballast—today, tomorrow, next week. Meanwhile, he was busily scrounging money, squiring investors, fighting his heart out in court.

Now the long quest is over, the ship is his. It is a magnificent victory over the sea, over the centuries and over all those government landlubbers who couldn't find their aft with both hands.

SUNKEN TREASURE SHIP LURING ARCHEOLOGISTS

(By Jon Nordheimer)

KEY WEST, FL, July 23.—Late last night, as wind and rain from a tropical storm swept the puddled streets of Key West, jubilant treasure hunters and investors sang rousing choruses of "We're in the Money" and "The Impossible Dream," pounded out by a piano player in the Two Friends bar.

Besides yielding riches of silver and gold that had been buried in the ocean floor for more than three centuries, the sunken Spanish royal galleon they discovered last weekend may prove to be a scientific bonanza, their chief archeologist said today.

"It's a virgin shipwreck in situ, one of the greatest treasure finds from an ancient shipwreck recorded anywhere," said Duncan Mathewson, chief archeologist for Treasure Salvors Inc. of Key West. Backers of the limited partnership spent years and millions of dollars to search hundreds of square miles of sea bottom 40 miles west of here for the remains of Nuestra Señora de Atocha, the 550-ton flagship of a Spanish treasure fleet sunk in a hurricane in 1622.

On Saturday, working 54 feet under the choppy, bottle-green surface, divers found the prize. Powerful gusts of water pumped down from their ship blew up a storm of sand and exposed a jumbled mound of hundreds of silver bars each 15 inches in length, that weighed 70 pounds each. Nearby gold and silver coins and jewels spilled from a well-preserved cedar treasure chest.

An excited diver rose and broke the surface with clenched fists of triumph. "It's here!" he shouted to those aboard the rocking ship, who at first feared some underwater emergency. "We found it! We found the main pile!"

The discovery touched off a celebration among the 40 or so employees of Treasure Salvors and sent investors rushing to catch planes to Key West. Among the latter were Frank Perdue, the poultry producer, and Melvin Joseph of Delaware, who has investments in construction and poultry farms.

At first, members of the company estimated the treasure was worth more than $400 million.

Mel Fisher, the baldish guiding spirit of Treasure Salvors, winced today at the figures and said they might be too high, a turnaround of sorts for a man whose critics asserted in the past that he had inflated estimates of the value of artifacts recovered by his divers.

"The figures are kind of wild," said Mr. Fisher, 62 years old, beaming in his office in Key West this morning. Around his neck dangled $12,000 in gold, including a doubloon, souvenirs of earlier treasure hunts.

"None of it's going to be sold anyway," he said. "At least, none of my share will be sold."

An inventory of what his divers have found may take years, Mr. Fisher said. An archeological excavation of the underwater site is being prepared and the initial plan calls for careful removal of the buried treasure and everything else in the watery grave.

"We're not treasure hunters as much as we are an archeological recovery team," explained Mr. Mathewson. "We are somewhere between treasure hunters and scientific excavators."

In this respect, he continued in a interview, he was distressed to learn that the divers removed 200 silver ingots in their first flush of enthusiasm.

High winds from the tropical storm kept crews away from the find today, and no other removal of treasure is to take place until additional divers and archeological assistants can be hired.

"What we think we have is most of the hull and cargo of the Atocha, pinned under the mound of bars and nicely preserved," Mr. Mathewson said.

'ENORMOUS TIME CAPSULE'

If that turns out to be correct, he continued enthusiastically, the Atocha could be seen as "an enormous time capsule, as important as Pompeii or even King Tut's tomb."

By any measure, the cargo carried by the Atocha when she and nine other treasure ships sank was priceless. The Atocha alone was bore 47 tons of gold and silver when the fleet set sail from Havana to deliver the riches of the New World to Spain. The Spanish sent salvage crews to reclaim part of the cargo of the two other royal galleons that sank in the same storm, the Rosario and the Santa Margarita, but after an initial sighting no trace was ever found of the Atocha and her riches.

Scholars over the years have frequently criticized the methods and claims of Mr. Fisher's operations. But news of the discovery of the Atocha brought heightened academic interest.

"From what I've heard it sounds like a spectacular find," said Dr. George Bass, director of archeology for the Institute of Nautical Archeology at Texas A&M University, in a telephone interview, "It is a special thing to find an intact cargo that can give a picture of 17th century exploration in the New World."

VARIED INSIGHTS EXPECTED

Mr. Mathewson, who holds a master's degree in marine archeology, said he hoped a scientific examination of the Atocha and her cargo would provide insight into a range of subjects.

Noting that the Atocha was built in Havana in 1618, a generation after the wreck of the Spanish Armada off the English coast, he said the wreck could shed light on what innovations were incorporated into galleon design by Spanish shipwrights.

Also, the excavation of the Margarita, which lies a few miles to the northeast of the Atocha, could add to this study, he said. The Margarita was built in Spain at the same time the Atocha was being constructed in Cuba, he added.

Mr. Fisher, after turns with his family's poultry business and the running of a divers' shop in Torrence, Calif., was lured to Florida in 1962 by tales of Spanish treasure. Using modern electronics, he and associates were able to recover gold and other artifacts from wrecks of the Spanish plate fleet destroyed in a storm off Florida in 1715.

By 1969 his divers were scouring the waters off the Florida Keys in search of the Atocha. Years were wasted searching in the wrong spot before Eugene Lyons, a Ph.D. candidate doing research in Spanish archives came up with documents that placed the sunken Atocha to the west of the Marquesas, islands 35 miles off Key West.

Acting on this and a hunch, Mr. Fisher dispatched his divers to search off a short underwater reef that ran east-west about 10 miles southwest of the Marquesas. He reckoned that the 1622 fleet, poorly designed to ride out a storm, and been driven on the reef.

As the events now make clear, his original hunch was essentially correct. But on July 4, 1973, three silver bars were found in shallower water five miles to the northwest. This moved the focus away from the deeper water. As things turned out, the discovery of the silver, and later the Atocha's anchor, in the shallow waters, which are called the Quicksands, was a costly and frustrating reversal.

"I wished we had never found them," said Bleth McHaley, vice president of Treasure Salvors. "It was a false lead that cost us years."

The hull with the treasure had remained in the deep water where the Atocha first sank. It is now believed that a storm that struck the area one month after that sinking wrenched the rigging and upper decks away from the hull, heavy with ballast and

treasure, and carried the superstructure five miles or more to the northwest, strewing anchor, gold pieces and other artifacts along a wide trail leading to the Quicksands.

The last 10 years were spent following a teasing trail of artifacts and ballact back toward the reef, crisscrossing thousands of acres of ocean floor.

It was a decade of frustration for Mr. Fisher, as well as one filled with lawsuits, missed payrolls and tragedy.

On July 20, 1975, Mr. Fisher's oldest son, Dirk, 21, drowned when his diving work boat capsized at night. Dirk's wife and another hand were drowned in the same accident.

"It was Dirk who was convinced that the Atocha was in deeper waters," said Ed Stevens, a 25-year-old diver from Fort Lauderdale. "He had a dream about the Atocha, a very vivid dream that told him the treasure was where they had first looked. There was nothing logical about it, but Dirk's death and the dream convinced Mel to search again in deeper waters."

Saturday's discovery came 10 years after Dirk Fisher's death, and another son, Kane Fisher, was the captain of the lead boat in the search.

The average share of a diver in the company is expected to be one-tenth of 1 percent, which could range from $100,000 to $300,000 depending on what is eventually taken out of the Atocha. Long-time hands, numbering about a dozen, stand to get a full 1 percent which may make them millionaires.●

THE BUDGET DEFICIT

● Mr. BOREN. Mr. President, I am very disappointed that a broad bipartisan effort to agree to a plan to reduce budget deficits has again collapsed. We cannot afford to play politics with deficits that will wreck our economy if we do not deal with them. It is disappointing to see both the President and Speaker TIP O'NEILL backing away from taking the tough steps necessary to make progress. So far they leave us with deficits still approaching $200 billion per year as late as 1988.

I am especially sorry that the proposed oil import fee was not accepted. As an American and as an Oklahoman, it galls me that domestic oil and gas production is heavily taxed with income and so-called windfall profit taxes while foreign production is not.

Someone has given the President bad advice on the oil import fee issue. I hope that he was not misled by the phony estimates of gasoline price increases of as much as 36 cents put out by some groups over the weekend including the so-called Citizens-Labor-Energy Coalition. The oil import fee would phase out when oil reached $30 per barrel. In 1984 when oil was at that price gasoline prices were only 1 cent higher on the average at the pump than they are now.

The 36-cent estimate was apparently arrived at by adding the two fees: the $5 on crude and $10 on refined products to reach a total of $15. Of course, the bill would not work to add the two together. It is an alternative fee. They then assumed that the fee would be paid on all oil used to make gasoline when of course only one-third of all U.S. gasoline is made from foreign crude. They also failed to consider that the fee phases out when domestic prices reach $30 per barrel.

Even the more reliable American Petroleum Institute made the mistake of not realizing that the fee plus the current price could never exceed $30. They assumed a $5 oil import fee on top of the current price of $26.50 which is in error.

It is a shame that misleading figures would be used to support policies which continue to transfer jobs and income out of States like Oklahoma to foreign countries.

The whole country will suffer if domestic oil prices collapse and drilling is severely cut back here at home.

I hope that the President will reconsider his portion on the oil import fee. I have not given up on the proposal and plan to present it again when the tax reform bill comes to the Senate.

I will continue to work to get both Republicans and Democrats to put aside politics and get to work to get these deficits reduced.●

S. 1468—U.S. PEACE TAX FUND BILL

● Mr. MATHIAS. Mr. President, I was pleased to join the distinguished Senator from Oregon [Mr. HATFIELD] as a cosponsor of the U.S. peace tax fund bill, S. 1468. It seems to me that a democratic society ought to be able to find a way for all its citizens to meet their full tax obligations without violating the dictates of their faith. As things stand now, there is no way for conscientious objectors to accommodate both conscience and country. These are Americans who want to support their country but cannot in good conscience pay that portion of their taxes that is devoted to military spending. The result is reduced revenues for the Federal Treasury and more headaches for the IRS enforcement teams. Nobody is happy with this state of affairs.

The U.S. peace tax fund bill provides a way out of this moral and legal dilemma. It would establish a fund to receive that portion of a conscientious objector's gift and tax payments that would otherwise be devoted to the military budget. Revenues in this fund would then be allocated to nonmilitary activities, such as the retraining of individuals displaced by conversion from military to nonmilitary production, or international exchanges to promote world peace.

It is important to understand that this bill will not reduce the tax obligations of conscientious objectors. Nor will it reduce the size of the defense budget. It simply provides a way for conscientous objectors to support their country without compromising their deeply held moral convictions. We have already provided legal alternatives to military service for conscientious objectors who want to meet the demands of both their country and their conscience. I see the U.S. peace tax fund bill as a logical extension of that constitutionally acknowledged option.●

LINDA GOES TO LAW SCHOOL

● Mr. JOHNSTON. Mr. President, this week Linda Jean Mason will leave the staff of the Committee on Energy and Natural Resources to attend the University of Virginia School of Law. Linda leaves the staff after nearly 4 years as a professional staff member for the minority.

Linda was born and raised in Everett, WA, the hometown of our late, beloved colleague Scoop Jackson. She went to Skidmore College in Saratoga Springs, NY, where she was elected to the Phi Beta Kappa Society and graduated with honors in 1981. During her tenure at Skidmore, she served as a parliamentary research assistant in the British House of Commons and as an advisory assistant for the Pennsylvania Public Utility Commission.

Her interest in government and energy policy quite naturally led her to Washington where she joined the committee staff in September 1981. While on the committee staff, Linda has been involved primarily in coal policy issues. She has worked on various legislative issues including; First, coal slurry pipelines; second, leasing of coal on Federal lands; third, surface mining of coal; and fourth, mining and mineral education. She did much of the staff work on the legislation establishing a national wildlife refuge on Protection Island, WA.

Linda's personality is a delightful combination of professionalism and enthusiasm. She learns quickly and has excellent analytic capabilities. She has repeatedly demonstrated her ability to work constructively with Senators, congressional staff, executive branch officials, and industry and interest group representatives to identify areas of agreement and disagreement, and arrive at acceptable solutions. At the same time, Linda has a genial and caring attitude and a keen sense of humor that has endeared her to her colleagues. These qualities have made her an asset to the minority staff. They should also serve her well during her law school career.

I applaud her decision to go to law school. I thank her for her good work. I know that Linda's many friends and staff colleagues here in the Senate join me in wishing her good luck and Godspeed in the work ahead. We will miss her.●

ORDERS FOR TUESDAY

RECESS UNTIL 9:30 A.M.

Mr. SIMPSON. Mr. President, after conferring with the Democratic leader, I ask unanimous consent that, when the Senate completes its business today, it stand in recess until 9:30 a.m. on Tuesday, July 30.

The PRESIDING OFFICER. Without objection, it is so ordered.

RECOGNITION OF CERTAIN SENATORS

Mr. SIMPSON. Mr. President, I ask unanimous consent that, following the recognition of the two leaders under the standing order, there be special orders in favor of the following Senators for not to exceed 15 minutes each: Senators D'AMATO, DOLE, MCCLURE, HUMPHREY, HEINZ, DECONCINI, LEAHY, NICKLES, PROXMIRE, and BAUCUS.

The PRESIDING OFFICER. Without objection, it is so ordered.

ROUTINE MORNING BUSINESS

Mr. SIMPSON. Mr. President, following the special orders just identified, I ask unanimous consent that there be a period for the transaction of routine morning business not to extend beyond the hour of 12 noon, with statements therein limited to 5 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

RECESS FROM 12 NOON UNTIL 2 P.M.

Mr. SIMPSON. Mr. President, I ask unanimous consent that the Senate stand in recess between the hours of 12 noon and 2 p.m. tomorrow.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. SIMPSON. Mr. President, when the Senate reconvenes following the prescribed recess tomorrow, it will be the intention of the majority leader to turn to S. 876, veterans health care; the conference report to accompany S. 1160, the Department of Defense authorization bill; and the conference report to accompany S. 960, the foreign assistance authorization bill. Rollcall votes can be expected throughout the day on Tuesday.

By unanimous consent, Mr. President, following the Department of Defense authorization conference report, Senators KENNEDY and MATHIAS will be recognized to offer their comprehensive test ban resolution.

Mr. President, I thank the minority leader for his assistance and cooperation. I inquire as to whether he has further business to conduct.

Mr. BYRD. Mr. President, I thank the distinguished Senator. I have nothing further.

RECESS UNTIL 9:30 A.M. TOMORROW

Mr. SIMPSON. Mr. President, in accordance with the previous order, I move that the Senate stand in recess.

The motion was agreed to, and at 7:22 p.m., the Senate recessed until tomorrow, Tuesday, July 30, 1985, at 9:30 a.m.

CONFIRMATION

Executive nomination confirmed by the Senate July 29, 1985:

DEPARTMENT OF JUSTICE

Douglas H. Ginsburg, of Massachusetts, to be an Assistant Attorney General.

The above nomination was approved subject to the nominee's commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.

HOUSE OF REPRESENTATIVES—*Monday, July 29, 1985*

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

I was hungry, and You gave me to eat, I was thirsty, and You gave me drink; A stranger, and You took me in, naked, and You clothed me.—Matthew 25:35, 36.

Merciful God, make as instruments of Your power for good—as keepers for those less fortunate, as healers for those who are ill in body or spirit, as messengers of the good news of hope, and as workers for justice and peace. Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Sparrow, one of its clerks, announced that the Senate had passed without amendment a joint resolution and concurrent resolution of the House of the following titles:

H.J. Res. 164. Joint resolution to designate August 4, 1985, as "Freedom of the Press Day"; and

H. Con. Res. 172. Concurrent resolution to celebrate the tenth anniversary of the Apollo-Soyuz rendezvous in space.

The message also announced that the Senate agrees to the amendment of the House to a bill of the Senate of the following title with amendments in which the concurrence of the House is requested:

S. 1147. An act to amend the orphan drug provisions of the Federal Food, Drug, and Cosmetic Act and related laws.

The message also announced that the Senate had passed with an amendment in which the concurrence of the House is requested, a bill of the House of the following title:

H.R. 2796. An act to improve security standards for international air transportation.

The message also announced that the Senate had passed a joint resolution of the following title, in which the concurrence of the House is requested:

S.J. Res. 168. Joint resolution designating August 13, 1985, as "National Neighborhood Crime Watch Day."

PERMISSION FOR MANAGERS TO FILE CONFERENCE REPORT ON H.R. 2577, SUPPLEMENTAL APPROPRIATIONS ACT, 1985

Mr. WHITTEN. Mr. Speaker, I ask unanimous consent that the managers may have until midnight tonight to file a conference report on the bill (H.R. 2577) making supplemental appropriations for the fiscal year ending September 30, 1985, and for other purposes.

The SPEAKER. Is there objection to the request of the gentleman from Mississippi?

There was no objection.

MAKING IN ORDER ON WEDNESDAY, JULY 31, 1985, OR ANY DAY THEREAFTER CONSIDERATION OF CONFERENCE REPORT AND ANY AMENDMENT IN DISAGREEMENT ON H.R. 2577, SUPPLEMENTAL APPROPRIATIONS ACT, 1985

Mr. WHITTEN. Mr. Speaker, I ask unanimous consent that it may be in order on Wednesday, July 31, or any day thereafter, to consider the conference report and any amendment in disagreement on the bill (H.R. 2577) making supplemental appropriations for the fiscal year ending September 30, 1985, and for other purposes.

The SPEAKER. Is there objection to the request of the gentleman from Mississippi?

There was no objection.

PERMISSION FOR COMMITTEE ON ARMED SERVICES TO FILE REPORT ON S. 1160, DEPARTMENT OF DEFENSE AUTHORIZATION ACT, 1986

Mr. MONTGOMERY. Mr. Speaker, I ask unanimous consent that the Committee on Armed Services have until midnight tonight, July 29, to file the conference report on the Senate bill (S. 1160) entitled "An act to authorize appropriations for the military functions of the Department of Defense and to prescribe personnel levels for the Department of Defense for fiscal year 1986, to authorize certain construction at military installations for such fiscal year, to authorize appropriations for the Department of Energy for national security programs for such fiscal year, and for other purposes."

The SPEAKER. Is there objection to the request of the gentleman from Mississippi?

There was no objection.

NATIONAL CONFERENCE ON THE DECADE OF WOMEN

(Mrs. BOGGS asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. BOGGS. Mr. Speaker, within the hour, the plane will alight down at Andrews Air Force Base returning the U.S. delegates to the United Nations Conference on the Decade of Women in Nairobi, Kenya.

Mr. Speaker, I rise in gratitude to all of the U.S. delegates to that conference, and in tribute to our Nation's first daughter, Maureen Reagan. Her intelligence, her tenacity, her splendid preparation, and her skills at organization and articulation brought that conference to consensus decisions on the problems and solutions to problems, the hopes and the aspirations of the women of the developing world, and maintained the U.S. position on all international matters.

I think, Mr. Speaker, that not only are we in this Nation in her debt, but so are the women of the developing world and their families.

COMPARABLE WORTH IS NOT EQUAL PAY FOR EQUAL WORK

(Mr. COMBEST asked and was given permission to address the House for 1 minute and to revise and extend his remarks and include extraneous matter.)

Mr. COMBEST. Mr. Speaker, I rise before this distinguished body today to voice my concerns about pending comparable worth legislation, H.R. 3008.

My colleague Ms. OAKAR's bill is, at first glance, a harmless study designed to examine wage policies in various occupations. But, H.R. 3008 is far more than a study and would have numerous far-reaching effects on our economy.

If enacted, Ms. OAKAR's bill would introduce Federal intervention into our free-market economy and encourage Government wage-setting practices. Policy regarding comparable worth could be made through court interpretation rather than through proper legislative channels. In effect, H.R. 3008 would establish a wage-rating system that would have horrendous implications on our Nation's economic and employment policies.

While I certainly champion the idea of equal pay for equal work, I cannot support legislation that reeks of intrusive Government practices. A careful

examination of H.R. 3008 will reveal its potentially adverse effects on our growing economy—an economy that is providing numerous opportunities for women and minorities.

I urge my colleagues to vote against H.R. 3008 when it is considered on the House floor. Equal work should be compensated with equal pay, but our free market should determine appropriate wages—not the Federal Government.

THE FEDERAL OCCUPATIONAL DISEASE COMPENSATION ACT

(Mr. WILLIAMS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILLIAMS. Mr. Speaker, this year, at least 23,000 Americans will die from cancer which they contracted because of their workplace. The cancer-exposed worker population in the United States includes at least 11 million workers exposed to thousands of suspected cancer-causing substances or processes.

Two million workers exposed to benzene with an increased risk of leukemia 5 times greater than normal; 1,600,000 workers exposed to asbestos, with an increased risk of lung cancer 5 times greater than normal; 1,500,000 workers exposed to chromium, with an increased risk of cancer 5 to 9 times greater than normal; 1,400,000 workers exposed to nickel, with an increased risk of cancer 5 to 10 times greater than normal.

Mr. Speaker, it is well past time that this Congress pass a Humane Occupational Disease Compensation Act for America's workers exposed to and dying from cancers by the tens of thousands each year.

WILDERNESS

(Mr. REID asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. REID. Mr. Speaker, last week, I told you about my recent trip around the State of Nevada to survey possible wilderness areas. During that trip I was able to develop a better understanding of what wilderness is and what such protection of land can mean to the State of Nevada.

Wilderness is recognized as an area where the Earth and its community of life are untrammeled by man—where man himself is a visitor and does not remain. It includes areas that are pristine in character, roadless, and larger than 5,000 acres.

Nevada has more than 100 roadless areas representing 3.6 million acres or 70 percent of the National Forest System land in the State.

In 1979 a Forest Service study to determine wilderness areas was deemed inadequate. So, more than 3 million acres of roadless areas in the Humboldt and Toiyabe forests currently retain de facto wilderness status until Congress acts to designate how much of the State will be wilderness lands.

Nevada is one of the last States to develop wilderness legislation. That's why we in Congress must take special care to design a wilderness plan that is fair to all interests and the people of Nevada and the Nation.

PERMISSION FOR CONFEREES TO FILE CONFERENCE REPORT ON S. 960, INTERNATIONAL SECURITY AND DEVELOPMENT COOPERATION ACT OF 1985

Mr. FASCELL. Mr. Speaker, I ask unanimous consent that the conferees have until midnight tonight to file a conference report on the Senate bill (S. 960) entitled "An Act to amend the Foreign Assistance Act of 1961, the Arms Export Control Act, and other Acts to authorize appropriations for the fiscal year 1986 for international security and development assistance, the Peace Corps, the Inter-American Foundation, and the African Development Foundation, and for other purposes."

The SPEAKER. Is there objection to the request of the gentleman from Florida?

There was no objection.

NATIONAL CHAMBER OF COMMERCE MISINFORMS CONGRESS ABOUT COMPARABLE WORTH STUDY

(Ms. OAKAR asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. OAKAR. Mr. Speaker, one of my colleagues on the other side of the aisle just got up a few minutes ago and attacked a bill that I introduced this year which would require the Federal Government to do a study on how it treats its classified employees.

We have not done that kind of a study since 1923 when civil service began. It would relate to how we treat women in particular, and minorities and Hispanics. Because we know from a GAO study that they are at the bottom rungs of an 18-point system classification.

This is an internal study, related to Federal employees only. It has nothing to do with the private sector, and I think the misrepresentation of what the bill is, is very, very unfortunate. I think the National Chamber of Commerce, which purports to represent businesses across the country, is giving Members of Congress gross misinformation.

□ 1210

I was proud of my chamber of commerce in Cleveland, OH, that told them that they ought to be more worried about the trade deficit and the deficit of this country than a simple study that relates to our Government employees.

So all businesses do not agree with this kind of misrepresentation, and I am proud of those businesses that have conducted their own internal studies, like AT&T, United States Steel, J. Byrons & Son, and others. They have their own internal study. We think we should have our internal study about how we treat our Government workers.

COMPARABLE WORTH, A HAREBRAINED IDEA

(Mr. ARMEY asked and was given permission to address the House for 1 minute.)

Mr. ARMEY. Mr. Speaker, obviously this body is beginning to debate in earnest this concept called comparable worth. Clarence Pendleton labeled the concept the looniest thing since "Looney Tunes." I believe that is a bit unfair, Mr. Speaker, because comparable worth is no laughing matter.

Let me quote the President of the United States from his radio address last Saturday and get a keener perspective on this matter. According to the President, "Workers searching for jobs and advancement can't break free if Government upsets the marketplace with harebrained ideas like federally mandated comparable worth, a proposal that would take salary decisions out of the hands of employers and employees and give Government the power to determine what a fair salary is."

Mr. Speaker, comparable worth has been studied. Indeed, it has been studied by several corporations and by several States. Mr. Speaker, intelligent men and women who study this concept reject the concept because it is, as the President said, a harebrained idea that would deny men and women work opportunities and the opportunity for equal employment and equal pay for equal work.

CENSORSHIP

(Mr. FAZIO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FAZIO. Mr. Speaker, the other day when the House debated the legislative branch appropriations bill, we made a mistake. The House of Representatives voted to censor the reading material of the blind.

Members of the Conservative Opportunity Society, supposedly the wave of the future, under the guise of saving money, forced a vote whose purpose was censorship, clear and simple.

These Republican statesmen argued that the translation of Playboy into braille was a gross waste of the taxpayers' dollars. If their real goal was to save the taxpayers' money in this $4 million program rather than to dictate to blind people what they can and cannot read, these would-be budget cutters should have cut the magazine or book which costs the most to translate and print per reader, not the seventh most popular of the 36 chosen by the committee of blind people themselves.

Even the Wall Street Journal, no friend of big spenders, said, and I quote:

> Such a pointed reduction is not economizing but censorship, a kind of legislative nannyism that treats the handicapped like children.

In the last few years, Playboy has had inverview articles with a number of conservative luminaries who apparently do not consider the magazine a waste nor a letter of sin. William F. Buckley, Milton Friedman, William Simon, Anita Bryant, George Gilder, Edward Teller, Charlton Heston, G. Gordon Liddy all have been interviewed by Playboy. Some consider the magazine such an effective conduit for their ideas that they have written articles for Playboy. These include, again, William F. Buckley, Ron Nessen, and perhaps most interesting of all, the President's son, Ron Reagan Jr., who wrote an article for the Christmas issue of Playboy.

In the heat of last week's debate, I did make an inaccurate statement. I said that the Reverend Jerry Falwell had given an interview to Playboy. I stand corrected; an interview by Mr. Falwell never appeared in Playboy. Rather, Mr. Falwell was featured in Penthouse, apparently against his will. I can only say, Mr. Speaker, that I for one would have thought such an oversight would be best forgotten, but many of Mr. Falwell's friends have brought the issue up in most urgent terms. So let me set the record straight: Mr. Falwell was in Penthouse, not in Playboy.

AN INCREASING HAZARD IN AIRLINE TRAVEL

(Mr. OBERSTAR asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. OBERSTAR. Mr. Speaker, I take this moment to alert my colleagues, most of whom travel virtually every weekend, of an increasing hazard in airline travel.

Today, the FAA Administrator, Mr. Engen, announced that the number of near midair collisions is up one-third over last year. The Subcommittee on Investigations and Oversight of the Public Works and Transportation Committee, a subcommittee that I chair, has completed several days of hearings on near midair collisions in which we warned the Administrator of internal problems in his agency and the essential failure of the critical handoff between air controllers and ground controllers where great mistakes are being made. The air traffic control system has not been rebuilt since the firing of the air traffic controllers in the summer of 1981, and this news is bad news indeed for the traveling public. The FAA should address that issue immediately along the lines of the direction our subcommittee has given the Administrator at the conclusion of our hearings.

COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER laid before the House the following communication from the Clerk of the House of Representatives:

WASHINGTON, DC,
July 25, 1985.

Hon. THOMAS P. O'NEILL, Jr.,
Speaker, House of Representatives, Washington, DC.

DEAR MR. SPEAKER: This is to notify you, pursuant to Rule L(50) of the Rules of the House of Representatives, that I have recently been served with a subpoena issued by the United States District Court for the District of Columbia. I will, in consultation with my General Counsel, make the determinations required by the Rule and will promptly notify you of those determinations.

Sincerely,

BENJAMIN J. GUTHRIE,
Clerk, House of Representatives.

COMMUNICATION FROM THE HONORABLE BILL McCOLLUM, MEMBER OF CONGRESS

The SPEAKER laid before the House the following communication from the Honorable BILL MCCOLLUM, Member of Congress:

HOUSE OF REPRESENTATIVE.,
Washington, DC, July 26, 1985.

Hon. THOMAS P. O'NEILL, Jr.,
Speaker of the House, The Capitol, Washington, DC.

DEAR MR. SPEAKER: I am writing to notify you, pursuant to Rule L(50) of the Rules of the House, that three members of my district office staff have been served with witness subpoenas issued by the County Court for Orange County, Florida. After consultation with the General Counsel to the Clerk of the House, I will reach the determinations required by Rule L(50) and will promptly notify you with regard to same.

Sincerely,

BILL MCCOLLUM,
Member of Congress.

ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. Pursuant to the provisions of clause 5, rule I, the Chair announces that he will postpone further proceedings today on each motion to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 4 of rule XV.

Such rollcall votes, if postponed, will be taken on Tuesday, July 30, 1985.

INDIAN EDUCATION TECHNICAL AMENDMENTS ACT OF 1985

Mr. KILDEE. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2908) to amend title XI of the Education Amendments of 1978, relating to Indian education programs, as amended.

The Clerk read as follows:

H.R. 2908

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; REFERENCE.

(a) SHORT TITLE.—This Act may be cited as the "Indian Education Technical Amendments Act of 1985".

(b) REFERENCE.—References in this Act to "the Act" refer to the Education Amendments of 1978.

SEC. 2. STANDARDS FOR THE BASIC EDUCATION OF INDIAN CHILDREN IN BUREAU OF INDIAN AFFAIRS SCHOOLS

(a) ESTABLISHMENT OF STANDARDS.—Section 1121(d) of the Act (25 U.S.C. 2001(d)) is amended—

(1) by striking out "thereafter" in the second sentence and inserting in lieu thereof ", within 60 days thereafter,"; and

(2) by adding at the end thereof the following new sentences: "Such revised standards shall be established by the Secretary unless such standards are specifically rejected by the Secretary for good cause and the Secretary notifies each affected tribe and local school board in writing of such rejection. Such rejection shall be final and not reviewable.".

(b) IMPLEMENTATION OF STANDARDS.—Section 1121(e) of the Act is amended—

(1) by striking out "Within two years" and all that follows through "Education Assistance Act" in paragraph (2) and inserting in lieu thereof the following: "Within two years after the date of enactment of the Indian Education Technical Amendments Act of 1985, or two years after the date of the initial contract for the provision of educational services under the Indian Self-Determination and Education Assistance Act, whichever is later,";

(2) by adding at the end of paragraph (2) the following: "The Secretary shall not rescind or fail to renew a contract because of this paragraph until at least one year after notifying the school of a failure to comply. During such one-year period, the Secretary shall render technical assistance to aid the school to comply."; and

(3) by striking out paragraph (3) and inserting in lieu thereof the following:

(3) Within one year of the date of the enactment of the Indian Education Technical Amendments Act of 1985, the Bureau shall, either directly or through contract with an Indian organization, establish a consistent system of reporting standards for fiscal control and fund accounting for all contract schools. Such standards shall yield data results comparable to those used by Bureau schools.".

(c) PERSONNEL ACTIONS.—Section 1121(f) of the Act is amended by striking out the last sentence.

(d) CLOSING, CONSOLIDATION, AND CURTAILMENT.—Section 1121(g) of the Act is amended—

(1) in paragraph (1) by striking out "no school operated by the Bureau of Indian Affairs on January 1, 1984, may be closed or its program curtailed" and inserting in lieu thereof "no school or peripheral dormitory operated by the Bureau of Indian Affairs on or after the date of enactment of the Indian Education Technical Amendments Act of 1985 may be closed or consolidated or have its program substantially curtailed";

(2) by adding at the end of such paragraph the following new sentence: "The requirements of this subsection shall not apply when a temporary closure, consolidation, or substantial curtailment is required by plant conditions which constitute an immediate hazard to health and safety.";

(3) in paragraph (2) by striking out "closing or consolidation" and inserting in lieu thereof "closing, consolidation, or substantial curtailment"; and

(4) by striking out paragraphs (3), (4), and (5) and inserting in lieu thereof the following:

"(3) Such standards and procedures shall require that whenever closure, consolidation, or substantial curtailment of a school is under active consideration or review by any division of the Bureau or the Department of the Interior, the affected tribe, tribal governing body, and designated local school board will be notified as soon as such consideration or review begins, kept fully and currently informed, and afforded an opportunity to comment with respect to such consideration or review. When a formal decision is made to close, consolidate, or substantially curtail a school, the affected tribe, tribal governing body, and designated local school board shall be notified at least 6 months prior to the end of the school year preceding the proposed effective date. Copies of any such notices and information shall be transmitted promptly to the Congress and published in the Federal Register.

"(4) The Secretary shall make a report to Congress, the affected tribe, and the designated local school board describing the process of the active consideration or review referred to in paragraph (3). At a minimum, the report shall include a study of the impact of such action on the student population, with every effort to identify those students with particular educational and social needs, and to insure that alternative services are available to such students. Such report shall include the description of the consultation conducted between the potential service provider, current service provider, parents, tribal representative and the tribe or tribes involved, and the Director of the Office of Indian Education Programs within the Bureau regarding such students. No irreversible action may be taken in furtherance of any such proposed school closure, consolidation, or substantial curtailment (including any action which would prejudice the personnel or programs of such school) until the end of the first full academic year after such report is made.".

SEC. 3. SCHOOL BOUNDARIES.

Section 1124(b) of the Act is amended to read as follows:

"(b) On or after the date of enactment of the Indian Education Technical Amendments Act of 1985, no attendance area shall be changed or established with respect to any such school unless the tribal governing body or the local school board (if so designated by the tribal governing body) has been (i) afforded at least six months notice of the intention of the Bureau to change or establish such attendance area, and (ii) given the opportunity to propose alternative boundaries. Any tribe may petition the Secretary for revision of existing attendance area boundaries. The Secretary shall accept such proposed alternative or revised boundaries unless the Secretary finds, after consultation with the affected tribe or tribes, that such revised boundaries do not reflect the needs of the Indian students to be served or do not provide adequate stability to all of the affected programs.".

SEC. 4. BUREAU OF INDIAN AFFAIRS EDUCATION FUNCTIONS.

(a) COORDINATION.—Section 1126(b) of the Act (25 U.S.C. 2006(b)) is amended by striking out the second and third sentences and inserting in lieu thereof the following: "The Assistant Secretary for Indian Affairs shall provide for the adequate coordination between the affected Bureau Offices and the Office to facilitate the consideration of all contract functions relating to education, except that the Secretary shall review the applications for the new school starts which were filed with the Bureau before October 1, 1984, under the rules and guidelines in effect on the date the application was filed. Nothing in this Act shall be construed to require the provision of separate support services for Indian education.".

(b) FACILITIES.—Section 1126(d) of the Act is amended—

(1) in paragraph (1), by striking out "and" at the end of subparagraph (A), by striking out the period at the end of subparagraph (B) and inserting in lieu thereof "; and", and by inserting after subparagraph (B) the following new subparagraph:

"(C) including a 5-year plan for capital improvements.";

(2) by striking out the second sentence of paragraph (2);

(3) by striking out "the allocation" in paragraph (2)(C) and inserting in lieu thereof "a notice of an allocation";

(4) in paragraph (2), by striking out "and" at the end of subparagraph (B), by striking out the period at the end of subparagraph (C) and inserting in lieu thereof "; and", and by inserting after subparagraph (C) the following new subparagraph:

"(D) a system for the conduct of routine preventive maintenance.";

(5) by striking out "expended or transferred" in the next to last sentence of paragraph (2) and inserting in lieu thereof "authorized for expenditure";

(6) by striking out paragraph (3) and redesignating paragraph (4) as paragraph (3); and

(7) in paragraph (3), as so redesignated, by striking out "Indian Education Amendments of 1984" and inserting in lieu thereof "Indian Education Technical Amendments Act of 1985".

SEC. 5. ALLOTMENT FORMULA.

(a) SPECIAL COST FACTORS.—Section 1128(a)(2) of the Act (25 U.S.C. 2008(a)(2)) is amended—

(1) by inserting "and" at the end of subparagraph (G);

(2) by striking out "and" at the end of subparagraph (H); and

(3) by striking out subparagraph (I).

(b) SEPARATE FUND FOR EMPLOYEE COSTS.—Section 1128(e) of the Act is amended to read as follows:

"(e) Supplemental appropriations enacted to meet increased pay costs attributable to school level personnel shall be distributed under this section.".

SEC. 6. UNIFORM DIRECT FUNDING AND SUPPORT.

(a) AVAILABILITY OF APPROPRIATIONS.—Section 1129(a) of the Act (25 U.S.C. 2009(a)) is amended—

(1) by striking out "this section" each place it appears and inserting in lieu thereof "section 1128";

(2) by redesignating paragraphs (2) and (3) as paragraphs (3) and (4), respectively;

(3) by adding at the end of paragraph (1) the following new sentence: "Amounts appropriated for distribtution under this section may be made available under paragraph (2) or under paragraph (3), as provided in the appropriation Act.";

(4) by inserting after paragraph (1) the following new paragraph:

"(2)(A) For the purpose of affording adequate notice of funding available pursuant to the allotments made by section 1128, amounts appropriated in the appropriations Act for any fiscal year shall become available for obligation by the affected schools on October 1 of the fiscal year for which they are appropriated without further action by the Secretary, and shall remain available through six months of the succeeding fiscal year. In order to effect the transition to the advance funding method of distribuiton described in the preceding sentence, there are authorized to be appropriated, in an appropriations Act or Acts for the same fiscal year, two separate appropriations for such allotments, the first of which shall not be subject to the preceding sentence.

"(B) The Secretary shall, on the basis of the amount appropriated in accordance with this paragraph—

"(i) publish, on July 1 preceding the fiscal year for which the funds are appropriated, allotments to each affected school made under section 1128 of 75 per centum of such appropriations, based on the school's student count for the preceding academic year; and

"(ii) publish no later than November 1 of the fiscal year for which funds are appropriated the allotments to be made from the remaining 25 per centum, adjusted to reflect actual student count, such funds to be immediately available for obligation by the affected schools.";

(5) by striking out "Notwithstanding any law" in paragraph (4) (as redesignated by paragraph (1) of this subsection) and inserting in lieu thereof "Pursuant to guidelines established by the Assistant Secretary, notwithstanding any law";

(6) by striking out "expend no more than 10 percent" in such paragraph and inserting in lieu thereof "expend more than $25,000 annually"; and

(7) by striking out "with or" in such paragraph.

(b) USE OF SELF-DETERMINATION GRANTS.—Section 1129(c) of the Act is amended—

(1) by striking out "shall institute a program" and inserting in lieu thereof "may approve applications"; and

(2) by inserting before the period at the end therof the following: "from funds appropriated pursuant to section 104(a) of such Act".

SEC. 7. ANNUAL REPORTING.

Section 1136(b) of the Act (25 U.S.C. 2016(b)) is amended by striking out "the Bureau, the Office, and".

SEC. 8. VOLUNTARY SERVICES.

Section 1140 of the Act (25 U.S.C. 2020) is amended—

(1) by striking out "an officer or employee of the Bureau or the Office" and inserting in lieu thereof "the Secretary";

(2) by striking out "and contract"; and

(3) by adding the following at the end thereof: "An individual providing volunteer services under this section is a Federal employee only for purposes of chapter 81 of title 5, United States Code, and chapter 171 of title 28, United States Code.".

SEC. 9. ADDITIONAL TECHNICAL AMENDMENTS.

(a) REDESIGNATION AND REPEAL.—The act is further amended—

(1) by redesignating sections 1141 and 1142 (as added by the Education Amendments of 1984) as sections 1140A and 1140B, respectively; and

(2) by striking section 1143 (as added by such Amendments).

(b) PRORATION OF PAY.—Section 1140A(a) of the Act (as so redesignated) is amended—

(1) by inserting "including laws relating to dual compensation," after "provision of law,"; and

(2) by inserting ", including benefits under unemployment or other Federal or federally-assisted programs," after "pay or benefits".

(c) EXTRACURRICULAR ACTIVITIES.—Section 1140B of the Act (as so redesignated) is amended—

(1) by striking out "Secretary shall provide" in subsection (a) and inserting in lieu thereof "Secretary may provide, for each Bureau area,";

(2) by strking out subsection (b); and

(3) by redesignating subsections (c) and (d) as subsections (b) and (c), respectively.

SEC. 10. EFFECTIVE DATES.

(a) IN GENERAL.—Except as provided in subsection (b) but notwithstanding any other provision of law, the amendments made by this Act and by the Indian Education Amendments of 1984 to title XI of the Education Amendments of 1978 shall be effective on the date of enactment of this Act and shall apply with respect to any expenditure of funds for the operation or support of Bureau of Indian Affairs schools and Indian controlled contract schools for school years beginning after August 1, 1985.

(b) EXCEPTION.—The amendments made by sections 504, 505, and 506 of the Indian Education Amendments of 1984 shall be effective on October 1, 1985.

The SPEAKER. Is a second demanded?

Mr. GUNDERSON. Mr. Speaker, I demand a second.

The SPEAKER. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER. The gentleman from Michigan [Mr. KILDEE] will be recognized for 20 minutes and the gentleman from Wisconsin [Mr. GUNDERSON] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Michigan [Mr. KILDEE].

Mr. KILDEE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, today I am pleased to call up legislation which will help to substantially improve education for Indian students attending Federal schools. H.R. 2908 will amend and perfect Indian education amendments passed in 1984. This bill was reported unanimously by the Education and Labor Committee. I think this is a classic example of what can be accomplished by bipartisan cooperation. The gentleman from Wisconsin [Mr. GUNDERSON] and the gentleman from Pennsylvania [Mr. GOODLING] joined with me to assure both the development and passage of this bill. The gentleman from Vermont [Mr. JEFFORDS] expedited its passage through the committee. An identical bill, Mr. Speaker, has been reported by the Senate committee. However, I have been informed that the Senate, by unanimous consent, intends to take up this bill as soon as it arrives in that body.

The Indian Education Amendments of 1984, which was introduced by myself, was passed last year with bipartisan support. However, the Bureau of Indian Affairs and the Senate Committee on Indian Affairs asked for further consideration and review of certain provisions of that bill. H.R. 2908 does just that as a result of that review over this past year.

□ 1220

This bill clarifies the 1984 act regarding school closures and attendance boundaries. We have answered some questions regarding facilities management, stipends and local procurement. Sections dealing with personnel and standards, the waiver of rent, and contracting responsibilities have been deleted.

Mr. Speaker, this bill represents a multipartite effort to improve Indian education. Involved in it were the Senate Committee on Indian Affairs, which performed tirelessly in this effort. The Bureau of Indian Affairs agreed to a daylong meeting with us where we had a very frank and honest discussion, and ultimately, a very fruitful discussion.

The Indian tribes and organizations throughout this country showed patience, understanding, and support of this bill. My own chairman, the chairman of the full Education and Labor Committee, Mr. HAWKINS, extended to me very close cooperation during these long negotiations.

Mr. Alan Lovesee, the counsel for the committee, has been the constant and faithful overseer of this bill, and he has earned the gratitude of the Indians of this country.

Mr. Speaker, I will continue my interest and concern of Indian education, knowing that today we are taking some steps to improve it. Mr. Speaker, another school year is rapidly approaching; no one wishes to lose time; I therefore urge that my colleagues support this measure.

Mr. Speaker, I reserve the balance of my time.

Mr. GUNDERSON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I join my colleague from Michigan [Mr. KILDEE] in supporting this legislation. The Indian Education Technical Amendments Act of 1985 are the result of a bipartisan effort involving both the House and Senate. Their purpose is to address a number of concerns raised by the Bureau of Indian Affairs and the Indian community over provisions contained in the Indian Education Amendments of 1984.

During deliberation of the 1984 amendments in the Education and Labor Committee, I questioned a number of the provisions that also caused concern for the Bureau. The amendments we are considering today successfully address those concerns and are in fact the product of negotiations between the House, Senate, Indian community, and the Bureau of Indian Affairs. Now that the major objections to this legislation have been removed, I am hopeful that the key provisions of last year's amendments will take effect.

The Indian education system is one that deserves our special attention. It has great potential to be a positive influence in the lives of many Indian students. Yet, to date it has not fulfilled that potential. Through the efforts of Mr. KILDEE and other Members of the House and Senate this legislation takes a step toward improving those schools and giving Indian students greater educational opportunity.

Let me just add that this legislation entails no new spending. I urge my colleagues on both sides of the aisle to join me in supporting these technical amendments.

Mr. Speaker, I yield back the balance of my time.

● Mr. GOODLING. Mr. Speaker, I rise to speak in support of the Indian Education Technical Amendments of 1985. These amendments originated in the Elementary, Secondary, and Vocational Education Subcommittee and are the result of bipartisan efforts in both the House and the Senate.

The provisions contained in this legislation address a number of concerns raised by the Bureau of Indian Affairs and the Indian community over the Indian Education Amendments of 1984. The compromise reached on these points has erased the objections of the the administration while maintaining the support of the Indian people.

I hope that the amendments we are considering here today will help Indian schools attain the same degree of excellence sought by educators throughout the country. I commend my colleague from Michigan [Mr. KILDEE] for his work in this area and hope to continue this bipartisan effort to improve the educational system serving Indian students.●

Mr. KILDEE. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by

the gentleman from Michigan [Mr. KILDEE] that the House suspend the rules and pass the bill, H.R. 2908, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr KILDEE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H.R. 2908, the bill just passed.

The SPEAKER pro tempore (Mr. MONTGOMERY). Is there objection to the request of the gentleman from Michigan?

There was no objection.

CIVIL SERVICE RETIREMENT CONTRIBUTIONS FOR MILITARY SERVICE

Ms. OAKAR. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1131) to amend title 5, United States Code, to modify the method for determining the amount payable by a Federal employee or Member of Congress in order to receive credit under the civil service retirement system based on certain military service, as amended.

The Clerk read as follows:

H.R. 1131

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) section 8334(j)(1) of title 5, United States Code, is amended—

(1) in the first sentence, by striking out "7 percent" and inserting in lieu thereof "a percentage (as determined under the following sentence)"; and

(2) by inserting after the first sentence the following: "In computing an amount payable under this paragraph, the applicable percentage for any period shall be the percentage which would apply under subsection (c) of this section if the service had been performed as such an employee or Member, as the case may be.".

(b) The amendments made by subsection (a) shall take effect October 1, 1985, and shall apply with respect to individuals retiring on or after such date.

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentlewoman from Ohio [Ms. OAKAR] will be recognized for 20 minutes and the gentleman from Alaska [Mr. YOUNG] will be recognized for 20 minutes.

The Chair recognizes the gentlewoman from Ohio [Ms. OAKAR].

Ms. OAKAR. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, today the House is considering H.R. 1131, a bill that would modify the method for determining the amount payable by a Federal employee or Member of Congress in order to receive credit under the civil service retirement system for military service.

H.R. 1131 was introduced by my good friend and colleague, Congressman JAMES OBERSTAR OF Minnesota. I would like to thank Congressman OBERSTAR for his fine efforts on behalf of this important legislation.

The basic purpose of this bill is very straightforward. It provides that former members of the armed forces who wish to receive civil service retirement credit for military service after 1956 contribute the same amount as civilian employees to the civil service retirement fund.

Mr. Speaker, H.R. 1131 is needed to correct an inequity caused by Public Law 97-253. This law allowed, for the first time, former military personnel to receive credit toward civil service retirement for their years of military service after 1956 by contributing 7 percent of their basic pay to the retirement fund.

From 1957 through 1969, however, civilian employees only contributed 6.5 percent to the civil service retirement system. Former military personnel are required, under current law, to pay one-half percent more to the retirement fund than their civilian counterparts for the same years of credit.

On June 27, Mr. Speaker, I conducted a hearing on this bill at which testimony was presented to the subcommittee on compensation and employee benefits that clearly pointed out the unfairness of the current law and the need for swift enactment of H.R. 1131. All of the witnesses testified that enactment of this legislation would correct a serious deficiency in existing law by requiring equality of contributions between former military personnel and civilian employees.

On July 23, the subcommittee on compensation and employee benefits considered and unanimously approved an amendment which I introduced in the nature of a substitute to H.R. 1131. My substitute amendment simply made technical changes to the legislation, and clarified that the bill applies only to employees who retire on or after the effective date, October 1, 1985.

Following the lead of the Subcommittee on Compensation and Employee Benefits, the Post Office and Civil Service Committee, on July 24, unanimously approved by voice vote H.R. 1131 as amended.

I would like to thank the minority members of my subcommittee, Mr. MYERS of Indiana and Mr. YOUNG of Alaska, for their cooperation and partnership in passing this legislation. It is certainly a pleasure to work with them. In addition, I would especially like to thank Congressman JAMES OBERSTAR for introducing this legislation.

Finally, Mr. Speaker, I urge my colleagues to vote to suspend the rules and pass H.R. 1131.

Mr. Speaker, I reserve the balance of my time.

□ 1230

Mr. YOUNG of Alaska. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of H.R. 1131, which was reported out of the Post Office and Civil Service Committee without a dissenting vote. The purpose of the bill is simple. It provides that the deposit required for crediting military service to the civil service retirement system be identical to the employee contribution rate in effect at the time the military service was performed. This is only fair.

Under existing law, certain Federal civilian employees can count post-1956 military service toward civil service retirement benefits if they deposit an amount equal to 7 percent of their post-1956 military pay. H.R. 1131 would calculate the deposit to reflect the civil service retirement contribution rates in effect during the period of military service rather than base the contribution on the constant 7 percent now stipulated. From 1956 to 1970, the civil service retirement contribution was 6.5 percent of pay. The rate was increased to 7 percent in 1970. As a result, under existing law former military personnel are required to pay one-half of 1 percent of pay more to the retirement fund for service performed between 1956 and 1969 than their civilian counterparts paid during the same period.

Testimony received by our subcommittee clearly spotlighted the unfairness of the current law and the need for a prompt solution. I urge immediate enactment of H.R. 1131.

Mr. Speaker, I yield back the balance of my time.

Ms. OAKAR. Mr. Speaker, at this time I yield such time as he may consume to the author of the legislation, the gentleman from Minnesota [Mr. OBERSTAR].

Mr. OSERSTAR. I thank the gentlewoman for yielding time to me.

Mr. Speaker, I thank the gentlewoman from Ohio [Ms. OAKAR] who has steered this legislation through to its present position on the House floor, and I would like also to express appreciation to the minority members who have devoted a great deal of time.

It is not often recognized that legislation takes a great deal of time and effort on both sides of the aisle, especially to bring a measure of this kind that generally is not one of the top, biting issues of our time, and yet it is one that cries out for justice. This legislation does justice to people who have been denied for so many years.

It is a great tribute to the gentlewoman from Ohio that she has been willing to devote as much time as she has out of genuine concern for people who have been denied justice in matters of pay equity. This is one of such matters that has been overlooked, but yet one that has not been forgotten.

So many letters have I received, and I am sure the gentlewoman from Ohio and the members on the minority side, over a period of a decade, about this problem and why, those letters ask, can Congress not do something to correct the inequity and inequality in contributions to the retirement system.

Today we take a major step forward achieving that goal of equality, and for that I thank the gentlewoman fron Ohio.

Ms. OAKAR. Mr. Speaker, I have no further requests for time, and I ask for swift consent for the passage of this bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Ohio [Ms. OAKAR] that the House suspend the rules and pass the bill, H.R. 1131, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Ms. OAKAR. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous matter on H.R. 1131, the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Ohio?

There was no objection.

AUTHORIZING THE USE OF OFFICIAL MAIL TO AID IN THE LOCATION AND RECOVERY OF MISSING CHILDREN

Mr. McCLOSKEY. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 1195) to require that a portion of the mail of Congress and the executive branch include a photograph and biography of a missing child, as amended.

The Clerk read as follows:

S. 1195

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. AUTHORITY TO USE PENALTY AND FRANKED MAIL.

(a) AUTHORITY.—(1) Chapter 32 of title 39, United States Code, is amended by adding at the end thereof the following:

"§ 3220. Use of official mail in the location and recovery of missing children

"(a)(1) The Office of Juvenile Justice and Delinquency Prevention, after consultation with appropriate public and private agencies, shall prescribe general guidelines under which penalty mail may be used to assist in the location and recovery of missing children. The guidelines shall provide information relating to—

"(A) the form and manner in which materials and information relating to missing children (such as biographical data and pictures, sketches, or other likenesses) may be included in penalty mail;

"(B) appropriate sources from which such materials and information may be obtained;

"(C) the procedures by which such materials and information may be obtained; and

"(D) any other matter which the Office considers appropriate.

(2) Each executive department and independent establishment of the Government of the United States shall prescribe regulations under which penalty mail sent by such department or establishment may be used in conformance with the guidelines prescribed under paragraph (1).

"(b) The Senate Committee on Rules and Administration and the House Commission on Congressional Mailing Standards shall prescribe for their respective Houses rules and regulations, and shall take such other action as the Committee or Commission considers necessary and proper, in order that purposes similar to those of subsection (a) may, in the discretion of the congressional official or office concerned, be carried out by the use of franked mail sent by such official or office.

"(c) As used in this section, 'Office of Juvenile Justice and Delinquency Prevention' and 'Office' each means the Office of Juvenile Justice and Delinquency Prevention within the Department of Justice, as established by section 201 of the Juvenile Justice and Delinquency Prevention Act of 1974.".

(2) The analysis for chapter 32 of title 39, United States Code, is amended by adding at the end thereof the following:

"3220. Use of official mail in the location and recovery of missing children.".

(b) DEFINITION.—Section 3201 of title 39, United States Code, is amended—

(1) in paragraph (4), by striking out "and";

(2) in paragraph (5), by striking out the period and inserting in lieu thereof "; and"; and

(3) by adding at the end thereof the following:

"(6) 'missing child' has the meaning provided by section 403(1) of the Juvenile Justice and Delinquency Prevention Act of 1974.".

(c) CONFORMING AMENDMENT.—Section 3204(a) of title 39, United States Code, is amended by striking out "section," and inserting in lieu thereof "section or section 3220(a) of this title,".

SEC. 2. ISSUANCE OF GUIDELINES, RULES, AND REGULATIONS.

(a) GUIDELINES.—The guidelines described in section 3220(a)(1) of title 39, United States Code, as added by this Act, shall be prescribed not later than ninety days after the date of the enactment of this Act.

(b) RULES AND REGULATIONS.—The regulations described in subsection (a)(2) of section 3220 of title 39, United States Code, as added by this Act, and the rules and regulations described in subsection (b) of such section, as so added, shall be prescribed not later than one hundred and eighty days after the date of the enactment of this Act.

SEC. 3. REPORTS.

(a) GENERAL REQUIREMENTS.—Not later than two years after the date of the enactment of this Act, a written report containing the matter described in subsection (b) shall be prepared by—

(1) the Office of Juvenile Justice and Delinquency Prevention and submitted to the President, the President pro tempore of the Senate, and the Speaker of the House of Representatives;

(2) the Senate Committee on Rules and Administration and submitted to the President pro tempore of the Senate; and

(3) the House Commission on Congressional Mailing Standards and submitted to the Speaker of the House of Representatives.

(b) CONTENT OF REPORTS.—Each report under this section shall include—

(1) an assessment of the effectiveness with which any authority provided by section 3220 of title 39, United States Code, as added by this Act, has (during the period covered by the report) been used, insofar as such authority was subject to guidelines or rules and regulations prescribed by the reporting entity;

(2) recommendations as to whether the authority under such section should, insofar as such authority was subject to such guidelines or rules and regulations, be extended beyond the termination date otherwise applicable under section 5; and

(3) any other information which the reporting entity considers appropriate.

SEC. 4. CLARIFICATION RELATING TO COORDINATION OF GOVERNMENT PROGRAMS.

Notwithstanding any other provision of law, the authority provided by section 3220(b) of title 39, United States Code, as added by this Act, shall not be considered to be subject to the authority of any agency within the executive branch of the Government of the United States to coordinate programs relating to missing children.

SEC. 5. TERMINATION DATE.

The amendments made by section 1 and any guidelines, rules, or regulations prescribed to carry out such amendments shall cease to be effective two and one-half years after the date of the enactment of this Act.

The SPEAKER pro tempore. Is a second demanded?

Mr. YOUNG of Alaska. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Indiana [Mr. McCLOSKEY] will be recognized for 20 minutes and the gentleman from Alaska [Mr. YOUNG] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Indiana [Mr. McCLOSKEY].

Mr. McCLOSKEY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, for several years now it has been apparent that this country is faced with a growing and frightening problem: an increasing incidence of missing children. Almost every day we hear a new story of heartbreak, where

a child is abruptly taken from a loving family and never heard from again. The fear, pain, and guilt of parents who suddenly lose a child in this way is very difficult to describe.

Often, these feeling are compounded by another; that of frustration at the limited means available for tracking down a child who disappears. Forced to rely only on their own resources, families see hope slip away as time passes and no leads are found.

Let me take a moment to list just some of the difficulties faced by families who fear their child has been taken by a stranger. First, local police authorities are often reluctant to list a child as missing, and will do so only after several days have passed. By this time, a kidnaper can gain the needed leeway to transport a child well beyond the reach of local law enforcement efforts. Also, there exists no mechanism for placing the vital details of a particular case in a nationwide computer bank. Such a national system would accomplish more in a few minutes than families working on their own could do in many months. Finally, there is some reluctance on the part of both the law enforcement community and the general public to even acknowledge that the problem is a significant one.

Children disappear from their homes for a number of reasons. Many do run away and return within a few days. Others are kidnapped by estranged spouses. And still others are taken by strangers. In the last two instances, the chances of a child returning home unharmed are very slim. The kidnaper, with both physical and psychological power over the child, can easily prevent him or her from getting help. It is clearly up to us, the adults, to devise a means of finding and aiding these helpless victims.

Recently, initiatives have been taken in the private sector to disseminate information about missing children through pictures on grocery bags, toll booth tickets, and milk cartons, and these have been reportedly very successful. It is becoming clear that Congress has a role to play as well. The passing of the Missing Children's Assistance Act in the 98th Congress was the first action taken by the National Legislature to address this complicated issue. Among other things, the act created the National Center for Missing and Exploited Children. The center provides a clearinghouse for information about missing children. Each day, the center fields calls from across the country from people who might have information on a missing child. After only 1 year of existence, the center has already aided in the location of over 800 missing children.

The legislation before us today, S. 1195, is a further step along the road of congressional involvement. I believe the key aspect of the bill is the comprehensive, broad distribution of information that will be obtained by placing the pictures of missing children on Government mail. Everyone receives mail, and Federal Government mail in particular. Exposure for particular cases of missing children for the first time will be nationwide, a feature that has been difficult to achieve in past programs. A national effort is needed to combine and distribute the various sources of information concerning missing children.

S. 1195 will allow executive branch agencies and Members of Congress to participate in this national effort by amending current law to permit discretionary use of penalty and franked mail for purposes of helping to locate missing children. I would stress that it is discretionary, voluntary, and not mandatory. From testimony received at hearings held by the Subcommittee on Postal Personnel and Modernization, consultation with persons deeply involved in the effort to locate missing children, comments from affected executive branch agencies, and dialog with my colleagues on both sides of the aisle, an effective piece of legislation has been formulated.

Guidelines for implementation of the requirements of the bill would be formulated by the Office of Juvenile Justice and Delinquency Prevention within 90 days after enactment. Specific rules and regulations for each agency would be developed after 180 days. Within Congress, the program would be administered by the Senate Committee on Rules and Administration and the House Commission on Congressional Mailing Standards. Guidelines for the congressional program would also be developed within 180 days after enactment.

I would note, also, that there is a sunset provision. We would have a report on the program's effectiveness before 2 years is up, and indeed, for it to go on after that there would have to be another positive vote by the Congress.

I would also like to commend the minority members of the Postal Subcommittee and the full committee for their particular support, particularly the gentleman from Alaska [Mr. YOUNG].

I urge my colleagues to join in the effort to locate this Nation's missing children and return them to their homes and families by supporting this worthwhile piece of legislation today.

Mr. Speaker, I reserve the balance of my time.

Mr. YOUNG of Alaska. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of S. 1195 and urge that my colleagues suspend the rules and approve this important legislation.

The tragedy of missing children is an important problem facing this Nation. The National Center for Missing and Exploited Children estimates that as many as 1.5 million children disappear each year. That is more than 500 each day. Clearly, steps have to be taken to aid in the search for and safe return of our children.

Americans have banded together to assist in these efforts. The National Center for Missing and Exploited Children provides a nationwide clearinghouse for information on missing children. Broadcasters and private industry have also joined in the search with public service announcements and other educational programs.

Congress has played a role also, through legislation such as the Missing Children Act and the Missing Children's Assistance Act. Passage of S. 1195 will further expand Federal assistance in the search for missing children.

The Subcommittee on Postal Personnel and Modernization has held extensive hearings on the bill. Problems with legislation, as identified by our witnesses, have been addressed. I want to compliment Chairman MCCLOSKEY, and Mr. BURTON of Indiana, a member of the subcommittee, for their efforts to achieve a workable piece of legislation.

This bill will encourage Members of Congress and executive agencies to include photos and biographies of missing children in their mailings. If it allows for the return of only one child, S. 1195 will be well worth the effort.

Mr. Speaker, I reserve the balance of my time.

□ 1240

Mr. MCCLOSKEY. Mr. Speaker, I thank the gentleman from Alaska [Mr. YOUNG]. Indeed we can never express enough appreciation for his work, his cooperation, and his leadership in this matter.

Mr. Speaker, I yield such time as she may consume to the gentlewoman from Ohio [Ms. OAKAR].

Ms. OAKAR. Mr. Speaker, I thank the subcommittee chairman for yielding this time to me.

I simply rise to commend the chairman of the subcommittee, the gentleman from Indiana [Mr. MCCLOSKEY], and the ranking minority member, the gentleman from Alaska [Mr. YOUNG], for their fine work on this legislation. What they have done is provide another access for people to be aware of who the missing children in this country are. That is one of the great tragedies in this country, that we have thousands of individuals who are so concerned about their children and have no possible ideas as to what happened to those children.

One of the things we have discovered by having the dairy industry and other industries put the pictures of these children on their cartons, and so

forth, is that to some extent this helps in finding these children. Now, here you have ironed out all the wrinkles relating to what happened on the Senate side with respect to providing Members the opportunity to give access to making sure that the entire country knows that this is a national tragedy and that there are children who can be identified possibly through this means.

I know these gentlemen had to deal with very many kinds of nitty-gritty targets and arguments in order to rectify the problems of the legislation, and I think the patience they displayed and their willingness to take up the subject hastily shows the very, very fine mutual cooperation that has existed on that subcommittee. It is a tribute to the leadership of the gentleman from Indiana [Mr. McCLOSKEY]. I think the parents who have those children who are missing will be forever grateful to him if, as my colleague, the gentleman from Alaska, said, one child is found as a result of our providing this access.

So, Mr. Speaker, I want to commend both these gentlemen. I think this is very, very special legislation, and I extend my congratulations to them.

Mr. McCLOSKEY. Mr. Speaker, I yield such time as she may consume to the distinguished gentlewoman from Louisiana [Mrs. BOGGS].

Mrs. BOGGS. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, as the chairman of the Crisis Intervention Task Force of the Select Committee on Children, Youth and Families, I rise to commend this subcommittee for bringing forth this very, very important piece of legislation. I commend the Chair and the ranking member and all the members of the subcommittee.

I can think of nothing that is more important to the encouragement of all the persons involved in trying to find the missing children in this country than this piece of legislation, and I commend all the subcommittee members for bringing it forth and bringing it to our attention in such a manner, as was done, with such swiftness and with such intelligence and with such patience.

Mr. Speaker, I do indeed urge the passage of this legislation.

Mr. McCLOSKEY. Mr. Speaker, I have no further requests for time.

Mr. YOUNG of Alaska. Mr. Chairman, I yield 11 minutes to the gentleman from Indiana [Mr. COATS].

Mr. COATS. Mr. Speaker, I rise not to oppose S. 1195 because it certainly is indeed one of many efforts that have been under way across the country to deal with an important issue, one that grips the hearts of anyone with children at home, and that is missing children.

Some of the Members may have heard my 1-minute speech on the House floor last week in which I tried to put the issue, however, somewhat in perspective. It appears that we are dealing with some erroneous information, and it is widely quoted throughout the country that there are 1.5 million missing children, and that there are 50,000 children each year abducted by strangers. Of course, these kinds of figures and the attendant publicity to these kinds of figures has given rise to considerable paranoia and fear and concern among parents and individuals throughout the country.

To try to put that somewhat in perspective, I indicated that according to the latest FBI estimates, the figure is not 1.5 million missing children but, rather, closer to some 30,000 missing children. The figure is not 50,000 children abducted by strangers each year but, rather, 67. I know those figures are in conflict with the figures given by the Center for Missing Children, but our minority staff on the Select Committee on Children, Youth, and Families has visited the Missing Children's Center, and I have talked to a number of people that have been involved in this area, and at the very least there is considerable dispute about the numbers.

That does not in any way diminish the importance of one abducted child; that does not in any way diminish the importance of one missing child. It simply gives us information by which perhaps we can better fashion legislation to deal with the problem.

Helen Goodman in her article that was printed in the Washington Post, entitled "Missing Children, Facts and Fears," not too long ago indicated these numbers and also indicated that it is important that we understand not only the correct numbers but the causes for these missing children. It is estimated by a number of authorities—and Ms. Goodman indicated this in her article—that of the 30 some thousand missing children, fully 90 percent and perhaps 98 percent are children who are missing of their own volition. They are runaway children or they are throwaway children. They are children that have been kicked out of the house. Now, that is a tragedy and that is a problem in both respects, but I suggest the solution to that problem is different than the solution to the problem of missing children. As we look at this problem, we need to come up with varying solutions for these varied problems.

Our committee, as the gentlewoman from Louisiana [Mrs. BOGGS] has said, has studied this problem and looked into it, and I anticipate we will do more. We should do more, and we are unquestionably concerned about it.

But, Mr. Speaker, I wanted to bring these facts out to those listening today and those involved with the legislation so that we will not do what is so often done as legislative remedies, that is, simply come up with one solution to take care of it, pass it here in the House of Representatives by unanimous vote or voice vote, and say, "There, we have handled our responsibility to missing children. Look how wonderful we are. We have done the job. Now let us go on to something else."

This is a far more complex problem than one that is involved by simply printing a biography and a picture on a piece of franked mail. We are going to have to deal with the problem of runaway children, children who of their own volition are leaving the house and not coming back or leaving the house for short periods of time. We need to deal with the causes of those problems and with the problems that are within the family that is causing that to happen.

We need to deal with the problem of throwaway children, those children who are being kicked out of the house for one reason or another and told by their parents, "I don't want to see you anymore. Don't walk back in this house."

I suggest that the solution to those problems—and that accounts for as much as 98 percent of the missing children numbers—the solution is going to be considerably different than putting their pictures on a milk carton, a move which I heartily endorse and support, or printing their pictures or biographies on franked or penalty mail.

□ 1250

I wonder if I could take this opportunity to ask the sponsor of this legislation some questions concerning this legislation that is before us. I am unsure or unclear as to the exact nature of how this is going to be accomplished. I noted that the Senate mandated a certain percentage of franked and penalty mail carried biographies and pictures, but apparently the gentleman has changed that legislation. Could the gentleman describe to me why it was changed and what the change is?

Mr. McCLOSKEY. I would say to the gentleman from Indiana [Mr. COATS] that we had more than one full day of testimony, both technically and on the substance of these issues, as the gentleman has so eloquently talked about. As we got the measure from the other body, as well-intentioned and committed to helping on the overall problem as it was, we thought that the real problem was that it made it mandatory on 75 percent of all congressional mailings and 50 percent of all Federal mailings. I think that would be very, very difficult, for example, to pass in this House.

Also, the bill as passed in the other body contained no administrative de-

tails. For example, the Franking Committee is handling the question of regulations in the House. The appropriate body in the Senate handles it in the Senate.

Also, the regulations would be drawn up and proposed generally for the Federal agencies and not the congressional agencies by the Office of Juvenile Justice and Juvenile Deliquency.

As I noted in my opening statement, it has a sunset provision. It would expire within about 2 years without subsequent reenactment, and also provides for the Office of Juvenile Justice and Juvenile Deliquency Prevention to provide a working report before that amount of time for the Congress to judge how it would operate. Within about 180 days after passage, regulations would be available; but I guess one of the main points I was making is that it would be voluntary and not discretionary.

Mr. COATS. That raises a question in my mind, and I appreciate the gentleman clarifying that issue. It raises the question with three or four different agencies prescribing regulations, is there a provision in the bill which would allow for coordination, so that one agency is not defining a missing child and the rules and regulations by which we publicize this differ from another agency?

It seems to me that could lead to some confusion if the executive branch was using a different set of guidelines than the legislative branch.

Mr. McCLOSKEY. Our report suggests that both the Federal agency and the congressional parties involved coordinate with the National Center for Missing and Exploited Children, which has a very definite interest and a substantial amount of expertise in these matters.

Mr. COATS. As I understand it, the Office of Juvenile Justice and Delinquency Prevention was given an appropriation of about $4 million and part of this was earmarked for a national incident study of just what the situation is. To my knowledge, that has not been completed.

I guess I would just like to ask the gentleman if he is aware of this and if there is something we can do to get them off the dime and get them studying this question so that we can get the proper information before us so that we do not have to dispute these numbers.

Is the gentleman aware of that and is there any progress on this that he can report?

Mr. McCLOSKEY. Actually, we are in very good shape as to the gentleman's concerns. J. Howell testified for about 30 minutes before our committee. He is the Executive Director of the National Center. He gave us very positive ideas, rounding out a full day of testimony, as to ways we could improve on the legislation and pledged his utmost cooperation. He was quite enthusiastic about it.

As to another concern, I am glad the gentleman brought it up. In no way does this bill ever purport to be the final solution as to how to help in this terrible problem of missing children. It is just one significant effort. I would hope this would highlight the concerns and the needs and not pretend to be the last congressional word on it.

Another thing I might note is that the national estimates are 50,000 to 67,000 stranger abducted children yearly. Of course, mailings such as this can also help on problems as to runaways and other children.

The committee deliberately decided not to make a definitive finding as to the numbers involved, because there are different estimates and they can get to be controversial, but I think it is widely recognized as a very major national problem.

Mr. COATS. I thank the gentleman for his response.

I guess the only point I want to make is that there is considerable discrepancy here between the FBI and other estimates as to stranger abducted children in the number of missing children. The FBI says 67 and the Center says 50,000. That is a pretty big gap. We need to find out just what the situation is.

Second, inasmuch as we do know that a considerable number of these children are away from home for reasons other than being abducted by strangers, we need to be sensitive to that and try to do all we can to vary our legislative responses in that regard.

I do thank the gentleman for his effort and work in this area. It is an important area, one that we should focus on. We should make every possible attempt not only to locate these children, but to raise this issue to a level of public consciousness so that we can mobilize this country against this tragedy that is existing.

My final point, just to repeat, it is a multidimensional tragedy, one that we want to be fully aware of all the facts and figures so that we can fashion the right responses.

I thank the gentleman from Alaska for yielding.

Mr. YOUNG of Alaska. Mr. Speaker, I yield 4 minutes to the gentleman from Iowa [Mr. TAUKE].

Mr. TAUKE. Mr. Speaker, I thank the gentleman for yielding the time.

Mr. Speaker, as ranking Republican on the Human Resources Subcommittee which deals with the missing children issue, I commend my colleagues on the Post Office and Civil Service Committee for bringing forward this piece of legislation and, frankly, improving it substantially from the version that came out of the Senate.

I have listened with interest to my colleague, the gentleman from Indiana, who has just talked about the statistics and the problems we have in determining the extent of the missing children problem. While the gentleman is concerned about misleading statistics being offered by the National Center for Missing Children, I am concerned that the statistics which the gentleman offers are substantially misleading.

Let me attempt to say a few words about the extent of the problem. When the National Center for Missing Children talks about 1.5 million children missing in the course in a year, of course, that seems like an astonishing figure. One has to realize that the figures one uses are based in large part on the length of time being discussed. Are we talking about a child being missing for a couple hours or a couple days? Obviously, that makes a great deal of difference.

Also, as the gentleman from Indiana indicated, there are many different kinds of missing children, children abducted by strangers, children abducted by parents in a custody dispute, children who are runaways from home, children who are throw-aways.

I am not certain that I can stand here and vouch for the figures from the National Center for Missing Children. There certainly is substantial question about those figures, but I know that I can say that the FBI's statistics are totally inadequate and inaccurate and should not be relied upon. The FBI statistics are garnered from local police forces who have no uniform method for collecting these statistics. Many local police forces never report missing children at all to the FBI or any national organization.

Moreover, many police forces have as a matter of policy an operation which permits them to classify any child over a certain age who is missing as a runaway child.

We have had testimony within our subcommittee of many tragic circumstances where law enforcement officials, while well intentioned, have simply misclassified individuals as runaways, when in fact they have been abducted; so I do not think my colleagues in the Congress should be lulled in any way by the statistics that have been compiled by the FBI, because those statistics, Mr. Speaker, are absolutely wrong.

This legislation, obviously, is not going to solve all the problems of missing children, but this legislation does complement very well activities already undertaken in the private sector. There is ample evidence that publicizing the faces and information about missing children helps rescue those children. Many people in the private sector have already been involved in the publication of the images and information about missing chil-

dren. This legislation allows government to get into the same business.

□ 1300

This legislation allows the Federal Government to engage in a complementary activity to the private sector by allowing additional publications of faces and names. That, I think, will alert the public to these children and their plight, and that alert to the public will certainly result in more information being made available to local law enforcement officials, and will result in the rescuing of more children.

We have a lot of work to do in Congress in determining the extent of the problem and additional ways to deal with it, but this legislation is a step in the right direction, and I commend my colleague for bringing it to the floor of the House, and I urge its adoption.

S. 1195, as amended by the committee, is a constructive step toward directly involving Federal agencies and Congress in the location and recovery of missing children. When implemented, this Government involvement will complement actions already being taken by hundreds of businesses and individuals in the private sector to disseminate pictures and information about missing children.

The bill instructs the Office of Juvenile Justice and Delinquency Prevention to consult with public and private agencies and issue guidelines under which penalty mail may be used in this effort. I encourage the Office to utilize the expertise and resources of the National Center for Missing and Exploited Children and other organizations in developing practical and effective guidelines on how official mail may best be used to locate and recover missing children.

Consideration should be given to the use of inserts in official mail, as well as the printing of pictures of and information about missing children on penalty and franked envelopes. It is crucial to the efficient and effective use of the huge volume of congressional and agency mail that the information used in this effort be current and accurate.

It has been documented that the controlled dissemination of pictures and information about missing children is an effective means of locating and recovering those children. I therefore urge the timely issuance of regulations as prescribed by this bill and encourage all of my colleagues to participate in this meaningful and important program, which will give further national attention to this serious problem.

It is estimated that 1.5 million children are missing for short periods of time each year. This includes runaways, throwaways, parental abductions, and stranger abductions. Regardless of the cause of the disappearance, the tragedy of a missing child is unparalleled. I am pleased to support this measure as another step toward solving the national problem of missing children.

Mr. McCLOSKEY. Mr. Speaker, I thank the gentleman from Iowa for his eloquent statement, which I think is most in keeping with the substance and spirit of this bill.

● Mr. FORD of Michigan. Mr. Speaker, I rise in strong support of S. 1195, as amended.

I wish to commend the gentleman from Indiana [Mr. McCLOSKEY], for his outstanding leadership. The skill which he brought to this important and complex task was the key to the achievement of the outstanding piece of legislation we have before us today.

Enactment of S. 1195, as amended by the Committee on Post Office and Civil Service, undoubtedly will be of immense assistance in finding missing children. It also solves or avoids the many administrative problems which would have been created by enactment of the original bill as referred to the committee. The final product is representative of the legislative process at its best.

I also wish to thank Chairman FRANK ANNUNZIO of the Committee of House Administration and Chairman GUS HAWKINS of the Committee on Education and Labor for their cooperation and assistance in allowing us to bring this vitally important measure to the floor today.

I urge passage of S. 1195, as amended.●

● Mr. BIAGGI. Mr. Speaker, I urge my colleagues to support S. 1195, as amended, a bill which will allow official Government mail to be used in efforts to locate missing children.

Children disappear for a number of reasons. They leave home voluntarily, they may be victims of noncustodial parental kidnapping, or they may be abducted by total strangers. Of particular concern is the abduction or false imprisonment of children by nonfamily members. While there are statistics which purport to show the magnitude of this problem, I maintain that the data are an inadequate indication of its scope. On June 4, 1985, in a major statement on missing children, I pointed out that ultimately we will learn that this tragedy affects many thousands in this country each year. For this reason, I think it is imperative that we expand Government efforts to assist State, local and private organizations in dealing with this critical problem. S. 1195, as amended, is an important step in the right direction.

I will support this bill as I have supported all legislation directed at the problem of missing children. It will give Federal agencies and congressional offices discretion in determining how the mail they send out may be used to help locate missing children. I appeal to my colleagues to join me in support of this bill. The thousands of families that have been visited by this tragedy deserve no less.●

Mr. McCLOSKEY. Mr. Speaker, I yield back the balance of my time and I urge passage of S. 1195.

Mr. YOUNG of Alaska. Mr. Speaker, I have no further request for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Indiana [Mr. McCLOSKEY] that the House suspend the rules and pass the Senate bill, S. 1195, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate bill, as amended, was passed.

The title of the Senate bill was amended so as to read: "An act to amend title 3, United States Code, to authorize the use of penalty and franked mail in efforts relating to the location and recovery of missing children."

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. McCLOSKEY. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks, and to include extraneous matter, on the Senate bill, S. 1195.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Indiana?

There was no objection.

MAKING MISCELLANEOUS CHANGES IN LAWS AFFECTING THE COAST GUARD

Mr. STUDDS. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2466) to make miscellaneous changes in laws affecting the U.S. Coast Guard, and for other purposes, as amended.

The Clerk read as follows:

H.R. 2466

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That subtitle II of title 46, United States Code, is amended as follows:

(1) In section 2101(14)(C), strike "Material" and substitute "Materials".

(2) Section 2101(21) is amended as follows:

(A) In subclause (A)(ii), strike "crewmember." and substitute "crewmember or other individual engaged in the business of the vessel who has not contributed consideration for carriage on board the vessel.".

(B) Strike subclause (B)(v)-(vii) and substitute the following:

"(v) a guest on board a vessel being operated only for pleasure who has not contributed consideration for carriage on board; or

"(vi) an individual on board a towing vessel of at least 50 gross tons who has not

contributed consideration for carriage on board.".

(C) At the end, add the following new subclause:

"(F) on a sailing school vessel, means an individual carried on the vessel except—

"(i) the owner or representatives of the owner;

"(ii) the master or a crewmember engaged in the business of the vessel who has not contributed consideration for carriage and who is paid for services;

"(iii) an employee of the owner of the vessel engaged in the business of the owner, except when the vessel is operating under a demise charter;

"(iv) an employee of the demise charterer of the vessel engaged in the business of the demise charterer;

"(v) a guest on board the vessel who has not contributed consideration for carriage on board; or

"(vi) a sailing school instructor or sailing school student.".

(D) Strike "or a sailing school vessel," in clause (B).

(3) In section 3302(i)(5), strike "charter" and substitute charterer".

(4) At the end of section 3302, add the following new subsection:

"(k) Only the boiler, engine, and other operating machinery of a steam vessel that is a recreational vessel of not more than 65 feet overall in length are subject to inspection under section 3301(9) of this title.".

(5)(A) Section 3304 is amended as follows:

(i) In the section catchline, strike "Carrying" and substitute "Transporting".

(ii) In subsection (a), strike "carrying cargo that carries" and "vessel." and substitute "transporting cargo that transports" and "vessel if the vessel is otherwise subject to inspection under this chapter.", respectively.

(iii) In subsection (b), strike "Before an individual in addition to the crew is carried" and substitute "Except when subsection (e) of this section applies, before an individual in addition to the crew is transported".

(iv) In subsection (c), strike "The privilege" and substitute "A privilege".

(v) Add at the end the following new subsection:

"(e) The Secretary may by regulation allow individuals in addition to the crew to be transported in an emergency, or under section 2304 of this title.".

(B) In item 3304 in the analysis of chapter 33, strike "Carrying" and substitute "Transporting".

(6) In section 3318(f), before clause (1), strike "then" wherever it appears and substitute "than".

(7)(A) Section 3503 is amended as follows:

(i) Insert "(a)" at the beginning of the section;

(ii) strike the last sentence and substitute "Before November 1, 1993, this section does not apply to a vessel in operation before January 1, 1968, and operating only on the inland waters.".

(iii) add at the end the following:

"(b)(1) When a vessel is exempted from the five-retardant standards of this section—

"(A) the owner, charterer, managing operator, or agent of the vessel shall notify prospective passengers that the vessel does not comply with applicable fire safety standards due primarily to the wooden construction of passenger berthing areas; and

"(B) the owner or managing operator of the vessel may not disclaim liability to a passenger for death, injury, or any other loss caused by fire due to the negligence of the owner or managing operator; and

"(C) the penalties provided in section 3504(c) of this title apply to a violation of this subsection.

"(2) The Secretary shall prescribe regulations under this subsection on the manner in which prospective passengers are to be notified.".

(B) Until the regulations required by clause (7) of this section become effective, the owner, charterer, managing operator, or agent shall notify prospective passengers in all promotional literature and on each ticket that the vessel does not comply with those standards due primarily to the wooden construction of passengers berthing areas.

(8) In section 3714(a)(4), strike "charter" and substitute "charterer".

(9) Section 4308 is amended by striking "operator" wherever it appears and substituting "individual in charge".

(10) In section 7111, strike "Part" and substitute "part".

(11) In section 7312(e) strike "able seaman—limited" and substitute "able seamen—limited".

(12) Section 8104(k) is amended by striking "watchers" and substituting "watches".

(13) In section 8502(a)(4)(A), strike "Part" and substitute "part".

(14) Chapter 89 is amended as follows:

(A) In item 8903 in the chapter analysis, strike "Uninspected" and substitute "Self-propelled, uninspected".

(B) In the catchline of section 8903, strike "Uninspected" and substitute "Self-propelled, uninspected".

(C) In the text of section 8903, strike "An" and substitute "A self-propelled,".

(15) In section 10709(a)(1), before clause (A)—

(A) strike "then $1,500 in value, and" and substitute "than $1,500 in value, the court,"; and

(B) strike "wages, the court" and substitute "wages,".

(16) Section 12122(a) is amended by adding at the end the following sentence: "Each day of a continuing violation is a separate violation.".

(17) In section 13102(a)(4), strike "coordinate carrying the State" and substitute "coordinate carrying out the State".

(18) Section 13104(b) is amended by inserting after "Secretary" the words "for State recreational boating safety programs".

(19) Effective August 26, 1983, chapter 111 is amended as follows:

(A) At the end of the chapter analysis, add the following new item:

"§ 11112. Master's lien for wages."

(B) At the end of the chapter, add the following new section:

"§ 11112. Master's lien for wages

"The master of a documented vessel has the same lien against the vessel for the master's wages and the same priority as any other seaman serving on the vessel.".

SEC. 2. (a) The Coast Guard may enter into a lease in excess of one fiscal year to acquire a site on the State pier in New Bedford, Massachusetts, for construction of maintenance assistance team and vessel support facilities on that pier.

(b) Any lease under this section is effective only to the extent that amounts are provided for in appropriation laws.

(c) Notwithstanding section 322 of the Act of June 30, 1932 (40 U.S.C. 278a), and beginning in fiscal year 1986, the Coast Guard may spend appropriated amounts for the construction of fixed facilities and improvements on that portion of the State pier leased from Massachusetts for the use of a maintenance assistance team and Coast Guard vessels.

SEC. 3. Notwithstanding any other law, the Coast Guard Yard, Curtis Bay, Maryland, and the Coast Guard Aircraft Repair and Supply Center, Elizabeth City, North Carolina, are exempt from statutory and administrative personnel ceilings through September 30, 1988.

SEC. 4. The body of water known as Lawyer's Ditch located at block 5000 in the city of Newark, County of Essex, New Jersey, is declared to be a nonnavigable waterway of the United States within the meaning of the laws of the United States relating to the construction of bridges over navigable waters. The right to alter, amend, or repeal this section is expressly reserved.

SEC. 5. Notwithstanding the last sentence of section 81 of title 14 of the United States Code, the Coast Guard may not, except for the installation of fixed aids to navigation, carry out by contract the determination of the location, or the placement, of aids to maritime navigation in the Intracoastal Waterway in New Jersey.

SEC. 6. The Coast Guard may enter into a contract, agreement, or letter of intent with a municipal utility within the Seventeenth Coast Guard District to provide electricity to a Coast Guard facility without complying with the provisions of section 14 of Public Law 98-557.

SEC. 7. (a) There is established a National Offshore Vessel Operators Safety Advisory Committee (hereinafter in this section referred to as the "Committee"). The Committee shall advise, consult with, and make recommendations to the Secretary of the department in which the Coast Guard is operating (hereinafter in this section referred to as the "Secretary") on matters relating to the safety aspects of offshore oil, gas, and other mineral operations subject to regulation by the Secretary. The Secretary shall consult the Committee before promulgating any general regulations or orders affecting the safety of such offshore operations. Any advice or recommendation made by the Committee to the Secretary shall reflect the independent judgment of the Committee on the matter concerned. The Committee is authorized to make available to Congress any information, advice, and recommendations which the Committee is authorized to give to the Secretary. The Committee shall meet at the call of the Secretary, but in any event not less than once during each calendar year. All proceedings of the Committee shall comply with the Federal Advisory Committee Act (5 U.S.C. App. I).

(b)(1) The Committee shall consist of fifteen members, who have particular expertise, knowledge, and experience regarding the transportation and other technology, equipment, and techniques that are used, or are being developed for use, in the exploration for, or the recovery of, offshore oil, gas, or other mineral resources, as follows:

(A) Two members representing enterprises engaged in the production of oil, gas, or other mineral resources, except that not more than one member may represent companies included on the list of restricted joint bidders prepared by the Department of the Interior;

(B) Two members representing enterprises specializing in offshore drilling;

(C) Two members representing enterprises specializing in the supply of offshore oil,

gas, or other mineral exploration or recovery operations by water;

(D) One member representing those engaged in each of the following specialities;

(i) Construction of offshore exploration or recovery facilities;

(ii) Diving services related to offshore construction; and

(iii) Helicopter services related to offshore construction;

(E) Two members representing individuals employed in offshore operations;

(F) Two members representing environmental interests; and

(G) Two members representing the general public.

(2) The Secretary shall appoint the members of the Committee after first soliciting nominations by notice published in the Federal Register. The Secretary may request the head of any other Federal agency or department to designate a representative to advise the Committee on matters within the jurisdiction of that agency or department.

(3) The Committee shall elect, by majority vote at its first meeting, one of the members of the Committee as the Chairman and one of the members as the Vice Chairman. The Vice Chairman shall act as Chairman in the absence or incapacity of, or in the event of a vacancy in, the Office of the Chairman.

(4) Terms of members appointed to the Committee shall be for three years, except that the terms of those members first appointed under subsection (c)(1) (A), (B), and (C) shall be for two years. The Secretary shall, not less often than once a year, publish notice in the Federal Register for solicitation of nominations for membership on the Committee.

(c)(1) Members of the Committee who are not officers or employees of the United States shall serve without pay and members of the Committee who are officers or employees of the United States shall receive no additional pay on account of their service on the Committee. While away from their homes or regular places of business, members of the Committee may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5, United States Code. The Secretary shall furnish to the Committee an executive secretary and such secretarial, clerical, and other services as are considered necessary for the conduct of its business. There are authorized to be appropriated such sums as may be necessary to implement the provision of this section.

(2) Unless extended by subsequent Act of Congress, the Committee shall terminate five years from the date of enactment of this section.

SEC. 8. (a) Bayou Lafourche, in the State of Louisiana, between Canal Boulevard, city of Thibodaux, Parish of Lafourche and the Southern Pacific Railroad bridge crossing the bayou, city of Thibodaux, Parish of Lafourche, is hereby declared to be a nonnavigable waterway of the United States within the meaning of the laws of the United States relating to the construction of bridges across navigable waters.

(b) The right to alter, amend, or repeal this section is hereby expressly reserved.

SEC. 9. Notwithstanding any other provision of law, the Coast Guard shall transfer, or cause to transfer, to the Keweenaw County Historical Society, Eagle Harbor, Michigan, the Second Order Fresnel Lens from the Rock of Ages Lighthouse, Keweenaw County, Michigan.

SEC. 10. The Port of Houston Authority bridge over Greens Bayou approximately two and eight-tenths miles upstream of the confluence of Greens Bayou, Texas and the Houston Ship Channel is declared to be a lawful bridge for all purposes of the Act entitled "An Act to provide for the alteration of certain bridges over navigable waters of the United States, for the apportionment of the cost of such alterations between the United States and the owners of such a bridge, and for other purposes", approved June 21, 1940 (33 U.S.C. 511 et seq.). The Secretary of the department in which the Coast Guard is operating is authorized to reimburse the owner of the bridge for work done prior to the date of enactment of this section that would be the responsibility of the United States under the Act of June 21, 1940 (33 U.S.C. 511 et seq.) if performed after the date of enactment of this section. The total of all Federal funds authorized to be expended under any law as the result of the declaration made in the first sentence of this subsection shall not exceed $450,000.

The SPEAKER pro tempore. Is a second demanded?

Mr. DAVIS. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Massachusetts [Mr. STUDDS] will be recognized for 20 minutes and the gentleman from Michigan [Mr. DAVIS] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Massachusetts [Mr. STUDDS].

Mr. STUDDS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this legislation makes miscellaneous changes in laws effecting the Coast Guard. The most notable change it makes is to extend for 5 years the current exemption from certain fire safety requirements that has been granted to the paddle wheel river boat, the *Delta Queen*. It also waives personnel ceilings at the Coast Guard's vessel and aircraft repair centers, and authorizes the Coast Guard to make necessary improvements to a State-owned pier in Massachusetts, in order to base two new cutters at that port. H.R. 2466 was amended at the markup held by the Subcommittee on Coast Guard and Navigation to prohibit the Coast Guard from contracting out its aids to navigation function on the New Jersey intracoastal waterway. It was further amended at subcommittee markup to designate lawyer's ditch in New Jersey as a nonnavigable waterway. This designation will eliminate the need for the Coast Guard to issue a permit for the construction of a bridge over the ditch. Several technical and clarifying changes to title 46 of the United States Code were also made at the subcommittee markup.

This bill was further amended by the Full Merchant Marine and Fisheries Committee to establish an advisory committee that will advise the Coast Guard on matters relating to safety in offshore oil and gas operations. Additional amendments at the full committee markup will permit the Coast Guard to enter into a contract to buy electrical power from a municipal utility in Alaska, and will designate Bayou Lafourche, LA as a nonnavigable waterway. That designation will eliminate the need for a Coast Guard permit for the construction of a bridge over the waterway. The full committee also amended the bill to direct the Coast Guard to transfer an unused lighthouse lens to a historical society in Michigan, and to make the Port of Houston eligible for reimbusrement for alterations made to a bridge for purposes of navigation.

There is also one small change being made to this bill today. It clarfies the role of the Offshore Safety Advisory Committee, to ensure that the day-to-day operations of the Coast Guard will not be hindered by the requirement that the Secretary of Transportation consult with the advisory committee.

This legislation will improve the efficiency of Coast Guard operations in several areas; it will result in no significant increase in costs; and I strongly urge its passage.

Mr. DAVIS. Mr. Speaker, I yield myself such time as I may consume.

Mr. DAVIS. Mr. Speaker, my colleague has very clearly described the provisions of H.R. 2466. I support the bill and it is legislation supported by the minority of the Merchant Marine and Fisheries Committee. The miscellaneous changes that are made in laws affecting the Coast Guard are necessary for the continued efficiency of the Coast Guard and are noncontroversial.

There is a provision in this bill which I would like to address. During full committee consideration of H.R. 2466, I offered an amendment which will allow the Coast Guard to give the Keweenaw County Historical Society in my congressional district in Michigan an old lighthouse lens. This lens, a Second Order Fresnel Lens, was once part of the Rock of Ages Lighthouse in Eagle Harbor, MI. The Keweenaw County Historical Society has a museum which attracts some 8,000 visitors a year. They feel very strongly that this artifact should stay in the area and be on display for local residents and tourists alike to enjoy.

The Coast Guard informed me that because of Federal procedures involving excess property, they had to offer the lens to other Federal agencies ahead of local historical societies. In this case, the National Park Service had been designated the recipient of the lens for installation on Isle Royale, a wilderness island off the coast of Michigan in Lake Superior. Isle Royale, although a popular camping and hiking ground for the serious outdoorsperson, is not a place to

which the average tourist travels. It is accessible only by boat and is open only in the summer months.

For these reasons, H.R. 2466 allows the Coast Guard to donate directly to the local museum this artifact, bypassing the normal progression of excess property disposal. I believe that in the case of a highly educational and historical artifact, local placement is far more desirable and only serves to increase the public awareness of, and community involvement with, our U.S. Coast Guard.

The Coast Guard has agreed to make the transfer as a result of the amendment I offered in committee, and the Department of the Interior has voiced no objections to it.

I am very pleased that we are able to have the bill on the floor today and I strongly urge its passage.

Mr. Speaker, I yield such time as he may consume to the gentleman from Alaska [Mr. YOUNG].

Mr. YOUNG of Alaska. Mr. Speaker, I rise in support of H.R. 2466, which makes miscellaneous changes in laws affecting the Coast Guard. In particular, it contains 1 section that affects St. Paul, AK.

On another subject, Mr. Speaker, I would like to support other changes, primarily the *Delta Queen.* Although opposed by the administration, I believe it is the proper thing for this bill to continue the life of the *Delta Queen* on the Mississippi, part of our historical legacy in the South.

The waiting period of 30 legislative days after congressional notification required by the Coast Guard Authorization Act of 1984, may effectively block a municipal $1.2 million power generation project on St. Paul Island, AK. The municipal utility needs a commitment from GSA or the Coast Guard to retain its financing and meet construction deadlines for this summer. This provision calls for an exemption from the notification requirements so that valuable time is not lost due to compliance with these procedures. The exemption from these requirements is discretionary with the Coast Guard so that any agreement would meet their operational requirements.

The Coast Guard presently generates its own power on St. Paul for its long-range electronic aids to navigation facility. The proposed request is for a wind-generating power system with full capacity diesel backup generators. If the project is completed as planned, the Coast Guard would be able to get out of the power business and receive the benefits of: First, economical and reliable power; second, reduced manning requirements; and third, reduced costs in the long run from fully automating the facility. This would also be fully consistent with the general policy of not competing with private enterprise.

This provision would in short be fiscally responsible as well as encourage the local economy and innovative energy generation technology. For this reason, I urge my colleagues to support this bill.

Mr. STUDDS. Mr. Speaker, I yield 2 minutes to the distinguished gentlewoman from Louisiana [Mrs. BOGGS].

Mrs. BOGGS. Mr. Speaker, I thank the gentleman for yielding time to me.

I appreciate the committee's consideration of my request to extend the existing exemption for the *Delta Queen* from the requirements of the Safety of Life at Sea Convention. I also commend the committee for its insistence that the owners of the *Delta Queen* continue to maintain the highest standards of safety preparedness and training on the vessel due to this unique exemption.

Mr. Speaker, I would like to ask the gentleman from Massachusetts to clarify some language for me.

Besides extending the exemption, this legislation requires a special notification to be given to potential passengers of the *Delta Queen* noncompliance with SOLAS fire safety standards for construction materials in passenger berthing areas.

Could the gentleman tell me if it is his intent that this notification be given to the public at large in all advertising or is this notification intended for those potential passengers who have expressed some interest in booking passage on the *Delta Queen*?

Mr. STUDDS. Mr. Speaker, will the gentlewoman yield?

Mrs. BOGGS. I yield to the gentleman from Massachusetts.

Mr. STUDDS. Mr. Speaker, when the Merchant Marine and Fisheries Committee approved H.R. 2466, it was our intention that the owners of the *Delta Queen* would be required to include in all promotional literature and on each ticket a notice that the *Delta Queen* does not met U.S. fire safety standards. It was not our intention that the notification requirement be extended to newspaper and magazine advertisements.

Thus, it is our understanding that all prospective passengers will be notified of the fire safety standards exemption.

Mrs. BOGGS. Mr. Speaker, I thank the gentleman for the clarification.

Mr. STUDDS. Mr. Speaker, I yield 2 minutes to the gentleman from Louisiana [Mr. BREAUX].

Mr. BREAUX. Mr. Speaker, I thank the gentleman for yielding this time to me. I would ask the chairman of the subcommittee, and I did not discuss this with him prior, but I offered an amendment to the gentleman's bill in committee which would establish an off-shore advisory committee of industry to work with the Coast Guard in the promulgation of their safety regulations and other standards that affect the industry, and principally in trying to establish a working industry group. We spelled out the type of professional folks that would be serving on that committee.

I learned recently that apparently in our description of the types we would like to serve on that advisory committee we would not specifically include those representatives of the geophysical industry which is a large part of the off-shore industry. I wonder if perhaps at the appropriate time, and today is not the appropriate time, but if the gentleman would be agreeable to seeing if we could possibly include the geophysical industry as one of the descriptive types of be included in thisoff advisory organization?

Mr. STUDDS. Mr. Speaker, will the gentleman yield?

Mr. BREAUX. I yield to the gentleman from Massachusetts.

Mr. STUDDS. I would say to the gentleman that I have no objection to that whatsoever. At the appropriate parliamentary time, which this is not, as the gentleman knows, I would be perfectly amenable to attempting to make those changes.

Mr. BREAUX. I thank the gentleman.

● Mr. JONES of North Carolina. Mr. Speaker, H.R. 2466 is a type of bill about which all of you are familiar. Each year the committees of the House are requested to make various changes to laws over which they have jurisdiction. H.R. 2466 is this type of bill and it makes changes to Coast Guard laws and programs over which the Subcommittee on Coast Guard and Navigation has jurisdiction.

The subcommittee and the full committee have unanimously approved H.R. 2466, as amended. Many of the provisions are merely corrections and clarifications to current Coast Guard laws. The other sections of the bill deal with particular programs and projects of the Coast Guard that the committee decided to legislatively alter in order to meet the needs of particular areas of the country.

The administration has opposed three sections of the bill. First, they oppose the exemption from fire safety standards for the *Delta Queen.* The older vessels in the United States are made of wood, and by this criteria alone, no older vessel made of wood can pass a Coast Guard fire safety standard. The safety record of the *Delta Queen* in untainted. Because of its safe operating history, and because of the requirement the committee has added to the legislation that requires the owners of the *Delta Queen* to inform all passengers of the fire safety exemption, the committee has chosen to continue the exemption for the *Delta Queen.*

The committee has also chosen to waive personnel ceilings at the Coast

Guard aircraft repair center in Elizabeth City, NC, and the ship repair yard in Baltimore, MD. The administration's reductions-in-force are often based upon arbitrary and capricious numbers. Although the committee has reluctantly accepted some of these cuts, we have determined that the Coast Guard's ship repair and aircraft facilities should not be included in the personnel ceilings set arbitrarily by OMB.

The administration has also been arduously pushing the agencies, often against their better judgment, to contract out government services to the private sector. Congressman BILL HUGHES disagrees with the administration's decision, not the Coast Guard's decision, to contract out the positioning of aids to navigation in the New Jersey Intracoastal Waterway. The Coast Guard has been responsible for this function in the past and has made the area safe for boaters. The committee believes, in the interest of safety, the Coast Guard's expertise is still necessary to assure the proper positioning of navigational aids in this area.

I urge passage of this bill, H.R. 2466.●

● Ms. MIKULSKI. Mr. Speaker, I rise in very strong support of H.R. 2466, legislation making miscellaneous changes in laws affecting the U.S. Coast Guard.

I want to thank the chairman of the Coast Guard Subcommittee, my friend and colleague, Representative GERRY STUDDS, as well as the chairman of the full committee, Representative WALTER JONES, for their efforts in bringing this legislation to the floor in such a timely fashion.

In particular, I am pleased that H.R. 2466 contains a provision, included at my request, which would waive the personnel ceilings for hiring civilian employees at the Coast Guard Yard in Curtis Bay, MD, through the end of fiscal 1988.

As my colleagues know, the Coast Guard is really an extension of our national defense. It protects our coastal borders, plays a key role in stopping illegal drug traffic, and responds to emergencies in our coastal waters.

Unfortunately, existing statutory personnel hiring ceiling are preventing the Coast Guard from hiring additional individuals to upgrade its fleet at its shipyard in Curtis Bay, MD, a facility located in my congressional district.

The Curtis Bay Yard has a long standing tradition of efficient and cost-effective work for the Coast Guard, enabling the Coast Guard to obtain superior shipbuilding and ship repair craftsmanship at considerable budgetary saving.

In fact, the Navy recently reaffirmed this quality of activity at Curtis Bay in a study evaluating the Port of Baltimore as a potential homeport for naval vessels.

Section 3 of H.R. 2466 will guarantee that the civilian personnel employed in industrial activities funded through the Coast Guard yard fund will be managed each fiscal year solely on: First, the basis of, and consistent with, the workload required to carry out the functions and activities of the yard; and second, the funds made available to the yard for each fiscal year.

In addition, the civilian personnel at the Curtis Bay Yard shall not be subject to any statutory or regulatory constraints or limitations—man-year or full-time equivalent—on the number of personnel that may be employed.

While personnel assignments at the yard will remain subject to available appropriations, the language in section 3 of H.R. 2466 will increase the Coast Guard's flexibility in determining the most efficient use of its personnel and its ship repair funds.

Finally, this legislation will mean jobs for the people of Maryland, and the third Congressional District. The Coast Guard will be able to hire anywhere from 125 to 150 employees for work at Curtis Bay immediately, with the potential to hire as many as 450 additional people in the future, provided annual appropriations are available.

Maryland is proud of the contributions it makes to a more efficient and cost-effective Federal Government. At a time when we are concerned about record budget deficits, it is important that the Coast Guard has the facilities which will enable its fleet to be adequately maintained and upgraded, at the least cost to taxpayers.

Providing more work for Curtis Bay is a key way for the Coast Guard to do this. The yard has the equipment and capabilities, all it needs is the authority to hire enough workers.

Because of the importance of section 3 to the Coast Guard's work, and the other changes made in H.R. 2466, I urge my colleagues to support it. Thank you.●

Mr. STUDDS. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. DAVIS. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Massachusetts [Mr. STUDDS] that the House suspend the rules and pass the bill, H.R. 2466, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

□ 1310

GENERAL LEAVE

Mr. STUDDS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

ENDANGERED SPECIES ACT AUTHORIZATION FOR FISCAL YEARS 1986, 1987, AND 1988

Mr. BREAUX. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1027), to authorize appropriations to carry out the Endangered Species Act of 1973 during fiscal years 1986, 1987, and 1988, as amended.

The Clerk read as follows:

H.R. 1027

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. LISTING.

(a) CANDIDATE SPECIES.—Subparagraph (C) of section 4(b)(3) of the Endangered Species Act of 1973 (16 U.S.C. 1533(b)(3)(C)) is amended by adding at the end thereof the following clause:

"(iii) The Secretary shall implement a system to monitor effectively the status of all species with respect to which a finding is made under subparagraph (B)(iii) and shall make prompt use of the authority under paragraph 7 to prevent a significant risk to the well being of any such species.".

(b) SIMILARITY OF APPEARANCE.—Subsection (e) of such section 4 (16 U.S.C. 1533(e)) is amended by striking out "regulation," and inserting in lieu thereof "regulation of commerce or taking,".

SEC. 2. TREATMENT OF MARINE MAMMALS.

(a) IMPACT STATEMENTS.—Paragraph (4) of section 7(b) of the Endangered Species Act of 1973 (16 U.S.C. 1536(b)(4)) is amended—

(1) by striking out "and" at the end of subparagraph (A);

(2) by inserting "and" after the semicolon at the end of subparagraph (B);

(3) by inserting after subparagraph (B) the following new subparagraph:

"(C) if an endangered species or threatened species of a mammal is involved, the taking will not contravene the purposes and policies of section 2 of the Marine Mammal Protection Act of 1972;";

(4) by striking out "and" at the end of clause (ii);

(5) by redesignating clause (iii) as clause (iv) and by striking out "clause (ii)" in that clause and inserting in lieu thereof "clauses (ii) and (iii); and

(6) by inserting after clause (ii) the following new clause:

"(iii) in the case of marine mammals, specifies those reasonable and prudent measures that the Secretary considers necessary or appropriate to further the purposes and policies of section 2 of the Marine Mammal Protection Act of 1972 with regard to such taking, and to minimize the impact on the species taken for subsistence uses pursuant to section 101(b) of that Act, and

(b) EXEMPTIONS TO TAKING.—Subsection (o) of section 7 of such Act of 1973 (16 U.S.C. 1536(o)) is amended—

(1) by amending the matter preceding paragraph (1)—

(A) by inserting ", sections 101 and 102 of the Marine Mammal Protection Act of 1972," immediately before "or any regulation", and

(B) by striking out "either" and inserting in lieu thereof "any"; and

(2) by striking out "subsection (b)(4)(iii)" in paragraph (2) and inserting in lieu thereof "subsection (b)(4)(iv)".

SEC. 3. EXCEPTION.

Subparagraph (B) of section 10(a)(1) of the Endangered Species Act of 1973 (16 U.S.C. 1539(a)(1)(B)) is amended by inserting "or (C)" immediately after "section 9(a)(1)(B)".

SEC. 4. AUTHORIZATION OF APPROPRIATIONS.

Section 15 of the Endangered Species Act of 1973 (16 U.S.C. 1542) is amended—

(1) by striking out "$27,000,000 for each of fiscal years 1983, 1984, and 1985" in subsection (a)(1) and inserting in lieu thereof "$27,000,000 for fiscal year 1986, $31,000,000 for fiscal year 1987, and $35,000,000 for fiscal year 1988";

(2) by striking out "$3,500,000 for each of fiscal years 1983, 1984, and 1985" in subsection (a)(2) and inserting in lieu thereof "$3,500,000 for fiscal year 1986, $3,800,000 for fiscal year 1987, and $4,000,000 for fiscal year 1988";

(3) by striking out "$1,850,000 for each of fiscal years 1983, 1984, and 1985" in subsection (a)(3) and inserting in lieu thereof "$1,850,000 for fiscal year 1986, $2,000,000 for fiscal year 1987, and $2,200,000 for fiscal year 1988";

(4) by striking out "$6,000,000 for each of fiscal years 1983, 1984, and 1985." in subsection (b) and inserting in lieu thereof "$6,000,000 for fiscal year 1986, $9,000,000 for fiscal year 1987, and $12,000,000 for fiscal year 1988.";

(5) by striking out "1983, 1984, and 1985." in subsection (c) and inserting in lieu thereof "1986, 1987, and 1988."; and

(6) by striking out "$150,000 for each of fiscal years 1983 and 1984, and not to exceed $300,000 for fiscal year 1985," in subsection (d) and inserting in lieu thereof "$300,000 for fiscal year 1986, $350,000 for fiscal year 1987, and $400,000 for fiscal year 1988,".

SEC. 5. TRANSLOCATION OF CALIFORNIA SEA OTTERS.

(a) DEFINITIONS.—For purposes of this section—

(1) The term "Act" means the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.).

(2) The term "agency action" has the meaning given that term in section 7(a)(2) of the Act.

(3) The term "experimental population" means the population of sea otters provided for under a plan developed under subsection (b).

(4) The phrase "parent population" means the population of sea otters existing in California on the date on which proposed regulations setting forth a proposed plan under subsection (b) are issued.

(5) The phrase "prospective action" refers to any prospective agency action that—

(A) may affect either the experimental population or the parent population; and

(B) has evolved to the point where meaningful consultation under section 7(a) (2) or (3) of the Act can take place.

(6) The term "Secretary" means the Secretary of the Interior.

(7) The term "Service" means the United States Fish and Wildlife Service.

(b) PLAN SPECIFICATIONS.—The Secretary may develop and implement, in accordance with this section, a plan for the relocation and management of a population of California sea otters from the existing range of the parent population to another location. The plan, which must be developed by regulation and administered by the Service in cooperation with the appropriate State agency, shall include the following:

(1) The number, age, and sex of sea otters proposed to be relocated.

(2) The manner in which the sea otters will be captured, translocated, released, monitored, and protected.

(3) The specification of a zone (hereinafter referred to as the "translocation zone") to which the experimental population will be relocated. The zone must have appropriate characteristics for furthering the conservation of the species.

(4) The specification of a zone (hereinafter referred to as the "management zone") that—

(A) surrounds the translocation zone; and

(B) does not include the existing range of the parent population or adjacent range where expansion is necessary for the recovery of the species.

The purpose of the management zone is to (i) facilitate the management of sea otters and the containment of the experimental population within the translocation zone, and (ii) to prevent, to the maximum extent feasible, conflict with other fishery resources within the management zone by the experimental population. Any sea otter found within the management zone shall be treated as a member of the experimental population. The Service shall use all feasible non-lethal means and measures to capture any sea otter found within the management zone and return it to either the translocation zone or to the range of the parent population.

(5) Measures, including an adequate funding mechanism, to isolate and contain the experimental population.

(6) A description of the relationship of the implementation of the plan to the status of the species under the Act and to determinations of the Secretary under section 7 of the Act.

(c) STATUS OF MEMBERS OF THE EXPERIMENTAL POPULATION.—(1) Any member of the experimental population shall be treated while within the translocation zone as a threatened species for purposes of the Act, except that—

(A) section 7 of the Act shall only apply to agency actions that—

(i) are undertaken within the translocation zone,

(ii) are not defense-related agency actions, and

(iii) are initiated after the date of the enactment of this section; and

(B) with respect to defense-related actions within the translocation zone, members of the experimental population shall be treated as members of a species that is proposed to be listed under section 4 of the Act.

For purposes of this paragraph, the term "defense-related agency action" means an agency action proposed to be carried out directly by a military department.

(2) For purposes of section 7 of the Act, any member of the experimental population shall be treated while within the management zone as a member of a species that is proposed to be listed under section 4 of the Act. Section 9 of the Act applies to members of the experimental population; except that any incidental taking of such a member during the course of an otherwise lawful activity within the management zone, may not be treated as a violation of the Act or the Marine Mammal Protection Act of 1972.

(d) IMPLEMENTATION OF PLAN.—The Secretary shall implement the plan developed under subsection (b)—

(1) after the Secretary provides an opinion under section 7(b) of the Act regarding each prospective action for which consultation was initiated by a Federal agency or requested by a prospective permit or license applicant before April 1, 1986; or

(2) if no consultation under section 7(a)(2) or (3) regarding any prospective action is initiated or requested by April 1, 1986, at any time after that date.

(e) CONSULTATION AND EFFECT OF OPINION.—A Federal agency shall promptly consult with the Secretary, under section 7(a)(3) of the Act, at the request of, and in cooperation with, any permit or license applicant regarding any prospective action. The time limitations applicable to consultations under section 7(a)(2) of the Act apply to consultations under the preceding sentence. In applying section 7(b)(3)(B) with respect to an opinion on a prospective action that is provided after consultation under section 7(a)(3), that opinion shall be treated as the opinion issued after consultation under section 7(a)(2) unless the Secretary finds, after notice and opportunity for comment in accordance with section 553 of title 5, United States Code, that a significant change has been made with respect to the action or that a significant change has occurred regarding the information used during the initial consultation. Any interested party may petition the Secretary to make a finding under the preceding sentence. The Secretary may implement any reasonable and prudent alternatives specified in any opinion referred to in this subsection through appropriate agreements with any such Federal agency, prospective permit or license applicant, or other interested party.

(f) CONSTRUCTION.—For purposes of implementing the plan, no act by the Service, an authorized State agency, or an authorized agent of the Service or such an agency with respect to a sea otter that is necessary to effect the relocation or management of any sea otter under the plan may be treated as a violation of any provision of the Act or the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 et seq.).

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from Louisiana [Mr. BREAUX] will be recognized for 20 minutes and the gentleman from Alaska [Mr. YOUNG] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Louisiana [Mr. BREAUX].

Mr. BREAUX. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 1027 would extend the authorization for appropriations for the Endangered Species Act and make a number of relatively minor changes in that legislation.

The current Endangered Species Act was enacted in 1973 to address the concern of scientists and naturalists that the rate of species extinctions was increasing rapidly and a number of very visible species, such as the bald

eagle and the whooping crane, were threatened with extinction. Although the publicity surrounding endangered species has focused on the more glamorous species such as the bald eagle, scientists are perhaps more concerned about the loss of biological diversity caused by the increased rate of extinction of both plants and animals. They point to the loss of genetic traits that could provide advances in medicine or agriculture. With the great naturalist, Aldo Leopold, they argue that the first rule of intelligent tinkering is to save all of the pieces.

We last considered the Endangered Species Act in 1982 and developed a series of amendments that were designed to make the act function more effectively to protect endangered species. Some of the changes that we made have been implemented and are working well. For example, the number of listings under the act has increased dramatically since 1982. Only 11 species were listed in 1982; this past year, 46 species were listed.

Unfortunately, many of the changes have not been implemented by regulations. The regulations on section 7 of the act have not been published in final form. As a result, agency practices have been inconsistent throughout the country and the predictability we tried to provide in 1982 has not been realized.

I believe it is essential for the agencies to promulgate the regulations and that we give the act a chance to work. For this reason, the package of amendments we propose are mostly of a technical nature, addressing inconsistencies that have become apparent over the last 3 years. None of the amendments affect the basic elements of the act. The one major provision, involving the translocation of sea otters, reflects a consensus we have worked out among interests that has previously been unable to agree on a plan to conserve the otter.

Mr. Speaker, the legislation before us contains a number of amendments. The first amendment deals with candidate species. These are species for which the Secretary has made a finding that the proposal to list the species is warranted, but for which he does not have the resources to proceed with the listing proposal. Testimony at the hearing revealed that a number of species have become extinct while waiting to be proposed. Our amendment would simply require the Secretary to implement a system to monitor the status of the species on the candidate list and use the existing emergency listing authority where it is warranted.

The bill also contains a provision that would resolve a conflict between the Endangered Species Act and the Marine Mammal Protection Act. Under the 1982 amendments to the ESA, if the Fish and Wildlife Service or the National Fisheries Service finds, after consultation as provided by section 7 of the act, that an action will not jeopardize the continued existence of a species but there may be some incidental take, that take can be allowed if the parties concerned take actions to minimize and mitigate it. Since the Marine Mammal Protection Act prohibits virtually all take of marine mammals, this provision cannot be used for endangered marine mammals. H.R. 1027, as amended, would allow the take if it is consistent with the overall purposes of the Marine Mammal Protection Act. I would point out that quite often the take in question is not lethal but simply minor harassment and would not affect the recovery of the species. I would also point out that the environmental community does not object to this amendment. Another provision in the substitute amendment would simply make a clarifying change to allow for extension of conservation plans to the high seas.

H.R. 1027 also contains a provision to encourage the development and implementation of a plan for the establishment, management, and protection of an experimental population of California sea otters. The translocation is intended to minimize the likelihood that a single oil spill would simultaneously place the parent and experimental populations in jeopardy. The amendment provides, in conjunction with the translocation of sea otters, assurances to the State, commercial, and recreational fishing interests, the oil and gas industry, and involved environmental organizations regarding the relationship to, and effect of, the translocation to their respective activities and areas of concern. In fact, the provision represents a consensus among the various entities involved on how best to provide for the establishment and management of an experimental population of California sea otters.

The initiative for this particular amendment arises, in part, out of a possible conflict between the goals of section 10(j) of the act and the taking prohibitions of the Marine Mammal Protection Act. Section 10(j) was enacted in order to facilitate the recovery of endangered or threatened species through the establishment of experimental populations. Translocation of animals, however, requires the taking of animals to establish the experimental colony. Takings would also be required for purposes of containing otters within a designated translocation zone.

Under section 101(a)(3)(B) of the Marine Mammal Protection Act, however, takings of an endangered or threatened marine mammal such as the California sea otter, may be authorized only for purposes of scientific research. In order to provide increased flexibility for managing a translocated population and to make clear that takings for purposes of furthering the conservation of California sea otters are authorized, this amendment specifies that the taking prohibitions of the Marine Mammal Protection Act shall not apply to those actions that are necessary for translocating, containing, or protecting members of the experimental population. This provision is not intended to establish precedents for either species specific amendments, or for how other experimental populations should be achieved.

In taking this action, we have not addressed the question of whether the translocation could be conducted as scientific research under the existing provisions of the Marine Mammal Protection Act. Moreover, it should be understood that all provisions of the Marine Mammal Protection Act and the Endangered Species Act continue to apply to the parent population except when members of the parent population are within the management zone.

In addition to addressing the possible conflict between the goals of section 10(j) of the Endangered Species Act and the taking prohibitions of the Marine Mammal Protection Act, this legislation sets forth the procedure that has been worked out among the interested parties for developing and implementing a plan for translocating California sea otters. In this regard, the Southern Sea Otter Recovery Plan indicates that one or more translocations may be necessary to bring about the recovery of the species. The provisions of this amendment are not intended to preclude other appropriate means of accomplishing future translocations or to imply that more than one translocation is necessary.

The central component in this procedure is the development of a translocation plan that would specify how the translocation, management, and protection of the experimental population will be carried out. As required by section 5(b) of the amendment, this plan is to be developed by regulation and administered by the Fish and Wildlife Service in cooperation with the appropriate State agency. The translocation plan is required to include the following:

First, the number, age, and sex of the sea otters that are proposed to be translocated;

Second, the manner in which sea otters will be captured, translocated, released, monitored, and protected;

Third, the specification of a translocation zone;

Fourth, the specification of a management zone;

Fifth, the measures that will be taken, including the provision or acquisition of funding, for containing the experimental population; and

Sixth, a description of the relationship of the plan to the status of the species under the Endangered Species Act and to future determinations of the Secretary under section 7 of the Act.

Considerable significance is attached to the specification of the translocation and management zones. These zones define the protections that will apply to members of the experimental population and establish boundaries for purposes of containment. In doing so, the zones are expected to assure adequate protection to the experimental population while minimizing possible conflicts between translocated otters and fisheries and other resource uses and providing as much certainty as practicable to agencies and permit applicants conducting or authorizing activities that may affect the experimental population.

The translocation zone is the area within which otters will be relocated. For this reason, the zone is to include those characteristics that are appropriate for furthering the conservation of the experimental population. Those characteristics would include adequate and suitable food resources, rafting sites, and kelp beds. In addition, the zone should encompass a buffer area, the purpose of which is to insulate the experimental population from the adverse effects of activities that may occur outside of the translocation zone. In delineating this buffer area, the Service is expected to take into account factors such as wind and wave patterns, offshore currents and other oceanographic variables, as well as the type and magnitude of the activities that may adversely affect the experimental population.

The management zone is that area surrounding the translocation zone from which the translocated animals are to be excluded. The management zone is intended to minimize potential conflicts, within that zone, between fisheries and other resource uses and the translocated sea otters. Otters found within the management zone will be treated as part of the experimental population and, consequently, will be captured by feasible, nonlethal means and returned to either the translocation zone or to the range of the parent population.

This legislation emphasizes the importance of maintaining an otter-free management zone. For this reason, the Service has been delegated broad authority to capture and remove otters from any location within the management zone. Should otters migrate into a unit of the National Park System or a marine sanctuary located within the management zone, for example, the Service has the authority and the responsibility to remove those otters. In addition, as pointed out in the committee report, nothing in this amendment is intended to limit the Service's authority to conduct research on sea otters. Especially important in this regard is research to refine the most effective and humane methods for containing otters.

At various points during the discussions on this amendment, the interested parties have acknowledged that the recovery of the sea otter under both the Endangered Species Act and the Marine Mammal Protection Act in a manner that minimizes controversy and reduces or avoids conflicts with other resources uses could be greatly improved by the successful implementation of what has been called the "Zonal management" concept. Under this approach, certain "sea otter zones" where the otters would be protected, would be designated, as would "otter-free zones" where threats to the otters might be too severe or the conflicts between otters and fisheries and other resource uses too substantial. It is my hope and expectation that the Service will actively pursue the zonal management concept in its planning process for bringing about the recovery of the California sea otter.

The translocation plan is also required to include a description of the relationship between implementation of the plan and the status of the species under the act and future determinations that may be made under section 7(a)(2). The purpose of this description is to set forth the effect that translocation is expected to have on the overall recovery of the California sea otter.

As noted above, the Southern Sea Otter recovery plan identifies the translocation of otters to one or more locations as one of the principal achievements necessary, in conjunction with the continued protection and the vitality of the present population, to bring about recovery under the Endangered Sepcies Act. Consequently, it is appropriate that the translocation plan describe the factors that will be taken into account by the Secretary in determining the relationship between a successful translocation and the status of the California sea otter under section 4 of the act. Similarly, the plan should describe how a successful translocation is likely to be taken into account in rendering future biological opinions under section 7(a)(2) of the act.

The translocation plan is to provide for the implementation of an important component of the recovery plan. While addressing a number of general issues related to the long-term management of California sea otters, it is primarily a planning mechanism for the translocation itself. Specifications with respect to long-term management of the California sea otter, including establishment of recovery goals and future translocation needs, should also be contained in the recovery plan for the California sea otter. The Fish and Wildlife Service is expected to address these aspects in its next update of the recovery plan. The translocation plan itself, while discussing these issues, is not intented to replace the recovery plan as the primary long-term management document.

Section 5(c) of the amendment addresses the status of the experimental population under the Endangered Species Act. Under this section, the applicability of section 7 and 9 of the Endangered Species Act, as well as the related taking prohibitions of the Marine Mammal Protection Act, depend on in which of the two zones the activities subject to those authorities would take place. The full protections of section 7 are to apply throughout the translocation zone to nondefense-related agency actions that are initiated after the date of enactment of this legislation. Defense-related actions that occur within the translocation zone, as well as agency actions that take place within the management zone, are subject only to the informal conferral procedure of section 7(a)(4). This amendment in no way limits the applicability of section 7 with respect to agency actions that may affect the parent population except with regard to members of the parent population within the management zone.

Sections 4(d) and 9 of the act and the taking prohibitions of the Marine Mammal Protection Act apply to all activities occuring within the translocation zone, except for defense-related activities. Within the management zone, however, the taking prohibitions of the two acts apply only to directed takings and not to lawful activities that result in incidental takings. As explained above, directed taking by authorized personnel within the management zone for purposes of containment, protection, or to otherwise facilitate implementation of the translocation plan would be allowed.

In order to inject as much certainty into this process as possible, section 5(e) of this amendment provides for an early consultation procedure to be initiated and completed prior to the translocation of otters to the proposed translocation site. The early consultation procedure, with certain exceptions, is in conformity with provisions which already exist in section 7(a)(3) of the act. These exceptions require completion of the early consultation within a given timeframe and establish procedural requirements that must be met before the Secretary may determine, under section 7(b)(3)(B) of the act, that an early consultation biological opinion should not be confirmed. As required by section 5(e), confirmation of a biological opinion issued pursuant to this early consultation procedure may be withheld only

if the Secretary finds, after notice and comment rulemaking, that a "significant change" has occurred with respect to the agency action or the information used during the section 7(a)(3) review. For example, a decline in either the parent or experimental populations could serve as the basis for not confirming an opinion issued during the early consultation. As another example, a change in the nature or magnitude of oil and gas activities that would result in a significantly increased probability of an oilspill harmful to otters could require that an early consultation biological opinion not be confirmed. If a biological opinion issued as a result of early consultation is not confirmed, formal consultation should be initiated under section 7(a)(2).

The Secretary has the authority to determine the information that is required for meaningful consultation. In the case of oil and gas activity in the Outer Continental Shelf, it should be sufficient to initiate early consultation if the action agency and the Service have been provided with appropriately detailed information including such matters as location of lease tracts, number of platforms, expected reserves, cumulative impacts, the type of oil transportation system that will be used, anticipated date of project implementation and data on relevant oceanographic and environmental variables. In all cases, consultation must be initiated through the action agency. However, it is expected that the consultation shall proceed on any prospective action if the Secretary determines that enough information exists for meaningful conclusions to be made. It should be kept in mind that an early consultation requested by the action agency may result in either a jeopardy or a no-jeopardy opinion.

Much of the discussion of management of the sea otter within the translocation zone assumes the successful translocation of an experimental population of sea otters. The Service should specify in the section 5(b) plan what would constitute a successful translocation. Important factors that should be taken into account in determining the success of the translocation include the size and growth rate of the experimental population, the age and sex composition, survival rates for males and females in different age groups, and the status of the habitat. If the Service determines that the translocation is not successful, it should, through the informal rulemaking process, repeal the rule authorizing the translocation. Translocated animals should be returned to the parent population. After the rule is repealed, the limiting provisions of the act would no longer apply. Thus, section 7 and section 9 of the ESA would apply to otters within the management zone.

As noted earlier, the amendment is intended to facilitate the recovery of the California sea otter. The intent is not to establish a separate population for the purpose of providing an additional population to be listed under the act. In the event, however, of a catastrophic event affecting the parent population, such a designation for the experimental population may be necessary and could be accomplished pursuant to the Secretary's listing authority under section 4(a) of the act.

Additionally, while the presence of the experimental population should have some effect upon the evaluation of proposed activities on the parent population, it will be some time before the success of the translocation will be known. Moreover, there is no way that other material factors, including failure to reduce existing risks and increased risks to the parent and experimental populations due to internal or external threats, which might develop in the future, can be predicted. For this reason, this amendment strikes a balance between providing assurances to affected interests and maintaining sufficient protections and management flexibility to meet the recovery needs of the California sea otter.

H.R. 1027 would extend the authorizations for appropriations for 3 years. The authorization for fiscal year 1986 is frozen at the fiscal year 1985 level. The amendment provides for moderate increases for fiscal year 1987 and fiscal year 1988. In particular, we would encourage a greater emphasis on State grants by raising the section 6 authorization from its current level of $6 million to $12 million in fiscal year 1988.

H.R. 1027 does not contain an amendment relating to the take of endangered species by Native Americans for traditional purposes. While there have been conflicting court decisions on this issue, it is clear from the language of the ESA and the legislative history that the ESDA is a nondiscriminatory conservation statute that applies to all citizens equally. It is our understanding that the Departments of Justice and Interior are interpreting the statute in this manner and that they will request the Supreme Court to grant certiorari in the case of *U.S.* v *Dion*, 725 F. 2d 1261 (1985) to resolve this issue.

Mr. Speaker, H.R. 1027 is not designed to strengthen or weaken the Endangered Species Act, but to make it work better. We have tried to resolve the problems that have arisen in the last 3 years and make the act more effective in protecting endangered and threatened species. Our legislation is supported by both environmental and industry groups and I urge its adoption.

Mr. Speaker, I reserve the balance of my time.

Mr. YOUNG of Alaska. Mr. Speaker, I yield myself such time as I may consume.

Mr. YOUNG of Alaska. Mr. Speaker, it has indeed been a pleasure to cosponsor this bill with the distinguished gentleman from Louisiana. As you know, the Endangered Species Act is among the world's strongest laws in providing a multifaceted approach for the protection of endangered species. During its history, the act has been modified several times to provide a balance between species protection and needed development. The goals of the act are indeed noble and, if applied correctly, can be beneficial to species recovery. Though, if misused, the act can impede construction, cause controversy, and bring about unnecessary conflict.

The intent of H.R. 1027 is not to weaken the Endangered Species Act, but to simply make it work better. I concur with the assessment of the gentleman from Louisiana in his explanation of the bill, and support the adoption of it by this body. Our actions will do much to enhance the chances for survival of many endangered and threatened species, and I urge my colleagues to support the passage of this bill.

● Mr. JONES of North Carolina. Mr. Speaker, the Endangered Species Act of 1973 is among the world's foremost conservation statutes. It has set an example for other nations and it has assisted our country in slowing, if not reversing, what had been a headlong dash toward extinction by many species.

H.R. 1027, which is before the House for consideration today, will reauthorize appropriations to carry out programs under this act for the next 3 fiscal years and will make minor modifications to the act to deal with certain problems which have arisen, including the need to translocate part of the existing population of California sea otters to lessen the threat of possible oilspills.

This act, which was passed more than a decade ago, was necessarily broad in scope and complicated in application; yet, it has successfully weathered numerous legislative storms and emerged not only stronger but more effective. Not too long ago, its reauthorization was cause for open conflict between development and conservation interests. Fortunately, in more recent years my committee has been able to bring together such diverse interests and to produce legislation which can be supported by all concerned. I am pleased and proud to say this is again the case with H.R. 1027.

Mr. Speaker, I urge the Members of the House to join with me in passing

H.R. 1027 to reauthorize the Endangered Species Act so that future generations of Americans can enjoy and benefit from the diversity of species with which our country has been blessed.●

● Mr. LENT. Mr. Speaker, I rise in strong support of H.R. 1027, legislation that will reauthorize appropriations to carry out the Endangered Species Act during fiscal years 1986, 1987, and 1988. The Endangered Species Act is among the world's strongest laws in preventing species extinction. It has set an example for other nations and has assisted our country in slowing, if not reversing, what had been a headlong dash toward extinction by many species.

The bill before us today will reauthorize appropriations to carry out programs under this act for the next 3 fiscal years and will make minor modifications to the act to deal with certain problems which have arisen, including the need to translocate part of the existing population of California sea otters to lessen the threat of possible harm to the species.

We last considered the Endangered Species Act in 1982 and enacted a series of amendments that were key elements in a strong endangered species program to better preserve our rich natural heritage, both at home and abroad.

We have come a long way since the Endangered Species Act was passed in 1973. Hundreds of species have been protected and over 800 species have been listed on the endangered species list.

I would like to congratulate the fine efforts of the members of the Merchant Marine and Fisheries Committee, conservation groups, and staff for working together in bringing forth a piece of legislation that will allow future generations of Americans to enjoy a benefit from the diversity of species with which our country has been blessed. I urge the adoption of H.R. 1027 by the Members of the House.

Thank you, Mr. Speaker.●

● Mr. FIELDS. Mr. Speaker, as a cosponsor of H.R. 1027, I am extremely pleased that we are today considering the merits of reauthorizing the Endangered Species Act.

This is the fourth time that Congress has debated legislation to extend this landmark environmental law.

First enacted in 1973 to implement the provisions of the Convention on International Trade in Endangered Species of Wild Fauna and Flora, the importance of the Endangered Species Act has grown considerably over the years.

In fact, during our subcommittee hearing on H.R. 1027, one of the best characterizations of the act was that of Mr. David Attenborough, host of the television series "The Living Planet," who stated that "the Endangered Species Act is a courageous national statement that Americans care about the magnificent land and its wealth of living resources."

In my own State of Texas, which adopted its own Endangered Species Act in 1973, we have witnesses the positive effects that Federal and State statutes have had in providing vital protection to a number of wildlife species. One of the best examples of this protection has been the miraculous resurgence from the brink of extinction of the stately whooping crane.

Today, more than half of the world's 137 whooping cranes live at least part of the year in the Aransas National Wildlife Refuge which is northeast of Corpus Christi, TX, on the Gulf of Mexico.

From the all-time low of 20 in 1941, the whooping cranes' survival is one of the remarkable achievements of the Endangered Species Act. I am convinced that without this law we would have lost forever a variety of wildlife species, including the whooping crane, the brown pelican, the peregrin falcon, the bald eagle, the grizzly bear and many others. As David Attenborough so aptly described: Extinction is a one-way process.

As a Member of Congress, I believe one of our primary goals should be to preserve natural and wildlife resources for future generations. By reauthorizing the Endangered Species Act, we will ensure that millions of people will have an opportunity to see majestic whooping cranes alive in their winter refuge in the State of Texas.

As one of the great conservationists of all time, Theodore Roosevelt, once noted:

> The Nation behaves well if it treats its natural resources as assets which it must turn over to the next generation increased and not impaired in value.

Mr. Speaker, I am proud to be a part of this bipartisan effort to reauthorize the Endangered Species Act and I urge my colleagues to overwhelmingly approve this important legislation.

In this era of difficult and contentious issues, it is indeed rare that we have an opportunity, like H.R. 1027, to enthusiastically support a bill that contributes so much to such a wide variety of living creatures who coexist with us on this planet.

The Endangered Species Act has been an inspiration to people the world over and it is vitally important that this act be extended.

Thank you, Mr. Speaker.●

Mr. YOUNG of Alaska. Mr. Speaker, I have no further requests for time and I yield back the balance of my time.

Mr. BREAUX. Mr. Speaker, I have no further requests for time and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Louisiana [Mr. BREAUX] that the House suspend the rules and pass the bill, H.R. 1027, as amended.

The question was taken; and (two-thirds having voted in favor thereof), the rules were suspended and the bill, as amended, was passed.

The title of the bill was amended so as to read: "A bill to authorize appropriations to carry out the Endangered Species Act of 1973 during fiscal years 1986, 1987, and 1988, and for other purposes."

A motion to reconsider was laid on the table.

SIKES ACT AUTHORIZATION FOR FISCAL YEARS 1986, 1987, AND 1988

Mr. BREAUX. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1202), to authorize appropriations to carry out conservation programs on military reservations and public lands during the fiscal years 1986, 1987, and 1988, as amended.

The Clerk read as follows:

H.R. 1202

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. NATURAL RESOURCES AND FISH AND WILDLIFE MANAGEMENT ON MILITARY RESERVATIONS; REPORT ON MILITARY EXPENDITURES FOR FISH AND WILDLIFE MANAGEMENT.

(a) NATURAL RESOURCES MANAGEMENT.—The Secretary of each military department shall manage the natural resources of each military reservation within the United States that is under the jurisdiction of the Secretary—

(1) so as to provide for sustained multipurpose uses of those resources; and

(2) to provide the public access that is necessary or appropriate for those uses;

to the extent that those uses and that access are not inconsistent with the military mission of the reservation.

(b) FISH AND WILDLIFE MANAGEMENT SERVICES.—The Secretary of each military department shall ensure, to the extent feasible, that the services necessary for the development, implementation, and enforcement of fish and wildlife management on each military reservation within the United States under the jurisdiction of the Secretary are provided by the Department of Defense personnel who have professional training in those services.

(c) FISH AND WILDLIFE MANAGEMENT REPORT.—The Secretary of each military department shall submit to each House of the Congress, before the close of the one-hundred-and-eighty-day period occurring after the close of fiscal year 1986, a detailed report setting forth the amount and purpose of all expenditures made during fiscal year 1986 for fish and wildlife management on each military reservation in the United States under the jurisdiction of the Secretary.

(d) DEFINITIONS.—As used in this section—

(1) The term "military department" means the Department of the Army, the Department of the Navy, and the Department of the Air Force.

(2) The term "United States" means the States, the District of Columbia, the Commonwealth of Puerto Rico, and the territories and possessions of the United States.

SEC. 2. SIKES ACT AMENDMENTS.

(a) COOPERATIVE PLANS.—(1) Section 101 of the Act of September 15, 1960 (commonly referred to as the "Sikes Act"; 16 U.S.C. 670a) is amended to read as follows:

"SEC. 101. (a). The Secretary of Defense is authorized to carry out a program of planning for, and the development, maintenance, and coordination of, wildlife, fish, and game conservation and rehabilitation in each military reservation in accordance with a cooperative plan mutually agreed upon by the Secretary of Defense, the Secretary of the Interior, and the appropriate State agency designated by the State in which the reservation is located.

"(b) Each cooperative plan entered into under subsection (a)—

"(1) shall provide for—

"(A) fish and wildlife habitat improvements or modifications,

"(B) range rehabilitation where necessary for support of wildlife,

"(C) control of off-road vehicle traffic, and

"(D) specific habitat improvement projects and related activities and adequate protection for species of fish, wildlife, and plants considered threatened or endangered;

"(2) must be reviewed as to operation and effect by the parties thereto on a regular basis, but not less often than every 5 years;

"(3) must require that the parties thereto will cooperate in, and take the cooperative plan into account during, the development and review of any multiuse natural resources management plan applicable to the reservation covered by the cooperative plan; and

"(4) may stipulate the issuance of special State hunting and fishing permits to individuals and require payment of nominal fees therefor, which fees shall be utilized for the protection, conservation, and management of fish and wildlife, including habitat improvement and related activies in accordance with the cooperative plan; except that—

"(A) the Commanding Officer of the reservation or persons designated by that Oficer are authorized to enforce such special hunting and fishing permits and to collect the fees therefor, acting as agent or agents for the State if the cooperative plan so provides, and

"(B) the fees collected under this paragraph may not be expended with respect to other than the military reservation on which collected.

"(c) After a cooperative plan is agreed to under subsection (a)—

"(1) no sale of land, or forest products from land, that is subject to that plan may be made under section 2665 (a) or (b) of title 10, United States Code; and

"(2) no leasing of land that is subject to that plan may be made under section 2667 of such title 10;

unless the effects of that sale or leasing are compatible with the purposes of the plan.

"(d) With regard to the implementation and enforcement of cooperative plans agreed to under subsection (a)—

"(1) neither Office of Management and Budget Circular A-76 nor any successor circular thereto applies to the procurement of services that are necessary for that implementation and enforcement; and

"(2) priority shall be given to the entering into of contracts for the procurement of such implementation and enforcement services with Federal and State agencies having responsibility for the conservation or management of fish or wildlife.

"(e) Cooperative plans agreed to under the authority of this section and section 102 shall not be deemed to be, nor treated as, cooperative agreements to which the Federal Grant and Cooperative Agreement Act of 1977 (41 U.S.C. 501 et seq.) applies.".

(2) Subsection (d)(1) of such section 101 (as added by paragraph (1)) shall not affect any contract entered into before the date of the enactment of this Act for the provision of services to implement or enforce a cooperative plan under this Act on any military installation; but shall apply to the renewal, after such date of enactment, of any such contract.

(b) FUNDS COLLECTED UNDER PLANS.—Subsection (a) of section 106 of the Sikes Act (16 U.S.C. 670f(a)) is amended by adding at the end thereof the following new sentence: "All funds that are so collected shall remain available until expended.".

(c) AUTHORIZATION OF APPROPRIATIONS.—Subsections (b) and (c) of section 106 of the Sikes Act (16 U.S.C. 670f (b) and (c)) are each amended by striking out "and 1985," and inserting in lieu thereof "1985, 1986, 1987, and 1988,".

(2) Subsections (a) and (b) of section 209 of the Sikes Act (16 U.S.C. 670o (a) and (b)) are each amended by striking out "and 1985," and inserting in lieu thereof "1985, 1986, 1987, and 1988,".

SEC. 3. FOREST PRODUCTS ON MILITARY RESERVATIONS.

Section 2665(f) of title 10, United States Code, is amended—

(1) by amending paragraph (1)(C) to read as follows:

"(C) for natural resources management that implements approved plans and agreements.", and

(2) by amending paragraphs (2) and (3) to read as follows:

"(2) There shall be deposited into the reserve account the total amount received by the United States as proceeds from the sale of forest products sold under subsections (a) and (b) less—

"(A) reimbursements of appropriations made under subsection (d), and

"(B) payments made to States under subsection (e).

"(3) The reserve account may not exceed $4,000,000 on December 31 of any calendar year. Unobligated balances exceeding $4,000,000 on that date shall be deposited into the United States Treasury.".

The SPEAKER pro tempore (Mr. GRAY of Illinois). Pursuant to the rule, a second is not required on this motion.

The gentleman from Louisiana [Mr. BREAUX] will be recognized for 20 minutes and the gentleman from Alaska [Mr. YOUNG] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Louisiana [Mr. BREAUX].

Mr. BREAUX. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 1202 would reauthorize appropriations for the Sikes Act through fiscal year 1988. This act provides a mechanism for cooperative fish and wildlife conservation and management efforts on U.S. military reservations and other public lands. For military installations, the Secretary of Defense is authorized to enter into cooperative plans with the Secretary of the Interior and the appropriate State fish and wildlife agency to develop and implement fish and wildlife conservation activities on military lands. Over 19 million acres are presently included under these cooperative plans.

During the subcommittee hearing on reauthorization of the Sikes Act it became apparent that the effectiveness of the cooperative plans varied from base to base, depending in part upon the interest of the base commander and the willingness of the commander to initiate requests for assistance from the State and the U.S. Fish and Wildlife Service. My colleague and ranking minority member of the Subcommittee on Fisheries and Wildlife Conservation and the Environment, Mr. YOUNG of Alaska, proposed an amendment to improve the functioning of the Sikes Act. The amendment, contained in H.R. 1202, would address the need for improvement in the cooperative planning program, would ensure that trained professional personnel are actively involved in fish and wildlife conservation activities, and would ensure that revenues generated from renewable natural resources programs on military reservations would be available for resource management on those lands.

Mr. Speaker, I would like to commend the gentleman from Alaska for his strong interest and active involvement in improving the Sikes Act. The Committee on Merchant Marine and Fisheries has worked closely with the Armed Services Committee, and both committees have concurred unanimously in the amendments contained in H.R. 1202. The authorization levels contained in the bill are $1.5 million annually to the Secretary of Defense and $3 million annually to the Secretary of the Interior to carry out the purpose of the act on military lands. Also authorized are $10 million annually to the Secretary of the Interior and $12 million annually to the Secretary of Agriculture to carry out the purposes of the Sikes Act on other public lands, including U.S. Forest Service, Bureau of Land Management, NASA, and the Department of Energy lands. These authorization levels all represent a freeze in authorization at the fiscal year 1985 level. The bill has my strong support, and I urge my colleagues to join with me in approving H.R. 1202.

Mr. Speaker, I reserve the balance of my time.

□ 1320

Mr. YOUNG of Alaska. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 1202, a bill to authorize appropriations to carry out conservation programs on military reservations and public lands through fiscal year 1988.

Referred to as the Sikes Act, this legislation has been reported favorably by both the Committee on Merchant Marine and Fisheries and Armed Services Committee.

The Sikes Act was first enacted by Congress in 1960 and last amended in 1982. The act originally authorized the Secretary of Defense to carry out a program of planning, development, and maintenance of fish and wildlife conservation on military reservations. These installations encompass more than 19 million acres of valuable fish and wildlife habitat. This is equal to almost one-quarter of the land protected in the entire National Wildlife Refuge System. While some of this land provides habitat for endangered, migratory, and nongame species, it represents a major reservoir for resident game species such as deer, grouse, pheasant, and quail, which are of prime interest to American hunters. Clearly, these lands represent a substantial portion of our Nation's wildlife, fish, and game resources and must, to the extent practical, with the primary mission of national defense, be managed as effectively as possible for the protection of these resources.

As passed by the Committees on Merchant Marine and Fisheries and Armed Services, H.R. 1202 would extend the Sikes Act through fiscal year 1988 and amend it in the following ways:

First, require the Secretary of each military department to manage the wildlife and fishery resources under his jurisdiction with trained professionals and to provide sustained multipurpose use and public access.

Second, require that priority in the contracting out for fish and wildlife conservation activities be given to Federal and State fish and wildlife agencies in order to secure the services of trained professionals.

Third, require that cooperative fish and wildlife plans be reviewed by all parties on a regular basis and not less than once every 5 years.

Fourth, require the preparation of a detailed report setting forth the amount and purpose of all expenditures during fiscal year 1986 for fish and wildlife management on each military reservation.

In addition, H.R. 1202 would amend section 2665 of title 10, United States Code, in three ways. It would:

First, modify the existing timber reserve account managed by the Department of Defense to provide for the deposit therein of the total amount, instead of one-half, of the net proceeds for the sale of forest products on military installations;

Second, require that the funds in the reserve account be available for all natural resource management, rather than just forestry as permitted now; and

Third, establish that the reserve account may not exceed $4 million on December 31 of any calendar year.

Mr. Speaker, H.R. 1202 reauthorizes the Sikes Act for fiscal years 1986, 1987, and 1988 at the present level and provides an equitable means of managing fish and wildlife resources on military lands, recognizing the needs of national defense. As my colleagues know, I have been a strong proponent over the years in bringing about a greater emphasis for proper wildlife and fisheries management on our military lands. The members of the Merchant Marine and Fisheries Committee, along with the members of the Armed Services Committee, strongly believe that the bill will provide this assistance.

Mr. Speaker, this summarizes the key provisions of the legislation before us, and I urge my colleagues to support its adoption.

Mr. HUCKABY. Mr. Speaker, I yield 4 minutes to the gentleman from Mississippi [Mr. MONTGOMERY].

Mr. MONTGOMERY. Mr. Speaker, I rise in support of H.R. 1202, which would authorize appropriations to carry out conservation programs on military reservations and public lands through fiscal years 1986, 1987, and 1988.

Referred to as the Sikes Act, this legislation was sequentially referred to the Committee on Armed Services on May 15, after it was reported favorably by the Committee on Merchant Marine and Fisheries.

The Sikes Act was first enacted by Congress in 1960 and last amended in 1982. The act originally authorized the Secretary of Defense to carryout a program of planning, development, and maintenance of fish and wildlife conservation on military reservations. These installations encompass more than 25 million acres of valuable fish and wildlife habitat. In 1974, Congress amended the act to also require fish and wildlife conservation on lands under the jurisdiction of the Secretaries of the Interior and Agriculture.

As passed by the Committee on Merchant Marine and Fisheries, H.R. 1202 would extend the Sikes Act through fiscal year 1988 and amend it in the following ways:

Require the Secretary of each military department to manage the wildlife and fishery resources under his jurisdiction with trained professionals and to provide sustained multipurpose use and public access.

Require that priority in the contracting out for fish and wildlife conservation activities be given to Federal and State fish and wildlife agencies in order to secure the services of trained professionals.

Require that cooperative fish and wildlife plans be reviewed by all parties on a regular basis and not less than once every 5 years.

Require the preparation of a detailed report setting forth the amount and purpose of all expenditures during fiscal year 1986 for fish and wildlife management on each military reservation.

In addition, H.R. 1202, would amend section 2665 of title 10, United States Code, in three ways.

It would:

Modify the existing timber reserve account managed by the Department of Defense to provide for the deposit therein of the total amount, instead of one-half, of the net proceeds from the sale of forest products on military installations.

Require that the funds in the reserve account be available for all natural resource management, rather than just forestry as permitted now.

Establish that the reserve account may not exceed $4 million on December 31 of any calendar year.

The Subcommittee on Military Installations and Facilities held a hearing on this legislation on June 18, 1985. After taking testimony from the Department of Defense and reviewing H.R. 1202, as amended by the Committee on Merchant Marine and Fisheries, the Committee on Armed Services voted unanimously to approve the bill.

Mr. Speaker, we believe that the fish and wildlife conservation programs on military installations resulting from the Sikes Act are extremely worthwhile. In implementing the act, the Department of Defense has entered into cooperative planning agreements with the Fish and Wildlife Service and the directors of the fish and game departments in the States in which the installations are located. To date, more than 19 million acres of fish and wildlife habitat have been protected by these cooperative agreements. This is equal to almost one-quarter of the land protected in the entire National Wildlife Refuge System.

It is clear that this legislation continues a very important program of conservation. On behalf of the Armed Service Committee, I urge the passage of H.R. 1202, as amended.

Mr. YOUNG of Alaska. Mr. Speaker, I yield 5 minutes to the gentleman from Colorado [Mr. KRAMER].

Mr. KRAMER. Mr. Speaker, I rise in support of the reenactment of the Sikes Act, H.R. 1202, both in an individual capacity and as ranking member of the Subcommittee on Military Installations and Facilities of the Committee on Armed Services.

As my colleague from Mississippi [Mr. MONTGOMERY] has just stated, the intent of this act is to improve the

management of fish and wildlife on military installations.

First enacted in 1960, the Sikes Act has accomplished much of that which Congress intended.

H.R. 1202 would require that a priority in any contracting out for managing fish and wildlife resources on military installations be given to Federal and State fish and wildlife agencies in order to secure the service of trained professionals in dealing with the conservation and management of fish and wildlife.

Mr. Speaker, let me assure my colleagues that of course the military missions come first and are foremost. This bill, as amended, would require that professional fish and wildlife personnel be included in the management of wildlife resources in a way that the future harvesting of timber on military installations would not, and I repeat, would not adversely affect the wildlife in those surroundings.

I would like to commend the chairman and members of the Committee on Merchant Marine and Fisheries for their diligent and concerned efforts on this jointly referred legislation, and also the efforts of my colleague from Alaska, Mr. YOUNG, who came in front of our subcommittee and made a very, very excellent presentation.

Mr. Speaker, I believe that H.R. 1202 would provide an equitable means of managing the fish and wildlife resources on our military bases, while recognizing the needs of national defense.

I urge its passage.

● Mr. JONES of North Carolina. Mr. Speaker, I rise in strong support of H.R. 1202, legislation to amend the Sikes Act and reauthorize it through fiscal year 1988. I would also like to take this opportunity to commend my colleague and friend, the Honorable DON YOUNG, who initiated the proposed changes to the act.

The Sikes Act, as passed by Congress in 1960, authorized the Secretary of Defense to carry out a program of planning, development, maintenance, and coordination of wildlife, fish, and game conservation on military lands pursuant to cooperative plans agreed to by the Secretary of the Interior and the appropriate State fish and wildlife agency. To date, more than 19 million acres have been covered by these cooperative plans.

In 1974, Congress amended the act to include development of cooperative plans to manage fish and wildlife resources on other public lands, such as Forest Service lands.

H.R. 1202 would extend the current annual authorization of $1.5 million for the Secretary of Defense and $3 million for the Secretary of the Interior through fiscal year 1988 to carry out the provisions of the Sikes Act on military lands. It also extends the current annual authorization of $10 million for the Secretary of the Interior and $12 million for the Secretary of Agriculture through fiscal year 1988 to carry out the provisions of the Sikes Act on other public lands.

Amendments to the act would further strengthen it by requiring that plans be developed for each military reservation in cooperation with all the appropriate State and Federal parties and that Federal and State agencies with expertise in fish and wildlife management be given priority in any contracting.

Finally, the legislation would modify the existing timber reserve account to permit all proceeds received from the sale of forest products to be used for management of all natural resources, rather than just forestry.

This legislation was reported by unanimous voice vote by both the Merchant Marine and Fisheries Committee and the Armed Services Committee. It is a good, solid piece of conservation legislation which I urge my colleagues to support.●

Mr. BREAUX. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. YOUNG of Alaska. Mr. Speaker, I have no requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Louisiana [Mr. BREAUX] that the House suspend the rules and pass the bill, H.R. 1202, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The title of the bill was amended so as to read: "A bill to enhance the carrying out of fish and wildlife conservation and natural resource management programs on military reservations, and for other purposes."

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. BREAUX. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H.R. 1202, the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Louisiana?

There was no objection.

AUTHORIZATION FOR CERTAIN COMPONENTS OF THE NATIONAL WILDLIFE REFUGE SYSTEM

Mr. BREAUX. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1789) relating to the authorization of appropriations for certain components of the National Wildlife Refuge System, as amended.

The Clerk read as follows:

H.R. 1789

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. BON SECOUR NATIONAL WILDLIFE REFUGE.

Section 5(1) of the Act entitled "An Act to establish the Bon Secour National Wildlife Refuge", approved June 9, 1980 (Public Law 96-267, 94 Stat. 484) is amended to read as follows:

"(1) $15,300,000 for the period beginning October 1, 1985, for the acquisition of the refuge; and".

SEC. 2. TENSAS RIVER NATIONAL WILDLIFE REFUGE.

Section 5 of the Act entitled "An Act to establish the Tensas River National Wildlife Refuge", approved June 28, 1980 (Public Law 96-285, 94 Stat. 597) is amended to read as follows:

"SEC. 5. For purposes of carrying out this Act, there are authorized to be appropriated—

"(1) beginning October 1, 1985, not to exceed $10,000,000 to the Department of the Interior; and

"(2) beginning October 1, 1980, not to exceed $40,000,000 to the Department of the Army.

These sums are to remain available until expended.".

SEC. 3. BOGUE CHITTO NATIONAL WILDLIFE REFUGE.

Section 5 of the Act entitled "An Act to establish the Bogue Chitto National Wildlife Refuge", approved June 28, 1980 (Public Law 96-288, 94 Stat. 604) as amended—

(1) by striking out "beginning October 1, 1980";

(2) by amending subsection (a) to read as follows:

"(a) beginning October 1, 1985, $10,000,000 for the acquisition of lands and interests therein, to remain available until expended; and"; and

(3) by amending subsection (b) to read as follows:

"(b) $1,000,000 for construction of the refuge headquarters and boat launching facilities and the accomplishment of boundary surveys, to remain available until expended.".

SEC. 4. TINICUM NATIONAL ENVIRONMENTAL CENTER.

Section 1 of the Act entitled "An Act to provide for additional authorization of appropriations for the Tinicum National Environmental Center", approved July 25, 1980 (Public Law 96-315, 94 Stat. 957) is amended by striking out "September 30, 1985" and inserting in lieu thereof "expended".

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from Louisiana [Mr. BREAUX] is recognized for 20 minutes and the gentleman from Alaska [Mr. YOUNG] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Louisiana [Mr. BREAUX].

Mr. BREAUX. Mr. Speaker, H.R. 1789 would extend the authorization for four units of the National Wildlife Refuge System. The four refuges include the Tensas River and Bogue Chitto National Wildlife Refuges in Louisiana, the Bon Secour National Wildlife Refuge in Alabama and the

Tinicum Environmental Center in Pennsylvania.

The Tensas River National Wildlife Refuge encompasses almost 50,000 acres of bottomland hardwoods in northeast Louisiana. Most of this refuge was purchased by the Corps of Engineers as a "mitigation bank" to provide mitigation for a number of projects along the Red River. This approach allowed us to save one of the last large areas of hardwood bottomlands while at the same time providing for the appropirate environmental balance for important flood control and navigation projects.

The Tensas Refuge provides habitat for a viable population of black bears and large populations of game animals, including turkey, deer, and fox. Migratory waterfowl use the area as wintering habitat and more than 70 species of nongame birds have been recorded. H.R. 1789 would provide for an additional $10 million for acquisition of bottomland hardwood wetlands, a type of habitat that is critical to our wintering waterfowl. The money would be available until expended.

The Bogue Chitto National Wildlife Refuge protects a unique backwater swamp area along the lower Pearl River in Louisiana and Mississippi. Because of its proximity to New Orleans, it provides a unique natural environment for public recreation and natural resource education. A total of 150 bird species use the refuge for breeding or wintering habitat, in addition to a number of mammals, including bobcat and river otter. H.R. 1789 would provide for an additional $10 million for acquisition of lands within the refuge boundaries. The money would be available until expended.

Bon Secour Refuge was established to preserve a fragile coastal barrier habitat along the Alabama gulf coast. It contains one of the last remaining large segments of undeveloped beaches and dunes along the gulf coast. The diversity of habitat of the Bon Secour Refuge is matched only by the variety of fish and wildlife species found in the area. It is the last major landfall and staging area for at least 90 species of migratory birds during their transgulf fall migration and the first landfall reached upon their return in the spring. In addition, the area supports approximately 125 wintering, 100 resident and 40 nonresident nesting species of birds.

H.R. 1789 would authorize an additional $10 million for the purchase of lands within the refuge boundaries. The authorization would be available until the money is appropriated.

The Tinicum Environmental Center is a wetland refuge within the boundaries of the city of Philadelphia. It has a remarkable variety of bird life for an urban refuge and fills an important role in environmental education. H.R. 1789 would extend the current authorization until expended.

Mr. Speaker, H.R. 1789 recognizes both the value of these lands as wildlife habitat and the fact that we are in a period where the funds are limited. We have made the authorizations open-ended, available until the funds are appropriated. I would note that the bill recently reported by the Appropriation's Committee did not contain funding for any of these refuges. We believe, however, that they are important additions to our refuge system and should be acquired when funds become available. I urge my colleagues to support this legislation.

□ 1330

Mr. Speaker, I reserve the balance of my time.

Mr. YOUNG of Alaska. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 1789, which would extend the authorization for appropriations for four units of the National Wildlife Refuge System. The four units include the Tensas River and Bogue Chitto National Wildlife Refuges in Louisiana, The Bon Secour National Wildlife Refuge in Alabama, and the Tinicum National Environmental Center in Pennsylvania.

Each of these refuges has a unique quality beneficial to many wildlife species in their respective areas and make up an important component of the total National Wildlife Refuge System. They provide valuable habitat for many fish and wildlife species and provide unique opportunities for the general public to appreciate our fish and wildlife resources. Mr. Speaker, I concur with the assessment of the gentleman from Louisiana that appropriations for these refuges be made available until expended and, therefore, urge my colleagues that the four units of the National Wildlife Refuge System addressed in H.R. 1789 be reauthorized. I urge the adoption of this bill by the Members of this body.

Mr. BREAUX. Mr. Speaker, I yield such time as he may consume to the gentleman from Louisiana [Mr. HUCKABY].

Mr. HUCKABY. I thank the gentleman for yielding time to me.

Mr. Speaker, I rise in support of H.R. 1789, legislation to reauthorize certain components of the National Wildlife System. I want to particularly express my support for reauthorizing the Tensas River National Wildlife Refuge located in my Fifth Congressional District, northeast Louisiana. The original authorization for the Tensas Refuge expires at the end of this fiscal year. I believe it is critical to the enhancement and maintenance of this unique wildlife ecosystem that we reauthorize the establishment of the Tensas Refuge for acquisition and administration purposes.

Back in 1980, we initiated the establishment of the Tensas and it has been a long but steady progression toward acquiring a significant amount of some of the finest bottomland hardwood forest left in America today. Out of 25 million acres in the lower Mississippi floodplain, about 19 million has been cleared and drained for agricultural development. Much credit can be given to my esteemed colleague from Louisiana, Congressman JOHN BREAUX, and local conservationists in helping to preserve this contiguous block of land along the Tensas River with its unique fish and wildlife habitat.

The enabling legislation authorized the Secretary of the Interior to expend $10 million for land acquisition, and the U.S. Army Corps of Engineers $40 million to partially mitigate fish and wildlife resource losses in the corps' Vicksburg District. The Congress last appropriated in fiscal 1985, $12.5 million for completion of the Tensas Refuge acquisition, for a total of $47.6 million. Language was inserted in the conference report accompanying the appropriations bill requiring the corps to use savings and slippage funds of their own to bring the total expenditure up to $50 million. This amount will allow for the total purchase of approximately 51,500 to 52,000 acres. The corps has informed me that it anticipates completion of the entire Tensas Refuge acquisition process by early August of this year. The U.S. Fish and Wildlife Service is responsible for managing the refuge and is already doing so on 37,065 acres. It is expected that the remaining acreage will be transferred to the Service by October 1985.

The primary owner of this tract of land is Chicago Mill & Lumber Co., who has been willing to sell its property to the Federal Government from the onset. A total of 34 tracts amounting to 11,365 acres owned by landowners other than Chicago Mill have been identified as having potential value to the Tensas River National Wildlife Refuge. Some of these tracts are entirely within the boundaries of the refuge and some are adjacent to the refuge. All these lands are needed for boundary definition, administrative office sites, wildlife preservation, water management, public access, or for more efficient refuge management.

The Corps of Engineers intends to purchase up to six to eight of these individual private tracts before its funds are expended. The reauthorizing legislation enables the U.S. Fish and Wildlife Service to buy the remaining lands over an indefinite period of time, since they will be purchased strictly on a willing-seller basis.

H.R. 1789 authorizes $10 million to be appropriated for this additional

land acquisition, until expended. Because of everyone's concern for our soaring Federal deficit and the need for budget constraints, this amount is less than what would be needed to purchase all 34 tracts. However, I think we must assume some fiscal courage to bring Government spending under control. As such, the bill only calls for $10 million for Tensas.

Overall, this is a sound and fiscally responsible bill that protects and enhances our environmental heritage contained in our national refuges. It deserves your support and I urge that you vote for its passage.

● Mr. JONES of North Carolina. Mr. Speaker, the next bill for consideration is H.R. 1789, legislation to reauthorize four components of the National Wildlife Refuge System. This legislation was reported by unanimous voice vote by both the Subcommittee on Fisheries and Wildlife Conservation and the Environment and the full Committee on Merchant Marine and Fisheries.

Simply stated, and additional $30 million is authorized by this legislation to acquire lands which Congress included in three National Wildlife Refuges. This money would remain available until expended. The legislation also extends the current authorization of $19.5 million for the Tinicum National Environmental Center to remain available until expended.

Collectively, on these 4 refuges, there are 16 endangered or threatened species, 436 species of birds, 50 species of mammals, and 10 fish species.

The administration has proposed a 3-year moratorium on land acquisition for the Fish and Wildlife Service. I would like to point out that this legislation would have no effect on such a moratorium. The money in H.R. 1789 is authorized until expended. This simply means that whenever the funds become available, these refuge lands can be acquired without further action by Congress.

I support this bill and I strongly urge my colleagues in the House of Representatives to approve it.●

● Mr. EDGAR. Mr. Speaker, I rise in strong support of H.R. 1789, a bill to authorize funding for components of our National Wildlife Refuge System. I commend Chairman BREAUX, Chairman JONES, and the members of the Merchant Marine and Fisheries for bringing this important legislation before us today.

Section 4 of this bill contains an authorization for the Tinicum National Environmental Center in my congressional district. The Tinicum NEC, a marsh at the confluence of Darby Creek and the Delaware River, provides a safe refuge for fish and wildlife in the highly populated and industrialized Philadelphia area. Over 280 bird species have been seen at the center, with 50 species nesting there. The marsh is the only Pennsylvania location of the eastern mud turtle and the one of only three places in the State where the large red-bellied turtle is found. Both of these species are on the State endangered species list.

In addition to being a wildlife habitat, the Tinicum NEC provides an opportunity for a wildlife experience for residents of southeastern Pennsylvania, southern New Jersey, and Delaware. Tinicum had nearly 45,000 visitors in 1983, more than a twofold increase in 5 years. As Congress intended, Tinicum NEC provides high-quality programs in environmental education and wildlife-oriented recreation. Approximately 2,300 students and teachers used the center on educational outings in 1983. The programs at the Tinicum NEC reach even more students through its environmental education training program, which has graduated nearly 300 area teachers.

Mr. Speaker, the Tinicum NEC was first authorized in 1972, and was expanded in 1976 and 1977 to a total authorized acquisition area of about 1,325 acres—I was proud to be the author of Public Law 95-152, the first expansion legislation. By the end of fiscal year 1984, 898 acres had been acquired. In 1980, we authorized $19.5 million for acquisition of remaining land, construction of an educational center, and other projects. Of this sum, $9.6 million has been appropriated for acquisition and $485,000 for other development. The remaining $9.415 million is available until the end of this fiscal year, September 30, 1985.

In order to complete the Tinicum NEC, H.R. 1789 would make the $19.5 million authorized in 1980 available until expended. This amount would be sufficient to complete land acquisition and necessary projects at Tinicum.

The completion of Tinicum is even more important in light of recent events. Last year I joined local officials in urging the Environmental Protection Agency's Region III office to perform additional testing at the Clearview Landfill, located up Darby Creek from Tinicum. Local residents feared that the landfill leached toxic substances into Darby Creek and, eventually, into Tinicum marsh. Region III EPA allayed our concerns by performing soil, water, and air samples which revealed only minimal "background" levels of the PCB's and pesticides that we know are at the Clearview Landfill.

However, at the same time, the U.S. Fish and Wildlife Service sampled fishes and turtles in the marsh for traces of contamination. The results revealed action levels exceeding the standards judged acceptable by the Federal Food and Drug Administration. Because of the inconsistencies of the results, I have requested that Region III EPA investigate and determine the source of the animal contamination. Because Clearview Landfill does not seem to be the source of contamination, I have asked that they pay special attention to the possibility that toxics are leaching from the nearby Folcroft Landfill. I have also requested that the Pennsylvania State Department of Environmental Resources issue a health warning and ban fishing and swimming in the area.

Mr. Speaker, these events underline once again the fragility of our environment and the importance of preserving our natural heritage for future generations. Our work is not over when we designate an area for preservation of make it into a park. In fact, our work is just beginning. Across Pennsylvania and the Nation there are thousands of parks, refuges, and wilderness areas like Tinicum that we must continue to preserve and protect. Fifteen years ago, our Nation experienced an environmental revolution, and we passed the first group of environmental protection laws, like the Clean Water Act and the Clean Air Act. Today, however, we must work for a second environmental revolution, one which protects, the gains we have made and makes a start on solving the more hidden problems like toxic waste contamination. This is the challenge of the 1980's and 1990's.

To this end, I strongly support this bill and its goals of completing one of our most important urban wildlife refuges. Tinicum stands as a tribute to our efforts in protecting the environment in which we live while serving as a source of enjoyment and education for residents of my region. Tinicum should be preserved for future generations, and I recommend passage of H.R. 1787.●

● Mr. LIVINGSTON. Mr. Speaker, I want to express my support for H.R. 1789 which extends and amends the present authorizations which created several important national wildlife refuges, including the bogue Chitto and Tensas National Wildlife Refuges in Louisiana.

First, I would like to thank my colleague from Louisiana, Mr. BREAUX and my friend Mr. YOUNG of Alaska for the support they have given to these refuges since their inception. The passage of Public Law 96-288, which created the Bogue Chitto Refuge, was due in large part to their efforts, as well as those of our colleague, Senator J. BENNETT JOHNSTON, and our departed colleague and friend, Ed Forsythe of New Jersey. Continued support for the Bogue Chitto Refuge and valuable refuge habitats like the Tensas Wildlife Refuge in Northeast Louisiana, are very much appreciated by the people of Louisiana.

Mr. Speaker, extending and amending the current authorization for the Bogue Chitto National Wildlife

Refuge will allow the U.S. Fish and Wildlife service to continue the acquisition of valuable and rare bottomland hardwood wetlands from willing sellers. The current authorization for acquiring these lands expires September 30 of this year, so quick action is vital.

The Bogue Chitto National Wildlife Refuge is located in the Pearl River basin along the border between southern Louisiana and Mississippi. The Refuge consists primarily of low flood plain bottomland hardwood habitat in the heart of the Bogue Chitto Swamp, and has been identified by the U.S. Fish and Wildlife service as one of the most valuable, diverse, and productive wildlife habitats in the Nation. Particularly impressive is the abundance and diversity of flora and fauna it offers. Included in the rich array of wildlife are nearly 150 species of breeding and wintering birds, 47 species of mammals, 131 different reptiles and amphibians, and over 140 species of fish. The Bogue Chitto River Swamp supports tremendous populations of game species such as whitetailed deer, gray and fox squirrel, and eastern wild turkey. Furbearers found there include the raccoon, bobcat, river otter, beaver, muskrat, nutria, gray and red fox, weasel, and mink. At least 9 species of waterfowl winter in the area, and the moist wetland complex provides excellent nesting habitat for the resident wood duck.

Mr. Speaker, my chief concern in asking the House to support this reauthorization is to ensure the protection of bottomland hardwood swamp habitat of up to or near the 40,000 acres originally authorized in Public Law 96-288. As documented in the debate and legislative history on the original Bogue Chitto authorization legislation in 1980, purchase of this acreage from willing sellers should continue. Bottomland hardwood habitat is disappearing in our area of the country at a rate of 300,000 acres per year. Of the 25 million acres of forested wetlands existing just 50 years ago in the Mississippi River Delta, only about 3 million acres remain.

Since Public Law 96-288 was signed into law on June 28, 1980, annual appropriations have been approved by Congress totaling nearly $13 million for the purchase of 23,131 acres, $190,000 for initial start up costs for the refuge, and $450,000 for initial construction costs for the visitor contact station.

My conversations with local community leaders and local and regional Wildlife and Fisheries Service officials reveal that the $10 million in additional authority above what was approved in June 1980, is needed for land acquisition of approximately 8,500 more acres. Second, $400,000 in additional authority above the amount of $1 million originally authorized in Public Law 96-288 is necessary to continue construction of refuge headquarters and other facilities.

The increase in additional spending authority for land acquisition is a result of inflated land cost estimates since the original authorization of $13 million in 1980. The additional $400,000 in spending authority for construction is also inflation related, but will also allow the service to meet the final design criteria for the visitor contact station and wildlife trails for the refuge as well as meet the annual increases in refuge visits in years to come. While the committee did not include additional funds for refuge facilities and construction, these funds can be appropriated under the existing authority of the Fish and Wildlife Act of 1956 (16 U.S.C. 742) and the National Wildlife Refuge Administration Act (16 U.S.C. 668dd) this funding is critical because this refuge, only 30 miles from New Orleans, experienced a 23-percent increase in visits from 1983 to 1984.

Mr. Speaker, I urge this body to approve H.R. 1789.●

Mr. YOUNG of Alaska. Mr. Speaker, I yield back the balance of my time.

Mr. BREAUX. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Louisiana [Mr. BREAUX] that the House suspend the rules and pass the bill, H.R. 1789, as amended.

The question was taken; and (two-thirds have voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

NONGAME FISH AND WILDLIFE CONSERVATION AUTHORIZATION

Mr. BREAUX. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1406) to authorize appropriations for nongame fish and wildlife conservation during fiscal years 1986, 1987, and 1988.

The Clerk read as follows:

H.R. 1406

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 11 of the Fish and Wildlife Conservation Act of 1980 (16 U.S.C. 2910) is amended by striking out "and 1985." and inserting in lieu thereof "1985, 1986, 1987, and 1988.".

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from Louisiana [Mr. BREAUX] will be recognized for 20 minutes and the gentleman from Alaska [Mr. YOUNG] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Louisiana [Mr. BREAUX].

Mr. BREAUX. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the bill before us, H.R. 1406, would reauthorize the Fish and Wildlife Conservation Act of 1980, or Nongame Act, through fiscal year 1988. This act is designed to promote the conservation of fish and wildlife species which are not normally subject to harvest for recreational or commercial purposes. These so-called nongame species make up about 90 percent of the Nation's vertebrate species of fish and wildlife.

The Nongame Act reflects a State-Federal partnership approach in the management and conservation of our valuable fish and wildlife resources. Under the act, States develop comprehensive and coordinate plans for fish and wildlife conservation. When such plans are approved by the Secretary of the Interior, the States are then eligible for partial reimbursement of the expenses associated with plan development, revision and implementation. The Nongame Act is intended to complement other existing programs, such as the Wallop-Breaux Program, which promote efforts on behalf of game species of fish and wildlife.

The U.S. Fish and Wildlife Service estimates that over 93 million Americans enjoy nongame related activities each year, and that those citizens expend over $1 billion annually on recreational activities associated with nongame species. Whether this recreation takes the form of bird watching, nature photography, or simply a stroll though the woods which is made more enjoyable by the prospect of viewing wildlife, it is important that these opportunities be maintained through the wise conservation of our fish and wildlife resources.

The bill before us today would authorize appropriations of up to $5 million annually for the next 3 fiscal years. This represents a freeze of this program at the fiscal year 1985 authorization level. The States have made great progress in developing dedicated funding sources to meet their portion of the costs which would be associated with this program. Thus far, no Federal funds have been appropriated under the Act. However, I believe that the existence of this act provides needed visibility for nongame programs and an incentive for continued development of comprehensive fish and wildlife conservation efforts. I ask my colleagues to join me in support of H.R. 1406.

Mr. Speaker, I reserve the balance of my time.

Mr. YOUNG of Alaska. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 1406, regarding the reauthorization of the Fish and Wildlife Conservation Act of 1980.

As many of my colleagues will recall, the primary initiative for this particular act was brought about by our late friend and colleague, the Honorable Ed Forsythe of New Jersey.

The primary focus of the act, which provides matching funds to the States for the development of comprehensive conservation plans for fish and wildlife, will be to species that are not hunted, the so-called nongame species. The act has the ability of providing funds for fish and wildlife species that provide recreational benefit to over 90 million people each year.

Mr. Speaker, H.R. 1406 would authorize a very modest appropration of up to $5 million per year to support implementation of the Nongame Act. This is the same authorization level that is currently in effect. Fish and wildlife are indeed a significant resource for America, and I urge my colleagues to continue to support the purposes of the act through support of H.R. 1406.

● Mr. JONES of North Carolina. Mr. Speaker, today we are considering H.R. 1406, legislation to extend the current authorization of $5 million annually for the Fish and Wildlife Conservation Act of 1980 through fiscal year 1988.

This act, commonly called the Nongame Act, is designed to promote the conservation of fish and wildlife species which are not normally subject to harvest for recreation, food, or fur.

Under this act, the States prepare conservation plans and, upon approval by the Secretary of the Interior, would receive matching funds from the Federal Government as reimbursement for the development and implementation of the plans. However, there has been no funding for this act to date, so the States have not received any matching money. Despite this lack of Federal assistance, the States have made a major effort to prepare plans and promote protection of nongame species. By extending this authorization, we can encourage a continuation of their efforts and follow through on our commitment to the States at a time when we are asking them to assume more financial responsibility in all areas.

Both the Subcommittee on Fisheries and Wildlife Conservation and the Environment and the full Merchant Marine and Fisheries Committee unanimously reported this bill. I wholeheartedly support it and recommend that H.R. 1406 pass the House of Representatives.●

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. BREAUX. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offerd by the gentleman from Louisiana [Mr. BREAUX] that the House suspend the rules and pass the bill, H.R. 1406

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. BREAUX. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Louisiana?

There was no objection.

NATIONAL AQUACULTURE IMPROVEMENT ACT OF 1985

Mr. BREAUX. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1544) to authorize appropriations to carry out the National Aquaculture Act of 1980 during fiscal years 1986, 1987, and 1988, as amended.

The Clerk read as follows:

H.R. 1544

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "National Aquaculture Improvement Act of 1985".

SEC. 2. FINDINGS, PURPOSE, AND POLICY.

Section 2 of the National Aquaculture Act of 1980 (which Act is hereinafter referred to as the "Act of 1980") (16 U.S.C. 2801) is amended—

(1) by amending subsection (a)(3)—

(A) by striking out "10 per centum" and inserting in lieu thereof "13 percent", and

(B) by striking out "3 per centum" and inserting in lieu therof "6 percent";

(2) by amending subsection (a)(7) by inserting "scientific," before "economic,", and by inserting "the lack of supportive Government policies," immediately after "management information,";

(3) by amending subsection (b)—

(A) by striking out "and" at the end of paragraph (2),

(B) by redesignating paragraph (3) as paragraph (4), and

(C) by inserting after paragraph (2) the following new paragraph:

"(3) establishing the Department of Agriculture as the lead Federal agency with respect to the coordination and dissemination of national aquaculture information by designating the Secretary of Agriculture as the permanent chairman of the coordinating group and by establishing a National Aquaculture Information Center within the Department of Agriculture; and"; and

(4) by amending subsection (c) by inserting "for reducing the United States trade deficit in fisheries products," immediately after "potential" in the first sentence.

SEC. 3. DEFINITIONS.

(1) Section 3 of the Act of 1980 (16 U.S.C. 2802) is amended—

(1) by redesignating paragraph (8) as paragraph (9); and

(2) by inserting after paragraph (7) the following new paragraph:

"(8) The term 'Secretary' means the Secretary of Agriculture.".

SEC. 4. NATIONAL AQUACULTURE DEVELOPMENT PLAN.

Section 4 of the Act of 1980 (16 U.S.C. 2803) is amended as follows:

(1) Subsection (a) is amended—

(A) by striking out "Secretaries" each place it appears in paragraph (2) and inserting in lieu thereof "Secretary";

(B) by amending the first sentence of paragraph (2) by inserting "the Secretary of Commerce and the Secretary of the Interior," immediately after "shall consult with".

(C) by striking out paragraph (3).

(2) Subsection (b) is amended—

(A) by inserting "to" immediately after "determine" in paragraph (1);

(B) by striking out "Secretaries deem" in paragraph (6) and inserting in lieu thereof "Secretary deems"; and

(C) by striking out "Secretaries" in the matter following paragraph (6) and inserting in lieu thereof "Secretary".

(3) Subsection (c) is amended—

(A) by striking out "Secretaries determine" in paragraph (1) and inserting in lieu thereof "Secretary determines";

(B) by striking out "and" at the end of subparagraph (A);

(C) by striking out the period at the end of subparagraph (B) and inserting in lieu thereof "; and"; and

(D) by inserting immediately after subparagraph (B) the following new subparagraph:

"(C) the concurrence of the Secretaries.".

SEC. 5. FUNCTIONS AND POWERS OF SECRETARIES.

Section 5 of the Act of 1980 (16 U.S.C. 2804) is amended as follows:

(1) Subsection (c) is amended to read as follows:

"(c) INFORMATION SERVICES.—(1) In addition to performing such other mandatory functions under this Act—

"(A) the Secretaries shall collect and analyze scientific, technical, legal, and economic information relating to aquaculture, including acreages, water use, production, marketing, culture techniques, and other relevant matters;

"(B) the Secretary shall—

"(i) establish, within the Department of Agriculture, a National Aquaculture Information Center that shall serve as a repository for the information generated under subparagraph (A) and other provisions of this Act and shall, on a request basis, make that information available to the public,

"(ii) arrange with foreign nations for the exchange of information relating to aquaculture and support a translation service, and

(iii) conduct a study of the extent to which the United States aquaculture industry has access to relevant Federal programs which assist the agricultural sector and report to Congress on the findings of such study by December 31, 1986;

"(C) the Secretary of Commerce shall conduct a study, and report to Congress thereon by December 31, 1987, to determine whether existing capture fisheries could be adversely affected by competition from products produced by commercial aquacultural enterprises and include in such study an assessment of any adverse effect, by species and by geographical region, on such fisheries and recommend measures to ameliorate any such effect; and

"(D) the Secretary of the Interior, in consultation with the Secretary of Commerce, shall undertake a study, and report to Con-

gress thereon by December 31, 1987, to identify exotic species introduced into the United States waters as a result of aquaculture activities, and to determine the potential benefits and impacts of the introduction of exotic species.

"(2) Any production information submitted to the Secretaries under paragraph (1)(A) shall be confidential and may only be disclosed if required under court order. The Secretaries shall preserve such confidentiality. The Secretaries may release or make public any information in any aggregate or summary form that does not directly or indirectly disclose the identity, business transactions, or trade secrets of any person who submits such information.".

(2) Subsection (d) is amended—

(A) by striking out "Secretaries" each place it appears and inserting in lieu thereof "Secretary";

(B) by inserting "and in consultation with the Secretary of Commerce and the Secretary of the Interior," immediately after "group" in the first sentence;

(C) by striking out "under section 4(d)" in the second sentence;

(D) by striking out "deem" in the second sentence and inserting in lieu thereof "deems"; and

(E) by striking out the last sentence and inserting in lieu thereof "The first report required under this subsection shall be submitted to Congress by February 1, 1987, and subsequent reports on February 1 of every other year thereafter.".

SEC. 6. COORDINATION OF NATIONAL ACTIVITIES REGARDING AQUACULTURE.

Section 6 of the Act of 1980 (16 U.S.C. 2805) is amended as follows:

(1) Subsection (a) is amended by inserting ", who shall be the permanent chairman of the coordinating group" immediately after "Agriculture" in paragraph (1).

(2) Subsection (c) is repealed.

(3) Subsections (d), (e), and (f) are redesignated as subsections (c), (d), and (e), respectively.

(4) Subsection (e) (as redesignated) is amended—

(A) by striking out "subsection (d)" in the second sentence and inserting in lieu thereof "subsection (c)".

SEC. 7. AUTHORIZATION OF APPROPRIATIONS.

Section 10 of the Act of 1980 (16 U.S.C. 2809) is amended by striking out "1985" in each of paragraphs (1), (2), and (3) and inserting in lieu thereof "1985, and $1,000,000 for each fiscal years 1986, 1987, and 1988".

□ 1340

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from Louisiana [Mr. BREAUX] will be recognized for 20 minutes and the gentleman from Alaska [Mr. YOUNG] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Louisiana [Mr. BREAUX].

Mr. BREAUX. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the next bill is H.R. 1544, the National Aquaculture Improvement Act of 1985 which was also unanimously reported to the House by the Committee on Merchant Marine and Fisheries. I believe this legislation represents a well-planned and fiscally conservative investment in what is a very promising U.S. industry. The U.S. aquaculture industry has enormous potential for providing high protein food, augmenting natural fishery stocks, and for supporting various commercial enterprises such as bait and pet suppliers. Aquaculture has also begun to provide a much needed supplementary income and viable alternative to many traditional farmers facing a very uncertain economic future. Confronting an apparent shift in Federal agricultural assistance policy many farmers in my home State of Louisiana, for example, are rapidly shifting production from rice to crawfish and catfish.

Because this infant industry is so diverse and is comprised of many small-scale operations, H.R. 1544 would establish a National Aquaculture Information Center to serve as a clearinghouse for information and as a central contact point for the industry. The U.S. Department of Agriculture would operate the Center and would be designated as the lead agency in the previously established Interagency Joint Subcommittee on Aquaculture. H.R. 1544 would also ensure that the status of the industry is monitored and that priority research is continued within the U.S. Fish and Wildlife Service and the National Marine Fisheries Service.

In order to ensure that aquaculture development in the United States is achieved in the most constructive manner, the bill further directs that studies be conducted to assess the relationship between aquaculture production and more traditional means of seafood production, and on the effects of introducing exotic species into U.S. waters.

Mr. Speaker, H.R. 1544 would provide for the authorization of $1 million each for the Departments of Agriculture, Commerce, and the Interior for each of fiscal years 1986, 1987, and 1988. These expenditures represent a minor Federal investment which will help diversify and promote significant returns to both the agricultural and fisheries sectors of our economy. Expanded domestic aquaculture production may also contribute to the reduction of the $5 billion annual trade deficit we currently generate in fisheries products. I urge my colleagues here today to join me in supporting this important piece of legislation.

● Mr. DE LA GARZA. Mr. Speaker, I rise in support of H.R. 1544, the National Aquaculture Improvement Act of 1985. This act does two principal things: First, it extends the authorization for appropriations for the National Aquaculture Act of 1980 through fiscal years 1986, 1987, and 1988; and second, it amends the 1980 act to provide a better coordinated role for the Federal Government in promoting the development of the U.S. aquaculture industry to fully realize the potential for aquaculture development in this Nation.

Mr. Speaker, this legislation is the product of cooperative efforts by the Committee on Merchant Marine and Fisheries and the Committee on Agriculture from years past to the present.

H.R. 1544 reflects the combined views and agreements of the membership of our respective committees. It is a pleasure to bring this floor H.R. 1544 that takes into consideration the deverse interests, factors, and parties, resolves all differences, and results in a bill acceptable to all.

Mr. Speaker, first of all, I want to compliment my distinguished colleagues from the Committee on Merchant Marine and Fisheries—especially Mr. BREAUX, the very able chairman of the Subcommittee on Fisheries and Wildlife Conservation and the Environment, and the ranking minority member, Mr. DON YOUNG. Their interest in this legislation and their commitment to further the growth and development of a domestic aquaculture industry is to be commended. I had the privilege and the pleasure of testifying before their subcommittee when this legislation was being originally considered as H.R. 2676. It is important to note that although this legislation gives the Department of Agriculture the lead role in acquaculture, it nevertheless continues to protect the rights, interests, and roles of the Departments of Commerce and the Interior. Once again, I want to thank these gentlemen and their colleagues on the full committee, for their dedication and spirit of cooperation in helping us to bring this legislation to the House.

Now I would like to briefly explain why we are proposing changes in the 1980 act.

The 1980 act was written at a time when there was no clear Federal aquaculture program. There was no clearly understood policy for coordinating the research and development activities necessary for a healthy and viable aquaculture industry. It now seems clear that in drafting that pioneering law, Congress made the mistake of failing to concentrate responsibility for the new Federal effort in a single place.

The 1980 act made three officials—the Secretaries of Agriculture, Commerce, and Interior—equally responsible for developing, implementing, and coordinating Federal aquaculture policy. But one of the lessons that history teaches us is that when a lot of people are in charge, nobody is really in charge. The failure to centralize the direction of the Federal effort in aquaculture has become a substantial barrier to the effective implementation of the act. The result has been that no agency has taken the initiative to encourage and facilitate an effective Federal aquaculture program.

In the opinion of our Committee on Agriculture—an opinion shared by the

Committee on Merchant Marine and Fisheries—H.R. 1544 embodies a better way to get the job done.

The key to developing a really effective Federal effort to support private industry to developing aquaculture lies in providing better coordination and leadership. This is what the National Aquaculture Improvement Act of 1985 does.

First, H.R. 1544 moves to provide both improved coordination and leadership by selecting a single Federal official to take the lead in coordinating Government operations under the act. This official will be the Secretary of Agriculture. In addition, the bill requires the Secretary of Agriculture to establish a National Aquaculture Information Center that will serve as a repository for scientific, technical, legal, and economic information relating to aquaculture, including acreages, water use, production, marketing, culture techniques, and other relevant matters, which, upon request, shall be made available to the public.

While the pending legislation designates the Department of Agriculture as the lead agency for aquaculture programs, this bill also maintains important roles for the Departments of Commerce and the Interior. They must be encouraged to carry out their responsibilities and every effort must be made to be sure that Federal support for aquaculture is carried out in a manner which is fair to all geographical areas and which deals equitably with both warm and estuarine species.

Mr. Speaker, some may ask, "What is so important about developing a domestic aquaculture industry?" The answer is simple. It is important because development of this industry can create jobs and can bring substantial benefits to consumers and the national economy. At present, our fishery industries do not supply our full domestic demand, and we have a very great trade deficit in fishery products. If aquaculture production is fully developed in the United States, it can cut that trade deficit and can provide more ample consumer supplies at reasonable prices. Beyond that, the products of aquaculture can be a great strategic resource—they can play a major role in the years ahead in meeting the world's constantly growing protein needs.

Mr. Speaker, I urge the Members to join me in support of H.R. 1544, as amended.●

Mr. BREAUX. Mr. Speaker, I reserve the balance of my time.

Mr. YOUNG of Alaska. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of the bill before us today, H.R. 1544, the National Aquaculture Act.

The National Aquaculture Act of 1980 was enacted for the purpose of promoting Aquaculture in the United States. This has been accomplished, to a certain degree, despite the lack of appropriations and the lack of administration support.

The National Aquaculture Act states that "it is the national policy to encourage the development of aquaculture in the United States," and further that "a principal responsibility for the development of aquaculture in the United States must rest with the private sector."

The private sector has made great strides in aquaculture in the past few years by almost doubling production since 1980. This is a significant accomplishment, but does not mean the objectives of the act have been met. The Government has acted as a catalyst for private sector initiatives by providing support through research and extension services. A continued Federal role through reauthorization of the National Aquaculture Act can go a long way in supporting and encouraging development of the aquaculture industry.

The bill before us contains one amendment which was adopted unanimously by the Merchant Marine and Fisheries Committee. The amendment established the Department of Agriculture as the lead agency with respect to aquaculture and, within that department, established a National Aquaculture Information Center to coordinate and collect all types of information related to aquaculture.

This is an important change in the original law because there is a need for information to be made available to the aquaculture industry in one centralized location. This will alleviate the problem of wasting both time and money in the search for information.

With appropriate consideration and support, the aquaculture industry will continue to develop, and thus supply new jobs, replenish our fisheries, and help reduce the staggering trade deficit in fishery products.

H.R. 1544, as amended, strengthens the National Aquaculture Act and succeeds in making it a more effective piece of legislation. I urge my colleagues to support the passage of this bill.

● Mr. JONES of North Carolina. Mr. Speaker, I rise in support of H.R. 1544, the National Aquaculture Improvement Act of 1985.

Aquaculture is a growing industry in the United States. This industry is capable of creating new jobs and has the potential to help decrease our trade deficit in fisheries products which was $5 billion in 1984.

The private sector has made great strides in aquaculture over the past few years, particularly regarding those species for which the Federal Government funded and carried out fundamental aquaculture research and development.

This bill would designate the Department of Agriculture as the lead Agency in coordinating aquaculture activities and collecting and disseminating aquaculture information. An Aquaculture Information Center would also be created within the USDA. This bill would authorize a total of $3 million in each fiscal year, divided equally among the Departments of Commerce, Interior, and Agriculture.

A continued Federal role could stimulate further development of the U.S. aquaculture industry and, for that reason, I encourage my colleagues to support this bill.●

● Mr. FIELDS. Mr. Speaker, as a consponsor of H.R. 1544, I am pleased that we are considering this bill to reauthorize and improve the National Aquaculture Act of 1980.

The purpose of this legislation is to extend this important act for 3 additional years and to facilitate aquaculture development in this Nation.

Mr. Speaker, aquaculture has the potential to satisfy the nutritional needs of millions of Americans, to create thousands of new jobs, and to reduce our huge trade deficit which includes some $4.9 billion in imported fisheries products.

While I am disappointed that the administration has decided not to support H.R. 1544, our subcommittee did receive testimony from administration witnesses which indicated there should be a Federal presence for aquaculture coordination.

Mr. Speaker, I believe it serves no useful purpose to return to those days prior to the National Aquaculture Act, when there was no Federal agency nor department where a potential aquaculturalist could obtain some basic information of a technical or economic nature.

Since the enactment of Public Law 96-362, U.S. aquaculture production has increased from 94,000 metric tons in 1980 to about 208,000 metric tons in 1983. While these figures are far below aquaculture production in a number of foreign countries, U.S. aquaculture production does account for about 11 percent of our total edible fish and shellfish products. This is a significant increase from the 3 percent figure in 1980.

On an annual basis, the U.S. aquaculture industry is producing some 220 million pounds of catfish, 60 million pounds of crawfish, 50 million pounds of trout, 23 million pounds of oyster meat, 20 million pounds of Pacific salmon, 1.6 million pounds of clam meat, 775,000 pounds of mussel meat, and 275,000 pounds of freshwater prawns.

In my own State of Texas, the aquaculture industry, while still in its infancy, has made great strides in crawfish and shrimp farming. Within the

next 3 years, it is anticipated that you will see the growth of a $10 million industry which will produce between 500,000 and 1 million pounds of shrimp.

While this may cause some heartache among various fishermen, this concern is unfounded. Aquaculture is not the enemy nor a competitor of those Americans who make a living harvesting products from the waters off our shores.

The common enemy is the more than $5 billion worth of fish and seafood products we import from the nations of the world and the thousands of American jobs and incomes that figure represents.

Mr. Speaker, during our committee consideration of H.R. 1544, our distinguished Subcommittee Chairman, JOHN BREAUX offered a substitute amendment to further refine and improve this proposal.

I strongly supported this amendment which designated the Department of Agriculture as the lead Federal agency for aquaculture development and established a National Aquaculture Information Center to coordinate the dissemination of scientific, technical, legal, and economic information.

At the same time, this amendment was drafted to reflect our current budgetary problems. H.R. 1544 authorized $3 million a year for aquaculture assistance, which is a 40-percent reduction from its existing statutory authority.

Mr. Speaker, this small amount of Federal support is needed to facilitate additional aquaculture research, to keep and distribute appropriate statistical data, to update the national aquaculture development plan and to assist this new industry in developing proper marketing strategies for its food products.

It is my firm belief that with this small Federal investment of $3 million each year, our Nation can enjoy the tremendous potential benefits that aquaculture has to offer.

Aquaculture can and should play an increasingly important role in meeting the future food needs of both this Nation and the world.

Mr. Speaker, I urge my colleagues to join with me in strongly supporting the passage of H.R. 1544, the National Aquaculture Improvement Act of 1985.

Thank you, Mr. Speaker.●

● Mr. ROBERTS. Mr. Speaker, as the ranking member of the Subcommittee on Department Operations, Research, and Foreign Agriculture of the Committee on Agriculture, I wish to comment on this bill because aquaculture is a matter that is jurisdictionally shared by the Committee on Agriculture and the Committee on Merchant Marine and Fisheries.

This bill continues the provisions of the National Aquaculture Act of 1980 with certain amendments such as that which establishes the U.S. Department of Agriculture as the lead agency for coordinating and carrying out the Federal Government's various functions under the act and authorizes USDA to establish a National Aquaculture Information Center.

Somewhat similar legislation was considered in the 98th Congress that was objected to by one of the committees in the other body that had jurisdiction over the legislation. The Committee on Agriculture had reported favorably on that bill (H.R. 2676, H. Rept. 98-155, Pt. 2).

The controversial "board" provided for in H.R. 2676 that the other body objected to in the 98th Congress has been dropped from H.R. 1544.

I believe that if this legislation is to be enacted into law that the U.S. Department of Agriculture is the proper agency to exercise that authority. While our committee did not claim sequential referral of this bill, I commend my colleagues on the Committee on Merchant Marine and Fisheries for resolving the "dead agency" authority in favor of the U.S. Department of Agriculture.

However, I do not consider that I should comment on the funding provided for in this bill because it was not referred to our committee and I have not examined the issue in detail. I should point out to my colleagues that the "catfish" that is one of the primary aquaculture products contributing to substantial aquaculture growth in this country since 1980 is the State fish of the great State of Kansas.●

Mr. YOUNG of Alaska. Mr. Speaker, I yield back the balance of my time.

Mr. BREAUX. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Louisiana [Mr. BREAUX] that the House suspend the rules and pass the bill, H.R. 1544, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The title of the bill was amended so as to read: "A bill to authorize appropriations to carry out the National Aquaculture Act of 1980 during fiscal years 1986, 1987, and 1988, and for other purposes."

A motion to reconsider was laid on the table.

PARLIAMENTARY INQUIRY

Mr. BREAUX. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER pro tempore. The gentleman will state it.

Mr. BREAUX. Mr. Speaker, I would like to know if I insert the remarks of the gentleman from Texas [Mr. DE LA GARZA] the chairman of the full House Agriculture Committee, would the remarks be included in the body of the debate on the bill?

The SPEAKER pro tempore. Under general leave, the gentleman is absolutely correct.

Mr. BREAUX. I thank the Chair.

GENERAL LEAVE

Mr. BREAUX. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Louisiana.

There was no objection.

INTERJURISDICTIONAL FISHERIES RESEARCH ACT OF 1985

Mr. BREAUX. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1028) to promote and encourage management of priority interjurisdictional fishery resources, as amended.

The Clerk read as follows:

H.R. 1028

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Interjurisdictional Fisheries Research Act of 1985".

SEC. 2. PURPOSES.—The purposes of this Act are—

(1) to promote and encourage State research in support of the management of priority interjurisdictional fishery resources; and

(2) to promote and encourage management of priority interjurisdictional fishery resources throughout their range.

SEC. 3. DEFINITIONS.—For the purposes of this Act:

(1) The term "Federal fishery management plan" means a plan developed pursuant to "An Act to provide for the conservation and management of the fisheries, and for other purposes", approved April 13, 1976 (Public Law 94-265; 90 Stat. 331 et seq.).

(2) The term "fishery resource" means finfish, mollusks, crustaceans, and any other form of marine animal or plant life, other than marine mammals and birds.

(3) The term "interjurisdictional fishery resource" means—

(A) a fishery resource for which there exists a Federal fishery management plan and for which a fishery occurs in waters under the jurisdiction of one or more States and the Exclusive Economic Zone established by Proclamation Numbered 5030, dated March 10, 1983;

(B) a fishery resource for which there exists an interstate fishery management plan; or

(C) a fishery resource which migrates between the waters under the jurisdiction of two or more States bordering on the Great Lakes.

For purposes of applying section 5 during fiscal year 1986, a Federal fishery management plan or an interstate fishery management plan for the fishery resource need not be in existence, but a plan of either kind for that resource must be in the development process during that year.

(4) The term "interstate fishery management plan" means a plan for managing fisheries developed and adopted by an interstate commission.

(5) The term "interstate commission" means a commission or other administrative body established by an interstate compact.

(6) The term "interstate compact" means a compact that has been entered into by two or more States, established for the purposes of conserving and managing interjurisdictional fishery resources throughout their range, and consented to and approved by Congress.

(7) The term "project" means a program for research in support of the management of an interjurisdictional fishery resource.

(8) The term "Secretary" means the Secretary of Commerce.

(9) The term "State" means any of the several States of the United States, the Commonwealth of Puerto Rico, American Samoa, the Virgin Islands, Guam, or the Northern Mariana Islands.

(10) The term "State agency" means any department, agency, commission, or official of a State authorized under the laws of the State to regulate commercial fisheries.

SEC. 4. APPORTIONMENT.—(a)(1) Funds appropriated under section 8(a) of this Act shall be apportioned by the Secretary among the States on October 1 of each fiscal year, or as soon thereafter as practicable. The amount of funds apportioned to each State shall be determined by the Secretary as the ratio which the equally weighed average of the volume and value of fishery resources harvested by domestic commercial fishermen and received within such State during the three most recent calendar years for which data satisfactory to the Secretary are available bears to the total equally weighted average of the volume and value of all fishery resources harvested by domestic commercial fishermen received within all of the States during those calendar years.

(2) No State may receive an apportionment under this subsection for any fiscal year if the equally weighted average of the volume and value of fishery resources harvested by domestic commercial fishermen and received within such State during the three most recent calendar years for which data satisfactory to the Secretary are available is less than one-tenth of 1 per centum of the total equally weighted average of the volume and value of all fishery resources harvested by domestic commercial fishermen and received within all of the States during those three calendar years unless—

(A) the State is a signatory to an interstate fishery compact; or

(B) the State borders one or more of the Great Lakes.

(3) No State which is a signatory to an interstate fishery compact, or which borders one or more of the Great Lakes, may receive an apportionment for any fiscal year under this subsection which is less than 1 per centum of the total amount of funds available for apportionment for that fiscal year.

(4) No State may receive an apportionment for any fiscal year under this subsection which is more than 6 per centum of the total amount of funds available for apportionment for such fiscal year.

(b) Any part of an apportionment for any fiscal year to any State—

(1) that is not obligated during that year;

(2) with respect to which the State notifies the Secretary that it does not wish to receive that part; or

(3) that is returned to the Secretary by the State—

may not be considered to be apportioned to that State and shall be added to such funds as are appropriated pursuant to section 8(a) for the next fiscal year (and shall be treated as having been appropriated for such next year) for apportionment under subsection (a). Any notification or return of funds referred to in paragraph (2) and (3) by a State is irrevocable.

SEC. 5. STATE PROJECTS.—(a)(1) Any State may, through its State agency or an interstate commission, submit to the Secretary a proposal for a project which includes full plans, specifications, and cost estimates for such project. The total cost of all items included for engineering, planning, inspection, and unforeseen contingencies in connection with any works to be constructed as part of such a proposed project shall not exceed 10 per centum of the total cost of such works, and shall be paid by the State as a part of its contribution to the total cost of the works.

(2) No part of any funds appropriated under any authorization contained in section 8 may be obligated with respect to any project until the proposal for such project has been submitted under paragraph (1) and approved by the Secretary. The Secretary, before approving any proposal for a project, must evaluate the proposal as to—

(A) the soundness of design;

(B) the possibilities of securing productive results;

(C) the minimization of duplication with other research projects in support of the management of interjurisdictional fishery resources and carried out under this Act or under any other law or regulation;

(D) the organization and management of the project;

(E) the methods proposed for monitoring and evaluating the success or failure of the project;

(F) the consistency of the project with the purposes of this Act specified in section 2; and

(G) such other criteria as the Secretary may prescribe.

(3) The Federal share of the cost of any project conducted pursuant to this Act shall not exceed 75 per centum of the total estimated cost of the project unless—

(A) the State has adopted the interstate fishery management plan for the resource to which the project applies; or

(B) the State has adopted fishery regulations which the Secretary has determined are consistent with the Federal fishery management plan for the species to which the project applies;

in which case the Federal share shall not exceed 90 per centum of the total estimated cost of the project.

(4)(A) If the Secretary approves or disapproves a proposal for a project, he shall promptly give written notification, including, if disapproved, a detailed explanation of the reasons for the disapproval, to the State agency submitting the proposal or, if the proposal is submitted through an interstate commission, such commission and the State.

(B) For the purposes of this Act, funds apportioned under this section to any State shall be treated as having been obligated with respect to a project during the fiscal year in which the written notification of approval required under subparagraph (A) for the project proposal is made.

(b) The expenditure of funds under this Act shall be applied only to projects for which a proposal has been approved under subsection (a), and if otherwise applied such funds shall be replaced by the State before the State may receive any additional funds under this Act.

(c) When the Secretary determines that a project carried out under a proposal approved by him has been completed, or where he otherwise deems it appropriate, he shall cause to be paid to the proper authority of the State, or to the official or depository designated by the interstate commission if the State agency specifies that payment is to be made to the interstate commission, the Federal share of the project. Any payment made to an interstate commission shall be charged against the apportionment of the State concerned.

SEC. 6. PROPERTY.—(a) All work, including the furnishing of labor and materials, needed to complete any project approved by the Secretary shall be performed in accordance with applicable Federal and State laws under the direct supervision of the State agency, and in accordance with regulations as the Secretary may prescribe. Title to all property, real and personal, acquired for the purposes of completing any project approved by the Secretary, vests in the State.

(b) If a State disposes of any real or personal property acquired under this chapter, the State shall pay into the Treasury of the United States the amount of any proceeds resulting from the property disposed to the extent of and in the same ratio that funds provided by this chapter were used in the acquisition of the property. In no case shall the amount paid into the Treasury of the United States under this section exceed the amount of funds provided by this chapter for the acquisition of the property involved.

SEC. 7. REPORTS.—After consultation with the States receiving funds under this Act and with any interstate commission involved in carrying out a project under this Act, the Secretary shall submit to the Committee on Merchant Marine and Fisheries of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate not later than ninety days after the end of the fiscal year 1987, and each second fiscal year occurring after that fiscal year, a report which contains—

(1) a description of each project receiving funds under this Act during the last two fiscal years ending before such report is submitted;

(2) a specification of the total amount of funds from the Federal Government and the total amount of funds from each State spent on each project receiving funds under this Act during the last two fiscal years ending before such report is submitted;

(3) an assessment of each project receiving funds under this Act during the last two fiscal years ending before such report is submitted to determine whether such project is furthering the purposes of this Act; and

(4) a statement specifying all funds which have been apportioned pursuant to section 5(a) and are available for obligation by a State or the Secretary but which have not been obligated.

SEC. 8. AUTHORIZATION OF APPROPRIATION.—(a) There are authorized to be appropriated to the Department of Commerce for apportionment to carry out the purposes of this Act $5,000,000 for each of fiscal years 1986, 1987, and 1988.

(b) In addition to the amounts authorized in subsection (a), there are authorized to be appropriated to the Department of Commerce $2,500,000 for each of fiscal years 1986, 1987, and 1988, which shall be available in such amounts as the Secretary may determine appropriate for the purposes of this Act: *Provided*, That the Secretary shall give a preference to those States in which he determines there is a commercial fishery failure or serious disruption affecting future

production due to a fishery resource disaster arising from natural or undetermined causes in providing funds to States under this subsection, and any sums made available under this subsection may be used either by the States or directly by the Secretary in cooperation with the States for any purpose that the Secretary determines is appropriate to restore the fishery affected by such failure or to prevent a similar failure in the future: *Provided further*, That the funds authorized to be appropriated under this subsection shall not be available to the Secretary for use as grants for chartering fishing vessels. Amounts appropriated pursuant to this subsection shall remain available until expended.

(c) In addition to the amounts authorized under subsections (a) and (b), there are authorized to be appropriated to the Department of Commerce $350,000 for each of fiscal years 1986, 1987, and 1988 to support the efforts of the following interstate commissions to develop interstate fishery management plans for interjurisdictional fishery resources:

(1) The commission established by the Atlantic States Marine Fisheries Compact, as consented to and approved by Public Law 77-539 (56 Stat. 267), approved May 4, 1942.

(2) The commission established by the Pacific Marine Fisheries Compact, as consented to and approved by Public Law 80-232 (61 Stat. 419), approved July 24, 1947.

(3) The commission established by the Gulf States Marine Fisheries Compact, as consented to and approved by Public Law 81-66 (63 Stat. 70), approved May 19, 1949.

SEC. 9. REPEAL.—The Commercial Fisheries Research and Development Act of 1964 (16 U.S.C. 779 et seq.) is repealed.

SEC. 10. EFFECTIVE DATE.—The provisions of this Act shall take effect on October 1, 1985.

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from Louisiana [Mr. BREAUX] will be recognized for 20 minutes and the gentleman from Alaska [Mr. YOUNG] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Louisiana [Mr. BREAUX].

Mr. BREAUX. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the next bill I bring to the floor is H.R. 1028, the Interjurisdictional Fisheries Research Act of 1985. This bill also has been sent to the floor today with the unanimous approval of the Subcommittee on Fisheries and Wildlife Conservation and the Environment and the Committee on Merchant Marine and Fisheries.

H.R. 1028 is designed to improve through research the management of this Nation's priority interjurisdictional fishery resources. Because of their interjurisdictional nature, these valuable resources present especially complex management problems because they are often subject to a variety of inconsistent State and Federal management strategies. Some good examples are the striped bass and salmon which we all know have suffered greatly under such situations.

H.R. 1028 would repeal the existing Commercial Fisheries Research and Development Act. This 20-year-old legislation has been seriously challenged by our committee and the administration for supporting research and development projects that would be more appropriately funded by the States or the fishing industry itself. In its place, H.R. 1028 would establish a new program which would maintain a Federal partnership with the States through a matching grant program, but would stipulate that funds be applied only for research projects which are in support of the management of: First those species which migrate between State and Federal waters and for which there exists a Federal fishery management plan [FMP] developed pursuant to the Fishery Conservation and Management Act [FCMA]; second, those species which migrate between State waters and for which there exists an interstate fishery management plan developed by a congressionally approved interstate fishery commission; or third, those species which migrate between the waters of States bordering the Great Lakes.

By limiting the program to research in support of the management of interjurisdictional species, the bill focuses on the objective of achieving coordinated management of fishery resources throughout their range; a national policy well established in U.S. fishery law. By focusing primarily on species for which there exists a management plan, the bill limits the program to only those species which have already been determined to be of a Federal conservation and management priority. By creating incentives for States to participate in the interstate management of fishery resources and to achieve consistency with interstate and Federal fishery management objectives the bill even further promotes the coordinated and consistent management of migratory species throughout their range. As such, I believe the bill provides a very defensible alternative for a State/Federal fisheries partnership even in a tight budgetary climate.

The bill provides an authorization of appropriations of $5 million for each of fiscal years 1986, 1987, and 1988 for carrying out the purposes of this act. In addition, the bill provides a separate authorization of appropriations of $350,000 for 3 years to support the efforts of the three Interstate Fisheries Commissions to develop and implement interstate management plans for fishery resources on the Atlantic, Pacific, and gulf coasts. Last, the bill continues an existing authorization of $2.5 million to support projects designed to mitigate the impacts of fishery resource disasters whenever they occur. My colleagues should note that, aside from the disaster relief money which is only appropriated through supplementals on an "as needed" basis, funding for this legislation has already been approved and included in the House fiscal year 1986 appropriations legislation.

Mr. Speaker, effective management of our Nation's fishery resources requires a coordinated and well-conceived effort on the part of the states and the Federal Government. I believe H.R. 1028 will be effective in addressing those objectives. I wholeheartedly endorse this legislation and urge my fellow Members to do the same.

Mr. Speaker, I reserve the balance of my time.

Mr. YOUNG of Alaska. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 1028 as reported by the Committee on Merchant Marine and Fisheries and urge its passage.

The bill before us today provides the necessary funding to individual States so that they can conduct research on fish resources, which is essential if sound conservation and management decisions are to be made.

H.R. 1028 repeals the existing Commercial Fisheries Research and Development Act and establishes an Interjurisdictional Fisheries Research Program. The law originally was enacted for the purpose of stimulating the development of commercial fishery resources by providing assistance to the States in the form of matching grants to conduct research and development projects. As modified, this new bill focuses entirely on research in support of high priority interjurisdictional fisheries. The changes reflect the importance of directing Federal research money where it is most needed in this time of fiscal austerity.

During committee markup, amendments were introduced that expand the scope of the program to include nonmigratory shellfish such as oysters and clams, but only if an interstate or Federal fishery management plan exists for such species. Another amendment, which I suggested, allows a 1-year grace period for projects to qualify for the program when a plan for the species in question is still under development. After the 1-year grace period, eligibility will be limited to only those species covered by a plan. As witnesses testified during the hearings, the prime need for research occurs when a plan is under development. This will provide the support for that need. After adopting the amendments, the Merchant Marine and Fisheries Committee reported the bill unanimously.

As I am sure some of my colleagues will point our during debate today, this bill was previously taken up in the House under suspension on March 19. At that time it failed to receive the necessary two-thirds majority, al-

though it did receive well over 50 percent of the votes of the Members present. Members who voted against the bill did so primarily for fiscal reasons. They believed that we were providing too much money for unimportant reasons.

I wish to dispel that myth before the House today. The fisheries resources found within our 200-mile zone are crucially important to the economy of this Nation. Presently, imports of fish products account for 5 percent of our balance of trade deficit. If we are able to develop fully those resources so that Americans can catch, process, and market all the fish that are available, we will have made a great dent in a major economic problem facing this Nation today.

Let me remind you, however, that we cannot achieve this goal unless we know what we are dealing with. Research funding is always one of the first things to be cut. We've seen this numerous times whether we are talking about fish, science, or defense. Unless we do the research that is needed, we are not going to be able to develop our commercial fishing industry.

I urge the Members of this body not to be penny-wise and dollar-foolish. The benefits that we will achieve from passage of this legislation far outweigh any temporary costs that might be incurred.

Mr. Speaker, I urge passage of this bill.

● Mr. JONES of North Carolina. Mr. Speaker, H.R. 1023, the Interjurisdictional Fisheries Research Act of 1985, is a careful attempt to redirect Federal funds to improve the management of our fishery resources.

It repeals the existing Commercial Fisheries Research and Development Act, a Federal-State program to encourage research, management, and development of our commercial fisheries. Under this act, matching funds are provided to the States for fishery projects, if such projects are approved by the Secretary of Commerce. The Federal matching share is 75 percent; however, for projects supporting interstate fishery management plans, this share may be up to 90 percent.

The administration has criticized this program as an improper use of Federal funds. However, the National Marine Fisheries Service says that from 45 to 90 percent of such funds actually support Federal fishery management plans or international fishery obligations. Moreover, H.R. 1028 would ensure that national fishery needs and goals are better addressed.

H.R. 1028 would rewrite existing law to support research needed to manage: first, those species for which there exists a Federal fishery management plan and for which fisheries take place in Federal and State waters; second, those species for which there are interstate fishery management plans; and third, those species which migrate between the waters of States on the Great Lakes.

The Federal share would be the same but States harvesting less than one-tenth of 1 percent of the U.S. total volume and value of fish landed would not receive funding unless they are party to an interstate fishery compact. Eligible States would receive from 1 to 6 percent of available funds.

H.R. 1028 would authorize $5 million for fishery research projects, $2.5 million to mitigate for commercial fishery resource disasters due to natural or unknown causes, and $350,000 for the Atlantic States, Gulf States, and Pacific Marine Fishery Commissions in each of fiscal years 1986, 1987, and 1988.

Under this program, State contributions mean Federal dollars will accomplish anywhere from 10 to 25 percent more than those invested in strictly Federal programs. Also, the States typically carry out such research for less cost, thus assuring even more mileage for Federal dollars.

I urge the Members to vote in support of this important measure.●

Mr. YOUNG of Alaska. Mr. Speaker, I yield back the balance of my time.

Mr. BREAUX. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Louisiana [Mr. BREAUX] that the House suspend the rules and pass the bill, H.R. 1028, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

ALASKA NATIVE CLAIMS SETTLEMENT ACT AMENDMENTS

Mr. SEIBERLING. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1092) to amend the Alaska Native Claims Settlement Act, as amended.

The Clerk read as follows:

H.R. 1092

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. The Alaska Native Claims Settlement Act (85 Stat. 688, 43 U.S.C. 1601-28), as amended, is further amended by adding at the end thereof the following new sections.

SEC. 34. (a) For purposes of this section the following terms shall have the following meanings:

(1) the term "The Agreement" or "Agreement" means the agreement entitled "Terms and Conditions Governing Legislative Land Consolidation and Exchange between NANA Regional Corporation, Inc., and the United States" executed by the Secretary of the Interior and the President of NANA Regional Corporation, Inc., on January 31 and January 24, 1985, respectively.

(2) the term "transportation system" means the Red Dog Mine Transportation System described in Exhibit B of the Agreement.

(3) the term "NANA" means NANA Regional Corporation, Inc., a corporation formed for the Natives of Northwest Alaska pursuant to the provisions of this Act.

(b) Except as otherwise provided by this section, the Secretary shall convey to NANA, in accordance with the terms and conditions set forth in the Agreement, lands and interests in lands specified in the Agreement in exchange for lands and interests in lands of NANA, specified in the Agreement, upon fulfullment by NANA of its obligations under the Agreement.

(c)(1) The Secretary shall convey to NANA, pursuant to the provisions of paragraph A(1) of the Agreement, the right, title and interest of the United States only in and to those lands designated as "Amended A(1) Lands" on the map entitled "Modified Cape Krusenstern Land Exchange," dated July 18, 1985. The charges to be made pursuant to paragraphs B(2) and 27 of the Agreement against NANA's land entitlements under this Act shall be reduced by an amount equivalent to the difference between that acreage conveyed pursuant to this subsection and the acreage that would have been conveyed to NANA pursuant to paragraph A(1) of the Agreement but for this subsection.

(2) Notwithstanding the provisions of paragraph A(3) of the Agreement, the Secretary shall not convey to NANA any right, title and interest of the United States in the lands described in such paragraph A(3) and the Secretary shall make no charge to NANA's remaining entitlements under this Act with respect to such lands. Such lands shall be retained in federal ownership but shall be subject to the easement described in Exhibit D to the Agreement as if the lands had been conveyed to NANA pursuant to paragraph A(3) of the Agreement.

(d)(1) There is hereby granted to NANA an easement in and to the lands designated as "Transportation System Lands" on the map entitled "Modified Cape Krusenstern Land Exchange," dated July 18, 1985, for use in the construction, operation, maintenance, expansion and reclamation of the transportation system. Use of the easement for such purposes shall be subject only to the terms and conditions governing the construction, operation, maintenance, expansion and reclamation of the transportation system, as set forth in Exhibit B to the Agreement.

(2) The easement granted pursuant to this section shall be for a term of 100 years. The easement shall terminate prior to the 100-year term:

(i) if it is relinquished to the United States; or

(ii) if construction of the transportation system has not commenced within 20 years of the enactment of this subsection. Computation of the 20-year period shall exclude periods when construction could not commence because of force majeure, act of God or order of a court; or

(iii) upon completion of reclamation pursuant to the reclamation plan required by Exhibit B to the Agreement.

(3) Within 60 days after enactment of this section the Secretary shall execute the necessary documents evidencing the grant to NANA of the easement granted by this section.

(4) Except as regards the trail easement described in Exhibit D to the Agreement (to which the "Transportation System Lands" shall be subject as if such lands had been conveyed to NANA pursuant to paragraph A(1) of the Agreement), access to the lands subject to the easement granted by this section shall be subject to such limitations, restrictions or conditions as may be imposed by NANA, its successors and assigns, but NANA and its successors and assigns shall permit representatives of the Secretary such access as the Secretary determines is necessary for the monitoring required by this section.

(e) The easement granted by this section makes available land for the transportation system, and is intended to be sufficient to permit NANA to comply with the laws of the State of Alaska which may be necessary to secure financing of the construction of the transportation system and the operation, maintenance or expansion thereof by the State of Alaska or by the Alaska Industrial Development Authority.

(f) The easement granted to NANA by this section may be reconveyed by NANA, but after any such reconveyance the terms and conditions specified in Exhibit B of the Agreement shall continue to apply in full to the easement.

(g) NANA is hereby granted the right to use, develop and sell sand, gravel and related construction materials from borrow sites located within the easement granted pursuant to this section as required for the construction, operation, maintenance, expansion and reclamation of the transportation system, subject to the terms and conditions specified in Exhibit B of the Agreement.

(h)(1) The construction, operation, maintenance, expansion and reclamation of any portion of the transportation system on any of the lands subject to the easement granted to NANA by this section shall be governed solely by the terms and conditions of the Agreement, including the procedural and substantive provisions of Exhibit B to the Agreement, as if the lands covered by the easement granted to NANA by this section had been conveyed to NANA pursuant to Paragraph A(1) of the Agreement.

(2) The Secretary of the Interior, acting through the National Park Service, shall monitor the construction, operation, maintenance, expansion and reclamation of the transportation system, as provided in the Agreement. Any complaint by any person or entity that any aspect of the construction, operation, maintenance, expansion or reclamation of the portion of the transportation system on the lands subject to the easement granted to NANA by this section is not in accordance with the terms and conditions specified in the Agreement shall be made to the Secretary in writing. The Secretary shall review any such complaint and shall provide to NANA or its successors or assigns and to the complainant a decision in writing on the complaint within 30 days of receipt thereof. If the Secretary determines that the activity made the subject of a complaint is not in accordance with the terms specified in the Agreement, and NANA or its successors or assigns disagrees with that determination, the dispute shall be resolved according to the procedures established in Exhibit B to the Agreement.

(i) The Secretary shall make available to NANA and its successors and assigns the right to use sand, gravel and related construction materials located in Sections 23, 24, 25, 26, 35 and 36 of Township 26 North, Range 24 West, Kateel River Meridian, Alaska, if the Secretary determines either (1) that use of such sand, gravel and related construction materials is necessary because there is no other sand, gravel and related construction materials reasonably available for the construction, operation, maintenance, expansion or reclamation of the transportation system; or (2) that use of such sand, gravel and related construction materials is necessary in order to construct, operate, maintain, expand, or reclaim the transportation system in an environmentally sound manner, consistent with the requirements of Exhibit B of the Agreement. The right to use such sand, gravel and related construction materials shall be subject to the terms and conditions of Paragraph A of Exhibit B of the Agreement and such other reasonable terms and conditions as the Secretary may prescribe.

(j) Notwithstanding Paragraph 23 of the Agreement, the Secretary shall not agree to any amendment to the Agreement without first consulting with the Committee on Interior and Insular Affairs of the House of Representatives and the Committee on Energy and Natural Resources of the Senate and shall transmit copies of the text of any amendment to the Agreement to those Committees at the time of his agreeing to such amendment.

SEC. 35. (a) NANA Regional Corporation, Inc. ("NANA"), may convey by quit-claim deed to the United States any interest it has in the surface or subsurface estate in any lands located within the boundaries of any Conservation System Unit, as established and defined by the Alaska National Interest Lands Conservation Act (Public Law 96-487; 94 Stat. 2371, et seq.) and conveyed to NANA pursuant to this Act, as amended. Whenever NANA executes a quit-claim deed pursuant to this subsection, it shall be entitled to designate and have conveyed to it any lands outside the boundaries of a Conservation System Unit covered by any of its pending selection applications filed under any of the entitlement provisions of this Act, as amended, without regard to the entitlement provision under which such application was filed. Lands conveyed to NANA pursuant to this subsection shall be of a like estate and equal in acreage to that conveyed by NANA to the United States. The lands conveyed to NANA pursuant to this subsection shall be in exchange for the lands conveyed by NANA to the United States and there shall be no change in the charges previously made to NANA's land entitlements with respect to the lands conveyed by NANA to the United States. Lands received by NANA pursuant to this subsection are Settlement Act lands.

(b) NANA may relinquish any interest it has under selection applications filed pursuant to this Act, as amended, in the surface or subsurface estate in any lands located within the boundaries of the Cape Krusenstern National Monument or any other Conservation System Unit, as established and defined by the Alaska National Interest Lands Conservation Act (Public Law 96-487; 94 Stat. 2371, et seq.), by formally withdrawing such application pursuant to this subsection. Whenever NANA formally withdraws a selection application pursuant to this subsection, it shall be entitled to designate and have conveyed to it lands outside the boundaries of a Conservation System Unit pursuant to any of its pending selection applications filed under any of the entitlement provisions of this Act, without regard to the entitlement provision under which the application was filed. Lands conveyed to NANA under this subsection shall be of a like estate and equal in acreage to the interest which NANA relinquished, and when the lands are conveyed to NANA, the conveyance shall be charged against the same entitlement of NANA as if the lands had been conveyed pursuant to the relinquished selection applications. Lands received by NANA pursuant to this subsection are Settlement Act lands.

(c) The provisions of this section shall remain in effect only until December 18, 1991.

(d) Nothing in this section shall be deemed to alter or amend in any way NANA's selection rights or to increase or diminish NANA's total entitlement to lands pursuant to this Act.

The SPEAKER pro tempore. Is a second demanded?

Mr. YOUNG of Alaska. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Ohio [Mr. SEIBERLING] will be recognized for 20 minutes and the gentleman from Alaska [Mr. YOUNG] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Ohio [Mr. SEIBERLING].

Mr. SEIBERLING. Mr. Speaker, I yield myself such time as I may consume.

□ 1350

Mr. Speaker, I rise in support of H.R. 1092, a bill to amend the Alaska Native Claims Settlement Act, in the form that it has been favorably reported by the Committee on Interior and Insular Affairs.

As reported, this bill would grant to NANA Regional Corporation, Inc., an easement across the Cape Krusenstern National Monument for construction of a road between that Native Corporation's mineral properties on Red Dog Creek and a port site on the Chuckchi Sea. It would also ratify, in modified form, a land-exchange proposed by the Department of the Interior involving the consolidation of NANA's inholdings in the Cape Krusenstern National Monument; and it would amend the Alaska Native Claims Settlement Act so as to provide an incentive for NANA to move toward reducing its holdings within that national monument and other conservation system units.

All in all, in return for giving a 100-year easement for the highway across the one tip of the national monument, NANA would give up inholdings amounting to well over 100,000 acres within the national monument. I believe this is a very fair exchange from all points of view.

Our subcommittee reviewed the proposed route of this road and determined that since a road corridor was necessary in order to develop these

mineral properties that this was the least damaging of the various possible alternatives and would, in fact, have a minimal impact on the area and on the wildlife that is important to the natives and to the preservation of important species.

Without going into all the details, let me say that this was worked out on a bipartisan basis. It is supported by some important national environmental organizations such as the National Parks and Conservation Association and the Audubon Society.

Mr. Speaker, the bill before us today has a considerable history. Since the late 1960's, the Red Dog Creek area in the Delong Mountains of northwestern Alaska has been identified as an area of high promise for minerals. After enactment of the Alaska Native Claims Settlement Act in 1971, NANA—the regional corporation for northwestern Alaska—selected lands in the Red Dog area with an eye to their potential value for mineral development.

It is now generally agreed that NANA's Red Dog properties have a very high potential for development of a valuable lead-zinc mine.

Obviously, development of this is very important to NANA, especially since they estimate that it could involve the creation of about 400 jobs directly related to the mineral development and a significant number of support jobs, in a region where unemployment is chronic. But more than NANA's 4,800 Native shareholders—4,000 of whom live in the region—are involved. Under section 7(i) of the Alaska Native Claims Settlement Act, 70 percent of all the revenues received by each of the regional corporations—such as NANA—from timber and subsurface resources are divided among all the regional corporations, on the basis of population. Thus, development of the Red Dog area by NANA is of great significance for all members of the Native community in Alaska.

All this was well known at the time of the congressional debates over the Alaska Lands Act, which finally became law through the signature of President Carter in December 1980.

When we drew the boundaries of the Cape Krusenstern National Monument as part of that act, we left a corridor of lands between that area and the Noatak National Preserve, to the east, out of conservation system status partly because it had been suggested to us that that was likely route for a road to connect the Red Dog Creek area with tidewater.

Since then, however, engineering studies and other assessments have led to the conclusion that that route is not as feasible as a route that would trend westward, rather than south, and terminate on the Chuckcki Sea. It is such a route that would be made possible by the bill now before us.

Mr. Speaker, at this point I should explain that when Congress drafted the Alaska Lands Act, we anticipated that cases like this could arise. We foresaw that because of the size of the Alaskan conservation areas, and the undeveloped state of surface transportation in Alaska, Congress might be called upon at some point to approve a transportation corridor across a conservation system unit which would otherwise be closed against such development. For that very reason, we included in the Alaska Lands Act an entire title—title XI—dealing with this and related questions of access.

Title XI of the Alaska Lands Act contains specific and detailed provisions which spell out how it was intended that a decision to approve a transportation corridor such as that before us would be presented to Congress. In drafting those provisions, care was taken to see to it that the Congress would be able to make such a decision on the basis of a full and complete evaluation of all the relevant economic, environmental, and other factors.

However, Mr. Speaker, I regret to say that the procedures of title XI have not been followed in this case. They have not been followed because the administration had chosen to bring this issue before us in another way, a way that I believe is directly contrary to the fundamental policies of the Alaska Lands Act—namely, through a land exchange.

As a matter of fact, the administration has never yet issued its regulations for implementation title XI—almost 5 years after the Alaska Lands Act became law. Their priorities with regard to Alaska have been directed elsewhere than toward implementing the law in the way that it was intended for it to be implemented. They have concentrated on land exchanges—including the absurd and outrageous exchange proposal involving St. Matthews Island which was rejected by the Federal District court in Alaska—and on such other things as trying to adjust the boundary of the Admiralty Island National Monument by a misapplication of the law that would have removed carefully-crafted restrictions which now apply to mineral development in the northern part of that spectacular area.

In view of this, Mr. Speaker, it would have been easy for our committee to have reacted to the administration's deplorable record of distortions and outrages with respect to the Alaska Lands Act by summarily rejecting the land-exchange which H.R. 1092 as introduced would have ratified. Some of the supporters of the act, who deserve much of the credit for its enactment, urged us to do just that. And in fact such a course is only what the administration deserves.

But to simply reject the proposal put before the committee would not have been a responsible thing to do. We on the Committee on Interior and Insular Affairs, and we in the Congress as a whole, certainly do have a responsibility to safeguard the heritage of the American people contained in the conservation system units in Alaska as created or enlarged by the Alaska Lands Act. And we have a duty to see to it that the act is obeyed. But we also have a responsibility to see to it that the native peoples of Alaska are not deprived of the full value of their entitlements under the Alaska Native Claims Settlement Act, a solemn commitment of the Nation which preceded and laid the basis for the Alaska Lands Act.

In the discharge of this responsibility with regard to the Native Claims Settlement Act, the committee did not reject out of hand the land-exchange which H.R. 1092 would have ratified. Instead, after a careful exploration of all that was involved, we spent 2 months working with NANA in an effort to modify the bill so that it would still permit the timely development of the road which NANA seeks, while conforming as closely as possible to the policies and requirements of title XI and other relevant parts of the Alaska Lands Act. As a result of that effort, the committee has amended the bill by adoption of a substitute text, and it's that substitute that we bring before the House today.

Our committee has concluded, Mr. Speaker, that those urging rejection of the proposed road have not made a convincing showing that this route is unacceptable, and so we are approving use of the proposed route. But we are doing so in a way that more closely conforms to the policies and provisions of title XI of the Alaska Lands Act.

Thus, the bill as it comes to the floor does not transfer out of Federal ownership the title to the lands where the road is proposed to be built. Instead, Federal title to those lands is retained but an easement is granted to NANA for the road right-of-way. That easement is subject to all the terms and conditions which were to apply to the lands under the original exchange agreement, including detailed stipulations designed to protect the resources and values of the National Monument, including its wildlife, during and after construction of the road. About 20,000 acres are involved here.

Similarly, under the bill as reported by our committee, NANA will not take title to about 28,700 acres in the northwest corner of the Cape Krusenstern National Monument, including lands along the coast, which would have gone to NANA under the original exchange agreement.

Thus, under the bill before us, NANA will receive only about 42,000

acres of land, in return for relinquishing its rights with regard to more than 100,000 acres of land within the boundaries of the Cape Krusenstern National Monument.

The lands that NANA will receive as a result of enactment of H.R. 1092 as reported will continue to be subject to the terms and conditions of the original land-exchange agreement, designed to assure that the lands are used in a manner which takes proper account of the need to protect the values and resources of the Cape Krusenstern National Monument. Further, those terms and conditions run with the land so that they will apply to any future owner even in the event that NANA should decide not to turn the lands back to the United States for management as part of the National Monument.

However, Mr. Speaker, it may well be that NANA will in fact decide to turn these newly-obtained lands back for Federal management as part of the Cape Krusenstern National Monument. That is NANA's decision to make, and NANA's alone. But we believe that decision may in fact be influenced—in a positive way, and not in any coercive way—by other provisions in the bill as reported.

The provisions I refer to are in the second part of the bill as reported, which would add a new section 35 to the Alaska Native Claims Settlement Act. Under that new section, until December 18, 1991, NANA would have an opportunity to relinquish or reconvey its holdings in the Cape Krusenstern National Monument and other conservation system units, and to receive instead other lands which are outside conservation system units and which NANA has already indicated an interest in receiving, without being subject to some of the restrictions that now apply to their receipt of such lands under the Alaska Native Claims Settlement Act.

Nothing in the bill before us, Mr. Speaker, would enlarge or diminish NANA's land rights under the Settlement Act, and nothing in the bill would adversely affect any valid existing rights of third parties such as the State of Alaska. However, the bill would give NANA a use it or lose it opportunity to improve its land-selection pattern by reducing the number and extent of its inholdings in the National Parks and other conservation system units in northwestern Alaska.

I have received written assurances from NANA that if this new section which the bill would add to the Settlement Act becomes law, NANA would be encouraged to proceed expeditiously in reviewing its pending selections throughout the NANA region, and that they would give priority attention to the so-called A-1 lands in the northern part of the Cape Krusenstern National Monument—that is, the lands which they are to receive under the exchange which would be ratified—in modified form—by H.R. 1092 as reported. Thus, the bill may indeed aid in consolidating land ownership and in reducing inholdings—to the benefit both of the conservation system units and land-management in general.

Mr. Speaker, I believe that the bill now before the House is one which deserves support and enactment. It is vastly different from the bill as introduced, and from the companion bill which has already passed the other body. It is a sound and balanced bill, one that no doubt is not perfect, but one which I believe is much more in harmony with the sound policies of the Alaska Lands Act.

I urge all our colleagues to support H.R. 1092 as reported, and I include letters concerning the bill from the National Parks and Conservation Association, the National Audubon Society, and NANA Regional Corp., Inc., and other material.

The letters referred to are as follows:

NATIONAL PARKS AND CONSERVATION ASSOCIATION,
Washington, DC, July 22, 1985.

DEAR CONGRESSMAN: We are writing with regard to the bill, HR 1092, which would provide for a land exchange and road corridor at Cape Krusenstern National Monument in Alaska. The Subcommittee on Public Lands will be marking up the bill this week.

The National Parks and Conservation Association (NPCA) supports the enactment of HR 1092, together with the Seiberling amendments thereto.

NPCA believes the proposed exchange will result in a better and more effectively managed national monument. The lands to be exchanged to the NANA Regional Corporation represent only about ½ of the Omikviorik drainage and consequently, the National Park Service is probably incapable of fully protecting the resource values of the area at present. However, lands to be acquired by the Park Service contain the upper portions of several drainages cited in resource documents as important sources of sediments for the Cape Krusenstern beach ridges, and important for effective management of fish and wildlife. The inclusion of complete watersheds within park unit boundaries is a goal of ANILCA and a goal NPCA supports.

Thus in NPCA's view, the land exchange authorized by HR 1092 benefits Cape Krusenstern National Monument exclusive of the road corridor issue. The Seiberling amendments, while not materially altering the terms of the land exchange, will provide for a greater degree of resource protection.

Thank you.

Sincerely,

STEVEN C. WHITNEY,
Natural Resources Coordinator.

NATIONAL AUDUBON SOCIETY,
Washington, DC, July 22, 1985.

Hon. JOHN F. SEIBERLING,
Chairman, House Subcommittee on Public Lands, U.S. House of Representatives, Washington, DC.

DEAR CONGRESSMAN SEIBERLING: As you know, the National Audubon Society supports passage of HR 1092 as the best means to resolve land and resource conflicts at the northern end of the Cape Krusenstern National Monument in Alaska. Although companion legislation (SB 444) has passed the U.S. Senate unamended, we understand that a series of amendments are under consideration by your subcommittee to improve HR 1092.

This is to advise you that Audubon will not object to amending HR 1092 if your subcommittee determines it to be in the greater public interest. We consider it vitally important, however, that all parties to the land exchange agreement also be in support of such amendments. Furthermore, we caution your subcommittee against developing amendments that would place impossible burdens on the National Park Service to administer a mining road, or encourage MANA to select its land entitlements elsewhere in the region where more rather than fewer conflicts with national interest values would inevitably occur.

Please know that our continued support of HR 1092 is not contingent upon the proposed amendments, for we believe the legislation as originally drafted is in the public interest.

Your consideration of these comments is greatly appreciated.

Sincerely,

DAVID R. CLINE,
Regional Vice President.

NANA REGIONAL CORP., INC.,
Kotzebue, AK, July 24, 1985.

Hon. JOHN SEIBERLING,
Chairman, Subcommittee on Public Lands of the Committee on Interior and Insular Affairs, Washington, DC.

DEAR CONGRESSMAN SEIBERLING: NANA has worked with Committee staff members on your proposed substitute to H.R. 1092. While NANA favors the enactment of H.R. 1092, as introduced, NANA does not object to adoption of your substitute.

The substitute as now drafted retains many of the important features of the Agreement between NANA and the Department of the Interior. However, any other substantive amendments would make the Agreement unworkable and would be detrimental to NANA.

NANA therefore supports adoption of the substitute during mark-up of H.R. 1092, but would be unable to support any other amendments.

Sincerely,

JOHN W. SCHAEFFER, Jr.,
President.

NANA REGIONAL CORP., INC.,
Kotzebue, AK, July 24, 1985.

Hon. JOHN SEIBERLING,
Chairman, Subcommittee on Public Lands of the Committee on Interior and Insular Affairs, Washington, DC.

DEAR CONGRESSMAN SEIBERLING: You have inquired about NANA's intentions regarding the relinquishment of any of its selection applications filed pursuant to the Alaska Native Claims Settlement Act and located within Conservation System Units within the NANA Region.

It is NANA's intention to relinquish, at the proper time, selection applications which are not needed by NANA to protect receipt of its total Settlement Act land entitlements. Also, under H.R. 1092, as amended by your substitute, there would be an immediate reduction of in-holdings within the Cape Krusenstern National Monument of approximately 49,000 acres. And additional provisions which your amendment would

add to the Alaska Native Claims Settlement Act, dealing with the relinquishment or reconveyance of in-holdings, would have the effect of enabling and encouraging NANA to proceed expeditiously to review the status of its pending selection throughout our region. In doing so we will give priority attention to the so-called "A-1" lands in the northern part of the Cape Krusenstern Monument.

Sincerely,

JOHN W. SCHAEFFER, Jr.,
President.

TESTIMONY OF DAVID R. CLINE, REGIONAL VICE PRESIDENT, ALASKA NATIONAL AUDUBON SOCIETY

Mr. Chairman and members of the subcommittee, I am David R. Cline, regional vice president for the National Audubon Society in Alaska. As one of the oldest and largest conservation organizations in the United States, Audubon has a long-standing commitment to helping protect Alaska's national interest lands, including Cape Krusenstern National Monument.

After thoroughly evaluating the natural and human values associated with the legislation before you today, and having personally visited the areas in question on several occasions, we are satisifed that the National Park Service [NPS], NANA Regional Corporation, Inc. [NANA] and COMINCO Alaska, Inc. [COMINCO] have used the best available scientific information to structure a land exchange that is in the public interest. We, therefore, support enactment of H.R. 1092 as a means to resolve a number of land and resource conflicts in Alaska's Cape Krusenstern National Monument.

Our position in support of this legislation was not arrived at easily. On the contrary, we are well aware that on the one hand the land exchange does nto resolve all the inholding problems in the national monument. And on the other, it will undoubtedly expedite construction of an industrial road/railroad between the proposed Red Dog Mine and tidewater on the Chuckchi Sea coast. Regardless of where such an industrial transportation corridor is located in northwest Alaska, the wild character of this beautiful part of Alaska will be changed forever. And so too, the lifestyles of the people living there. But we are also aware that NANA and its resident stockholders have evaluated their options for survival given the social and economic realities of 20th century America. We respect the fact they have looked very carefully at the natural and human values at stake in this legislation. Furthermore, we think it important to recognize that NANA is the regional corporation that supported passage of the Alaska National Interst Lands Act of 1980 [ANILCA] with more national park and monument acreage in its region than any other in Alaska. Since that time, we have found NANA to be very responsible land stewards greatly concerned with proper protection and management of its own lands, as well as the national parklands in its region.

In conservation, just as in life, difficult tradeoffs must frequently be made. In arriving at its current position on this legislation, Audubon tried very hard to balance real human needs with the natural resource values that are at stake. It is our conclusion that H.R. 1092 strikes a pretty fair balance between these values, providing a number of related concerns are carefully examined by your subcommittees. I will elaborate on these concerns before concluding my testimony.

Whether or not road/railroad and port facilities are ever built to support development of the proposed Red Dog Mine, Audubon believes that the land exchange as legislated in H.R. 1092 will enable the National Park Service to better protect and manage the Cape Krusenstern National Monument. This will be accomplished by removal of a significant acreage of potential private inholdings, enabling NPS to better protect caribou winter range and upper watersheds of three streams (Agarak, Rabbit, and Jade) that geophysical research studies have shown contribute sediments to the beach deposition process at Cape Krusenstern. This deposition process is vital to preservation of the series of beach ridges and their world class archeological resources that constitute the most significant national resources to be protected in this national monument. NPS acquisition of these private inholdings is, therefore, important to the public interest.

We are also convinced that the preferred 55-mile-long transportation corridor from the Red Dog Mine to tidewater is the best available route from a natural resource perspective. COMICO has conducted some of the best preplanning engineering we have seen from a resource development company in Alaska. Time and again the company realigned its road corridor to avoid sensitive environmental areas, including fish spawning, overwintering and rearing areas; peregrine falcon and golden eagle eyries; waterfowl and shorebird staging areas; sensitive permafrost zones; favored subsistence hunting and fishing grounds; caribou and musk oxen winter range; and grizzly bear denning and Dall sheep-lambing areas. Thus, we are absolutely convinced that their preferred route will have the least possible adverse impact on wildlife and other important natural resources.

COMINCO, NANA, MPS, and local native residents have all concluded that the alternative transportation corridors that have been identified would cause far more serious conflicts with fish, wildlife, and other natural resources. We concur in this conclusion. For example, the alternative corridor immediately north of the existing national monument boundary would cross approximately 11 miles of primary wetland areas which support large populations of waterfowl and shorebirds. This in turn would force relocating both the proposed port to VABM-17 site at Ipiavik Lagoon. This coastal lagoon is one of the largest staging areas for resident waterfowl and shorebirds, and constitutes an important subsistance hunting area. The lagoon is also an important rearing area for adult and juvenile salmon and arctic char. Furthermore, preliminary studies have shown that the site has more ice-rich soils than at the preferred port site (VABM-28), and greater depths to bedrock. These environmental constraints would require large volumes of fill material to provide the necessary stabilization.

A second alternative that has been proposed is to locate the road even further north, crossing the Wulik River and its northern tributaries. The Wulik drainage has long been recognized as supporting perhaps that finest arctic char fishery in Alaska. This was confirmed by COMINCO's resource evaluations. If the road were built through this drainage, critical spawning, feeding, rearing, and overwintering habitats for arctic char, salmon, and arctic grayling could all be adversely affected. This alternative would thus impose unnecessary risk on this rich fishery, with its highly significant recreational and subsistance values, while causing serious engineering problems and increased costs, as well.

We think it would be a travesty to force COMINCO to choose an alternative corridor for its road that would intrude any further on the wetlands and numerous tributary streams of the Wulik River. From our experience with the North Slope Haul Road, serious problems including sedimentation and erosion, blocked fish passage and intensive fishing pressure have all occurred at numerous stream- and river-crossings along the haul road.

When Congress established the Cape Krusenstern National Monument in 1980, the primary reason for doing so was to protect and interpret a series of archeological sites depicting every known cultural period in arctic Alaska. It is vitally important to recognize that these sites are primarily along the monument's 75 mile coastline. Yet only about 20 miles of this coastline (26 percent) is actually in federal ownership with the remainder in individual native allotments. Unfortunately, the land exchange under consideration could not involve trade of these allotments since they are owned by individuals rather than NANA itself.

To get at this problem, we strongly urge your subcommittees to consider establishing a "Cape Krusenstern Cultural Resource Protection Fund." The principal intent of such a fund would be acquisition of nationally significant archeological and/or culturral sites that might someday become available for purchase on a willing seller basis only. Even with sale or lease of the allotments, subsistence efforts would be fully protected by inclusion of the lands in the national monument. Perhaps a simple transfer of moneys from the existing Land and Water Conservation Fund could be used to establish the new fund.

Fortunately, NPS has recognized the importance of these allotment inholdings, and even prioritized their importance in a draft-land-protection plan currently out for public review. I would like to refer you to pages 4-22 through 4-25 of the draft plan where the land protection priority groups are described and depicted on a map (please see exhibit A attached). We agree with the Park Service's priorities, and are particularly concerned that close attention be paid to the allotments at Cape Krusentern and Shishalik Spit. It is at these two coastal locations that the most outstanding archeological sites are located.

Considering the possible number of willing sellers that might wish to lease or dispose of their inholdings in the monument or at Onion Portage on the Kobuk River, we estimate that perhaps a one-half million dollar deposit to the fund each year for a period of 4 to 5 years would enable the NPS to acquire the nationally significant lands that may become available.

Another important matter related to this legislation that we would like to bring to the two subcommittees' attention is the corridor of lands that was set aside in ANILCA between the Cape Krusenstern National Monument and the Noatak National Preserve for the express purpose of providing access between the proposed Red Dog Mine and tidewater at Hotham Inlet. Since this corridor has been found inappropriate, we urge that you recommend in your subcommittee reports that the boundaries be closed and all undesignated Federal lands in the corridor be included in the preserve at such time as the land ownership pattern in the corridor is settled.

We would like to take this opportunity to commend COMINCO, NANA and NPS for the process which led to this proposal for a legislated land exchange. Based on years of experience in working with native, industry, and Government interests in Alaska in attempts to resolve difficult land and resource conflicts, we have found that the three parties have dealt with us in a highly professional manner on this issue. They have consistently responded to our recommendations in an honest and timely way, and have made a sincere effort to accommodate our concerns. We are confident that this spirit of cooperation will continue. The National Audubon Society intends to remain involved in this issue and wishes to be helpful in every way possible. At such time as road and port construction proceed, we want to help assure that monitoring by a qualified fish and wildlife biologist is ongoing. We have also made it known to NANA and the State of Alaska that we wish to work with them in finding mutually acceptable ways to protect fish and wildlife values on non-Federal lands in the Wulik River watershed.

Unfortunately, the public process which produced this exchange was routinely denied in other land exchanges conducted by the Department of the Interior. Before closing our remarks today, therefore, we would like to take this opportunity to alert the committee to the failure of the Department to exercise its land exchange authority responsibly.

Especially in these times of fiscal austerity, land exchanges provide a potentially useful tool for acquiring the many inholdings that now riddle the national conservation systems in Alaska. The land exchange authority contained in ANILCA was obviously provided to deal with the inholding problem. Nonetheless, because the Department has failed to promulgate regulations spelling out procedures and standards for its use of the land exchange authority, that authority has too often been exercised in an arbitrary and irresponsible fashion that threatens to undermine the act itself.

The Department's abuse of its land exchange authority under ANILCA is perhaps best illustrated by the St. Matthew Island land exchange. That exchange, the product of secret negotiations with no opportunities for public comment, opened St. Matthew Island, a national wildlife refuge and wilderness area, to development that would have had devastating consequences for seabird and marine mammal populations, while acquiring for the Department scattered refuge inholdings not threatened in any way. Audubon challenged the exchange in court and the court declared the exchange invalid.

The St. Matthew exchange stands in stark contrast to the exchange before the subcommittees today. First, and most importantly, the St. Matthew exchange would have caused far greater harm to wildlife and other natural resources: The island is one of the world's richest seabird nesting colonies, and its waters are inhabited by seven endangered species of whales. Second, the land interests acquired by the Department in the St. Matthew exchange were less valuable and less extensive than those acquired in the Cape Krusenstern National Monument. Third, there is no evidence that development of St. Matthew Island was or is necessary to support development of the Navarin Basin OCS lease area (the intended purpose), or that it is the best site from a natural resource perspective. In contrast, we are convinced that the road corridor provided by this exchange is necessary to development of the Red Dog Mine, and that it is, from a natural resource perspective, the optimal route. Finally, the St. Matthew Island exchange was accomplished administratively; in this exchange, the parties have agreed to submit the terms to Congress. We believe that congressional review is necessary for any exchange of this magnitude.

Unfortunately, however, the St. Matthew exchange is more nearly typical of the Department's implementation of its land exchange authority—clandestine and ad hoc. This approach has spawned controversy that can be greatly reduced if the Department will adopt regulations establishing a sensible and open approach to land exchanges. We, therefore, urge the committee to demand that the Department adopt the following measures:

1. Establish a system for setting acquisition priorities. Under such a system, the Department should, for each inholding, consider: (1) whether the inholding will pose any threat to protection or management of park or refuge resources; (2) the relative importance and probability of any such threats; and, (3) the alternatives, short of acquisition, available to address such threats. These priorities can perhaps best be set through the refuge and park planning processes, although it can, of course, be an ongoing review.

2. Establish a system for identifying lands available for exchange, drawing upon all the Federal lands in Alaska, and perhaps elsewhere. Consistent with congressional intent, such a system should establish a preference for lands outside the national conservation system. Under the current system, the Department has been giving away park and refuge lands to get park and refuge lands. Yet congressional intent and commonsense both dictate that the Department should be giving away the lands with lowest public values, typically lands held by BLM and the Forest Service. Until the Department establishes a system for identifying lands available for exchange, there will continue to be a strong institutional bias toward exchanges within agencies, e.g., park lands for park lands, and the conservation systems will suffer unnecessary losses.

3. Establish a public process for the development and approval of land exchanges so that the Department can benefit from the views and information the public has to offer, and so that land exchanges will not be tainted by the odor of clandestine negotiation and back room dealings. At a minimum, this process should provide that: (1) all land exchanges will be developed and approved in accordance with applicable laws, including NEPA, ESA, and ANILCA title XI; and (2) all reasonable alternatives are considered.

4. Establish criteria for development and approval of land exchanges, including factors to be considered in determining "the public interest." These criteria should require that a land exchange involving conservation system lands may be approved only if it will serve the purposes of the affected conservation units, and will benefit the conservation system.

We are convinced that with adoption of these modest, commonsense measures, the Department can develop an effective program for acquisition of inholdings, and minimize the controversy which has beset such efforts to date. We hope that the subcommittees will consider these proposals and urge their adoption by the Department. If such a process is adopted, the National Audubon Society would look forward to working closely with the Department as both a public participant and supporter of this initiative.

Thank you, Mr. Chairman, for providing us this opportunity to comment on H.R. 1092. Please know that the National Audubon Society greatly appreciates the outstanding record of achievement of both the Subcommittee on Public Lands and Subcommittee on National Parks and Recreation in helping resolve difficult land and resource issues in Alaska that involve the national interest.

GENERAL MANAGEMENT PLAN/ENVIRONMENTAL ASSESSMENT LAND PROTECTION PLAN, WILDERNESS SUITABILITY REVIEW, MARCH 1985

EXHIBIT A—CAPE KRUSENSTERN NATIONAL MONUMENT/ALASKA

V. RECOMMENDATIONS

The National Park Service is able to address a series of land protection actions in a logical order by applying a combination of the available methods. The major consideration in selecting site specific land protection alternatives is the need to comply with the intent of congressional legislation that established the monument. This authority emphasizes the preservation and protection of the monument's resources. In all cases, the minimum interest needed to carry out the intent of Congress will be defined and sought. Fee simple acquisition is justified to protect significant resources that are essential to the purposes of the monument, to provide for public use, or for improved resource management capability. A conservation easement is appropriate to protect the monument from incompatible developments that would impair its environment and detract from the public's use of the monument. Cooperative agreements are proposed to ensure that the management of private lands would be consistent with monument objectives. The following list of priorities is based on the resource values of the monument; potential threats to the land and resources; and non-Federal landowners' interests in selling, trading, exchanging, or entering into an agreement of one form or another.

Priorities

Priority Group 1

This group consists primarily of Native allotments located between the outlet of Krusenstern Lagoon (Tukruk River) on the south and Battle Rock on the north. The group includes the allotments located on Cape Krusenstern itself. The primary reason for creating the monument was to protect the known significant cultural resources of the beach ridges at the cape. Some of the allotments are believed to lie atop known significant cultural resources, while others are suspected to be located where there is a high probability of significant cultural resources. (See Land Protection Priority Groups Map, page 4-25.)

Priority Group 2

This group contains Native village and regional corporation lands that would be involved in the proposed Cape Krusenstern Land Exchange. These lands are located along the extreme northwestern boundary (parts of three townships) and along the extreme eastern boundary (all or parts of seven townships). In the exchange proposal, the Native lands in the northeastern portion of the monument (approximately 103,338 acres) and a small parcel along the northwestern coast (approximately 1,345 acres) would be exchanged for monument

lands (approximately 62,084 acres) located in the northwestern portion of the monument. In addition, the National Park Service would receive a conservative easement on 10,942 acres of Native land in the southeastern corner of the monument (see priority group 3) and an easement and public use and occupancy right for a 5-acre administrative site within or near the Onion Portage Historic District in Kobuk Valley National Park. (See Land Protection Priority Groups Map, page 4-25.)

Priority Group 3

This group contains Native allotments and Native lands in the southeastern portion of the monument. The allotments, mostly along the coastline, are in areas where less is known about the cultural resources than those in Group 1, but where the probability for significant resources is considered to be high, especially on Sheshalik Spit. Some of the Native corporation lands in this group would be affected by the proposed Cape Krusenstern Land Exchange, but fee simple title would not change hands. Instead, the National Park Service would receive a conservation easement on the lands (approximately 10,942 acres) for the protection and study of resource values. (See Land Protection Priority Groups Map, page 4-25.)

Priority Group 4

This group consists of allotments located between Battle Rock and Imik Lagoon. Little work has been done to investigate the potential for cultural resources in this area. But the proximity to sites such as Battle Rock would indicate that there is reason to suspect a high occurrence of cultural resource sites. (See Land Protection Priority Groups Map, page 4-25.)

Mr. Speaker, I reserve the balance of my time.

Mr. YOUNG of Alaska. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of this legislation, which would allow a beneficial land exchange within the Cape Krusenstern National Monument in Alaska to occur.

NANA Regional Corp. is a regional corporation formed by the Natives of northwest Alaska under the Alaska Native Claims Settlement Act which presently has inholdings within the Cape Krusenstern National Monument established by Congress in 1980. By this legislation, NANA would receive an easement to construct an access road to the Red Dog mine, a world class deposit of lead and zinc north of the monument. With unemployment in the region typically approaching 70 percent, the mine will allow the Natives of northwest Alaska the opporunity to find jobs close to home, and develop economically consistent with the purposes of the Alaska Native Claims Settlement Act.

The reason access across the monument is required is simple. This route is by far the most environmentally sound route for the road to take. While some have suggested a northern route which would reach the mine without passing through the monument, any objective analysis of the routes would compel the selection of the southern route. The proposed road is much less damaging to fish and wildlife because it crosses one major stream while the northern route crosses six streams. Further, the people of the region who live off the land prefer the southern route because the northern route would traverse their subsistence hunting grounds. Clearly, those who support the environment's integrity must come down in support of this bill.

This is a good bill. It will create jobs in an area plagued with joblessness. It will improve the park—although not as much as my original bill. And it will allow development of a major mineral deposit right here in the United States, where no one can interdict the flow of those minerals necessary to this country's defense and economic health.

I wish to thank Chairman SEIBERLING and Chairman VENTO, as well as Mr. MARLENEE for their assistance in bringing this matter to the floor, and wish to thank Chairman UDALL for his assistance and leadership in this matter.

Mr. Speaker, I reserve the balance of my time.

Mr. SEIBERLING. Mr. Speaker, I was very pleased and happy to have shared the hearing with the chairman of the National Parks and Recreation Subcommittee. We held a joint hearing on this subject, and I am very grateful for the support that he and his subcommittee have given to the working out of this legislation.

According, Mr. Speaker, I now yield 5 minutes to the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. I thank the gentleman for yielding this time to me, and for his kind and generous comments.

Mr. Speaker, this measure is a good measure and deserves the support of Members today. It is in no small part because of the work done by the gentleman from Ohio [Mr. SEIBERLING], the chairman of the Subcommittee on Public Lands, and our good friend and colleague, the ranking minority member of the committee, the gentleman from Alaska [Mr. YOUNG].

Mr. Speaker, subsequent to hearings held jointly by the Subcommittee on Public Lands and Subcommittee on National Parks and Recreation on this bill, I discussed several issues of concern with our able colleague and chairman of the Public Lands Subcommittee, JOHN SEIBERLING. Among these was the need to retain the transportation corridor ownership by the park service, to encourage NANA to trade out of the boundary of Cape Krusenstern National Mounument as soon as possible and to assure ourselves that there would not be any other transportation corridors approved in this region of Alaska. I am pleased that the first two issues have been resolved in the amended version of H.R. 1092. However, because of the short time frame and the complexity of requiring any future mining ventures in the region to use the facilities of this transportation corridor rather than building a new one no such legislative language was included in the bill. That should not be construed by anyone to be lessened interest by myself or many other members of the committee in prohibiting any other such transportation corridors in this region of Alaska. The committee was assured by a number of witnesses, including the witness representing the State of Alaska, that the route to be sanctioned by this legislative was the least environmentally damaging of all of the routes studied and that the roadway to be constructed would be used by any future mine developer. I have accepted that commitment and look to the State of Alaska to be diligent in cooperating with us to assure that no further routes will be approved.

Mr. Speaker, H.R. 1092, by reference, includes the agreement between NANA Regional Corp. and the United States which calls for exchanging lands within a unit of the National Park System. While such exchanges are permitted under authority granted by the Alaska National Interest Lands Conservation Act of 1980 [ANILCA] and apply only to units of the National Park System in Alaska, it was intended that exchanges be used to diminish and ultimately eliminate inholdings in these park units. I believe the situation at Cape Krusenstern to be an unusual one and the exchange provisions to be, on balance, helpful to the monument. However, ANILCA specifically addresses this issue of transportation corridors in title XI and requires the Secretary of the Interior to implement that title through appropriate regulations. It has now been almost 5 years and there are still no such regulations. I urge the Secretary to finalize these regulations as soon as possible and to adhere to the requirements of title XI in any further submittals regarding transportation corridors.

During our hearings, Deputy Under Secretary William Horn testified that no environmental impact study [EIS] had been prepared on the land exchange proposed by the Department of the Interior because section 910 of ANILCA exempted the action from the provisions of the National Environmental Policy Act. This is a gross distortion in interpretation of the purpose of this section. Section 910 was intended to assure that native corporations would receive their full entitlements as quickly as possible and was not and is not, an excuse to take actions that might degrade the resources of any conservation unit without the full and complete investigation, including public scrutiny, that is re-

quired by NEPA. All such exchanges proposed in the future should only be considered after completion of an EIS.

Mr. Speaker, I wish to thank the chairman of the Subcommittee on Public Lands for his leadership and cooperation in resolving this difficult controversy.

Mr. YOUNG of Alaska. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. SEIBERLING. Mr. Speaker, I simply want to thank the gentleman from Alaska [Mr. YOUNG] for his working with the other members of the subcommittee in working out what I consider to be a very successful resolution of this matter. I would hope that it augurs well for future dealings with similar problems in his great State.

On that note, Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Ohio [Mr. SEIBERLING] that the House suspend the rules and pass the bill, H.R. 1092, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

Mr. SEIBERLING. Mr. Speaker, I ask unanimous consent that the Committee on Interior and Insular Affairs be discharged from further consideration of the Senate bill (S. 444) to amend the Alaska Native Claims Settlement Act, and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 444

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. The Alaska Native Claims Settlement Act (85 Stat. 688, 43 U.S.C. 1601-28), as amended, is further amended by adding at the end thereof the following new section.

"SEC. 42. The Secretary shall convey to NANA Regional Corporation, Incorporated, in accordance with the terms and conditions set forth in an agreement entitled 'Terms and Conditions Governing Legislative Land Consolidation and Exchange between NANA Regional Corporation, Incorporated, and the United States', which was executed by the parties on January 31, 1985, lands and interests in lands in exchange for lands and interests in lands of NANA Regional Corporation, Incorporated, upon fulfillment by NANA Regional Corporation, Incorporated, of its obligations under said agreement.".

AMENDMENT OFFERED BY MR. SEIBERLING

Mr. SEIBERLING. Mr. Speaker, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. SEIBERLING: Strike all after the enacting clause and insert the text of H.R. 1092 as passed by the House.

The SPEAKER pro tempore. The question is on the amendment offered by the gentleman from Ohio [Mr. SEIBERLING].

The amendment was agreed to.

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

A similar House bill (H.R. 1092) was laid on the table.

□ 1400

GENERAL LEAVE

Mr. SEIBERLING. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to extend their remarks on the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

RECOGNIZING THE ACCOMPLISHMENTS OF THE HISTORIC SITES ACT OF 1935

Mr. SEIBERLING. Mr. Speaker, I ask unanimous consent for the immediate consideration of the joint resolution (H.J. Res. 299) recognizing the accomplishments over the past 50 years resulting from the passage of the Historic Sites Act of 1935, one of this Nation's landmark preservation laws.

The Clerk read the title of the joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

Mr. YOUNG of Alaska. Mr. Speaker, reserving the right to object, I shall not object, but I would just like to ask the gentleman to explain this request to us.

Mr. SEIBERLING. Mr. Speaker, will the gentleman yield?

Mr. YOUNG of Alaska. I yield to the gentleman from Ohio.

Mr. SEIBERLING. Mr. Speaker, the purpose of House Joint Resolution 299 is to recognize the 50-year accomplishments of the Historic Sites Act of 1935.

The Historic Sites Act of 1935 (16 U.S.C. 461-467) is one of the cornerstones of our Nation's modern historic preservation program. It stated for the first time the national policy to preserve nationally significant historic sites and monuments, regardless of whether they were in Federal ownership. It gave the Secretary of the Interior broad authority to initiate and oversee national preservation activities. It provided authority for the professional documentation of historic sites and structures by the Historic American Buildings Survey [HABS] and, subsequently, the Historic American Engineering Record [HAER]. It called for a nationwide survey to identify sites significant in American history, which led to the designation of national landmarks and, later, establishment by Congress in 1966 of the National Register of Historic Places. It also established what has become the National Park System Advisory Board to provide advice on cultural and natural resources in units of the National Park System and led to the establishment of over 300 museums to serve park visitors throughout the country.

House Joint Resolution 299 notes the various achievements resulting from the Historic Sites Act and provides recognition for its many contributions to the identification and protection of the Nation's cultural heritage. The resolution was introduced on June 4, 1985, and referred to the Committee on Interior and Insular Affairs. The Subcommittee on Public Lands and National Parks held a hearing on it on July 23, 1985, and recommended it to the full committee. The full committee ordered it reported, with no amendments, on July 24, 1985, and recommends its approval by the House.

I would like to point out that at the hearing on House Joint Resolution 299, it was noted that advisory committees for the HABS and HAER Programs formerly provided advice to the National Park Service through the services of professional architects, historians and engineers. The authority which provided for the existence of the two committees was allowed to lapse in 1978. The National Park Service is encouraged to reactivate administratively the advisory committees for the purpose of reviewing documents prepared through the HABS and HAER Programs and as a way to encourage and educate the private sector in the work of these programs.

Before closing I would like to thank our colleague, Mr. BUSTAMANTE, for introducing this legislation, and Melissa Hilton of his staff for her assistance. I would also like to thank Loretta Neumann and Melanie Beller of the subcommittee staff and Laura Beaty of the National Parks and Conservation Association, Charles Peterson, FAIA, and Jerry Rogers, National Park Service.

I am inserting in the RECORD, following these remarks, a listing of the organizations supporting this resolution.

Following, in alphabetical order, are the organizations supporting the legislation: American Association of Museums; American Institute of Architects; American Society of Civil Engineers; American Society of Landscape Architects; Coordinating Committee for the Promotion of History; Council on America's Military Past; National Parks and Conservation Association; National Trust for Historic Preservation; Preserva-

tion Action; Society for American Archaeology; the Archaeological Conservancy; and U.S. Conference of Mayors.

Mr. YOUNG of Alaska. Mr. Speaker, I thank the gentleman from Ohio [Mr. SEIBERLING] for his explanation, and I rise in support of House Joint Resolution 299.

Mr. Speaker, House Joint Resolution 299 recognizes the accomplishments over the past 50 years resulting from the passage of the Historic Sites Act of 1935.

The Historic Sites Act is considered one of the cornerstones of our Nation's historic preservation program. It stated for the first time the national policy to preserve nationally significant historic sites and monuments, regardless of whether they were in Federal ownership. It gave the Secretary of the Interior broad authority to initiate and oversee national preservation activities. It provided authority for the historic American buildings survey and, subsequently, the Historic American Engineering Record. It called for a nationwide survey to identify sites significant in American history, which led to the creation of national landmarks and, later, the National Register of Historic Places. It also established what has become the National Park System Advisory Board to provide advice on the cultural and natural resources in units of the National Park System.

The administration "wholeheartedly endorses" passage of this resolution; and I urge my colleagues to do the same.

● Mr. BUSTAMANTE. Mr. Speaker, I rise to urge passage of House Joint Resolution 299, a resolution which I introduced to commend the Historic Sites Act on its 50th anniversary. The resolution has received the support of the members of the Subcommittee on Public Lands and the Subcommittee on Interior. August 21 will mark the 50th anniversary of the signing into law of the Historic Sites Act, a landmark preservation law of our Nation. It is timely that the House act now, so that this resolution will become law before the anniversary occasion.

The Historic Sites Act laid the foundation for preservation efforts in our country. Its scope was broad, and its impact has been significant.

Prior to enactment of the Historic Sites Act, there was no national preservation policy. Passage of the Historic Sites Act paved the way for preservation efforts in our country. Virtually every successful preservation program has grown out of the 1935 act. The Historic Sites Act set forth a national policy on preservation which has aided public and private groups. According to the act, it is a "national policy to preserve for public use historic sites, buildings, and objects of national significance for the inspiration and benefit of the people of the United States."

We can be proud of our history and the Nation we have become. We should continue to protect and preserve our heritage for ourselves and for future generations. By visiting historic sites, we experience our history. We learn about the people, the events, and the values that shaped our country.

I believe it is appropriate on this anniversary occasion to recognize the achievements of the Historic Sites Act. I ask the support of my colleagues and urge passage of House Joint Resolution 299.●

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

The Clerk read the joint resolution, as follows:

H.J. RES. 299

Whereas the Act popularly known as the Historic Sites Act, enacted in 1935, for the first time stated that the national policy on historic preservation is "to preserve for public use historic sites, buildings and objects of national significance for the inspiration and benefit of the people of the United States";

Whereas the Historic Sites Act gave rise to a national Historic Sites Survey, which identified hundreds of sites that are important to understanding and commemorating the history of the United States;

Whereas based on the results of that nationwide survey and continuing investigations of historical properties, the National Historic Landmarks Program and the National Register of Historic Places were begun to identify sites of National, State, and local historical significance;

Whereas the Act fostered the documentation of unique examples of American architecture and engineering by the Historic American Buildings Survey and the Historic American Engineering Record; and

Whereas it would be appropriate and in the public interest to mark the 50th anniversary of the enactment of the Historic Sites Act and the preservation of our National heritage that continues as a result of that landmark legislation: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Act entitled "An Act to provide for the preservation of historic American sites, buildings, objects, and antiquities of national significance, and for other purposes" (approved August 21, 1935; 49 Stat. 666) is hereby recognized for its substantial contributions over the past 50 years to the identification and protection of the Nation's cultural heritage.

The joint resolution was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SEIBERLING. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislastive days in which to extend their remarks on the joint resolution just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

CONFERENCE REPORT ON S. 1160, DEPARTMENT OF DEFENSE AUTHORIZATION ACT, 1986

Mr. PRICE submitted the following conference report and statement on the Senate bill (S. 1160) entitled "An Act to authorize appropriations for the military functions of the Department of Defense and to prescribe personnel levels for the Department of Defense for fiscal year 1986, to authorize certain construction at military installations for such fiscal year, to authorize appropriations for the Department of Energy for national security programs for such fiscal year, and for other purposes:"

CONFERENCE REPORT (H. REPT. NO. 99-235)

The committee of conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 1160) to authorize appropriations for the military functions of the Department of Defense and to prescribe personnel levels for the Department of Defense for fiscal year 1986, to authorize certain construction at military installations for such fiscal year, to authorize appropriations for the Department of Energy for national security programs for such fiscal year, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its disagreement to the amendment of the House to the text of the bill and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the House amendment insert the following:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS

(a) SHORT TITLE.—This Act may be cited as the "Department of Defense Authorization Act, 1986".

(b) TABLE OF CONTENTS.—The table of contents of this Act is as follows:

Sec. 1. Short title; table of contents.

TITLE I—PROCUREMENT

PART A—FUNDING AUTHORIZATIONS

Sec. 101. Army.
Sec. 102. Navy and Marine Corps.
Sec. 103. Air Force.
Sec. 104. Reserve components.
Sec. 105. Defense Agencies.
Sec. 106. NATO cooperative programs.
Sec. 107. Reductions in authorizations due to savings from lower inflation and prior-year cost savings.
Sec. 108. Provisions relating to transfers of prior-year funds.
Sec. 109. Report on reductions and transfers.
Sec. 110. Improvement in conventional readiness capability.

PART B—ARMY PROGRAM LIMITATIONS

Sec. 121. Sergeant York Division Air Defense (DIVAD) gun.
Sec. 122. Bradley fighting vehicle.
Sec. 123. Conditions on procurement of certain combat vehicles.
Sec. 124. Sale of L119 howitzers overseas.

Sec. 125. Restrictions on purchase of 5-ton trucks.
Sec. 126. Other Army programs.
PART C—NAVY PROGRAM LIMITATIONS
Sec. 131. A6 aircraft rewing program.
Sec. 132. Limitations on Navy aircraft procurement.
PART D—AIR FORCE PROGRAM LIMITATIONS
Sec. 141. MX missile program.
Sec. 142. Competition for Air Force fighter aircraft procurement.
Sec. 143. Advanced technology bomber.
Sec. 144. Special operations forces HH-53 helicopters.
PART E—OTHER LIMITATIONS
Sec. 151. C-12 aircraft.
Sec. 152. Adequate airlift for special operations forces.
TITLE II—RESEARCH, DEVELOPMENT, TEST, AND EVALUATION
PART A—AUTHORIZATIONS OF APPROPRIATIONS AND PROGRAM LIMITATIONS
Sec. 201. Authorization of appropriations.
Sec. 202. Reductions in authorizations due to savings from lower inflation and prior-year cost savings.
Sec. 203. Authorization of transfers of prior-year funds.
Sec. 204. Limitations on funds for the Army.
Sec. 205. Limitations on funds for the Navy (including the Marine Corps).
Sec. 206. Limitations on funds for the Air Force.
Sec. 207. Limitations on funds for the Defense Agencies.
Sec. 208. Testing of antisatellite weapons and space survivability program.
Sec. 209. Small intercontinental ballistic missile program.
Sec. 210. Advanced Medium-Range Air-to-Air Missile (AMRAAM) system.
Sec. 211. High-speed Anti-Radiation Missile (HARM) program.
PART B—STRATEGIC DEFENSE INITIATIVE
Sec. 221. Funding for fiscal year 1986.
Sec. 222. Requirement for specific authorization for deployment of Strategic Defense Initiative system.
Sec. 223. Reports on Strategic Defense Initiative.
Sec. 224. Congressional policy regarding consultation with other members of NATO on the Strategic Defense Initiative.
Sec. 225. Congressional expression on the Strategic Defense Initiative and the ABM Treaty.
Sec. 226. Report on strategic and theater ballistic missile defenses.
TITLE III—OPERATION AND MAINTENANCE
Sec. 301. Authorization of appropriations.
Sec. 302. Authorization of appropriations for working-capital funds.
Sec. 303. Limitation on the use of O&M funds to purchase investment items.
Sec. 304. Assistance for the Tenth International Pan American Games.
Sec. 305. Authorization of appropriations for transportation of humanitarian relief supplies to Afghan refugees.
Sec. 306. Extension and expansion of authority of the Secretary of Defense to transport humanitarian relief supplies to certain countries.
Sec. 307. Limitation concerning Air National Guard and Air Force Reserve flying units.
Sec. 308. Commissary and exchange privileges for survivors of certain reservists.
TITLE IV—MILITARY PERSONNEL AUTHORIZATIONS
PART A—ACTIVE FORCES
Sec. 401. Authorization of end strengths.
Sec. 402. Extension of quality control on enlistments into the Army.
PART B—RESERVE FORCES
Sec. 411. Authorization of average strengths for Selected Reserve.
Sec. 412. Authorization of end strengths for Reserves on active duty in support of the reserve components.
Sec. 413. Increase in number of certain personnel authorized to be on active duty in support of the reserve components.
PART C—MILITARY TRAINING
Sec. 421. Authorization of training student loads.
TITLE V—DEFENSE PERSONNEL POLICY
PART A—CIVILIAN PERSONNEL
Sec. 501. Waiver of civilian personnel ceilings for fiscal year 1986.
Sec. 502. Prohibition on managing civilian personnel by end-strengths during fiscal year 1986.
Sec. 503. Exercise of certain authorities relating to civilian employees of the Department of Defense.
Sec. 504. Modification and study of Department of Defense civilian personnel classification and pay systems.
PART B—ACTIVE MILITARY PERSONNEL
Sec. 511. Adjustment in Marine Corps officer grade table.
Sec. 512. Service agreements of cadets and midshipmen.
Sec. 513. Transfers to and from temporary disability retired list.
Sec. 514. Change in title of grade of commodore to rear admiral (lower half).
Sec. 515. Temporary increase in the number of general and flag officers authorized to be on active duty in three- and four-star grades.
Sec. 516. Grade of retired regular members recalled to active duty.
PART C—RESERVE MILITARY PERSONNEL
Sec. 521. Extension of certain reserve officer management programs.
Sec. 522. Retention until age 60 of reserve civilian technicians.
Sec. 523. Authority to retain in active status until age 62 up to 10 Army reserve major generals.
Sec. 524. Requirement of muster test of Army Individual Ready Reserve.
PART D—MISCELLANEOUS
Sec. 531. Appointments of warrant officers.
Sec. 532. Prisoner-of-war medal.
Sec. 533. Clarification of precedence of the award of the purple heart.
Sec. 534. Espionage under the UCMJ.
TITLE VI—COMPENSATION AND OTHER PERSONNEL BENEFITS
PART A—BASIC PAY AND ALLOWANCES
Sec. 601. Military pay raise for fiscal year 1986.
Sec. 602. Adjustments in variable housing allowance program.
Sec. 603. Payment of variable housing allowance in Alaska and Hawaii.
Sec. 604. Authority to pay BAQ and VHA in advance.
Sec. 605. Eligibility for basic allowance for quarters.
Sec. 606. Reimbursement for accommodations in place of quarters.
Sec. 607. Increase in family separation allowance.
PART B—TRAVEL AND TRANSPORTATION
Sec. 611. Increase in dislocation allowance.
Sec. 612. Revision of travel and transportation allowances.
Sec. 613. Temporary lodging expenses.
Sec. 614. Allowances for transportation of baggage and household effects.
Sec. 615. Travel allowance for travel performed in connection with certain leave.
Sec. 616. Travel during ship overhaul.
Sec. 617. Definition of residence of a student dependent.
Sec. 618. Extension of test program for flat rate per diem system.
Sec. 619. Travel and transportation allowances for travel within the administrative limits of a member's duty station.
Sec. 620. Transportation allowances for survivors of deceased member to attend burial ceremonies of deceased member.
PART C—BONUSES AND SPECIAL AND INCENTIVE PAYS
Subpart 1—Active Forces
Sec. 631. Lump-sum payments of selective reenlistment bonuses.
Sec. 632. Special pay for nuclear officers.
Sec. 633. Incentive pay for submarine duty.
Sec. 634. Career sea pay.
Sec. 635. Incentive pay for hazardous duty.
Sec. 636. Extension of aviation officer continuation pay.
Sec. 637. Change in definition of engineering and scientific duty.
Sec. 638. Incentive pay for duty subject to hostile fire.
Sec. 639. Revision of special pay for dental officers.
Sec. 640. Special pay for medical officers.
Sec. 641. Special pay for qualified enlisted members extending duty at certain locations overseas.
Subpart 2—Reserve Forces
Sec. 642. Selected Reserve enlistment bonus.
Sec. 643. Selected Reserve reenlistment bonus.
Sec. 644. Selected Reserve enlistment bonus for prior-service personnel.
Sec. 645. Selected Reserve affiliation bonus.
Sec. 646. Individual Ready Reserve bonuses.
Sec. 647. Selected Reserve hazardous-duty incentive pay.
PART D—HEALTH-CARE MATTERS
Sec. 651. CHAMPUS dental care for active-duty dependents.
Sec. 652. Enhanced health-care benefits for survivors of certain reservists.
Sec. 653. Licensure requirement for defense health-care professionals.
Sec. 654. Study of medical casualty investigations.
PART E—MILITARY RETIREMENT
Sec. 666. Limitation on amounts available for obligation for basic pay and for retired pay accrual charge.
Sec. 667. Legislative proposal to amend military retirement system for new entrants.

PART F—EDUCATIONAL ASSISTANCE PROGRAM
Sec. 671. Department of Defense educational loan repayment programs.
Sec. 672. Specialized training assistance in the health profession for members of reserve components.
Sec. 673. Right of members of naval service to transfer certain educational entitlement to spouse or dependent children.
Sec. 674. Changes in eligibility requirements for the all-volunteer force educational assistance program.
PART G—MISCELLANEOUS
Sec. 681. Legal representation of civilians overseas.
Sec. 682. Accrued leave.
Sec. 683. Pay allotments for Navy and Marine Corps.
Sec. 684. Extension to PHS and NOAA of authority to collect debts from pay of members.
Sec. 685. Surcharge for sales at animal disease prevention and control centers.
TITLE VII—SURVIVOR BENEFIT PLAN IMPROVEMENTS
Sec. 701. Short title.
PART A—GENERAL PROGRAM CHANGES
Sec. 711. Establishment of two-tier benefit system and elimination of social security offset.
Sec. 712. SBP coverage for members who die after 20 years of service.
Sec. 713. Annuity for survivors of certain retirement-eligible reservists.
Sec. 714. Indexing of threshold amount for calculation of reduction of retired pay.
Sec. 715. SBP coverage upon remarriage.
Sec. 716. Option to cover both a former spouse and dependent children of a member.
Sec. 717. Authority to repay refunded SBP deductions in installments.
Sec. 718. Effective date of DIC offset.
Sec. 719. Technical amendments to SBP statute.
PART B—PROVISIONS RELATING TO RIGHTS FOR SPOUSES AND FORMER SPOUSES
Sec. 721. Spousal concurrence for elections.
Sec. 722. Clarification of status of spousal agreements.
Sec. 723. Former spouse coverage to be provided in spouse category rather than insurable interest category.
Sec. 724. Notice of elections available.
PART C—EFFECTIVE DATE AND REPORT
Sec. 731. Effective date.
Sec. 732. Report on establishing needs-based survivor benefit annuity program for surviving spouses of certain retired reservists.
TITLE VIII—MILITARY FAMILY POLICY AND PROGRAMS
Sec. 801. Short title.
Sec. 802. Office of Family Policy.
Sec. 803. Transfer of Military Family Resource Center.
Sec. 804. Surveys of military families.
Sec. 805. Family members serving on advisory committees.
Sec. 806. Employment opportunities for military spouses.
Sec. 807. Youth sponsorship program.
Sec. 808. Dependent student travel within the United States.
Sec. 809. Relocation and housing.
Sec. 810. Food programs.
Sec. 811. Reporting of child abuse.
Sec. 812. Miscellaneous reporting requirements.
Sec. 813. Effective date.
TITLE IX—PROCUREMENT POLICY REFORM AND OTHER PROCUREMENT MATTERS
Sec. 901. Short title.
PART A—PROGRAM MANAGEMENT MATTERS
Sec. 911. Regulations relating to allowable costs.
Sec. 912. Multiple sources for major defense acquisition programs.
Sec. 913. Minimum percentage of competitive procurements.
Sec. 914. Regulations to control prices that may be paid for spare parts.
Sec. 915. Should-cost analyses.
Sec. 916. Limitations on progress payments.
Sec. 917. Cost and price management in defense procurement.
Sec. 918. Contracted advisory and assistance services.
Sec. 919. Revision and extension of procurement technical assistance cooperative agreement program.
PART B—PROCUREMENT PERSONNEL MATTERS
Sec. 921. Post-Government-service bars on senior defense officials.
Sec. 922. Improved reporting and disclosure for former employees of the Department of Defense; prevention of conflicts of interest.
Sec. 923. Requirements relating to private employment contacts between certain Department of Defense procurement officials and defense contractors.
Sec. 924. Management of Department of Defense procurement personnel.
Sec. 925. Assignment of principal contracting officers.
PART C—FALSE CLAIMS, DEBARMENT, BURDEN OF PROOF, AND RELATED MATTERS
Sec. 931. Increased penalties for false claims in defense procurement.
Sec. 932. Prohibition on felons convicted of defense-contract-related felonies and penalty on employment of such persons by defense contractors.
Sec. 933. Burden of proof in Government contract dispute resolution.
Sec. 934. Reimbursement, interest charges, and penalties for overpayments.
Sec. 935. Subpoenas of defense contractor records.
PART D—REPORTS
Sec. 951. Report on prohibition on including general and administrative overhead expenses in the computation of contractor profits.
Sec. 952. Report on use of independent cost estimates for major defense acquisition programs.
Sec. 953. GAO study of feasibility of civilian defense acquisition agency.
Sec. 954. Report on suspension and debarment of defense contractors.
Sec. 955. Report on the use of competition under section 8(a) set-aside program.
Sec. 956. Report on efforts to increase defense contract awards to Indian-owned business.
PART E—TECHNICAL AMENDMENTS
Sec. 961. Technical corrections to Federal procurement law.
TITLE X—MATTERS RELATING TO ARMS CONTROL
Sec. 1001. Policy on compliance with existing strategic offensive arms agreements.
Sec. 1002. Annual report on Soviet compliance with arms control commitments.
Sec. 1003. Study of arms control verification capabilities.
Sec. 1004. Sense of Congress relating to United States-Soviet negotiations on reduction in nuclear arms.
Sec. 1005. Pilot program for exchange of certain high-ranking military and civilian personnel with the Soviet Union.
Sec. 1006. Report on nuclear winter findings and policy implications.
TITLE XI—MATTERS RELATING TO NATO
Sec. 1101. Limited authority to exceed permanent ceiling on United States forces assigned to NATO.
Sec. 1102. North Atlantic Treaty Organization cooperative projects.
Sec. 1103. NATO cooperative research and development.
TITLE XII—DEPARTMENT OF DEFENSE MANAGEMENT
PART A—MANAGEMENT OF FACILITIES AND DOD ORGANIZATION
Sec. 1201. Annual Selected Acquisition Reports.
Sec. 1202. Base closures and realignments.
Sec. 1203. Demonstration project to test the use of a certain computer system in military hospitals.
Sec. 1204. Continued operation by the Secretary of Defense of the Defense Dependents' education system.
Sec. 1205. Authority to enroll certain children in overseas schools of the Defense Dependents' education system.
Sec. 1206. Limitation on size of headquarters staffs.
Sec. 1207. Report on organizational structure of the military health-care delivery system.
Sec. 1208. Annual report on Guard and Reserve equipment.
Sec. 1209. Moratorium on franchise agreements by military exchange services.
Sec. 1210. Priority for Air Force Shuttle Operations and Planning Complex.
Sec. 1211. Provision of uranium tetrafluoride to contractors for production of conventional ammunition.
Sec. 1212. Prohibition of certain restrictions on institutions eligible to provide educational services.
PART B—PERSONNEL MANAGEMENT
Sec. 1221. Counterintelligence polygraph program.
Sec. 1222. Reduction in security clearance backlog.
Sec. 1223. Authority for independent criminal investigations by Navy and Air Force investigative units.
Sec. 1224. Establishment of minimum drinking age on military installations.
Sec. 1225. Cash awards for disclosures leading to cost savings.
PART C—CONTRACTING-OUT FOR PERFORMANCE OF CERTAIN FUNCTIONS
Sec. 1231. Specification of core-logistics

functions subject to contracting-out limitation.
Sec. 1232. One-year extension of prohibition on contracting for the performance of firefighting and security functions.
Sec. 1233. Services and activities to be performed by non-Government personnel.
Sec. 1234. Increase in thresholds applicable to statutory contracting-out procedures.

PART D—ECONOMY AND EFFICIENCY

Sec. 1241. Flextime for Federal contractor employees.
Sec. 1242. Prohibition on establishment of pay rates for prevailing rate employees of the Department of Defense using surveys of wages paid outside the local wage area.

TITLE XIII—TECHNICAL AND CLERICAL AMENDMENTS

Sec. 1301. Elimination of certain statutory gender-based distinctions.
Sec. 1302. Technical amendments relating to benefits for certain DIA personnel.
Sec. 1303. General clerical amendments.
Sec. 1304. Clerical amendments to Federal procurement law.

TITLE XIV—GENERAL PROVISIONS

PART A—FINANCIAL MATTERS

Sec. 1401. Transfer authority.
Sec. 1402. Authorization of transfers for FY85 pay supplemental.
Sec. 1403. Special Defense Acquisition Fund.
Sec. 1404. Revisions to defense budget plan.
Sec. 1405. Two-year budget cycle for the Department of Defense.
Sec. 1406. Report on budgeting for inflation.
Sec. 1407. Report of unobligated balances.
Sec. 1408. Authorization of appropriations for purchase of foreign currencies.

PART B—CHEMICAL WEAPONS

Sec. 1411. Conditions on spending funds for binary chemical munitions.
Sec. 1412. Destruction of existing stockpile of lethal chemical agents and munitions.
Sec. 1413. Report concerning the testing of chemical warfare agents.

PART C—DRUG INTERDICTION, LAW ENFORCEMENT, AND OTHER SPECIFIC PROGRAMS

Sec. 1421. Enhanced drug-interdiction assistance.
Sec. 1422. Establishment, operation, and maintenance of drug law enforcement assistance organizations of the Department of Defense.
Sec. 1423. Military cooperation information programs for civilian law enforcement officials.
Sec. 1424. Study on the use of the E-2 aircraft for drug interdiction purposes.
Sec. 1425. Strategic bomber programs.
Sec. 1426. Restrictions on certain nuclear programs.

PART D—MISCELLANEOUS REPORTING REQUIREMENTS

Sec. 1431. Extension of time for submission of reports by Commission on Merchant Marine and Defense.
Sec. 1432. Report on naval shipbuilding and repair base.
Sec. 1433. Nuclear reactor components for SSN-21 class submarines.
Sec. 1434. Aircraft fuel conservation report.
Sec. 1435. Report concerning poseidon-class submarine.
Sec. 1436. Report and demonstration project concerning the sale of certain United States meat in military commissaries overseas.
Sec. 1437. Report on retention of basic point defense missile system.
Sec. 1438. Report on retirement benefits of Philippine scouts.
Sec. 1439. Report on death penalty for espionage.
Sec. 1440. Report on impact of foreign exports on the defense industrial base of the United States.
Sec. 1441. Sense of Congress regarding the firing of tactical missiles for training purposes.
Sec. 1442. Report on feasibility of drug testing of prospective recruits.

PART E—MISCELLANEOUS PROVISIONS

Sec. 1451. Sense of Congress on introduction of Armed Forces into Nicaragua for combat.
Sec. 1452. Sense of Congress concerning protection of United States military personnel against terrorism.
Sec. 1453. Readiness of special operations forces.
Sec. 1454. Authority to provide excess personal property for humanitarian purposes.
Sec. 1455. Encouragement of construction in United States shipyards of combatant vessels for United States allies.
Sec. 1456. Defense industrial base for textile and apparel products.
Sec. 1457. Encouragement of technology transfer.
Sec. 1458. Civil air patrol.
Sec. 1459. National Science Center for Communications and Electronics.
Sec. 1460. Donations by commissary stores of certain unmarketable food.
Sec. 1461. Limitation on gratuities at naval shipbuilding ceremonies.
Sec. 1462. Authority to transfer certain aircraft.
Sec. 1463. Authority to lease Air Force helicopters to the State of California.
Sec. 1464. Sense of Congress concerning establishment of travel offices or acquisition of travel services.
Sec. 1465. American stage equipment for United States patriotic events.
Sec. 1466. Sale of certain recordings of United States Air Force Band.

TITLE XV—DEPARTMENT OF ENERGY NATIONAL SECURITY PROGRAMS

Sec. 1501. Short title.

PART A—NATIONAL SECURITY PROGRAMS AUTHORIZATIONS

Sec. 1511. Operating expenses.
Sec. 1512. Plant and capital equipment.

PART B—RECURRING GENERAL PROVISIONS

Sec. 1521. Reprogramming.
Sec. 1522. Limits on general plant projects.
Sec. 1523. Limits on construction projects.
Sec. 1524. Fund transfer authority.
Sec. 1525. Authority for construction design.
Sec. 1526. Authority for emergency construction design.
Sec. 1527. Funds available for all national security programs of the Department of Energy.
Sec. 1528. Adjustments for pay increases.
Sec. 1529. Availability of funds.

PART C—PROGRAM REVISIONS AND MISCELLANEOUS PROVISIONS

Sec. 1531. General reduction.
Sec. 1532. Community assistance payments.
Sec. 1533. Improvements to Department of Energy building at Oak Ridge, Tennessee.
Sec. 1534. Costs not allowed under covered contracts.
Sec. 1535. Technical amendments.

TITLE XVI—OTHER GENERAL PROVISIONS

PART A—CIVIL DEFENSE

Sec. 1601. Authorization of appropriations.

PART B—NATIONAL DEFENSE STOCKPILE

Sec. 1611. Funding for National Defense Stockpile.
Sec. 1612. Prohibition of reductions in stockpile goals.
Sec. 1613. Study of loss of production capacity of critical ferroalloy products.

PART C—OTHER PROVISIONS

Sec. 1621. Sense of the Congress expressing support for the Selective Service registration program.
Sec. 1622. Prohibition on civil service employment of persons who fail to register under the Military Selective Service Act.
Sec. 1623. Authority to provide Coast Guard commandant residence-to-work transportation provided other service chiefs.
Sec. 1624. Acceptance of certain volunteer services.
Sec. 1625. Authority to exempt certain physicians at Soldiers' and Airmen's Home from reductions in retired pay.
Sec. 1626. Management of military records maintained by the National Archives and Records Administration.
Sec. 1627. Robert C. Byrd Honors Scholarship program.
Sec. 1628. Postage stamp commemorating the 350th anniversary of the establishment of the United States National Guard.

TITLE I—PROCUREMENT

PART A—FUNDING AUTHORIZATIONS

SEC. 101. ARMY

(a) AUTHORIZATION OF APPROPRIATIONS.—Funds are hereby authorized to be appropriated for fiscal year 1986 for procurement for the Army as follows:

(1) For aircraft, $3,676,100,000.

(2) For missiles, $3,272,700,000.

(3) For weapons and tracked combat vehicles, $5,211,000,000.

(4) For ammunition, $2,549,000,000.

(5) For other procurement, $5,323,500,000, of which—

(A) $1,002,700,000 is for tactical and support vehicles;

(B) $3,131,300,000 is for communications and electronics equipment;

(C) $1,307,400,000 is for other support equipment; and

(D) $105,300,000 is for non-centrally managed items.

(b) AUTHORIZATION OF TRANSFERS OF PRIOR-YEAR FUNDS.—There are hereby authorized to be transferred to, and merged with, amounts appropriated for procurement for the Army for fiscal year 1986 pursuant to the authorization of appropriations in subsection (a) the following amounts:

(1) AIRCRAFT.—$101,800,000 for procurement of aircraft, to be derived from amounts appropriated for fiscal year 1985 for procurement of aircraft for the Army.

(2) MISSILES.—$25,000,000 for procurement of missiles, to be derived from amounts appropriated for fiscal year 1985 for procurement of missiles for the Army.

(3) WEAPONS AND TRACKED COMBAT VEHICLES.—$117,900,000 for procurement of weapons and tracked combat vehicles, of which—

(A) $52,600,000 shall be derived from amounts appropriated for fiscal year 1984 for procurement of weapons and tracked combat vehicles for the Army;

(B) $40,000,000 shall be derived from amounts appropriated for fiscal year 1985 for procurement of weapons and tracked combat vehicles for the Army;

(C) $25,300,000 shall be derived from amounts available for fiscal year 1985 for procurement of weapons and tracked combat vehicles for the Army resulting from the sale of M48A5 tanks under a letter of offer issued pursuant to section 21(a)(1) of the Arms Export Control Act;

(4) AMMUNITION.—$140,000,000 for procurement of ammunition, of which—

(A) $30,000,000 shall be derived from amounts appropriated for fiscal year 1984 for procurement of ammunition for the Army; and

(B) $110,000,000 shall be derived from amounts appropriated for fiscal year 1985 for procurement of ammunition for the Army.

(5) OTHER PROCUREMENT.—$230,600,000 for other procurement, of which—

(A) $79,000,000 shall be derived from amounts appropriated for fiscal year 1984 for other procurement for the Army; and

(B) $151,600,000 shall be derived from amounts appropriated for fiscal year 1985 for other procurement for the Army.

(c) AUTHORIZED MULTIYEAR CONTRACTS.—(1) Subject to paragraph (3), the Secretary of the Army may enter into multiyear contracts in accordance with section 2306(h) of title 10, United States Code, for procurement of the following:

T-700 series engines.

Chassis for the M1A1 tank.

AGT 1500 turbine engine for the M1 tank.

Laser range finder and thermal integrated sight fire control components for the M1 tank.

Electronic unit and control panel components for the ballistic computer for the M1 tank.

Transmission system for the Bradley Fighting Vehicle.

(2) The Secretary of the Army may not enter into a multiyear contract for procurement of the Armored Combat Earthmover.

(3) A multiyear contract authorized by paragraph (1) may not be entered into unless the total anticipated cost over the period of the contract is no more than 90 percent of the total anticipated cost of carrying out the same program through annual contracts.

(d) REMOVAL OF LIMITATION ON CONTRACTORS FOR 120-MILLIMETER MORTAR.—The Secretary of the Army may select a contractor for the supply of 120-millimeter mortars for the Army as if section 101(e) of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2499), had not been enacted.

(e) MULTIYEAR CONTRACT FOR 1985 MLRS PROGRAM PROCUREMENT.—Notwithstanding section 1502(a) of title 31, United States Code, or any other Act, funds appropriated for the multiple-launch rocket system (MLRS) program of the Army for fiscal year 1985 may be used to enter into contracts for purchases in economic-order quantities of materials and components for use with end items under the program proposed for procurement during fiscal year 1989.

SEC. 102. NAVY AND MARINE CORPS

(a) AIRCRAFT.—(1) Funds are hereby authorized to be appropriated for fiscal year 1986 for procurement of aircraft for the Navy in the amount of $11,599,900,000.

(2) Funds appropriated for fiscal year 1985 for procurement of aircraft for the Navy are hereby authorized to be transferred to, and merged with, amounts appropriated for procurement of aircraft for the Navy for fiscal year 1986 pursuant to the authorization of appropriations in paragraph (1) in the amount of $109,000,000.

(b) WEAPONS.—(1)(A) Funds are hereby authorized to be appropriated for fiscal year 1986 in the total amount of $5,655,100,000 for procurement of weapons (including missiles and torpedoes) for the Navy.

(B) There are hereby authorized to be transferred to, and merged with, amounts appropriated for procurement of weapons for the Navy for fiscal year 1986 the amount of $15,000,000, to be derived from amounts appropriated for fiscal year 1985 for procurement of weapons for the Navy.

(2) Funds appropriated or otherwise made available for procurement of weapons for the Navy for fiscal year 1986 pursuant to the authorizations in paragraph (1) are available as follows:

(A) For missile programs, $4,430,400,000.

(B) For torpedo programs:

For the MK-48 torpedo program, $417,400,000.

For the MK-46 torpedo program, $129,100,000.

For the MK-60 CAPTOR mine program, $59,600,000.

For the MK-30 mobile target program, $20,600,000.

For the MK-38 minimobile target program, $3,500,000.

For the antisubmarine rocket (ASROC) program, $15,600,000.

For the modification of torpedoes and related equipment, $141,200,000.

For the torpedo support equipment program, $47,400,000.

For the antisubmarine warfare range support program, $23,200,000.

(C) For other weapons:

For the MK-15 close-in weapon system program, $150,100,000.

For the MK-75 76-millimeter gun mount program, $20,000,000.

For other weapons programs, $77,300,000.

(D) For spares and repair parts, $166,600,000.

(c) SHIPBUILDING AND CONVERSION.—(1)(A) Funds are hereby authorized to be appropriated for fiscal year 1986 for shipbuilding and conversion for the Navy in the total amount of $10,001,200,000.

(B) Funds appropriated for fiscal years before fiscal year 1986 are hereby authorized to be transferred to, and merged with, amounts appropriated pursuant to the authorization of appropriations in subparagraph (A) in the total amount of $859,600,000. Such amount shall be derived in accordance with paragraph (3).

(2) Funds appropriated or otherwise made available for shipbuilding and conversion for fiscal year 1986 pursuant to the authorizations in paragraph (1) are available as follows:

For the Trident submarine program, $1,481,800,900.

For the SSN-688 nuclear attack submarine program, $2,698,400,000.

For the aircraft carrier service life extension program (SLEP), $133,400,000.

For the CG-47 Aegis cruiser program, $2,766,200,000.

For the DDG-51 guided missile destroyer program, $164,300,000.

For the LSD-41 landing ship dock program, $414,400,000.

For the LHD-1 amphibious assault ship program, $1,314,200,000.

For the MCM-1 mine countermeasures ship program, $167,100,000.

For the MSH-1 coastal mine hunter ship program, $184,500,000.

For the TAO-187 fleet oiler program, $328,500,000.

For the TAGOS ocean surveillance ship program, $115,100,000.

For the acoustic research vessel program, $68,900,000.

For the strategic sealift ready reserve program, $228,400,000.

For the TACS auxiliary crane ship program, $82,500,000.

For the TAVB aviation logistics support ship program, $26,900,000.

For the LCAC landing craft air cushion program, $307,000,000.

For the battleship reactivation program, $53,500,000.

For service craft and landing craft, $72,100,000.

For the moored training ship program, $26,500,000.

For outfitting and post delivery, $341,100,000.

(3) Amounts transferred pursuant to paragraph (1)(B) to amounts appropriated for shipbuilding and conversion pursuant to the authorization of appropriations in paragraph (1)(A) shall be derived from amounts appropriated for shipbuilding and conversion for the Navy for fiscal years before fiscal year 1986 as follows:

(A) $357,500,000 shall be derived from amounts appropriated for fiscal years before fiscal year 1983.

(B) $153,000,000 shall be derived from amounts appropriated for fiscal year 1983.

(C) $156,100,000 shall be derived from amounts appropriated for fiscal year 1984.

(D) $193,000,000 shall be derived from amounts appropriated for fiscal year 1985.

(4)(A) The Secretary of the Navy is hereby authorized to transfer to and merge with amounts appropriated pursuant to the authorizations of appropriations in paragraph (1) amounts described in subparagraph (B).

(B) Amounts that may be transferred under subparagraph (A) are amounts appropriated for fiscal year 1985 and prior years for shipbuilding and conversion for the Navy and remaining available for obligation as a result of cost savings in carrying out shipbuilding programs for fiscal year 1985 and prior years. Any such transfer is in addition to the transfers described in paragraph (3).

(5)(A) The Secretary of the Navy may transfer to amounts available for the battleship reactivation program for fiscal year 1986 such amounts as may be available as a result of cost savings in carrying out shipbuilding programs for fiscal year 1986 and prior years. Any such transfer is in addition to the transfers described in paragraphs (3) and (4).

(B) Section 1401 shall not apply to any transfer under this paragraph of funds appropriated for fiscal year 1986.

(d) OTHER PROCUREMENT, NAVY.—(1)(A) Funds are hereby authorized to be appropriated for fiscal year 1986 for other procure-

ment for the Navy in the amount of $6,040,800,000.

(B) There is hereby authorized to be transferred to, and merged with, amounts appropriated for other procurement for the Navy, the amount of $221,000,000, to be derived from amounts appropriated for fiscal years 1984 and 1985 for other procurement for the Navy, of which—

(i) $70,000,000 shall be derived from amounts appropriated for fiscal year 1984; and

(ii) $151,000,000 shall be derived from amounts appropriated for fiscal year 1985.

(2) Funds appropriated or otherwise made available for other procurement for the Navy for fiscal year 1986 pursuant to the authorizations in paragraph (1) are available as follows:

(A) $935,000,000 is available only for the ship support equipment program;

(B) $2,134,500,000 is available only for the communications and electronics equipment program;

(C) $1,206,800,000 is available only for aviation support equipment;

(D) $1,396,500,000 is available only for the ordnance support equipment program;

(E) a total of $685,000,000 is available only for programs for civil engineering support equipment, supply support equipment, and personnel/command support equipment;

(F) $279,800,000 is available only for spares and repair parts; and

(G) $125,300,000 is available only for noncentrally managed items.

(e) PROCUREMENT, MARINE CORPS.—(1) Funds are hereby authorized to be appropriated for fiscal year 1986 for procurement for the Marine Corps (including missiles, tracked combat vehicles, and other weapons) in the amount of $1,727,400,000.

(2) There is hereby authorized to be transferred to, and merge with, amounts appropriated for procurement for the Marine Corps for fiscal year 1986 pursuant to the authorization of appropriations in paragraph (1) $28,000,000 to be derived from amounts appropriated for fiscal year 1985 for procurement for the Marine Corps.

(f) AUTHORIZED MULTIYEAR CONTRACTS.—(1) The Secretary of the Navy may enter into multiyear contracts in accordance with section 2306(h) of title 10, United States Code, for procurement of the following:

LHD-1 class amphibious assault ships.

MK-46 torpedoes and modification kits.

(2) The Secretary of the Navy may not enter into a multiyear contract for the procurement of the P-3C Orion antisubmarine warfare patrol aircraft.

(g) FUNDING FOR SHIP CONTRACT DESIGN.—Any request submitted to Congress for appropriations for a fiscal year after fiscal year 1986 for ship contract design necessary to support the procurement of ships included (at the time the request is submitted) in the Navy's five-year shipbuilding and conversion plan shall be reflected in the Shipbuilding and Conversion account of the Navy.

SEC. 103. AIR FORCE

(a) AUTHORIZATION OF APPROPRIATIONS.—Funds are hereby authorized to be appropriated for fiscal year 1986 for procurement for the Air Force as follows:

(1) For aircraft, $24,435,300,000.

(2) For missiles, $9,008,600,000.

(3) For other procurement, $8,571,100,000, of which—

(A) $1,432,400,000 is for munitions and associated support equipment;

(B) $320,800,000 is for vehicular equipment;

(C) $2,635,800,000 is for electronics and telecommunications equipment;

(D) $4,655,400,000 is for other base maintenance and support equipment; and

(E) $54,700,000 is available only for noncentrally managed items.

(b) AUTHORIZATION OF TRANSFERS OF PRIOR-YEAR FUNDS.—There are hereby authorized to be transferred to, and merged with, amounts appropriated for procurement for the Air Force for fiscal year 1986 pursuant to the authorization of appropriations in subsection (a) the following amounts:

(1) AIRCRAFT.—$406,000,000 for procurement of aircraft, to be derived from amounts appropriated for fiscal year 1985 for procurement of aircraft for the Air Force.

(2) MISSILES.—$42,800,000 for procurement of missiles, to be derived from amounts appropriated for fiscal years before fiscal year 1986 for procurement of missiles for the Air Force, of which—

(A) $35,000,000 shall be derived from amounts appropriated for fiscal year 1985; and

(B) $7,800,000 shall be derived from amounts appropriated for fiscal years before fiscal year 1985.

(3) OTHER PROCUREMENT.—$282,000,000 for other procurement, to be derived from amounts appropriated for fiscal years before fiscal year 1986 for other procurement for the Air Force, of which—

(A) $86,000,000 shall be derived from amounts appropriated for fiscal year 1984; and

(B) $196,000,000 shall be derived from amounts appropriated for fiscal year 1985.

SEC. 104. RESERVE COMPONENTS

(a) AUTHORIZATION OF APPROPRIATIONS.—Funds are hereby authorized to be appropriated for fiscal year 1986 for procurement of aircraft, missiles, tracked combat vehicles, ammunition, other weapons, and other procurement for the reserve components of the Armed Forces as follows:

For the Army National Guard, $223,400,000.

For the Air National Guard, $210,000,000.

For the Naval Reserve, $45,000,000.

For the Marine Corps Reserve, $60,000,000.

For the Air Force Reserve, $120,000,000.

(b) AUTHORIZATIONS IN ADDITION TO OTHER AMOUNTS.—The authorizations of appropriations contained in subsection (a) are in addition to any other amounts authorized to be appropriated by this or any other Act.

SEC. 105. DEFENSE AGENCIES

(a) AUTHORIZATION OF APPROPRIATIONS.—Funds are hereby authorized to be appropriated for fiscal year 1986 for the Defense Agencies in the amount of $1,342,300,000.

(b) AUTHORIZATION OF TRANSFERS OF PRIOR-YEAR FUNDS.—There is hereby authorized to be transferred to, and merged with, amounts appropriated for procurement for the Defense Agencies for fiscal year 1986 pursuant to the authorization of appropriations in subsection (a) the amount of $36,000,000, to be derived from amounts appropriated for fiscal years before fiscal year 1986 for procurement for the Defense Agencies, of which—

(1) $15,000,000 shall be derived from amounts appropriated for fiscal year 1984; and

(2) $21,000,000 shall be derived from amounts appropriated for fiscal year 1985.

SEC. 106. NATO COOPERATIVE PROGRAMS

(a) AUTHORIZATION OF APPROPRIATIONS FOR COOPERATIVE DEFENSE PROGRAMS.—(1) There is hereby authorized to be appropriated to the Secretary of Defense for fiscal year 1986 the amount of $75,000,000 for North Atlantic Treaty Organization cooperative defense programs as follows:

For acquisition of point air defense of United States airbases in the Federal Republic of Germany, $30,000,000.

For acquisition of point air defense of United States airbases and other critical United States military facilities in Italy, $15,000,000.

For acquisition of point air defense and port defense for facilities in Belgium, $15,000,000.

For acquisition of point air defense of United States airbases in Turkey, $15,000,000.

(2) None of the amounts appropriated pursuant to the authorizations in paragraph (1) may be obligated—

(A) for implementation of a cooperative program until the Secretary of Defense submits to the Committees on Armed Services of the Senate and House of Representatives a copy of each government-to-government agreement relating to that program; or

(B) for acquisitions in connection with a NATO cooperative defense program in which the financial obligations of the United States exceed the collective financial obligations of European countries in connection with such program.

(b) EXTENSION OF AUTHORITY PROVIDED SECRETARY OF DEFENSE IN CONNECTION WITH THE NATO AWACS PROGRAM.—Effective on October 1, 1985, section 103(a) of the Department of Defense Authorization Act, 1982 (Public Law 97-86; 95 Stat. 1100), is amended by striking out "fiscal year 1985" both places it appears and inserting in lieu thereof "fiscal year 1986".

SEC. 107. REDUCTIONS IN AUTHORIZATIONS DUE TO SAVINGS FROM LOWER INFLATION AND PRIOR-YEAR COST SAVINGS

(a) CERTAIN FY86 AUTHORIZATION REDUCTIONS TO BE FROM COST SAVINGS.—Authorization reductions described in subsection (b)—

(1) may not be derived through cancellation of any authorized program, stretchout of procurement under any authorized program, or any other change in an authorized program; but

(2) may be derived only through cost reductions in programs of the Department of Defense under this title that are achieved without a reduction in the quantity or quality of goods or services acquired by the Department, including reductions due to the rate of inflation for fiscal year 1986 being lower than the rate assumed in the President's budget for fiscal year 1986.

(b) IDENTIFICATION OF AMOUNTS.—Subsection (a) applies to the following amounts that represent reductions from amounts requested in the President's Budget for fiscal year 1986 and that have been incorporated into the amounts authorized in sections 101 through 105:

(1) Aircraft, Army, $5,000,000.

(2) Missiles, Army, $4,000,000.

(3) Weapons and tracked combat vehicles, Army, $7,000,000.

(4) Ammunition, Army, $3,000,000.

(5) Other procurement, Army, $5,000,000.

(6) Aircraft, Navy, $15,000,000.

(7) Weapons, Navy, $7,000,000.

(8) Shipbuilding and conversion, Navy, $14,000,000.

(9) Other procurement, Navy, $6,000,000.

(10) Procurement, Marine Corps, $2,000,000.

(11) Aircraft, Air Force, $32,000,000.

(12) Missiles, Air Force, $13,000,000.

(13) Other Procurement, Air Force, $9,000,000.

(14) Defense Agencies, $1,000,000.

SEC. 108. PROVISIONS RELATING TO TRANSFERS OF PRIOR-YEAR FUNDS

(a) AUTHORIZATION OF TRANSFERS SUBJECT TO PROVISIONS OF APPROPRIATIONS ACTS.—Transfers authorized by this title (other than a transfer described in section 102(c)(5)(B)) may be made only to the extent provided in appropriation Acts.

(b) SOURCE OF TRANSFERRED FUNDS.—(1) All amounts transferred under this title shall be derived from funds that remain available for obligation.

(2) Except as provided in paragraphs (3) and (4), such funds—

(A) may not be derived through cancellation of any program, stretchout of procurement under any program, or any other program change; but

(B) may be derived only through cost reductions (including reductions due to rates of inflation being lower than rates assumed when such funds were budgeted) under programs for which such funds were authorized and appropriated that are achieved without a reduction in the quantity or quality of goods or services acquired by the Department of Defense.

(3)(A) Funds for the transfer authorized by section 101(b)(3)(B) may be derived from the Sergeant York Air Defense Gun.

(B) Funds for the transfer authorized by section 101(b)(4)(B) may be derived from 120-millimeter mortar ammunition.

(C) Funds for the transfer authorized by section 101(b)(5)(B) may be derived from the Single Channel Objective Tactical Terminal and M9 Armored Combat Earthmover programs.

(4) Paragraph (2) shall not apply to funds for the transfers authorized by section 101(b)(3)(C) and section 131(c).

SEC. 109. REPORT ON REDUCTIONS AND TRANSFERS

The Secretary of Defense may not implement a program change under a reduction described in section 107 or under a transfer under this title until the Secretary submits to the Committees on Armed Services of the Senate and House of Representatives a report describing the programs in which such reductions will be made in accordance with section 107 and the programs that are the source of the funds transferred under this title.

SEC. 110. IMPROVEMENT IN CONVENTIONAL READINESS CAPABILITY

(a) SENSE OF CONGRESS.—It is the sense of Congress that the United States should place greater emphasis on the improvement of the capabilities of United States conventional forces, particularly in cooperation with other member nations of the North Atlantic Treaty Organization, and that such an improvement would reduce the threat of nuclear war.

(b) INCREASED AUTHORIZATIONS FOR CONVENTIONAL CAPABILITY.—Accordingly, authorizations of appropriations for programs to improve the conventional readiness capabilities of the Armed Forces in addition to the amounts requested in the President's budget for fiscal year 1986 have been included in the appropriate provisions of this Act, and similar emphasis on conventional defense capabilities is to be expected in future legislation authorizing appropriations for the Department of Defense.

PART B—ARMY PROGRAM LIMITATIONS

SEC. 121. SERGEANT YORK DIVISION AIR DEFENSE (DIVAD) GUN

(a) LIMITATION ON FURTHER PROCUREMENT.—The Secretary of the Army may not obligate funds to execute option III of the production contract for procurement of fire units of the Sergeant York Division Air Defense (DIVAD) Gun system or to enter into a new contract for production and assembly of that system until—

(1) the initial production testing and the follow-on evaluation I are completed and the results of the testing and evaluation demonstrate that the Sergeant York System meets or exceeds the pass/fail criteria of the tests established jointly by the Secretary of the Army and the Secretary of Defense;

(2) the Director of Operational Test and Evaluation of the Department of Defense submits to the Secretary of Defense and the Committees on Armed Services of the Senate and House of Representatives a report giving the Director's evaluation of the results of such testing and evaluation;

(3) the Secretary of Defense reports to those committees on the results of such testing and evaluation and certifies that such testing reliably demonstrates that the operational capabilities of the Sergeant York system meet or exceed the performance specifications of the contract;

(4) the Secretary of the Army submits to those committees a report describing a contractor guarantee of the performance of the system described in subsection (b)(1); and

(5) 30 days have elapsed after the report under paragraph (4) is received by those committees.

(b) PERFORMANCE GUARANTEE.—(1) The guarantee of the contractor under subsection (a)(4) shall provide that each fire unit of the system shall operate in accordance with the performance specifications of the contract for the system for the maximum feasible duration and in any event for not less than one year.

(2) The terms of a guarantee under this subsection shall be in addition to terms of any previous guarantee or warranty of the system by the contractor required under section 2403 of title 10, United States Code, or any predecessor provision.

(3) A guarantee under this subsection shall apply to contracts for fiscal years after fiscal year 1985.

SEC. 122. BRADLEY FIGHTING VEHICLE

(a) REQUIREMENT FOR REPORTS ON TESTING.—The Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives two reports with respect to the Bradley Fighting Vehicle. The reports shall describe the results of the first and second phases, respectively, of the live-fire survivability testing program being carried out with respect to such vehicle. The reports shall be submitted in both classified and unclassified versions.

(b) REQUIRED ELEMENTS OF TESTING PROGRAM.—In phase 1 of the testing program referred to in subsection (a), at least 10 live-fire tests using antiarmor weapons of the Soviet Union shall be conducted against such vehicle in its current configuration. In phase 2 of the testing program, similar tests shall be conducted against such vehicle in a configuration with enhanced survivability features.

(c) CONTENT OF REPORTS.—The reports required by this section shall include the following:

(1) A complete analysis of the results of the testing program referred to in subsection (a), including an accounting of all of the test shots which were fired at the test vehicle, the distances from which the shots were fired, and the effects of such shots.

(2) A description and justification for the measures of merit and the pass/fail criterion used in the testing program.

(3) A justification for exempting from the testing program any overmatch or undermatch weapon which would likely be encountered in combat conditions.

(4) Potential problems that were revealed by the tests and a proposed design modification for remedying such problems.

(5) The estimated unit cost of each proposed survivability modification and the overall program cost for the modifications.

(6) A comparison of the estimated unit cost of the Bradley Fighting Vehicle in both the configuration used in phase 1 of the testing program and the configuration in phase 2 of the testing program.

(d) DATE FOR SUBMISSION OF REPORTS.—The reports required by this section shall be submitted as follows:

(1) The report regarding the results of phase 1 of the testing program shall be submitted by December 1, 1985.

(2) The report regarding the results of phase 2 of the testing program shall be submitted by June 1, 1986.

SEC. 123. CONDITIONS ON PROCUREMENT OF CERTAIN COMBAT VEHICLES

(a) TESTING REQUIREMENTS.—(1) Chapter 139 of title 10, United States Code, is amended by adding at the end thereof the following new section:

"§ 2362. Testing requirements: wheeled or tracked armored vehicles

"(a) The Secretary of Defense shall provide that a contract for procurement by the Department of Defense under a major vehicle program may not be entered into unless the testing carried out during the development of the vehicle meets the requirements of subsection (b).

"(b) The testing of a vehicle referred to in subsection (a) shall include testing of the vulnerability of such vehicle to the most capable weapon that is likely to be a combat threat to the vehicle and against which the vehicle is designed to survive. Such tests—

"(1) shall be carried out in a manner modeled after the Joint Live-Fire Test Program for the Bradley Fighting Vehicle; and

"(2) if the test vehicle is to replace an existing vehicle, shall at least include test shots fired under the same conditions at both the test vehicle and the vehicle it is to replace, with each vehicle being equipped with all of the elements with which the vehicle would be equipped in combat.

"(c)(1) The Secretary of Defense shall submit to the defense committees a report with respect to the testing of each vehicle for which testing is required under this section.

"(2) A report under paragraph (1)—

"(A) shall be submitted in both a classified and unclassified form;

"(B) shall be submitted with the first request to Congress for appropriations for procurement—

"(i) of the vehicle; or

"(ii) of modifications to an existing vehicle.

"(3) Each such report shall include—

"(A) a complete description of the firing parameters used in the testing and an analysis of the effect on the vehicle of each test shot made;

"(B) a description and justification of the merit and pass/fail criterion used in carrying out the test;

"(C) a description of the potential shortcomings of the vehicle that were revealed by the testing and (if any were revealed) the plan of the Secretary to incorporate into the design of the vehicle changes that are considered cost effective and that are necessary to overcome such shortcomings; and

"(D) if the test vehicle is to replace an existing vehicle, a comparison—

"(i) of the estimated unit cost of each newly developed vehicle (or of the newly developed survivability modifications being made to an existing vehicle); with

"(ii) the unit cost of the vehicle that is to be replaced by the test vehicle.

"(d) The Secretary of Defense shall include in the Department of Defense plan referred to as the Test and Evaluation Master Plan that is established for any major vehicle program an estimated cost and schedule of the testing to be carried out with respect to the program.

"(e) In this section:

"(1) 'Major vehicle program' means a major defense acquisition program for the acquisition of—

"(A) a newly developed combat wheeled or tracked armored vehicle; or

"(B) a combat wheeled or tracked armored vehicle with significant newly developed survivability modifications.

"(2) 'Major defense acquisition program' means a program subject to the Selected Acquisition Report requirements of section 139a of this title.

"(3) 'Defense committees' means the Committees on Armed Services and on Appropriations of the Senate and House of Representatives.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end thereof the following new item:

"2362. Testing requirements: wheeled or tracked armored vehicles.".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on January 1, 1987.

SEC. 124. SALE OF L119 HOWITZERS OVERSEAS

(a) LIMITATION ON SALE TO FOREIGN GOVERNMENTS.—Howitzers designated as L119 howitzers that are produced by a United States arsenal may be sold to a friendly foreign government only if not less than 30 percent of the dollar value of such howitzers is produced in the United Kingdom, as follows:

(1) Five percent of the dollar value consists of basic issue items.

(2) Ten percent of the dollar value consists of fire control items.

(3) Fifteen percent of the dollar value consists of commercial items.

(b) PERIOD OF APPLICABILITY.—Subsection (a) applies only during the period of coproduction of the L119 howitzer, as determined jointly by the United States and the United Kingdom.

SEC. 125. RESTRICTIONS ON PURCHASE OF 5-TON TRUCKS

(a) TESTING OF COMPETING ENGINES BEFORE CONTRACT AWARD.—(1) Except as provided in subsection (b), the Secretary of the Army may not enter into a new contract for the procurement of 5-ton trucks for the Army until the Secretary certifies to the Committees on Armed Services of the Senate and House of Representatives that each truck engine described in paragraph (2) has been tested as provided in paragraph (3).

(2) The truck engines referred to in paragraph (1) are engines that—

(A) meet the specifications of the Army for engines for 5-ton trucks; and

(B) are commercially available from sources competing for the award of a contract for the supply of engines to the Army for the 5-ton trucks that are to be procured under a multiyear contract that is to succeed the multiyear contract referred to in subsection (b).

(3) The testing referred to in paragraph (1) shall be carried out in 5-ton trucks configured in the M939 validated technical data package of the Army and shall include tests to determine—

(A) whether the engine is durable after testing in a mission profile for at least 20,000 miles; and

(B) whether the performance reliability of the engine for high ambient temperature cooling, cold starting, deep water fording, grade climbing, and noise is acceptable.

(b) AUTHORITY FOR EXTENSION OF EXISTING MULTIYEAR CONTRACT.—(1) The Secretary of the Army may extend for a period not to exceed 18 months the multiyear contract for the procurement of 5-ton trucks that is in effect on the date of the enactment of this Act.

(2) Funds available to the Army for the procurement of 5-ton trucks during fiscal year 1985 and funds appropriated for the procurement of 5-ton trucks for the Army for fiscal year 1986 may be used for the procurement of 5-ton trucks under an extension of the contract referred to in paragraph (1).

(c) NEW MULTIYEAR CONTRACT.—(1) Subject to paragraph (2), the Secretary of the Army shall take such action as is appropriate, consistent with the limitation set out in subsection (a), to award a multiyear contract for the procurement of 5-ton trucks not later than May 1, 1986. Such a contract shall be for a period of five fiscal years. A contract under this paragraph may only be entered into in accordance with section 2306(h) of title 10, United States Code.

(2) A contract under paragraph (1) may not be entered into unless the anticipated cost over the period of the contract is no more than 90 percent of the anticipated cost of carrying out the same program through annual contracts.

(3) Not later than February 1, 1986, the Secretary shall determine whether it is impracticable to award a contract under paragraph (1) on or before May 1, 1986. If the Secretary determines that such action is impracticable, he shall notify the Committees on Armed Services of the Senate and the House of Representatives of the determination on or before February 1, 1986.

SEC. 126. OTHER ARMY PROGRAMS

(a) COPPERHEAD PROJECTILE PROGRAM.—Of the amount authorized in section 101 for procurement of ammunition, $235,000,000 is authorized for the Copperhead projectile. Not more than $200,000,000 may be obligated or expended for that projectile from funds appropriated or otherwise made available to the Army for fiscal year 1986, after the date of the enactment of this Act, until the Secretary of Defense submits to Congress a written plan to establish a second production source for the Copperhead projectile.

(b) SAFETY MODIFICATIONS FOR PERSHING II MISSILE PROGRAM.—(1) In carrying out the Pershing II missile program for fiscal year 1986, the Secretary of the Army may purchase safety modifications (including 36 inert missile motors for the Pershing II missile) using funds made available for such program for such fiscal year.

(2) The Secretary may not obligate any funds for the safety modifications authorized by paragraph (1) until the Secretary submits to the Committees on Armed Services of the Senate and House of Representatives a report providing a detailed plan for the purchase of such safety modifications.

(c) AH-64 APACHE HELICOPTERS.—The Secretary of the Army may not obligate funds appropriated or otherwise made available for a fiscal year after fiscal year 1985 for procurement of AH-64 Apache attack helicopters until the Director of the Defense Contract Audit Agency reports to the Secretary that the contractor for such helicopters has demonstrated to the satisfaction of the Director—

(1) that the contractor has implemented an effective and reliable system of internal accounting controls; and

(2) that the contractor has accumulated documentation (including journals, vouchers, invoices, and expense data) to support the contractor's final submission for settlement of indirect expenses for calendar years 1979 through 1983 and that such documentation is available to the Director.

PART C—NAVY PROGRAM LIMITATIONS

SEC. 131. A6 AIRCRAFT REWING PROGRAM

(a) AUTHORIZED PROGRAM.—The Se4retary of the Navy is authorized to carry out a program to replace the wings of the A6 aircraft. The amount obligated to carry out such program during fiscal year 1985 may not exceed $240,000,000.

(b) REQUIRED WARRANTY.—Funds may be obligated for the program authorized by subsection (a) only under a firm fixed-price contract which includes a warranty guaranteeing a wing fatigue life of at least 8,800 hours.

(c) AUTHORIZATION FOR TRANSFER OF FUNDS.—There are hereby authorized to be transferred to, and merged with, amounts appropriated for procurement for aircraft for the Navy for fiscal year 1985, to the extent provided in appropriation Acts, $240,000,000 for the program authorized by subsection (a). Such amount shall be derived from amounts appropriated for procurement of aircraft for the Navy for fiscal years before fiscal year 1986 as follows:

(1) $103,000,000 shall be derived from amounts appropriated for fiscal years before fiscal year 1985 remaining available for obligation.

(2) $137,000,000 shall be derived from amounts appropriated for fiscal year 1985 remaining available for obligation.

SEC. 132. LIMITATIONS ON NAVY AIRCRAFT PROCUREMENT

Funds appropriated for fiscal year 1986 for aircraft for the Navy—

(1) may not be obligated for procurement of A6E aircraft until the Secretary of the Navy certifies to the Committees on Armed Services of the Senate and House of Representatives that the wing for the A6E aircraft to be procured is warranted for at least a 4,000-hour test-equivalent fatigue life; and

(2) may be obligated for procurement of F14 aircraft only for aircraft that are configured so as to incorporate the F110 engine.

PART D—AIR FORCE PROGRAM LIMITATIONS

SEC. 141. MX MISSILE PROGRAM

(a) LIMITATIONS ON FY86 MX PROGRAM.—(1) Not more than 12 MX missiles may be procured with funds appropriated or otherwise made available in an appropriation law for fiscal year 1986 for the procurement of missiles for the Air Force.

(2) Of the funds appropriated or otherwise made available in an appropriation law for fiscal year 1986 for the procurement of missiles for the Air Force—

(A) $1,746,000,000 shall be available only for the procurement of 12 MX missiles and related weapons system and support costs; and

(B) $105,000,000 shall be available only for the procurement of initial spares for the MX missile program.

(b) LIMITATIONS ON DEPLOYMENT AND BASING OF MX MISSILES.—(1) The number of MX missiles deployed at any time in existing Minuteman silos may not exceed 50.

(2) Funds appropriated pursuant to this or any other Act may not be used—

(A) to modify, or prepare for modification, more than 50 existing Minuteman silos for the deployment of MX missiles;

(B) to acquire basing sets to modify more than 50 existing Minuteman silos for the deployment of MX missiles; or

(C) to procure long-lead items for the deployment of more than 50 MX missiles.

(c) ADDITIONAL LIMITATIONS ON THE DEPLOYMENT AND BASING OF MX MISSILES.—Unless a basing mode for the MX missile other than existing Minuteman silos is specifically authorized by legislation enacted after the date of the enactment of this Act, after procurement of 50 MX missiles for deployment in existing Minuteman silos—

(1) further procurement of MX missiles shall be limited to those missiles necessary to support the operational test program and for the MX missile reliability testing program; and

(2) during fiscal year 1987, depending upon the most efficient production rate, from 12 to 21 MX missiles should be procured for such purposes.

SEC. 142. COMPETITION FOR AIR FORCE FIGHTER AIRCRAFT PROCUREMENT

(a) REQUIRED COMPETITION.—The Secretary of the Air Force shall establish during fiscal year 1986 a competition for the procurement of fighter aircraft to meet the requirements of the active and reserve forces of the Air Force. Such competition shall be among all suitable aircraft.

(b) COMPLIANCE WITH APPLICABLE LAW.—Procurement of tactical fighter aircraft for the Air Force for fiscal year 1986 shall be carried out in accordance with all applicable provisions of law, including section 136a (relating to the Director of Operational Test and Evaluation), section 139c (relating to independent cost estimates), and chapter 137 (relating to competition in contracting), of title 10, United States Code.

SEC. 143. ADVANCED TECHNOLOGY BOMBER

(a) REPORT ON TOTAL PROGRAM COST.—Not later than February 1, 1986, the Secretary of Defense shall transmit to Congress a report setting forth the total program cost for the advanced technology bomber program. The Secretary shall include in the report the Secretary's evaluation of the reliability of the cost estimates for the program.

(b) LIMITATION ON EXPENDITURE OF PROCUREMENT FUNDS.—No funds appropriated pursuant to the authorizations of appropriations in this title may be obligated or expended for the advanced technology bomber program until the report required by subsection (a) is transmitted to Congress.

SEC. 144. SPECIAL OPERATIONS FORCES HH-53 HELICOPTERS

(a) AIR FORCE AIRCRAFT FUNDS.—Of the amount authorized in section 103(a) for procurement of aircraft for the Air Force, $50,000,000 is available only for modification of HH-53 helicopters to the PAVE LOW mission configuration.

(b) CERTIFICATION REQUIREMENT.—None of the amount described in subsection (a) may be obligated or expended until the Secretary of the Air Force certifies that sufficient funds have been budgeted in the fiscal year 1987 five-year defense plan to meet, at the earliest practicable date, and sustain the highest readiness level prescribed for all PAVE LOW HH-53 helicopters in the Joint Chiefs of Staff Unit Status Report System.

PART E—OTHER LIMITATIONS

SEC. 151. C-12 AIRCRAFT

None of the funds appropriated pursuant to authorizations in this title may be obligated or expended for procurement of C-12 aircraft unless such aircraft are procured through competitive procedures (as defined in section 2302(2) of title 10, United States Code), which shall be restricted to turboprop aircraft.

SEC. 152. ADEQUATE AIRLIFT FOR SPECIAL OPERATIONS FORCES

None of the funds appropriated pursuant to authorizations in this title may be obligated or expended for the procurement of MC-130 aircraft or the modification of HH-53 or CH-47 helicopters until the Secretary of Defense—

(1) submits, in consultation with the Chairman of the Joint Chiefs, to the Committees on Armed Services in the Senate and House of Representatives a plan for meeting the immediate airlift requirements of the Joint Special Operations Command and a second plan for meeting, by 1991, the airlift requirements of the Joint Special Operations Command and the special operations forces of unified commanders-in-chief; and

(2) certifies that the plans required by paragraph (1) are funded in the Fiscal Year 1987 Five-Year Defense Plan.

TITLE II—RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

PART A—AUTHORIZATIONS OF APPROPRIATIONS AND PROGRAM LIMITATIONS

SEC. 201. AUTHORIZATION OF APPROPRIATIONS

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal year 1986 for the use of the Armed Forces for research, development, test, and evaluation in amounts as follows:

(1) For the Army, $4,848,663,000.

(2) For the Navy (including the Marine Corps), $10,106,401,000.

(3) For the Air Force, $13,719,721,000.

(4) For the Defense Agencies, $6,813,969,000 of which $93,500,000 is authorized for the activities of the Director of Test and Evaluation, Defense.

(b) GENERAL AUTHORIZATION FOR CIVILIAN PAY CONTINGENCIES.—There are authorized to be appropriated for fiscal year 1986, in addition to the amounts authorized to be appropriated in subsection (a), such sums as may be necessary for unbudgeted amounts for salary, pay, retirement, and other employee benefits authorized by law for civilian employees of the Department of Defense whose compensation is provided for by funds authorized to be appropriated in subsection (a).

SEC. 202. REDUCTIONS IN AUTHORIZATIONS DUE TO SAVINGS FROM LOWER INFLATION AND PRIOR-YEAR COST SAVINGS

(a) CERTAIN FY 86 AUTHORIZATION REDUCTIONS TO BE FROM COST SAVINGS.—Authorization reductions described in subsection (b)—

(1) may not be derived through cancellation of any authorized program or any other change in an authorized program; but

(2) may be derived only through cost reductions (including reductions due to the rate of inflation being lower than the rate assumed in the President's budget for fiscal year 1986) in programs of the Department of Defense under this title that are achieved without a reduction in the quantity or quality of goods or services acquired by the Department.

(b) IDENTIFICATION OF AMOUNTS.—Subsection (a) applies to the following amounts that represent reductions from amounts requested in the President's Budget for fiscal year 1986 and that have been incorporated into the amounts authorized in section 201:

(1) For the Army, $4,000,000.

(2) For the Navy (including the Marine Corps), $11,000,000.

(3) For the Air Force, $14,000,000.

SEC. 203. AUTHORIZATION OF TRANSFERS OF PRIOR-YEAR FUNDS

(a) AUTHORIZED TRANSFERS.—There are hereby authorized to be transferred to, and merged with, amounts appropriated for research, development, test, and evaluation for the Armed Forces pursuant to the authorizations of appropriations in section 201 the following amounts:

(1) ARMY.—$85,000,000, to be derived from amounts appropriated for fiscal year 1985 for research, development, test, and evaluation for the Army.

(2) NAVY.—$183,000,000, to be derived from amounts appropriated for fiscal year 1985 for research, development, test, and evaluation for the Navy (including the Marine Corps).

(3) AIR FORCE.—$256,000,000, to be derived from amounts appropriated for fiscal year 1985 for research, development, test, and evaluation for the Air Force.

(4) DEFENSE AGENCIES.—$47,000,000, to be derived from amounts appropriated for fiscal year 1985 for research, development, test, and evaluation for the Defense Agencies.

(b) AUTHORIZATION OF TRANSFERS SUBJECT TO PROVISIONS OF APPROPRIATIONS ACTS.—Transfers authorized by subsection (a) may be made only to the extent provided in appropriation Acts.

(c) SOURCE OF TRANSFERRED FUNDS.—(1) All amounts transferred under this section shall be derived from funds that remain available for obligation.

(2) Such funds—

(A) may not be derived through cancellation of any program, stretchout of procurement under any program, or any other program change; but

(B) may be derived only through cost reductions (including reductions due to rates of inflation being lower than rates assumed when such funds were budgeted) under programs for which such funds were authorized and appropriated that are achieved without a reduction in the quantity or quality of goods or services acquired by the Department of Defense.

(d) REPORT ON REDUCTIONS AND TRANSFERS.—The Secretary of Defense may not implement a program change under a reduction described in section 202 or under a transfer under this section until the Secretary submits to the Committees on Armed Services of the Senate and House of Representatives a report describing the programs in which such reductions will be made in accordance with section 202 and the programs that are the source of the funds transferred under this section.

SEC. 204. LIMITATIONS ON FUNDS FOR THE ARMY

(a) IN GENERAL.—Of the amount authorized in section 201 for the Army—

(1) $52,836,000 is available only for the Missile/Rocket Components program, of which—

(A) $10,000,000 is available only for the development of the Fiber Optics Guided Missile; and

(B) $10,000,000 is available only for development of the Hypervelocity Missile;

(2) $23,583,000 is available only for the Stinger Missile program;

(3) $18,898,000 is available only for the M1 E1 Tank Development program, of which $15,000,000 is available only for a fuel-efficient modification for the AGT-1500 tank engine;

(4) $20,000,000 is available only for the development, test integration, and evaluation of the Hellfire Missile for the Blackhawk helicopter; and

(5) $42,000,000 is available only for the Software Initiative (STARS) program.

(b) REPORT.—Not later than December 15, 1985, the Secretary of the Army shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report delineating a program plan for the fuel-efficient modification for the AGT-1500 transverse-mounted tank engine and for the Advanced Integrated Propulsion system. Such plan shall include the total system cost and system milestones for such programs.

SEC. 205. LIMITATIONS ON FUNDS FOR THE NAVY (INCLUDING THE MARINE CORPS)

(a) IN GENERAL.—Of the amount authorized in section 201 for the Navy (including the Marine Corps)—

(1) $17,500,000 is available only for the Low-Cost Anti-Radiation Seeker program;

(2) $4,464,000 is available only for the Advanced Mine Development program;

(3) $5,900,000 is available only for the Naval Oceanography program;

(4) $12,000,000 is available only for the Battlegroup Quick Reaction Surveillance System program;

(5) $4,000,000 is available only for unique Wallops Island Test Range activity;

(6) $10,000,000 is available only for the Skipper/Practice Bomb program;

(7) $1,500,000 is available only for a classified sensor development program; and

(8) $2,500,000 is available only to establish a second source for the competitive procurement of the Navy Five-Inch and Army 155-Millimeter Guided Projectile systems.

(b) REPORT.—Not later than December 15, 1985, the Secretary of the Navy shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report delineating a program plan for the Low-Cost Anti-Radiation Seeker Program. Such plan shall include the total system cost and system milestones for such program.

(c) SSN-21 COMBAT SYSTEM ADVANCED AND ENGINEERING PROGRAMS.—(1) Of the amount authorized in section 201 for the Navy, $200,000,000 is available only for the SSN-21 Combat System Advanced and Engineering program. None of such amount may be obligated or expended for the Submarine Advanced Combat System (SUBACS) program unless the Secretary of the Navy submits to the Committees on Armed Services of the Senate and House of Representatives written certification that—

(A) the Secretary has initiated action to negotiate and sign prior to February 1, 1986, a modification to the full-scale engineering development contract which would provide for—

(i) a cost ceiling for such development with no liability of the United States for cost growth above such ceiling; and

(ii) penalties for late delivery of equipment and failure to meet performance criteria;

(B) before completion of full-scale engineering development for the SUBACS Basic system under such program, such contractor will provide to the United States a complete technical data package—

(i) at no additional cost to the Government;

(ii) contaning no manufacturing or proprietary data rights; and

(iii) of such quality as to allow production of such system by a second source;

(C) the Secretary has begun action to provide, to the maximum extent possible, competition for procurement of components for production of the SUBACS Basic system; and

(D) the Secretary has begun action to establish competition in development and production of the follow-on systems to the SUBACS Basic system.

(2) During the period of any negotiations for a contract modification referred to in paragraph (1)(A), the monthly rate of expenditure for the SUBACS program may not exceed the rate of expenditure for such program.

(3) The Secretary shall also provide, within the amount of funds provided for the SSN-21 Combat System Advanced Engineering Program, that one or more firms that are potential competitors for the attack submarine combat system for fiscal year 1989 be established as associate contractors for the SUBACS Basic program with full access to all SUBACS development information.

(4) If the Secretary determines that it is not possible to make a certification under paragraph (1), the Secretary may obligate and expend funds necessary to develop an advanced combat system (other than SUBACS) for the SSN-21 submarine and other applicable platforms.

(d) ROLLING AIRFRAME MISSILE PROGRAM.—Funds appropriated for fiscal year 1986 for research, development, test, and evaluation for the Navy may not be obligated for the Rolling Airframe Missile program or the NATO Sea Sparrow program unless the Secretary of the Navy certifies to the Committees on Armed Services of the Senate and House of Representatives that—

(1) the Secretary has entered into a firm fixed-price production contract for the Rolling Airframe Missile program;

(2) such contract includes options of the United States for procurement under such program for fiscal years after fiscal year 1986 with maximum prices established for such options; and

(3) the contractor for such contract has provided a complete data package to the Navy—

(A) at no additional cost to the United States; and

(B) containing no manufacturing or proprietary data rights of the contractor.

(e) ACQUISITION OF ANTI-SUBMARINE WARFARE TRAINING SYSTEMS.—The Secretary of the Navy shall initiate a competitive procurement of three service test models of the LAMPS Mark I anti-submarine warfare shipboard training system for the Naval Reserve during fiscal year 1986. Of the funds appropriated pursuant to the authorizations of appropriations in section 201(a)(2), $6,800,000 may not be obligated before such test models are procured.

SEC. 206. LIMITATIONS ON FUNDS FOR THE AIR FORCE

Of the amount authorized in section 201 for the Air Force—

(1) $60,000,000 is available only for research, development, test, and evaluation for the Integrated Electronic Warfare system (INEWS) and the Integrated Communication, Navigation, Identification Avionics (ICNIA) system;

(2) $22,000,000 is available only for the research, development, test, and evaluation to modify the F-4 aircraft to satisfy the Air Force air defense mission;

(3) $19,570,000 is available only for a classified reconnaissance system;

(4) $211,276,000 is available only for the Very High Speed Integrated Circuits (VHSIC) program;

(5) $15,000,000 is available only for the Pave Tiger system; and

(6) $11,742,000 is available only for the Software Engineering Institute.

SEC. 207. LIMITATIONS ON FUNDS FOR THE DEFENSE AGENCIES

(a) IN GENERAL.—Of the amount authorized in section 201 for the Defense Agencies—

(1) $300,000,000 is available only for the Joint Advanced Systems program;

(2) $81,250,000 is available only for the University Research Initiative program, of which $1,000,000 is available only for computer and related research at Syracuse University, Syracuse, New York;

(3) $1,000,000 is available for use by the Defense Logistics Agency to conduct a demonstration of advanced clothing manufacturing technology and to procure and field test military clothing produced using advanced manufacturing techniques;

(4) $500,000 is available only for use by the Defense Logistics Agency for the Military Sewn Products Automation Program (MILSPA); and

(5) $142,000,000 is available only for the Strategic Computing Initiative.

(b) LIMITATION OF FUNDS FOR THE JOINT TACTICAL INFORMATION DISTRIBUTION SYSTEM (JTIDS).—Of the amount authorized in section 201 for the Defense Agencies, $200,000,000 is available only for research and development of a common Joint Tactical Information Distribution System (JTIDS) program. None of such amount may be obligated or expended until the Secretary of Defense selects a single JTIDS program to meet the operational requirements of both the Navy and the Air Force. If the Secretary of Defense determines that such a selection is not feasible or is not practicable, the Secretary shall submit to the Committees on Armed Services of the Senate and House of Representatives a report in writing setting forth the specific reasons for not proceeding with a common JTIDS program. The Secretary may not obligate or expend funds for the development or procurement of separate JTIDS programs for the Navy and Air Force until seven days of continuous session of Congress have expired following the date on which such report was submitted. For purposes of the preceding sentence, continuity of a session of Congress is determined as provided in section 7307(b)(2) of title 10, United States Code.

SEC. 208. TESTING OF ANTISATELLITE WEAPONS AND SPACE SURVIVABILITY PROGRAM

(a) REQUIREMENT REGARDING THE USE OF FUNDS.—None of the funds appropriated pursuant to an authorization in this or any other Act may be obligated or expended to

test against an object in space the miniature homing vehicle (MHV) anti-satellite warhead launched from an F-15 aircraft unless the President has made a determination and a certification to the Congress as provided in section 8100 of the Department of Defense Appropriations Act, 1985, (as contained in section 101(h) of Public Law 98-473 (98 Stat. 1941)).

(b) LIMITATION ON NUMBER OF TESTS.—Not more than three tests described in subsection (a) may be conducted before October 1, 1986.

(c) FUNDING FOR AIR FORCE SPACE SURVIVABILITY PROGRAM.—Of the amount authorized to be appropriated for the Air Force in section 201, $15,000,000 is available only for the satellite survivability project of the Air Force Space Survivability Program.

SEC. 209. SMALL INTERCONTINENTAL BALLISTIC MISSILE PROGRAM

(a) AMOUNT AUTHORIZED FOR FY86.—Of the amount authorized in section 201 for the Air Force, $724,500,000 is available only for research, development, test, and evaluation carried out with respect to the small mobile intercontinental ballistic missile within the intercontinental ballistic missile modernization program.

(b) MAINTENANCE OF PRIORITY FOR SMALL MOBILE ICBM PROGRAM.—The Secretary of Defense shall continue to carry out the program to develop a small mobile intercontinental ballistic missile, and to provide for the allocation of defense industrial resources for that program, in accordance with the priority for that program (known as "Brick-Bat") in effect on June 1, 1985, under the system provided by existing laws and regulations for determining relative program precedence for assignment of production resources.

(c) PROCEDURES REQUIRED BEFORE DECISIONS ON FULL-SCALE DEVELOPMENT AND BASING SITE SELECTION FOR SMALL ICBM.—(1) Before any decision may be made by the President or the Secretary of Defense with regard to the full-scale development of a small intercontinental ballistic missile or the selection of basing areas for the deployment of such missile, the Secretary of the Air Force shall prepare and submit to the appropriate committees of Congress a legislative environmental impact statement with respect to such development and such selection. In making any such decision, the President and the Secretary of Defense shall take into consideration the findings and conclusions contained in any such report.

(2) The legislative environmental impact statement required by paragraph (1) shall be prepared in accordance with the requirements applicable to such statements prepared under section 1506.8 of title 40 of the Code of Federal Regulations (as in effect on May 16, 1985).

(3) A legislative environmental impact statement prepared and submitted to the appropriate committees pursuant to paragraph (1) shall be deemed to meet all the requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) with respect to all aspects of the full-scale development of a small intercontinental ballistic missile and the selection of basing areas for the deployment of such missile.

(4) Preparation of a legislative environmental impact statement pursuant to paragraph (1) shall not relieve the Secretary of Defense from any obligation for the subsequent preparation of administrative environmental impact statements with respect to the environmental impact on specifically selected sites within the chosen areas for the deployment and peacetime operation of small intercontinental ballistic missiles.

SEC. 210. ADVANCED MEDIUM-RANGE AIR-TO-AIR MISSILE (AMRAAM) SYSTEM

(a) LIMITATION ON FUNDING.—(1) Of the amount authorized in section 201 for the Air Force, $101,382,000 is available for the Advanced Medium-Range Air-to-Air Missile (AMRAAM) program.

(2) Of the amount appropriated pursuant to the authorization in section 201 for the Air Force, $54,382,000 may not be obligated or expended until the Secretary of Defense submits to the Committees on Armed Services of the Senate and House of Representatives a certification as described in subsection (b).

(b) CERTIFICATION.—A certification under subsection (a) shall be in writing and shall include confirmation by the Secretary of the following:

(1) That (A) the design of the AMRAAM system has been completed, (B) system performance has not been degraded from the original development specification (DS 32050-000, as amended by the draft Development Concept Paper (DCP) of June 14, 1985), and (C) the flight test program has been revised to incorporate the maximum practicable number of selected changes in the design of the AMRAAM system that reduce the costs of the system and that are qualified and flight tested before production.

(2) That a fixed-price type contract for an amount not more than $556,580,480 has been entered into with the development contractor for research, development, test, and evaluation for such program.

(3) That the total production cost for the program, for a minimum of 17,000 missiles, will not exceed $5,200,000,000 (in fiscal year 1984 dollars) and that the missiles procured will perform in accordance with the development specification referred to in paragraph (1).

(c) NONCERTIFICATION.—If the Secretary of Defense cannot make a certification under subsection (a) by March 1, 1986, the AMRAAM program shall be terminated as of that date with no subsequent Government liability.

SEC. 211. HIGH-SPEED ANTI-RADIATION MISSILE (HARM) PROGRAM

(a) LIMITATION ON NAVY FUNDING.—Of the amount appropriated pursuant to the authorization in section 201 for the Navy (including the Marine Corps), $100,000,000 may not be obligated or expended until the Secretary of the Navy submits to Congress a certification as described in subsection (c) or a report as described in subsection (d).

(b) LIMITATION ON AIR FORCE FUNDING.—Of the amount appropriated pursuant to the authorization in section 201 for the Air Force, $50,000,000 may not be obligated or expended until the Secretary of the Air Force submits to Congress a certification as described in subsection (c) or a report as described in subsection (d).

(c) CERTIFICATION.—A certification under subsection (a) or (b) shall be in writing and shall include a certification by the Secretary concerned of the following:

(1) That the test and evaluation of the High-Speed Anti-Radiation Missile (HARM) shows conclusively that the missile system meets all performance specifications and objectives delineated in the HARM weapon system specification—AS 3400 Revision A, dated August 6, 1982.

(2) That a current production missile has been disassembled and that there is complete correlation with such missile and the current technical-data package (including the engineering drawings and software) and that HARM production missiles are being constructed to these drawings.

(3) That the HARM missile system is capable of engaging the intended threat as approved by the Director of Central Intelligence.

(4) That the program to develop the HARM low-cost seeker is structured to meet an intended Initial Operational Capability (IOC) date during 1991.

(d) REPORT ON DEFICIENCIES.—(1) If the Secretary of the Navy cannot make a certification under subsection (c) because of deficiencies in the HARM system, then the Secretary may obligate and expend funds without regard to the limitation in subsection (a) after submitting to Congress a written report described in paragraph (3).

(2) If the Secretary of the Air Force cannot make a certification under subsection (c) because of deficiencies in the HARM system, then the Secretary may obligate and expend funds without regard to the limitation in subsection (b) after submitting to Congress a written report described in paragraph (3).

(3) A report under paragraph (1) or (2) shall include—

(A) a detailed list of the deficiencies in the HARM system; and

(B) a plan to correct such deficiencies, including milestones and required levels of funding, and a request to Congress to reprogram funds for the purpose of correcting such deficiencies.

(e) PROHIBITION ON EXPENDITURES TO CORRECT SPECIFIED DEFICIENCIES.—The Secretary of the Navy and the Secretary of the Air Force may not obligate or expend any funds to correct deficiencies in the HARM system in order to meet the weapons system performance specifications described in subsection (c)(1).

PART B—STRATEGIC DEFENSE INITIATIVE

SEC. 221. FUNDING FOR FISCAL YEAR 1986

Of the amount authorized in section 201 for the Defense Agencies, $2,750,000,000 is available for the Strategic Defense Initiative, of which $12,500,000 is available only for the medical application of free-electron lasers and associated material and physical science research.

SEC. 222. REQUIREMENT FOR SPECIFIC AUTHORIZATION FOR DEPLOYMENT OF STRATEGIC DEFENSE INITIATIVE SYSTEM

A strategic defense system developed as a consequence of research, development, test, and evaluation conducted on the Strategic Defense Initiative program may not be deployed in whole or in part unless—

(1) the President determines and certifies to Congress in writing that—

(A) the system is survivable (that is, the system is able to maintain a sufficient degree of effectiveness to fulfill its mission, even in the face of determined attacks against it); and

(B) the system is cost effective at the margin to the extent that the system is able to maintain its effectiveness against the offense at less cost than it would take to develop offensive countermeasures and proliferate the ballistic missiles necessary to overcome it; and

(2) funding for the deployment of such system has been specifically authorized by legislation enacted after the date on which the President makes the certification to Congress.

SEC. 223. REPORTS ON STRATEGIC DEFENSE INITIATIVE

(a) REPORT ON POTENTIAL RESPONSES TO SDI AND ON RDT&E COSTS.—(1) The Secretary of Defense shall submit to Congress a report as to—

(A) what probable responses can be expected from potential enemies should the Strategic Defense Initiative programs be carried out to procurement and deployment, such as what increase may be anticipated in offensive enemy weapons in an enemy's attempt to penetrate the defensive shield by increasing the numbers or qualities of its offensive weapons;

(B) what can be expected from potential enemies in the deployment of weapons not endangered by the Strategic Defense Initiative, such as cruise missiles and low trajectory submarine missiles;

(C) the degree of the dependency of success for the Strategic Defense Initiative upon a potential enemy's anti-satellite weapons capability; and

(D) the cost estimates for the research, development, test, and evaluation for the proposed Strategic Defense Initiative.

(2) The report required by paragraph (1) shall be submitted to Congress with the request of the Secretary of Defense for appropriations for the Strategic Defense Initiative for fiscal year 1987.

(b) REPORT ON PROCUREMENT AND DEPLOYMENT COSTS.—The Secretary of Defense shall submit to Congress a report on the cost estimates for procurement and deployment of Strategic Defense Initiative programs. The report shall be submitted as soon as possible, but not later than submission of the budget request of the Department of Defense for fiscal year 1989.

SEC. 224. CONGRESSIONAL POLICY REGARDING CONSULTATION WITH OTHER MEMBERS OF NATO ON THE STRATEGIC DEFENSE INITIATIVE

(a) COMMENDATION OF PRESIDENT'S ACTION.—The Congress commends the President's attempts to initiate cooperation between the United States and other member nations of the North Atlantic Treaty Organization (NATO) on the Strategic Defense Initiative.

(b) CONSULTATION AND COOPERATION WITH OTHER NATO NATIONS.—It is the sense of Congress—

(1) that the mutual defense of NATO member nations is strengthened when there is a high degree of consultation and cooperation among member nations; and

(2) that the President should continue consultations with other member nations of NATO on the Strategic Defense Initiative program and, to the maximum extent feasible and within national security guidelines, keep such member nations informed of the progress, plans, and potential proposals of the United States regarding such program.

SEC. 225. CONGRESSIONAL EXPRESSION ON THE STRATEGIC DEFENSE INITIATIVE AND THE ABM TREATY

(a) FINDINGS REGARDING ABM TREATY.—The Congress finds—

(1) that the President's Commission on Strategic Forces declared in its report to the President, dated March 21, 1984, that "One of the most successful arms control agreements is the Anti-Ballistic Missile Treaty of 1972"; and

(2) that the Secretary of State has stated that the "ABM Treaty requires consultations, and the President has explicitly recognized that any ABM-related deployments arising from research into ballistic missile defenses would be a matter for consultations and negotiation between the Parties".

(b) SENSE OF CONGRESS REGARDING SDI AND THE ABM TREATY.—It is the sense of Congress—

(1) that it fully supports the declared policy of the President that a principal objective of the United States in negotiations with the Soviet Union on nuclear and space arms is to reverse the erosion of the Anti-Ballistic Missile Treaty of 1972;

(2) that action by the Congress in approving funds for research on the Strategic Defense Initiative—

(A) does not express or imply an intention on the part of the Congress that the United States should abrogate, violate, or otherwise erode such treaty; and

(B) does not express or imply any determination or commitment on the part of the Congress that the United States develop, test, or deploy ballistic missile strategic defense weaponry that would contravene such treaty; and

(3) that funds appropriated for the Strategic Defense Initiative program should not be used in a manner inconsistent with any of the treaties commonly known as the Limited Test Ban Treaty, the Threshold Test Ban Treaty, the Outer Space Treaty, or the Anti-Ballistic Missile Treaty of 1972.

SEC. 226. REPORT ON STRATEGIC AND THEATER BALLISTIC MISSILE DEFENSES

(a) REQUIREMENT FOR STUDY.—The Secretary of Defense shall conduct a study to examine the feasibility and military value of the early application of defenses against ballistic missile attack from the standpoint of—

(1) defending high value United States and allied capabilities abroad; and

(2) defending United States strategic deterrent capabilities.

(b) MATTERS TO BE INCLUDED IN STUDY.—The study shall specifically address—

(1) the contribution such defenses could make to deterrence stability;

(2) the adequacy in this regard of existing programs, including in particular the Strategic Defense Initiative; and

(3) the adequacy of the Army's Anti-Tactical Missile (ATM) program for allied defense.

(c) REPORT ON STUDY.—The Secretary of Defense shall submit to Congress a report containing the results of such study not later than February 15, 1986.

TITLE III—OPERATION AND MAINTENANCE

SEC. 301. AUTHORIZATION OF APPROPRIATIONS

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal year 1986 for the use of the Armed Forces and other activities and agencies of the Department of Defense for expenses, not otherwise provided for, for operation and maintenance in amounts as follows:

For the Army, $19,177,351,000.

For the Navy, $24,608,847,000.

For the Marine Corps, $1,626,700,000.

For the Air Force, $20,096,089,000.

For the Defense Agencies, $7,553,333,000.

For the Army Reserve, $780,100,000.

For the Naval Reserve, $900,590,000.

For the Marine Corps Reserve, $57,170,000.

For the Air Force Reserve, $902,144,000.

For the Army National Guard, $1,625,780,000.

For the Air National Guard, $1,806,162,000.

For the National Board for the Promotion of Rifle Practice, $920,000.

For Defense Claims, $143,300,000.

For the Court of Military Appeals, $3,200,000.

(b) GENERAL AUTHORIZATION FOR CONTINGENCIES.—There are authorized to be appropriated for fiscal year 1986, in addition to the amounts authorized to be appropriated in subsection (a), such sums as may be necessary—

(1) for unbudgeted increases in fuel costs;

(2) for unbudgeted increases as a result of inflation in the cost of activities authorized by subsection (a); and

(3) for unbudgeted amounts for salary, pay, retirement, and other employee benefits authorized by law for civilian employees of the Department of Defense whose compensation is provided for by funds authorized to be appropriated in subsection (a).

(c) ADDITIONAL AUTHORIZATION FOR ARMY NATIONAL GUARD.—In addition to the amounts authorized to be appropriated in subsection (a), there are authorized to be appropriated such sums as may be necessary for the Army National Guard for—

(1) armory operating costs;

(2) modification or repair of work space for full-time National Guard personnel; and

(3) partial Federal funding for major repair and renovation of National Guard facilities.

(d) TRANSFER OF FUNDS.—Funds are hereby authorized to be transferred, to the extent provided in appropriation Acts, from the Foreign Currency Fluctuations, Defense fund to the operation and maintenance accounts of the military departments in amounts as follows:

For the Army, $156,000,000.

For the Navy, $156,000,000.

For the Air Force, $156,000,000.

SEC. 302. AUTHORIZATION OF APPROPRIATIONS FOR WORKING-CAPITAL FUNDS

Funds are hereby authorized to be appropriated for fiscal year 1986 to provide capital for working-capital funds of the Department of Defense in amounts as follows:

For the Army Stock Fund, $393,000,000.

For the Navy Stock Fund, $638,500,000.

For the Marine Corps Stock Fund, $37,700,000.

For the Air Force Stock Fund, $415,900,000.

For the Defense Stock Fund, $174,500,000.

SEC. 303. LIMITATION ON THE USE OF O&M FUNDS TO PURCHASE INVESTMENT ITEMS

Funds appropriated for fiscal year 1986 for operation and maintenance of the Department of Defense pursuant to the authorizations of appropriations in section 301 may not be used to purchase any item with a unit cost of $5,000 or more if purchases of such item during fiscal year 1985 were chargeable to appropriations made to the Department of Defense for procurement.

SEC. 304. ASSISTANCE FOR THE TENTH INTERNATIONAL PAN AMERICAN GAMES

(a) AUTHORITY TO PROVIDE SUPPORT SERVICES.—The Secretary of Defense may—

(1) provide logistical support and personnel services to the Tenth Pan Am Games;

(2) lend and provide equipment in support of the Tenth Pan Am Games; and

(3) provide such other services in support of the Tenth Pan Am Games as the Secretary considers advisable.

(b) AUTHORIZATION OF APPROPRIATIONS; LIMITATION.—(1) There is authorized to be appropriated to the Secretary of Defense for fiscal year 1986 an amount not to exceed $10,000,000 for the purpose of carrying out subsection (a).

(2) Except as provided in paragraph (3), funds may not be obligated for the purpose of carrying out subsection (a) unless specifically appropriated for such purpose.

51-059 O-86-35 (Pt. 15)

(3) Paragraph (2) does not apply to funds used for pay and non-travel-related allowances for members of the Armed Forces (other than pay and allowances of members of the reserve components called or ordered to active duty to provide support for the Tenth Pan Am Games).

(4) The costs for pay and non-travel-related allowances of members of the Armed Forces (other than members of the reserve components called or ordered to active duty to provide support for the Tenth Pan Am Games) may not be charged to appropriations made pursuant to the authorization in paragraph (1).

(c) DEFINITION.—For the purposes of this section, the term "Tenth Pan Am Games" means the Tenth International Pan American Games, to be held at Indianapolis, Indiana, during the period beginning on August 7, 1987, and ending on August 23, 1987.

SEC. 305. AUTHORIZATION OF APPROPRIATIONS FOR TRANSPORTATION OF HUMANITARIAN RELIEF SUPPLIES TO AFGHAN REFUGEES

(a) AUTHORIZATION OF FUNDS.—There is hereby authorized to be appropriated to the Department of Defense for fiscal year 1986 the sum of $10,000,000 for the purpose of providing transportation for humanitarian relief for persons displaced or who are refugees because of the invasion of Afghanistan by the Soviet Union.

(b) TRANSPORTATION UNDER DIRECTION OF THE SECRETARY OF STATE.—Transportation provided with funds appropriated pursuant to the authorization in this section shall be under the direction of the Secretary of State.

(c) MEANS OF TRANSPORTATION TO BE USED.—Transportation for humanitarian relief provided with funds appropriated pursuant to the authorization in this section shall be by the most economical commercial or military means available, unless the Secretary of State determines that it is in the national interest of the United States to use means other than the most economical available. Such means may include the use of aircraft and personnel of the reserve components of the Armed Forces.

SEC. 306. EXTENSION AND EXPANSION OF AUTHORITY OF THE SECRETARY OF DEFENSE TO TRANSPORT HUMANITARIAN RELIEF SUPPLIES TO CERTAIN COUNTRIES

(a) Section 1540(a) of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2637), is amended—

(1) by striking out "fiscal year 1985" and inserting in lieu thereof "fiscal years 1985 and 1986"; and

(2) by striking out "Central America" and inserting in lieu thereof "any area of the world".

(b) The heading of section 1540 of such Act is amended to read as follows:

"AUTHORIZATION FOR SECRETARY OF DEFENSE TO TRANSPORT HUMANITARIAN RELIEF SUPPLIES TO FOREIGN COUNTRIES".

SEC. 307. LIMITATIONS CONCERNING AIR NATIONAL GUARD AND AIR FORCE RESERVE FLYING UNITS

Funds appropriated to or for the use of the Secretary of the Air Force may not be used to deactivate or divest of its flying mission any flying unit of the Air National Guard or the Air Force Reserve until—

(1) the Secretary has notified in writing the Committees on Armed Services of the Senate and House of Representatives of the Secretary's intent to expend funds for such purpose; and

(2) 60 days have elapsed following receipt of that notification.

SEC. 308. COMMISSARY AND EXCHANGE PRIVILEGES FOR SURVIVORS OF CERTAIN RESERVISTS

(a) BENEFITS FOR CERTAIN DEPENDENTS.—The Secretary of Defense shall prescribe regulations to allow dependents of members of the uniformed services described in subsection (b) to use commissary and exchange stores on the same basis as dependents of members of the uniformed services who die while on active duty for a period of more than 30 days.

(b) COVERED DEPENDENTS.—A dependent referred to in subsection (a) is a dependent of a member of a uniformed service who died—

(1) while on active duty, active duty for training, or inactive duty training (regardless of the period of such duty); or

(B) while traveling to or from the place at which the member is to perform, or has performed, active duty, active duty for training, or inactive duty training (regardless of the period of such duty).

(c) DEFINITION.—For the purposes of this section, the term "uniformed services" has the meanings given such terms in section 101 of title 37, United States Code.

TITLE IV—MILITARY PERSONNEL AUTHORIZATIONS

PART A—ACTIVE FORCES

SEC. 401. AUTHORIZATION OF END STRENGTHS

The Armed Forces are authorized strengths for active-duty personnel as of September 30, 1986, as follows:

(1) The Army, 780,800.

(2) The Navy, 581,300.

(3) The Marine Corps, 198,800.

(4) The Air Force, 606,470.

SEC. 402. EXTENSION OF QUALITY CONTROL ON ENLISTMENTS INTO THE ARMY

Effective on October 1, 1985, section 302(a) of the Department of Defense Authorization Act, 1981 (10 U.S.C. 520 note), is amended by striking out "October 1, 1984" and "September 30, 1985" and inserting in lieu thereof "October 1, 1985" and "September 30, 1986", respectively.

PART B—RESERVE FORCES

SEC. 411. AUTHORIZATION OF AVERAGE STRENGTHS FOR SELECTED RESERVE

(a) IN GENERAL.—For fiscal year 1986, the Selected Reserve of the reserve components of the Armed Forces shall be programmed to attain average strengths of not less than the following:

(1) The Army National Guard of the United States, 440,025.

(2) The Army Reserve, 290,639.

(3) The Naval Reserve, 134,212.

(4) The Marine Corps Reserve, 41,900.

(5) The Air National Guard of the United States, 108,700.

(6) The Air Force Reserve, 75,600.

(7) The Coast Guard Reserve, 12,500.

(b) ADJUSTMENTS.—The average strengths prescribed by subsection (a) for the Selected Reserve of any reserve component shall be proportionately reduced by (1) the total authorized strength of units organized to serve as units of the Selected Reserve of such component which are on active duty (other than for training) at any time during the fiscal year, and (2) the total number of individual members not in units organized to serve as units of the Selected Reserve of such component who are on active duty (other than for training or for unsatisfactory participation in training) without their consent at any time during the fiscal year. Whenever such units or such individual members are released from active duty during any fiscal year, the average strength prescribed for such fiscal year for the Selected Reserve of such reserve component shall be proportionately increased by the total authorized strength of such units and by the total number of such individual members.

SEC. 412. AUTHORIZATION OF END STRENGTHS FOR RESERVES ON ACTIVE DUTY IN SUPPORT OF THE RESERVE COMPONENTS

(a) IN GENERAL.—Within the average strengths prescribed in section 411, the reserve components of the Armed Forces are authorized, as of September 30, 1986, the following number of Reserves to be serving on full-time active duty or, in the case of members of the National Guard, on full-time National Guard duty for the purpose of organizing, administering, recruiting, instructing, or training the reserve components or the National Guard:

(1) The Army National Guard of the United States, 23,731.

(2) The Army Reserve, 12,157.

(3) The Naval Reserve, 19,010.

(4) The Marine Corps Reserve, 1,475.

(5) The Air National Guard of the United States, 7,269.

(6) The Air Force Reserve, 635.

(b) AUTHORITY TO INCREASE END-STRENGTH LIMIT.—Upon a determination by the Secretary of Defense that such action is in the national interest, the end strengths prescribed by subsection (a) may be increased by a total of not more than the number equal to 2 percent of the total end strengths prescribed.

SEC. 413. INCREASE IN NUMBER OF CERTAIN PERSONNEL AUTHORIZED TO BE ON ACTIVE DUTY IN SUPPORT OF THE RESERVE COMPONENTS

(a) SENIOR ENLISTED MEMBERS.—The table in section 517(b) of title 10, United States Code, is amended to read as follows:

"Grade	Army	Navy	Air Force	Marine Corps
E-9	517	165	80	9
E-8	2,295	381	358	74".

(b) OFFICERS.—The table in section 524(a) of such title is amended to read as follows:

"Grade	Army	Navy	Air Force	Marine Corps
Major or Lieutenant Commander	2,317	850	476	100
Lieutenant Colonel or Commander	1,152	520	318	60
Colonel or Navy Captain	348	177	189	25".

(c) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall take effect on October 1, 1985.

PART C—MILITARY TRAINING

SEC. 421. AUTHORIZATION OF TRAINING STUDENT LOADS

(a) IN GENERAL.—For fiscal year 1986, the components of the Armed Forces are authorized average military training student loads as follows:

(1) The Army, 79,686.

(2) The Navy, 71,018.

(3) The Marine Corps, 20,766.

(4) The Air Force, 43,389.

(5) The Army National Guard of the United States, 18,886.

(6) The Army Reserve, 16,985.

(7) The Naval Reserve, 3,355.

(8) The Marine Corps Reserve, 3,790.

(9) The Air National Guard of the United States, 2,751.

(10) The Air Force Reserve, 2,118.

(b) ADJUSTMENTS.—The average military student loads for the Army, the Navy, the

Marine Corps, and the Air Force and the reserve components authorized in subsection (a) for fiscal year 1986 shall be adjusted consistent with the personnel strengths authorized in parts A and B. Such adjustment shall be apportioned among the Army, the Navy, the Marine Corps, and the Air Force and the reserve components in such manner as the Secretary of Defense shall prescribe.

TITLE V—DEFENSE PERSONNEL POLICY

PART A—CIVILIAN PERSONNEL

SEC. 501. WAIVER OF CIVILIAN PERSONNEL CEILINGS FOR FISCAL YEAR 1986

The provisions of section 138(c)(2) of title 10, United States Code, shall not apply with respect to fiscal year 1986 or with respect to the appropriation of funds for that year.

SEC. 502. PROHIBITION ON MANAGING CIVILIAN PERSONNEL BY END-STRENGTHS DURING FISCAL YEAR 1986

(a) PROHIBITION.—During fiscal year 1986, the civilian personnel of the Department of Defense may not be managed on the basis of any end-strength, and the management of such personnel during that fiscal year shall not be subject to any constraint or limitation (known as an "end-strength") on the number of such personnel who may be employed on the last day of such fiscal year.

(b) FY86 REPORTS.—Not later than February 1, 1986, the Secretary of Defense and the Director of the Office of Management and Budget shall each submit to the Committees on Armed Services of the Senate and House of Representatives a report on the experience of the Department of Defense during fiscal years 1985 and 1986 (to the date of the report) concerning the management of civilian personnel of the Department without a congressionally imposed civilian end strength and with a statutory prohibition on the management during those fiscal years of such civilian personnel by end strength. Each such report shall include the views of the Secretary or Director, as appropriate, with respect to the desirability of managing such personnel in such a manner.

(c) QUARTERLY REPORTS.—(1) The Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives quarterly reports on the obligation of funds appropriated for civilian personnel of the Department of Defense for fiscal year 1986. Each report shall include—

(A) for each appropriation account, the amounts authorized and appropriated for such personnel for fiscal year 1986;

(B) for each appropriation account and for the entire Department—

(i) the actual number of such personnel employed, and the amount of funds obligated for such personnel, as of the end of the fiscal year quarter described in the report; and

(ii) the projected number of such personnel to be employed, and the amount of funds that will be obligated for such personnel, as of the end of fiscal year 1986.

(2) Each report required by paragraph (1) shall be submitted as soon as possible after the end of the fiscal year quarter described in the report.

SEC. 503. EXERCISE OF CERTAIN AUTHORITIES RELATING TO CIVILIAN EMPLOYEES OF THE DEPARTMENT OF DEFENSE

(a) FINDINGS.—The Congress finds—

(1) that in National Security Decision Directive 84, issued by the President on March 11, 1983, the President directed the Attorney General to establish, after consultation with the Director of the Office of Personnel Management, an interdepartmental group to—

(A) study security procedures in effect with respect to Federal employees; and

(B) recommend appropriate revisions in Executive orders, regulations, and guidelines pertaining to such procedures; and

(2) that on May 1, 1984, the interdepartmental group referred to in clause (1) requested, in a memorandum to the Assistant to the President for National Security Affairs, that guidance be furnished to the group on matters relating to the study referred to in paragraph (1)(A).

(b) DIRECTION TO FURNISH GUIDANCE.—Before the end of the 60-day period beginning on the date of the enactment of this Act, the President shall transmit to the interdepartmental group referred to in subsection (a) the guidance requested in the memorandum referred to in subsection (a)(2).

(c) REPORT REQUIREMENT.—Before the end of the 90-day period beginning on the date that the President transmits the guidance pursuant to subsection (b), the interdepartmental group shall transmit to Congress a report on its findings and recommendations.

(d) AUTHORITY OF THE SECRETARY OF DEFENSE.—Subject to subsection (e), the Secretary of Defense shall exercise the following authorities with respect to civilian employees of the Department of Defense:

(1) Authorities assigned to the Director of the Office of Personnel Management under section 5.2(a) of Executive Order Number 10577 (5 U.S.C. 3301 note), relating to investigation of the suitability of applicants.

(2) Authorities assigned to the Office of Personnel Management under Executive Order Number 10450 (5 U.S.C. 7311 note), relating to security requirements for Federal employees.

(e) AUTHORITY OF THE PRESIDENT.—(1) Subsection (d) shall not take effect if the President directs, on or before the date of the transmittal to Congress of the report described in subsection (c), that the authorities referred to in subsection (d) shall not be exercised by the Secretary of Defense.

(2) The authority of the President under paragraph (1) may not be delegated.

SEC. 504. MODIFICATION AND STUDY OF DEPARTMENT OF DEFENSE CIVILIAN PERSONNEL CLASSIFICATION AND PAY SYSTEMS

(a) CIVILIAN FACULTY MEMBERS OF AIR FORCE INSTITUTE OF TECHNOLOGY.—(1) Section 9314 of title 10, United States Code, is amended—

(A) by inserting "(a)" before "When"; and

(B) by adding at the end thereof the following new subsection:

"(b)(1) The Secretary of the Air Force may employ as many civilian faculty members at the United States Air Force Institute of Technology as is consistent with the needs of the Air Force and with Department of Defense personnel limits.

"(2) The Secretary shall prescribe regulations determining—

"(A) titles and duties of civilian members of the faculty; and

"(B) rates of basic pay of civilian members of the faculty, notwithstanding chapter 53 of title 5, but subject to the limitation set out in section 5308 of title 5.".

(2)(A) The heading of such section is amended by striking out the colon and the last word.

(B) The item relating to such section in the table of sections at the beginning of chapter 901 of such title is amended by striking out the colon and the last word.

(b) EXCLUSION FROM CIVIL SERVICE CLASSIFICATION SYSTEM.—Section 5102(c) of title 5, United States Code, is amended—

(1) by striking out "or" at the end of clause (26);

(2) by striking out the period at the end of clause (27) and inserting in lieu thereof "; or"; and

(3) by adding at the end thereof the following new clause:

"(28) civilian members of the faculty of the Air Force Institute of Technology whose pay is fixed under section 9314 of title 10.".

(c) TRANSITION.—Section 9314(b)(2) of title 10, United States Code (as added by subsection (a)(1)(B)), and section 5102(c)(28) of title 5, United States Code (as added by subsection (b)), shall not apply to any person who on the date of the enactment of this Act—

(1) is a civilian member of the faculty of the United States Air Force Institute of Technology;

(2) is paid a rate of basic pay under the General Schedule; and

(3) elects, under procedures prescribed by the Secretary of the Air Force, to continue to be paid under the General Schedule.

(d) REPORT.—Not later than December 31, 1985, the Secretary of Defense shall submit to Congress an evaluation of the effects of the pay and classification systems applicable to civilian employees of the Department of Defense on recruitment and retention of scientists, engineers, technicians, and other highly skilled personnel in scientific and engineering organizations in the Department.

PART B—ACTIVE MILITARY PERSONNEL

SEC. 511. ADJUSTMENT IN MARINE CORPS OFFICER GRADE TABLE

(a) INCREASE IN AUTHORIZED NUMBER OF MARINE CORPS MAJORS.—The table in section 523(a)(1) of title 10, United States Code, is amended by striking out "2,717", "2,936", "3,154", "3,373", and "3,591" in the items relating to the Marine Corps under the column headed "Major" and inserting in lieu thereof "2,766", "3,085", "3,404", "3,723", and "4,042", respectively.

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on October 1, 1985.

SEC. 512. SERVICE AGREEMENTS OF CADETS AND MIDSHIPMEN

(a) MILITARY ACADEMY.—Section 4348 of title 10, United States Code, relating to agreements of cadets at the United States Military Academy, is amended to read as follows:

"§ 4348. Cadets: agreement to serve as officer

"(a) Each cadet shall sign an agreement with respect to the cadet's length of service in the armed forces. The agreement shall provide that the cadet agrees to the following:

"(1) That the cadet will complete the course of instruction at the Academy.

"(2) That upon graduation from the Academy the cadet—

"(A) will accept an appointment, if tendered, as a commissioned officer of the Regular Army or the Regular Air Force; and

"(B) will serve on active duty for at least five years immediately after such appointment.

"(3) That if an appointment described in paragraph (2) is not tendered or if the cadet is permitted to resign as a regular officer before completion of the commissioned service obligation of the cadet, the cadet—

"(A) will accept an appointment as a commissioned officer as a Reserve for service in the Army Reserve or the Air Force Reserve; and

"(B) will remain in that reserve component until completion of the commissioned service obligation of the cadet.

"(b)(1) The Secretary of the Army may transfer to the Army Reserve, and may order to active duty for such period of time as the Secretary prescribes (but not to exceed four years), a cadet who breaches an agreement under subsection (a). The period of time for which a cadet is ordered to active duty under this paragraph may be determined without regard to section 651(a) of this title.

"(2) A cadet who is transferred to the Army Reserve under paragraph (1) shall be transferred in an appropriate enlisted grade or rating, as determined by the Secretary.

"(3) For the purposes of paragraph (1), a cadet shall be considered to have breached an agreement under subsection (a) if the cadet is separated from the Academy under circumstances which the Secretary determines constitute a breach by the cadet of the cadet's agreement to complete the course of instruction at the Academy and accept an appointment as a commissioned officer upon graduation from the Academy.

"(c) The Secretary of the Army shall prescribe regulations to carry out this section. Those regulations shall include—

"(1) standards for determining what constitutes, for the purpose of subsection (b), a breach of an agreement under subsection (a);

"(2) procedures for determining whether such a breach has occurred; and

"(3) standards for determining the period of time for which a person may be ordered to serve on active duty under subsection (b).

"(d) In this section, 'commissioned service obligation', with respect to an officer who is a graduate of the Academy, means the period beginning on the date of the officer's appointment as a commissioned officer and ending on the sixth anniversary of such appointment or, at the discretion of the Secretary of Defense, any later date up to the eighth anniversary of such appointment.

"(e)(1) This section does not apply to a cadet who is not a citizen or national of the United States.

"(2) In the case of a cadet who is a minor and who has parents or a guardian, the cadet may sign the agreement required by subsection (a) only with the consent of a parent or guardian.".

(b) NAVAL ACADEMY.—Section 6959 of such title, relating to agreements of midshipmen at the United States Naval Academy, is amended to read as follows:

"§ 6959. Midshipmen: agreement for length of service

"(a) Each midshipman shall sign an agreement with respect to the midshipman's length of service in the armed forces. The agreement shall provide that the midshipman agrees to the following:

"(1) That the midshipman will complete the course of instruction at the Naval Academy.

"(2) That upon graduation from the Naval Academy the midshipman—

"(A) will accept an appointment, if tendered, as a commissioned officer of the Regular Navy, the Regular Marine Corps, or the Regular Air Force; and

"(B) will serve on active duty for at least five years immediately after such appointment.

"(3) That if an appointment described in paragraph (2) is not tendered or if the midshipman is permitted to resign as a regular officer before completion of the commissioned service obligation of the midshipman, the midshipman—

"(A) will accept an appointment as a commissioned officer in the Naval Reserve or the Marine Corps Reserve or as a Reserve in the Air Force for service in the Air Force Reserve; and

"(B) will remain in that reserve component until completion of the commissioned service obligation of the midshipman.

"(b)(1) The Secretary of the Navy may transfer to the Naval Reserve or the Marine Corps Reserve, and may order to active duty for such period of time as the Secretary prescribes (but not to exceed four years), a midshipman who breaches an agreement under subsection (a). The period of time for which a midshipman is ordered to active duty under this paragraph may be determined without regard to section 651(a) of this title.

"(2) A midshipman who is transferred to the Naval Reserve or Marine Corps Reserve under paragraph (1) shall be transferred in an appropriate enlisted grade or rating, as determined by the Secretary.

"(3) For the purposes of paragraph (1), a midshipman shall be considered to have breached an agreement under subsection (a) if the midshipman is separated from the Naval Academy under circumstances which the Secretary determines constitute a breach by the midshipman of the midshipman's agreement to complete the course of instruction at the Naval Academy and accept an appointment as a commissioned officer upon graduation from the Naval Academy.

"(c) The Secretary of the Navy shall prescribe regulations to carry out this section. Those regulations shall include—

"(1) standards for determining what constitutes, for the purpose of subsection (b), a breach of an agreement under subsection (a);

"(2) procedures for determining whether such a breach has occurred; and

"(3) standards for determining the period of time for which a person may be ordered to serve on active duty under subsection (b).

"(d) In this section, 'commissioned service obligation', with respect to an officer who is a graduate of the Academy, means the period beginning on the date of the officer's appointment as a commissioned officer and ending on the sixth anniversary of such appointment or, at the discretion of the Secretary of Defense, any later date up to the eighth anniversary of such appointment.

"(e)(1) This section does not apply to a midshipman who is not a citizen or national of the United States.

"(2) In the case of a midshipman who is a minor and who has parents or a guardian, the midshipman may sign the agreement required by subsection (a) only with the consent of a parent or guardian.".

(c) AIR FORCE ACADEMY.—Section 9348 of such title, relating to agreements of cadets at the United States Air Force Academy, is amended to read as follows:

"§ 9348. Cadets: agreement to serve as officer

"(a) Each cadet shall sign an agreement with respect to the cadet's length of service in the armed forces. The agreement shall provide that the cadet agrees to the following:

"(1) That the cadet will complete the course of instruction at the Academy.

"(2) That upon graduation from the Academy the cadet—

"(A) will accept an appointment, if tendered, as a commissioned officer of the Regular Air Force; and

"(B) will serve on active duty for at least five years immediately after such appointment.

"(3) That if an appointment described in paragraph (2) is not tendered or if the cadet is permitted to resign as a regular officer before completion of the commissioned service obligation of the cadet, the cadet—

"(A) will accept an appointment as a commissioned officer as a Reserve in the Air Force for service in the Air Force Reserve; and

"(B) will remain in that reserve component until completion of the commissioned service obligation of the cadet.

"(b)(1) The Secretary of the Air Force may transfer to the Air Force Reserve, and may order to active duty for such period of time as the Secretary prescribes (but not to exceed four years), a cadet who breaches an agreement under subsection (a). The period of time for which a cadet is ordered to active duty under this paragraph may be determined without regard to section 651(a) of this title.

"(2) A cadet who is transferred to the Air Force Reserve under paragraph (1) shall be transferred in an appropriate enlisted grade or rating, as determined by the Secretary.

"(3) For the purposes of paragraph (1), a cadet shall be considered to have breached an agreement under subsection (a) if the cadet is separated from the Academy under circumstances which the Secretary determines constitute a breach by the cadet of the cadet's agreement to complete the course of instruction at the Academy and accept an appointment as a commissioned officer upon graduation from the Academy.

"(c) The Secretary of the Air Force shall prescribe regulations to carry out this section. Those regulations shall include—

"(1) standards for determining what constitutes, for the purpose of subsection (b), a breach of an agreement under subsection (a);

"(2) procedures for determining whether such a breach has occurred; and

"(3) standards for determining the period of time for which a person may be ordered to serve on active duty under subsection (b).

"(d) In this section, 'commissioned service obligation', with respect to an officer who is a graduate of the Academy, means the period beginning on the date of the officer's appointment as a commissioned officer and ending on the sixth anniversary of such appointment or, at the discretion of the Secretary of Defense, any later date up to the eighth anniversary of such appointment.

"(e)(1) This section does not apply to a cadet who is not a citizen or national of the United States.

"(2) In the case of a cadet who is a minor and who has parents or a guardian, the cadet may sign the agreement required by subsection (a) only with the consent of a parent or guardian.".

(d) DEADLINE FOR REGULATIONS.—The Secretary of each military department shall prescribe the regulations required by section 4348(c), 6959(c), or 9348(c), as appropriate, of title 10, United States Code (as added by the amendments made by subsections (a), (b), and (c)) not later than the end of the 90-day period beginning on the date of the enactment of this Act.

(e) APPLICABILITY OF AMENDMENTS.—The amendments made by subsections (a), (b), and (c) (other than with respect to the authority of the Secretary of a military department to prescribe regulations)—

(1) shall take effect with respect to each military department on the date on which

regulations prescribed by the Secretary of that military department in accordance with subsection (d) take effect; and

(2) shall apply with respect to each agreement entered into under sections 4348, 6959, and 9348, respectively, of title 10, United States Code, that is entered into on or after the effective date of such regulations and shall apply with respect to each such agreement that was entered into before the effective date of such regulations by an individual who is a cadet or midshipman on such date.

SEC. 513. TRANSFERS TO AND FROM TEMPORARY DISABILITY RETIRED LIST

(a) IMPROVEMENTS IN ADMINISTRATION OF TEMPORARY DISABILITY RETIRED LIST.—Chapter 61 of title 10, United States Code, relating to retirement or separation for physical disability, is amended as follows:

(1)(A) Sections 1201(1) and 1204(1) are amended by inserting "and stable" after "permanent nature".

(B) Sections 1202 and 1205 are amended by inserting "and stable" after "permanent nature" the first place it appears in each section.

(2) Section 1210 is amended—

(A) by inserting "and stable" in subsections (b), (c), and (d) after "permanent nature"; and

(B) in subsection (f)—

(i) by inserting "(1)" after "(f)"; and

(ii) by striking out "and rating" and all that follows and inserting in lieu thereof "or rating, the Secretary shall—

"(A) treat the member as provided in section 1211 of this title; or

"(B) discharge the member, retire the member, or transfer the member to the Fleet Reserve, Fleet Marine Corps Reserve, or inactive Reserve under any other law if, under that law, the member—

"(i) applies for and qualifies for that retirement or transfer; or

"(ii) is required to be discharged, retired, or eliminated from an active status.

"(2)(A) For the purpose of paragraph (1)(B), a member shall be considered qualified for retirement or transfer to the Fleet Reserve or Fleet Marine Corps Reserve or is required to be discharged, retired, or eliminated from an active status if, were the member reappointed or reenlisted under section 1211 of this title, the member would in all other respects be qualified for or would be required to be retired, transferred to the Fleet Reserve or Fleet Marine Corps Reserve, discharged, or eliminated from an active status under any other provision of law.

"(B) The grade of a member retired, transferred, discharged, or eliminated from an active status pursuant to paragraph (1)(B) shall be determined under the provisions of law under which the member is retired, transferred, discharged, or eliminated. The member's retired, retainer, severance, readjustment, or separation pay shall be computed as if the member had been reappointed or reenlisted upon removal from the temporary disability retired list and before the retirement, transfer, discharge, or elimination. Notwithstanding section 8301 of title 5, a member who is retired shall be entitled to retired pay effective on the day after the last day on which the member is entitled to disability retired pay.".

(3) The second sentence of section 1211(c) is amended—

(A) by inserting "and if the member is not discharged, retired, or transferred to the Fleet Reserve or Fleet Marine Corps Reserve or inactive Reserve under section 1210 of this title," after "subsection (a) or (b),"; and

(B) by inserting "and the member shall be discharged" before the period.

(b) CONFORMING AMENDMENT.—Section 1448(c) of such title is amended by inserting "disability" before "retired pay".

SEC. 514. CHANGE IN TITLE OF GRADE OF COMMODORE TO REAR ADMIRAL (LOWER HALF)

(a) CHANGE IN TITLE.—(1) Section 5501 of title 10, United States Code, is amended by striking out "Commodore" in clause (4) and inserting in lieu thereof "Rear admiral (lower half)".

(2) Section 41 of title 14, United States Code, is amended by striking out "commodores" and inserting in lieu thereof "rear admirals (lower half)".

(3) Section 24 of the Coast and Geodetic Survey Commissioned Officers' Act of 1948 (33 U.S.C. 853u) is amended by striking out "commodore" each place it appears and inserting in lieu thereof "rear admiral (lower half)".

(b) CONFORMING AMENDMENTS TO TITLE 10.—(1) The following sections of title 10, United States Code, are amended by striking out "commodore" each place it appears and inserting in lieu thereof "rear admiral (lower half)": 101(41), 525(a), 601(c)(2), 611(a), 612(a)(3), 619(a)(2)(B), 619(c)(2)(A)(ii), 625(a), 625(c), 634, 635, 637(b)(2), 638(a)(3), 638(b), 638(c), 645(1)(A)(ii), 5138(a), 5149(b), 5442, 5444, 5457(a), and 6389(f).

(2) Section 5444 of such title is amended by striking out "commodores" in subsections (a) and (f) and inserting in lieu thereof "rear admirals (lower half)".

(3) The tables in sections 5442(a) and 5444(a) of such title are amended by striking out "commodores" and inserting in lieu thereof "rear admirals (lower half)".

(4)(A) The heading of section 625 of such title is amended to read as follows:

"§ 625. Authority to vacate promotions to grades of brigadier general and rear admiral (lower half)".

(B) The item relating to such section in the table of sections at the beginning of subchapter II of chapter 36 of such title is amended to read as follows:

"625. Authority to vacate promotions to grades of brigadier general and rear admiral (lower half).".

(5)(A) The heading of section 635 of such title is amended to read as follows:

"§ 635. Retirement for years of service: regular brigadier generals and rear admirals (lower half)".

(B) The item relating to such section in the table of sections at the beginning of subchapter III of chapter 36 of such title is amended to read as follows:

"635. Retirement for years of service: regular brigadier generals and rear admirals (lower half).".

(6)(A) The heading of section 5442 of such title is amended to read as follows:

"§ 5442. Navy: line officers on active duty; rear admirals (lower half) and rear admirals".

(B) The item relating to such section in the table of sections at the beginning of chapter 533 of such title is amended to read as follows:

"5442. Navy: line officers on active duty; rear admirals (lower half) and rear admirals.".

(7)(A) The heading of section 5444 of such title is amended to read as follows:

"§ 5444. Navy: staff corps officers on active duty; rear admirals (lower half) and rear admirals".

(B) The item relating to such section in the table of sections at the beginning of chapter 533 of such title is amended to read as follows:

"5444. Navy: staff corps officers on active duty; rear admirals (lower half) and rear admirals.".

(8) The table in section 741(a) of such title is amended by striking out "Commodore" and inserting in lieu thereof "Rear admiral (lower half)".

(c) CONFORMING AMENDMENTS TO TITLE 14.—(1) The following sections of title 14, United States Code, are amended by striking out "commodore" each place it appears and inserting in lieu thereof "rear admiral (lower half)": 42(b), 256(a), 259(b), 271(d), 289(a), 290(a), 421(b), 724(b), 729(e), 736(b), 740(a), 742(b), and 743.

(2)(A) The heading of section 290 of such title is amended to read as follows:

"§ 290. Rear admirals and rear admirals (lower half); continuation on active duty; involuntary retirement".

(B) The item relating to such section in the table of sections at the beginning of chapter 11 of such title is amended to read as follows:

"290. Rear admirals and rear admirals (lower half); continuation on active duty; involuntary retirement.".

(3)(A) The heading of section 743 of such title is amended to read as follows:

"§ 743. Rear admiral and rear admiral (lower half); maximum service in grade".

(B) The item relating to such section in the table of sections at the beginning of chapter 21 of such title is amended to read as follows:

"743. Rear admiral and rear admiral (lower half); maximum service in grade.".

(d) CONFORMING AMENDMENTS TO TITLE 37.—(1) The table in section 201(a) of title 37, United States Code, is amended by striking out "Commodore" in the third column and inserting in lieu thereof "Rear admiral (lower half)".

(2)(A) Section 202 of such title is amended by striking out "commodore" and inserting in lieu thereof "rear admiral (lower half)".

(B) The heading of such section is amended to read as follows:

"§ 202. Pay grades: retired Coast Guard rear admirals (lower half)".

(C) The item relating to such section in the table of sections at the beginning of chapter 3 of such title is amended to read as follows:

"202. Pay grades: retired Coast Guard rear admirals (lower half).".

(e) TRANSITION PROVISION.—(1) An officer who on the day before the date of the enactment of this Act is serving in or has the grade of commodore shall as of the date of the enactment of this Act be serving in or have the grade of rear admiral (lower half).

(2) An officer who on the day before the date of the enactment of this Act is on a list of officers selected for promotion to the grade of commodore shall as of the date of the enactment of this Act be considered to be on a list of officers selected for promotion to the grade of rear admiral (lower half).

SEC. 515. TEMPORARY INCREASE IN THE NUMBER OF GENERAL AND FLAG OFFICERS AUTHORIZED TO BE ON ACTIVE DUTY IN THREE-AND FOUR-STAR GRADES

During fiscal year 1986, the numbers of officers authorized under section 525(b) of title 10, United States Code, to be on active duty in grades above major general and rear admiral are increased as follows:

(1) ARMY LIEUTENANT GENERALS.—The number of officers of the Army authorized to be serving on active duty in grades above major general is increased by one during any period of that fiscal year that an officer of the Army is serving as the Director of the Department of Defense Task Force on Drug Enforcement. An additional officer in a grade above major general by reason of this paragraph may not be in the grade of general.

(2) AIR FORCE GENERALS.—The number of officers of the Air Force authorized to be serving on active duty in the grade of general is increased by one.

(3) NAVY VICE ADMIRALS.—The number of officers of the Navy authorized to be serving on active duty in a grade above rear admiral is increased by three. None of the additional officers in grades above rear admiral by reason of this paragraph may be in the grade of admiral.

(4) MARINE CORPS GENERAL OFFICERS.—The number of officers of the Marine Corps authorized to be serving on active duty in grades above major general is increased by one, plus an additional one during any period of that fiscal year that an officer of the Marine Corps is serving as the Commander-in-Chief of the United States Central Command. An additional officer in a grade above major general by reason of this paragraph may not be in the grade of general, unless a Marine Corps officer is serving as the Commander-in-Chief of the United States Central Command, in which case one of the additional officers authorized by this paragraph may serve in the grade of general.

SEC. 516. GRADE OF RETIRED REGULAR MEMBERS RECALLED TO ACTIVE DUTY

Section 688 of title 10, United States Code, is amended by adding at the end thereof the following new subsection:

"(d)(1) Except as provided in paragraph (2), a retired member ordered to active duty under this section shall be ordered to active duty in his retired grade.

"(2) A retired member ordered to active duty under this section whose retired grade is above the grade of major general or rear admiral shall be ordered to active duty in the highest permanent grade held by such member while serving on active duty.".

PART C—RESERVE MILITARY PERSONNEL

SEC. 521. EXTENSION OF CERTAIN RESERVE OFFICER MANAGEMENT PROGRAMS

(a) GRADE DETERMINATION FOR RESERVE MEDICAL OFFICERS.—Sections 3359(b) and 8359(b) of title 10, United States Code, are amended by striking out "September 30, 1985" and inserting in lieu thereof "September 30, 1987".

(b) PROMOTION OF CERTAIN RESERVE OFFICERS SERVING ON ACTIVE DUTY.—Sections 3380(d) and 8380(d) of such title are amended by striking out "September 30, 1985" and inserting in lieu thereof "September 30, 1987".

(c) YEARS OF SERVICE FOR MANDATORY TRANSFER TO THE RETIRED RESERVE.—Section 1016(d) of the Department of Defense Authorization Act, 1984 (Public Law 98-94; 97 Stat. 668), is amended by striking out "September 30, 1985" and inserting in lieu thereof "September 30, 1987".

SEC. 522. RETENTION UNTIL AGE 60 OF RESERVE CIVILIAN TECHNICIANS

(a) ARMY.—(1) Section 3848(c) of title 10, United States Code, relating to reserve component officers of the Army who may be removed from an active status after completing 28 years of service, is amended to read as follows:

"(c) Notwithstanding subsections (a) and (b), the Secretary of the Army may authorize the retention in an active status until age 60 of an officer who would otherwise be removed from an active status under this section who—

"(1) is an officer of the Army National Guard of the United States assigned to a headquarters or headquarters detachment of a State or territory, the Commonwealth of Puerto Rico, the Canal Zone, or the District of Columbia; or

"(2) is employed—

"(A) as a technician under section 709 of title 32 in a position for which membership in the National Guard is required as a condition of employment; or

"(B) as a technician of the Army Reserve in a position for which membership in the Army Reserve is required as a condition of employment.".

(2) Section 3851(c) of such title, relating to reserve component officers of the Army who may be removed from an active status after completing 30 years of service, is amended to read as follows:

"(c) Notwithstanding subsections (a) and (b), the Secretary of the Army may authorize the retention in an active status until age 60 of an officer who would otherwise be removed from an active status under this section who—

"(1) is an officer of the Army National Guard of the United States assigned to a headquarters or headquarters detachment of a State or territory, the Commonwealth of Puerto Rico, the Canal Zone, or the District of Columbia; or

"(2) is employed—

"(A) as a technician under section 709 of title 32 in a position for which membership in the National Guard is required as a condition of employment; or

"(B) as a technician of the Army Reserve in a position for which membership in the Army Reserve is required as a condition of employment.".

(b) AIR FORCE.—(1) Section 8848(c) of title 10, United States Code, relating to reserve component officers of the Air Force who may be removed from an active status after completing 28 years of service, is amended to read as follows:

"(c) Notwithstanding subsections (a) and (b), the Secretary of the Air Force may authorize the retention in an active status until age 60 of an officer who would otherwise be removed from an active status under this section who—

"(1) is employed as a technician under section 709 of title 32 in a position for which membership in the National Guard is required as a condition of employment; or

"(2) is employed as a technician of the Air Force Reserve in a position for which membership in the Air Force Reserve is required as a condition of employment.".

(2) Section 8851(c) of such title, relating to reserve component officers of the Air Force Reserve who may be removed from an active status after completing 30 years of service, is amended to read as follows:

"(c) Notwithstanding subsections (a) and (b), the Secretary of the Air Force may authorize the retention in an active status until age 60 of an officer who would otherwise be removed from an active status under this section who—

"(1) is employed as a technician under section 709 of title 32 in a position for which membership in the National Guard is required as a condition of employment; or

"(2) is employed as a technician of the Air Force Reserve in a position for which membership in the Air Force Reserve is required as a condition of employment.".

SEC. 523. AUTHORITY TO RETAIN IN ACTIVE STATUS UNTIL AGE 62 UP TO 10 ARMY RESERVE MAJOR GENERALS

Section 3852 of title 10, United States Code, relating to mandatory retirement or discharge of reserve major generals, is amended—

(1) by inserting "(a)" at the beginning of the text of the section; and

(2) by adding at the end thereof the following new subsection:

"(b) Notwithstanding subsection (a), an officer in the reserve grade of major general who would otherwise be removed from an active status under this section may, in the discretion of the Secretary of the Army, be retained in an active status, but not later than the date on which he becomes 62 years of age. Not more than 10 officers may be retained under this subsection at any one time.".

SEC. 524. REQUIREMENT OF MUSTER TEST OF ARMY INDIVIDUAL READY RESERVE

(a) REQUIREMENT OF MUSTER TEST.—The Secretary of Defense shall conduct a test of the ability of the Army to muster members of the Individual Ready Reserve of the Army in time of war or national emergency. The test—

(1) shall be national in scope; and

(2) shall be conducted through voluntary calls to active duty.

(b) REPORT.—Not later than February 1, 1986, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives a report on the muster test. The report shall include the findings of the Secretary concerning—

(1) the availability and fitness for duty of members of the Army Individual Ready Reserve; and

(2) the adequacy of current call-up procedures.

PART D—MISCELLANEOUS

SEC. 531. APPOINTMENTS OF WARRANT OFFICERS

(a) REGULAR WARRANT OFFICERS.—Section 555(b) of title 10, United States Code, is amended to read as follows:

"(b) Permanent appointments of regular warrant officers, W-1, shall be made by warrant by the Secretary concerned. Permanent appointments of regular chief warrant officers shall be made by commission by the President.".

(b) RESERVE WARRANT OFFICERS.—Section 597(b) of such title is amended to read as follows:

"(b) Appointments made in the permanent reserve grade of warrant officer, W-1, shall be made by warrant by the Secretary concerned. Appointments made in a permanent reserve grade of chief warrant officer shall be made by commission by the Secretary concerned.".

(c) TRANSITION.—(1) The amendments made by subsections (a) and (b) apply to any appointment of a warrant officer or chief warrant officer on or after the effective date of this section.

(2) An officer who on the effective date of this section is serving in a chief warrant officer grade under an appointment by war-

rant may be appointed in that grade by commission under section 555(b) or 597(b) of title 10, United States Code, as appropriate. The date of rank of an officer who receives an appointment under this paragraph is the date of rank for the officer's appointment by warrant to that grade.

(d) EFFECTIVE DATE.—This section takes effect six months after the date of the enactment of this Act.

SEC. 532. PRISONER-OF-WAR MEDAL

(a) AUTHORITY TO ISSUE PRISONER-OF-WAR MEDAL.—(1) Chapter 57 of title 10, United States Code, is amended by adding at the end thereof the following new section:

"§ 1128. Prisoner-of-war medal: issue

"(a) The Secretary concerned shall issue a prisoner-of-war medal to any person who, while serving in any capacity with the armed forces, was taken prisoner and held captive—

"(1) while engaged in an action against an enemy of the United States;

"(2) while engaged in military operations involving conflict with an opposing foreign force; or

"(3) while serving with friendly forces engaged in an armed conflict against an opposing armed force in which the United States is not a belligerent party.

"(b) The prisoner-of-war medal shall be of appropriate design, with ribbons and appurtenances.

"(c) In prescribing regulations establishing the order of precedence of awards and decorations authorized to be displayed on the uniforms of members of the armed forces, the Secretary concerned shall accord the prisoner-of-war medal a position of precedence, in relation to other awards and decorations authorized to be displayed—

"(1) immediately following decorations awarded for individual heroism, meritorious achievement, or meritorious service, and

"(2) before any other service medal, campaign medal, or service ribbon authorized to be displayed.

"(d) Not more than one prisoner-of-war medal may be issued to a person. However, for each succeeding service that would otherwise justify the issuance of such a medal, the Secretary concerned may issue a suitable device to be worn as the Secretary determines.

"(e) For a person to be eligible for issuance of a prisoner-of-war medal, the person's conduct must have been honorable for the period of captivity which serves as the basis for the issuance.

"(f) If a person dies before the issuance of a prisoner-of-war medal to which he is entitled, the medal may be issued to the person's representative, as designated by the Secretary concerned.

"(g) Under regulations to be prescribed by the Secretary concerned, a prisoner-of-war medal that is lost, destroyed, or rendered unfit for use without fault or neglect on the part of the person to whom it was issued may be replaced without charge.

"(h) The Secretary of Defense shall ensure that regulations prescribed by the Secretaries of the military departments under this section are uniform so far as practicable.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end thereof the following new item:

"1128. Prisoner-of-war medal: issue.".

(b) EFFECTIVE DATE.—Section 1128 of title 10, United States Code, as added by subsection (a), applies with respect to any person taken prisoner and held captive after April 5, 1917.

SEC. 533. CLARIFICATION OF PRECEDENCE OF THE AWARD OF THE PURPLE HEART

Section 1127 of title 10, United States Code, is amended by striking out "the lowest position accorded any award or decoration for valor" and inserting in lieu thereof "the bronze star".

SEC. 534. ESPIONAGE UNDER THE UCMJ

(a) NEW PUNITIVE ARTICLE.—Chapter 47 of title 10, United States Code (the Uniform Code of Military Justice), is amended by inserting after section 906 (article 106) the following new subsection (article):

"§ 906a. Art. 106a. Espionage

"(a)(1) Any person subject to this chapter who, with intent or reason to believe that it is to be used to the injury of the United States or to the advantage of a foreign nation, communicates, delivers, or transmits, or attempts to communicate, deliver, or transmit, to any entity described in paragraph (2), either directly or indirectly, any thing described in paragraph (3) shall be punished as a court-martial may direct, except that if the accused is found guilty of an offense that directly concerns (A) nuclear weaponry, military spacecraft or satellites, early warning systems, or other means of defense or retaliation against large scale attack, (B) war plans, (C) communications intelligence or cryptographic information, or (D) any other major weapons system or major element of defense strategy, the accused shall be punished by death or such other * * *

"(2) An entity referred to in paragraph (1) is—

"(A) a foreign government;

"(B) a faction or party or military or naval force within a foreign country, whether recognized or unrecognized by the United States; or

"(C) a representative, officer, agent, employee, subject, or citizen of such a government, faction, party, or force.

"(3) A thing referred to in paragraph (1) is a document, writing, code book, signal book, sketch, photograph, photographic negative, blueprint, plan, map, model, note, instrument, appliance, or information relating to the national defense.

"(b)(1) No person may be sentenced by court-martial to suffer death for an offense under this section (article) unless—

"(A) the members of the court-martial unanimously find at least one of the aggravating factors set out in subsection (c); and

"(B) the members unanimously determine that any extenuating or mitigating circumstances are substantially outweighed by any aggravating circumstances, including the aggravating factors set out in subsection (c).

"(2) Findings under this subsection may be based on—

"(A) evidence introduced on the issue of guilt or innocence;

"(B) evidence introduced during the sentencing proceeding; or

"(C) all such evidence.

"(3) The accused shall be given broad latitude to present matters in extenuation and mitigation.

"(c) A sentence of death may be adjudged by a court-martial for an offense under this section (article) only if the members unanimously find, beyond a reasonable doubt, one or more of the following aggravating factors:

"(1) The accused has been convicted of another offense involving espionage or treason for which either a sentence of death or imprisonment for life was authorized by statute.

"(2) In the commission of the offense, the accused knowingly created a grave risk of substantial damage to the national security.

"(3) In the commission of the offense, the accused knowingly created a grave risk of death to another person.

"(4) Any other factor that may be prescribed by the President by regulations under section 836 of this title (article 36).".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of subchapter X of such chapter is amended by inserting after the item relating to section 906 (article 106) the following new item:

906a. Art. 106a. Espionage.".

TITLE VI—COMPENSATION AND OTHER PERSONNEL BENEFITS

PART A—BASIC PAY AND ALLOWANCES

SEC. 601. MILITARY PAY RAISE FOR FISCAL YEAR 1986

(a) WAIVER OF SECTION 1009 ADJUSTMENT.—Any adjustment required by section 1009 of title 37, United States Code, in elements of the compensation of members of the uniformed services to become effective during fiscal year 1986 shall not be made.

(b) THREE PERCENT PAY RAISE.—The rates of basic pay, basic allowance for subsistence, and basic allowance for quarters of members of the uniformed services are increased by 3 percent effective on October 1, 1985.

SEC. 602. ADJUSTMENTS IN VARIABLE HOUSING ALLOWANCE PROGRAM

(a) VHA FOR CERTAIN MEMBERS PAYING CHILD SUPPORT.—Subsection (a) of section 403a of title 37, United States Code, is amended by adding at the end thereof the following new paragraph:

"(4) In the case of a member with dependents—

"(A) who is assigned to duty inside the United States;

"(B) who is authorized to receive the basic allowance for quarters at the rate established for a member with dependents solely by reason of the payment of child support by the member; and

"(C) who is not assigned to a housing facility under the jurisdiction of a uniformed service,

the member may be paid a variable housing allowance at the rate applicable to a member without dependents serving in the same grade and at the same location.".

(b) LIMITATIONS ON VHA.—Subsection (b) of such section is amended—

(1) by striking out "is not entitled to" in the matter preceding paragraph (1) and inserting in lieu thereof "may not be paid"; and

(2) by striking out paragraph (2) and inserting in lieu thereof the following:

"(2) in the case of a member with dependents who is authorized the basic allowance for quarters at the rate established for a member with dependents solely by reason of the payment of child support by the member, if—

"(A) the member is assigned to a housing facility under the jurisdiction of a uniformed service; or

"(B) the member (i) is assigned to duty outside the United States or in Alaska or Hawaii, and (ii) is authorized a station housing allowance under section 405 of this title; or".

(c) CLARIFICATION OF AUTHORITY TO PAY VHA AT WITH-DEPENDENTS RATE; ELIMINATION OF EXCESS HOUSING COST PAYMENTS.—(1) Subsection (c) of such section is amended by inserting "and with the same dependency status" in paragraph (1) after "in the

same pay grade" both places it appears and in paragraph (4) after "in the same pay grade" both places it appears.

(2) Such subsection is further amended by adding at the end thereof the following new paragraph:

"(6)(A) The monthly variable housing allowance that would otherwise be paid to a member under this section shall be reduced by an amount equal to one-half of the amount (if any) by which—

"(i) the total monthly housing allowance prescribed for members of the same grade as such member who are assigned to duty in the same area as such member (or in the same area in which the dependents of the member reside, as appropriate); exceeds

"(ii) the monthly housing costs of the member in the area in which the member is assigned to duty (or in the area in which the dependents of the member reside, as appropriate).

"(B) In subparagraph (A), 'total monthly housing allowance' means, in the case of any member, the sum of—

"(i) the monthly basic allowance for quarters to which the member is entitled; and

"(ii) the monthly variable housing allowance prescribed for the same grade as such member for the area in which the member is assigned to duty (or in the area in which the dependents of the member reside, as appropriate).".

(d) REQUIRED REGULATIONS.—Subsection (e) of such section is amended by—

(1) inserting "(1)" before "The President"; and

(2) adding at the end thereof the following new paragraph:

"(2) Any regulations prescribed under paragraph (1) may not allow—

"(A) an increase in the variable housing allowance rate for a pay grade in a survey area solely to prevent the variable housing allowance rate for a lower pay grade in the survey area from exceeding such rate; or

"(B) a failure to lower the variable housing allowance rate for a pay grade in a survey area in accordance with a decrease in housing costs for such pay grade in such area reported on the variable housing allowance survey.

"(3) Paragraph (2) shall not apply to regulations prescribed with respect to any pay grade in a survey area for which available data describe fewer than 50 persons in the pay grade.".

(e) SAVINGS PROVISION.—A member described in paragraph (4) of section 403a(a) of title 37, United States Code, as added by subsection (a), who on September 30, 1985, is receiving variable housing allowance at the rate applicable to a member with dependents shall continue to be entitled to variable housing allowance at the appropriate rate applicable to a member with dependents until the member departs his duty station as a result of a permanent change of station.

(f) EFFECTIVE DATE.—(1) The amendments made by subsections (a), (b), and (d) shall take effect on October 1, 1985.

(2) The amendments made by subsection (c)(1) shall apply as if included in the enactment of section 403a of title 37, United States Code, by section 602(d) of the Department of Defense Authorization Act, 1985 (Public Law 98-525).

(3) The amendment made by subsection (c)(2) shall take effect on the first day of the first month beginning 90 days or more after the date of the enactment of this Act.

SEC. 603. PAYMENT OF VARIABLE HOUSING ALLOWANCE IN ALASKA AND HAWAII

(a) REPEAL OF AUTHORITY FOR PAYMENT OF STATION HOUSING ALLOWANCE IN ALASKA AND HAWAII DURING FISCAL YEAR 1985.—Section 8108 of the Department of Defense Appropriations Act, 1985 (as contained in section 101(h) of Public Law 98-473 (98 Stat. 1943)), is repealed.

(b) CONFORMING AND TECHNICAL AMENDMENTS TO VHA TRANSITION PROVISION.—Paragraph (2) of section 602(f) of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2537), is amended to read as follows:

"(2)(A) A member shall be entitled to receive a station housing allowance under section 405 of title 37, United States Code, as if the amendments made by subsection (e) had not been enacted, if the member, on the date of the enactment of the Department of Defense Authorization Act, 1986—

"(i) is assigned to a permanent duty station in Alaska or Hawaii; and

"(ii) is entitled to payment of a temporary lodging allowance or a station housing allowance under section 405 of such title.

"(B) A member who is entitled to a station housing allowance by reason of subparagraph (A) shall only be entitled to such allowance until the earlier of—

"(i) the date on which the member departs that station as a result of a permanent change of duty station; or

"(ii) the expiration of the four-year period beginning on the date of the enactment of the Department of Defense Authorization Act, 1986.

"(C) Any member who is entitled to a station housing allowance by reason of subparagraph (A) shall not be entitled to a variable housing allowance under paragraph (1) or (2) of section 403a of such title (as added by subsection (d)).".

SEC. 604. AUTHORITY TO PAY BAQ AND VHA IN ADVANCE.

(a) BASIC ALLOWANCE FOR QUARTERS.—Section 403(a) of title 37, United States Code, is amended by adding at the end thereof the following new sentence: "The allowance authorized by this section may be paid in advance.".

(b) VARIABLE HOUSING ALLOWANCE.—Section 403a(a)(1) of such title is amended by adding at the end thereof the following new sentence: "The allowance authorized by this section may be paid in advance.".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1985.

SEC. 605. ELIGIBILITY FOR BASIC ALLOWANCE FOR QUARTERS.

(a) MEMBERS WITHOUT DEPENDENTS ASSIGNED TO FIELD DUTY OR SEA DUTY.—Section 403(c) of title 37, United States Code, is amended—

(1) by striking out "is not entitled to a basic allowance for quarters while he is on field duty" in paragraph (1) and inserting in lieu thereof "who makes a permanent change of station for assignment to a unit conducting field operations is not entitled to a basic allowance for quarters while on that initial field duty";

(2) by striking out "and who is on sea duty" in the second sentence of paragraph (2) and all that follows and inserting in lieu thereof "who is assigned to sea duty under a permanent change of station is not entitled to a basic allowance for quarters if the unit to which the member is ordered is deployed and the permanent station of the unit is different than the permanent station from which the member is reporting."; and

(3) by striking out paragraph (3).

(b) EFFECTIVE DATES.—(1) The amendments made by paragraphs (1) and (2) of subsection (a) shall take effect on October 1, 1985.

(2) The amendment made by paragraph (3) of subsection (a) shall take effect on January 1, 1986.

SEC. 606. REIMBURSEMENT FOR ACCOMMODATIONS IN PLACE OF QUARTERS

(a) LIMITATION ON AMOUNT AVAILABLE FOR REIMBURSEMENT FOR FISCAL YEAR 1986.—Section 7572(b)(3) of title 10, United States Code, is amended—

(1) by striking out "and" after "fiscal year 1984,"; and

(2) by inserting ", and $1,421,000 for fiscal year 1986" after "fiscal year 1985".

(b) EXTENSION OF AUTHORITY.—Section 3 of Public Law 96-357 (10 U.S.C. 7572 note) is amended by striking out "September 30, 1985" and inserting in lieu thereof "September 30, 1986".

SEC. 607. INCREASE IN FAMILY SEPARATION ALLOWANCE

(a) MONTHLY ALLOWANCE.—Section 427(b) of title 37, United States Code, is amended by striking out "$30" and inserting in lieu thereof "$60".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on October 1, 1985, and shall apply only to family separation allowances payable for months beginning on or after that date.

PART B—TRAVEL AND TRANSPORTATION

SEC. 611. INCREASE IN DISLOCATION ALLOWANCE

(a) AMOUNT PAYABLE.—Section 407 of title 37, United States Code, is amended by striking out "one month" and inserting in lieu thereof "two months".

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to moves begun after September 30, 1985.

SEC. 612. REVISION OF TRAVEL AND TRANSPORTATION ALLOWANCES

(a) IN GENERAL.—Subsection (d) of section 404 of title 37, United States Code, is amended—

(1) by striking out the first sentence and inserting in lieu thereof the following: "(1) The travel and transportation allowances authorized for each kind of travel may not be more than one of the following:

"(A) Transportation in kind, reimbursement therefor, or, under regulations prescribed by the Secretaries concerned, when travel by privately-owned conveyance is authorized or approved as more advantageous to the Government, a monetary allowance in place of the cost of transportation, at the rates provided in section 5704 of title 5, based on distances established over the shortest usually traveled route, under mileage tables prepared under the direction of the Secretary of the Army.

"(B) Transportation in kind, reimbursement therefor, or a monetary allowance as provided in subparagraph (A) of this paragraph, plus a per diem in place of subsistence in an amount not more than $50 determined by the Secretaries concerned to be sufficient to meet normal and necessary expenses in the area to which travel is to be performed.

"(C) A mileage allowance at a rate per mile prescribed by the Secretaries concerned and based on distances established under clause (1) of this subsection."; and

(2) by designating the second sentence as paragraph (2) and by striking out "clause (2)" in such sentence and inserting in lieu thereof "paragraph (1)(B)".

(b) TRANSPORTATION ALLOWANCE FOR DEPENDENTS.—Section 406(a)(1) of such title is amended by striking out "for his dependents" and all that follows through "to be prescribed" and inserting in lieu thereof ", reimbursement therefor, or a monetary allowance in place of the cost of transportation, plus a per diem, for the member's dependents at rates prescribed by the Secretaries concerned".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to travel performed after September 30, 1985.

SEC. 613. TEMPORARY LODGING EXPENSES

(a) ENTITLEMENT.—Section 404a(a) of title 37, United States Code, is amended—

(1) in the first sentence, by striking out "may" and inserting in lieu thereof "shall";

(2) in the second sentence, by striking out "may" the first place it appears and inserting in lieu thereof "are to"; and

(3) in the third sentence, by striking out "may" the first place it appears and inserting in lieu thereof "are to".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on October 1, 1985.

SEC. 614. ALLOWANCES FOR TRANSPORTATION OF BAGGAGE AND HOUSEHOLD EFFECTS

(a) AUTHORITY TO PAY FOR CERTAIN LABOR PROVIDED BY MEMBER.—Section 406(k) of title 37, United States Code, is amended—

(1) by inserting "(1)" after "(k)";

(2) in the first sentence, by inserting "or in which a member provides all or a part of the labor in connection with the transportation of the baggage and household effects of the member (including packing, crating, and loading)" after "rental vehicle"; and

(3) by adding at the end thereof the following new paragraph:

"(2) The Secretary concerned may prescribe in any regulations authorizing the payment of a monetary allowance to a member who participates in a program in which the member provides all or a part of the labor in connection with the transportation of the baggage and household effects of the member—

"(A) the extent to which payment to the member will be made for such labor, and

"(B) the manner in which liability will be allocated among the member, the United States, and the common carriers involved in the event of loss of or damage to any baggage or household effects packed, crated, or loaded by the member.".

(b) TERMINATION OF AUTHORITY.—The amendments made by subsection (a) shall expire on September 30, 1989.

(c) PROHIBITION ON RETROACTIVE PAYMENTS.—No allowance may be paid to any member of a uniformed service by virtue of the amendments made by subsection (a) in connection with the transportation of the baggage and household effects provided the member before the date of the enactment of this Act.

(d) REPORT REQUIREMENT.—The Secretary of Defense shall submit a report to the Congress not later than September 30, 1988, regarding the operation of any program carried out by the military departments under which payment of a monetary allowance is made to a member who provides all or a part of the labor in connection with the transportation of the baggage and household effects of the member and shall include in such report such recommendations for legislative action the Secretary considers appropriate.

SEC. 615. TRAVEL ALLOWANCE FOR TRAVEL PERFORMED IN CONNECTION WITH CERTAIN LEAVE

(a) IN GENERAL.—Section 411b(a)(1) of title 37, United States Code, is amended—

(1) by striking out "if he is a member without dependents,";

(2) by striking out ", if either" and all that follows and inserting in lieu thereof a period; and

(3) by adding at the end thereof the following new sentence: "Such allowances may be paid for the member and for the dependents of the member who are authorized to, and do, accompany him at his duty stations.".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply with respect to orders to change a permanent station that are effective after September 30, 1985.

SEC. 616. TRAVEL DURING SHIP OVERHAUL

(a) IN GENERAL.—Section 406b of title 37, United States Code, is amended—

(1) by inserting "(a)" before "Under";

(2) by striking out ", ninety-first, and one hundred and fifty-first calendar day" and inserting in lieu thereof "calendar day, and every sixtieth calendar day after the thirty-first calendar day"; and

(3) by adding at the end thereof the following new subsections:

"(b) Transportation in kind, reimbursement for personally procured transportation, or a monetary allowance in place of the cost of transportation as provided in section 404(d)(1) of this title may be provided, in lieu of the member's entitlement to transportation, for the member's dependents from the location that was the home port of the ship before commencement of overhaul or inactivation to the port of overhaul or inactivation. The total reimbursement for transportation for the member's dependents may not exceed the cost of Government-procured commercial roundtrip travel.

"(c) A member of the uniformed services on permanent duty aboard a ship which undergoes a change of home port to the overhaul or inactivation port and the member's dependents may be provided the transportation allowances prescribed in subsections (a) and (b) of this section in lieu of the transportation authorized by section 406 of this title and section 2634 of title 10.

"(d) Section 420 of this title does not apply with respect to transportation or allowances provided under this section.".

(b) EFFECTIVE DATE.—The travel allowances authorized by the amendments made by this section are payable only for travel that commences after September 30, 1985, but may be paid for members assigned to vessels being overhauled or inactivated away from home port on the date of the enactment of this Act.

(c) CLERICAL AMENDMENTS.—(1) The heading for such section is amended by striking out the last four words.

(2) The item relating to such section in the table of sections at the beginning of chapter 7 of such title is amended by striking out the last four words.

SEC. 617. DEFINITION OF RESIDENCE OF A STUDENT DEPENDENT

(a) IN GENERAL.—Section 406 of title 37, United States Code, is amended by adding at the end thereof the following new subsection:

"(l) For the purposes of this section, the residence of a dependent of a member who is a student not living with the member while at school shall be considered to be the permanent duty station of the member or the designated residence of dependents of the member if the member's dependents are not authorized to reside with the member.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply with respect to orders to change a permanent station that are effective after September 30, 1985.

SEC. 618. EXTENSION OF TEST PROGRAM FOR FLAT RATE PER DIEM SYSTEM

(a) AUTHORITY FOR TEST PROGRAM.—The Secretary concerned may carry out a program to test a flat rate per diem system for travel allowances for travel performed by members of the Armed Forces while on temporary duty.

(b) AMOUNT OF FLAT RATE.—Per diem allowances paid under such a test program shall be in an amount determined by the Secretary concerned to be sufficient to meet normal and necessary expenses in the area in which travel is performed, but may not exceed $75 for each day a member is in travel status within the continental United States.

(c) REGULATIONS.—The test program under this section shall be carried out under regulations prescribed by the Secretary concerned.

(d) DEFINITION OF SECRETARY CONCERNED.—For the purposes of this section, the term "Secretary concerned" means—

(1) the Secretary of each military department with respect to matters concerning the respective military departments; and

(2) the Secretary of Defense with respect to matters concerning the defense agencies.

(e) DURATION OF PROGRAM.—The test program under this section shall be carried out during the period beginning on October 1, 1985, and ending on September 30, 1986.

SEC. 619. TRAVEL AND TRANSPORTATION ALLOWANCES FOR TRAVEL WITHIN THE ADMINISTRATIVE LIMITS OF A MEMBER'S DUTY STATION

(a) AUTHORITY TO PAY PARKING FEES.—The second sentence of section 408 of title 37, United States Code, is amended by inserting "plus parking fees" after "fixed rate a mile".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply with respect to parking fees incurred after September 30, 1985.

SEC. 620. TRANSPORTATION ALLOWANCES FOR SURVIVORS OF DECEASED MEMBER TO ATTEND BURIAL CEREMONIES OF DECEASED MEMBER

(a) AUTHORITY TO PROVIDE ROUND-TRIP TRAVEL ALLOWANCE.—(1) Chapter 7 of title 37, United States Code, is amended by inserting after section 411e the following new section:

"§ 411f. Travel and transportation allowances: transportation for survivors of deceased member to attend the member's burial ceremonies

"(a) Under uniform regulations prescribed by the Secretaries concerned, round trip travel and transportation allowances may be provided the dependents of a member who dies while on active duty for a period of 30 days or more in order to attend the burial ceremonies of the deceased member.

"(b)(1) Except as provided in paragraph (2), allowances under this section are limited to travel and transportation to a location in the United States, Puerto Rico, and the possessions of the United States and may not exceed the rates for 2 days.

"(2) If a deceased member was ordered or called to active duty from a place outside the United States, Puerto Rico, or the pos-

sessions of the United States, the allowances authorized under this section may be provided to and from such place and may be extended to accommodate the time necessary for such travel.

"(c) In this section, the term 'dependents' includes the dependents specified in paragraphs (1) and (2) of section 401 of this title. However, if no person qualifies under such paragraphs, the parents of a member (including stepparent or parent by adoption, or any person, including a former stepparent, who has stood in loco parentis to the member at any time for a continuous period of at least 5 years before the member became 21 years of age) may be paid the travel and transportation allowances authorized under this section.".

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 411e the following new item:

"411f. Travel and transportation allowances: transportation for survivors of deceased member to attend the member's burial ceremonies.".

(b) EFFECTIVE DATE.—The travel and transportation allowance authorized by the amendments made by this section is payable only for travel that commences after September 30, 1985.

PART C—BONUSES AND SPECIAL AND INCENTIVE PAYS

Subpart 1—Active Forces

SEC. 631. LUMP-SUM PAYMENTS OF SELECTIVE REENLISTMENT BONUSES

(a) SPECIFICATION OF MINIMUM TO BE PAID IN ADVANCE.—Paragraph (1) of section 308(b) of title 37, United States Code, is amended to read as follows:

"(b)(1) Not less than 75 percent of the amount of a bonus under this section shall be paid in a lump sum at the beginning of the period for which the bonus is paid, with any remaining amount paid in equal annual installments.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply with respect to bonuses paid for reenlistments or extensions of enlistment effective after September 30, 1986.

SEC. 632. SPECIAL PAY FOR NUCLEAR OFFICERS

(a) CONTINUATION PAY.—(1) Subsection (a) of section 312 of title 37, United States Code, is amended—

(A) by inserting "and" at the end of clause (2);

(B) by striking out clause (3);

(C) by redesignating clause (4) as clause (3) and striking out "for one period of four years" in such clause and inserting in lieu thereof "for a period of three, four, or five years, so long as the new period of obligated active service does not extend beyond the end of 26 years of commissioned service,"; and

(D) in the matter following such clause—

(i) by striking out "$7,000" and inserting in lieu thereof "$12,000";

(ii) by striking out "semiannually" and "six-month period" in the second sentence and inserting in lieu thereof "annually" and "12-month period", respectively; and

(iii) by striking out "shall become fixed" and all that follows through the end of subsection (a) and inserting in lieu thereof "shall be paid in equal annual installments over the length of the contract, commencing at the expiration of any existing period of obligated active service. The Secretary (or his designee) may accept an active service agreement under this section not more than one year in advance of the end of an officer's existing period of obligated active service under such an agreement. In such a case, the amount of the special pay may be paid commencing with the date of acceptance of the agreement, with the number of installments being equal to the number of years covered by the contract plus one.".

(2) Subsection (b) of such section is repealed.

(3) Subsection (c) of such section is redesignated as subsection (b) and is amended by striking out "of four years".

(4) Subsection (d) of such section is redesignated as subsection (c) and is amended—

(A) by striking out "four years'" in the second sentence; and

(B) by striking out "at the end of the four year period" in that sentence.

(5) Such section is further amended by inserting after subsection (c) (as so redesignated) the following new subsection (d):

"(d)(1) An officer who is performing obligated service under an agreement under subsection (a) of this section may, if the amount that may be paid under such subsection is higher than at the time the officer executed such agreement, execute a new agreement under that subsection. The period of such an agreement shall be a period equal to or exceeding the original period of the officer's existing agreement, so long as the period of obligated active service under the new agreement does not extend beyond the end of 26 years of commissioned service. If a new agreement is executed under this subsection, the existing active-service agreement shall be cancelled, effective on the day before an anniversary date of that agreement after the date on which the amount that may be paid under this section is increased.

"(2) This subsection shall be carried out under regulations prescribed by the Secretary of the Navy.".

(6) Subsection (e) of such section is amended by striking out "September 30, 1987" and inserting in lieu thereof "September 30, 1990".

(b) NUCLEAR-CAREER ACCESSION BONUS.—(1) Subsection (a)(1) of section 312b of such title is amended—

(A) by striking out "of $3,000" and inserting in lieu thereof "not to exceed $8,000"; and

(B) by adding at the end thereof the following new sentence: "Upon acceptance of the agreement by the Secretary, the amounts payable upon selection for training and upon completion of training, respectively, as determined under subsection (b) of this section, shall become fixed.".

(2) Subsection (b) of such section is amended to read as follows:

"(b) The Secretary of the Navy shall determine annually the total amount of the bonus to be paid under this section and of that amount the portions that are to be paid—

"(1) upon selection for officer naval nuclear power training; and

"(2) upon successful completion, as a commissioned officer, of training for duty in connection with the supervision, operation, and maintenance of naval nuclear propulsion plants.".

(3) Subsection (d) of such section is amended by striking out "September 30, 1987" and inserting in lieu thereof "September 30, 1990".

(c) ANNUAL INCENTIVE BONUS.—(1) Subsection (a) of section 312c of such title is amended as follows:

(A) The first sentence is designated as paragraph (1) and amended—

(i) by redesignating clauses (1) through (5) as clauses (A) through (E), respectively;

(ii) by striking out ", but has completed less than twenty-six years of commissioned service" in clause (C) (as so designated); and

(iii) by striking out "$6,000" and "October 1, 1987" and inserting in lieu thereof "$10,000" and "October 1, 1990", respectively.

(B) The second sentence is designated as paragraph (2) and is amended by inserting "technically" before "qualified".

(C) The third sentence is designated as paragraph (3) and is amended by striking out "nuclear service year" the second place it appears and all that follows in that sentence and inserting in lieu thereof "nuclear service year on which he—

"(A) was not on active duty;

"(B) was not technically qualified for duty in connection with the supervision, operation, and maintenance of naval nuclear propulsion plants;

"(C) was performing obligated service as the result of an active-service agreement executed under section 312 of this title; or

"(D) was entitled to receive aviation career incentive pay in accordance with section 301a while serving in a billet other than a billet that required the officer—

"(i) be technically qualified for duty in connection with the supervision, operation, and maintenance of naval nuclear propulsion plants; and

"(ii) be qualified for the performance of operational flying duties.".

(D) The fourth sentence is repealed.

(2) Subsection (b) of such section is amended as follows:

(A) The first sentence is designated as paragraph (1) and amended—

(i) by redesignating clauses (1) through (4) as clauses (A) through (D), respectively; and

(ii) by striking out "$3,500" and "October 1, 1987" and inserting in lieu thereof "$4,500" and "October 1, 1990", respectively.

(B) The second sentence is designated as paragraph (2) and is amended by inserting "technically" before "qualified".

(C) The third sentence is designated as paragraph (3) and is amended by striking out "nuclear service year" and all that follows in that sentence and inserting in lieu thereof "nuclear service year on which he—

"(A) was not in an assignment involving the direct supervision, operation, or maintenance of naval nuclear propulsion plants;

"(B) was performing obligated service as the result of an active-service agreement executed under section 312 of this title; or

"(C) was entitled to receive aviation career incentive pay in accordance with section 301a while serving in a billet other than a billet—

"(i) involving the direct supervision, operation, or maintenance of naval nuclear propulsion plants; and

"(ii) that required the officer be qualified for the performance of operational flying duties.".

(3) Subsection (e) of such section is amended by striking out "October 1, 1987" and inserting in lieu thereof "October 1, 1990".

(d) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1985.

SEC. 633. INCENTIVE PAY FOR SUBMARINE DUTY

(a) INCREASE IN RATES OF INCENTIVE PAY FOR OFFICERS.—The table pertaining to commissioned officers in section 301c(b) of title 37, United States Code, is amended to read as follows:

"COMMISSIONED OFFICERS

Pay grade	Years of service computed under section 205						
	2 or less	Over 2	Over 3	Over 4	Over 6	Over 8	Over 10
0–10	$265	$265	$265	$265	$265	$265	$265

0–6	290	300	310	325	340	355	380".

(b) EFFECTIVE DATE.—The amendment made by this section shall take effect on October 1, 1985.

SEC. 635. INCENTIVE PAY FOR HAZARDOUS DUTY

(a) HAZARDOUS DUTY INCENTIVE PAY FOR OFFICERS AND FOR CERTAIN ADDITIONAL DUTIES.—(1) Subsection (a) of section 301 of title 37, United States Code, is amended—

(A) in clause (1), by striking out "an enlisted crew member" and inserting in lieu thereof "a crew member"; and

(B) by striking out clause (10) and inserting in lieu thereof the following:

"(10) involving (A) the servicing of aircraft or missiles with highly toxic fuels or propellants, (B) the testing of aircraft or missile systems (or components of such systems) during which highly toxic fuels or propellants are used, or (C) the handling of chemical munitions (or components of such munitions); or".

(2) Subsection (b) of such section is amended to read as follows:

"(b) For the performance of hazardous duty described in clause (1) of subsection (a) of this section, a member is entitled to monthly incentive pay as follows:

"Pay Grade	Monthly Rate
O–10	$110
O–9	110
O–8	110
O–7	110
O–6	250
O–5	250
O–4	225
O–3	175
O–2	150
O–1	125
W–4	250
W–3	175
W–2	150
W–1	125
E–9	200
E–8	200
E–7	200
E–6	175
E–5	150
E–4	125
E–3	110
E–2	110
E–1	110."

(3) Paragraph (1) of subsection (c) of such section is amended to read as follows:

"(1) For the performance of hazardous duty described in clauses (2) through (10) of subsection (a) of this section, a member is entitled to $110 a month. However, a member performing hazardous duty described in clause (3) of that subsection who also performs as an essential part of such duty parachute jumping at a high altitude with a low opening is entitled to $165 a month.".

(b) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1985.

SEC. 636. EXTENSION OF AVIATION OFFICER CONTINUATION PAY

Effective on October 1, 1985, section 301b of title 37, United States Code, is amended by striking out "September 30, 1985" in subsections (e)(2), (e)(3), and (f) and inserting in lieu thereof "September 30, 1987".

SEC. 637. CHANGE IN DEFINITION OF ENGINEERING AND SCIENTIFIC DUTY

(a) DEFINITION.—(1) Subsection (a) of section 315 of title 37, United States Code, is amended to read as follows:

"(a) In this section, 'engineering or scientific duty' means service performed by an officer—

"(1) that requires an engineering or science degree; and

"(2) that requires a skill designated (under regulations prescribed by the Secretary of Defense for the armed forces, by the Secretary of Commerce for the National Oceanic and Atmospheric Administration, or by the Secretary of Health and Human Services for the Public Health Service) as critical and as a skill in which there is a critical shortage of officers in the uniformed service concerned.".

(2) The matter preceding clause (1) of section 315(b) of such title is amended to read as follows:

"(b) Under regulations prescribed by the Secretary concerned, an officer of a uniformed service who—".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on October 1, 1985.

SEC. 638. INCENTIVE PAY FOR DUTY SUBJECT TO HOSTILE FIRE

(a) INCREASE IN INCENTIVE PAY FOR DUTY SUBJECT TO HOSTILE FIRE.—The first sentence of section 310 of title 37, United States Code, is amended by striking out "at the rate of $65 a month" and inserting in lieu thereof "at the lowest rate for hazardous duty incentive pay specified in section 301(c)(1) of this title".

(b) EFFECTIVE DATE.—The amendment made by this section shall take effect on October 1, 1985.

SEC. 639. REVISION OF SPECIAL PAY FOR DENTAL OFFICERS

(a) IN GENERAL.—Section 302b of title 37, United States Code, is amended to read as follows:

"§ 302b. Special pay: dental officers of the armed forces

"(a)(1) An officer who—

"(A) is an officer of the Dental Corps of the Army or the Navy or an officer of the Air Force designated as a dental officer; and

"(B) is on active duty under a call or order to active duty for a period of not less than one year,

is entitled to special pay in accordance with this subsection.

"(2) An officer described in paragraph (1) of this subsection who is serving in a pay grade below pay grade O–7 is entitled to variable special pay at the following rates:

"(A) $1,200 per year, if the officer is undergoing dental internship training or has less than three years of creditable service.

"(B) $2,000 per year, if the officer has at least three but less than six years of creditable service and is not undergoing dental internship training.

"(C) $4,000 per year, if the officer has at least six but less than 10 years of creditable service.

"(D) $6,000 per year, if the officer has at least 10 but less than 14 years of creditable service.

"(E) $4,000 per year, if the officer has at least 14 but less than 18 years of creditable service.

"(F) $3,000 per year, if the officer has 18 or more years of creditable service.

"(3) An officer described in paragraph (1) of this subsection who is serving in a pay grade above pay grade O–6 is entitled to

variable special pay at the rate of $1,000 per year.

"(4) Subject to subsection (b) of this section, an officer entitled to variable special pay under paragraph (2) or (3) of this subsection is entitled to additional special pay for any 12-month period during which the officer is not undergoing dental internship or residency training. Such additional special pay shall be paid at the following rates:

"(A) $6,000 per year, if the officer has at least three but less than 14 years of creditable service.

"(B) $8,000 per year, if the officer has at least 14 but less than 18 years of creditable service.

"(C) $10,000 per year, if the officer has 18 or more years of creditable service.

"(5) An officer who is entitled to variable special pay under paragraph (2) or (3) of this subsection and who is board certified is entitled to additional special pay at the following rates:

"(A) $2,000 per year, if the officer has less than 12 years of creditable service.

"(B) $3,000 per year, if the officer has at least 12 but less than 14 years of creditable service.

"(C) $4,000 per year, if the officer has 14 or more years of creditable service.

"(b)(1) An officer may not be paid additional special pay under subsection (a)(4) of this section for any 12-month period unless the officer first executes a written agreement under which the officer agrees to remain on active duty for a period of not less than one year beginning on the date the officer accepts the award of such special pay.

"(2) Under regulations prescribed by the Secretary of Defense under section 303a(a) of this title, the Secretary of the military department concerned may terminate at any time an officer's entitlement to the special pay authorized by subsection (a)(4) of this section. If such entitlement is terminated, the officer concerned is entitled to be paid such special pay only for the part of the period on active duty that the officer served, and the officer may be required to refund any amount in excess of that entitlement.

"(c) Regulations prescribed by the Secretary of Defense under section 303a(a) of this title shall include standards for determining—

"(1) whether an officer is undergoing internship or residency training for purposes of subsections (a)(2)(A), (a)(2)(B), and (a)(4) of this section; and

"(2) whether an officer is board certified for purposes of subsection (a)(5) of this section.

"(d) Special pay payable to an officer under paragraphs (2), (3), and (5) of subsection (a) of this section shall be paid monthly. Special pay payable to an officer under subsection (a)(4) of this section shall be paid annually at the beginning of the 12-month period for which the officer is entitled to such payment.

"(e) An officer who voluntarily terminates service on active duty before the end of the period for which a payment was made to such officer under subsection (a)(4) of this section shall refund to the United States an amount which bears the same ratio to the amount paid to such officer as the unserved part of such period bears to the total period for which the payment was made.

"(f) A discharge in bankruptcy under title 11 shall not release a person from an obligation to reimburse the United States required under the terms of an agreement described in subsection (b) of this section if the final decree of the discharge in bankruptcy was issued within a period of five years after the last day of a period which such person had agreed to serve on active duty. This subsection applies to a discharge in bankruptcy in any proceeding which begins after September 30, 1985.

"(g) For purposes of this section, creditable service of an officer is computed by adding—

"(1) all periods which the officer spent in dental internship or residency training during which the officer was not on active duty; and

"(2) all periods of active service in the Dental Corps of the Army or Navy, as an officer of the Air Force designated as a dental officer, or as a dental officer of the Public Health Service.".

(b) REPEAL OF CONTINUATION PAY FOR DENTISTS.—Section 311 of such title is repealed.

(c) AUTHORITY FOR CERTAIN DENTAL OFFICERS TO EXECUTE NEW AGREEMENTS.—(1) Subject to paragraphs (2) and (3), a dental officer who on October 1, 1985, is performing obligated service under an agreement under section 311 of title 37, United States Code, that—

(A) was executed after June 29, 1985; and

(B) is affected by the limitation in section 8091 of the Department of Defense Appropriations Act, 1985 (as contained in section 101(h) of Public Law 98-473), may execute a new agreement under section 302b of such title (as amended by subsection (a)).

(2) A dental officer may not execute a new agreement under paragraph (1) unless the amount that may be paid such officer under an agreement under section 302b of title 37, United States Code (as amended by subsection (a)), is greater than the amount to be paid the officer under the existing agreement of the officer under section 311 of such title.

(3) In executing a written agreement under paragraph (1), the officer shall agree to remain on active duty for an additional length of time equal to or exceeding the length of time originally required by the existing agreement, beginning on the date the officer accepts the award of special pay under the new agreement.

(4) If a new agreement is executed under this subsection, the existing agreement of the officer shall be canceled.

(5) For the purposes of this section, the term "dental officer" has the meaning given that term in section 101 of title 10, United States Code.

(d) SAVE PAY.—(1) An officer described in paragraph (2) who, after September 30, 1985, is entitled to special pay under section 302b of title 37, United States Code (as amended by subsection (a)), shall be entitled to such pay in an annual amount that is not less than the total annual amount of dental continuation pay under section 311 of title 37, United States Code, and special pay for dental officers under section 302b of that title to which that officer was entitled on September 30, 1985.

(2) Paragraph (1) applies to an officer who on September 30, 1985, is entitled to dental continuation pay under section 311 of title 37, United States Code, or to special pay for dental officers under section 302b of that title.

(e) CLERICAL AMENDMENTS.—The table of sections at the beginning of chapter 5 of such title is amended—

(1) by striking out the item relating to section 302b and inserting in lieu thereof the following:

"302b. Special pay: dental officers of the armed forces."; and

(2) by striking out the item relating to section 311.

(f) EFFECTIVE DATE.—The amendments made by this section take effect on October 1, 1985.

SEC. 640. SPECIAL PAY FOR MEDICAL OFFICERS

Section 302 of title 37, United States Code, is amended—

(1) by striking out "is not" in subsection (h)(1)(B) and inserting in lieu thereof "who is"; and

(2) by adding at the end thereof the following new subsection:

"(i) A discharge in bankruptcy under title 11 that is entered less than 5 years after the termination of an agreement under this section does not discharge the person signing such agreement from a debt arising under such agreement or under paragraph (1) of this subsection. This paragraph applies to any case commenced under title 11 after September 30, 1985.".

SEC. 641. SPECIAL PAY FOR QUALIFIED ENLISTED MEMBERS EXTENDING DUTY AT CERTAIN LOCATIONS OVERSEAS

(a) INCREASE IN RATE OF MONTHLY SPECIAL PAY.—Section 314(a) of title 37, United States Code, is amended by striking out "$50" and inserting in lieu thereof "$80".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on October 1, 1985.

Subpart 2—Reserve Forces

SEC. 642. SELECTED RESERVE ENLISTMENT BONUS

Section 308c of title 37, United States Code, is amended by striking out "September 30, 1985" in subsection (f) and inserting in lieu thereof "September 30, 1987".

SEC. 643. SELECTED RESERVE REENLISTMENT BONUS

(a) INCREASE IN RATES; TWO-YEAR EXTENSION.—Section 308b of title 37, United States Code, is amended—

(1) in subsection (b)—

(A) by striking out "$450" and "$900" in paragraph (1) and inserting in lieu thereof "$1,250" and "$2,500", respectively; and

(B) by striking out "$150" in paragraph (2) and inserting in lieu thereof "$416.66";

(2) by striking out "$25" in subsection (d)(2) and inserting in lieu thereof "$69.44"; and

(3) by striking out "September 30, 1985" in subsection (g) and inserting in lieu thereof "September 30, 1987".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on October 1, 1985.

SEC. 644. SELECTED RESERVE ENLISTMENT BONUS FOR PRIOR-SERVICE PERSONNEL

(a) IN GENERAL.—(1) Chapter 5 of title 37, United States Code, is amended by inserting after section 308h the following new section:

"§ 308i. Special pay: prior service enlistment bonus

"(a)(1) A person who is a former enlisted member of an armed force who enlists in the Selected Reserve of the Ready Reserve of an armed force for a period of three or six years in a critical military skill designated for such a bonus by the Secretary concerned and who meets the requirements of paragraph (2) may be paid a bonus as prescribed in subsection (b).

"(2) A bonus may only be paid under this section to a person who—

"(A) has completed his military service obligation but has less than 10 years of total military service;

"(B) has received an honorable discharge at the conclusion of military service;

"(C) is not being released from active service for the purpose of enlistment in a reserve component; and

"(D) has not previously been paid a bonus for enlistment, reenlistment, or extension of enlistment in a reserve component.

"(b) The bonus to be paid under subsection (a) shall be—

"(1) an initial payment of—

"(A) an amount not to exceed $1,250, in the case of a member who enlists for a period of three years; or

"(B) an amount not to exceed $2,500 in the case of a member who enlists for a period of six years; and

"(2) a subsequent payment of an amount not to exceed $416.66 upon the completion of each year of the period of such reenlistment or extension of enlistment during which such member has satisfactorily participated in unit training.

"(c) A member may not be paid more than one bonus under this section.

"(d) A person who receives a bonus payment under this section and who fails during the period for which the bonus was paid to serve satisfactorily in the element of the Selected Reserve of the Ready Reserve with respect to which the bonus was paid shall refund to the United States an amount that bears the same relation to the amount of the bonus paid to such person as the period that such person failed to serve satisfactorily bears to the total period for which the bonus was paid.

"(e) An obligation to reimburse the United States imposed under subsection (d) of this section is, for all purposes, a debt owed to the United States.

"(f) Under regulations prescribed pursuant to subsection (h) of this section, the Secretary concerned may remit or cancel the whole or any part of an obligation to reimburse the United States imposed under subsection (d) of this section.

"(g) A discharge in bankruptcy under title 11 that is entered less than five years after the termination of an enlistment for which a bonus was paid under this section shall not discharge the person receiving such bonus payment from the debt arising under subsection (d) of this section. This subsection applies to any case commenced under title 11 after September 30, 1985.

"(h) This section shall be administered under regulations prescribed by the Secretary of Defense for the armed forces under his jurisdiction and by the Secretary of Transportation for the Coast Guard when the Coast Guard is not operating as a service in the Navy.

"(i) No bonus may be paid under this section to any person for an enlistment after September 30, 1987.".

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 308h the following new item:

"308i. Special pay: prior service enlistment bonus.".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on October 1, 1985.

SEC. 645. SELECTED RESERVE AFFILIATION BONUS

(a) INCREASE AND EXTENSION.—Section 308e of title 37, United States Code, is amended—

(1) by striking out "$25" in subsection (c)(1) and inserting in lieu thereof "up to $50 as determined by the Secretary concerned"; and

(2) by striking out "September 30, 1985" in subsection (e) and inserting in lieu thereof "September 30, 1987".

(b) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1985.

SEC. 646. INDIVIDUAL READY RESERVE BONUSES

(a) TWO-YEAR EXTENSION OF REENLISTMENT AND ENLISTMENT BONUSES.—(1) Sections 308g(h) and 308h(g) of such title are amended by striking out "September 30, 1985" and inserting in lieu thereof "September 30, 1987".

(b) ENHANCED IRR BONUS FOR PERSONS WITH CRITICAL SKILLS.—(1) Subsection (a)(1) of section 308h of title 37, United States Code, is amended by striking out "for a period of not less than three years" and inserting in lieu thereof "for a period of three years, or for a period of six years,".

(2) Subsection (b) of such section is amended—

(A) by inserting "(1)" after "(b)";

(B) by striking out ", except that" and all that follows and inserting in lieu thereof a period; and

(C) by adding at the end thereof the following new paragraphs:

"(2) The amount of a bonus under this section—

"(A) may not exceed $1,500, in the case of a person who enlists for a period of six years; and

"(B) may not exceed $750 in the case of a person who enlists for a period of three years.

"(3) A bonus paid under this section shall be paid as follows:

"(A) In the case of a bonus under paragraph (2)(A) of this subsection—

"(i) $500 shall be paid at the time of the reenlistment, enlistment, or extension of enlistment for which the bonus is paid; and

"(ii) the remainder shall be paid in equal annual increments.

"(B) In the case of a bonus under paragraph (2)(B) of this subsection, the amount of the bonus shall be paid in equal annual increments.".

(c) AUTHORITY TO REQUIRE MUSTER OR DRILL FOR ENHANCED BONUS.—Subsection (f) of such section is amended—

(1) by inserting "(1)" after "(f)"; and

(2) by adding at the end thereof the following new paragraph:

"(2) Regulations under this section may require that as a condition of receiving a bonus under this section the person receiving the bonus agree to participate in an annual muster of the Reserves, or in active duty for training, as may be required by the Secretary concerned.".

(d) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1985.

SEC. 647. SELECTED RESERVE HAZARDOUS DUTY INCENTIVE PAY

(a) MODIFICATION OF COMPUTATION OF HAZARDOUS DUTY PAY FOR RESERVES.—Section 301(f) of title 37, United States Code, relating to incentive pay for hazardous duty, is amended—

(1) by inserting "(1)" after "(f)";

(2) by inserting "for the entire month" before the period at the end; and

(3) by adding at the end thereof the following new paragraph:

"(2)(A) If in any calendar month a member performs duty as described in paragraph (1) of this subsection and while entitled to basic pay also performs hazardous duty as described in the same clause of subsection (a) as constitutes the predicate for his entitlement under paragraph (1) of this subsection, the earned units of measuring entitlement for incentive pay under this section shall be combined. If the sum of units determined under the preceding sentence equals or exceeds the minimum standard prescribed by the President for entitlement to pay specified under subsections (b) and (c) of this section for a member of corresponding grade who is entitled to basic pay for the entire relevant month, the member shall be entitled to an increase in compensation equal to 1/30 of the monthly incentive pay authorized by subsection (b) or (c) of this section for the performance of that hazardous duty by a member of corresponding grade who is entitled to basic pay for the entire month.

"(B) A member who qualifies for entitlement under this paragraph is entitled to the increase for each day in the relevant month in which he is entitled to basic pay pursuant to section 204 of this title or to compensation under section 206 of this title.

"(C) In this paragraph, 'units' means the significant increments of performance prescribed as qualifying standards in regulations promulgated by the President pursuant to this section.".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply to payments of incentive pay for hazardous duty performed after September 30, 1985.

PART D—HEALTH-CARE MATTERS

SEC. 651. CHAMPUS DENTAL CARE FOR ACTIVE-DUTY DEPENDENTS

(a) DENTAL BENEFITS FOR DEPENDENTS OF ACTIVE-DUTY MEMBERS.—(1) Chapter 55 of title 10, United States Code, is amended by inserting after section 1076 the following new section:

"§ 1076a. Dependents' dental program

"(a)(1) The Secretary of Defense may establish dental benefit plans for spouses and children (as described in section 1072(2)(D) of this title) of members of the uniformed services who are on active duty for a period of more than 30 days. Any plan under this section shall provide for voluntary enrollment of participants and shall include provisions for premium-sharing between the Department of Defense and members enrolling in the program.

"(2) A plan under this section shall be administered under regulations prescribed by the Secretary of Defense in consultation with the other administering Secretaries.

"(b)(1) Members enrolling in a dental benefit plan established under subsection (a) shall be required to pay a share of the member's premium.

"(2) The Secretary of Defense shall establish the amount of the premium to be paid by a member enrolled in a plan under this section.

"(c) A member's share of the premium for a plan established under subsection (a) shall be paid by deductions from the basic pay of the member.

"(d) The dental benefits provided under such a plan may not include a benefit other than—

"(1) diagnostic, oral examination, and preventive services and palliative emergency care; and

"(2) basic restorative services of amalgam and composite restorations and stainless steel crowns for primary teeth, and dental appliance repairs.

"(e) Any such plan shall provide that a member whose spouse or child receives care under a plan established under this section—

"(1) may not be required to pay for any charge for care described in subsection (d)(1); and

"(2) shall be required to pay 20 percent of the charges for care described in subsection (d)(2).

"(f) If a member who is enrolled in a plan established under this section is transferred to a duty station where dental care is provided to the member's spouse or children under a program other than a plan established under this section, the member may discontinue participation under the plan established under this section. If the member is later transferred to a station where dental care is not provided to such member's spouse or children except under a plan established under this section, the member may re-enroll in such a plan.

"(g) The authority of the Secretary of Defense to enter into a contract under this section for any fiscal year is subject to the availability of appropriations for that purpose.".

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 1076 the following new item:

"1076a. Dependents' dental program.".

(b) CONFORMING AMENDMENT.—Section 1077 of such title is amended by adding at the end thereof the following new subsection:

"(c) A dependent participating under a dental plan established under section 1076a of this title may not be provided dental care under section 1076(a) of this title except for emergency dental care and care that is not covered by such plan.".

(c) EFFECTIVE DATE.—The Secretary of Defense may not enter into a contract under section 1076a of title 10, United States Code, as added by subsection (a), or otherwise obligate funds under that section before September 30, 1986.

SEC. 652. ENHANCED HEALTH-CARE BENEFITS FOR SURVIVORS OF CERTAIN RESERVISTS

(a) MEDICAL AND DENTAL CARE IN FACILITIES OF THE UNIFORMED SERVICES.—Section 1076(a) of title 10, United States Code, is amended to read as follows:

"(a)(1) A dependent described in paragraph (2) is entitled, upon request, to the medical and dental care prescribed by section 1077 of this title in facilities of the uniformed services, subject to the availability of space and facilities and the capabilities of the medical and dental staff.

"(2) A dependent referred to in paragraph (1) is a dependent of a member of a uniformed service—

"(A) who is on active duty for a period of more than 30 days or who died while on that duty; or

"(B) who died from an injury or illness incurred or aggravated—

"(i) while on active duty under a call or order to active duty of 30 days or less, on active duty for training, or on inactive duty training; or

"(ii) while traveling to or from the place at which the member is to perform, or has performed, such active duty, active duty for training, or inactive duty training.".

(b) CHAMPUS CARE.—Section 1086(c)(2) of such title is amended to read as follows:

"(2) A dependent (other than a dependent covered by section 1072(2)(E) of this title) of a member of a uniformed service—

"(A) who died while on active duty for a period of more than 30 days; or

"(B) who died from an injury or illness incurred or aggravated—

"(i) while on active duty under a call or order to active duty of 30 days or less, on active duty for training, or on inactive duty training; or

"(ii) while traveling to or from the place at which the member is to perform, or has performed, such active duty, active duty for training, or inactive duty training.".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply only with respect to dependents of members of the uniformed services whose deaths occur after September 30, 1985.

SEC. 653. LICENSURE REQUIREMENT FOR DEFENSE HEALTH-CARE PROFESSIONALS

(a) IN GENERAL.—(1) Chapter 55 of title 10, United States Code, is amended by adding at the end thereof the following new section:

"§1094. Licensure requirement for health-care professionals

"(a)(1) A person under the jurisdiction of the Secretary of a military department may not provide health care independently as a health-care professional under this chapter unless the person has a current license to provide such care.

"(2) The Secretary of Defense may waive paragraph (1) with respect to any person in unusual circumstances. The Secretary shall prescribe by regulation the circumstances under which such a waiver may be granted.

"(b) The commanding officer of each health care facility of the Department of Defense shall ensure that each person who provides health care independently as a health-care professional at the facility meets the requirement of subsection (a).

"(c)(1) A person (other than a person subject to chapter 47 of this title) who provides health care in violation of subsection (a) is subject to a civil money penalty of not more than $5,000.

"(2) The provisions of subsections (b) and (d) through (g) of section 1128A of the Social Security Act (42 U.S.C. 1320a-7a) shall apply to the imposition of a civil money penalty under paragraph (1) in the same manner as they apply to the imposition of a civil money penalty under that section, except that for purposes of this subsection—

"(A) a reference to the Secretary in that section is deemed a reference to the Secretary of Defense; and

"(B) a reference to a claimant in subsection (e) of that section is deemed a reference to the person described in paragraph (1).

"(d) In this section:

"(1) 'License'—

"(A) means a grant of permission by an official agency of a State, the District of Columbia, or a Commonwealth, territory, or possession of the United States to provide health care independently as a health-care professional; and

"(B) includes, in the case of such care furnished in a foreign country by any person who is not a national of the United States, a grant of permission by an official agency of that foreign country for that person to provide health care independently as a health-care professional.

"(2) 'Health-care professional' means a physician, dentist, clinical psychologist, or nurse and any other person providing direct patient care as may be designated by the Secretary of Defense in regulations.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end thereof the following new item:

"1094. Licensure requirement for health-care professionals.".

(b) TRANSITION.—Section 1094 of title 10, United States Code, as added by subsection (a), does not apply during the three-year period beginning on the date of the enactment of this Act with respect to the provision of health care by any person who on the date of the enactment of this Act is a member of the Armed Forces.

SEC. 654. STUDY OF MEDICAL CASUALTY INVESTIGATIONS

(a) IN GENERAL.—The Secretary of Defense shall study the procedures used by the military departments for medical casualty investigations relating to members of the Armed Forces who die or are seriously injured while on active duty.

(b) SCOPE OF STUDY.—The study by the Secretary under subsection (a) shall include consideration of the following:

(1) The need, and appropriate standards, for uniform policies of the military departments with respect to autopsies of members of the Armed Forces who die while on active duty, taking into account religious sensibilities of members and their families.

(2) The need, and appropriate standards, for a policy of the Department of Defense with respect to independent review of autopsies, and other aspects of medical casualty investigations, conducted by the Armed Forces, including the appropriate role of the Armed Forces Institute of Pathology.

(3) Appropriate policies and procedures for retaining, in safekeeping, all medical investigative materials (including photographs, specimens, slide and other records of any autopsy) and, to the extent not inconsistent with national security, making such materials available to survivors of members of the Armed Forces who die while on active duty.

(4) The desirability of establishing an independent board of medical examination in the Department of Defense, to consist of five or more practitioners of medicine who are recognized experts in the investigation of causes of death, with the function of advising the Secretary of Defense on the operation of the Armed Forces Institute of Pathology and on the reliability and independence of the Institute's investigations of military casualties.

(c) REPORT.—(1) The Secretary of Defense shall submit to Congress a report on the results of the study under subsection (a). The report shall include—

(A) the Secretary's findings and recommendations;

(B) an analysis and description of all actions taken by the Department of Defense to implement any such recommendation; and

(C) the Secretary's recommendations with respect to any legislation needed to implement any such recommendation.

(2) The report shall be submitted not later than one year after the date of the enactment of this Act.

PART E—MILITARY RETIREMENT

SEC. 666. LIMITATION ON AMOUNTS AVAILABLE FOR OBLIGATION FOR BASIC PAY AND FOR RETIRED PAY ACCRUAL CHARGE

From amounts appropriated or otherwise available to the Department of Defense for military personnel accounts for fiscal year 1986, the total amount obligated from each such account for military basic pay and payments into the Department of Defense Military Retirement Fund pursuant to section 1466(a) of title 10, United States Code, may not exceed the following:

(1) For the Department of the Army—

(A) for payments from the appropriation account "Military Personnel, Army", $15,951,800,000;

(B) for payments from the appropriation account "Reserve Personnel, Army", $1,595,500,000; and

(C) for payments from the appropriation account "National Guard Personnel, Army", $2,503,600,000.

(2) For the Department of the Navy—

(A) for payments from the appropriation account "Military Personnel, Navy", $11,689,900,000;

(B) for payments from the appropriation account "Military Personnel, Marine Corps", $3,659,600,000;

(C) for payments from the appropriation account "Reserve Personnel, Navy", $939,300,000; and

(D) for payments from the appropriation account "Reserve Personnel, Marine Corps", $202,200,000.

(3) For the Department of the Air Force—

(A) for payments from the appropriation account "Military Personnel, Air Force", $13,533,500,000;

(B) for payments from the appropriation account "Reserve Personnel, Air Force", $437,300,000; and

(C) for payments from the appropriation account "National Guard Personnel, Air Force", $754,500,000.

SEC. 667. LEGISLATIVE PROPOSAL TO AMEND MILITARY RETIREMENT SYSTEM FOR NEW ENTRANTS

(a) REQUIREMENT FOR SUBMISSION OF LEGISLATIVE PROPOSAL MAKING CHANGES IN MILITARY RETIREMENT SYSTEM.—(1) Not later than September 15, 1985, the Secretary of Defense shall submit to Congress a report (including draft legislation) proposing two separate sets of changes in the military nondisability retirement system.

(2)(A) Each of the sets of changes to be proposed in the report under paragraph (1) shall include changes which, if enacted, would result in reductions in the amount required to be paid by the Secretary of Defense into the Department of Defense Military Retirement Fund pursuant to section 1466(a) of title 10, United States Code, during fiscal year 1986 in a total amount that would enable the Department of Defense to remain within the limits on obligations for basic pay and payments into such Fund prescribed by section 666 solely through such reductions.

(B) One of the sets of changes to be proposed in such report shall consist only of changes in the military retirement system other than changes in the procedure for periodic cost-of-living adjustments in retired or retainer pay which, if enacted, would result in the required reductions.

(3) Structural changes in the military retirement system to be proposed by the Secretary of Defense in either set of changes proposed in the report under paragraph (1)—

(A) should apply only to individuals who initially become members of the Armed Forces after the effective date of such changes; and

(B) should, to the maximum extent possible and consistent with military requirements, encourage members who are eligible for retirement to remain on active duty beyond 20 years of service.

(4) At the same time the Secretary of Defense submits the report required by paragraph (1), the Secretary shall submit separate reports on the following:

(A) The anticipated effects that the changes proposed in the report under paragraph (1) would have on recruiting and retention in the Armed Forces.

(B) Proposed or additional changes in other elements of the military compensation system or in other military personnel programs, including changes in promotion and retention policies.

(C) A description of the changes in military retirement, compensation, or personnel programs that would be necessary if the reductions resulting from the funding limitations set forth in section 666 were $1,800,000,000, $2,900,000,000, $3,600,000,000, $4,000,000,000, or $5,400,000,000, as well as an evaluation of the effects such changes would have on recruiting and retention in the Armed Forces.

(D) A plan that could be used to implement over a period of four or more years the changes proposed in the report under paragraph (1).

(b) SPECIFICATION OF ACTUARIAL METHODS AND ASSUMPTIONS FOR FY86 RETIREMENT LEGISLATION.—In determining the cost, or the amount to be saved, as the result of the enactment of any legislative proposal that would make changes in the military retirement system effective during fiscal year 1985 or 1986, the actuarial methods and assumptions used shall be the same as those approved by the Board of Actuaries (in accordance with section 1465(d) of title 10, United States Code) for use in calculating the military retirement accrual percentage for the President's budget for fiscal year 1986.

(c) RECALCULATION OF ACCRUAL PERCENTAGE UPON CHANGE IN BENEFITS.—(1) If a significant change in the military retirement system is enacted into law that takes effect during fiscal year 1985 or 1986, the accrual percentage shall be recalculated taking into account that change in law. Any such recalculation shall be made using the actuarial methods and assumptions described in subsection (b).

(2) In making determinations under section 1466(a) of title 10, United States Code, for months during fiscal years 1985 and 1986 beginning on or after the effective date of any such change in law, the accrual percentage as recalculated under paragraph (1) shall be used in lieu of the accrual percentage that would otherwise be applicable.

(d) DEFINITION OF ACCRUAL PERCENTAGE.—For purposes of this section, the term "accrual percentage" means the single level percentage of basic pay determined under section 1465(c)(1) of title 10, United States Code, for the purposes of computations under sections 1465(b) and 1466(a) of that title.

PART F—EDUCATIONAL ASSISTANCE PROGRAMS

SEC. 671. DEPARTMENT OF DEFENSE EDUCATIONAL LOAN REPAYMENT PROGRAMS

(a) CODIFICATION OF SECTION 902 PROGRAM.—(1) Part III of subtitle A of title 10, United States Code, is amended by adding at the end thereof the following new chapter:

"CHAPTER 109—EDUCATIONAL LOAN REPAYMENT PROGRAMS

"Sec.
"2171. General educational loan repayment program.
"2172. Education loans for certain health professionals who serve in the Selected Reserve.

"§ 2171. General educational loan repayment program

"(a)(1) Subject to the provisions of this section, the Secretary of Defense may repay—

"(A) any loan made, insured, or guaranteed under part B of title IV of the Higher Education Act of 1965 (20 U.S.C. 1071 et seq.); or

"(B) or any loan made under part E of such title (20 U.S.C. 1087aa et seq.).

Repayment of any such loan shall be made on the basis of each complete year of service performed by the borrower.

"(2) The Secretary may repay loans described in paragraph (1) in the case of any person for—

"(A) service performed—

"(i) as an enlisted member of the Selected Reserve of the Ready Reserve of an armed force; and

"(ii) in a reserve component and military specialty specified by the Secretary of Defense; or

"(B) service performed on active duty as an enlisted member in a military specialty specified by the Secretary.

In the case of service described in clause (A) of the first sentence of this paragraph, the Secretary may repay a loan described in paragraph (1) only if the person to whom the loan was made performed such service after the loan was made.

"(b) The portion or amount of a loan that may be repaid under subsection (a) is—

"(1) 15 percent or $500, whichever is greater, for each year of service, in the case of service described in subsection (a)(2)(A); or

"(2) 33⅓ percent or $1,500, whichever is greater, for each year of service, in the case of service described in subsection (a)(2)(B).

"(c) If a portion of a loan is repaid under this section for any year, interest on the remainder of such loan shall accrue and be paid in the same manner as is otherwise required.

"(d) Nothing in this section shall be construed to authorize refunding any repayment of a loan.

"(e) Any individual who transfers from service described in clause (A) or (B) of subsection (a)(2) to service described in the other clause of such subsection during a year shall be eligible to have repaid a portion of such loan determined by giving appropriate fractional credit for each portion of the year so served, in accordance with regulations of the Secretary concerned.

"(f) The Secretary of Defense shall, by regulation, prescribe a schedule for the allocation of funds made available to carry out the provisions of this section during any year for which funds are not sufficient to pay the sum of the amounts eligible for repayment under subsection (a).

"§ 2172. Education loans for certain health professionals who serve in the Selected Reserve

"(a) Under regulations prescribed by the Secretary of Defense and subject to the other provisions of this section, the Secretary concerned may repay—

"(1) a portion of a loan made, insured, or guaranteed under part B of title IV of the Higher Education Act of 1965 (20 U.S.C. 1071 et seq.);

"(2) a loan made under part E of such title (20 U.S.C. 1087aa et seq.) after October 1, 1975; and

"(3) a health education assistance loan made or insured under part C of title VII of the Public Health Service Act (42 U.S.C. 294 et seq.).

"(b) The Secretary concerned may repay loans described in subsection (a) only in the case of a person who—

"(1) performs satisfactory service as an officer in the Selected Reserve of an armed force; and

"(2) possesses professional qualifications in a health profession that the Secretary of Defense has determined to be needed criti-

cally in order to meet identified wartime combat medical skill shortages.

"(c)(1) The amount of any repayment of a loan made under this section on behalf of any person shall be determined on the basis of each complete year of service that is described in subsection (b)(1) and performed by the person after the date on which the loan was made.

"(2) Subject to paragraph (3), the portion of a loan that may be repaid under this section on behalf of any person may not exceed $3,000 for each year of service described in paragraph (1).

"(3) The total amount that may be repaid on behalf of any person under this section may not exceed $20,000.

"(d) The authority provided in this section shall apply only in the case of a person first appointed as a commissioned officer before October 1, 1988.".

(2) The tables of chapters at the beginning of subtitle A of such title and at the beginning of part III of such subtitle are amended by inserting after the item relating to chapter 108 the following new item:

"109. Educational Loan Repayment Programs..... 2171".

(3) Section 902 of the Department of Defense Authorization Act, 1981 (10 U.S.C. 2141 note), is repealed.

(b) PERSONS TO WHOM APPLICABLE.—(1) The authority provided under section 2171 of title 10, United States Code, as added by subsection (a), shall apply only—

(A) in the case of persons who enlist or reenlist in the Selected Reserve of the Ready Reserve of an Armed Force or enlist or reenlist for service on active duty after September 30, 1980;

(B) with respect to service performed after that date; and

(C) with respect to loans made after October 1, 1975.

(2) The authority provided under section 2172 of title 10, United States Code, as added by subsection (a), shall apply only—

(A) in the case of a person who is first appointed as a commissioned officer of an Armed Force after September 30, 1985; and

(B) with respect to service performed after that date.

SEC. 672. SPECIALIZED TRAINING ASSISTANCE IN THE HEALTH PROFESSION FOR MEMBERS OF RESERVE COMPONENTS

(a) AUTHORIZATION OF PROGRAM.—The Secretary of each military department, under regulations prescribed by the Secretary of Defense, may establish and maintain a program to provide financial assistance to persons engaged in specialized training in the health professions.

(b) ELIGIBILITY REQUIREMENTS.—To be eligible for financial assistance under this section, a person must be—

(1) a commissioned officer in the Selected Reserve of a reserve component of the Armed Forces; and

(2) engaged in a course of specialized training (approved by the Secretary of the military department concerned) in a health profession.

(c) AMOUNT OF ASSISTANCE.—A person participating in the program provided for under this section shall be entitled to a monthly stipend at the rate paid, on October 1, 1985, to persons participating in the Armed Forces Health Professions Scholarship Program under chapter 105 of title 10, United States Code. That rate shall be increased annually by the Secretary of Defense effective on July 1 of each year by an amount (rounded to the next highest multiple of $1) equal to—

(1) the amount of such stipend (as previously adjusted (if at all)), multiplied by

(2) the overall precentage of the adjustment (if such adjustment is an increase) in the rates of basic pay for members of the uniformed services made effective for the fiscal year in which the school year ends.

(d) QUALIFICATIONS.—To be eligible for participation in the program provided for in this section, a person must be a citizen of the United States and must—

(1) be qualified in a health profession as required in regulations prescribed by the Secretary of Defense;

(2) sign an agreement that, unless sooner separated, the participant will—

(A) complete the specialized program of training approved by the Secretary of the military department concerned; and

(B) meet such other requirements as the Secretary concerned may prescribe.

(e) SELECTED RESERVE OBLIGATION.—A member who participates in a program provided for under this section incurs a Selected Reserve obligation of three years for each year or part thereof for which financial assistance is provided under this section.

(f) FAILURE TO COMPLETE PROGRAM OF TRAINING.—(1) A member of the program who, under regulations prescribed by the Secretary of Defense, is dropped from the program for deficiency in training, or for other reasons, shall be required, at the discretion of the Secretary concerned—

(A) to perform one year of active duty for each year (or part thereof) for which such person was provided financial assistance under this section; or

(B) repay the United States an amount equal to the total amount paid to such person under the program.

(2) The Secretary of a military department, under regulations prescribed by the Secretary of Defense, may relieve a member participating in the program who is dropped from the program from any requirement that may be imposed under paragraph (1), but such relief shall not relieve him from any military obligation imposed by any other law.

(g) LIMITATIONS ON NUMBER OF PARTICIPANTS.—The number of persons who may be provided financial assistance under this section at any one time, when added to the total number of persons who are participating in the scholarship program provided for under chapter 105 of title 10, United States Code, at any time, may not exceed 6,000.

(h) DEFINITION.—For the purposes of this section, the term "specialized course of training" means a course of advanced training—

(1) in a health profession; and

(2) designated by the Secretary of the military department concerned to be training in a health profession skill critically needed by the military department concerned.

(i) CHANGE IN NUMBER OF PERSONS AUTHORIZED TO RECEIVE FINANCIAL ASSISTANCE.—Section 2124 of title 10, United States Code, is amended by striking out "5,000" and inserting in lieu thereof "6,000".

(j) EFFECTIVE DATE.—This section shall take effect on October 1, 1985.

SEC. 673. RIGHT OF MEMBERS OF NAVAL SERVICE TO TRANSFER CERTAIN EDUCATIONAL ENTITLEMENT TO SPOUSE OR DEPENDENT CHILDREN

Section 2147(a)(1) of title 10, United States Code, is amended—

(1) by inserting "(A)" after "(a)(1)";

(2) by striking out the second sentence; and

(3) by adding at the end thereof the following:

"(B) The Secretary of the Navy may authorize a member of the Navy or Marine Corps who is entitled to educational assistance under section 2142 of this title and whose enlistment that established such entitlement was the member's second reenlistment as a member of the armed forces to transfer all or part of such entitlement to the spouse or dependent child of such member after the completion of four years of active service of that second reenlistment if that reenlistment was for a period of at least six years.

"(C) A transfer under this paragraph may be revoked at any time by the person making the transfer.".

SEC. 674. CHANGES IN ELIGIBILITY REQUIREMENTS FOR THE ALL-VOLUNTEER FORCE EDUCATIONAL ASSISTANCE PROGRAM.

Chapter 30 of title 38, United States Code, is amended—

(1) in section 1411(a)(1)(B), by striking out "and without a break in service on active duty since December 31, 1976,"; and

(2) in section 1412(a)(1)(B) by striking out "and without a break in service on active duty since December 31, 1976,".

PART G—MISCELLANEOUS

SEC. 681. LEGAL REPRESENTATION OF CIVILIANS OVERSEAS

(a) IN GENERAL.—Section 1037(a) of title 10, United States Code, is amended by striking out the period at the end of the first sentence and inserting in lieu thereof "and of persons not subject to the Uniform Code of Military Justice who are employed by or accompanying the armed forces in an area outside the United States and the territories and possessions of the United States, the Northern Mariana Islands, and the Commonwealth of Puerto Rico.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply with respect to costs incurred after September 30, 1985.

SEC. 682. ACCRUED LEAVE

Section 501 of title 37, United States Code, is amended by striking out "September 1, 1976" in subsections (b)(3) and (f) and inserting in lieu thereof "February 9, 1976".

SEC. 683. PAY ALLOTMENTS FOR NAVY AND MARINE CORPS

(a) STANDARDIZATION OF NAVAL SERVICE PAY ALLOTMENTS WITH ARMY AND AIR FORCE.—(1) Section 701 of title 37, United States Code, is amended—

(A) by striking out "of the Army or the Air Force" in subsections (a), (c), and (d)(1) and inserting in lieu thereof "of the Army, Navy, Air Force, or Marine Corps";

(B) by striking out "of the Army or the Air Force" in subsections (b) and (d)(2) and inserting in lieu thereof "of the Army, Navy, or Air Force"; and

(C) by striking out "Secretary of the Army or the Secretary of the Air Force, as the case may be" in subsections (a) and (d) and inserting in lieu thereof "Secretary of the military department concerned".

(2) The heading of such section is amended to read as follows:

"§ 701. Members of the Army, Navy, Air Force, and Marine Corps; contract surgeons".

(3) The item relating to such section in the table of sections in the beginning of chapter 13 of such title is amended to read as follows:

"701. Members of the Army, Navy, Air Force, and Marine Corps; contract surgeons.".

(b) CONFORMING AMENDMENTS.—(1) Sections 702, 705, and 805 of such title are repealed.

(2) The table of sections at the beginning of chapter 13 of such title is amended by striking out the items relating to sections 702 and 705.

(3) The table of sections at the beginning of chapter 15 of such title is amended by striking out the item relating to section 805.

SEC. 684. EXTENSION TO PHS AND NOAA OF AUTHORITY TO COLLECT DEBTS FROM PAY OF MEMBERS

Section 1007(c) of title 37, United States Code, is amended by striking out "armed forces" and inserting in lieu thereof "uniformed services".

SEC. 685. SURCHARGE FOR SALES AT ANIMAL DISEASE PREVENTION AND CONTROL CENTERS

(a) REQUIRED SURCHARGE.—The Secretary of Defense shall require that each time a sale is recorded at a military animal disease prevention and control center the person to whom the sale is made shall be charged a surcharge of $2.

(b) DEPOSIT OF RECEIPTS IN TREASURY.—Amounts received from surcharges under this section shall be deposited in the Treasury in accordance with section 3302 of title 31.

(c) CONFORMING AMENDMENT.—Section 1033 of the Department of Defense Authorization Act, 1984 (Public Law 98-94; 97 Stat. 672), is repealed.

(d) EFFECTIVE DATE.—This section shall take effect on October 1, 1985.

TITLE VII—SURVIVOR BENEFIT PLAN IMPROVEMENTS

SEC. 701. SHORT TITLE

This title may be cited as the "Survivor Benefit Plan Amendments of 1985".

PART A—GENERAL PROGRAM CHANGES

SEC. 711. ESTABLISHMENT OF TWO-TIER BENEFIT SYSTEM AND ELIMINATION OF SOCIAL SECURITY OFFSET

(a) REVISION IN SBP ANNUITY COMPUTATION.—Section 1451 of title 10, United States Code, is amended to read as follows:

"§ 1451. Amount of annuity

"(a)(1) In the case of a standard annuity provided to a beneficiary under section 1450(a) of this title (other than under section 1450(a)(4)), the monthly annuity payable to the beneficiary shall be determined as follows:

"(A) If the beneficiary is under 62 years of age when becoming entitled to the annuity, the monthly annuity shall be the amount equal to 55 percent of the base amount (as the base amount is adjusted from time to time under subsection 1401a of this title).

"(B) If the beneficiary is 62 years of age or older when becoming entitled to the annuity, the monthly annuity shall be the amount equal to 35 percent of the base amount (as the base amount is adjusted from time to time under section 1401a of this title). However, if the beneficiary is eligible to have the annuity computed under subsection (e) and if, at the time the beneficiary becomes entitled to the annuity, computation of the annuity under that subsection is more favorable to the beneficiary, the annuity shall be computed under that subsection.

"(2) In the case of a reserve-component annuity provided to a beneficiary under section 1450(a) of this title (other than under section 1450(a)(4)), the monthly annuity payable to the beneficiary shall be determined as follows:

"(A) If the beneficiary is under 62 years of age when becoming entitled to the annuity, the monthly annuity shall be the amount equal to a percentage of the base amount (as the base amount is adjusted from time to time under section 1401a of this title) that—

"(i) is less than 55 percent; and

"(ii) is determined under subsection (f).

"(B) If the beneficiary is 62 years of age or older when becoming entitled to the annuity, the monthly annuity shall be the amount equal to a percentage of the base amount (as the base amount is adjusted from time to time under section 1401a of this title) that—

"(i) is less than 35 percent; and

"(ii) is determined under subsection (f).

However, if the beneficiary is eligible to have the annuity computed under subsection (e) and if, at the time the beneficiary becomes entitled to the annuity, computation of the annuity under that subsection is more favorable to the beneficiary, the annuity shall be computed under that subsection.

"(b)(1) In the case of a standard annuity provided to a beneficiary under section 1450(a)(4) of this title, the monthly annuity payable to the beneficiary shall be the amount equal to 55 percent of the retired pay of the person who elected to provide the annuity after the reduction in that pay in accordance with section 1452(c) of this title.

"(2) In the case of a reserve-component annuity provided to a beneficiary under section 1450(a)(4) of this title, the monthly annuity payable to the beneficiary shall be the amount equal to a percentage of the retired pay of the person who elected to provide the annuity after the reduction in such pay in accordance with section 1452(c) of this title that—

"(A) is less than 55 percent; and

"(B) is determined under subsection (f)).

"(3) For the purposes of paragraph (2), a person—

"(A) who provides an annuity that is determined in accordance with that paragraph;

"(B) who dies before becoming 60 years of age; and

"(C) who at the time of death is otherwise entitled to retired pay,

shall be considered to have been entitled to retired pay at the time of death. The retired pay of such person for the purposes of such paragraph shall be computed on the basis of the rates of basic pay in effect on the date on which the annuity provided by such person is to become effective in accordance with the designation of such person under section 1448(e) of this title.

"(c)(1) In the case of an annuity provided under section 1448(d) or 1448(f) of this title, the amount of the annuity shall be determined as follows:

"(A) If the person receiving the annuity is under 62 years of age when the member or former member dies, the monthly annuity shall be the amount equal to 55 percent of the retired pay to which the member or former member would have been entitled if the member or former member had been entitled to that pay based upon his years of active service when he died.

"(B) If the person receiving the annuity is 62 years of age or older when the member or former member dies, the monthly annuity shall be the amount equal to 35 percent of the retired pay to which the member or former member would have been entitled if the member or former member had been entitled to that pay based upon his years of active service when he died. However, if the beneficiary is eligible to have the annuity computed under subsection (e) and if, at the time the beneficiary becomes entitled to the annuity, computation of the annuity under that subsection is more favorable to the beneficiary, the annuity shall be computed under that subsection.

"(2) An annuity computed under paragraph (1) that is paid to a surviving spouse shall be reduced by the amount of dependency and indemnity compensation to which the surviving spouse is entitled under section 411(a) of title 38. Any such reduction shall be effective on the date of the commencement of the period of payment of such compensation under title 38.

"(3) In the case of an annuity provided by a member described in section 1448(d)(1)(C) of this title, the retired pay to which the member would have been entitled when he died shall be determined based upon the rate of basic pay in effect at the time of death for the highest grade other than a commissioned officer grade in which the member served on active duty satisfactorily, as determined by the Secretary concerned.

"(4) In the case of an annuity paid under section 1448(f) of this title, the retired pay of the person providing the annuity shall for the purposes of paragraphs (1) and (2) be computed on the basis of the rates of basic pay in effect on the effective date of the annuity.

"(d)(1) The annuity of a person whose annuity is computed under clause (A) of subsection (a)(1), (a)(2), or (c)(1) shall be reduced on the first day of the month after the month in which the person becomes 62 years of age.

"(2)(A) Except as provided in subparagraph (B), the reduced amount of the annuity shall be the amount of the annuity that the person would be receiving on that date if the annuity had initially been computed under clause (B) of that subsection.

"(B) In the case of a person eligible to have the annuity computed under subsection (e) and for whom, at the time the person becomes 62 years of age, an annuity computed with a reduction under subsection (e)(3) is more favorable than an annuity with a reduction described in subparagraph (A), the reduction in the annuity shall be computed in the same manner as a reduction under subsection (e)(3).

"(e)(1) The following beneficiaries under the plan are eligible to have an annuity under the Plan computed under this subsection:

"(A) A beneficiary receiving an annuity under the Plan on October 1, 1985, as the widow or widower of the person providing the annuity.

"(B) A spouse beneficiary of a person who on October 1, 1985—

"(i) is a participant in the Plan;

"(ii) is entitled to retired pay or is qualified for that pay except that he has not applied for and been granted that pay; or

"(ii) would be eligible for retired pay under chapter 67 of this title but for the fact that he is under 60 years of age.

"(2) Subject to paragraph (3), an annuity computed under this subsection shall be determined as follows:

"(A) In the case of a beneficiary of a standard annuity under section 1450(a) of this title, the annuity shall be the amount equal to 55 percent of the base amount (as the base amount is adjusted from time to time under section 1401a of this title).

"(B) In the case of a beneficiary of a reserve-component annuity under section

1450(a) of this title, the annuity shall be the percentage of the base amount (as the base amount is adjusted from time to time under section 1401a of this title) that—

"(i) is less than 55 percent; and

"(ii) is determined under subsection (f).

"(C) In the case of a beneficiary of an annuity under section 1448(d) or 1448(f) of this title, the annuity shall be the amount equal to 55 percent of the retired pay of the person providing the annuity (as that pay is determined under subsection (c)).

"(3) An annuity computed under this subsection shall be reduced by the lesser of—

"(A) the amount of the survivor benefit, if any, to which the widow or widower would be entitled under title II of the Social Security Act (42 U.S.C. 401 et seq.) based solely upon service by the person concerned as described in section 210(l)(1) of such Act (42 U.S.C. 410(l)(1)) and calculated assuming that the person concerned lives to age 65; or

"(B) 40 percent of the amount of the monthly annuity as determined under paragraph (2).

"(4)(A) For the purpose of paragraph (3), a widow or widower shall not be considered as entitled to a benefit under title II of the Social Security Act (42 U.S.C. 401 et seq.) to the extent that such benefit has been offset by deductions under section 203 of such Act (42 U.S.C. 403) on account of work.

"(B) In the computation of any reduction made under paragraph (3), there shall be excluded any period of service described in section 210(l)(1) of the Social Security Act (42 U.S.C. 410(l)(1))—

"(i) which was performed after December 1, 1980; and

"(ii) which involved periods of service of less than 30 continuous days for which the person concerned is entitled to receive a refund under section 6413(c) of the Internal Revenue Code of 1954 of the social security tax which the person had paid.

"(f) The percentage to be applied in determining the amount of an annuity computed under subsection (a)(2), (b)(2), or (e)(2)(B) shall be determined under regulations prescribed by the Secretary of Defense. Such regulations shall be prescribed taking into consideration—

"(1) the age of the person electing to provide the annuity at the time of such election;

"(2) the difference in age between such person and the beneficiary of the annuity;

"(3) whether such person provided for the annuity to become effective (in the event he died before becoming 60 years of age) on the day after his death or on the 60th anniversary of his birth;

"(4) appropriate group annuity tables; and

"(5) such other factors as the Secretary considers relevant.

"(g)(1) Whenever retired pay is increased under section 1401a of this title (or any other provision of law), each annuity that is payable under the Plan shall be increased at the same time by the same total percent. The amount of the increase shall be based on the monthly annuity payable before any reduction under section 1450(c) of this title or under subsection (c)(2).

"(2) The monthly amount of an annuity payable under this subchapter, if not a multiple of $1, shall be rounded to the next lower multiple of $1.".

(b) CONFORMING AMENDMENT.—Section 641 of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2545), is repealed, effective as of September 1, 1985.

(c) OPTION FOR CERTAIN PARTICIPANTS TO WITHDRAW.—A person who during the period beginning on October 19, 1984, and ending on the date of the enactment of this Act became a participant in the Survivor Benefit Plan under subchapter II of chapter 73 of title 10, United States Code, may elect to withdraw from the Plan before the end of the one-year period beginning on the date of the enactment of this Act. Any person who makes a withdrawal shall be paid the amount of the contributions by such person under the Plan, plus interest on such amount as determined by the Secretary of Defense.

SEC. 712. SBP COVERAGE FOR MEMBERS WHO DIE AFTER 20 YEARS OF SERVICE

(a) IN GENERAL.—Section 1448(d) of title 10, United States Code, is amended to read as follows:

"(d)(1) The Secretary concerned shall pay an annuity under this subchapter to the surviving spouse of a member who dies on active duty after—

"(A) becoming eligible to receive retired pay;

"(B) qualifying for retired pay except that he has not applied for or been granted that pay; or

"(C) completing 20 years of active service but before he is eligible to retire as a commissioned officer because he has not completed 10 years of active commissioned service.

"(2) The Secretary concerned shall pay an annuity under this subchapter to the dependent child of a member described in paragraph (1) if the member and the member's spouse die as a result of a common accident.

"(3) If a member described in paragraph (1) is required under a court order or spousal agreement to provide an annuity to a former spouse upon becoming eligible to be a participant in the Plan or has made an election under subsection (b) to provide an annuity to a former spouse, the Secretary—

"(A) may not pay an annuity under paragraph (1) or (2); but

"(B) shall pay an annuity to that former spouse as if the member had been a participant in the Plan and had made an election under subsection (b) to provide an annuity to the former spouse, or in accordance with that election, as the case may be, if the Secretary receives a written request from the former spouse concerned that the election be deemed to have been made in the same manner as provided in section 1450(f)(3) of this title.

"(4) An annuity that may be provided under this subsection shall be provided in preference to an annuity that may be provided under any other provision of this subchapter on account of service of the same member.

"(5) The amount of an annuity under this subsection is computed under section 1451(c) of this title.".

(b) PERSONS COVERED.—(1) Section 1448(d) of title 10, United States Code, as amended by subsection (a), applies to the surviving spouse and dependent children of a person who dies on active duty after September 20, 1972, and the former spouse of a person who dies after September 7, 1982.

(2) In the case of the surviving spouse and children of a person who dies during the period beginning on September 21, 1972, and ending on October 1, 1985, the Secretary concerned shall take appropriate steps to locate persons eligible for an annuity under section 1448(d) of title 10, United States Code, as amended by subsection (a). Any such person must submit an application to the Secretary for such an annuity before October 1, 1988, to be eligible to receive such annuity. Any such annuity shall be effective only for months after the month in which the Secretary receives such application.

SEC. 713. ANNUITY FOR SURVIVORS OF CERTAIN RETIREMENT-ELIGIBLE RESERVISTS

(a) ELIGIBILITY.—Section 1448 of title 10, United States Code, is amended by adding at the end thereof the following new subsection:

"(f)(1) The Secretary concerned shall pay an annuity under this subchapter to the surviving spouse of a person who is eligible to provide a reserve-component annuity and who dies—

"(A) before being notified under section 1331(d) of this title that he has completed the years of service required for eligibility for retired pay under chapter 67 of this title; or

"(B) during the 90-day period beginning on the date he receives notification under section 1331(d) of this title that he has completed the years of service required for eligibility for retired pay under chapter 67 of this title if he had not made an election under subsection (a)(2)(B) to participate in the Plan.

"(2) The Secretary concerned shall pay an annuity under this subchapter to the dependent child of a person described in paragraph (1) if the person and the person's spouse die as a result of a common accident.

"(3) If a person described in paragraph (1) is required under a court order or spousal agreement to provide an annuity to a former spouse upon becoming eligible to be a participant in the Plan or has made an election under subsection (b) to provide an annuity to a former spouse, the Secretary—

"(A) may not pay an annuity under paragraph (1) or (2); but

"(B) shall pay an annuity to that former spouse as if the person had been a participant in the Plan and had made an election under subsection (b) to provide an annuity to the former spouse, or in accordance with that election, as the case may be, if the Secretary receives a written request from the former spouse concerned that the election be deemed to have been made in the same manner as provided in section 1450(f)(3) of this title.

"(4) The amount of an annuity under this subsection is computed under section 1451(c) of this title.".

(b) EFFECTIVE DATE OF ANNUITY.—Section 1450(j) of such title is amended by adding at the end thereof the following new sentence: "An annuity payable under section 1448(f) of this title shall be effective on the day after the date of the death of the person upon whose service the right to the annuity is based.".

(c) PERSONS COVERED.—(1) Section 1448(f) of title 10, United States Code, as added by subsection (a), shall apply to the surviving spouse and dependent children of any person who dies after September 30, 1978, and the former spouse of a person who dies after September 7, 1982.

(2) In the case of the surviving spouse and dependents of a person who dies during the period beginning on September 30, 1978, and ending on October 1, 1985, the Secretary concerned shall take appropriate steps to locate persons eligible for an annuity under section 1448(f) of title 10, United States Code, as added by subsection (a). Any such person must submit an application to the Secretary for such an annuity before October 1, 1988, to be eligible to receive

such annuity. Any such annuity shall be effective only for months after the month in which the Secretary receives such application.

SEC. 714. INDEXING OF THRESHOLD AMOUNT FOR CALCULATION OF REDUCTION OF RETIRED PAY

(a) IN GENERAL.—Section 1452(a) of title 10, United States Code, is amended—

(1) by inserting "(1)" after "(a)";

(2) in the first sentence—

(A) by redesignating clauses (1) and (2) as clauses (A) and (B), respectively;

(B) in clause (A) (as so redesignated)—

(i) by inserting "(as adjusted from time to time under paragraph (4))" after "$300"; and

(ii) by striking out "an annuity by virtue of eligiblity under section 1448(a)(1)(A) of this title" and inserting in lieu thereof "a standard annuity"; and

(C) in clause (B) (as so redesignated), by striking out "an annuity by virtue of eligibility under section 1448(a)(1)(A)" and inserting in lieu thereof "a reserve-component annuity";

(3) by designating the second sentence as paragraph (2) and striking out "As long as" and all that follows through "that amount" and inserting in lieu thereof "If there is a dependent child as well as a spouse or former spouse, the amount prescribed under paragraph (1)";

(4) by designating the third sentence as paragraph (3) and in such sentence—

(A) by striking out "the first sentence of this subsection" and inserting in lieu thereof "paragraph (1)"; and

(B) by inserting "or former spouse" after "eligible spouse"; and

(5) by adding at the end thereof the following new paragraph:

"(4)(A) Whenever there is an increase in the rates of basic pay of members of the uniformed services effective on or after October 1, 1985, the amount under paragraph (1)(A) with respect to which the percentage factor of 2 1/2 is applied shall be increased by the overall percentage of such increase in the rates of basic pay. The increase under the preceding sentence shall apply only with respect to persons whose retired pay is computed based on the rates of basic pay in effect on or after the date of such increase in rates of basic pay.

"(B) In addition to the increase under paragraph (4)(A), the amount under paragraph (1)(A) with respect to which the percentage factor of 2 1/2 is applied shall be further increased at the same time and by the same percentage as an increase in retired pay under section 1401a of this title effective on or after October 1, 1985. Such increase under the preceding sentence shall apply only with respect to persons who initially participate in the Plan on a date which is after both the effective date of such increase under section 1401a and the effective date of the rates of basic pay upon which their retired pay is computed.".

(b) EFFECTIVE DATE.—The amendments made by clause (5) of subsection (a) shall apply only with respect to persons who first participate in the Plan on or after the effective date of this title.

SEC. 715. SBP COVERAGE UPON REMARRIAGE

(a) OPTION NOT TO RESUME COVERAGE UPON REMARRIAGE.—Section 1448(a) of title 10, United States Code, is amended by adding at the end thereof the following new paragraph:

"(6)(A) A person—

"(i) who is a participant in the Plan and is providing coverage for a spouse or a spouse and child;

"(ii) who does not have an eligible spouse beneficiary under the Plan; and

"(iii) who remarries,

may elect not to provide coverage under the Plan for the person's spouse.

"(B) If such an election is made, no reduction in the retired pay of such person under section 1452 of this title may be made. An election under this paragraph—

"(i) is irrevocable;

"(ii) shall be made within one year after the person's marriage; and

"(iii) shall be made in such form and manner as may be prescribed in regulations under section 1455 of this title.

"(C) If a person makes an election under this paragraph—

"(i) not to participate in the Plan;

"(ii) to provide an annuity for the person's spouse at less than the maximum level; or

"(iii) to provide an annuity for a dependent child but not for the person's spouse,

the person's spouse shall be notified of that election.

"(D) This paragraph does not affect any right or obligation to elect to provide an annuity to a former spouse under subsection (b).".

(b) OPTION TO PROVIDE HIGHER COVERAGE UPON PAYMENT OF AMOUNTS NOT PREVIOUSLY WITHHELD.—Section 1448 of such title is amended by adding after subsection (f), as added by the amendment made by section 713(a), the following new subsection:

"(g)(1) A person—

"(A) who is a participant in the Plan and is providing coverage under subsection (a) for a spouse or a spouse and child, but at less than the maximum level; and

"(B) who remarries,

may elect, within one year of such remarriage, to increase the level of coverage provided under the Plan to a level not in excess of the current retired pay of that person.

"(2) Such an election shall be contingent on the person paying to the United States the amount determined under paragraph (3) plus interest on such amount at a rate determined under regulations prescribed by the Secretary of Defense.

"(3) The amount referred to in paragraph (2) is the amount equal to the difference between—

"(A) the amount that would have been withheld from such person's retired pay under section 1452 of this title if the higher level of coverage had been in effect from the time the person became a participant in the Plan; and

"(B) the amount of such person's retired pay actually withheld.

"(4) An election under paragraph (1) shall be made in such manner as the Secretary shall prescribe and shall become effective upon receipt of the payment required by paragraph (2).

"(5) A payment received under this subsection by the Secretary of Defense shall be deposited into the Department of Defense Military Retirement Fund. Any other payment received under this subsection shall be deposited in the Treasury as miscellaneous receipts.".

SEC. 716. OPTION TO COVER BOTH A FORMER SPOUSE AND DEPENDENT CHILDREN OF A MEMBER

(a) OPTION TO PROVIDE COVERAGE.—Section 1448(b) of title 10, United States Code, is amended—

(1) by inserting "(other than a child who is a beneficiary under an election under paragraph (4))" in the second sentence of paragraph (2) after "that spouse or child";

(2) by redesignating paragraph (4) as paragraph (5); and

(3) by inserting after paragraph (3) the following new paragraph (4):

"(4) A person who elects to provide an annuity for a former spouse under paragraph (2) or (3) may, at the time of the election, elect to provide coverage under that annuity for both the former spouse and a dependent child, if the child resulted from the person's marriage to that former spouse.".

(b) REVISION FOR FORMER SPOUSE COVERAGE ALREADY IN EFFECT.—A person who before the date of the enactment of this Act made an election under section 1448(b) of title 10, United States Code, to provide an annuity for a former spouse may elect, within the one-year period beginning on that date of enactment, to change that election so as to provide an annuity for the former spouse and the dependent children of the person, as authorized by paragraph (4) of that section added by subsection (a). Such an election may be made even though the former spouse for whom the annuity was provided has died.

SEC. 717. AUTHORITY TO REPAY REFUNDED SBP DEDUCTIONS IN INSTALLMENTS

Section 1450(k) of title 10, United States Code, is amended—

(1) by inserting "(1)" after "(k)";

(2) by striking out "had never been made," and all that follows and inserting in lieu thereof "had never been made."; and

(3) by adding at the end thereof the following new paragraph:

"(2) A widow or widower whose annuity is readjusted under paragraph (1) shall repay any amount refunded under subsection (e) by reason of the adjustment under subsection (c). If the repayment is not made in a lump sum, the widow or widower shall pay interest on the amount to be repaid commencing on the date on which the first such payment is due and applied over the period during which any part of the repayment remains to be paid. The manner in which such repayment shall be made, and the rate of any such interest, shall be prescribed in regulations under section 1455 of this title. An amount repaid under this paragraph (including any such interest) received by the Secretary of Defense shall be deposited into the Department of Defense Military Retirement Fund. Any other amount repaid under this paragraph shall be deposited into the Treasury as miscellaneous receipts.".

SEC. 718. EFFECTIVE DATE OF DIC OFFSET

Section 1450(c) of title 10, United States Code, is amended by adding at the end thereof the following new sentence: "A reduction in an annuity under this section required by the preceding sentence shall be effective on the date of the commencement of the period of payment of such compensation under title 38.".

SEC. 719. TECHNICAL AMENDMENTS TO SBP STATUTE

Subchapter II of chapter 73 of title 10, United States Code, is amended as follows:

(1) Section 1447 is amended by adding at the end thereof the following new paragraphs:

"(11) 'Retired pay' includes retainer pay.

"(12) 'Standard annuity' means an annuity provided by virtue of eligibility under section 1448(a)(1)(A) of this title.

"(13) 'Reserve-component annuity' means an annuity provided by virtue of eligibility under section 1448(a)(1)(B) of this title.".

(2) Section 1447(2)(C) is amended—

(A) by striking out "an annuity by virtue of eligibility under section 1448(a)(1)(A) of this title" in subclause (i) and inserting in lieu thereof "a standard annuity"; and

(B) by striking out "an annuity by virtue of eligiblity under section 1448(a)(1)(B) of this title" in subclause (ii) and inserting in lieu thereof "a reserve-component annuity".

(3) Paragraphs (1) and (2) of section 1448(b) are each amended by striking out "an annuity under this paragraph by virtue of eligiblity under subsection (a)(1)(B)" and inserting in lieu thereof "a reserve-component annuity".

(4) Section 1450(b) is amended by striking out "under this section" and inserting in lieu thereof "under the Plan".

(5) Section 1450(j) is amended by striking out "any person providing an annuity by virtue of eligiblity under section 1448(a)(1)(B) of this title" and inserting in lieu thereof "a person providing a reserve-component annuity".

(6) Section 1450(l) is amended—

(A) by striking out "the plan" both places it appears in the first sentence of paragraph (1) and inserting in lieu thereof "the Plan"; and

(B) by striking out "the provision of" in paragraph (2).

(7) Section 1452(c) is amended—

(A) by striking out "the annuity by virtue of eligibility under section 1448(a)(1)(A) of this title" and inserting in lieu thereof "a standard annuity";

(B) by striking out "the annuity by virtue of eligibility under section 1448(a)(1)(B) of this title" and inserting in lieu thereof "a reserve-component annuity"; and

(C) by striking out "this section" in the third sentence and inserting in lieu thereof "this subsection".

(8)(A) The following sections are each amended by striking out "or retainer" each place it appears: 1448(a)(1)(A), 1448(a)(2)(A), 1448(b)(3)(B), 1450(d), 1450(e), 1450(l)(1), 1450(l)(3)(A)(i), 1452.

(B) The heading for section 1452, and the item relating to that section in the table of sections at the beginning of such subchapter, are each amended by striking out the penultimate and antepenultimate words.

PART B—PROVISIONS RELATING TO RIGHTS FOR SPOUSES AND FORMER SPOUSES

SEC. 721. SPOUSAL CONCURRENCE FOR ELECTIONS

(a) CONCURRENCE FOR SBP COVERAGE.—Section 1448(a) of title 10, United States Code, is amended—

(1) by inserting "(with his spouse's concurrence, if required under paragraph (3))" in paragraph (2)(A) after "unless he elects"; and

(2) by striking out paragraph (3) and inserting in lieu thereof the following:

"(3)(A) A married person who is eligible to provide a standard annuity may not without the concurrence of the person's spouse elect—

"(i) not to participate in the Plan;

"(ii) to provide an annuity for the person's spouse at less than the maximum level; or

"(iii) to provide an annuity for a dependent child but not for the person's spouse.

"(B) A married person who elects to provide a reserve-component annuity may not without the concurrence of the person's spouse elect—

"(i) to provide an annuity for the person's spouse at less than the maximum level; or

"(ii) to provide an annuity for a dependent child but not for the person's spouse.

"(C) A person may make an election described in subparagraph (A) or (B) without the concurrence of the person's spouse if the person establishes to the satisfaction of the Secretary concerned—

"(i) that the spouse's whereabouts cannot be determined; or

"(ii) that, due to exceptional circumstances, requiring the person to seek the spouse's consent would otherwise be inappropriate.

"(D) This paragraph does not affect any right or obligation to elect to provide an annuity for a former spouse (or for a former spouse and dependent child) under subsection (b)(2).

"(E) If a married person who is eligible to provide a standard annuity elects to provide an annuity for a former spouse (or for a former spouse and dependent child) under subsection (b)(2), that person's spouse shall be notified of that election.".

(b) CONCURRENCE FOR ELECTION OF COVERAGE AT LESS THAN MAXIMUM AMOUNT.—Section 1447(2)(C) of such title is amended by inserting "(with the concurrence of the person's spouse, if required under section 1448(a)(3) of this title)" after "designated by the person".

SEC. 722. CLARIFICATION OF STATUS OF SPOUSAL AGREEMENTS

Section 1450(f)(3) of title 10, United States Code, is amended—

(1) in subparagraph (A)—

(A) by inserting "or has been filed with the court of appropriate jurisdiction in accordance with applicable State law" after "by a court order"; and

(B) by inserting "or receives a statement from the clerk of the court (or other appropriate official) that such agreement has been filed with the court in accordance with applicable State law" before the period; and

(2) in subparagraphs (B) and (C), by inserting "or filing" after "court order".

SEC. 723. FORMER SPOUSE COVERAGE TO BE PROVIDED IN SPOUSE CATEGORY RATHER THAN INSURABLE INTEREST CATEGORY

(a) SPECIFICATION OF BENEFICIARIES.—Section 1450(a) of title 10, United States Code, is amended—

(1) by inserting "or the eligible former spouse" in clauses (1) and (2) after "widow or widower";

(2) in clause (3)—

(A) by inserting "(with the concurrence of the person's spouse, if required under section 1448(a)(3) of this title)" after "title applies"; and

(B) by inserting "or former spouse" after "the spouse"; and

(3) by striking out "former spouse or other" both places it appears in clause (4).

(b) CONFORMING AMENDMENTS.—(1) Section 1450 of such title is amended by striking out "widow or widower" each place it appears and inserting in lieu thereof "widow, widower, or former spouse".

(1) by inserting "or former spouse" after "spouse" the first two places it appears in subsection (a); and

(2) Section 1452 of such title is amended—by inserting "or former spouse" after "spouse" both places it appears in subsection (b).

(c) ONE-YEAR OPEN PERIOD TO SWITCH COMPUTATION OF SBP ANNUITY.—A person who, before the effective date of this title, participated in the Survivor Benefit Plan under subchapter II of chapter 73 of title 10, United States Code, and had elected to provide an annuity to a former spouse may, with the concurrence of such former spouse, elect to terminate such annuity and provide an annuity to such former spouse under section 1450(a)(1) of such title. Any such election shall be made before the end of the 12-month period beginning on the date of the enactment of this Act.

(d) ONE-YEAR OPEN PERIOD FOR NEW FORMER SPOUSE COVERAGE.—A person who before the effective date of this part was a participant in the Survivor Benefit Plan and did not elect to provide an annuity to a former spouse may elect to provide an annuity to a former spouse under the Plan. Any such election shall be made before the end of the 12-month period beginning on the date of the enactment of this Act.

SEC. 724. NOTICE OF ELECTIONS AVAILABLE

Section 1455 of title 10, United States Code, is amended by striking out paragraphs (1) and (2) and inserting in lieu thereof the following:

"(1) provide that before the date the member becomes entitled to retired pay—

"(A) if the the member is married, the member and the member's spouse shall be informed of the elections available under section 1448(a) of this title and the effects of such elections; and

"(B) if the notification referred to in section 1448(a)(3)(E) of this title is required, any former spouse of the member shall be informed of the elections available and the effects of such elections; and

"(2) establish procedures for depositing the amounts referred to in sections 1448(g), 1450(k)(2), and 1452(d) of this title.".

PART C—EFFECTIVE DATE AND REPORT

SEC. 731. EFFECTIVE DATE

(a) EFFECTIVE DATE.—Except as otherwise provided in this title, the amendments made by this title shall take effect on the first day of the first month beginning more than 90 days after the date of the enactment of this Act.

(b) PROSPECTIVE BENEFITS ONLY.— No benefit shall accrue to any person by reason of the enactment of this title for any period before the effective date under subsection (a).

SEC. 732. REPORT ON ESTABLISHING NEEDS-BASED SURVIVOR BENEFIT ANNUITY PROGRAM FOR SURVIVING SPOUSES OF CERTAIN RETIRED RESERVISTS

(a) REQUIREMENT FOR REPORT.—The Secretary of Defense shall submit to Congress a report containing a plan for establishing a needs-based survivor annuity program for surviving spouses of members of the uniformed services who—

(1) died before September 30, 1978; and

(2) at the time of death would have been eligible for retired pay under chapter 67 of title 10, United States Code, but for the fact they were under 60 years of age.

(b) SCOPE OF PLAN.—The plan shall take into consideration the surviving spouse's income for purposes of determining eligibility under the plan. In developing the plan, the Secretary of Defense should analyze a variety of options, including a plan similar to the Minimum Income Widows Program established pursuant to Public Law 92-425, and shall provide an accounting of the number of potential beneficiaries and the projected cost under each such option.

(c) DEADLINE FOR REPORT.—The report required by this section shall be submitted by December 31, 1985.

TITLE VIII—MILITARY FAMILY POLICY AND PROGRAMS

SEC. 801. SHORT TITLE

This title may be cited as the "Military Family Act of 1985".

SEC. 802. OFFICE OF FAMILY POLICY

(a) ESTABLISHMENT.—There is hereby established in the Office of the Secretary of Defense an Office of Family Policy (hereinafter in this section referred to as the "Office"). The Office shall be under the As-

sistant Secretary of Defense for Force Management and Personnel.

(b) DUTIES.—The Office—

(1) shall coordinate programs and activities of the military departments to the extent that they relate to military families; and

(2) shall make recommendations to the Secretaries of the military departments with respect to programs and policies regarding military families.

(c) STAFF.—The Office shall have not less than five professional staff members.

(d) REPORT.—The Secretary of Defense shall submit a report to Congress concerning the Office no later than September 30, 1986. The report shall include—

(1) a description of the activities of the Office and the composition of its staff; and

(2) the recommendations of the Office for legislative and administrative action to enhance the well-being of military families.

SEC. 803. TRANSFER OF MILITARY FAMILY RESOURCE CENTER

The Military Family Resource Center of the Department of Defense is hereby transferred from the Office of the Assistant Secretary of Defense for Health Affairs to the Office of the Assistant Secretary for Force Management and Personnel.

SEC. 804. SURVEYS OF MILITARY FAMILIES

The Secretary of Defense may conduct surveys of members of the Armed Forces serving on active duty, members of the families of such members, and retired members of the Armed Forces to determine the effectiveness of existing Federal programs relating to military families and the need for new programs. Responses to surveys conducted under this section shall be voluntary. With respect to such surveys, family members or members of the Armed Forces and retired members of the Armed Forces shall be considered to be employees of the United States for purposes of section 3502(4)(A) of title 44, United States Code.

SEC. 805. FAMILY MEMBERS SERVING ON ADVISORY COMMITTEES

A committee within the Department of Defense which advises or assists the Department in the performance of any function which affects members of military families and which includes members of military families in its membership shall not be considered an advisory committee under section 3(2) of the Federal Advisory Committee Act (5 U.S.C. App.) solely because of such membership.

SEC. 806. EMPLOYMENT OPPORTUNITIES FOR MILITARY SPOUSES

(a) AUTHORITY.—The President shall order such measures as the President considers necessary to increase employment opportunities for spouses of members of the Armed Forces. Such measures may include—

(1) excepting, pursuant to section 3302 of title 5, United States Code, from the competitive service positions in the Department of Defense located outside of the United States to provide employment opportunities for qualified spouses of members of the Armed Forces in the same geographical area as the permanent duty station of the members; and

(2) providing preference in hiring for positions in nonappropriated fund activities to qualified spouses of members of the Armed Forces stationed in the same geographical area as the nonappropriated fund activity for positions in wage grade UA-8 and below and equivalent positions and for positions paid at hourly rates.

(b) REGULATIONS.—The Secretary of Defense shall prescribe regulations—

(1) to implement such measures as the President orders under subsection (a);

(2) to provide preference hiring to qualified spouses of members of the Armed Forces in hiring for any position in the Department of Defense above grade GS-7 (or its equivalent) if the spouse is among persons determined to be best qualified for the position and if the position is located in the same geographical area as the permanent duty station of the member;

(3) to ensure that notice of any vacant position in the Department of Defense is provided in a manner reasonably designed to reach spouses of members of the Armed Forces whose permanent duty stations are in the same geographic area as the area in which the position is located; and

(4) to ensure that the spouse of a member of the Armed Forces who applies for a vacant position in the Department of Defense shall, to the extent practicable, be considered for any such position located in the same geographic area as the permanent duty station of the member.

(c) STATUS OF PREFERENCE ELIGIBLES.—Nothing in this section shall be construed to provide a spouse of a member of the Armed Forces with preference in hiring over an individual who is a preference eligible.

SEC. 807. YOUTH SPONSORSHIP PROGRAM

The Secretary of Defense shall direct that there be established at each military installation a youth sponsorship program to facilitate the integration of dependent children of members of the Armed Forces into new surroundings when moving to that military installation as a result of a parent's permanent change of station. Such a program shall, to the extent feasible, provide for involvement of dependent children of members presently stationed at the military installation.

SEC. 808. DEPENDENT STUDENT TRAVEL WITHIN THE UNITED STATES

Funds available to the Department of Defense for the travel and transportation of dependent students of members of the Armed Forces stationed overseas may be obligated for transportation allowances for travel within or between the contiguous States.

SEC. 809. RELOCATION AND HOUSING

(a) RELOCATION ASSISTANCE.—The Secretary of Defense shall submit to Congress a report on the desirability and feasibility of providing relocation assistance to members of the uniformed services and their families through contracts entered into by the Department of Defense with firms which provide such assistance to individuals. Such report shall be submitted not later than March 1, 1986.

(b) AMORTIZATION PERIOD FOR PARKING FACILITIES FOR HOUSE TRAILERS AND MOBILE HOMES.—Section 403(k) of title 37, United States Code, is amended by striking out "15-year period" and inserting in lieu thereof "25-year period".

(c) COST OF UNACCOMPANIED PERSONNEL HOUSING FOR MEMBERS OF UNIFORMED SERVICE.—Section 5911 of title 5, United States Code, is amended by adding at the end thereof the following new subsection:

"(h) A member of the uniformed service on a permanent change of duty station or temporary duty orders and occupying unaccompanied personnel housing—

"(1) is exempt from the requirement of subsection (c) to pay a rental rate or charge based on the reasonable value of the quarters and facilities provided; and

"(2) shall pay such lesser rate or charge as the Secretary of Defense establishes by regulation.".

SEC. 810. FOOD PROGRAMS

(a) FOOD COSTS FOR CERTAIN ENLISTED MEMBERS.—Section 1011 of title 37, United States Code, is amended by adding at the end thereof the following new subsection:

"(c) Spouses and dependent children of enlisted members in pay grades E-1, E-2, E-3, and E-4 may not be charged for meals sold at messes in excess of a level sufficient to cover food costs.".

(b) REPORT ON ISSUANCE OF FOOD STAMPS COUPONS TO OVERSEAS HOUSEHOLDS OF MEMBERS STATIONED OUTSIDE THE UNITED STATES.—(1) The Secretary of Defense shall submit to Congress a report on the feasibility of having the Department issue food stamp coupons to overseas households of members stationed outside the United States.

(2) The report shall include—

(A) an estimate of the cost of providing the coupons; and

(B) legislative and administrative recommendations for providing for the issuance of the coupons.

(3) The report shall be submitted not later than December 31, 1985.

SEC. 811. REPORTING OF CHILD ABUSE

(a) IN GENERAL.—The Secretary of Defense shall request each State to provide for the reporting to the Secretary of any report the State receives of known or suspected instances of child abuse and neglect in which the person having care of the child is a member of the Armed Forces (or the spouse of the member).

(b) DEFINITION.—For purposes of this section the term "child abuse and neglect" shall have the same meaning as provided in section 3(1) of the Child Abuse Prevention and Treatment Act (42 U.S.C. 5102).

SEC. 812. MISCELLANEOUS REPORTING REQUIREMENTS

(a) HOUSING AVAILABILITY.—(1) The Secretary of Defense shall submit to Congress a report on the availability and affordability of off-base housing for members of the Armed Forces and their families.

(2) The report shall—

(A) examine the availability of affordable housing for each pay grade and for all geographic areas within the United States and for appropriate overseas locations; and

(B) examine the relocation assistance provided by the Department of Defense incident to a permanent change of station by a member of the Armed Forces in locating housing at the member's new duty station and in disposing of housing at the member's old duty station.

(3) The report shall be submitted within one year after the date of the enactment of this Act.

(b) NEED FOR ASSISTANCE TO DEPENDENTS ENTERING NEW SECONDARY SCHOOLS.—The Secretary of Defense shall submit to Congress a report recommending administrative and legislative action to assist families of members of the Armed Forces making a permanent change of station so that a dependent child who transfers between secondary schools with different graduation requirements is not subjected to unnecessary disruptions in education or inequitable, unduly burdensome, or duplicative education requirements. Such report shall be submitted within one year after the date of the enactment of this Act.

SEC. 813. EFFECTIVE DATE

This title shall take effect on October 1, 1985.

TITLE IX—PROCUREMENT POLICY REFORM AND OTHER PROCUREMENT MATTERS

SEC. 901. SHORT TITLE

This title may be cited as the "Defense Procurement Improvement Act of 1985".

PART A—PROGRAM MANAGEMENT MATTERS

SEC. 911. REGULATIONS RELATING TO ALLOWABLE COSTS

(a) REGULATION OF ALLOWABLE COSTS PAYABLE TO DEFENSE CONTRACTORS.—(1) Chapter 137 of title 10, United States Code, is amended by adding at the end thereof the following new section:

"§2324. Allowable costs under defense contracts

"(a)(1) The Secretary of Defense shall require that a covered contract provide that if the contractor submits to the Department of Defense a proposal for settlement of indirect costs incurred by the contractor for any period after such costs have been accrued and if that proposal includes the submission of a cost which is unallowable because the cost violates a cost principle in the Federal Acquisition Regulation or the Department of Defense Supplement to the Federal Acquisition Regulation, the cost shall be disallowed.

"(2) If the Secretary determines by clear and convincing evidence that a cost submitted by a contractor in its proposal for settlement is unallowable under paragraph (1), the Secretary shall assess a penalty against the contractor in an amount equal to—

"(A) the amount of the disallowed costs; plus

"(B) interest (to be computed based on regulations issued by the Secretary) to compensate the United States for the use of any funds which a contractor has been paid in excess of the amount to which the contractor was entitled.

"(b) If the Secretary determines that a proposal for settlement of indirect costs submitted by a contractor includes a cost determined to be unallowable in the case of such contractor before the submission of such proposal, the Secretary shall assess a penalty against the contractor, in addition to the penalty assessed under subsection (a), in an amount equal to two times the amount of such cost.

"(c) An action of the Secretary under subsection (a) or (b)—

"(1) shall be considered a final decision for the purposes of section 6 of the Contract Disputes Act of 1978 (41 U.S.C. 605); and

"(2) is appealable in the manner provided in section 7 of such Act (41 U.S.C. 606).

"(d) If any penalty is assessed under subsection (a) or (b) with respect to a proposal for settlement of indirect costs, the Secretary may assess an additional penalty of not more than $10,000 per proposal.

"(e)(1) The following costs are not allowable under a covered contract:

"(A) Costs of entertainment, including amusement, diversion, and social activities and any costs directly associated with such costs (such as tickets to shows or sports events, meals, lodging, rentals, transportation, and gratuities).

"(B) Costs incurred to influence (directly or indirectly) legislative action on any matter pending before Congress or a State legislature.

"(C) Costs incurred in defense of any civil or criminal fraud proceeding or similar proceeding (including filing of any a false certification) brought by the United States where the contractor is found liable or has pleaded nolo contendere to a charge of fraud or similar proceeding (including filing of false certification).

"(D) Payments of fines and penalties resulting from violations of, or failure to comply with, Federal, State, local, or foreign laws and regulations, except when incurred as a result of compliance with specific terms and conditions of the contract or specific written instructions from the contracting officer authorizing in advance such payments in accordance with applicable regulations of the Secretary of Defense.

"(E) Costs of membership in any social, dining, or country club or organization.

"(F) Costs of alcoholic beverages.

"(G) Contributions or donations, regardless of the recipient.

"(H) Costs of advertising designed to promote the contractor or its products.

"(I) Costs of promotional items and memorabilia, including models, gifts, and souvenirs.

"(J) Costs for travel by commercial aircraft which exceed the amount of the standard commercial fare.

"(2) The Secretary shall prescribe regulations to implement this section. Such regulations may establish appropriate definitions, exclusions, limitations, and qualifications.

"(f)(1) The Secretary shall prescribe proposed regulations to amend those provisions of the Department of Defense Supplement to the Federal Acquisition Regulation dealing with the allowability of contractor costs. The amendments shall define in detail and in specific terms those costs which are unallowable, in whole or in part, under covered contracts. These regulations shall, at a minimum, clarify the cost principles applicable to contractor costs of the following:

"(A) Air shows.

"(B) Membership in civic, community, and professional organizations.

"(C) Recruitment.

"(D) Employee morale and welfare.

"(E) Actions to influence (directly or indirectly) executive branch action on regulatory and contract matters (other than costs incurred in regard to contract proposals pursuant to solicited or unsolicited bids).

"(F) Community relations.

"(G) Dining facilities.

"(H) Professional and consulting services, including legal services.

"(I) Compensation.

"(J) Selling and marketing.

"(K) Travel.

"(L) Public relations.

"(M) Hotel and meal expenses.

"(N) Expense of corporate aircraft.

"(O) Company-furnished automobiles.

"(P) Advertising.

"(2) The regulations shall require that a contracting officer not resolve any questioned costs until he has obtained—

"(A) adequate documentation with respect to such costs; and

"(B) the opinion of the defense contract auditor on the allowability of such costs.

"(3) The regulations shall provide that, to the maximum extent practicable, the defense contract auditor be present at any negotiation or meeting with the contractor regarding a determination of the allowability of indirect costs of the contractor.

"(4) The regulations shall require that all categories of costs designated in the report of the defense contract auditor as questioned with respect to a proposal for settlement be resolved in such a manner that the amount of the individual questioned costs that are paid will be reflected in the settlement.

"(g) The regulations of the Secretary required to be prescribed under subsections (e) and (f)(1) shall require, to the maximum extent practicable, that such regulations apply to all subcontractors of a covered contract.

"(h)(1) A proposal for settlement of indirect costs applicable to a covered contract shall include a certification by an official of the contractor that, to the best of the certifying official's knowledge and belief, all indirect costs included in the proposal are allowable. Any such certification shall be in a form prescribed by the Secretary.

"(2) The Secretary of Defense or the Secretary of the military department concerned may waive the requirement for certification under paragraph (1) in the case of any contract if the Secretary—

"(A) determines in such case that it would be in the interest of the United States to waive such certification; and

"(B) states in writing the reasons for that determination and makes such determination available to the public.

"(i) The submission to the Department of Defense of a proposal for settlement of costs for any period after such costs have been accrued that includes a cost that is expressly specified by statute or regulation as being unallowable, with the knowledge that such cost is unallowable, shall be subject to the provisions of section 287 of title 18 and section 3729 of title 31.

"(j) In this section, 'covered contract' means a contract for an amount more than $100,000 entered into by the Department of Defense other than a fixed-price contract without cost incentives.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end thereof the following new item:

"2324. Allowable costs under defense contracts.".

(b) REGULATIONS.—(1) Not later than 150 days after the date of the enactment of this Act, the Secretary of Defense shall prescribe the regulations required by subsections (e) and (f) of section 2324 of title 10, United States Code, as added by subsection (a). Such regulations shall be published in accordance with section 22 of the Office of Federal Procurement Policy Act (41 U.S.C. 418b).

(2) The Secretary shall review such regulations at least once every five years. The results of each such review shall be made public.

(c) EFFECTIVE DATE.—Section 2324 of title 10, United States Code, as added by subsection (a), shall apply only to contracts for which solicitations are issued on or after the date on which such regulations are prescribed.

SEC. 912. MULTIPLE SOURCES FOR MAJOR DEFENSE ACQUISITION PROGRAMS

(a) IN GENERAL.—(1) Chapter 137 of title 10, United States Code, is amended by inserting after section 2305 the following new section:

"§ 2305a. Major programs: competitive alternative sources

"(a)(1) The Secretary of Defense may not begin full-scale development under a major program until—

"(A) the Secretary prepares an acquisition strategy for the program; and

"(B) the Secretary submits to the Committees on Armed Services of the Senate and House of Representatives a report describing the acquisition strategy for that program.

"(2) The report required by paragraph (1)(B) shall be submitted not later than the

date of the submission of the President's budget to Congress for the fiscal year for which the initial request is made for appropriations for full-scale development of the program.

"(3) If the Secretary proposes to revise an acquisition strategy prepared under paragraph (1) after the report on that strategy is submitted under that paragraph, the Secretary shall submit to the committees a report describing the proposed revision. Such a revision may not be implemented until 60 days after the date on which the report on the revision is received by those committees.

"(4) The Secretary shall ensure that contracts for each major program are awarded in accordance with the acquisition strategy for such program.

"(b)(1) The acquisition strategy prepared under subsection (a) for a major program shall provide that there will be competitive alternative sources available for the system (and each major subsystem) under the program throughout the period from the beginning of full-scale development through the end of production.

"(2) In carrying out this subsection, the Secretary may provide that the requirement for competitive alternative sources for a system or subsystem is satisfied even though the sources for that system or subsystem do not develop or produce identical systems if the systems developed or produced serve similar functions and compete effectively with each other.

"(c)(1) In preparing an acquisition strategy for a major program, the Secretary may waive subsection (b) with respect to full-scale development of that program if the Secretary determines that the application of that subsection to full-scale development of that program—

"(A) would not materially reduce the technological risks associated with the program;

"(B) would not likely result in an improvement in design commensurate with the additional cost;

"(C) would result in unacceptable delays in fulfilling the needs of the Department of Defense; or

"(D) would be adverse to the national security interests of the United States.

"(2) In preparing an acquisition strategy for a major program, the Secretary may waive the requirement of subsection (b) with respect to production under the program if the Secretary determines that the application of that subsection to production under the program—

"(A) would increase the total cost for the program;

"(B) would result in unacceptable delays in fulfilling the needs of the Department of Defense; or

"(C) would be adverse to the national security interests of the United States.

"(3) If the Secretary grants a waiver under paragraph (1) or (2), the report submitted under subsection (a) with respect to that program—

"(A) shall include notice that the waiver has been made; and

"(B) shall set forth the reasons for the waiver, together with supporting documentation of comparative cost and schedule estimates and other background material.

"(4) The Secretary shall separately exercise the authority under paragraphs (1) and (2) for each major defense acquisition program.

"(d) In this section:

"(1) 'Major program' means a major defense acquisition program, as such term is defined in section 139a(a) of this title.

"(2) 'Major subsystem', with respect to a major program, means a subsystem of the system developed under the program that is purchased directly by the United States and for which—

"(A) the amount for research, development, test and evaluation is 10 percent or more of the amount specified in section 139a(a)(1)(B) of this title as the research, development, test and evaluation funding criterion for identification of a major defense acquisition program; or

"(B) the amount for production is 10 percent or more of the amount specified in section 139a(a)(1)(B) of this title as the production funding criterion for identification of a major defense acquisition program.".

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 2305 the following new item:

"2305a. Major programs: competitive alternative sources."

(b) EFFECTIVE DATE.—Section 2305a of title 10, United States Code, as added by subsection (a), shall apply with respect to major defense acquisition programs for which funds for full-scale development are first requested for a fiscal year after fiscal year 1986.

SEC. 913. MINIMUM PERCENTAGE OF COMPETITIVE PROCUREMENTS

(a) ANNUAL GOAL.—The Secretary of Defense shall establish for each fiscal year a goal for the percentage of defense procurements to be made during that year (expressed in total dollar value of contracts entered into) that are to be competitive procurements.

(b) ANNUAL REPORT.—(1) The Secretary shall submit to Congress a report each year on the goal for the next fiscal year. Such report shall propose means for promoting and expanding competition in Department of Defense procurement and shall summarize the accomplishments in meeting the established goals for the prior fiscal year.

(2) The report shall be submitted not later than April 1 of each year with respect to the next fiscal year.

(c) DEFINITION.—For the purposes of this section, the term "competitive procurements" means procurements made by the Department of Defense through the use of competitive procedures, as defined in section 2304 of title 10, United States Code.

SEC. 914. REGULATIONS TO CONTROL PRICES THAT MAY BE PAID FOR SPARE PARTS

(a) IDENTIFICATION OF MANAGEMENT PROBLEMS.—The Congress determines that in the acquisition of spare parts the Department of Defense has in some instances paid unreasonably high prices due to the following management problems:

(1) Some parts have been built to overly detailed specifications.

(2) Some parts have been designed and fabricated in such a manner that excessive engineering and manufacturing steps have been involved resulting in a price in excess of the intrinsic value of the part.

(3) Some parts have been purchased in very small, and thus highly uneconomic, quantities.

(4) Some parts have had inappropriate amounts of corporate overhead assigned to them, resulting in a price in excess of the intrinsic value of the part.

(5) Some parts have not been purchased directly from the manufacturer, and thus the Government has unnecessarily paid an additional profit to the seller.

(6) Some parts have not been purchased through a competitive process.

(7) Some parts have been sold with unreasonably high profits included in the price.

(b) REPORT.—(1) The Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives a report—

(A) describing the specific actions taken by the Department of Defense to address the management problems identified in subsection (a); and

(B) evaluating such actions to determine whether the actions have been successful in remedying those management problems.

(2) The report shall be submitted not later than January 31, 1986.

(c) PROPOSALS FOR ADDITIONAL ADMINISTRATIVE OR LEGISLATIVE REMEDIES.—If the Secretary of Defense concludes that the management problems identified in subsection (a) have not been successfully remedied by actions of the Department of Defense, the Secretary—

(1) shall issue proposed regulations to limit the prices that may be charged by defense contractors for spare parts; and

(2) shall, if the Secretary determines that legislation is necessary to remedy any of such problems, submit to Congress proposed legislation to remedy those problems.

(d) CONSTRUCTION OF SECTION.—This section does not supersede the requirements of section 1245 of the Department of Defense Authorization Act, 1985 (Public Law 98-525), the provisions of which the Secretary of Defense has failed to comply with as of July 25, 1985.

SEC. 915. SHOULD-COST ANALYSES

(a) REPORT ON ANNUAL PLAN.—The Secretary of Defense shall submit to Congress an annual report setting forth the Secretary's plan for the performance during the next fiscal year of cost analyses for major defense acquisition programs for the purpose of determining how much the production of covered systems under such programs should cost. The report shall describe—

(1) which covered systems the Secretary plans to apply such an analysis to;

(2) which covered systems the Secretary does not plan to apply such an analysis to and, in each such case, the reasons for not applying such an analysis; and

(3) which systems were determined not to be covered systems under a major defense acquisition program and the reasons for that determination.

(b) COVERED SYSTEMS.—For the purposes of subsection (a), a system under a major defense acquisition program shall be considered to be a covered system if—

(1) a production contract for the system is to be awarded during the year following the next fiscal year using procedures other than full and open competition;

(2) initial production of the system has already taken place;

(3) the current plans for the Department of Defense include production of substantial quantities of identical or similar items in fiscal years beyond the next fiscal year;

(4) the work to be performed under the contract is sufficiently defined to permit an effective analysis of what production of the system by the contractor should cost; and

(5) major changes in the program are unlikely.

(c) SUBMITTAL OF REPORT.—The report required by subsection (a) shall be submitted to the Committees on Armed Services of the Senate and the House of Representatives not later than the date on which the budget for the next fiscal year is submitted each year.

(d) DEFINITION.—The term "major defense acquisition program" has the meaning given such term in section 139a(a)(1) of title 10, United States Code.

(e) EFFECTIVE DATE.—This section shall apply to covered systems for which initial production funds are first appropriated for a fiscal year after fiscal year 1986.

SEC. 916. LIMITATIONS ON PROGRESS PAYMENTS

(a) IN GENERAL.—The Secretary of Defense shall ensure that any payment for work in progress (including materials, labor, and other items) under a defense contract that provides for such payments is commensurate with the work, which meets standards of quality established under the contract, that has been accomplished.

(b) REQUIREMENTS WITH RESPECT TO UNDEFINITIZED CONTRACTS.—The Secretary shall ensure that progress payments referred to in subsection (a) are not made for more than 80 percent of the work accomplished under a defense contract so long as the Secretary has not made the contractual terms, specifications, and price definite.

(c) WAIVER OF SMALL PURCHASES.—This section does not apply to contracts for amounts less than the threshold for small purchases applicable under section 2304(g)(2) of title 10, United States Code.

(d) EFFECTIVE DATE.—This section shall apply only to contracts for which solicitations are issued on or after 150 days after the enactment of this Act.

SEC. 917. COST AND PRICE MANAGEMENT IN DEFENSE PROCUREMENT

(a) IN GENERAL.—Chapter 141 of title 10, United States Code, is amended by adding at the end thereof the following new section:

"§ 2406. Cost and price management

"(a) In this section:

"(1) 'Covered contract' means a contract that is awarded by a defense agency using procedures as defined in chapter 137 of this title and that is subject to the provisions of section 2306(f) of this title, including contracts for full-scale engineering, development, or production.

"(2) 'Defense agency' means the Department of Defense, the Department of the Army, the Department of the Navy, the Department of the Air Force, and the Defense Logistics Agency.

"(b)(1) A defense agency that is responsible for the acquisition of property (including major manufactured end items) or services under a covered contract shall cause to be recorded the contractor's proposed and negotiated cost and pricing data acquired by the agency into appropriate categories. Such categories shall include labor costs, material costs, subcontract costs, overhead costs, general and administrative costs, fee or profit, recurring costs, and nonrecurring costs.

"(2)(A) A defense agency that is responsible for the acquisition of major manufactured end items under a covered contract shall cause to be recorded the proposed and negotiated bills of labor for labor use by the prime contractor and each associate contractor in manufacturing the item and for labor used by each such contractor in performing routine testing relating to the item. The bill of labor relating to the labor used by any such contractor shall reflect such contractor's computation of the work required in manufacturing parts and subassemblies for the end item and in performing routine testing of such parts and subassemblies.

"(B) Each contractor preparing a bill of labor referred to in subparagraph (A) shall specify in the bill of labor the current industrial engineering standard hours of work content (also known as 'should-take times') for the work included in a component of the bill of labor and for the total work included in the bill of labor. The contractor shall base the standard hours of work content specified in the bill of labor on the 'fair day's work' concept, as such term is understood in competitive commercial manufacturing industries in the United States. The contractor's standard hours of work content included in the bill of labor may not vary from time standards derived from commercially available predetermined time standard systems widely used in the United States, as determined by the defense agency, subject to verification by audit.

"(C) The head of a defense agency acquiring a bill of labor referred to in subparagraph (A) shall provide for the maintenance of the information relating to standard hours of work content included under subparagraph (B) and shall review such information to determine changes in measured work content as work progresses under the contract to which the bill of labor relates.

"(3) A defense agency that is responsible for the acquisition of major manufactured end items under a covered contract shall cause to be recorded the proposed and negotiated bills of material used by the prime contractor and each associate contractor under the contract in manufacturing the item and of material used by each such contractor in performing routine testing relating to the item. The bill of material used by any such contractor shall reflect such contractor's computation of the material required for manufacturing parts and subassemblies for the end item and for routine testing of such parts and subassemblies. The costs set out in the bill of material shall be expressed in current dollars and shall be maintained and received in a manner similar to the manner provided for bills of labor in paragraph (2)(C).

"(4) A defense agency that is responsible for the acquisition of property (including major manufactured end items) or services under a covered contract shall cause to be recorded incurred costs under the contract in the same manner as the defense agency categorizes and records proposed and negotiated costs, including grouping the costs as provided under paragraph (1).

"(c)(1) Nothing in this section shall prohibit a contractor from submitting a request for payment or reimbursement for any bill of labor or any bill of material developed pursuant to an approved system of cost principles and procedures.

"(2) Nothing in this section shall require the submission of the information to be submitted under this section if the contractor does not maintain such information on the date of the enactment of this section.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end thereof the following new item:

"2406. Cost and price management.".

SEC. 918. CONTRACTED ADVISORY AND ASSISTANCE SERVICES

(a) ACCOUNTING PROCEDURE.—(1) The Secretary of Defense shall require that there be established within each military department an accounting procedure to aid in the identification and control of expenditures for services identified as contracted advisory and assistance services.

(2) Not later than six months after the date of the enactment of this Act, the Secretary shall submit to Congress a report describing the accounting procedure established in accordance with paragraph (1) and the implementation of that procedure in each military department.

(b) REGULATIONS TO IDENTIFY CONTRACTED ADVISORY AND ASSISTANCE SERVICES.—(1) The Secretary shall prescribe regulations which specifically describe—

(A) what services the Department of Defense considers to be contracted advisory and assistance services; and

(B) of those services, which services are carried out in direct support of a weapon system and are essential to the development, production, or maintenance of the system.

(2) In prescribing regulations under paragraph (1), the Secretary shall consider the following areas:

(A) Management and professional services.

(B) Special studies and analyses.

(C) Management and support services for research and development activities.

(D) Training.

(E) Management review of program-funded organizations.

(F) Public relations.

(G) Other consulting services.

(H) Engineering development and operational systems development related to research and development activities and production activities.

(I) Technical assistance.

(J) Technical representation.

(K) Quality control, testing, and inspection services.

(L) Specialized medical services.

(M) Architectural and engineering services, other than in connection with construction.

(N) Technical and management assistance for weapons systems management and review.

(3) Regulations required by paragraph (1) shall be prescribed not later than six months after the date of the enactment of this Act.

(c) CONGRESSIONAL BUDGET DOCUMENTS.—Budget documents presented to Congress in support of the annual budget for the Department of Defense—

(1) shall identify the total amount requested for contracted advisory and assistance services (as defined under regulations prescribed under subsection (b));

(2) shall identify the amount requested for each category of such services established by regulations prescribed under subsection (b); and

(3) within each such category, shall separately set forth amounts for such services described in subsection (b)(1)(B).

SEC. 919. REVISION AND EXTENSION OF PROCUREMENT TECHNICAL ASSISTANCE COOPERATIVE AGREEMENT PROGRAM

(a) PROGRAM REVISIONS.—Sections 2411 through 2414 of title 10, United States Code, are amended to read as follows:

"§ 2411. Definitions

"In this chapter:

"(1) 'Eligible entity' means—

"(A) a State (as defined in section 6302(5) of title 31);

"(B) a local government (as defined in section 6302(2) of title 31); and

"(C) a private, nonprofit organization.

"(2) 'Distressed entity' means an eligible entity (within the meaning of paragraph (1)(B)) that—

"(A) has a per capita income of 80 percent or less of the State average; or

"(B) has an unemployment rate one percent greater than the national average for the most recent 24-month period for which statistics are available.

"(3) 'Secretary' means the Secretary of Defense acting through the Director of the Defense Logistics Agency.

"§ 2412. Purposes

"The purposes of the program authorized by this chapter are—

"(1) to increase assistance by the Department of Defense to eligible entities furnishing procurement technical assistance to business entities; and

"(2) to assist eligible entities in the payment of the costs of establishing and carrying out new procurement technical assistance programs and maintaining existing procurement technical assistance programs.

"§ 2413. Cooperative agreements

"(a) The Secretary, in accordance with the provisions of this chapter, may enter into cooperative agreements with eligible entities to carry out the purposes of this chapter.

"(b) Under any such cooperative agreement, the eligible entity shall agree to furnish procurement technical assistance to business entities and the Secretary shall agree to defray not more than one-half of the eligible entity's cost of furnishing such assistance, except that in the case of an eligible entity that is a distressed entity, the Secretary may agree to furnish more than one-half, but not more than three-fourths, of such cost.

"(c) In entering into cooperative agreements under subsection (a), the Secretary shall assure that at least one procurement technical assistance program is carried out in each Department of Defense contract administration services region during each fiscal year.

"§ 2414. Limitation

"The value of the assistance furnished by the Secretary to any eligible entity to carry out a procurement technical assistance program under a cooperative agreement under this chapter during any fiscal year may not exceed $150,000.".

(b) FUNDING.—Section 2415 of such title is amended—

(1) in subsection (a)—

(A) by striking out "fiscal year 1985 is 50 percent and during fiscal year 1986" in paragraph (2) and inserting in lieu thereof "fiscal years 1986 and 1987"; and

(B) by adding at the end the following new paragraph:

"(3) This subsection shall apply only to the first $3,000,000 appropriated to carry out this chapter in each of fiscal years 1986 and 1987.";

(2) by striking out "fiscal year 1986" in subsection (b) and inserting in lieu thereof "fiscal year 1987"; and

(3) by adding at the end thereof the following new subsection:

"(c) For any amount appropriated to carry out this chapter for fiscal year 1986 or 1987 in excess of $3,000,000, the Secretary shall allocate funds available for assistance under this chapter equally to each Defense Contract Administration Services region. If in any such fiscal year there is an insufficient number of satisfactory proposals in a region for cooperative agreements to allow effective use of the funds allocated to that region, the funds remaining with respect to that region shall be reallocated among the remaining regions.".

(c) AUTHORIZATION OF APPROPRIATIONS.—(1) There are authorized to be appropriated $5,000,000 for fiscal year 1986 and $6,000,000 for fiscal year 1987 to be available for the purpose of furnishing assistance to carry out procurement technical assistance programs under cooperative agreements entered into under chapter 142 of title 10, United States Code.

(2) Amounts appropriated for fiscal years 1986 and 1987 for operation and maintenance for the Department of Defense are available to defray the expenses of administering the provisions of such chapter during each such fiscal year, including the expenses related to the employment of any additional personnel necessary to administer such provisions.

(d) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall take effect on October 1, 1985.

PART B—PROCUREMENT PERSONNEL MATTERS

SEC. 921. POST-GOVERNMENT-SERVICE EMPLOYMENT BARS ON SENIOR DEFENSE OFFICIALS

Whoever being a Presidential appointee in Federal employment acts as a primary government representative in the negotiation of a government contract or the settlement thereof with a defense contractor shall not within two years after the termination of said activities with such contractor accept employment from that contractor and upon a knowing violation of this provision the employee shall be punished, upon conviction, with a prison term of up to one year and a fine of up to $5,000 and said defense contractor shall forfeit up to $50,000 in liquidated damages to the Federal Government which shall be provided for in the contract. The Secretary of Defense shall implement this provision by appropriate regulations.

SEC. 922. IMPROVED REPORTING AND DISCLOSURE FOR FORMER EMPLOYEES OF THE DEPARTMENT OF DEFENSE; PREVENTION OF CONFLICTS OF INTEREST

(a) REPORTING AND DISCLOSURE BY FORMER EMPLOYEES.—Subsection (a)(1) of section 2397 of title 10, United States Code, is amended—

(1) by striking out "by negotiation"; and

(2) by striking out "$10,000" and inserting in lieu thereof "$25,000".

(b) PENALTIES.—Subsection (b)(2) of such section is amended to read as follows:

"(2)(A) If a person to whom this subsection applies (i) was employed by, or served as a consultant or otherwise to, a defense contractor at any time during a year at an annual pay rate of at least $25,000 and the defense contractor was awarded contracts by the Department of Defense during the preceding year that totaled at least $10,000,000, and (ii) within the 2-year period ending on the day before the person began the employment or consulting relationship, the person served on active duty or was a civilian employee for the Department, the person shall file a report with the Secretary of Defense in such manner and form as the Secretary may prescribe. The person shall file the report not later than 90 days after the date on which the person began the employment or consulting relationship.

"(B) The person shall file an additional report each time, during the 2-year period beginning on the date the active duty or civilian employment with the Department terminated, that the person's job with the defense contractor significantly changes or the person commences an employment or consulting relationship with another defense contractor under the conditions described in the first sentence. A person required to file an additional report under this subparagraph shall file the report within 30 days after the date of the change or the date the employment or consulting relationship commences, as the case may be.".

(c) REPORTS.—Subsection (b)(3) of such section is amended—

(1) by striking out clause (D) and inserting in lieu thereof the following:

"(D) A description of the duties and work performed or to be performed by the person for the defense contractor, and a description of any similar duties or work performed for which the person had at least partial responsibility as a civilian official or employee of the Department of Defense or a member of the armed forces during the 2-year period referred to in paragraph (2)(A)(ii).";

(2) in clause (F)—

(A) by striking out "brief"; and

(B) by striking out "3-year period before that duty or service ended" and inserting in lieu thereof "2-year period referred to in paragraph (2)(A)(ii) and a description of the type of work performed and the extent to which such work was performed by the person for the defense contractor that has employed the person or has retained the person as a consultant"; and

(3) by adding at the end thereof the following new clause:

"(I) A statement describing any disqualification action taken by the person during the 2-year period referred to in paragraph (2)(A)(ii) with respect to any involvement in a matter concerning the defense contractor.".

(d) FORMER CONTRACTOR EMPLOYEES.—(1) Subsection (c)(1) of such section is amended—

(A) by striking out "fiscal" each place it appears; and

(B) in clause (B)—

(i) by striking out "3-year" and inserting in lieu thereof "2-year"; and

(ii) by striking out "$15,000" and inserting in lieu thereof "$25,000".

(2) Subsection (c)(2) of such section is amended—

(A) by striking out clause (C) and inserting in lieu thereof the following:

"(C) A description of the duties and work performed by the person with the Department and a description of any similar duties or work for which the person had at least partial responsibility as an employee or consultant of the defense contractor during the 2-year period referred to in paragraph (1)(B)."; and

(B) by striking out clause (F) and inserting in lieu thereof the following:

"(F) A description of the duties and work performed by the person for the defense contractor and a description of the type of work and the extent to which such work was performed by the person in connection with contracts of the defense contractor with the Department during the 2-year period referred to in paragraph (1)(B).".

(e) REPORTS NOT TO BE ON FISCAL YEAR BASIS.—Subsection (e) of such section is amended by striking out "fiscal".

(f) ADMINISTRATIVE PENALTY.—Subsection (f) of section 2397 of such title is amended to read as follows:

"(f)(1) A person who fails to comply with the filing requirements of this section shall be liable to the United States for an administrative penalty in the amount of $10,000, or in such lesser amount as may be determined by the Secretary of Defense, considering all the relevant circumstances.

"(2) The Secretary shall determine whether a person has failed to file a report required by this section and shall determine the amount of the penalty under paragraph

(1). The Secretary shall make the determinations on the record after opportunity for an agency hearing as provided in subchapter II of chapter 5 of title 5, United States Code. The determinations of the Secretary shall be subject to judicial review under chapter 7 of such title.".

SEC. 923. REQUIREMENTS RELATING TO PRIVATE EMPLOYMENT CONTACTS BETWEEN CERTAIN DEPARTMENT OF DEFENSE PROCUREMENT OFFICIALS AND DEFENSE CONTRACTORS

(a) IN GENERAL.—(1) Chapter 141 of title 10, United States Code, is amended by inserting after section 2397 the following new section:

"§ 2397a. Requirements relating to private employment contacts between certain Department of Defense procurement officials and defense contractors

"(a) In this section:

"(1) 'Contract' has the same meaning as provided in section 2397(a)(1) of this title.

"(2) 'Covered defense official' means any individual who is serving—

"(A) as a civilian officer or employee of the Department of Defense in a position for which the rate of pay is equal to or greater than the minimum rate of pay payable for grade GS-11 under the General Schedule; or

"(B) on active duty in the armed forces in a pay grade of O-4 or higher.

"(3) 'Defense contractor' has the same meaning as provided in section 2397(a)(2) of this title.

"(4) 'Designated agency ethics official' has the same meaning as the term 'designated agency official' in section 209(10) of the Ethics in Government Act of 1978 (92 Stat. 1850; 5 U.S.C. App.).

"(5) 'Employment' means a relationship under which an individual furnishes services in return for any payment or other compensation paid directly or indirectly to the individual for the services.

"(6) 'Procurement function' includes, with respect to a contract, any function relating to—

"(A) the negotiation, award, administration, or approval of the contract;

"(B) the selection of a contractor;

"(C) the approval of changes in the contract;

"(D) quality assurance, operation and developmental testing, the approval of payment, or auditing under the contract; or

"(E) the management of the procurement program.

"(b)(1) If a covered defense official who has participated in the performance of a procurement function in connection with a contract awarded by the Department of Defense contacts, or is contacted by, the defense contractor to whom the contract was awarded (or an agent of such contractor) regarding future employment opportunities for the official with the defense contractor, the official (except as provided in paragraph (2)) shall—

"(A) promptly report the contact to the official's supervisor and to the designated agency ethics official (or his designee) of the agency in which the covered defense official is employed; and

"(B) for any period for which future employment opportunities for the covered defense official have not been rejected by either the covered defense official or the defense contractor, disqualify himself from all participation in the performance of procurement functions relating to contracts of the defense contractor.

"(2) A covered defense official is not required to report the first contact with a defense contractor under paragraph (1)(A) or to disqualify himself under paragraph (1)(B) if the defense official terminates the contact immediately. However, if an additional contact of the same or a similar nature is made by or with the defense contractor, the covered defense official shall report (as provided in paragraph (1)) the contact and all contacts of the same or a similar nature made by or with the defense contractor during the 90-day period ending on the date the additional contact is made.

"(c) A report required by subsecton (b)(1) shall include—

"(1) the date of each contact covered by the report; and

"(2) a brief description of the substance of the contact.

"(d)(1)(A) If the Secretary of Defense determines under paragraph (2) that a person has failed promptly to make a report required by subsection (b)(1)(A) or (b)(2) or has failed to disqualify himself in any case in which he is required to do so under subsection (b)(1)(B)—

"(i) the person may not accept or continue employment with the defense contractor during the 10-year period beginning with the date of separation from Government service; and

"(ii) the Secretary may impose on the person an administrative penalty in the amount of $10,000, or in such lesser amount as may be prescribed by the Secretary, taking into consideration all the circumstances.

"(B) An individual who accepts or continues employment prohibited by subparagraph (A)(i) shall be liable to the United States for an administrative penalty as provided in subparagraph (A)(ii). Such penalty may be in addition to any penalty previously imposed on the individual under subparagraph (A)(ii) for failure promptly to make a report relating to the defense contractor by whom the individual is employed as required by subsection (b)(1)(A) or (b)(2).

"(C) The Secretary of Defense may take action against an individual under this paragraph before, on, or after the date on which the individual's employment with the Government is terminated.

"(2)(A) The Secretary of Defense shall determine—

"(i) whether an individual has failed promptly to make a report required by subsection (b)(1)(A) or (b)(2) or has failed to disqualify himself in any case in which he is required to do so under subsection (b)(1)(B) and whether to impose a penalty under paragraph (1)(A)(ii) and the amount of such penalty; and

"(ii) whether an individual is liable to the United States for an administrative penalty under paragraph (1)(B) and the amount of such penalty.

There shall be a rebuttable presumption in favor of a covered defense official that failure to report a contact with a defense contractor or failure to disqualify himself from participation in the performance of certain procurement functions is not a violation of subsection (b)(1)(A) or (b)(2) or subsection (b)(1)(B), as the case may be, if the defense official has received an opinion in writing from the designated agency ethics official under subsection (e) stating that a report or disqualification by the official was not necessary.

"(B) Determinations of the Secretary under subparagraph (A) shall be made on the record after opportunity for an agency hearing as provided in subchapter II of chapter 5 of title 5. The determinations of the Secretary shall be subject to judicial review under chapter 7 of such title.

"(e) If a designated agency ethics official or his designee receives a report required by subsection (b) or a request for advice from a covered defense official relating to a contact described in such subsection, the designated agency ethics official or his designee may issue a written opinion regarding the necessity of a covered defense official to file a report or disqualify himself from participation in certain procurement functions, as the case may be.

"(f) A covered defense official should request the advice of his supervisor and the appropriate designated agency ethics official (or his designee) on matters to which this section applies.".

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 2397 the following new item:

"2397a. Requirements relating to private employment contacts between certain Department of Defense procurement officials and defense contractors.".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect with respect to contacts (referred to in section 2397a of title 10, United States Code, as added by subsection (a) of this section) made on or after the date of enactment of this Act.

SEC. 924. MANAGEMENT OF DEPARTMENT OF DEFENSE PROCUREMENT PERSONNEL

(a) REQUIREMENTS FOR EDUCATION, TRAINING, AND EXPERIENCE.—(1) Part II of subtitle A of title 10, United States Code, is amended by adding at the end thereof the following new chapter:

"CHAPTER 85—PROCUREMENT MANAGEMENT PERSONNEL

"Sec.
"1621. Definitions.
"1622. Education, training, and experience requirements: program managers.
"1623. Education, training, and experience requirements: general and flag officers.
"1624. Training program: quality assurance personnel.

"§ 1621. Definitions

"In this chapter:

"(1) 'Program manager' means an officer or employee of the Department of Defense or member of the armed forces assigned by the Secretary of a military department to have overall responsibility for acquisitions under a major defense acquisition program.

"(2) 'Procurement command' means the Army Materiel Command, the systems commands of the Navy, the Air Force Systems Command, or Air Force Logistics Command (or any successor organization of any such command).

"(3) 'Major defense acquisition program' has the meaning given that term in section 139a(a)(1) of this title.

"§1622. Education, training, and experience requirements: program managers

"(a) The Secretary of each military department shall prescribe regulations establishing requirements for the education, training, and experience of any person assigned to duty as the program manager of a major defense acquisition program. Such regulations shall be subject to the approval of the Secretary of Defense.

"(b) Regulations under subsection (a) shall require that, before being assigned to duty as a program manager, a person—

"(1) must have attended the program management course at the Defense Systems Management College or a comparable program management course at another institution; and

"(2) must have at least eight years experience in the acquisition, support, and maintenance of weapon systems, at least two of which were performed while assigned to a procurement command.

"(c) A period of time spent pursuing a program of postgraduate education in a technical or management field or attending the course referred to in subsection (b)(1) may be counted toward the eight-year requirement prescribed in subsection (b)(2).

"(d) In assigning any person to duty as a program manager, the Secretary concerned may waive the requirements of subsection (b) in individual cases. The authority to waive such requirements may not be delegated.

"§1623. Education, training, and experience: flag and general officers

"(a) The Secretary of each military department shall prescribe regulations establishing requirements for the education, training, and experience of general or flag officers assigned to duty in a procurement command. Such regulations shall be subject to the approval of the Secretary of Defense.

"(b) Regulations prescribed under subsection (a) shall require that in order for an officer of a military department to serve in a flag or general officer grade while assigned to duty in a procurement command, the officer must meet the education and experience requirements for program managers prescribed in section 1622(b) of this title.

"(c) The Secretary concerned may waive the requirements for assignment to duty described in subsection (a). The authority to waive such requirements may not be delegated.

"§ 1624. Training program: quality assurance personnel

"The Secretary of Defense shall develop a training program for all personnel of the Department of Defense who are responsible for assuring quality in contractor facilities. The program shall be at least four weeks in duration. A person assigned to perform quality assurance duties in the Department of Defense shall, to the maximum extent practicable, attend such program during the first six months of the assignment to such duties.".

(2) The tables of chapters at the beginning of subtitle A of title 10, United States Code, and at the beginning of part II of such subtitle are each amended by inserting after the item relating to chapter 83 the following new item:

"85. Procurement Management Personnel.....1621".

(b) EFFECTIVE DATES.—(1) Section 1623 of title 10, United States Code (as added by subsection (a)), shall take effect on July 1, 1990.

(2) Section 1624 of title 10, United States Code (as added by subsection (a)), shall take effect on January 1, 1987.

(3) The regulations prescribed under subsection (a) of section 1622 of title 10, United States Code (as added by subsection (a)), shall provide that—

(A) the requirement described in subsection (b)(1) of such section shall take effect on July 1, 1987; and

(B) the requirement described in subsection (b)(2) of such section shall take effect on July 1, 1989.

SEC. 925. ASSIGNMENT OF PRINCIPAL CONTRACTING OFFICERS

(a) DEVELOPMENTAL POLICY.—The Secretary of Defense shall develop a policy regarding the mobility and regular rotation of principal administrative and corporate administrative contracting officers in the Department of Defense.

(b) REPORT.—The Secretary shall submit to the Committees on Armed Services of the Senate and House of Representatives not later than January 1, 1986, a report on such policy.

(c) IMPLEMENTATION.—Such policy shall be implemented not later than April 1, 1986.

PART C—FALSE CLAIMS, DEBARMENT, BURDEN OF PROOF, AND RELATED MATTERS

SEC. 931. INCREASED PENALTIES FOR FALSE CLAIMS IN DEFENSE PROCUREMENT

(a) CRIMINAL FINES.—Notwithstanding sections 287 and 3623 of title 18, United States Code, the maximum fine that may be imposed under such section for making or presenting any claim upon or against the United States related to a contract with the Department of Defense, knowing such claim to be false, fictitious, or fraudulent, is $1,000,000.

(b) CIVIL PENALTIES.—Notwithstanding section 3729 of title 31, United States Code, the amount of the liability under that section in the case of a person who makes a false claim related to a contract with the Department of Defense shall be a civil penalty of $2,000, an amount equal to three times the amount of the damages the Government sustains because of the act of the person, and costs of the civil action.

(c) EFFECTIVE DATE.—Subsections (a) and (b) shall be applicable to claims made or presented on or after the date of the enactment of this Act.

SEC. 932. PROHIBITION ON FELONS CONVICTED OF DEFENSE-CONTRACT-RELATED FELONIES AND PENALTY ON EMPLOYMENT OF SUCH PERSONS BY DEFENSE CONTRACTORS

(a) PROHIBITION.—A person who is convicted of fraud or any other felony arising out of a contract with the Department of Defense shall be prohibited from working in a management or supervisory capacity on any defense contract for a period, as determined by the Secretary of Defense, of not less than one year from the date of the conviction.

(b) PENALTY.—A defense contractor who knowingly employs a person under a prohibition under subsection (a) shall be fined not more than $500,000.

(c) EFFECTIVE DATE.—Subsection (a) shall apply only with respect to crimes committed after the date of the enactment of this Act.

SEC. 933. BURDEN OF PROOF IN GOVERNMENT CONTRACT DISPUTE RESOLUTION

In a proceeding before the Armed Services Board of Contract Appeals, the United States Claims Court, or any other Federal court in which the reasonableness of indirect costs for which a contractor seeks reimbursement from the Department of Defense is in issue, the burden of proof shall be upon the contractor to establish that such costs are reasonable.

SEC. 934. REIMBURSEMENT, INTEREST CHARGES, AND PENALTIES FOR OVERPAYMENTS

(a) COST AND PRICING DATA.—If the United States makes an overpayment to a contractor under a contract with the Department of Defense subject to 2306(f) of title 10, United States Code, and the overpayment was due to the submission by the contractor of inaccurate, incomplete, or noncurrent cost and pricing data, the contractor shall be liable to the United States—

(1) for interest on the amount of such overpayment to be computed from the date the payment was made to the contractor to the date the Government is repaid by the contractor at the applicable rate prescribed by the Secretary of the Treasury pursuant to Public Law 92-41 (85 Stat. 97); and

(2) if the submission of such inaccurate, incomplete, or noncurrent cost and pricing data was a knowing submission, an amount equal to the amount of the overpayment.

(b) DEFENSE PRODUCTION ACT AMENDMENT.—Section 719 of the Defense Production Act of 1950 (50 U.S.C. App. 2168) is amended by striking out the third sentence in subsection (h)(1) and inserting in lieu thereof the following: "Such interest shall be set at a rate established by the Secretary of the Treasury pursuant to Public Law 92-41. Such interest shall accrue from the time such payments were made to the contractor or subcontractor to the time such price adjustment is effected.".

(c) EFFECTIVE DATE.—This section shall apply only to contracts entered into on or after the date of the enactment of this Act.

SEC. 935. SUBPOENAS OF DEFENSE CONTRACTOR RECORDS

Section 2313 of title 10, United States Code, is amended by adding at the end thereof the following new subsection:

"(d)(1) The Director of the Defense Contract Audit Agency (or any successor agency) may require by subpoena the production of books, documents, papers, or records of a contractor, access to which is provided to the Secretary of Defense by subsection (a) or by section 2306(f) of this title.

"(2) Any such subpoena, in the case of contumacy or refusal to obey, shall be enforceable by order of an appropriate United States district court.

"(3) The authority provided by paragraph (1) may not be redelegated.

"(4) The Director (or any successor official) shall submit an annual report to the Secretary of Defense on the exercise of such authority during the preceding year and the reasons why such authority was exercised in any instance. The Secretary shall forward a copy of each such report to the Committees on Armed Services of the Senate and House of Representatives.".

PART D—REPORTS

SEC. 951. REPORT ON PROHIBITION ON INCLUDING GENERAL AND ADMINISTRATIVE OVERHEAD EXPENSES IN THE COMPUTATION OF CONTRACTOR PROFITS

(a) REPORT.—The Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives a report in writing of his views regarding the desirability and advisability of legislation or regulations that would prohibit, in the case of a contract awarded by the Department of Defense using procedures other than competitive procedures (as defined in section 2304(c) of title 10, United States Code), the inclusion of any actual or imputed general and administrative expenses of the contractor in the total cost to which a percentage is applied in order to calculate anticipated profit to be earned by the contractor.

(b) DESIRABILITY OF WAIVER AUTHORITY.—If the Secretary states in the report that the Secretary favors such a prohibition, the Secretary shall indicate in the report the

desirability and advisability of including in any legislation or regulation imposing such a prohibition the authority for the Secretary to waive the prohibition in particular cases if necessary to avoid inequitable economic hardship or if necessary for other expressly stated reasons.

(c) DEADLINE FOR REPORT.—The report shall be submitted not later than 60 days after the date of the enactment of this Act.

SEC. 952. REPORT ON USE OF INDEPENDENT COST ESTIMATES FOR MAJOR DEFENSE ACQUISITION PROGRAMS

(a) REQUIREMENT FOR REPORT.—The Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives a report on the continued use of independent cost estimates in the planning, programing, budgeting, and selection process for major defense acquisition programs of the Department of Defense.

(b) MATTERS TO BE INCLUDED.—The report shall be a follow-on to the report required by section 1203(c) of the Department of Defense Authorization Act, 1984 (Public Law 98-94; 10 U.S.C. 1039 note), and shall include—

(1) an overall assessment of the extent to which such estimates were adopted by the Department of Defense in making decisions on the fiscal year 1987 budget and a general explanation of why such estimates might have been modified or rejected; and

(2) a statement as to whether adequate personnel and financial resources have been allocated at all levels of the Department of Defense to those organizations or offices charged with developing or assessing independent estimates of the costs of major defense acquisition programs.

(c) DEADLINE.—The report shall be submitted not later than April 1, 1986.

SEC. 953. GAO STUDY OF FEASIBILITY OF CIVILIAN DEFENSE ACQUISITION AGENCY

(a) STUDY.—The Comptroller General shall carry out a study to review all available evidence, studies, reports, and analyses concerning the organizational structure for defense procurement.

(b) REPORT.—(1) After conducting such study, the Comptroller General shall submit to Congress a report concerning the advantages and disadvantages of the establishment of an agency either within or outside the Department of Defense with the mission of coordinating, supervising, directing, and performing all procurement functions for the Department of Defense.

(2) The report required by paragraph (1) shall be submitted not later than one year after the date of the enactment of this Act.

SEC. 954. REPORT ON SUSPENSION AND DEBARMENT OF DEFENSE CONTRACTORS

(a) REQUIRED REPORT.—The Secretary of Defense shall submit to Congress a report on the policies prescribed and actions taken by the Secretary to implement the recommendations contained in the report of the Inspector General of the Department of Defense entitled "Review of Suspension and Debarment Activities Within the Department of Defense", dated May 1984.

(b) COOPERATION WITH THE OFFICE OF INSPECTOR GENERAL.—The report under subsection (a) shall be prepared in cooperation with the Office of the Inspector General of the Department of Defense.

(c) DEADLINE FOR REPORT.—The report shall be submitted not later than 180 days after the date of the enactment of this Act.

SEC. 955. REPORT ON THE USE OF COMPETITION UNDER SECTION 8(a) SET-ASIDE PROGRAM

(a) REQUIREMENT FOR REPORT.—The Secretary of Defense and the Administrator of the Small Business Administration shall each submit to the Committees on Armed Services and on Small Business of the Senate and House of Representatives a report on the feasibility of providing for the use of competitive procedures for contracts awarded by the Department of Defense under the set-aside program of the Small Business Administration under section 8(a) of the Small Business Act.

(b) DEADLINE FOR REPORTS.—The reports required by subsection (a) shall be submitted not later than 180 days after the date of the enactment of this Act.

SEC. 956. REPORT ON EFFORTS TO INCREASE DEFENSE CONTRACT AWARDS TO INDIAN-OWNED BUSINESSES

(a) REPORT REQUIREMENT.—The Secretary of Defense shall submit to Congress a report on the efforts by the Department of Defense during fiscal years 1984 and 1985 to increase contract awards to Indian-owned businesses in accordance with the memorandum of understanding between the Department of Defense and the Small Business Administration of September 29, 1983. Such report shall include, to the maximum extent practicable, any data regarding the number and value of prime contracts awarded by the Department during such fiscal years to such businesses.

(b) DEADLINE FOR REPORT.—Such report shall be submitted by March 31, 1986.

(c) DEFINITION.—For the purposes of this section, the term "Indian-owned business' means a business firm owned and controlled by American Indians, including a tribally owned for-profit entity.

PART E—TECHNICAL AMENDMENTS TO FEDERAL PROCUREMENT LAW

SEC. 961. TECHNICAL CORRECTIONS TO FEDERAL PROCUREMENT LAW

(a) SIMPLIFICATION OF PROCEDURES FOR CERTAIN NONCOMPETITIVE PURCHASES.—(1) The second sentence of section 2304(f)(2) of title 10, United States Code, is amended to read as follows: "The justification and approval required by paragraph (1) is not required—

"(A) when a statute expressly requires that the procurement be made from a specified source;

"(B) when the agency's need is for a brand-name commercial item for authorized resale;

"(C) in the case of a procurement permitted by subsection (c)(7); or

"(D) in the case of a procurement conducted under (i) the Act of June 25, 1938 (41 U.S.C. 46 et seq.), popularly referred to as the Wagner-O'Day Act, or (ii) section 8(a) of the Small Business Act (15 U.S.C. 637(a).".

(2) The second sentence of section 303(f)(2) of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 253(f)(2)) is amended to read as follows: "The justification and approval required by paragraph (1) is not required—

"(A) when a statute expressly requires that the procurement be made from a specified source;

"(B) when the agency's need is for a brand-name commercial item for authorized resale;

"(C) in the case of a procurement permitted by subsection (c)(7); or

"(D) in the case of a procurement conducted under (i) the Act of June 25, 1938 (41 U.S.C. 46 et seq.), popularly referred to as the Wagner-O'Day Act, or (ii) section 8(a) of the Small Business Act (15 U.S.C. 637(a).".

(b) NATO MUTUAL SUPPORT PROCUREMENT.—Section 2323(b) of chapter 138 of title 10, United States Code, is amended by striking out "section 2304(g)" and inserting in lieu thereof "section 2304(a)".

(c) ADP PROCUREMENT.—Section 111 of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 759) is amended by adding at the end thereof the following new subsection:

"(i) The justifications and approvals required by section 303(f)(1) of this Act shall apply in the case of any procurement under this section for which the minimum needs are so restrictive that only one manufacturer is capable of satisfying such needs. Such procurement includes either a sole source procurement or a procurement by specific make and model. Such justification and approval shall be required notwithstanding that more than one bid or offer is made or that the procurement obtains price competition and such procurement shall be treated as a procurement using procedures other than competitive procedures for purposes of section 19(b) of the Office of Federal Procurement Policy Act (41 U.S.C. 417(b)).".

(d) CLARIFICATION OF REGULATIONS CONCERNING TECHNICAL DATA.—(1) Section 2320(a)(1) of title 10, United States Code, is amended by striking out "the technical data" and inserting in lieu thereof "the item or process to which the technical data pertains".

(2) Section 21(c)(1) of the Office of Federal Procurement Policy Act (41 U.S.C. 418a(c)(1)) is amended by striking out "the technical data" and inserting in lieu thereof "the item or process to which the technical data pertains".

(3) The second sentence of section 301(c) of the Small Business and Federal Procurement Competition Enhancement Act of 1984 (41 U.S.C. 418a note) is amended by striking out "July 1, 1985" and inserting in lieu thereof "October 19, 1985".

(e) EFFECTIVE DATE.—The amendments made by subsections (a), (b), and (c) shall take effect as if included in the enactment of the Competition in Contracting Act of 1984 (title VII of division B of Public Law 98-369).

TITLE X—MATTERS RELATING TO ARMS CONTROL

SEC. 1001. POLICY ON COMPLIANCE WITH EXISTING STRATEGIC OFFENSIVE ARMS AGREEMENTS

(a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the United States should vigorously pursue with the Soviet Union the resolution of concerns of the United States over Soviet compliance with existing strategic arms control agreements and should seek corrective actions through confidential diplomatic channels, including, if appropriate, the Standing Consultative Commission and the Nuclear and Space Arms negotiations;

(2) the Soviet Union should take positive steps to resolve the compliance concerns of the United States about existing strategic offensive arms agreements in order to maintain the integrity of those agreements and to strengthen the positive environment necessary for the successful negotiation of a new strategic offensive arms agreement;

(3) the United States should continue, through December 31, 1986, to refrain from undercutting the provisions of existing strategic offensive arms agreements—

(A)(i) to the extent that the Soviet Union refrains from undercutting those provisions; and

(ii) if the Soviet Union actively pursues arms reduction agreements in the Nuclear and Space Arms negotiations; or

(B) until a new strategic offensive arms agreement between the United States and the Soviet Union is concluded;

(4) the President—

(A) should carefully consider the impact of any change in the current policy of the United States regarding existing strategic offensive arms agreements on the long-term security interests of the United States and its allies; and

(B) should consult with Congress before making any change in that policy; and

(5) any decision by the President to continue the existing United States no-undercut policy beyond December 31, 1986, should be a matter for consultation between the President and Congress and for subsequent review and debate by Congress.

(b) REQUIREMENT FOR REPORT.—Not later than February 1, 1986, the President shall submit to Congress a report containing the following:

(1) A range of projections and comparisons, on a year-by-year basis, of United States and Soviet strategic weapons dismantlements that would be required over the next five years if the United States and the Soviet Union were to adhere to a policy of not undercutting existing strategic arms control agreements.

(2) A range of projections and comparisons, on a year-by-year basis, of likely United States and Soviet strategic offensive force inventories over the next five years assuming a termination at the end of 1985 in the current no-undercut policy.

(3) An assessment of the possible Soviet political, military, and negotiating responses to the termination of the United States no-undercut policy.

(4) Recommendations regarding the future of United States interim restraint policy.

(c) PROPOSAL OF MEASURES.—If the President finds and reports to Congress that—

(1) the Soviet Union has violated the provisions of any strategic arms agreement; and

(2) such violations impair or threaten the security of the United States,

the President may propose to Congress such measures as he considers necessary to protect the security of the United States.

(d) SCOPE OF POLICY.—Nothing in this section shall be construed—

(1) to restrain or inhibit the constitutional powers of the President;

(2) to endorse unilateral United States compliance with existing strategic arms agreements;

(3) as prohibiting the United States from carrying out proportionate responses to Soviet undercutting of strategic arms provisions;

(4) as prohibiting or delaying the development, flight testing, or deployment of the small intercontinental ballistic missile (SICM) as authorized by law; or

(5) as establishing a precedent to continue the no-undercut policy beyond December 31, 1986.

SEC. 1002. ANNUAL REPORT ON SOVIET COMPLIANCE WITH ARMS CONTROL COMMITMENTS

Not later than December 1, 1985, and not later than December 1 of each following year, the President shall submit to the Congress a report (in both classified and unclassified versions) containing, with respect to the compliance of the Soviet Union with its arms control commitments, the findings of the President and any additional information necessary to keep the Congress currently informed.

SEC. 1003. STUDY OF ARMS CONTROL VERIFICATION CAPABILITIES

(a) INTERAGENCY STUDY.—The President shall provide for an interagency study with the purpose of determining possible avenues for cooperation between the United States and the Soviet Union in the development of capabilities not subject to national security restrictions for verification of compliance with arms control agreements. Areas of possible cooperation to be examined shall include—

(1) limited exchanges of data and scientific personnel; and

(2) the conduct of a joint technological effort in the area of seismic monitoring.

(b) AGENCIES INCLUDED.—The President shall provide for participation in the interagency study under subsection (a) by—

(1) the Secretary of State;

(2) the Secretary of Defense;

(3) the Secretary of Energy;

(4) the Director of the Arms Control and Disarmament Agency;

(5) the heads of appropriate intelligence agencies;

(6) the Joint Chiefs of Staff; and

(7) such other officers as the President may designate.

(c) REPORT.—(1) The President shall submit to Congress a report on the results of the interagency study.

(2) The report shall be submitted in both a classified and unclassified version.

(3) The report shall be submitted not later than May 1, 1986.

SEC. 1004. SENSE OF CONGRESS RELATING TO UNITED STATES-SOVIET NEGOTIATIONS ON REDUCTION IN NUCLEAR ARMS

It is the sense of the Congress—

(1) that the President of the United States and the General Secretary of the Communist Party of the Union of Soviet Socialist Republics should be commended for their willingness to meet to discuss major issues in United States-Soviet relations; and

(2) that following thorough preparation, such meetings should be used to work for the realization of mutual, equitable, and verifiable reductions in nuclear arms.

SEC. 1005. PILOT PROGRAM FOR EXCHANGE OF CERTAIN HIGH-RANKING MILITARY AND CIVILIAN PERSONNEL WITH THE SOVIET UNION

(a) SUBMISSION OF PLAN.—The Secretary of Defense shall submit to the appropriate committees of Congress a plan for the establishment and operation during fiscal year 1986 of a pilot program for the exchange of visits between—

(1) high-ranking officers of the Armed Forces of the United States and high-ranking civilian officials of the Department of Defense; and

(2) corresponding high-ranking officers and officials of the Soviet Union.

(b) REQUIREMENTS OF PLAN.—Such plan shall include—

(1) specific identification of the United States officers and officials selected for participation in the program;

(2) the proposed length of the exchange visits with the Soviet Union;

(3) a description of the specific goals of each exchange visit;

(4) an estimate of the cost to the United States of participation in each visit;

(5) a description of any special actions that will be taken to protect classified information of the United States during any visit to the United States by officers or officials of the Soviet Union who are participating in the program; and

(6) any other details of the program that the Secretary considers appropriate.

(c) AVAILABILITY OF FUNDS.—Of the funds appropriated pursuant to section 301(a), the sum of $100,000 shall be available only for costs required for participation by the United States in the pilot program described in subsection (a), including costs for travel, subsistence, and other support expenses.

(d) DEADLINE FOR PLAN.—The Secretary shall submit the plan required by subsection (a) not later than December 1, 1985.

SEC. 1006. REPORT ON NUCLEAR WINTER FINDINGS AND POLICY IMPLICATIONS

(a) CONTINUED PARTICIPATION IN INTERAGENCY STUDIES.—Notwithstanding any limitation in any other provision of this Act, the Secretary of Defense, in accordance with section 1107(a) of the Department of Defense Authorization Act, 1985 (Public Law 98-525), shall participate in any comprehensive interagency study conducted on the atmospheric, climatic, environmental, and biological consequences of nuclear war and the implications that such consequences have for the nuclear weapons strategy and policy, the arms control policy, and the civil defense policy of the United States.

(b) REPORT ON NUCLEAR WINTER FINDINGS.—Not later than March 1, 1986, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives an unclassified report suitable for release to the public, together with classified addenda (if required), concerning the subject described in subsection (a). The Secretary shall include in such report the following:

(1) A detailed review and assessment of the findings in the current body of domestic and international scientific literature on the atmospheric, climatic, environmental, and biological consequences of nuclear explosions and nuclear exchanges.

(2) A thorough evaluation of the implications that such findings have on—

(A) the nuclear weapons policy of the United States, especially with regard to strategy, targeting, planning, command, control, procurement, and deployment;

(B) the nuclear arms control policy of the United States; and

(C) the civil defense policy of the United States.

(3) A discussion of the manner in which the results of such evaluation of policy implications will be incorporated into the nuclear weapons, arms control, and civil defense policies of the United States.

(4) An analysis of the extent to which current scientific findings on the consequences of nuclear explosions are being studied, disseminated, and used in the Soviet Union.

TITLE XI—MATTERS RELATING TO NATO

SEC. 1101. LIMITED AUTHORITY TO EXCEED PERMANENT CEILING ON UNITED STATES FORCES ASSIGNED TO NATO

Section 1002(c)(1) of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2575), is amended by adding at the end thereof the following new sentence: "The Secretary of Defense may exceed such permanent ceiling in any year by a number equal to not more than ½ of 1 percent for the purpose of achieving sound management in the rotation of members of the Armed Forces of the United States to and from assignment to permanent duty ashore in European member nations of

NATO, but only if the Secretary determines that the increase in such year is necessary for such purpose.

SEC. 1102. NORTH ATLANTIC TREATY ORGANIZATION COOPERATIVE PROJECTS

(a) REVISION OF AUTHORITY.—(1) Section 27 of the Arms Export Control Act (22 U.S.C. 2767) is amended to read as follows:

"SEC. 27. NORTH ATLANTIC TREATY ORGANIZATION COOPERATIVE PROJECTS

"(a) The President may enter into a cooperative project agreement with the North Atlantic Treaty Organization (NATO) or with one or more member countries of that organization.

"(b) As used in this section—

"(1) the term 'cooperative project' means a jointly managed arrangement, described in a written agreement among the parties, which is undertaken in order to further the objectives of standardization, rationalization, and interoperability of the armed forces of North Atlantic Treaty Organization member countries and which provides—

"(A) for one or more of the other participants to share with the United States the costs of research on and development, testing, evaluation, or joint production (including follow-on support) of certain defense articles;

"(B) for concurrent production in the United States and in another member country of a defense article jointly developed in accordance with clause (A); or

"(C) for procurement by the United States of a defense article or defense service from another member country; and

"(2) the term 'other participant' means a participant in a cooperative project other than the United States.

"(c) Each agreement for a cooperative project shall provide that the United States and each of the other participants will contribute to the cooperative project its equitable share of the full cost of the cooperative project and will receive an equitable share of the results of the cooperative project. The full costs of such cooperative project shall include overhead and administrative costs. The United States and the other participants may contribute their equitable shares of the full cost of such cooperative project in funds or in defense articles or defense services needed for the project. Military assistance and financing received from the United States Government may not be used by any other participant to provide its share of the cost of such cooperative project. Such agreements shall provide that no requirement shall be imposed by a participant for worksharing or other industrial or commercial compensation in connection with such agreement that is not in accordance with such agreement.

"(d) The President may enter into contracts or incur other obligations for a cooperative project on behalf of the other participants, without charge to any appropriation or contract authorization, if each of the other participants in the cooperative project agrees (1) to pay its equitable share of the contract or other obligations, and (2) to make such funds available in such amounts and at such times as may be required by the contract or such other obligations and to pay any damages and costs that may accrue from the performance of or cancellation of such contract or other obligations in advance of the time such payments, damages, or costs are due.

"(e) With the approval of the Secretary of State and the Secretary of Defense, a cooperative agreement entered into by the United States before the date of the enactment of the Department of Defense Authorization Act, 1986, that otherwise meets the requirements of this section may be treated on and after such date as having been made under this section.

"(f)(1) For those cooperative projects entered into on or after the date of the enactment of the Department of Defense Authorization Act, 1986, the President may reduce or waive the charge or charges which would otherwise be considered appropriate under section 21(e) of this Act in connection with sales under sections 21 and 22 of this Act when such sales are made as part of the cooperative project. However, the President may reduce or waive such charge or charges only if the other participants agree to reduce or waive corresponding charges.

"(2) Notwithstanding section 21(e)(1)(A) and section 43(b) of this Act, administrative surcharges shall not be increased on other sales made under this Act in order to compensate for reductions or waivers of such surcharges under this section. Funds received pursuant to such other sales shall not be available to reimburse the costs incurred by the United States Government for which reduction or waiver is approved by the President under this section.

"(g) Not less than 15 days before a cooperative project agreement is signed on behalf of the United States, the President shall transmit to the Speaker of the House of Representatives, the chairman of the Committee on Foreign Relations of the Senate, and the chairman of the Committee on Armed Services of the Senate a numbered certification with respect to such proposed agreement, setting forth—

"(A) a detailed description of the cooperative project with respect to which the certification is made;

"(B) an estimate of the quantity of the defense articles expected to be produced in furtherance of such cooperative project;

"(C) an estimate of the full cost of the cooperative project, with an estimate of that part of the full cost to be incurred by the United States Government for its participation in such cooperative project and an estimate of that part of the full costs to be incurred by the other participants;

"(D) an estimate of the dollar value of the funds to be contributed by the United States and each of the other participants on behalf of such cooperative project;

"(E) a description of the defense articles and defense services expected to be contributed by the United States and each of the other participants on behalf of such cooperative project;

"(F) a statement of the foreign policy and national security benefits anticipated to be derived from such cooperative project; and

"(G) to the extent known, whether it is likely that prime contracts will be awarded to particular prime contractors or subcontracts will be awarded to particular subcontractors to comply with the proposed agreement.

"(h) Section 36(b) of this Act shall not apply to sales made under section 21 or 22 of this Act and to production and exports made pursuant to cooperative projects under this section, and section 36(c) of this Act shall not apply to the issuance of licenses or other approvals under section 38 of this Act, if such sales are made, such production and exports ensue, or such licenses or approvals are issued as part of a cooperative project.

"(i) The authority under this section is in addition to the authority under sections 21 and 22 of this Act and under any other provision of law.

"(j) Notwithstanding the amendments made to this section by the Department of Defense Authorization Act, 1986, projects entered into under this section before the date of such amendments may be carried through to conclusion in accordance with the terms of this section as in effect immediately before the effective date of amendments.".

(2) Section 2(b) of such Act (22 U.S.C. 2752(b)) is amended to read as follows:

"(b) Under the direction of the President, the Secretary of State (taking into account other United States activities abroad, such as military assistance, economic assistance, and food for peace program) shall be responsible for the continuous supervision and general direction of sales, leases, financing, cooperative projects, and exports under this Act, including, but not limited to, determining—

"(1) whether there will be a sale to or financing for a country and the amount thereof;

"(2) whether there will be a lease to a country;

"(3) whether there will be a cooperative project and the scope thereof; and

"(4) whether there will be delivery or other performance under such sale, lease, cooperative project, or export,

to the end that sales, financing, leases, cooperative projects, and exports will be integrated with other United States activities and to the end that the foreign policy of the United States would be best served thereby.".

(3) Section 3(a) of such Act (22 U.S.C. 2753(a)) is amended—

(A) in the text preceding clause (1), by inserting ", and no agreement shall be entered into for a cooperative project (as defined in section 27(b) of this Act)," after "international organization,";

(B) in paragraph (2)—

"(i) by inserting ", or produced in a cooperative project (as defined in section 27 of this Act)" after "so furnished to it";

(ii) by inserting "(or the North Atlantic Treaty Organization or the specified member countries (other than the United States) in case of a cooperative project)" after "international organization" the second place it appears; and

(C) in paragraph (3), by inserting "or service" after "such article" both places it appears.

(4) Section 42(e) of such Act (22 U.S.C. 2791(e)) is amended—

(A) in paragraph (1), by inserting ", and each contract entered into under section 27(d) of this Act," after "of this Act"; and

(B) in paragraph (3), by inserting "or under contracts entered into under section 27(d) of this Act" after "of this Act".

(5) The amendments made by this subsection are repealed effective as of the effective date of similar amendments to the Arms Export Control Act in the International Security and Development Cooperative Act of 1985 or any other law.

(b) AMENDMENT TO TITLE 10, UNITED STATES CODE.—(1) Chapter 141 of title 10, United States Code (as amended by section 604(a)(1)), is amended by adding at the end thereof the following new section:

"§ 2407. Acquisition of defense equipment under North Atlantic Treaty Organization cooperative projects

"(a)(1) If the President delegates to the Secretary of Defense the authority to carry out section 27(d) of the Arms Export Control Act (22 U.S.C. 2767(d)), relating to

North Atlantic Treaty Organization (NATO) cooperative projects (as defined in such section), the Secretary may utilize his authority under this title in carrying out contracts or obligations incurred under such section.

"(2) Except as provided in subsection (c), chapter 137 of this title shall apply to such contracts (referred to in paragraph (1)) entered into by the Secretary of Defense. Except to the extent waived under subsection (c) or some other provision of law, all other provisions of law relating to procurement, if otherwise applicable, shall apply to such contracts entered into by the Secretary of Defense.

"(b) When contracting or incurring obligations under section 27(d) of the Arms Export Control Act for cooperative projects, the Secretary of Defense may require subcontracts to be awarded to particular subcontractors in furtherance of the cooperative project.

"(c)(1) Subject to paragraph (2), when entering into contracts or incurring obligations under section 27(d) of the Arms Export Control Act outside the United States, the Secretary of Defense may waive with respect to any such contract or subcontract the application of any provision of law, other than a provision of the Arms Export Control Act or section 2304 of this title, that specifically—

"(A) prescribe procedures to be followed in the formation of contracts;

"(B) prescribe terms and conditions to be included in contracts;

"(C) prescribe requirements for or preferences to be given to goods grown, produced, or manufactured in the United States or in United States Government-owned facilities or for services to be performed in the United States; or

"(D) prescribe requirements regulating the performance of contracts.

"(2) A waiver may not be made under paragraph (1) unless the Secretary determines that the waiver is necessary to insure that the cooperative project will significantly further NATO standardization, rationalization, and interoperability.

"(3) The authority of the Secretary to make waivers under this subsection may be delegated only to the Deputy Secretary of Defense or the Acquisition Executive designated for the Office of the Secretary of Defense.

"(d)(1) The Secretary of Defense shall notify the Congress each time he requires that a prime contract be awarded to a particular prime contractor or that a subcontract to be awarded to a particular subcontractor to comply with a cooperative agreement. The Secretary shall include in each such notice the reason for exercising his authority to designate a particular contractor or subcontractor, as the case may be.

"(2) The Secretary shall also notify the Congress each time he exercises a waiver under subsection (c) and shall include in such notice the particular provision or provisions of law that were waived.

"(3) A report under this subsection shall be required only to the extent that the information required by this subsection has not been provided in a report made by the President under section 27(e) of the Arms Export Control Act (22 U.S.C. 2767(e)).

"(e)(1) In carrying out a cooperative project under section 27 of the Arms Export Control Act, the Secretary of Defense may agree that a participant (other than the United States) may make a contract for requirements of the United States under the project if the Secretary determines that such a contract will significantly further NATO standardization, rationalization, and interoperability. Except to the extent waived under this section or under any other provision of law, the Secretary shall ensure that such contract will be made on a competitive basis and that United States sources will not be precluded from competing under the contract.

"(2) If a participant (other than the United States) in a NATO cooperative project makes a contract on behalf of such project to meet the requirements of the United States, the contract may permit the contracting party to follow its own procedures relating to contracting.

"(f) In carrying out a cooperative project, the Secretary of Defense may also agree to the disposal of property that is jointly acquired by the members of the project without regard to any laws of the United States applicable to the disposal of property owned by the United States. Disposal of such property may include a transfer of the interest of the United States in such property to one of the other governments participating in the cooperative agreement or the sale of such property. Payment for the transfer or sale of any interest of the United States in any such property shall be made in accordance with the terms of the cooperative agreement.

"(g) Nothing in this section shall be construed as authorizing—

"(1) the Secretary of Defense to waive any of the financial management responsibilities administered by the Secretary of the Treasury; or

"(2) to waive the cargo preference laws of the United States, including the Military Cargo Preference Act of 1904 (10 U.S.C. 2631) and the Cargo Preference Act of 1954 (46 U.S.C. 1241(b)).".

(2) The table of sections at the beginning of such chapter is amended by adding at the end thereof the following new item:

"2407. North Atlantic Treaty Organization cooperative projects.".

TITLE XI—MATTERS RELATING TO NATO

SEC. 1103. NATO COOPERATIVE RESEARCH AND DEVELOPMENT

(a) FINDINGS.—The Congress hereby finds—

(1) that for more than a decade the member nations of the North Atlantic Treaty Organization (NATO) have provided in the aggregate significantly larger resources for defense purposes than have the member nations of the Warsaw Treaty Organization;

(2) that, despite this fact, the Warsaw Treaty Organization member nations have produced and deployed many more major combat items such as tanks, armored personnel carriers, artillery pieces and rocket launchers, armed helicopters, and tactical combat aircraft than have the member nations of NATO; and

(3) that a major reason for this discouraging performance by NATO is inadequate cooperation among NATO nations in research, development, and production of military end-items of equipment and munitions.

(b) CONGRESSIONAL REQUEST FOR COOPERATION ON R&D.—The Congress, therefore, urges and requests the President, the Secretary of Defense, and the United States Representative to the North Atlantic Treaty Organization to pursue diligently opportunities for member nations of NATO to cooperate—

(1) in research and development on defense equipment and munitions; and

(2) in the production of defense equipment, including—

(A) coproduction of conventional defense equipment by the United States and other member nations of NATO; and

(B) production by United States contractors of conventional defense equipment designed and developed by other member nations of NATO.

(c) FUNDS FOR COOPERATIVE PROJECTS.—(1) Of the funds appropriated pursuant to the authorizations in section 201(a) $200,000,000 shall be available, in equal amounts, to the Army, Navy, Air Force, and Defense Agencies only for NATO cooperative research and development projects as provided in this section.

(2) As used in this section, the term "cooperative research and development project" means a project involving joint participation by the United States and one or more other member nations of NATO under a memorandum of understanding (or other formal agreement) to carry out a joint research and development program—

(A) to develop new conventional defense equipment and munitions; or

(B) to modify existing military equipment to meet United States military requirements.

(d) RESTRICTIONS.—(1) A memorandum of understanding (or other formal agreement) to conduct a cooperative research and development project may not be entered into unless the Secretary of Defense determines that the proposed project enhances the ongoing multinational effort to improve NATO's conventional defense capabilities through the application of emerging technology.

(2) The Secretary may not delegate the authority to make a determination under paragraph (1) except to the Deputy Secretary of Defense or the Under Secretary of Defense for Research and Engineering.

(e) RESTRICTIONS ON PROCUREMENT OF EQUIPMENT AND SERVICES.—In order to assure substantial participation on the part of other member nations of NATO in approved cooperative research and development projects, funds made available under subsection (c) for such projects may not be used to procure equipment or services from any foreign government, foreign research organization, or other foreign entity.

(f) COOPERATIVE OPPORTUNITIES DOCUMENT.—(1)(A) In order to ensure that opportunities to conduct cooperative research and development projects are considered during the early decision points in the Department of Defense's formal development review process in connection with any planned project of the Department of Defense, the Under Secretary of Defense for Research and Engineering shall prepare a formal arms cooperation opportunities document for review by the Defense Systems Acquisition Review Council at its formal meetings.

(B) The Under Secretary shall also prepare an arms cooperation opportunities document for review of each new project for which a Justification of Major Systems New Start document is prepared.

(2) The formal arms cooperation opportunities document referred to in paragraph (1) shall include the following:

(A) A statement indicating whether or not a project similar to the one under consideration by the Department of Defense is in development or production by one or more of the other NATO member nations.

(B) If a project similar to the one under consideration by the Department of Defense is in development by one or more

other member nations of NATO, an assessment by the Under Secretary of Defense for Research and Engineering as to whether that project could satisfy, or could be modified in scope so as to satisfy, the military requirements of the project of the United States under consideration by the Department of Defense.

(C) An assessment of the advantages and disadvantages with regard to program timing, developmental and life cycle costs, technology sharing, and Rationalization, Standardization, and Interoperability (RSI) of seeking to structure a cooperative development program with one or more other NATO member nations.

(D) The recommendation of the Under Secretary of Defense for Research and Engineering as to whether the Department of Defense should explore the feasibility and desirability of a cooperative development program with one or more other member nations of NATO.

(g) SIDE-BY-SIDE TESTING.—(1) It is the sense of Congress—

(A) that the Department of Defense should perform more side-by-side testing of conventional defense equipment manufactured by the United States and other member nations of NATO; and

(B) that such testing should be conducted at the late stage of the development process when there is usually only a single United States prime contractor.

(2) In addition to any funds appropriated for activities of the Director of Defense Test and Evaluation pursuant to section 201(a), $50,000,000 shall be available to the Director, from any other funds appropriated to the Department of Defense for fiscal year 1986, for the acquisition of items of the type specified in paragraph (3) manufactured by other member nations of NATO for side-by-side comparison testing with comparable items of United States manufacture.

(3) Items that may be acquired by the Director of Defense Test and Evaluation under paragraph (2) include the following:

(A) Submunitions and dispensers.

(B) Anti-tank and anti-armor guided missiles.

(C) Mines, for both land and naval warfare.

(D) Runway-cratering devices.

(E) Torpedoes.

(F) Mortar systems.

(G) Light armored vehicles and major subsystems thereof.

(H) Utility vehicles.

(I) High-velocity anti-tank guns.

(J) Short-Range Air Defense Systems (SHORADS).

(K) Mobile air defense systems and components.

(4) The Director of Defense Test and Evaluation shall notify the Committees on Armed Services and on Appropriations of the Senate and House of Representatives of his intent to obligate funds made available to carry out this subsection not less than 30 days before such funds are obligated.

(5) Not later than February 1 of each year, the Director of Defense Test and Evaluation shall submit to the Committees on Armed Services and on Appropriations of the Senate and House of Representatives a report—

(A) on the systems, subsystems, and munitions produced by other member nations of NATO that were evaluated during the previous fiscal year by the Director; and

(B) on the obligation of any funds under this subsection during the previous fiscal year.

(h) SECRETARY TO ENCOURAGE SIMILAR NATO PROGRAMS.—The Secretary of Defense shall encourage other member nations of NATO to establish programs similar to the one provided for in this section.

TITLE XII—DEPARTMENT OF DEFENSE MANAGEMENT

PART A—MANAGEMENT OF FACILITIES AND DOD ORGANIZATION

SEC. 1201. ANNUAL SELECTED ACQUISITION REPORTS

Subsection (c) of section 139a of title 10, United States Code, is amended to read as follows:

"(c)(1) Each Selected Acquisition Report for the first quarter for a fiscal year shall include—

"(A) the same information, in detailed and summarized form, as is provided in reports submitted under section 139 of this title;

"(B) the current program acquisition unit cost for each major defense acquisition program included in the report and the history of that cost from the date the program was first included in a Selected Acquisition Report to the end of the quarter for which the current report is submitted; and

"(C) such other information as the Secretary of Defense considers appropriate.

"(2) Each Selected Acquisition Report for the first quarter of a fiscal year shall be prepared and submitted with the same content as was used for the Selected Acquisition Report for the first quarter of fiscal year 1984.

"(3) In addition to the material required by paragraphs (1) and (2), each Selected Acquisition Report for the first quarter of a fiscal year shall include—

"(A) a full life-cycle cost analysis for each major defense acquisition program included in the report that—

"(i) is in the full-scale engineering development stage or has completed that stage; and

"(ii) was first included in a Selected Acquisition Report for a quarter after the first quarter of fiscal year 1985;

"(B) if the system that is included in that major defense acquisition program has an antecedent system, a full life-cycle cost analysis for that system; and

"(C) production information for each major defense acquisition program included in the report, including (with respect to each such program)—

"(i) specification of the baseline production rate for each year of production of the program, defined as the production rate for each fiscal year through completion of procurement assumed in the decision to proceed with production (commonly referred to as the "Milestone III" decision);

"(ii) specification of the production rate for each fiscal year through completion of procurement assumed in the cost-effectiveness analysis prepared in conjunction with the decision to proceed with full-scale engineering development (commonly referred to as the "Milestone II" decision);

"(iii) specification of the maximum production rate for each year of production under the program, defined as the production rate for each fiscal year through completion of procurement attainable with the facilities and tooling currently programmed to be available for procurement under the program or otherwise provided by Government funds;

"(iv) specification of the current production rate for each year of production, defined as the production rate for the fiscal year during which the report is submitted and the annual production rate currently programmed for each subsequent fiscal year through completion of procurement, based on the President's Budget for the following fiscal year;

"(v) estimation of any cost variance—

"(I) between the program acquisition unit cost at the current production rate specified under clause (iv) and the program acquisition unit cost at the baseline production rate specified under clause (i); and

"(II) between the total program cost at the current production rate specified under clause (iv) and the total program cost at the baseline production rate specified under clause (i);

"(vi) estimation of any cost variance—

"(I) between the program acquisition unit cost at the current production rate specified under clause (iv) and the program acquisition unit cost at the maximum production rate specified under clause (iii); and

"(II) between the total program cost at the current production rate specified under clause (iv) and the total program cost at the maximum production rate specified under clause (iii); and

"(vii) estimation of any schedule or delivery variance—

"(I) between total quantities assumed in the baseline production rate specified under clause (i) and the current production rate specified under clause (iv); and

"(II) total quantities assumed in the maximum production rate specified under clause (iii) and the current production rate specified under clause (iv).

"(4) Selected Acquisition Reports for the first quarter of a fiscal year shall be known as comprehensive annual Selected Acquisition Reports.".

SEC. 1202. BASE CLOSURES AND REALIGNMENTS

(a) IN GENERAL.—Section 2687 of title 10, United States Code, is amended to read as follows:

"§ 2687. Base closures and realignments

"(a) Notwithstanding any other provision of law, no action may be taken to effect or implement—

"(1) the closure of any military installation at which at least 300 civilian personnel are authorized to be employed;

"(2) any realignment with respect to any military installation referred to in paragraph (1) involving a reduction by more than 1,000, or by more than 50 percent, in the number of civilian personnel authorized to be employed at such military installation at the time the Secretary of Defense or the Secretary of the military department concerned notifies the Congress under subsection (b) of the Secretary's plan to close or realign such installation; or

"(3) any construction, conversion, or rehabilitation at any military facility other than a military installation referred to in clause (1) or (2) which will or may be required as a result of the relocation of civilian personnel to such facility by reason of any closure or realignment to which clause (1) or (2) applies,

unless and until the provisions of subsection (b) are complied with.

"(b) No action described in subsection (a) with respect to the closure of, or a realignment with respect to, any military installation referred to in such subsection may be taken unless and until—

"(1) the Secretary of Defense or the Secretary of the military department concerned notifies the Committees on Armed Services of the Senate and House of Representatives, as part of an annual request for authorization of appropriations to such Committees,

of the proposed closing or realignment and submits with the notification an evaluation of the fiscal, local economic, budgetary, environmental, strategic, and operational consequences of such closure or realignment; and

"(2) a period of 30 legislative days or 60 calendar days, whichever is longer, expires following the day on which the notice and evaluation referred to in clause (1) have been submitted to such committees, during which period no irrevocable action may be taken to effect or implement the decision.

"(c) This section shall not apply to the closure of a military installation, or a realignment with respect to a military installation, if the President certifies to the Congress that such closure or realignment must be implemented for reasons of national security or a military emergency.

"(d)(1) After the expiration of the period of time provided for in subsection (b)(2) with respect to the closure or realignment of a military installation, funds which would otherwise be available to the Secretary to effect the closure or realignment of that installation may be used by him for such purpose.

"(2) Nothing in this section restricts the authority of the Secretary to obtain architectural and engineering services under section 2807 of this title.

"(e) As used in this section:

"(1) 'Military installation' means a base, camp, post, station, yard, center, or other activity under the jurisdiction of the Secretary of a military department which is located within any of the several States, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, the Virgin Islands, or Guam. Such term does not include any facility used primarily for civil works, rivers and harbors projects, or flood control projects.

"(2) 'Civilian personnel' means direct-hire, permanent civilian employees of the Department of Defense.

"(3) 'Realignment' includes any action which both reduces and relocates functions and civilian personnel positions, but does not include a reduction in force resulting from workload adjustments, reduced personnel or funding levels, skill imbalances, or other similar causes.

"(4) 'Legislative day' means a day on which either House of Congress is in session.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to closures and realignments completed on or after the date of the enacment of this Act, except that any action taken to effect or implement any closure or realignment for which a public announcement was made pursuant to section 2687(b)(1) of title 10, United States Code, after April 1, 1985, and before the date of enactment of this Act shall be subject to the provisions of section 2687 of such title as in effect on the day before such date of enactment.

SEC. 1203. DEMONSTRATION PROJECT TO TEST THE USE OF A CERTAIN COMPUTER SYSTEM IN MILITARY HOSPITALS

(a) TEST OF VETERANS' ADMINISTRATION DECENTRALIZED HOSPITAL COMPUTER PROGRAM (DHCP).—The Secretary of Defense (hereinafter in this section referred to as the "Secretary") shall carry out a demonstration project for the purpose of testing the use in military hospitals of the hospital-management computer system of the Veterans' Administration known as the Veterans' Administration's decentralized hospital computer program. The purpose of the test shall be to determine the feasibility and cost-effectiveness of the use in military hospitals of such system rather than the use of a centralized hospital-management computer system, including the Composite Health-Care System.

(b) DURATION AND LOCATION OF DEMONSTRATION PROJECT.—The demonstration project under subsection (a) shall be carried out over a six-month period beginning on March 1, 1986, in two military hospitals. One of such hospitals shall be the hospital at March Air Force Base, and the test of the Veterans' Administration decentralized hospital computer program at such Air Force Base shall be expanded to meet the requirements of this section. The second hospital at which the demonstration project shall be carried out shall be designated by the Secretay of Defense. Such hospital may not be under the jurisdiction of the Secretary of the Air Force and shall be significantly larger than the hospital at March Air Force Base.

(c) USE OF ALL COMPONENTS OF DHCP.—The Secretary, in consultation with the Administrator of Veterans' Affairs, shall ensure that all available components of the Veterans' Administration system referred to in subsection (a) (including equipment and software) are used at their current functional level in each hospital in which the system is tested under this section.

(d) ASSISTANCE FROM VETERANS' ADMINISTRATION.—The Administrator of Veterans' Affairs shall provide, on a reimbursable basis, such personnel and equipment as are requested by the Secretary and determined by the Administrator to be available in order to assist the Secretary in carrying out the demonstration project under subsection (a).

(e) REPORT BY SECRETARY OF DEFENSE.—The Secretary shall transmit to Congress a report describing the demonstration project carried out under this section. Such report shall include specific findings and conclusions by the Secretary, and by the Secretary of each military department, with respect to the feasibility and cost-effectiveness of using the Veterans' Administration system referred to in subsection (a) in military hospitals, including the cost advantage that would accrue from acquiring a hospital-management computer system in the near term rather than the date that would apply if the Secretary were to acquire a centralized computer system, including the Composite Health-Care System.

(f) COMPTROLLER GENERAL EVALUATION AND REPORTS.—(1) The Comptroller General shall evaluate—

(A) the acquisition and implementation of the Composite Health-Care System; and

(B) the conduct of the demonstration project.

(2) The Comptroller General shall submit to Congress the reports specified in subsection (g) with respect to such evaluations and such other reports on such evaluations as may be appropriate.

(3) The evaluations required by paragraph (1) shall include consideration of—

(A) whether the Department of Defense has carried out the demonstration project in accordance with this section;

(B) the results of the demonstration project, including the feasibility and cost-effectiveness of using the Veterans' Administration system referred to in subsection (a) in military hospitals in lieu of the Composite Health-Care System; and

(C) the competitive acquisition process followed by the Department of Defense in making the selection of, and contract awards to, vendors for the Composite Health-Care System.

(g) RESTRICTIONS.—(1) The Secretary may not select vendors for the competition phase of the acquisition of the Composite Health-Care System or enter into any contract related to that phase until the earlier of—

(A) June 1, 1986; or

(B) the end of the 60-day period beginning on the date the Comptroller General submits a report under subsection (f) on the competitive acquisition process followed by the Department of Defense in selecting vendors for such competition phase.

(2) The Secretary may not enter into a contract for the procurement of a centralized computer system for military hospitals, including the Composite Health-Care System, until the Secretary—

(A) evaluates the results of the project carried out under this section in accordance with subsection (e);

(B) submits to Congress a report on such evaluation; and

(C) a period of 60 days has passed after receipt by Congress of that report.

(3) The Secretary may not make the final selection of a vendor or enter into a contract for the procurement of a centralized computer system for military hospitals, including the Composite Health-Care System, until the earlier of—

(A) July 1, 1987; or

(B) the end of the 60-day period beginning on the date on which the Comptroller General submits a report under subsection (f) on—

(i) the results of the demonstration project carried out under this section; and

(ii) the competitive acquisition process followed by the Department of Defense leading to the final selection of a vendor.

(h) DEFINITIONS.—In this section:

(1) The term "military hospital" means a hospital or medical center under the jurisdiction of the Secretary of a military department.

(2) The term "Composite Health-Care System" means the centralized hospital-management computer system that the Department of Defense is in the process of acquiring (as of the date of the enactment of this Act) for its medical facilities.

SEC. 1204. CONTINUED OPERATION BY THE SECRETARY OF DEFENSE OF THE DEFENSE DEPENDENTS' EDUCATION SYSTEM

(a) AMENDMENTS TO DEPARTMENT OF EDUCATION ORGANIZATION ACT.—(1) Sections 202(e), 208, 302, 401(f), of the Department of Education Organization Act (20 U.S.C. 3412(e), 3418, 3442, and 3461(f)) are repealed.

(2) Section 419(a) of such Act (20 U.S.C. 3479(a)) is amended—

(A) by striking out "(1)" after "(a)"; and

(B) by striking out paragraph (2).

(3) Section 503(a) of such Act (20 U.S.C. 3503(a)) is amended—

(A) by striking out "(1)" after "(a)"; and

(B) by striking out paragraph (2).

(4) The table of contents at the beginning of such Act is amended by striking out the items relating to sections 208 and 302.

(5) Section 414(b) of such Act (20 U.S.C. 3474(b)) is amended by striking out "302,".

(b) AMENDMENTS TO DEFENSE DEPENDENTS' EDUCATION ACT OF 1978.—(1) SECTION 1402 OF THE DEFENSE DEPENDENTS' EDUCATION ACT OF 1978 (20 U.S.C. 921) IS AMENDED BY ADDING AT THE END THEREOF THE FOLLOWING NEW SUBSECTION:

"(c) The Secretary of Defense shall consult with the Secretary of Education on the

educational programs and practices of the defense dependents' education system.".

(2)(A) Subsection (a)(1) of section 1410 of such Act (20 U.S.C. 928) is amended by adding at the end thereof the following new sentence: "The membership of each such advisory committee shall also include one nonvoting member designated by the organization recognized as the exclusive bargaining representative of the employees working at the school.".

(B) The first sentence of subsection (b) of such section is amended by striking out "Members" and inserting in lieu thereof "Except in the case of a nonvoting member designated under the last sentence of subsection (a)(1), members".

(C) The second sentence of such subsection is amended by striking out "The Secretary of Education, in consultation with the Secretary of Defense," and inserting in lieu thereof "The Secretary of Defense".

(3)(A) Subsection (a) of section 1411 of such Act (20 U.S.C. 929) is amended to read as follows:

"(a)(1) There is established in the Department of Defense an Advisory Council on Dependents' Education (hereinafter in this section referred to as the 'Council'). The Council shall be composed of—

"(A) the Secretary of Defense and the Secretary of Education, or their respective designees;

"(B) 12 individuals appointed jointly by the Secretary of Defense and the Secretary of Education who shall be individuals who have demonstrated an interest in the field of primary or secondary education and who shall include representatives of professional employee organizations, school administrators, and parents of students enrolled in the defense dependents' education system, and one student enrolled in such system; and

"(C) a representative of the Secretary of Defense and of the Secretary of Education.

"(2) Individuals appointed to the Council from professional employee organizations shall be individuals designated by those organizations.

"(3) The Secretary of Defense, or the Secretary's designee, and the Secretary of Education, or the Secretary's designee, shall serve as cochairmen of the Council.

"(4) The Director shall be the Executive Secretary of the Council.".

(4) Subsection (b)(1) of such section is amended by inserting "the Secretary of Defense and" before "the Secretary of Education".

(5) Subsection (c) of such section is amended—

(A) by striking out "at least four times each year" and inserting in lieu thereof "at least two times each year";

(B) by striking out paragraph (2);

(C) by redesignating paragraphs (3), (4), and (5) as paragraphs (2), (3), and (4), respectively; and

(D) by striking out "Secretary of Education" in paragraph (4) (as redesignated by subparagraph (C) of this paragraph) and inserting in lieu thereof "Secretary of Defense".

(c) CONFORMING AMENDMENT.—Section 5316 of title 5, United States Code, is amended by striking out "Administrator of Education for Overseas Dependents, Department of Education.".

SEC. 1205. AUTHORITY TO ENROLL CERTAIN CHILDREN IN OVERSEAS SCHOOLS OF THE DEFENSE DEPENDENTS' EDUCATION SYSTEM

Section 1404 of the Defense Dependents' Education Act of 1978 (20 U.S.C. 923) is amended by adding at the end thereof the following new subsection:

"(d)(1) The Secretary of Defense may authorize the enrollment in schools of the defense dependents' education system of children in the following classes:

"(A) Children of officers and employees of the United States (including employees of nonappropriated fund activities of the Department of Defense) stationed in overseas areas.

"(B) Children of employees of contractors employed in carrying out work for the United States in overseas areas.

"(C) Children of other citizens or nationals of the United States or of foreign nationals, if the Secretary determines that enrollment of such children is in the national interest.

"(2) Notwithstanding subsection (c), the Secretary may not waive the tuition requirements of subsection (b)(1) with respect to children referred to in paragraph (1).".

SEC. 1206. LIMITATION ON SIZE OF HEADQUARTERS STAFFS

(a) FREEZE ON HEADQUARTERS PERSONNEL.—As of September 30, 1986, the total number of military and civilian personnel assigned to duty in the agencies of the Department of Defense and the military departments to perform management headquarters activities or management headquarters support activities may not exceed the total number of personnel assigned to perform such activities as of September 30, 1985.

(b) CAP ON OSD PERSONNEL.—The number of military and civilian personnel assigned to the Office of the Secretary of Defense as of September 30, 1986, may not exceed 1,765.

(c) EXCLUSIONS.—In computing the number of military and civilian personnel assigned to duty in any agency of the Department of Defense or any military department to perform management headquarters activities or management headquarters support activities, the number of personnel assigned to such duty in the National Security Agency/Central Security Service, the Defense Intelligence Agency, the Organization of the Joint Chiefs of Staff, or the Naval Intelligence Command shall not be included.

(d) DEFINITIONS.—For purposes of this section, the terms "management headquarters activities" and "management headquarters support activities" have the same meanings prescribed for such terms in Department of Defense Directive 5100.73 entitled "Department of Defense Management Headquarters and Headquarters Support Activities", dated January 7, 1985.

SEC. 1207. REPORT ON ORGANIZATIONAL STRUCTURE OF THE MILITARY HEALTH-CARE DELIVERY SYSTEM.

(a) REQUIREMENT FOR REPORT.—(1) The Secretary of Defense shall submit to Congress a report containing a plan for revising the organizational structure of the military health-care delivery system to accomplish the goals described in subsection (b). In addition to recommendations of the Secretary, the report shall contain an analysis and evaluation of the various alternatives for that organizational structure that have been proposed as well as such other measures as the Secretary considers appropriate.

(2) The report of the Secretary shall be prepared through the Office of the Assistant Secretary of Defense for Health Affairs.

(b) GOALS.—The goals referred to in subsection (a) are the following:

(1) Streamlining the process for allocation of resources of the military health-care delivery system, including—

(A) integrating and coordinating the planning, programming, and budgeting of military medical facilities, equipment, and staffing; and

(B) adopting uniform budgeting procedures, uniform measures of workload, and other actions to improve operational efficiency (including the elimination of incentives to the over-use inpatient care).

(2) Improving the quality of medical care, including adoption of uniform, rigorous quality assurance standards and procedures to monitor the implementation of those standards.

(3) Reducing the cost of health care provided by the Department of Defense (in military medical facilities and under the Civilian Health and Medical Program of the Uniformed Services) through adoption or adaptation, where possible, of competitive strategies, cost containment innovations, or other techniques from the private sector.

(4) Enhancing medical readiness, including—

(A) improving joint medical readiness planning within the continental United States and overseas;

(B) standardizing combat medical equipment;

(C) standardizing the methodology used to determine the number of personnel, force structure, and specialty mix necessary to meet wartime medical manpower requirements; and

(D) redirecting graduate medical education programs to provide training in critical combat specialties.

(c) VIEWS OF OTHER DOD COMPONENTS.—The Secretary of each military department and the Joint Chiefs of Staff shall each carry out an independent study of the matters described in subsection (a). The report submitted under subsection (a) shall include the results of each such study. The study carried out by the Joint Chiefs of Staff shall include comments and contributions from the commanders of each of the unified and specified commands.

(d) DEADLINE FOR REPORT.—The report required by subsection (a) shall be submitted not later than 6 months after the date of the enactment of this Act.

SEC. 1208. ANNUAL REPORT ON GUARD AND RESERVE EQUIPMENT

Section 138(b) of title 10, United States Code, is amended by adding at the end thereof the following new paragraph:

"(3) The Secretary shall include in each report under paragraph (2) the following:

"(A) A listing of each major item of equipment required by the Selected Reserve of the Ready Reserve of each reserve component indicating—

"(i) the full war-time requirement of that component for that item, shown in accordance with deployment schedules and requirements over successive 30-day periods following mobilization;

"(ii) the number of each such item in the inventory of the component;

"(iii) a separate listing of each such item in the inventory that is a deployable item and is not the most desired item;

"(iv) the number of each such item projected to be in the inventory at the end of the third succeeding fiscal year; and

"(v) the number of nondeployable items in the inventory as a substitute for a required major item of equipment.

"(B) A narrative explanation of the plan of the Secretary concerned to provide equipment needed to fill the war-time requirement for each major item of equipment to

all units of the Selected Reserve, including an explanation of the plan to equip units of the Selected Reserve that are short major items of equipment at the outset of war.

"(C) For each item of major equipment reported under paragraph (2)(C) in a report for one of the three previous years under this subsection as an item expected to be procured for the Selected Reserve or to be transferred to the Selected Reserve, the quantity of such equipment actually procured for or transferred to the Selected Reserve.".

SEC. 1209. MORATORIUM ON FRANCHISE AGREEMENTS BY MILITARY EXCHANGE SERVICES

(a) IN GENERAL.—During the period beginning on the date of enactment of this Act and ending 30 days after the date Congress receives the report required by subsection (b), but no later than May 1, 1986, the Commanders of the Army and Air Force Exchange Service, the Navy Exchange Service, and the Marine Corps Exchange Service may not begin construction of any facility that—

(1) is located on a military installation in the United States;

(2) is to be used for the operation of a commercial franchise business; and

(3) is not identified in a contract, supplemental agreement to a contract, a contract solicitation, or letter of intent agreed to before the date of the enactment of this Act.

(b) REPORT REQUIREMENT.—(1) Not later than February 1, 1986, the Secretary of Defense shall transmit to Congress a report on current and proposed commercial franchise business operations on military installations.

(2) The report required by paragraph (1) shall include the following:

(A) A description of current and proposed plans of the exchange services referred to in subsection (a) to operate, or to authorize the operation of, commercial franchise businesses on military installations, specifying the franchises, installations, and types of services provided or to be provided under such plans.

(B) An enumeration of any advantages to commencing or expanding commercial franchise business activities on military installations.

(C) A description of the type and value of appropriated fund support (including Federal land and facilities) provided to activities of the exchange services referred to in subsection (a).

(D) A description of review and approval procedures in effect for determining whether the exchange services will enter into new commercial business franchise activities or will expand existing commercial business franchise activities.

(E) A description of the procedure for deciding whether services should be provided under contract or franchise or by using the resources of the exchange services.

(F) A description of the process by which a military installation is selected for new or increased levels of activities of the exchange services.

(G) A description of the consideration given to the impact that the addition of a new commercial business franchise activity or an expansion of an existing commercial business franchise activity of an exchange service at a military installation will have on private commercial business operations in the vicinity of the installation.

(H) An estimate (after consultation with the Secretary of the Treasury) of—

(i) the amount of tax revenues lost annually by State and local jurisdictions as the result of the operation of commercial franchise businesses on military installations in the United States; and

(ii) the potential effect on State and local tax bases of expansion of such businesses.

(I) The legal basis for and propriety of the operation by an instrumentality of the United States of a commercial business on a military installation under a franchise arrangement.

(c) PRIOR NOTICE TO CONGRESS.—(1) An officer or employee of the Department of Defense may not enter into a contract for the construction of a facility for or operation of a commercial franchise business on a military installation in the United States until the Secretary of Defense notifies Congress of the intention to enter into the contract.

(2) Paragraph (1) shall expire at the end of the two-year period beginning on the date of the enactment of this Act.

SEC. 1210. PRIORITY FOR AIR FORCE SHUTTLE OPERATIONS AND PLANNING COMPLEX

(a) DATES FOR IOC.—(1) The Secretary of the Air Force shall give sufficient priority to the completion of the Air Force Shuttle Operations and Planning Complex (SOPC) to ensure an initial operational capability (IOC) date for mission control at such complex in November 1992.

(2) In order to meet that IOC date, the Secretary is encouraged to maximize, to the extent feasible and practicable, commonality of design and equipments at the SOPC with the planned modernization of shuttle control facilities at the Johnson Space Flight Center.

(b) REPORT.—At the time of the submission to Congress of the President's budget for fiscal year 1987, the Secretary of the Air Force shall submit to the Committees on Armed Services of the Senate and House of Representatives a report setting forth a program plan by which the IOC date as specified in subsection (a) may be met.

SEC. 1211. PROVISION OF URANIUM TETRAFLUORIDE TO CONTRACTORS FOR PRODUCTION OF CONVENTIONAL AMMUNITION

(a) IN GENERAL.—Subject to subsection (b), the Secretary of the Army, during fiscal year 1986, may provide uranium tetrafluoride (green salt) from stockpile materials available to the Secretary to a contractor for the production of conventional ammunition for the Army.

(b) CERTIFICATION BY THE SECRETARY.—The Secretary may not provide uranium tetrafluoride to a contractor under this section until the Secretary certifies to Congress that—

(1) such action is necessary to meet the fiscal year 1986 ammunition production requirement because neither uranium tetrafluoride nor depleted uranium metal of the appropriate quality is available to the contractor from commercial sources—

(A) in the quantity needed by the contractor;

(B) during the period in which the material is needed by the contractor; and

(C) at a reasonable price (to be determined by the Comptroller General of the United States after taking into account an appropriate profit and the investment made in facilities as a consequence of the decision of the Secretary to discontinue providing uranium tetrafluoride to contractors beginning in fiscal year 1986);

(2) the contractor has agreed to repay to the United States a quantity of uranium tetrafluoride equivalent to the quantity provided to the contractor by the Secretary and has presented the Secretary with a credible plan for the repayment of the material; and

(3) the contractor has agreed to pay interest (at a rate determined by the Secretary) for the period beginning on the date on which the uranium tetrafluoride is made available to the contractor and ending on the date on which the material is repaid to the United States.

SEC. 1212. PROHIBITION OF CERTAIN RESTRICTIONS ON INSTITUTIONS ELIGIBLE TO PROVIDE EDUCATIONAL SERVICES

(a) No solicitation, contract, or agreement for the provision of off-duty postsecondary education services for members of the Armed Forces of the United States, civilian employees of the Department of Defense, or the dependents of such members or employees may discriminate against or preclude any accredited academic institution authorized to award one or more associate degrees from offering courses within its lawful scope of authority solely on the basis of such institution's lack of authority to award a baccalaureate degree.

(b) No solicitation, contract, or agreement for the provision of off-duty postsecondary education services for members of the Armed Forces of the United States, civilian employees of the Department of Defense, or the dependents of such members of employees, other than those for services at the graduate or postgraduate level, may limit the offering of such services or any group, category, or level of courses to a single academic institution. However, nothing in this section shall prohibit such actions taken in accordance with regulations of the Secretary of Defense which are uniform for all armed services as may be necessary to avoid unnecessary duplication of offerings, consistent with the purpose of this provision of ensuring the availability of alternative offerors of such services to the maximum extent feasible.

(c) This section shall apply to contracts entered into after April 1, 1985.

(d) Nothing in this section shall be construed to require more than one academic institution to be authorized to offer courses aboard a particular naval vessel.

(e)(1) The Comptroller General of the United States shall carry out a study to determine (A) the educational needs of members of the Armed Forces of the United States and civilian employees of the Department of Defense stationed outside the United States and the educational needs of the dependents of such members and employees, (B) the most effective and feasible means of meeting such needs, and (C) the cost of providing such means.

(2) Not later than September 1, 1986, the Comptroller General shall transmit to the Congress a report on the study required by subsection (1). The report shall include the Comptroller General's findings and such recommendations for legislation as the Comptroller General considers appropriate.

SEC. 1221. COUNTERINTELLIGENCE POLYGRAPH PROGRAM

(a) IMPLEMENTATION OF PROGRAM.—During fiscal years 1986 and 1987, the Secretary of Defense shall implement a program of counterintelligence polygraph examinations based upon Department of Defense Directive 5210.48, dated December 24, 1984, for military and civilian personnel of the Department of Defense and personnel of defense contractors whose duties involve access to classified information at the level of top secret or classified information

within special access programs established under section 4.2(a) of Executive Order 12356.

(b) LIMITATION DURING FISCAL YEARS 1986 AND 1987.—The total number of persons required to take a counterintelligence polygraph examination under this section—

(1) may not exceed 3,500 during fiscal year 1986; and

(2) may not exceed 7,000 during fiscal year 1987.

(c) REPORTS.—(1) Not later than December 31, 1985, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives a report on his plans to expand the use of polygraph examinations in the Department of Defense. Such report shall include a discussion of the Secretary's plans for recruiting and training additional polygraph operators.

(2) Not later than December 31, 1986, the Secretary shall submit to the Committees on Armed Services of the Senate and House of Representatives a report on the use of polygraph examinations administered by or for the Department of Defense during fiscal year 1986. The report shall include—

(A) the number of polygraph examinations conducted during such fiscal year;

(B) a description of the purposes and results of such examinations;

(C) a description of the criteria used for selecting programs and individuals for examinations;

(D) the number of persons who refused to submit to an examination;

(E) a description of the actions taken, including denial of clearance or any adverse action, when an individual either failed or refused to take the examination;

(F) an explanation of the uses made of the results of the examinations; and

(G) a detailed accounting of those cases in which more than two examinations were needed to attempt to resolve discrepancies.

(d) POLYGRAPH RESEARCH PROGRAM.—(1) The Secretary of Defense shall carry out a continuing research program to support the polygraph activities of the Department of Defense. The program shall include—

(A) an on-going evaluation of the validity of polygraph techniques used by the Department;

(B) research on polygraph countermeasures and anti-countermeasures; and

(C) developmental research on polygraph techniques, instrumentation, and analytic methods.

(2) Not later than December 31 of each year, the Secretary shall submit to the Committees on Armed Services of the Senate and House of Representatives, the Select Committee on Intelligence of the Senate, and the Permanent Select Committee on Intelligence of the House of Representatives a report on the results during the preceding fiscal year of the research program referred to in paragraph (1).

(3) There is authorized to be appropriated to the Department of Defense for fiscal year 1986 the sum of $590,000 to carry out the research program referred to in paragraph (1).

(e) NON-APPLICATION OF SECTION.—This section does not apply—

(1) to an individual assigned or detailed to the Central Intelligence Agency or to any expert or consultant under a contract with the Central Intelligence Agency;

(2) to (A) an individual employed by or assigned or detailed to the National Security Agency, (B) an expert or consultant under contract to the National Security Agency, (C) an employee of a contractor of the National Security Agency, or (D) an individual applying for a position in the National Security Agency; or

(3) to an individual assigned to a space where sensitive cryptologic information is produced, processed, or stored.

SEC. 1222. REDUCTION IN SECURITY CLEARANCE BACKLOG

(a) FINDING.—The Congress finds that there are many persons with a security clearance at a level of top secret or above who have not been investigated for more than five years as a result of delays in the program of the Department of Defense for periodic reinvestigations of persons with clearances at such a level.

(b) REDUCTION IN CLEARANCE BACKLOG.—The Secretary of Defense shall take such action as may be necessary to achieve a substantial reduction in the backlog under such periodic-reinvestigation program by the end of fiscal year 1986. The Secretary should seek to obtain a 25 percent reduction in that backlog in fiscal year 1986.

(c) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated for fiscal year 1986 for operation and maintenance of defense agencies $25,000,000 which may be used only for the purpose of carrying out actions required by subsection (b).

(d) REPORT.—Not later than April 1, 1986, the Secretary shall submit to Congress a report on the level and manner of obligating the funds appropriated pursuant to the authorization in subsection (c) and on the level of reductions of the backlog achieved at the time of the report. Such report also shall include a description of resources and the funding level which would be needed in order to reduce by the end of fiscal year 1987 such backlog by 50 percent below the level of such backlog on the date of the enactment of this Act.

SEC. 1223. AUTHORITY FOR INDEPENDENT CRIMINAL INVESTIGATIONS BY NAVY AND AIR FORCE INVESTIGATIVE UNITS

The Secretary of the Navy shall prescribe regulations providing to the Naval Investigative Service authority to initiate and conduct criminal investigations on the authority of the Director of the Naval Investigative Service. The Secretary of the Air Force shall prescribe regulations providing to the Air Force Office of Special Investigations authority to initiate and conduct criminal investigations on the authority of the Commander of the Air Force Office of Special Investigations.

SEC. 1224. ESTABLISHMENT OF MINIMUM DRINKING AGE ON MILITARY INSTALLATIONS

(a) MINIMUM DRINKING AGE BASED ON STATE LAW.—Section 2683 of title 10, United States Code, is amended by adding at the end thereof the following new subsection:

"(c)(1) Except as provided in paragraphs (2) and (3), the Secretary concerned shall establish and enforce as the minimum drinking age on a military installation located in a State the age established by the law of that State as the State minimum drinking age.

"(2)(A) In the case of a military installation located—

"(i) in more than one State; or

"(ii) in one State but within 50 miles of another State or Mexico or Canada,

the Secretary concerned may establish and enforce as the minimum drinking age on that military installation the lowest applicable age.

"(B) In subparagraph (A), 'lowest applicable age' means the lowest minimum drinking age established by the law—

"(i) of a State in which a military installation is located; or

"(ii) of a State or jurisdiction of Mexico or Canada that is within 50 miles of such military installation.

"(3)(A) The commanding officer of a military installation may waive the requirement of paragraph (1) if such commanding officer determines that the exemption is justified by special circumstances.

"(B) The Secretary of Defense shall define by regulations what constitute special circumstances for the purposes of this paragraph.

"(4) In this subsection:

"(A) 'State' includes the District of Columbia.

"(B) 'Minimum drinking age' means the minimum age or ages established for persons who may purchase, possess, or consume alcoholic beverages.".

(b) CONFORMING AMENDMENTS.—(1) Section 2683(b) of such title is amended by striking out "section" in subsection (b) and inserting in lieu thereof "subsection (a)".

(2) Section 6 of the 1951 Amendments to the Universal Military Training and Service Act (50 U.S.C. App. 473) is amended by striking out "The" in the first sentence and inserting in lieu thereof "Subject to section 2683(c) of title 10, United States Code, the".

(c) CLERICAL AMENDMENTS.—(1) The heading of section 2683 of title 10, United States Code, is amended to read as follows:

"§2683. Relinquishment of legislative jurisdiction; minimum drinking age on military installations".

(2) The item relating to that section in the table of sections at the beginning of chapter 159 of such title is amended to read as follows:

"2683. Relinquishment of legislative jurisdiction; minimum drinking age on military installations.".

(d) EFFECTIVE DATE.—The amendments made by this section shall take effect 90 days after the date of the enactment of this Act.

(e) REPORT.—(1) Not later than February 1, 1986, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on—

(A) the effects of the provisions of section 2683 of title 10, United States Code, as added by subsection (a); and

(B) the feasibility and desirability of permitting the sale to members of the Armed Forces who have not attained the minimum drinking age established on a military installation under such section, in establishments located on the military installation, of—

(i) low alcohol malt beverages (2.0 percent or less alcohol by weight); and

(ii) low alcohol wine beverages (6.0 percent or less alcohol by volume).

(2) The report required by paragraph (1) shall include—

(A) comments and recommendations by the Secretary concerning the feasibility and desirability of permitting the sale of the low alcohol beverages described in paragraph (1)(B);

(B) an analysis of any effects of such sale on—

(i) the incidence of members of the Armed Forces or their dependents operating motor vehicles while under the influence of alcohol or drugs; and

(ii) the incidence of persons operating motor vehicles on a military installation

while under the influence of alcohol or drugs;

(C) an analysis of any effects of the provisions of section 2683 of title 10, United States Code, as added by subsection (a), on—

(i) the incidence of members of the Armed Forces or their dependents operating motor vehicles while under the influence of alcohol or drugs; and

(ii) the incidence of persons operating motor vehicles on a military installation while under the influence of alcohol or drugs; and

(D) any comments or recommendations the Secretary may consider appropriate, including any proposal for legislative action.

SEC. 1225. CASH AWARDS FOR DISCLOSURES LEADING TO COST SAVINGS

(a) MEMBERS OF THE ARMED FORCES.—(1) Section 1124 of title 10, United States Code, is amended by inserting "disclosure," in subsections (a), (b), (c), and (f) before "suggestion".

(2)(A) The heading of such section is amended to read as follows:

"§ 1124. Cash awards for disclosures, suggestions, inventions, and scientific achievements".

(B) The item relating to such section in the table of sections at the beginning of chapter 57 of such title is amended to read as follows:

"1124. Cash awards for disclosures, suggestions, inventions, and scientific achievements.".

(3) The amendments made by this subsection shall take effect on October 1, 1985.

(b) CIVILIAN EMPLOYEES.—(1)(A) Section 4514 of title 5, United States Code, is amended to read as follows:

"§ 4514. Expiration of authority; reporting requirement

"(a) No award may be made under this subchapter after September 30, 1988.

"(b)(1) Not later than March 15, 1988, the Comptroller General shall submit to Congress a report on the effectiveness of the awards program under this subchapter.

"(2) The report shall include the views of the Comptroller General as to whether the authority to make awards under this subchapter should be continued after September 30, 1988, and, if so, whether any modification in such authority would be appropriate.".

(B) The item relating to such section in the table of sections for chapter 45 of such title is amended to read as follows:

"4514. Expiration of authority; reporting requirement.".

(2) Section 4512 of such title is amended by striking out subsection (c).

PART C—CONTRACTING OUT FOR PERFORMANCE OF CERTAIN FUNCTIONS

PART C—CONTRACTING FOR PERFORMANCE OF CERTAIN FUNCTIONS

SEC. 1231. SPECIFICATION OF CORE-LOGISTICS FUNCTIONS SUBJECT TO CONTRACTING-OUT LIMITATION

(a) IN GENERAL.—A function of the Department of Defense described in subsection (b) shall be deemed for the purposes of section 307(b) of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2514), to be a logistics activity identified by the Secretary of Defense under section 307(a)(2) of such Act as necessary to maintain the logistics capability of the Department of Defense described in section 307(a)(1) of such Act.

(b) DESCRIPTION OF FUNCTIONS.—The functions to which subsection (a) applies are the following:

(1) Depot level maintenance of mission-essential materiel at the following activities of the Army:

Anniston Army Depot, Anniston, Alabama.

Corpus Christi Army Depot, Corpus Christi, Texas.

Crane Army Ammunition Plant, Crane, Indiana.

Fort Wingate Army Depot, Gallup, New Mexico.

Letterkenny Army Depot, Letterkenny, Pennsylvania.

Lexington-Blue Grass Army Depot, Lexington, Kentucky.

McAlester Army Ammunition Plant, McAlester, Oklahoma.

New Cumberland Army Depot, Harrisburg, Pennsylvania.

Pueblo Army Depot, Pueblo, Colorado.

Red River Army Depot, Texarkana, Texas.

Rock Island Arsenal, Rock Island, Illinois.

Sacramento Army Depot, Sacramento, California.

Savanna Army Depot, Savanna, Illinois.

Seneca Army Depot, Romulus, New York.

Sharpe Army Depot, Stockton, California.

Sierra Army Depot, Herlong, California.

Tobyhanna Army Depot, Tobyhanna, Pennsylvania.

Tooele Army Depot, Tooele, Utah.

Umatilla Army Depot, Umatilla, Oregon.

Watervliet Arsenal, Watervliet, New York.

(2) Depot-level maintenance of mission-essential materiel at the following activities of the Navy:

Naval Air Rework Facility, Alameda, California.

Naval Air Rework Facility, Cherry Point, North Carolina.

Naval Air Rework Facility, Jacksonville, Florida.

Naval Air Rework Facility, Norfolk, Virginia.

Naval Air Rework Facility, Pensacola, Florida.

Naval Air Rework Facility, North Island, San Diego, California.

Naval Aviation Supply Office, Philadelphia, Pennsylvania.

Naval Construction Battalion Center, Davisville, Rhode Island.

Naval Construction Battalion Center, Gulfport, Mississippi.

Naval Construction Battalion Center, Port Hueneme, California.

Naval Electronics Systems Engineering Center, San Diego, California.

Naval Ordnance Station, Indian Head, Maryland.

Naval Ordnance Station, Louisville, Kentucky.

Naval Shipyard, Charleston, South Carolina.

Naval Shipyard, Norfolk, Virginia.

Naval Shipyard, Long Beach, California.

Naval Shipyard, Mare Island, California.

Naval Shipyard, Philadelphia, Pennsylvania.

Naval Shipyard, Portsmouth, Kittery, Maine.

Naval Shipyard, Pearl Harbor, Hawaii.

Naval Shipyard, Puget Sound, Bremerton, Washington.

Naval Ship Repair Facility, Guam.

Naval Supply Center, Charleston, South Carolina.

Naval Supply Center, Jacksonville, Florida.

Naval Supply Center, Norfolk, Virginia.

Naval Supply Center, Oakland, California.

Naval Supply Center, Pearl Harbor, Hawaii.

Naval Supply Center, Puget Sound, Bremerton, Washington.

Naval Supply Center, San Diego, California.

Naval Undersea Warfare Engineering Station, Keyport, Washington.

Naval Weapons Station, Charleston, South Carolina.

Naval Weapons Station, Colts Neck, Earle, New Jersey.

Naval Weapons Station, Concord, California.

Naval Weapons Station, Seal Beach, California.

Naval Weapons Station, Yorktown, Virginia.

Naval Weapons Station, Crane, Indiana.

Navy Ships Parts Control Center, Mechanicsburg, Pennsylvania.

TRIDENT Refit Facility, Bangor, Bremerton, Washington.

(3) Depot-level maintenance of mission-essential materiel at the following activities of the Marine Corps:

Marine Corps Logistics Base, Albany, Georgia.

Marine Corps Logistics Base, Barstow, California.

(4) Depot-level maintenance of mission-essential materiel at the following activities of the Air Force:

Aerospace Guidance and Metrology Center, Newark Air Force Station, Ohio.

Ogden Air Logistics Center, Hill Air Force Base, Utah.

Oklahoma City Air Logistics Center, Tinker Air Force Base, Oklahoma.

Sacramento Air Logistics Center, McClellan Air Force Base, California.

San Antonio Air Logistics Center, Kelly Air Force Base, Texas.

Warner Robins Air Logistics Center, Robins Air Force Base, Georgia.

(5) Depot-level maintenance of mission-essential equipment at the following activities of the Defense Logistics Agency:

Defense Construction Supply Center, Columbus, Ohio.

Defense Depot Mechanicsburg, Mechanicsburg, Pennsylvania.

Defense Depot Memphis, Memphis, Tennessee.

Defense Depot Ogden, Ogden, Utah.

Defense Depot Tracy, Tracy, California.

Defense Electronics Supply Center, Dayton, Ohio.

Defense General Supply Center, Richmond, Virginia.

Defense Industrial Plant Equipment Center, Memphis, Tennessee.

Defense Industrial Supply Center, Philadelphia, Pennsylvania.

Defense Logistics Service Center, Battle Creek, Michigan.

Defense Subsistence Office, Bayonne, New Jersey.

(6) Depot-level maintenance of mission-essential materiel at the following activities of the Defense Mapping Agency:

Aerospace Center, Kansas City Field Office, Kansas City, Missouri.

Aerospace Center, St. Louis AFS, Missouri.

Office of Distribution Services, Brookmont, Maryland.

Office of Distribution Services, Clearfield, Utah.

Office of Distribution Services, Philadelphia, Pennsylvania.

(c) MATTERS INCLUDED WITHIN SPECIFIED FUNCTIONS.—The functions described in subsection (b) include—

(1) the facilities and equipment at the activities listed in that subsection; and

(2) the Government personnel who manage and perform the work at those activities.

(d) EXCLUSION OF CERTAIN FUNCTIONS.—Subsection (b) does not include any function that on the date of the enactment of this Act—

(1) is being performed under contract by non-Government personnel; or

(2) has been announced to Congress for review for conversion to performance by non-Government personnel under Office of Management and Budget Circular A-76.

(e) DEFINITION.—For the purposes of this section, the term "mission-essential materiel" means all materiel which is authorized and available to combat, combat support, combat service support, and combat readiness training forces to accomplish their assigned mission.

(f) TECHNICAL AMENDMENT.—Section 307(b)(4) of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2515), is amended by striking out "30-day period" and inserting in lieu thereof "20-day period".

SEC. 1232. ONE-YEAR EXTENSION OF PROHIBITION ON CONTRACTING FOR THE PERFORMANCE OF FIREFIGHTING AND SECURITY FUNCTIONS

(a) EXTENSION OF PROHIBITION.—Section 1221(a) of the Department of Defense Authorization Act, 1984 (Public Law 98-94; 97 Stat. 691), is amended by striking out "October 1, 1985" and inserting in lieu thereof "October 1, 1986".

(b) REPORT.—(1) The Secretary of Defense shall submit to Congress a written report containing—

(A) an assessment of the special needs of the Department of Defense with respect to firefighting and base security; and

(B) an assessment of how those needs are met by both Federal employees and contract personnel.

(2) The report shall be prepared in consultation with the Administrator of the United States Fire Administration of the Federal Emergency Management Agency and shall include the comments of the Administrator on the report.

(3) The report shall be submitted not later than March 1, 1986.

SEC. 1233. SERVICES AND ACTIVITIES TO BE PERFORMED BY NON-GOVERNMENT PERSONNEL

The Secretary of Defense shall take such action as may be necessary to ensure that, in each case in which it has been determined in accordance with law that performance of a service or activity by non-Government personnel would be cost effective and in the best interests of national security, such service or activity is performed by non-Government personnel.

SEC. 1234. INCREASE IN THRESHOLDS APPLICABLE TO STATUTORY CONTRACTING-OUT PROCEDURES

(a) INCREASE IN NUMBERS.—Section 502 of the Department of Defense Authorization Act, 1981 (10 U.S.C. 2304 note), is amended—

(1) in subsection (a)(2)(D)(i), by striking out "50 employees" and inserting in lieu thereof "75 employees"; and

(2) in subsection (d), by striking out "10 or fewer" and inserting in lieu thereof "40 or fewer".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on January 1, 1986.

PART D—ECONOMY AND EFFICIENCY

SEC. 1241. FLEXTIME FOR FEDERAL CONTRACTOR EMPLOYEES

(a) AMENDMENTS TO CONTRACT WORK HOURS AND SAFETY STANDARDS ACT.—(1) Subsection (a) of section 102 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 328(a)) is amended to read as follows:

"(a) Notwithstanding any other provision of law, the wages of every laborer and mechanic employed by any contractor or subcontractor in his performance of work on any contract of the character specified in section 103 shall be computed on the basis of a standard workweek of forty hours, and work in excess of such standard workweek shall be permitted subject to provisions of this section. For each workweek in which any such laborer or mechanic is so employed such wages shall include compensation, at a rate not less than one and one-half times the basic rate of pay, for all hours worked in excess of forty hours in the workweek.".

(2) Section 102(b) of such Act is amended—

(A) by striking out "eight hours in any calendar day or in excess of" in paragraph (1); and

(B) by striking out "eight hours or in excess of" in paragraph (2).

(b) AMENDMENT TO WALSH-HEALEY ACT.—Subsection (c) of the first section of the Act entitled "An Act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes" (41 U.S.C. 35(c)), commonly known as the Walsh-Healey Act, is amended by striking out "eight hours in any one day or in excess of".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on January 1, 1986.

SEC. 1242. PROHIBITION ON ESTABLISHMENT OF PAY RATES FOR PREVAILING RATE EMPLOYEES OF THE DEPARTMENT OF DEFENSE USING SURVEYS OF WAGES PAID OUTSIDE THE LOCAL WAGE AREA

(a) AMENDMENT TO SECTION 5343 OF TITLE 5, U.S.C.—Paragraph (2) of section 5343(d) of title 5, United States Code, is amended to read as follows:

"(2) When the lead agency determines that there is a number of comparable positions in private industry insufficient to establish the wage schedules and rates, such agency shall—

"(A) establish the wage schedules and rates to be applicable to prevailing rate employees other than prevailing rate employees of the Department of Defense on the basis of—

"(i) local private industry rates; and

"(ii) rates paid for comparable positions in private industry in the nearest wage area that such agency determines is most similar in the nature of its population, employment, manpower, and industry to the local wage area for which the wage survey is being made; and

"(B) establish the wage schedules and rates to be applicable to prevailing rate employees of the Department of Defense only on the basis of local private industry rates.".

(b) PROHIBITION ON REDUCTION OF PAY.—The rate of pay payable to a prevailing rate employee employed by the Department of Defense on the day before the date of enactment of this Act may not be reduced by reason of the amendment made by subsection (a).

TITLE XIII—TECHNICAL AND CLERICAL AMENDMENTS

SEC. 1301. ELIMINATION OF CERTAIN STATUTORY GENDER-BASED DISTINCTIONS

(a) GENERAL MILITARY LAW.—(1) Section 772(c) of such title is amended by striking out the second sentence.

(2) Section 1431(b)(3) of title 10, United States Code, is amended by striking out "widow" and inserting in lieu thereof "surviving spouse".

(b) ARMY.—(1)(A) Section 3683 of title 10, United States Code, is repealed.

(B) The table of sections at the beginning of chapter 353 of such title is amended by striking out the item relating to section 3683.

(C) The repeal made by subparagraph (A) shall not apply in the case of a person who performed active service described in section 3683 of title 10, United States Code, as such section was in effect on the day before the date of the enactment of this Act.

(2)(A) Section 3963 of such title is repealed.

(B) The table of sections at the beginning of chapter 369 of such title is amended by striking out the item relating to section 3963.

(C) The repeal made by subparagraph (C) shall not apply in the case of a member of the Regular Army described in section 3963 of title 10, United States Code, as such section was in effect on the day before the date of the enactment of this Act.

(3)(A) Section 4309(b) of such title is amended by striking out "males" and inserting in lieu thereof "persons".

(B) Section 4313(a) of such title is amended by striking out "man" and inserting in lieu thereof "competitor".

(C) Section 4651 of such title is amended by striking out "male".

(4)(A) Section 4712(d) of such title is amended by striking out clauses (1) through (9) and inserting in lieu thereof the following:

"(1) The surviving spouse or legal representative.

"(2) A child of the deceased.

"(3) A parent of the deceased.

"(4) A brother or sister of the deceased.

"(5) The next-of-kin of the deceased.

"(6) A beneficiary named in the will of the deceased.".

(B) Section 4713(a)(2) of such title is amended by striking out clauses (A) through (I) and inserting in lieu thereof the following:

"(A) The surviving spouse or legal representative.

"(B) A child of the deceased.

"(C) A parent of the deceased.

"(D) A brother or sister of the deceased.

"(E) The next-of-kin of the deceased.

"(F) A beneficiary named in the will of the deceased.".

(c) NAVY.—(1) Section 6160(a) of title 10, United States Code, is amended by striking out "enlisted man" and inserting in lieu thereof "enlisted member".

(2) Section 6964(e) of such title is amended by striking out "men" and inserting in lieu thereof "persons".

(3)(A) Section 7601(a) of such title is amended by striking out "widows" and inserting in lieu thereof "widows and widowers".

(B) The heading of such section is amended to read as follows:

"§7601. Sales: members of the naval service and Coast Guard; widows and widowers; civilian employees and other persons".

(C) The item relating to section 7601 in the table of sections at the beginning of chapter 651 of such title is amended to read as follows:

"7601. Sales: members of the naval service and Coast Guard; widows and widowers; civilian employees and other persons.".

(d) AIR FORCE.—(1)(A) Section 8683 of title 10, United States Code, is repealed.

(B) The table of sections at the beginning of chapter 853 of such title is amended by striking out the item relating to section 8683.

(C) The repeal made by subparagraph (A) shall not apply in the case of a person who performed active service described in section 8683 of title 10, United States Code, as such section was in effect on the day before the date of the enactment of this Act.

(2)(A) Section 8963 of such title is repealed.

(B) The table of sections at the beginning of chapter 869 of such title is amended by striking out the item relating to section 8963.

(C) The repeal made by subparagraph (A) shall not apply in the case of an Air Force nurse or medical specialist described in section 8963 of title 10, United States Code, as such section was in effect on the day before the date of the enactment of this Act.

(3) Section 9651 of such title is amended by striking out "male".

(4)(A) Section 9712(d) of such title is amended by striking out clauses (1) through (9) and inserting in lieu thereof the following:

"(1) The surviving spouse or legal representative.

"(2) A child of the deceased.

"(3) A parent of the deceased.

"(4) A brother or sister of the deceased.

"(5) The next-of-kin of the deceased.

"(6) A beneficiary named in the will of the deceased.".

(B) Section 9713(a)(2) of such title is amended by striking out clauses (A) through (I) and inserting in lieu thereof the following:

"(A) The surviving spouse or legal representative.

"(B) A child of the deceased.

"(C) A parent of the deceased.

"(D) A brother or sister of the deceased.

"(E) The next-of-kin of the deceased.

"(F) A beneficiary named in the will of the deceased.".

(e) WORLD WAR II ERA ARMY NURSES.—(1) The Act entitled "An Act to authorize temporary appointment as officers in the Army of the United States of members of the Army Nurse Corps, female persons having the necessary qualifications for appointment in such corps, female dietetic and physical-therapy personnel of the Medical Department of the Army (exclusive of students and apprentices), and female persons having the necessary qualifications for appointment in such department as female dietetic or physical-therapy personnel, and for other purposes", approved June 22, 1944 (58 Stat. 324; 50 U.S.C. App. 1591 et seq.), is repealed.

(2) The repeal made by paragraph (1) shall not apply in the case of any person appointed and assigned under the first section of the Act repealed by such paragraph, as such Act was in effect on the day before the date of the enactment of this Act.

(f) SOLDIERS' AND AIRMEN'S HOME.—The first sentence of section 4 of the Act entitled "An Act prescribing regulations for the Soldiers' Home located at Washington, in the District of Columbia, and for other purposes", approved March 3, 1883 (24 U.S.C. 52), is amended—

(1) by striking out "wife" both places it appears and inserting in lieu thereof "spouse"; and

(2) by striking out "his" and inserting in lieu thereof "such".

(g) DEPENDENTS OF PERSONS MISSING IN ACTION.—Section 551(1)(A) of title 37, United States Code, is amended by striking out "wife" and inserting in lieu thereof "spouse".

SEC. 1302. TECHNICAL AMENDMENTS RELATING TO BENEFITS FOR CERTAIN DIA PERSONNEL

(a) CIVILIAN EMPLOYEES.—(1) Section 192 of title 10, United States Code, is transferred to the end of chapter 83 of such title, redesignated as section 1605, and amended—

(A) in subsections (a) and (b), by striking out "Director of the Defense Intelligence Agency, on behalf of the Secretary of Defense," and inserting in lieu thereof "Secretary of Defense";

(B) in subsection (a)—

(i) by striking out "military and";

(ii) by striking out "under sections 903, 705, and 2308" and inserting in lieu thereof "sections 705 and 903";

(iii) by striking out "22 U.S.C. 4025;"; and

(iv) by striking out "; 22 U.S.C. 4083" and all that follows in such subsection and inserting in lieu thereof ", 4025, 4083) and under section 5924(4) of title 5."; and

(C) by striking out subsection (c) and redesignating subsection (d) as subsection (c).

(2) The item relating to such section in the table of sections at the beginning of chapter 8 of such title is transferred to the end of the table of sections at the beginning of chapter 83 of such title and is amended by striking out "192" and inserting in lieu thereof "1605".

(3) Section 1603 of such title is amended by striking out "chapter" both places it appears and inserting in lieu thereof "sections 1601 and 1602 of this title".

(b) MEMBERS OF THE ARMED FORCES.—(1) Chapter 7 of title 37, United States Code, is amended by adding at the end thereof the following new section:

"§431. Benefits for certain members assigned to the Defense Intelligence Agency

"(a) The Secretary of Defense may provide to members of the armed forces who are assigned to Defense Attache Offices and Defense Intelligence Agency Liaison Offices outside the United States and who are designated by the Secretary of Defense for the purposes of this subsection allowances and benefits comparable to those provided by the Secretary of State to officers and employees of the Foreign Service under paragraphs (2), (3), (4), (6), (7), (8), and (13) of section 901 and sections 705 and 903 of the Foreign Service Act of 1980 (22 U.S.C. 4081 (2), (3), (4), (6), (7), (8), and (13), 4025, 4083) and under section 5924(4) of title 5.

"(b) The authority of the Secretary of Defense to make payments under subsection (a) of this section is effective for any fiscal year only to the extent that appropriated funds are available for such purpose.

"(c) Members of the armed forces may not receive benefits under both subsection (a) of this section and any other provision of this title for the same purpose. The Secretary of Defense shall prescribe such regulations as may be necessary to carry out this subsection.

"(d) Regulations prescribed pursuant to subsection (a) of this section shall be submitted to the Committee on Armed Services and the Permanent Select Committee on Intelligence of the House of Representatives and the Committee on Armed Services and the Select Committee on Intelligence of the Senate before such regulations take effect.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end thereof the following new item:

"431. Benefits for certain members assigned to the Defense Intelligence Agency.".

(3) The authority of the Secretary of Defense under section 431 of title 37, United States Code, as added by paragraph (1), may be delegated in accordance with section 133(d) of title 10, United States Code.

SEC. 1303. GENERAL CLERICAL AMENDMENTS

(a) AMENDMENTS TO TITLE 10.—Title 10, United States Code, is amended as follows:

(1) Section 124(c)(2) is amended by inserting "of the Joint Chiefs of Staff" after "Chairman".

(2) Section 139b(d)(3)(B)(i) is amended by inserting "percent" before the semicolon.

(3) Section 140c(b)(1) is amended by striking out "enactment of this section" and inserting in lieu thereof "September 24, 1983".

(4)(A) Section 520b is amended by striking out "enlistments" and inserting in lieu thereof "enlistment".

(B) The item relating to such section in the table of sections at the beginning of chapter 31 is amended by striking out "enlistments" and inserting in lieu thereof "enlistment".

(5) Section 555 is amended by striking out "section 201(c)" and inserting in lieu thereof "section 201(b)".

(6) The item relating to section 1043 in the table of sections at the beginning of chapter 53 is amended by striking out "Atomospheric" and inserting in lieu thereof "Atmospheric".

(7) Section 1074a(a) is amended by striking out "prescribed by" and all that follows through "the following persons" and inserting in lieu thereof "prescribed by the administering Secretaries, the following persons".

(8) Section 1085 is amended by indenting the first line of the text of the section.

(9) Section 1437(c)(3)(A) is amended by striking out "(notwithstanding section 144 of this title)".

(10) Section 1440 is amended by striking out "section 1437(c)(3)" and inserting in lieu thereof "section 1437(c)(3)(B)".

(11) Section 1450 is amended—

(A) by striking out "subsection (l)" in subsection (i) and inserting in lieu thereof "subsection (l)(3)(B)"; and

(B) by striking out "(notwithstanding subsection (h))" in subsection (l)(3)(A).

(12) Section 1489(a) is amended by striking out "Armed Forces" and inserting in lieu thereof "armed forces".

(13) Section 2304(a)(1)(B) is amended by striking out "krocedures" and inserting in lieu thereof "procedures".

(14) Paragraph (5) of section 2305(b) is reset full measure.

(15) Section 2306 is amended—

(A) by adding a period at the end of subsection (a); and

(B) by striking out "of this title" in subsection (b).

(16) Section 2310 is amended by inserting "this" after "2305 of".

(17) The heading of section 2691 is amended to read as follows:

"§ 2691. Restoration of land used by permit or lease from other agencies".

(18) Section 2821(b) is amended by striking out "paragraph" before the period at the end and inserting in lieu thereof "subsection".

(19) Section 2852 is amended by striking out "section 3324(a) and (b)" and inserting in lieu thereof "subsections (a) and (b) of section 3324".

(20)(A) Section 3843(b) is amended by striking out "after July 1, 1960,".

(B) Sections 3848(a), 3851(a), and 3852 are amended by striking out "After July 1, 1960, each" and inserting in lieu thereof "Each".

(21) Section 5985 is amended by striking out "the Act of March 4, 1911, ch. 265, 36 Stat. 1353, as amended," and inserting in lieu thereof "section 1304 of the Merchant Marine Act, 1936 (46 U.S.C. App. 1295c),".

(22) Section 6148 is amended by redesignating subsection (e) as subsection (d).

(23) Section 7204(a) is amended—

(A) by running "contribute, out of" in after "Secretary of the Navy may";

(B) by aligning clauses (1) through (4) so as to be cut in two ems; and

(C) by aligning the matter after clause (4) flush with the margin.

(24)(A) The heading of section 7309 is amended by striking out the fifth word.

(B) The item relating to that section in the table of sections at the beginning of chapter 633 is amended by striking out the fifth word.

(25) Section 7431(c) is amended—

(A) by striking out "the" at the beginning of paragraphs (1), (2), and (3) and inserting in lieu thereof "The";

(B) by striking out the semicolons at the end of paragraphs (1), (2), and (3) and inserting in lieu thereof periods;

(C) by striking out "a summary" at the beginning of paragraph (4) and inserting in lieu thereof "A summary";

(D) by striking out "; and" at the end of paragraph (4) and inserting in lieu thereof a period; and

(E) by striking out "such" at the beginning of paragraph (5) and inserting in lieu thereof "Such".

(26) The item relating to section 8202 in the table of sections at the beginning of chapter 831 is amended to read as follows:

"8202. Air Force: strength in grade; general officers.".

(27)(A) Section 8848(a) is amended by striking out "After June 30, 1960, each" and inserting in lieu thereof "Each".

(B) Sections 8851(a) and 8852(a) are amended by striking out "After June 30, 1960, except" and inserting in lieu thereof "Except".

(28) Section 9441(b) is amended by striking out "and" at the end of clause (8).

(b) AMENDMENTS TO TITLE 37.—Title 37, United States Code, is amended as follows:

(1) Section 203(a) is amended by inserting "or as otherwise prescribed by law" before the period.

(2) Section 301(c)(1) is amended by striking out the first comma after "(10)".

(3) Sections 308g(f) and 308h(e) are amended by striking out "the date of the enactment of the Department of Defense Authorization Act, 1984" and inserting in lieu thereof "September 24, 1983".

(4) Section 312b(c) is amended by striking out "make an annual report to the House and Senate Armed Services Committees" and inserting in lieu thereof "submit to the Committees on Armed Services of the Senate and House of Representatives an annual report".

(5) Section 402(b) is amended by inserting "or as otherwise prescribed by law" before the period at the end of the fourth sentence.

(6) Section 403(a) is amended by inserting "or as otherwise prescribed by law" after "of this title".

(7) The table of sections at the beginning of chapter 7 is amended—

(A) by striking out the semicolon in the item relating to section 404 and inserting in lieu thereof a colon;

(B) by striking out the item relating to section 405a and inserting in lieu thereof the following:

"405a. Travel and transportation allowances: departure allowances."; and

(C) by striking out the item relating to section 425 and inserting in lieu thereof the following:

"425. United States Navy Band; United States Marine Band: allowances while on concert tour.".

(8) The heading of section 405 is amended to read as follows:

"§405. Travel and transportation allowances: per diem while on duty outside the United States or in Hawaii or Alaska".

(9) Section 406(k) is amended by striking out "to carry out subsection (b)" and inserting in lieu thereof "for providing transportation of household effects of members of the armed forces under subsection (b)".

(10) Section 429 is amended by inserting "(20 U.S.C. 921 et seq.)" after "Defense Dependents' Education Act of 1978".

(11) Section 557(c) is amended by inserting "of this title" after "section 558" both places it appears.

(12) Section 1006(h) is amended by striking out "section 3324 (a) and (b)" and inserting in lieu thereof "subsections (a) and (b) of section 3324".

(13)(A) Section 1012 is amended—

(i) by striking out "under sections 206 (a), (b), and (d), 301(f), 309, 402(b) (last sentence), and 1002 of this title for pay" and inserting in lieu thereof "for the pay, under subsections (a), (b), and (d) of section 206, section 301(f), the last sentence of section 402(b), and section 1002 of this title,";

(ii) by striking out "Disbursements" and inserting in lieu thereof "All such disbursements"; and

(iii) by striking out "under the" and inserting in lieu thereof "as prescribed in those".

(B) The heading of that section is amended to read as follows:

"§1012. Disbursement and accounting: pay of enlisted members of the National Guard".

(C) The item relating to that section in the table of sections at the beginning of chapter 19 is amended to read as follows:

"1012. Disbursement and accounting: pay of enlisted members of the National Guard.".

(D) The amendments made by this paragraph shall take effect as if included in the enactment of section 2(i) of Public Law 97-258.

SEC. 1304. CLERICAL AMENDMENTS TO FEDERAL PROCUREMENT LAW

(a) DEFENSE PROCUREMENT LAW.—Chapter 138 of title 10, United States Code, is amended as follows:

(1) Sections 2321, 2322, 2323 (as amended by section 1171), 2324, 2325, 2326, 2327, and 2328 are redesignated as sections 2341 through 2348, respectively.

(2) Section 2329 is repealed.

(3) Sections 2330 and 2331 are redesignated as sections 2349 and 2350, respectively.

(4) Sections 2341 and 2342 (as so redesignated) are amended by striking out "section 2323" and inserting in lieu thereof "section 2343".

(5) Section 2323 (as so redesignated) is amended—

(A) by striking out "section 2321" both places it appears and inserting in lieu thereof "section 2341"; and

(B) by striking out "section 2322" both places it appears and inserting in lieu thereof "section 2342".

(6) The table of sections at the beginning of such chapter is amended—

(A) by striking out the item relating to section 2329; and

(B) by redesignating the remaining items in the table to reflect the redesignations made by paragraphs (1) and (3).

(b) CONFORMING AMENDMENT.—Section 2213(e)(2) of such title is amended by striking out "section 2331" and inserting in lieu thereof "section 2350".

(c) CIVILIAN AGENCY PROCUREMENT.—The Federal Property and Administrative Services Act of 1949 is amended as follows:

(1) Section 111(h)(3)(A) (40 U.S.C. 759(h)(3)(A)) is amended by striking out "Board" and inserting in lieu thereof "board".

(2) Section 303(f)(1)(C) (41 U.S.C. 253(f)(1)(C)) is amended by striking out "Any" and inserting in lieu thereof "any".

(3) Section 303(g)(1) (41 U.S.C. 253(g)(1) is amended by inserting a comma after "1984".

(4)(A) Sections 303D, 303E, 303F, 303G, and 303H (as added by title II of the Small Business and Federal Procurement Competition Enhancement Act of 1984 (Public Law 98-577)) are redesignated as sections 303C, 303D, 303E, 303F, and 303G, respectively.

(B) The items relating to those sections in the table of contents for such Act are redesignated to reflect the redesignations by subparagraph (A).

(d) MILITARY AND CIVILIAN PROCUREMENT.—Section 3551(1) of title 31, United States Code, is amended by striking out "executive agency" and inserting in lieu therof "Federal agency".

TITLE XIV—GENERAL PROVISIONS

PART A—FINANCIAL MATTERS

SEC. 1401. TRANSFER AUTHORITY

(a) AUTHORITY TO TRANSFER AUTHORIZATIONS.—(1) Upon determination by the Secretary of Defense that such action is necessary in the national interest, the Secretary may transfer amounts of authorizations made available to the Department of Defense in this Act between any such authorizations (or any subdivisions thereof). Amounts of authorizations so transferred shall be merged with and be available for the same purposes as the authorization to which transferred.

(2) The total amount of authorizations that the Secretary of Defense may transfer under the authority of this section may not exceed $2,000,000,000.

(b) LIMITATIONS.—The authority provided by this section to transfer authorizations—

(1) may only be used to provide authority for items that have a higher priority than the items from which authority is transferred; and

(2) may not be used to provide authority for an item that has been denied authorization by Congress.

(c) NOTICE TO CONGRESS.—The Secretary of Defense shall promptly notify Congress of transfers made under the authority of this section.

SEC. 1402. AUTHORIZATION OF TRANSFERS FOR FY85 PAY SUPPLEMENTAL

There is authorized to be transferred to, and merged with, amounts appropriated to the Department of Defense for operation and maintenance and for military personnel for fiscal year 1985 such sums as may be necessary to provide for civilian and military pay raises provided by law. Such amounts shall be derived from amounts previously appropriated to the Department of Defense remaining available for obligation and no longer required for the purposes for which they were originally provided. Transfers authorized by this section may be made only to the extent provided in appropriation Acts.

SEC. 1403. SPECIAL DEFENSE ACQUISITION FUND

Section 138(g) of title 10, United States Code, is amended by striking out "$300,000,000" and all that follows and inserting in lieu thereof "$1,000,000,000.".

SEC. 1404. REVISIONS TO DEFENSE BUDGET PLAN

(a) REVISED PLANS.—The Secretary of Defense shall submit to Congress a report containing—

(1) a budget plan for the Department of Defense for fiscal years 1987 through fiscal year 1990 in which the total amount of new budget authority proposed for the Department for each fiscal year is not more than three percent over the amount of new budget authority proposed for that Department for the previous fiscal year, adjusted for the official inflation projection for the fiscal year concerned; and

(2) a second budget plan for the Department for the fiscal years referred to in clause (1) in which the total amount of new budget authority proposed for the Department for each fiscal year is not more than the amount of new budget authority proposed for that Department for the previous fiscal year, adjusted for the official inflation projection for the fiscal year concerned.

(b) BASELINE.—The budget plans required by subsection (a) shall be based on the levels of authorizations of appropriations for the Department of Defense for fiscal year 1986 provided by this and any other Act.

(c) MATTERS TO BE INCLUDED.—The plans included in the report under subsection (a) shall include the following:

(1) A single amount for the amount of new budget authority proposed for each appropriation account of the Department of Defense, except that the amount of such new budget authority for the procurement appropriation accounts shall be shown at the budget-activity level.

(2) The annual procurement plan for each of the fiscal years covered for each major defense acquisition program, as defined in section 139a(a) of title 10, United States Code.

(d) DEADLINE FOR SUBMISSION.—The report required by subsection (a) shall be submitted not later than 60 days after the date of the enactment of this Act.

SEC. 1405. TWO-YEAR BUDGET CYCLE FOR THE DEPARTMENT OF DEFENSE

(a) FINDINGS.—The Congress finds that the programs and activities of the Department of Defense could be more effectively and efficiently planned and managed if funds for the Department were provided on a two-year cycle rather than annually.

(b) REQUIREMENT FOR TWO-YEAR BUDGET PROPOSAL.—The President shall include in the budget submitted to the Congress pursuant to section 1105 of title 31, United States Code, for fiscal year 1988 a single proposed budget for the Department of Defense and related agencies for fiscal years 1988 and 1989. Thereafter, the President shall submit a proposed two-year budget for the Department of Defense and related agencies every other year.

(c) REPORT.—Not later than April 1, 1986, the Secretary of Defense shall submit to the Committees on Armed Services and on Appropriations of the Senate and House of Representatives a report containing the Secretary's views on the following:

(1) The advantages and disadvantages of operating the Department of Defense and related agencies on a two-year budget cycle.

(2) The Secretary's plans for converting to a two-year budget cycle.

(3) A description of any impediments (statutory or otherwise) to converting the operations of the Department of Defense and related agencies to a two-year budget cycle beginning with fiscal year 1988.

SEC. 1406. REPORT ON BUDGETING FOR INFLATION

(a) REPORT ON SAVINGS FROM LOWER INFLATION.—Not later than 60 days after the date of the enactment of this Act, the Secretary of Defense shall submit to Congress a report containing an explanation of what the Department of Defense does in any fiscal year with funds that are not expended as a result of a decrease in the anticipated rate of inflation during that year.

(b) PROPOSALS FOR NEW BUDGET SYSTEM FOR INFLATION ALLOWANCE.—The Secretary shall include in the report under subsection (a) a proposal, or alternative proposals, for a budget system under which—

(1) funds that are appropriated to the Department of Defense for any fiscal year for procurement or for research, development, test, and evaluation would be appropriated to the Department without the addition of an amount for anticipated inflation during such fiscal year; and

(2) requests would be made to Congress at the end of the fiscal year for any additional funds made necessary by reason of inflation during the fiscal year.

(c) RECOMMENDATIONS.—The Secretary shall include in such report—

(1) the Secretary's recommendations for procedures that would effectively implement a proposal submitted under subsection (b); and

(2) a discussion of the advantages and disadvantages of instituting such a proposal, together with any other comments and recommendations that the Secretary considers appropriate.

SEC. 1407. REPORT OF UNOBLIGATED BALANCES

(a) REQUIRED REPORTS.—The Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives reports containing an estimate of the amount of funds in each appropriation account of the Department of Defense that at the time of the report—

(1) is available for obligation; and

(2) is in excess of the amount needed to carry out the programs for which the funds were appropriated.

(b) MATTERS TO BE INCLUDED.—Each estimate under subsection (a) shall include amounts attributable to—

(1) inflation savings;

(2) foreign currency savings;

(3) excess working capital fund cash; and

(4) all other savings.

(c) UNANTICIPATED INCREASES.—The report shall also identify unanticipated cost increases resulting from adverse economic trends.

(d) SUBMISSION OF REPORT.—The reports shall be submitted to Congress each year with the President's budget for the next fiscal year, with the April Budget Update, and with the Mid-session Budget Review. However, the first such report shall be submitted not later than 30 days after the date of the enactment of this Act.

SEC. 1408. AUTHORIZATION OF APPROPRIATIONS FOR PURCHASE OF FOREIGN CURRENCIES

There is hereby authorized to be appropriated for fiscal year 1986 the amount of $2,100,000 for the purchase of foreign currencies from the Treasury Department to pay expenses incurred in carrying out programs of the Department of Defense.

PART B—CHEMICAL WEAPONS

SEC. 1411. CONDITIONS ON SPENDING FUNDS FOR BINARY CHEMICAL MUNITIONS

(a) LIMITATION ON FY86 FUNDS.—Funds appropriated pursuant to authorizations of appropriations in title I may not be used—

(1) for procurement or assembly of binary chemical munitions (or components of such munitions); or

(2) for establishment of production facilities necessary for procurement or assembly of binary chemical munitions (or components of such munitions),

except in accordance with subsections (b) and (c).

(b) NATO CONSULTATION.—Subject to subsection (c), funds referred to in subsection (a) may be used for procurement or assembly of binary chemical munitions or for the establishment of production facilities necessary for the procurement or assembly of binary chemical munitions (or components of such munitions) if the President certifies to Congress that the United States—

(1) has developed a plan under which United States binary chemical munitions can be deployed under appropriate contingency plans to deter chemical weapons attacks against the United States and its allies; and

(2) has consulted with other member nations of the North Atlantic Treaty Organization (NATO) on that plan.

A plan under clause (1) shall be developed in cooperation with the Supreme Allied Commander, Europe.

(c) CONDITIONS FOR FINAL ASSEMBLY.—Funds referred to in subsection (a) may not be used for the final assembly of complete binary chemical munitions before October 1, 1987, and may only be used for such purpose on or after that date if—

(1) a mutually verifiable international agreement concerning binary and other similar chemical munitions has not been entered into by the United States by that date;

(2) the President, after that date, transmits to Congress a certification that—

(A) final assembly of such complete munitions is necessitated by national security interests of the United States and the interests of other NATO member nations;

(B) performance specifications and handling and storage safety specifications established by the Department of Defense with respect to such munitions will be met or exceeded;

(C) applicable Federal safety requirements will be met or exceeded in the handling, storage, and other use of such munitions; and

(D) the plan of the Secretary of Defense for destruction of existing United States chemical warfare stocks developed pursuant to section 1412 (which shall, if not sooner transmitted to Congress, accompany such certification) is ready to be implemented;

(3) final assembly is carried out only after the end of the 60-day period beginning on

the date such certification is received by the Congress;

(4) the plan of the Secretary of Defense for land-based storage of such munitions within the United States during peacetime provides that the two components that constitute a binary chemical munition are to be stored in separate States; and

(5) the plan of the Secretary of Defense for the transportation of such munitions within the United States during peacetime provides that the two components that constitute a binary munition are transported separately.

(d) SENSE OF CONGRESS.—It is the sense of Congress that existing unitary chemical munitions currently stored in the United States and in European member nations of NATO should be replaced by modern, safer binary chemical munitions.

(e) REPORT.—Not later than October 1, 1986, the President shall submit to Congress a report describing the results of consultations among NATO member nations concerning the organization's chemical deterrent posture. The report shall include descriptions of any consultations concerning—

(1) efforts to provide key civilian workers at military support facilities in Europe—

(A) with personal and collective equipment to protect against the use of chemical munitions; and

(B) with the training required for the use of such equipment;

(2) efforts to upgrade the chemical reconnaissance, decontamination, and protective capabilities of the military forces of each NATO member nation to a level adequate to meet the chemical threat identified in NATO intelligence estimates;

(3) efforts to initiate a NATO-wide study of measures required to protect ports, airfields, logistics centers, and command and control facilities in European member nations of NATO against chemical attack; and

(4) efforts to initiate a NATO-wide study of equitable and efficient sharing among NATO member nations of responsibilities with regard to deterring the use of chemical munitions in Europe.

SEC. 1412. DESTRUCTION OF EXISTING STOCKPILE OF LETHAL CHEMICAL AGENTS AND MUNITIONS

(a) IN GENERAL.—(1) Notwithstanding any other provision of law, the Secretary of Defense (hereinafter in this section referred to as the "Secretary") shall, in accordance with the provisions of this section, carry out the destruction of the United States' stockpile of lethal chemical agents and munitions that exists on the date of the enactment of this Act.

(2) Such destruction shall be carried out in conjunction with the acquisition of binary chemical weapons for use by the Armed Forces.

(b) DATE FOR COMPLETION.—(1) Except as provided by paragraphs (2) and (3), the destruction of such stockpile shall be completed by September 30, 1994.

(2) If a treaty banning the possession of chemical agents and munitions is ratified by the United States, the date for completing the destruction of the United States' stockpile of such agents and munitions shall be the date established by such treaty.

(3)(A) In the event of a declaration of war by the Congress or of a national emergency by the President or the Congress or if the Secretary of Defense determines that there has been a significant delay in the acquisition of an adequate number of binary chemical weapons to meet the requirements of the Armed Forces (as defined by the Joint Chiefs of Staff as of September 30, 1985), the Secretary may defer, beyond September 30, 1994, the destruction of not more than 10 percent of the stockpile described in subsection (a)(1).

(B) The Secretary shall transmit written notice to the Congress of any deferral made under subparagraph (A) within 30 days after the date on which the determination to defer is made or by August 31, 1994, whichever is earlier.

(c) ENVIRONMENTAL PROTECTION AND USE OF FACILITIES.—(1) In carrying out the requirement of subsection (a)(1), the Secretary shall provide for—

(A) maximum protection for the environment, the general public, and the personnel who are involved in the destruction of the lethal chemical agents and munitions referred to in subsection (a); and

(B) adequate and safe facilities designed solely for the destruction of lethal chemical agents and munitions.

(2) Facilities constructed to carry out this section may not be used for any purpose other than the destruction of lethal chemical weapons and munitions, and when no longer needed to carry out this section, such facilities shall be cleaned, dismantled, and disposed of in accordance with applicable laws and regulations.

(d) PLAN.—(1) The Secretary shall develop a comprehensive plan to carry out this section.

(2) In developing such plan, the Secretary shall consult with the Secretary of Health and Human Services and the Administrator of the Environmental Protection Agency.

(3) The Secretary shall transmit a copy of such plan to the Congress not later than March 15, 1986.

(4) Such plan shall provide—

(A) an evaluation of the comparison of onsite destruction, regional destruction centers, and a national destruction site both inside and outside of the United States;

(B) for technological advances in techniques used to destroy chemical munitions;

(C) for the maintenance of a permanent, written record of the destruction of lethal chemical agents and munitions carried out under this section; and

(D) a description of—

(i) the methods and facilities to be used in the destruction of agents and munitions under this section;

(ii) the schedule for carrying out this section; and

(iii) the management organization established under subsection (e).

(e) MANAGEMENT ORGANIZATION.—(1) In carrying out this section, the Secretary shall provide for the establishment, not later than May 1, 1986, of a management organization within the Department of the Army.

(2) Such organization shall be responsible for management of the destruction of agents and munitions under this section.

(3) The Secretary shall designate a general officer as the director of the management organization established under paragraph (1). Such officer shall have—

(A) experience in the acquisition, storage, and destruction of chemical agents and munitions;

(B) training in chemical warfare defense operations; and

(C) outstanding qualifications regarding safety in handling chemical agents and munitions.

(f) IDENTIFICATION OF FUNDS.—Funds for carrying out this section shall be set forth in the budget of the Department of Defense for any fiscal year as a separate account. Such funds shall not be included in the budget accounts for any military department. Funds for military construction projects necessary to carry out this section may be set out in the annual military construction budget separately from other funds for such project.

(g) ANNUAL REPORT.—(1) Except as provided by paragraph (4), the Secretary shall transmit, by December 15 of each year, a report to the Congress on the activities carried out under this section during the fiscal year ending on September 30 of the calendar year in which the report is to be made.

(2) The first such report shall be transmitted by December 15, 1985, and shall contain—

(A) an accounting of the United States' stockpile of lethal chemical agents and munitions on the date of the enactment of this Act; and

(B) a schedule of the activities planned to be carried out under this section during fiscal year 1986.

(3) Each report other than the first one shall contain—

(A) a site-by-site description of the construction, equipment, operation, and dismantling of facilities (during the fiscal year for which the report is made) used to carry out the destruction of agents and munitions under this section, including any accidents or other unplanned occurrences associated with such construction and operation; and

(B) an accounting of all funds expended (during such fiscal year) for activities carried out under this section, with a separate accounting for amounts expended for—

(i) the construction of and equipment for facilities used for the destruction of agents and munitions;

(ii) the operation of such facilities;

(iii) the dismantling or other closure of such facilities;

(iv) research and development; and

(v) program management.

(4) The Secretary shall transmit the final report under this subsection not later than 120 days following the completion of activities under this section.

(h) PROHIBITION ON ACQUIRING CERTAIN LETHAL CHEMICAL AGENTS AND MUNITIONS.—(1) Except as provided in paragraph (2), no agency of the Federal Government may, after the date of the enactment of this Act, develop or acquire lethal chemical agents or munitions other than binary chemical weapons.

(2)(A) The Secretary of Defense may acquire any chemical agent or munition at any time for purposes of intelligence analysis.

(B) Chemical agents and munitions may be acquired for research, development, test, and evaluation purposes at any time, but only in quantities needed for such purposes and not in production quantities.

(i) REAFFIRMATION OF UNITED STATES POSITION ON FIRST USE OF CHEMICAL AGENTS AND MUNITIONS.—It is the sense of Congress that the President should publicly reaffirm the position of the United States as set out in the Geneva Protocol of 1925, which the United States ratified with reservations in 1975.

(j) DEFINITIONS.—For purposes of this section:

(1) The term "chemical agent and munition" means an agent or munition that, through its chemical properties, produces lethal or other damaging effects on human beings, except that such term does not include riot control agents, chemical herbi-

cides, smoke and other obscuration materials.

(2) The term "lethal chemical agent and munition" means a chemical agent or munition that is designed to cause death, through its chemical properties, to human beings in field concentrations.

(3) The term "destruction" means, with respect to chemical munitions or agents—

(A) the demolishment of such munitions or agents by incineration or by any other means; or

(B) the dismantling or other disposal of such munitions or agents so as to make them useless for military purposes and harmless to human beings under normal circumstances.

(k) EFFECTIVE DATE.—The provisions of this section shall take effect on October 1, 1985.

SEC. 1413. REPORT CONCERNING THE TESTING OF CHEMICAL WARFARE AGENTS

The Secretary of Defense shall, within 90 days after the date of enactment of this Act, transmit a report to the Committees on Armed Services of the Senate and House of Representatives describing the following matters concerning the testing of diluted or undiluted chemical warfare agents:

(1) The criteria and process used for selecting sites for such testing.

(2) The nature and extent of any consultation carried out with State and local officials before the site for such testing is selected.

(3) The consideration that is given to the proximity of residential dwelling units, schools, child care centers, nursing homes, hospitals, or other health care facilities to the testing site.

(4) Whether an environmental impact statement should be required prior to the approval of a contract for such testing.

(5) Any costs that may have to be incurred by the Federal Government to assist companies that carry out such testing to relocate to more isolated areas.

(6) The degree to which the Secretary estimates that such testing will increase or decrease.

(7) Any recurring problems associated with such testing or the site selection process for such testing.

(8) Any changes in site selection process that are to be implemented by the Secretary or for which legislative action is necessary.

PART C—DRUG INTERDICTION, LAW ENFORCEMENT, AND OTHER SPECIFIC PROGRAMS

SEC. 1421. ENHANCED DRUG-INTERDICTION ASSISTANCE

(a) MANDATORY ASSIGNMENT OF COAST GUARD PERSONNEL ON NAVAL VESSELS.—The Secretary of Defense and the Secretary of Transportation shall provide that there be assigned on board each surface naval vessel at sea in a drug-interdiction area at least one member of the Coast Guard who is trained in law enforcement and has power to arrest, search, and seize property and persons suspected of violations of law.

(b) LAW ENFORCEMENT FUNCTIONS.—Members of the Coast Guard assigned to duty on board naval vessels under this section shall perform such law enforcement functions (including drug-interdiction functions)—

(1) as may be agreed upon by the Secretary of Defense and the Secretary of Transportation; and

(2) as are otherwise within the jurisdiction of the Coast Guard.

(c) AUTHORIZATION OF NECESSARY COAST GUARD PERSONNEL; FUNDING.—(1) The active-duty military strength level for the Coast Guard for fiscal year 1986 is increased by 500. Additional members of the Coast Guard who are on active duty by reason of this subsection shall be assigned to duty as provided in subsection (a).

(2) Of the funds appropriated for operation and maintenance for the Navy for fiscal year 1986 the sum of $15,000,000 shall be transferred to the Secretary of Transportation and shall be available only for the additional personnel authorized by paragraph (1).

(d) DEFINITIONS.—For the purposes of this section:

(1) The term "drug-interdiction area" means an area outside the land area of the United States in which the Secretary of Defense (in consultation with the Attorney General) determines that activities involving smuggling of drugs into the United States are ongoing.

(2) The term "active-duty military strength level for the Coast Guard for fiscal year 1986" means the full-time equivalent strength level for active-duty military personnel of the Coast Guard for fiscal year 1986 required to be maintained by section 3 of the Coast Guard Authorization Act of 1984 (Public Law 98-557; 98 Stat. 2860).

SEC. 1422. ESTABLISHMENT, OPERATION, AND MAINTENANCE OF DRUG LAW ENFORCEMENT ASSISTANCE ORGANIZATIONS OF THE DEPARTMENT OF DEFENSE

(a) AUTHORIZATION OF FUNDS FOR ELEMENTS ASSISTING CIVILIAN DRUG INTERDICTION.—(1) There are authorized to be appropriated to the Department of Defense for fiscal year 1986 such sums as may be necessary for the establishment, operation, and maintenance of airborne surveillance, detection, and interdiction units in the Department of Defense.

(2) There are authorized to be appropriated to the Department of Defense for fiscal year 1986 such sums as may be necessary for the operation and maintenance of the Directorate of the Department of Defense Task Force on Drug Law Enforcement.

(b) COMMAND, CONTROL, AND COORDINATION.—A special operations headquarters element shall provide necessary command, control, and coordination of appropriate active or Reserve component special operations forces, combat rescue units, and other units for participation by such forces and units in drug law-enforcement assistance missions.

(c) REPORT ON PLANS TO ENHANCE COOPERATION WITH CIVILIAN DRUG ENFORCEMENT AGENCIES.—Not later than December 1, 1985, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on the manner in which the Department of Defense plans to obligate and expend funds appropriated or expected to be appropriated pursuant to the authorizations contained in this section. The report shall include a description of—

(1) actions or proposed actions to establish, operate, and maintain Reserve component forces airborne surveillance, detection, and interdiction units, including—

(A) actions or proposed actions to consolidate or establish, in a Special Operations Wing of the Air Force (reserve or active component), command, control, and coordination of Air Force Special Operations aircraft (including aircraft assigned to the Special Operations Wing of the Regular Air Force on or before March 1, 1985); and

(B) in the case of any such aircraft which are not to remain assigned to a Special Operation Wing of the Air Force, the disposition or planned disposition of those aircraft;

(2) actions and proposed actions to use rotary-wing and fixed-wing aircraft of the Department of Defense as well as other measures necessary to furnish (commensurate with military readiness and the provisions of chapter 18 of title 10, United States Code) optimal support to civilian law enforcement agencies; and

(3) actions and proposed actions to promote dual use between the Reserve component forces and civilian law enforcement agencies of the Department of Defense aircraft and other Department of Defense resources made available to civilian law enforcement agencies for the purpose of carrying out drug interdiction missions.

SEC. 1423. MILITARY COOPERATION INFORMATION PROGRAMS FOR CIVILIAN LAW ENFORCEMENT OFFICIALS

(a) PROVISION OF LAW-ENFORCEMENT ASSISTANCE INFORMATION.—Section 373 of title 10, United States Code, is amended—

(1) by inserting "(a)" before "The"; and

(2) by adding at the end thereof the following new subsections:

"(b)(1) At least once each year, the Attorney General of the United States, in consultation with the Secretary of Defense, shall conduct a briefing of law enforcement personnel of each State, including law enforcement personnel of the political subdivisions of each State, regarding information, training, technical assistance, and equipment and facilities available to civilian law enforcement personnel from the Department of Defense.

"(2) Each briefing conducted under paragraph (1) shall include—

"(A) an explanation of the procedures for civilian law enforcement officials—

"(i) to obtain information under section 371 of this title, use of equipment and facilities under section 372 of this title, and training and advice under subsection (a); and

"(ii) to obtain surplus military equipment;

"(B) the types of information, equipment and facilities, and training and advice available to civilian law enforcement officials from the Department of Defense; and

"(C) a current, comprehensive list of military equipment which is suitable for law enforcement purposes and is available to civilian law enforcement officials from the Department of Defense or is available as surplus property from the Administrator of General Services.

"(c) The Attorney General of the United States and the Administrator of General Services shall—

"(1) establish or designate an appropriate office or offices to maintain the list described in subsection (b)(2)(C) and to furnish information to civilian law enforcement officials on the availability of surplus military equipment; and

"(2) make available to civilian law enforcement personnel nationwide, tollfree telephone communication with such office or offices.".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on January 1, 1986.

SEC. 1424. STUDY ON THE USE OF THE E-2 AIRCRAFT FOR DRUG INTERDICTION PURPOSES

(a) STUDY BY SECRETARY OF THE NAVY.—The Secretary of the Navy shall conduct a test of the use of E-2 aircraft of the Navy to determine the effectiveness of that aircraft in drug interdiction. The study shall be conducted along the border between the United States and Mexico and shall be carried out over a period of six months.

(b) COLLECTION OF DATA.—As part of the test, the Secretary shall collect data on the contribution on the use of the E-2 aircraft to the apprehension of drug smugglers. This data shall include the number of intercepts which resulted in apprehensions.

(c) REPORT.—Not later than September 30, 1986, the Secretary shall submit to Congress a report on the results of the study.

SEC. 1425. STRATEGIC BOMBER PROGRAMS

(a) SENSE OF CONGRESS REGARDING THE ADVANCED TECHNOLOGY BOMBER AND THE ADVANCED CRUISE MISSILE.—It is the sense of Congress that—

(1) the capabilities inherent in the technologies associated with the Advanced Technology Bomber program and the Advanced Cruise Missile program are a critical national security asset for maintaining an adequate and credible deterrent posture;

(2) such technologies and programs should be developed as rapidly as feasible in order to produce and deploy advanced systems which will complicate the military planning of the Soviet Union and as a consequence enhance the deterrent posture of the United States;

(3) such technologies and programs should be funded at the levels authorized in this Act; and

(4) all the funds appropriated for such programs should be fully used for such programs.

(b) PROHIBITION ON USE OF FUNDS FOR ATB AND ACM FOR ANY OTHER PURPOSE.—None of the funds appropriated pursuant to an authorization of appropriations in this Act to carry out the Advanced Technology Bomber program or the Advanced Cruise Missile program may be used for any other purpose.

(c) SENSE OF CONGRESS ON B-1B BOMBER PROGRAM.—It is the sense of Congress that, consistent with the stated policy of the Department of Defense, the B-1B bomber aircraft procurement program should be terminated after acquisition under such program of 100 aircraft.

(d) LIMITATION ON NUMBER OF B-1B AIRCRAFT TO BE PROCURED.—None of the funds appropriated pursuant to an authorization contained in this Act may be obligated or expended for the conduct of research, design, demonstration, development, or procurement of more than 100 B-1B bomber aircraft (including any derivative or modified version of such aircraft).

SEC. 1426. RESTRICTIONS ON CERTAIN NUCLEAR PROGRAMS

(a) RESTRICTION ON FUNDING FOR MX MISSILE WARHEAD.—None of the funds appropriated pursuant to an authorization provided in this or any other Act may be obligated or expended for the production of W-87 warheads for the MX missile program in excess of the numbers of warheads required to arm the number of such missiles authorized by the Congress to be deployed and determined by the President to be necessary for quality assurance and reliability testing.

(b) EMPLOYMENT OF THE STANDARD MISSILE (SM-2(N)).—Except for the studies and report required by this section, none of the funds authorized to be appropriated by this Act may be expended for research, development, test, or procurement associated with a nuclear variant of the Standard Missile (SM-2(N)) or any associated nuclear warhead until 30 calendar days after the Secretary of the Navy submits to the Committees on Armed Services of the Senate and House of Representatives a report which includes the following information:

(1) A description of the circumstances under which the SM-2(N) would be used and an assessment of likely enemy response (including countermeasures).

(2) A description of the release procedures and circumstances under which release would be authorized for employment of the SM-2(N).

(3) An analysis of conventional alternatives to the SM-2(N), including any necessary modification to the SM-2 or alternative to the Standard Missile or warhead, and the associated costs of those alternatives.

(4) A summary of all studies previously conducted analyzing the impact of the use of nuclear naval surface-to-air missiles on our own vessels and electronics.

(5) A list of all United States ships which may receive the SM-2(N).

(6) The number of additional conventional armed missiles which could be carried by United States ships if the SM-2(N) were not deployed and the impact on fleet air defense from that reduced conventional load.

(7) Any plans or programs for the development of a nuclear naval surface-to-air or air-to-air missile for fleet defense other than the SM-2(N).

(c) REPORT ON REQUIREMENTS FOR SPECIAL NUCLEAR MATERIALS.—(1) Not later than March 1, 1986, the Secretary of Defense and the Secretary of Energy, after consultation with the Joint Chiefs of Staff and the Director of the Arms Control and Disarmament Agency, shall submit a report to the Committees on Armed Services of the Senate and House of Representatives detailing the military requirements for special nuclear materials through fiscal year 1991. The report shall include findings and recommendations concerning—

(A) requirements for production of plutonium, highly enriched uranium, and other special nuclear materials; and

(B) the recovery of special nuclear materials for military uses that have been transferred from military uses to civilian research and development uses.

(2) The report should also—

(A) address the availability of special nuclear materials to be derived from the retirement of existing nuclear weapons;

(B) address the feasibility of meeting military needs for special nuclear materials through the blending of high grade and low grade materials stocks;

(C) assess the impact of new materials separation, purification, and production technologies on nuclear proliferation; and

(D) contain the views of the Joint Chiefs of Staff and the Director of the Arms Control and Disarmament Agency.

PART D—MISCELLANEOUS REPORTING REQUIREMENTS

SEC. 1431. EXTENSION OF TIME FOR SUBMISSION OF REPORTS BY COMMISSION ON MERCHANT MARINE AND DEFENSE

Section 1536 of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2633), is amended—

(1) by striking out "on September 30, 1985, and September 30, 1986" in subsection (b) and inserting in lieu thereof "12 months after the date of the enactment of the law first providing funds for the Commission and 24 months after such date";

(2) in subsection (g)—

(A) by striking out "June 30, 1985, and June 30, 1986" and inserting in lieu thereof "nine months after the date of the enactment of the law first providing funds for the Commission and not later than 21 months after such date"; and

(B) by striking out "September 30, 1985, and September 30, 1986" and inserting in lieu thereof "12 months after such date of enactment and not later than 24 months after such date of enactment"; and

(3) by striking out "September 30, 1987" in subsection (i) and inserting in lieu thereof "September 30, 1988".

SEC. 1432. REPORT ON NAVAL SHIPBUILDING AND REPAIR BASE

(a) REQUIREMENT FOR REPORT BY SECRETARY OF THE NAVY.—The Secretary of the Navy shall submit to the Committees on Armed Services of the Senate and House of Representatives a report on the industrial base for construction, overhaul, and repair of naval vessels (hereinafter in this section referred to as the "shipyard base").

(b) COMPETITION AND MOBILIZATION CAPABILITY.—The report shall consider the current competitive environment in the shipyard base and the current mobilization capability of the shipyard base.

(c) STUDY OF INCREASE IN NUMBER OF SHIPYARDS.—(1) The report shall include an assessment of how competition in the shipyard base and the mobilization capability of the shipyard base would each be affected by an increase in the number of shipyards in the shipyard base and shall assess alternative ways of achieving such an increase.

(2) In assessing ways to increase the number of shipyards in the shipyard base, the Secretary shall consider the feasibility and desirability of expanding by one the number of shipyards currently engaged in construction of each of the following types of vessels:

(A) Trident nuclear-powered fleet ballistic missile submarines.

(B) Nuclear-powered attack submarines.

(C) Nuclear-powered aircraft carriers.

(D) Complex surface combatants.

(E) Auxiliaries.

(3) In considering ways to increase the number of shipyards constructing each type of vessel listed in paragraph (2), the Secretary shall consider expansion of the shipbuilding base on the West Coast of the United States and increased use of public shipyards.

(d) FACTORS IN ASSESSMENT.—The assessment of the current capabilities of the shipyard base and of each alternative identified under subsection (c)—

(1) shall be made considering the requirements of both peacetime competition and wartime mobilization capability; and

(2) shall include a description of the possible costs and benefits of the current capabilities and each alternative.

(e) DEADLINE FOR REPORT.—The report required by subsection (a) shall be submitted not later than January 31, 1986.

SEC. 1433. NUCLEAR REACTOR COMPONENTS FOR SSN-21 CLASS SUBMARINES

Not more than one-half of the funds appropriated pursuant to authorizations of appropriations in this Act for the design or construction of nuclear reactor components for the SSN-21 class submarine may be obligated until the Secretary of the Navy submits to the Committees on Armed Services of the Senate and House of Representatives a report on the industrial base for the design and construction of nuclear components for the SSN-21 class submarine. The report shall evaluate the cost effectiveness of increasing the number of firms actively employed in the design of nuclear reactor components and the construction of nuclear reactor components.

SEC. 1434. AIRCRAFT FUEL CONSERVATION REPORT

(a) SUBMISSION OF REPORT.—The Secretary of Defense shall submit to Congress a report with respect to efforts by the Department

of Defense since 1981 to reduce the use of fuel by military aircraft—

(1) during takeoffs; and

(2) in other situations in which the Secretary determines that the use of fuel may be reduced without lowering safety standards.

(b) MATTERS TO BE INCLUDED.—The report shall include discussion of—

(1) specific fuel conservation initiatives;

(2) estimated cost savings from such initiatives; and

(3) ongoing efforts to further reduce the use of fuel by military aircraft.

(c) TIME FOR SUBMISSION OF REPORT.—The report shall be submitted not later than 90 days after the date of the enactment of this Act.

SEC. 1435. REPORT CONCERNING POSEIDON-CLASS SUBMARINE

(a) REPORT ON ALTERNATIVE USES.—The Secretary of Defense shall submit to Congress a report with respect to—

(1) the feasibility of converting a Poseidon-class submarine into an SSN-type submarine or SSGN-type submarine; and

(2) the feasibility of using a Poseidon-class submarine as a training platform.

(b) DEADLINE FOR REPORT.—The report shall be submitted not later than December 15, 1985.

SEC. 1436. REPORT AND DEMONSTRATION PROJECT CONCERNING THE SALE OF CERTAIN UNITED STATES MEAT IN MILITARY COMMISSARIES OVERSEAS

(a) FEASIBILITY STUDY AND DEMONSTRATION PROJECT.—The Secretary of Defense shall study the feasibility of providing beef, pork, and lamb produced in the United States for sale in American Military Forces' commissaries located overseas in volumes equivalent to beef, pork, and lamb secured for sale from non-United States producers. Such study—

(1) shall be carried out in consultation with the Secretary of Agriculture; and

(2) shall include a demonstration project in which beef, pork, and lamb produced in the United States shall be stocked in three commissaries on Air Force bases in Europe and in three commissaries located on Army bases in Europe for a six-month period in volumes equivalent to beef, pork, and lamb secured for sale from non-United States producers; such United States-produced products shall, to the best of the Secretary's ability, be made available at consumer prices which are competitive when compared with non-United States produced red-meat products offered for sale in the commissary system.

(b) REPORT.—Not later than one year after the date of the enactment of this Act, the Secretary of Defense shall submit to Congress a report on the results of such study and the findings and conclusions of the Secretary under such study. Such report shall include any views provided by the Secretary of Agriculture.

SEC. 1437. REPORT ON RETENTION OF BASIC POINT DEFENSE MISSILE SYSTEM

(a) REQUIREMENT FOR REPORT BY SECRETARY OF THE NAVY.—The Secretary of the Navy shall submit to the Committees on Armed Services of the Senate and House of Representatives a report on the removal of the Basic Point Defense Missile System from naval amphibious vessels.

(b) REPLACEMENT OF THE BASIC POINT DEFENSE MISSILE SYSTEM.—(1) The report shall consider the current plans to replace the Basic Point Defense Missile System on amphibious vessels with the Close-in Weapon System (CIWS).

(2) The report shall include an assessment of the effectiveness of the anti-air warfare capabilities of amphibious vessels. This assessment shall be used by the Secretary of the Navy in considering augmenting rather than replacing the Basic Point Defense Missile System on amphibious vessels with the Close-in Weapon System.

(c) LIMITATIONS ON REMOVAL OF BASIC POINT DEFENSE MISSILE SYSTEM.—The Secretary of the Navy may not remove the Basic Point Defense Missile System from amphibious vessels until the report is submitted.

SEC. 1438. REPORT ON RETIREMENT BENEFITS OF PHILIPPINE SCOUTS

(a) IN GENERAL.—The Secretary of the Army (hereinafter in this section referred to as the "Secretary") shall conduct a study of—

(1) the disparity between the pay received by members of the Philippine Scouts who served during World War II and the pay received by other members of the United States Army during such war who had grades and lengths of service that correspond to the grades and lengths of service of such members of the Philippine Scouts; and

(2) the effect of this disparity on the retirement benefits of such members of the Philippine Scouts and their survivors.

(b) PARTICULAR SUBJECTS OF THE STUDY.—In carrying out such study, the Secretary shall—

(1) compile a list of all persons who served as members of the Philippine Scouts during the period beginning on December 7, 1941, and ending on December 31, 1946;

(2) compile a list of persons described in paragraph (1) who are alive on the date of enactment of this Act;

(3) determine the amount of basic pay each person described in paragraph (2) received for services rendered as a member of the Philippine Scouts during the period described in such paragraph and compare it with the amount of basic pay each such person would have received as a member of the Philippine Scouts during that period if the rates of basic pay during such period for the Philippine Scouts had been the same as the rates of basic pay for other members of the United States Army with corresponding grades and length of service during such period;

(4) determine the amount of retired pay that each person described in paragraph (2) is entitled to receive as retired pay from the Army as a result of service rendered as a Philippine Scout and compare it with the amount such person would receive for periods beginning after the date of enactment of this Act if the rate of basic pay payable to such person during the period described in paragraph (1) had been the rate of basic pay payable to any other member of the United States Army with the corresponding grade and length of service during such period; and

(5) determine possible options, and the costs of each, for recalculating the retirement pay of persons described in paragraph (2), including survivor benefits, in order to remedy the disparity in pay received by such persons during their service as Philippine Scouts.

(c) REPORT.—(1) The Secretary shall transmit, within one year after the date of enactment of this Act, to the Committees on Armed Services of the Senate and House of Representatives a report containing the findings and conclusions of the Secretary with respect to each of the matters described in paragraphs (1) through (5) of subsection (b).

(2) If the Secretary determines that—

(A) the documents necessary to compile the lists and make the determinations under subsection (b) are not attainable through reasonable efforts; or

(B) the cost of compiling such lists and making such determinations is excessive,

the Secretary shall make a report as soon as practicable to such Committees with a justification of such determination.

(3) If a report is made to the Committees under paragraph (2), the report to such Committees under paragraph (1) shall be based on the best information that can be reasonably obtained without excessive costs.

SEC. 1439. REPORT ON DEATH PENALTY FOR ESPIONAGE

(a) STUDY.—The Secretary of Defense shall conduct a study of the desirability of reinstating the death penalty as an alternative penalty for persons convicted of espionage relating to the national defense.

(b) REPORT.—The Secretary shall submit to Congress a report containing the results of such study, together with any related recommendations for legislation, not later than 30 days after the date of the enactment of this Act.

SEC. 1440. REPORT ON IMPACT OF FOREIGN EXPORTS ON THE DEFENSE INDUSTRIAL BASE OF THE UNITED STATES

(a) STUDY.—The Secretary of Defense shall conduct a study regarding the effects that foreign export subsidies have had on the defense industrial base of the United States.

(b) SPECIFIC REQUIREMENTS.—The Secretary shall include in such study the following:

(1) A compilation of the contracts (including the name of the contracting firms) valued in excess of $1,000,000 awarded to foreign firms by the Department of Defense during fiscal year 1984, fiscal year 1985, and the first six months of fiscal year 1986.

(2) In the case of a product procured by the Department of Defense which was exported to the United States under a contract compiled pursuant to paragraph (1), whether the Secretary of Commerce or the Secretary of the Treasury has determined since 1970 that the product exported to the United States under such contract is subject to a countervailing duty under title VII of the Tariff Act of 1930 (19 U.S.C. 1671 et seq.) and (if so) a description of the subsidy that led to such determination, including a description of the type and amount of the subsidy.

(c) SUBMISSION OF REPORT.—Not later than June 1, 1986, the Secretary shall submit to the Congress a report containing the results of the study required under subsection (a).

SEC. 1441. SENSE OF CONGRESS REGARDING THE FIRING OF TACTICAL MISSILES FOR TRAINING PURPOSES

(a) SENSE OF CONGRESS.—It is the sense of the Congress that, in carrying out the comprehensive analysis of the threat-based munitions and related expendables directed to be made by the Secretary of Defense pursuant to Senate Report 99-41, dated April 29, 1985, the Secretary should also develop standard criteria—

(1) for identifying, in the case of each tactical missile of the Department of Defense, the training objectives that are uniquely served by the live-firing of such missiles and to provide guidance for the development of live-firing and training requirements based on such criteria;

(2) for utilizing, to the maximum extent practicable, the use of tactical missile eval-

uation programs for live-firing training purposes;

(3) for improving the reporting and evaluation requirements with regard to the live-firing of missiles; and

(4) for increasing, to the maximum extent practicable and without degrading readiness, the use of training devices and simulators as alternatives to exercises involving the live-firing of missiles for training purposes.

(b) REPORT.—The Secretary shall submit a report to the Congress not later than February 1, 1986, informing the Congress of the actions taken by the Secretary to develop standard criteria with respect to the matters referred to in subsection (a).

SEC. 1442. REPORT ON FEASIBILITY OF DRUG TESTING OF PROSPECTIVE RECRUITS

(a) IN GENERAL.—The Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on the feasibility of implementing a program in the Department of Defense designed to detect use of illegal drugs by persons who have been accepted for entry into the Armed Forces but who have not become members of the Armed Forces.

(b) MATTERS TO BE INCLUDED.—The Secretary shall include in the report required by subsection (a)—

(1) an explanation of how such a program would operate;

(2) the Secretary's assessment of the value of such a program;

(3) a discussion of any problems that might complicate the administration of such a program;

(4) a discussion of the advantages and disadvantages of instituting such a program;

(5) an estimate of any savings that the United States might realize by detecting use of illegal drugs by persons before they become members of the Armed Forces; and

(6) any recommendations for legislation that the Secretary considers necessary or appropriate to establish such a program.

(c) DEADLINE FOR REPORT.—The Secretary shall submit the report required under subsection (a) not later than October 1, 1985.

PART E—MISCELLANEOUS PROVISIONS

SEC. 1451. SENSE OF CONGRESS ON INTRODUCTION OF ARMED FORCES INTO NICARAGUA FOR COMBAT

It is the sense of Congress that United States Armed Forces should not be introduced into or over Nicaragua for combat. However, nothing in this section shall be construed as affecting the authority and responsibility of the President or Congress under the Constitution, statutes, or treaties of the United States in force.

SEC. 1452. SENSE OF CONGRESS CONCERNING PROTECTION OF UNITED STATES MILITARY PERSONNEL AGAINST TERRORISM

(a) FINDING.—The Congress finds that the protection of members of the Armed Forces against terrorist activity is among the highest national security concerns of the United States.

(b) SENSE OF CONGRESS.—Therefore, it is the sense of Congress that—

(1) the President should be supported in the vigorous exercise of his powers as Commander-in-Chief to protect members of the Armed Forces against terrorist activity; and

(2) such exercise of power should include the use of such measures as may be appropriate and consistent with law.

SEC. 1453. READINESS OF SPECIAL OPERATIONS FORCES

(a) CONGRESSIONAL FINDINGS.—The Congress finds that—

(1) the first duty of the Government is to provide for the common defense, including safeguarding the peace, safety, and security of the citizens of the United States;

(2) the incidence of terrorist, guerilla, and other violent threats to citizens and property of the United States has rapidly increased;

(3) the special operations forces of the Armed Forces provide the United States with immediate and primary capability to respond to terrorism; and

(4) the special operations forces are the military mainstay of the United States for the purposes of nation-building and training friendly foreign forces in order to preclude deployment or combat involving the conventional or strategic forces of the United States.

(b) SENSE OF THE CONGRESS.—In view of the findings in subsection (a), it is the sense of the Congress that—

(1) the revitalization of the capability of the special operations forces of the Armed Forces should be pursued as a matter of the highest priority;

(2) personnel and other resource allocations should reflect the priority referred to in paragraph (1);

(3) the political and military sensitivity and the importance to national security of the special operations forces require that the Office of the Secretary of Defense should improve its management supervision of such forces in all aspects of the special operations mission area;

(4) the joint command and control of the special operations forces must permit direct and immediate access by the President and Secretary of Defense; and

(5) the commanders-in-chief of the unified commands should have available, within their operational areas of responsibility, sufficient special operations assets to execute the operations plans for which they are responsible or to support additional contingency operations directed from the national level.

SEC. 1454. AUTHORITY TO PROVIDE EXCESS PERSONAL PROPERTY FOR HUMANITARIAN PURPOSES

(a) AUTHORITY TO PROVIDE NONLETHAL EXCESS PROPERTY.—Chapter 151 of title 10, United States Code, is amended by adding at the end thereof the following new section:

"82547. Excess nonlethal supplies: humanitarian relief

"(a) The Secretary of Defense may make available for humanitarian relief purposes any nonlethal excess supplies of the Department of Defense.

"(b) Excess supplies made available for humanitarian relief purposes under this section shall be transferred to the Secretary of State, who shall be responsible for the distribution of such supplies.

"(c) This section does not constitute authority to conduct any activity which, if carried out as an intelligence activity by the Department of Defense, would require—

"(1) a finding under section 662 of the Foreign Assistance Act of 1961 (22 U.S.C. 2422); or

"(2) a notice to the intelligence committees under section 501(a)(1) of the National Security Act of 1947 (50 U.S.C. 413).

"(d)(1) The Secretary of State shall submit an annual report on the disposition of all excess supplies transferred by the Secretary of Defense to the Secretary of State under this section during the preceding year.

"(2) Such reports shall be submitted to the Committees on Armed Services and on Foreign Relations of the Senate and the Committees on Armed Services and on Foreign Affairs of the House of Representatives.

"(3) Such reports shall be submitted not later than June 1 of each year.

"(e) In this section:

"(1) 'Nonlethal excess supplies' means property, other than real property, of the Department of Defense—

"(A) that is excess property, as defined in regulations of the Department of Defense; and

"(B) that is not a weapon, ammunition, or other equipment or material that is designed to inflict serious bodily harm or death.

"(2) 'Intelligence committees' means the Select Committee on Intelligence of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end thereof the following new item:

"2547. Excess nonlethal supplies: humanitarian relief.".

SEC. 1455. ENCOURAGEMENT OF CONSTRUCTION IN UNITED STATES SHIPYARDS OF COMBATANT VESSELS FOR UNITED STATES ALLIES

(a) IN GENERAL.—The Secretary of the Navy shall take such steps as necessary—

(1) to encourage United States shipyards to construct combatant vessels for nations friendly to the United States, subject to the requirement to safeguard sensitive warship technology; and

(2) to ensure that no effort is made by any element of the Department of the Navy to inhibit, delay, or halt the provision of any United States naval system to a nation allied with the United States if that system is approved for export to a foreign nation, unless approval of such system for export is withheld solely for the purpose of safeguarding sensitive warship technology;

(3) if opportunities arise to construct combatant vessels (including diesel submarines) outside the United States in a shipyard of a friendly foreign nation, with some or all of the costs provided by United States funds—

(A) to encourage United States firms to participate in such construction to the maximum extent possible, subject to the requirement to safeguard sensitive warship technology; and

(B) to ensure, whenever practicable, that at least 51 percent of the dollar value of such construction is provided by United States firms.

(b) DEFINITION.—For the purposes of this section, the term "sensitive warship technology" means technology relating to the design or construction of a combatant naval vessel that is determined by the Secretary of Defense to be vital to United States security.

SEC. 1456. DEFENSE INDUSTRIAL BASE FOR TEXTILE AND APPAREL PRODUCTS

(a) CAPABILITY OF DOMESTIC TEXTILE AND APPAREL INDUSTRIAL BASE.—The Secretary of Defense shall monitor the capability of the domestic textile and apparel industrial base to support defense mobilization requirements.

(b) ANNUAL REPORT.—The Secretary shall submit to Congress not later than April 1 of each of the five years beginning with 1986 a report on the status of such industrial base. Each such report shall include—

(1) an identification of textile and apparel mobilization requirements of the Department of Defense that cannot be satisfied on a timely basis by the domestic industries;

(2) an assessment of the effect any inadequacy in the textile and apparel industrial base would have on a defense mobilization; and

(3) recommendations for ways to alleviate any inadequacy in such industrial base that the Secretary considers critical to defense mobilization requirements.

SEC. 1457. ENCOURAGEMENT OF TECHNOLOGY TRANSFER

(a) IN GENERAL.—Chapter 139 of title 10, United States Code, is amended by adding at the end thereof the following new section:

"§2362. Encouragement of technology transfer

"(a) The Secretary of Defense shall encourage, to the extent consistent with national security objectives, the transfer of technology between laboratories and research centers of the Department of Defense and other Federal agencies, State and local governments, colleges and universities, and private persons in cases that are likely to result in the maximum domestic use of such technology.

"(b) The Secretary shall examine and implement methods, in addition to the encouragement referred to in subsection (a), that are consistent with national security objectives and will enable Department of Defense personnel to promote technology transfer in cases referred to in subsection (a)."

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end thereof the following new item:

"2362. Encouragement of technology transfer.".

SEC. 1458. CIVIL AIR PATROL

(a) REIMBURSEMENT FOR MAJOR ITEMS OF EQUIPMENT.—Section 9441(b)(10) of title 10, United States Code, is amended by striking out "authorize the purchase with funds appropriated to the Air Force" and inserting in lieu thereof "reimburse the Civil Air Patrol for costs incurred for the purchase".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on October 1, 1985.

SEC. 1459. NATIONAL SCIENCE CENTER FOR COMMUNICATIONS AND ELECTRONICS

(a) FINDINGS.—The Congress makes the following findings:

(1) Scientific and technological developments in communications and electronics are of particular importance to the United States in meeting its national security, industrial, and other needs.

(2) Enhanced training in the technical communications, electronics, and computer disciplines is necessary for a more efficient and effective military force.

(3) The Secretary of the Army, through the Training and Doctrine Command, is responsible for providing training to members of the Army.

(4) The Ninety-seventh Congress, in Senate Concurrent Resolution 130 of that Congress, encouraged the establishment within the United States of a national center dedicated to communications and electronics.

(5) The Secretary of the Army entered into a Memorandum of Understanding with the National Science Center for Communications and Electronics Foundation Incorporated, a nonprofit corporation of the State of Georgia, in which the Army and such foundation agreed to develop a science center for—

(A) the promotion of engineering principles and practices;

(B) the advancement of scientific education for careers in communications and electronics; and

(C) the portrayal of the communications, electronics, and computer arts.

(b) PURPOSE.—It is the purpose of this section—

(1) to recognize the relationship between the Army and the National Science Center for Communications and Electronics Foundation Incorporated (hereinafter in this section referred to as the "Foundation") for the development, construction, and operation of a national science center; and

(2) to authorize the Secretary of the Army (hereinafter in this section referred to as the "Secretary") to make available a suitable site for the construction of such a center, to accept title to the center facilities when constructed, and to provide for the management, operation, and maintenance of such a center after the transfer of title of the center to the Secretary.

(c) NATIONAL SCIENCE CENTER.—(1) Subject to paragraph (2), the Secretary may provide a suitable parcel of land at or near Fort Gordon, Georgia, for the construction by the Foundation of a National Science Center to meet the objectives expressed in subsection (a). Upon completion of the construction of the center, the Secretary may accept title to the center and may provide for the management, operation, and maintenance of the center.

(2) As a condition to making a parcel of land available to the Foundation for the construction of a National Science Center, the Secretary shall have the right to approve the design of the center, including all plans, specifications, contracts, sites, and materials to be used in the construction of such center and all rights-of-way, easements, and rights of ingress and egress for the center. The Secretary's approval of the design and plans shall be based on good business practices and accepted engineering principles, taking into consideration safety and other appropriate factors.

(d) GIFTS.—The Secretary may accept conditional or unconditional gifts made for the benefit of, or in connection with, the center.

(e) ADVISORY BOARD.—The Secretary may appoint an advisory board to advise the Secretary regarding the operation of the center in pursuit of the goals of the center described in subsection (a)(5). The Secretary may appoint to the advisory board such members of the Board of Directors of the Foundation as the Secretary considers appropriate. The Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to the advisory board appointed under this subsection.

(f) AVAILABILITY OF CENTER TO FOUNDATION.—Consistent with the mission of the Armed Forces and the efficient operation of the center, the Secretary may make facilities at the center available to the Foundation—

(1) for its corporate activities; and

(2) for such endeavors in the area of communications and electronics as the Secretary may consider appropriate.

(g) OTHER AUTHORIZED USES.—(1) The Secretary may make the center available to the public and to other departments and agencies of the Government for research and study and for public exhibitions. The Secretary may charge for such uses as he considers necessary and appropriate.

(2) Any money collected for the use of the facilities of the center shall be deposited to a special fund maintained by the Secretary for the maintenance and operation of the center. The Secretary shall require the Auditor General of the Army to audit the records of such fund at least once every two years and to report the results of the audits to the Secretary.

SEC. 1460. DONATIONS BY COMMISSARY STORES OF CERTAIN UNMARKETABLE FOOD

(a) IN GENERAL.—Chapter 147 of title 10, United States Code, is amended by adding at the end thereof the following new section:

"§ 2485. Commissary stores: donation of unmarketable food

"(a) The Secretary of a military department may donate commissary store food described in subsection (b) to authorized charitable nonprofit food banks.

"(b) Food that may be donated under this section is food of a commissary store—

"(1) that is—

"(A) unmarketable;

"(B) unsaleable; and

"(C) certified as edible by appropriate food inspection technicians; and

"(2) that would otherwise be destroyed as unusable.

"(c) A donation under this section shall take place at the site of the commissary that is donating the food.

"(d) A donation under this section may only be made to an entity that is authorized by the Secretary of Defense or the Secretary of Health and Human Services to receive donations under this section.

"(e) This section does not authorize any service (including transportation) to be provided in connection with a donation under this section.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end thereof the following new item:

"2485. Commissary stores: donation of unmarketable food.".

SEC. 1461. LIMITATION ON GRATUITIES AT NAVAL SHIPBUILDING CEREMONIES

(a) GENERAL RULE.—A Federal officer, employee, or Member of Congress may not accept, directly or indirectly, any tangible thing of value as a gift or memento in connection with a ceremony to mark the completion of a naval shipbuilding milestone.

(b) EXCLUSION.—Subsection (a) does not apply to a gift or memento that has a value of less than $100.

(c) DEFINITIONS.—For purposes of this section, the terms "officer", "employee", and "Member of Congress" have the meanings given those terms in sections 2104, 2105, and 2106, respectively, of title 5, United States Code.

SEC. 1462. AUTHORITY TO TRANSFER CERTAIN AIRCRAFT

(a) IN GENERAL.—The Secretary of the Navy may transfer title to an aircraft described in subsection (b) to the institution leasing the aircraft if the Secretary certifies—

(1) that at the time of the transfer the aircraft is being used by the organization holding the aircraft for a purpose consistent with the use intended when the aircraft was first leased to the institution; and

(2) that the Department of the Navy no longer needs the aircraft.

(b) COVERED AIRCRAFT.—The authority of the Secretary of the Navy under subsection (a) applies with respect to an aircraft—

(1) that on the date of the enactment of this Act is being leased by the Secretary to a State-supported educational institution; and

(2) for which a lease for such aircraft began with such institution on or before January 1, 1976.

(c) COMPENSATION.—A transfer under this section shall be made without compensation or reimbursement to the United States.

SEC. 1463. AUTHORITY TO LEASE AIR FORCE HELICOPTERS TO THE STATE OF CALIFORNIA

Notwithstanding any other provision of this or any other Act, the Secretary of the Air Force may lease not more that 12 UH-F1 helicopters to the Department of Forestry of the State of California for the purposes of fighting forest fires, search and rescue missions, and vegetation control activities. The lease of helicopters under this section shall be made subject to such terms and conditions as the Secretary considers fair, reasonable, and necessary to protect the interests of the United States.

SEC. 1464. SENSE OF CONGRESS CONCERNING ESTABLISHMENT OF TRAVEL OFFICES OR ACQUISITION OF TRAVEL SERVICES

It is the sense of the Congress that the Secretary of each military department should provide, in the establishment of travel offices or the acquisition of travel services for official travel, for free and open competition among commercial travel agencies, scheduled airline traffic offices (SATOs), and other entities which provide such services.

SEC. 1465. AMERICAN STAGE EQUIPMENT FOR UNITED STATES PATRIOTIC EVENTS

It is the sense of Congress that performing groups in the Armed Forces of the United States should use domestically manufactured entertainment support items, such as pianos and organs, sound and lighting equipment, and other items essential for quality entertainment, at patriotic and ceremonial events in the Capitol Building, on the Capitol Grounds, and at all Federal buildings, unless there is no domestically manufactured item of comparable quality and price.

SEC. 1466. SALE OF CERTAIN RECORDINGS OF UNITED STATES AIR FORCE BAND

(a) AUTHORIZED SALE.—Notwithstanding any other provision of law, the Secretary of the Air Force may produce recordings of the concert of the United States Air Force Band in Salt Lake City, Utah, on April 18 and 19, 1985, for commercial sale.

(b) AUTHORIZED CONTRACT.—The Secretary may enter into an appropriate contract, under such terms as the Secretary determines to be in the best interest of the Government, for the production and sale authorized by subsection (a).

TITLE XV—DEPARTMENT OF ENERGY NATIONAL SECURITY PROGRAMS

SEC. 1501. SHORT TITLE

This title may be cited as the "Department of Energy National Security and Military Applications of Nuclear Energy Authorization Act of 1986".

PART A—NATIONAL SECURITY PROGRAMS AUTHORIZATIONS

SEC. 1511. OPERATING EXPENSES

Funds are authorized to be appropriated to the Department of Energy for fiscal year 1986 for operating expenses incurred in carrying out national security programs (including scientific research and development in support of the Armed Forces, strategic and critical materials necessary for the common defense, and military applications of nuclear energy and related management and support activities) as follows:

(1) For naval reactors development, $489,000,000.

(2) For weapons activities, $3,519,200,000, to be allocated as follows:

(A) For research and development, $850,300,000.

(B) For weapons testing, $537,800,000.

(C) For the defense inertial confinement fusion program, $145,000,000.

(D) For production and surveillance, $1,887,400,000.

(E) For program direction, $98,700,000.

(3) For verification and control technology, $90,975,000, of which $3,800,000 shall be used for program direction.

(4) For defense nuclear materials production, $1,556,300,000, to be allocated as follows:

(A) For uranium enrichment, $208,900,000.

(B) For production reactor operations, $576,380,000.

(C) For processing of defense nuclear materials, $493,145,000, of which $74,800,000 shall be used for special isotope separation.

(D) For supporting services, $256,575,000, of which $26,000,000 shall be used for the plasma separation process program.

(E) For program direction, $21,300,000.

(5) For defense nuclear waste and byproduct management, $395,037,000, to be allocated as follows:

(A) For interim waste management, $271,000,000.

(B) For long-term waste management technology, $96,567,000.

(C) For terminal waste storage, $25,070,000.

(D) For program direction, $2,400,000.

(6) For nuclear materials safeguards and security technology development program, $54,325,000, of which $6,925,000 shall be used for program direction.

(7) For security investigations, $33,400,000.

SEC. 1512. PLANT AND CAPITAL EQUIPMENT

Funds are authorized to be appropriated to the Department of Energy for fiscal year 1986 for plant and capital equipment (including planning, construction, acquisition, and modification of facilities, land acquisition related thereto, and acquisition and fabrication of capital equipment not related to construction) necessary for national security programs as follows:

(1) For weapons activities:

Project 86-D-101, general plant projects, various locations, $26,900,000.

Project 86-D-121, general plant projects, various locations, $28,700,000.

Project 86-D-103, decontamination and waste treatment facility, Lawrence Livermore National Laboratory, Livermore, California, $3,700,000.

Project 86-D-104, strategic defense facility, Sandia National Laboratories, Albuquerque, New Mexico, $4,000,000.

Project 86-D-105, Instrumentation Systems Laboratory, Sandia National Laboratories, Albuquerque, New Mexico, $6,200,000.

Project 86-D-122, structural upgrade of existing plutonium facilities, Rocky Flats Plant, Golden, Colorado, $3,000,000.

Project 86-D-123, environmental hazards elimination, various locations, $8,700,000.

Project 86-D-124, safeguards and site security upgrading, phase II, Mound Plant, Miamisburg, Ohio, $3,000,000.

Project 86-D-125, safeguards and site security upgrade, phase II, Pantex Plant, Amarillo, Texas, $1,500,000.

Project 86-D-130, Tritium loading facility replacement, Savannah River Plant, Aiken, South Carolina, $5,000,000.

Project 86-D-133, Data Communications Laboratory, Los Alamos National Laboratory, Los Alamos, New Mexico, $3,000,000.

Project 85-D-102, nuclear weapons research, development, and testing facilities revitalization, phase I, various locations, $65,400,000, for a total project authorization of $100,800,000.

Project 85-D-103, safeguards and security enhancements, Lawrence Livermore National Laboratory and Sandia National Laboratories, Livermore, California, $16,400,000, for a total project authorization of $21,100,000.

Project 85-D-105, combined device assembly facility, Nevada Test Site, Nevada, $7,000,000, for a total project authorization of $14,600,000.

Project 85-D-106, hardened engineering test building, Lawrence Livermore National Laboratory, Livermore, California, $1,900,000, for a total project authorization of $2,700,000.

Project 85-D-112, enriched uranium recovery improvements, Y-12 Plant, Oak Ridge, Tennessee, $15,300,000, for a total project authorization of $19,800,000.

Project 85-D-113, powerplant and steam distribution system, Pantex Plant, Amarillo, Texas, $18,500,000, for a total project authorization of $23,000,000.

Project 85-D-115, renovate plutonium building utility systems, Rocky Flats Plant, Golden, Colorado, $17,700,000, for a total project authorization of $20,600,000.

Project 85-D-121, air and water pollution control facilities, Y-12 Plant, Oak Ridge, Tennessee, $14,000,000, for a total project authorization of $19,000,000.

Project 85-D-123, safeguards and site security upgrade, phase I, Pantex Plant, Amarillo, Texas, $4,000,000, for a total project authorization of $5,000,000.

Project 85-D-124, safeguards and site security upgrade, Rocky Flats Plant, Golden, Colorado, $2,400,000, for a total project authorization of $3,400,000.

Project 85-D-125, tactical bomb production facilities, various locations, $6,000,000, for a total project authorization of $16,000,000.

Project 84-D-102, radiation-hardened integrated circuit laboratory, Sandia National Laboratories, Albuquerque, New Mexico, $15,500,000, for a total project authorization of $37,500,000.

Project 84-D-104, nuclear materials storage facility, Los Alamos National Laboratory, Los Alamos, New Mexico, $12,100,000, for a total project authorization of $19,300,000.

Project 84-D-107, nuclear testing facilities revitalization, various locations, $14,900,000, for a total project authorization of $65,940,000.

Project 84-D-112, Trident II warhead production facilities, various locations, $60,700,000, for a total project authorization of $140,700,000.

Project 84-D-113, anti-submarine warfare/standoff weapon warhead production facilities, various locations, $10,000,000.

Project 84-D-115, electrical system expansion, Pantex Plant, Amarillo, Texas, $3,300,000, for a total project authorization of $14,800,000.

Project 84-D-117, inert assembly and test facility, Pantex Plant, Amarillo, Texas, $400,000, for a total project authorization of $13,600,000.

Project 84-D-118, high-explosive subassembly facility, Pantex Plant, Amarillo, Texas, $33,000,000, for a total project authorization of $40,000,000.

Project 84-D-120, explosive component test facility, Mound Plant, Miamisburg, Ohio, $2,300,000, for a total project authorization of $22,300,000.

Project 84-D-211, safeguards and site security upgrading, Y-12 Plant, Oak Ridge, Tennessee, $7,500,000, for a total project authorization of $23,000,000.

Project 84-D-212, safeguards and site security upgrade, Pinellas Plant, Florida, $3,800,000, for a total project authorization of $7,500,000.

Project 83-D-199, buffer land acquisition, Lawrence Livermore National Laboratory and Sandia National Laboratories, Livermore, California, $10,000,000, for a total project authorization of $34,000,000.

Project 82-D-107, utilities and equipment restoration, replacement, and upgrade, phase III, various locations, $170,000,000, for a total project authorization of $740,400,000.

Project 82-D-111, interactive graphics systems, various locations, $4,000,000, for a total project authorization of $24,000,000.

Project 82-D-144, Simulation Technology Laboratory, Sandia National Laboratories, Albuquerque, New Mexico, $10,300,000, for a total project authorization of $34,000,000.

Project 79-7-0, Universal Pilot Plant, Pantex Plant, Amarillo, Texas, $4,500,000, for a total project authorization of $20,400,000.

(2) For materials production:

Project 86-D-146, general plant projects, various locations, $29,800,000.

Project 86-D-148, special isotope separation plant (design only), site undesignated, $8,000,000.

Project 86-D-149, productivity retention program, phase I, various locations, $24,200,000.

Project 86-D-150, in-core neutron monitoring system, N reactor, Richland, Washington, $4,460,000.

Project 86-D-151, PUREX electrical system upgrade, Richland, Washington, $2,500,000.

Project 86-D-152, reactor electrical distribution system, Savannah River, South Carolina, $2,000,000.

Project 86-D-153, additional line III furnace, Savannah River, South Carolina, $1,500,000.

Project 86-D-154, effluent treatment facility, Savannah River, South Carolina, $2,500,000.

Project 86-D-156, plantwide safeguards systems, Savannah River, South Carolina, $3,000,000.

Project 86-D-157, hydrofluorination system, FB-line, Savannah River, South Carolina, $2,200,000.

Project 85-D-137, vault safety special nuclear material inventory system, Richland, Washington, $1,900,000, for a total project authorization of $4,400,000.

Project 85-D-139, fuel processing restoration, Idaho Fuels Processing Facility, Idaho National Engineering Laboratory, Idaho, $12,000,000, for a total project authorization of $22,000,000.

Project 85-D-140, productivity and radiological improvements, Feed Materials Production Center, Fernald, Ohio, $12,000,000, for a total project authorization of $18,000,000.

Project 85-D-145, fuel production facility, Savannah River, South Carolina, $16,000,000, for a total project authorization of $25,800,000.

Project 84-D-135, process facility modifications, Richland, Washington, $15,000,000, for a total project authorization of $32,500,000.

Project 84-D-136, enriched uranium conversion facility modifications, Y-12 Plant, Oak Ridge, Tennessee, $7,200,000, for a total project authorization of $19,600,000.

Project 83-D-148, non-radioactive hazardous waste management, Savannah River, South Carolina, $3,100,000, for a total project authorization of $22,100,000.

Project 82-D-124, restoration of production capabilities, phases II, III, IV, and V, various locations, $43,900,000, for a total project authorization of $348,534,000.

Project 82-D-201, special plutonium recovery facilities, JB-Line, Savannah River, South Carolina, $4,400,000, for a total project authorization of $83,800,000.

(3) For defense waste and byproducts management:

Project 86-D-171, general plant projects, interim waste operations and long-term waste management technology, various locations, $24,451,000.

Project 86-D-172, B plant F filter, Richland, Washington, $1,000,000.

Project 86-D-173, central waste disposal facility, Oak Ridge, Tennessee, $1,000,000.

Project 86-D-174, low-level waste processing and shipping system, Feed Materials Production Center, Fernald, Ohio, $2,500,000.

Project 86-D-175, Idaho National Engineering Laboratory security upgrade, Idaho National Engineering Laboratory (INEL), Idaho, $2,000,000.

Project 85-D-157, seventh calcined solids storage facility, Idaho Chemical Processing Plant, Idaho National Engineering Laboratory, Idaho, $14,500,000, for a total project authorization of $21,500,000.

Project 85-D-158, central warehouse upgrade, Richland, Washington, $5,000,000, for a total project authorization of $5,700,000.

Project 85-D-159, new waste transfer facilities, H-Area, Savannah River, South Carolina, $9,000,000, for a total project authorization of $20,000,000.

Project 85-D-160, test reactor area security system upgrade, Idaho National Engineering Laboratory (INEL), Idaho, $2,250,000, for a total project authorization of $4,250,000.

Project 81-T-105, defense waste processing facility, Savannah River, South Carolina, $165,000,000, for a total project authorization of $597,500,000.

(4) For verification and control technology:

Project 85-D-171, space science laboratory, Los Alamos, New Mexico, $4,500,000, for a total project authorization of $5,500,000.

(5) Nuclear safeguards and security:

Project 86-D-186, Nuclear Safeguards Technology Laboratory, Los Alamos National Laboratory, Los Alamos, New Mexico, $1,000,000.

(6) For naval reactors development:

Project 86-N-101, general plant projects, various locations, $4,000,000.

Project 86-N-104, reactor modifications, advance test reactor, Idaho National Engineering Laboratory, $4,500,000.

Project 82-N-111, materials facility, Savannah River, South Carolina, $11,000,000, for a total project authorization of $176,000,000.

Project 81-T-112, modifications and additions to prototype facilities, various locations, $27,000,000, for a total project authorization of $137,000,000.

(7) For capital equipment not related to construction:

(A) for weapons activities, $267,750,000;

(B) for inertial confinement fusion, $10,000,000;

(C) for materials production, $123,440,000;

(D) for defense waste and byproducts management, $38,997,000;

(E) for verification and control technology, $5,600,000;

(F) for nuclear safeguards and security, $4,600,000; and

(G) for naval reactors development, $29,000,000.

PART B—RECURRING GENERAL PROVISIONS

SEC. 1521. REPROGRAMMING

(a) NOTICE TO CONGRESS.—Except as otherwise provided in this title—

(1) no amount appropriated pursuant to this title may be used for any program in excess of 105 percent of the amount authorized for that program by this title or $10,000,000 more than the amount authorized for that program by this title, whichever is the lesser, and

(2) no amount appropriated pursuant to this title may be used for any program which has not been presented to, or requested of, the Congress,

unless a period of 30 calendar days (not including any day on which either House of Congress is not in session because of adjournment of more than three calendar days to a day certain) has passed after receipt by the appropriate committees of Congress of notice from the Secretary of Energy (hereinafter in this part referred to as the "Secretary") containing a full and complete statement of the action proposed to be taken and the facts and circumstances relied upon in support of such proposed action, or unless each such committee before the expiration of such period has transmitted to the Secretary written notice to the effect that such committee has no objection to the proposed action.

(b) LIMITATION ON AMOUNT OBLIGATED.—In no event may the total amount of funds obligated pursuant to this title exceed the total amount authorized to be appropriated by this title.

SEC. 1522. LIMITS ON GENERAL PLANT PROJECTS

(a) IN GENERAL.—The Secretary may carry out any construction project under the general plant projects provisions authorized by this title if the total estimated cost of the construction project does not exceed $1,200,000.

(b) REPORT TO CONGRESS.—If at any time during the construction of any general plant project authorized by this title, the estimated cost of the project is revised because of unforeseen cost variations and the revised cost of the project exceeds $1,200,000, the Secretary shall immediately furnish a complete report to the appropriate committees of Congress explaining the reasons for the cost variation.

SEC. 1523. LIMITS ON CONSTRUCTION PROJECTS

(a) IN GENERAL.—Whenever the current estimated cost of a construction project, which is authorized by section 1512 of this title, or which is in support of national security programs of the Department of Energy and was authorized by any previous Act, exceeds by more than 25 percent the higher of—

(1) the amount authorized for the project; or

(2) the amount of the total estimated cost for the project as shown in the most recent budget justification data submitted to the Congress,

construction may not be started or additional obligations incurred in connection with the project above the total estimated cost, as the case may be, unless a period of 30 calendar days (not including any day in which either House of Congress is not in session because of adjournment of more than three days to a day certain) has passed after receipt by the appropriate committees of Congress of written notice from the Secretary containing a full and complete statement of the action proposed to be taken and the facts and circumstances relied upon in support of the action, or unless each committee before the expiration of such period has notified the Secretary it has no objection to the proposed action.

(b) EXCEPTION.—Subsection (a) shall not apply to any construction project which has a current estimated cost of less than $5,000,000.

SEC. 1524. FUND TRANSFER AUTHORITY

To the extent specified in appropriation Acts, funds appropriated pursuant to this title may be transferred to other agencies of the Government for the performance of the work for which the funds were appropriated, and funds so transferred may be merged with the appropriations of the agency to which the funds are transferred.

SEC. 1525. AUTHORITY FOR CONSTRUCTION DESIGN

(a) IN GENERAL.—(1) Within the amounts authorized by this title for plant engineering and design, the Secretary may carry out advance planning and construction designs (including architectural and engineering services) in connection with any proposed construction project if the total estimated cost for such planning and design does not exceed $2,000,000.

(2) In any case in which the total estimated cost for such planning and design exceeds $300,000, the Secretary shall notify the appropriate committees of Congress in writing of the details of such project at least 30 days before any funds are obligated for design services for such project.

(b) SPECIFIC AUTHORITY REQUIRED.—In any case in which the total estimated cost for advance planning and construction design in connection with any construction project exceeds $2,000,000, funds for such design must be specifically authorized by law.

SEC. 1526. AUTHORITY FOR EMERGENCY CONSTRUCTION DESIGN

In addition to the advance planning and construction design authorized by section 1512, the Secretary may perform planning and design utilizing available funds for any Department of Energy defense activity construction project whenever the Secretary determines that the design must proceed expeditiously in order to meet the needs of national defense or to protect property or human life.

SEC. 1527. FUNDS AVAILABLE FOR ALL NATIONAL SECURITY PROGRAMS OF THE DEPARTMENT OF ENERGY

Subject to the provisions of appropriation Acts, amounts appropriated pursuant to this title for management and support activities and for general plant projects are available for use, when necessary, in connection with all national security programs of the Department of Energy.

SEC. 1528. ADJUSTMENTS FOR PAY INCREASES

Appropriations authorized by this title for salary, pay, retirement, or other benefits for Federal employees may be increased by such amounts as may be necessary for increases in such benefits authorized by law.

SEC. 1529. AVAILABILITY OF FUNDS

When so specified in an appropriation Act, amounts appropriated for "Operating Expenses" or for "Plant and Capital Equipment" may remain available until expended.

PART C—PROGRAM REVISIONS AND MISCELLANEOUS PROVISIONS

SEC. 1531. GENERAL REDUCTION

The total amount that may be appropriated pursuant to the authorizations in this title is the amount equal to the sum of the amounts authorized in this title reduced by $32,280,000. Of such reduction—

(1) $10,000,000 shall be derived from funds for acquisition of automated data processing and computer equipment;

(2) $14,000,000 shall be derived from savings from management initiatives; and

(3) $8,280,000 shall be derived from proposed rescission R85-80.

SEC. 1532. COMMUNITY ASSISTANCE PAYMENTS

(a) FINAL SETTLEMENT.—Subject to the provisions of appropriation Acts, the Secretary of Energy is authorized to obligate during fiscal year 1986 not more than $41,133,000 from funds available to the Department of Energy for the purpose of carrying out a contract with Anderson County and Roane County, Tennessee, and the City of Oak Ridge, Tennessee, that would provide a final financial settlement with those entities and terminate all annual assistance payments made to those entities pursuant to section 91 of the Atomic Energy Community Act of 1955 (42 U.S.C. 2391), and for advance payment of payments in lieu of property taxes for the fiscal years 1986 through 1996 authorized by section 168 of the Atomic Energy Act of 1954 (42 U.S.C. 2208).

(b) REPORT TO CONGRESS.—Not later than February 1, 1986, the Secretary of Energy shall submit to the appropriate committees of Congress a report and the Secretary's recommendations concerning any need for any further financial assistance payments to local governmental entities pursuant to the Atomic Energy Community Act of 1955. In making such recommendations, the Secretary shall consider—

(1) the criteria established by section 91 of the Atomic Energy Act of 1954;

(2) changes in the financial circumstances of State and local governmental entities since 1955;

(3) other forms of Federal assistance to State and local governmental entities provided since 1955; and

(4) the deficit of the Federal budget.

(c) LIMITATION.—No funds may be obligated for the purposes set forth in subsection (a) until—

(1) the Secretary has submitted to the appropriate committee of Congress a copy of an executed contract that complies with the requirements of that subsection; and

(2) a period of 30 calendar days (not including any day on which either House of Congress is not in session because of adjournment of more than three calendar days to a day certain) has passed after receipt of such contract.

SEC. 1533. IMPROVEMENTS TO DEPARTMENT OF ENERGY BUILDING AT OAK RIDGE, TENNESSEE

Subject to the provisions of appropriations Acts, the Secretary of Energy is authorized to obligate not more than $5,000,000 during fiscal year 1986 from funds available to the Department of Energy to renovate a building owned by the Department of Energy at Oak Ridge, Tennessee, if the Secretary determines that the Department's research and development requirements of the Strategic Defense Initiatives program require such renovations.

SEC. 1534. COSTS NOT ALLOWED UNDER COVERED CONTRACTS

(a) IN GENERAL.—The following costs are not allowable under a covered contract:

(1) Costs of entertainment, including amusement, diversion, and social activities and any costs directly associated with such costs (such as tickets to shows or sports events, meals, lodging, rentals, transportation, and gratuities).

(2) Costs incurred to influence (directly or indirectly) legislative action on any matter pending before Congress or a State legislature.

(3) Costs incurred in defense of any civil or criminal fraud proceeding or similar proceeding (including filing of any false certification) brought by the United States where the contractor is found liable or has pleaded nolo contendere to a charge of fraud or similar proceeding (including filing of false certification).

(4) Payments of fines and penalties resulting from violations of, or failure to comply with, Federal, State, local, or foreign laws and regulations, except when incurred as a result of compliance with specific terms and conditions of the contract or specific written instructions from the contracting officer authorizing in advance such payments in accordance with applicable regulations of the Secretary of Energy.

(5) Costs of membership in any social, dining, or country club or organization.

(6) Costs of alcoholic beverages.

(7) Contributions or donations, regardless of the recipient.

(8) Costs of advertising designed to promote the contractor or its products.

(9) Costs of promotional items and memorabilia, including models, gifts, and souvenirs.

(10) Costs for travel by commercial aircraft or by travel by other than common carrier that is not necessary for the performance of the contract and the cost of which exceeds the amount of the standard commercial fare.

(b) REGULATIONS.—Not later than 150 days after the date of the enactment of this Act, the Secretary of Energy shall prescribe regulations to implement this section. Such regulations may establish appropriate definitions, exclusions, limitations, and qualifications. Such regulations shall be published in accordance with section 22 of the Office of Federal Procurement Policy Act (41 U.S.C. 418b).

(c) DEFINITION.—In this section, "covered contract" means a contract for an amount more than $100,000 entered into by the Secretary of Energy obligating funds appropriated for national security programs of the Department of Energy.

(d) EFFECTIVE DATE.—Subsection (a) shall apply with respect to costs incurred under a covered contract on or after 30 days after the regulations required by subsection (b) are issued.

SEC. 1535. TECHNICAL AMENDMENTS

(a) IN GENERAL.—Sections 1623(a) and 1626 of the Department of Energy National Security and Military Applications of Nuclear Energy Authorization Act of 1985 (title XVI of Public Law 98-525) are amended by striking out "section 302" and inserting in lieu thereof "section 1602".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall be considered to have been made on the date of the enactment of the Department of Energy National Security and Military Applications of Nuclear Energy Authorization Act of 1985.

TITLE XVI—OTHER GENERAL PROVISIONS

PART A—CIVIL DEFENSE

SEC. 1601. AUTHORIZATION OF APPROPRIATIONS

There is hereby authorized to be appropriated for fiscal year 1986 to carry out provisions of the Federal Civil Defense Act of 1950 (50 U.S.C. App. 2251 et seq.) the sum of $130,000,000.

PART B—NATIONAL DEFENSE STOCKPILE

SEC. 1611. FUNDING FOR NATIONAL DEFENSE STOCKPILE

(a) ONE-YEAR EXTENSION OF FUNDING FOR STOCKPILE TRANSACTION FUND FROM NAVAL PETROLEUM RESERVE RECEIPTS.—Section 905 of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2574), is amended by striking out "during fiscal year 1985" and inserting in lieu thereof "during fiscal years 1985 and 1986".

(b) CONFORMING AMENDMENT.—Section 903(b) of such Act (98 Stat. 2573) is amended by striking out "October 1, 1986" and inserting in lieu thereof "October 1, 1987".

SEC. 1612. PROHIBITION OF REDUCTIONS IN STOCKPILE GOALS

(a) FREEZE ON GOALS.—(1) No action may be taken before October 1, 1986, to implement or administer any change in a stockpile goal in effect on October 1, 1984, that results in a reduction in the quality or quantity of any strategic and critical material to be acquired for the National Defense Stockpile.

(b) DEFINITION.—For purposes of subsection (a), the term "stockpile goal" means a determination made by the President under section 3(a) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98b) with respect to the National Defense Stockpile.

SEC. 1613. STUDY OF LOSS OF PRODUCTION CAPACITY OF CRITICAL FERROALLOY PRODUCTS

(a) REQUIREMENT FOR STUDY.—Recognizing the vital role that ferroalloy products have in industries crucial to the national defense, the Secretary of Defense shall conduct a study to determine what effect the loss of all capacity by the United States to produce domestic ferroalloys would have on the defense industrial base and on industrial preparedness of the United States.

(b) SPECIFIC REQUIREMENTS.—Such study shall include an evaluation of the effect that the loss of production capacity by the United States for ferrochrome, ferromanganese, ferrosilicon (all grades), silicon manganese, chromium metal, and other militarily critical ferroalloy products would have on the industrial base and on industrial preparedness of the United States.

(c) CONSULTATION.—The Secretary shall conduct such study through the Undersecretary of Defense for Policy in consultation with the Director of the Federal Emergency Management Agency and the Secretary of the Interior.

(d) SUBMISSION OF REPORT.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall submit to Congress a report containing the results of the study conducted under subsection (a). Such report shall, to the extent practicable, be unclassified.

PART C—OTHER PROVISIONS

SEC. 1621. SENSE OF THE CONGRESS EXPRESSING SUPPORT FOR THE SELECTIVE SERVICE REGISTRATION PROGRAM

(a) FINDINGS.—The Congress makes the following findings:

(1) The program of peacetime registration of young men under the Military Selective Service Act contributes to the national security by reducing the time required for full defense mobilization.

(2) The Selective Service registration program is an important signal to our allies and to our potential adversaries of the United States defense commitment.

(3) Since the resumption of selective service registration, more than 13,500,000 young men have registered with Selective Service.

(b) SENSE OF CONGRESS.—In view of these findings, it is the sense of Congress that the President should recognize, by Presidential proclamation, the contribution of our young men to the success of the peacetime registration program.

SEC. 1622. PROHIBITION ON CIVIL SERVICE EMPLOYMENT OF PERSONS WHO FAIL TO REGISTER UNDER THE MILITARY SELECTIVE SERVICE ACT

(a) IN GENERAL.—(1) Subchapter I of chapter 33 of title 5, United States Code, is amended by adding at the end thereof the following new section:

"§ 3328. Selective Service registration

"(a) An individual—

(1) who was born after December 31, 1959, and is or was required to register under section 3 of the Military Selective Service Act (50 U.S.C. App. 453); and

(2) who is not so registered or knowingly and willfully did not so register before the requirement terminated or became inapplicable to the individual, shall be ineligible for appointment to a position in an executive agency of the Federal Government.

"(b) The Office of Personnel Management, in consultation with the Director of the Selective Service System, shall prescribe regulations to carry out this section. Such regulations shall include provisions prescribing procedures for the adjudication within the Office of determinations of whether a failure to register was knowing and willful. Such procedures shall require that such a determination may not be made if the individual concerned shows by a preponderance of the evidence that the failure to register was neither knowing nor willful.".

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 3327 the following new item:

"3328. Selective Service registration.".

(b) REPORT.—(1) The Office of Personnel Management shall submit to Congress a report—

(A) as to whether it is practicable to apply section 3328 of title 5, United States Code (as added by subsection (a)), to persons born before January 1, 1960; and

(B) on the relative costs and benefits of corroborating registration of individuals under the Military Selective Service Act for the purposes of that section on a spot-check basis or on an individual basis.

(2) The report shall be submitted not later than February 1, 1986.

SEC. 1623. AUTHORITY TO PROVIDE COAST GUARD COMMANDANT RESIDENCE-TO-WORK TRANSPORTATION PROVIDED OTHER SERVICE CHIEFS

Effective on October 1, 1985, section 660 of title 14, United States Code, is amended by adding at the end thereof the following new subsection:

"(e) Passenger motor vehicles of the United States may be used to provide transportation between the residence and place of work of the Commandant.".

SEC. 1624. ACCEPTANCE OF CERTAIN VOLUNTEER SERVICES

(a) EXTENSION OF AUTHORITY TO COAST GUARD.—Section 1588(a) of title 10, United States Code, is amended—

(1) by striking out "Secretary of a military department" and inserting in lieu thereof "Secretary concerned"; and

(2) by striking out "operated by that military department" and inserting in lieu thereof "operated by the military department concerned or the Coast Guard, as appropriate".

(b) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1985.

SEC. 1625. AUTHORITY TO EXEMPT CERTAIN PHYSICIANS AT SOLDIERS' AND AIRMEN'S HOME FROM REDUCTIONS IN RETIRED PAY

(a) IN GENERAL.—The Governor of the United States Soldiers' and Airmen's Home may exempt, at any time, not more than two physicians employed by the Home from the restrictions in subsections (a), (b), and (c) of section 5532 of title 5, United States Code, if the Governor determines that such exemptions are necessary to recruit or retain well-qualified physicians for the Home. An exemption granted under this section shall terminate upon any break in employment with the Home by a physician of three days or more.

(b) APPLICABILITY.—An exemption granted to a person under subsection (a) shall apply to the retired pay of that person beginning with the first month after the month in which the exemption is granted.

SEC. 1626. MANAGEMENT OF MILITARY RECORDS MAINTAINED BY THE NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

(a) FINDINGS.—The Congress finds that—

(1) the National Archives and Records Administration has received a substantial number of military records; and

(2) by reason of the manner in which such records are maintained, many of such records are not readily accessible to the public.

(b) REPORT.—(1) Not later than March 31, 1986, the Archivist of the United States shall submit to Congress a report outlining a plan—

(A) for improving the management, maintenance, storage, and preservation of military records; and

(B) for improving public access to such records.

(2) In preparing the report, the Archivist shall consider recommendations received from—

(A) officials of the military departments responsible for the maintenance and storage of military records; and

(B) interested public groups.

SEC. 1627. ROBERT C. BYRD HONORS SCHOLARSHIP PROGRAM

(a) DESIGNATION OF PROGRAM.—Section 419A of the Higher Education Act of 1965 is amended by striking out "Federal Merit Scholarship Program" and inserting in lieu thereof "Robert C. Byrd Honors Scholarship Program".

(b) DESIGNATION OF BYRD SCHOLARS.—Section 419C of such Act is amended by adding at the end thereof the following new subsection:

"(d) Individuals awarded scholarships under this subpart shall be known as 'Byrd Scholars'.".

(c) CONFORMING AMENDMENTS.—Section 419E(3) of such Act is amended—

(1) by striking out "Federal"; and

(2) by inserting "under this subpart" after "scholarships".

(d) CLERICAL AMENDMENT.—The heading of subpart 6 of part A of title IV of such Act is amended to read as follows:

"Subpart 6—Robert C. Byrd Honors Scholarship Program".

SEC. 1628. POSTAGE STAMP COMMEMORATING THE 350th ANNIVERSARY OF THE ESTABLISHMENT OF THE UNITED STATES NATIONAL GUARD

It is the sense of the Senate that the United States Postal Service should issue a postage stamp during 1986 commemorating the 350th anniversary of the establishment of the United States National Guard.

And the House agree to the same.

That the Senate recede from its disagreement to the amendment of the House to the title of the bill and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the House amendment, insert the following: "An Act to authorize appropriations for military functions of the Department of Defense and to prescribe military personnel levels for the Department of Defense for fiscal year 1986, to revise and improve military compensation programs, to improve defense procurement procedures, to authorize appropriations for fiscal year 1986 for national security programs of the Department of Energy, and for other purposes.".

And the House agree to the same.

From the Committee on Armed Services on all provisions:

LES ASPIN,
MELVIN PRICE,
WM. L. DICKINSON,

From the Committee on Armed Services on all provisions except sections 711, 713, 933 and 949 of the Senate bill and modifications committed to conference:

CHARLES E. BENNETT,
SAMUEL S. STRATTON,
BILL NICHOLS,
DAN DANIEL,
G.V. MONTGOMERY,
BEVERLY BYRON,
NICHOLAS MAVROULES,
EARL HUTTO,
G. WILLIAM WHITEHURST,
FLOYD SPENCE,
MARJORIE HOLT,
ELWOOD H. HILLIS,
ROBERT BADHAM,
BOB STUMP,
JIM COURTER,

As additional conferees, from the Permanent Select Committee on Intelligence, solely when differences regarding intelligence related activities are under consideration:

LEE H. HAMILTON,
LOUIS STOKES,
DICK CHENEY,

From the Committee on Education and Labor, solely for the consideration of sections 711, 713, 910, 919, 933, 949, 2136 and 2137 of the Senate bill and section 1190 of the House amendment and modifications committed to conference:

AUGUSTUS F. HAWKINS,
WILLIAM D. FORD,
DALE E. KILDEE,
AUSTIN J. MURPHY,
W.L. CLAY,
PAT WILLIAMS,
JIM JEFFORDS,
BILL GOODLING,
THOMAS E. PETRI,
STEVE BARTLETT,

Managers on the Part of the House.

BARRY GOLDWATER,
STROM THURMOND,
JOHN WARNER,
GORDON J. HUMPHREY,
BILL COHEN,
DAN QUAYLE,
JOHN EAST,
PETE WILSON,
JEREMIAH DENTON,
PHIL GRAMM,
SAM NUNN,
JOHN C. STENNIS,
GARY HART,
J.J. EXON,
CARL LEVIN,
EDWARD M. KENNEDY,
JEFF BINGAMAN,
ALAN J. DIXON,
JOHN GLENN,

Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 1160) to authorize appropriations for the military functions of the Department of Defense and to prescribe personnel levels for the Department of Defense for fiscal year 1986, to authorize certain construction at military installations for such fiscal year, to authorize appropriations for the Department of Energy for national security programs for such fiscal year, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The House amendment to the text of the bill struck out all of the Senate bill after the enacting clause and inserted a substitute text.

The Senate recedes from its disagreement to the amendment of the House with an amendment which is a substitute for the Senate bill, and the House amendment. The differences between the Senate bill, the House amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

SUMMARY STATEMENT OF CONFERENCE ACTION

The conferees recommend authorizations for the Department of Defense procurement, research development, test and evaluation, operation and maintenance, and for civil defense, less savings estimated to accrue to the Department of Defense as a result of the repeal of the Walsh/Healy Act that total $215.3 billion. This figure is $15.2 billion below the President's budget request, $0.8 billion above the Senate bill and $8.3 billion above the House amendment.

The conferees have agreed to authorizations for Department of Energy National Security programs that total $7.7 billion. This figure is $0.3 billion below the President's budget request, $47 million above the comparable figure in the Senate bill and $34 million below the figure in the House amendment.

The Defense authorization bill provides authorizations for appropriations but does not provide budget authority. Budget authority will be provided in appropriation bills.

SUMMARY OF AUTHORIZATION IN THE BILL COMPARED TO THE REQUEST FOR FISCAL YEAR 1986
[Amounts in millions of dollars]

Item	Fiscal year 1985 Authorization Act Public Law 98-525	Fiscal year 1986 Request	House Passed	Senate passed	Conference Agreement	Change from request

NOTES: 1. Totals may not add due to rounding.

In order to relate the conference recommendation to the budget resolution, matters in addition to those addressed in the preceding table must be taken into account.

In addition to defense programs appropriated by dollar amount, the authorization bill establishes personnel levels and includes a number of legislative provisions affecting military compensation. In total, it is estimated that the conference agreement with respect to personnel matters would result in a reduction of $3.1 billion from the President's request.

Additionally, military construction authorizations will be provided in separate legislation.

The table below summarizes action as it relates to National Defense Function.

	Fiscal year 1986 Request	House Passed	Senate passed	Conference Agreement	Change from request
SUMMARY BY SUBFUNCTION AND FUNCTION (in billions of dollars)					
Military Personnel and contingencies.....	73.6	69.1	71.4	70.5	(3.1)

C-12D cargo aircraft (Huron)

No authorization was requested for C-12D aircraft in fiscal year 1986. The House amendment would authorize $12.0 million for procurement of 6 C-12D aircraft in fiscal year 1986. The Senate bill contained no authorization for procurement of C-12D aircraft in fiscal year 1986.

The conferees recommend authorization of $12.0 million for procurement of 6 C-12D aircraft in fiscal year 1986. In addition, the conferees agreed to include a provision (section 151) requiring competitive procurement of all C-12 aircraft in fiscal year 1986. This competition is restricted to turboprop aircraft.

EH-60A utility helicopter (Quickfix)

The budget request contained $118.6 million for procurement of 18 aircraft in fiscal year 1986, inluding $24.4 million for advance procurement of 18 aircraft in fiscal year 1987. The House amendment would authorize $54.3 million for procurement of 18 aircraft in fiscal year 1986 and a prior year authorization transfeer of $64.3 million. The Senate bill would authorize $54.6 million for procurement of 18 aircraft in fiscal year 1986, including $24.4 million for advance procurement of 18 aircraft in fiscal year 1987, and a prior year authorization transfer of $64.0 million.

The conferees recommend authorization of $54.3 million for procurement of 18 aircraft in fiscal year 1986, including $24.4 for advance procurement of 18 aircraft in fiscal year 1987 and a prior year authorization transfer of $64.3 million.

Modification of Army aircraft

The budget request contained $788.1 million for Army aircraft modifications for fiscal year 1986, including $27.7 million for OV-1 modifications; $124.5 million for AH-1A modifications; and $253.3 million for CH-47 modifications, including $124.8 million for advance procurement for fiscal year 1987. The House amendment would authorize $724.0 million for Army aircraft modifications, including $7.7 million for OV-1 modifications; $104.5 million for AH-1A modifications; $229.2 million for CH-47 modifications, including $124.8 million for advance procurement for fiscal year 1987. The Senate bill would authorize $788.1 million for Army aircraft modification, including $27.7 million for OV-1 modification; $104.5 million for AH-1S modification; $233.3 million for CH-47 modification, including $124.8 million for advance procurement for fiscal year 1987.

The conferees recommend authorization of $739.0 million for Army aircraft modifications, including $22.7 million for OV-1 modification; $104.5 million for AH-1S modification; $229.2 million CH-47 modification, including $124.8 million for advance procurement for fiscal year 1987.

AH-64 (Apache) helicopter

The report (H. Rept. 99-81) accompanying the House amendment earmarked 18 of the 144 AH-64 helicopters authorized in fiscal year 1986 to the Army National Guard. The Senate bill and the accompaning report (S. Rept. 99-41) contained no similar language.

The conferees agreed with the House recommendation, only if sufficient appropriations are provided for the procurement of 144 AH-64 helicopters in fiscal year 1986.

Ground proximity warning system

The report (House Report 99-81) accompanying the House amendment directed that within the amonts authorized for Army aircraft procurement in fiscal year 1986 and prior years, $3.0 million should be used for the procurement of second generation or better ground proximity warning system hardware and associated aircraft modifications. The Senate report (Senate Report 99-41) contained no similar language.

The conferees recommend that $3.0 million may be used for such purposes on a discretionary basis.

Army aircraft support equipment and facilities

The budget request contained $312.2 million for Army aircraft support equipment and facilities in fiscal year 1986. The House amendment would authorize $312.2 million for Army aircraft support equipment and facilities. The Senate bill would authorize $302.2 million for this purpose.

The conferees recommend authorization of $302.2 million for Army aircraft support equipment and facilities in fiscal year 1987.

Army aircraft transfer from prior year

The Senate bill would authorize a general transfer of prior year funds in the amount of $40.0 million. The House amendment contained no authorization for transfer of prior year funds.

The Senate recedes.

Chaparral missile system

The budget request contained $10.4 million for procurement of 300 Chaparral missiles. The House amendment would authorize $197.4 million for procurement of 300 Chaparral missiles, and 36 Chaparral fire units for the Army National Guard. The Senate bill would authorize $110.4 million for procurement of 300 Chaparral missiles.

The conferees agreed to authorize $110.4 million for procurement of 300 Chaparral missiles. Section 104 contains authorization of $58.4 million for 24 Chaparral fire units for the Army National Guard.

Stinger missile

The budget request contained $304.1 million for procurement of 3,439 Stinger missiles. The House amendment would authorize $244.1 million for procurement of 2,909 Stinger missiles. The Senate bill would authorize $304.1 million for procurement of 3,439 Stinger missiles.

The conferees agreed to authorize $244.1 million for procurement of 2,909 Stinger missiles.

The Senate recedes.

The conferees understand that the Pedestral-Mounted Stinger (PMS) program is directed toward improving the mobility and survivability of the man-portable air defense system. The conferees are concerned, however, that this program is being initiated prematurely to satisfy a special requirement for the 9th Infantry Division (motorized) and is not based on a comprehensive program of total Army requirements. Therefore, the conferees recommend no authorization for the procurement of PMS and direct that the program be clearly defined in the fiscal year 1987 budget submission based on total Army requirements.

TOW II missile

The Budget request contained $226.9 million for procurement of 20,100 TOW II missiles. The House amendment would authorize $191.9 million for procurement of 15,000 TOW II missiles. The Senate bill would authorize $226.9 million for procurement of 20,100 TOW II missiles.

The conferees agreed to authorize $226.9 million for procurement of 20,100 TOW II missiles.

The House recedes.

Multiple launch rocket system

The budget request contained $507.8 million for procurement of 72,000 rockets and self-propelled launcher loaders, and $41 million for advance procurement for fiscal year 1987. The House amendment would authorize $507.8 million for procurement of rockets and self-propelled launcher loaders, and $41 million for advance procurement. The Senate bill would authorize $507.8 million for procurement of rockets and self-propelled launcher loaders, and $41 million for advance procurement.

Based on anticipated savings from multiyear contracts, the conferees reduced by $15 million the authorization for procurement in fiscal year 1986. The conferees agreed to authorize $492.8 million for procurement of 72,000 rockets and self-propelled launcher loaders, and $41 million in advance procurement.

Bradley fighting vehicle

The budget request contained $1,007 million for procurement of 716 Bradley Fighting Vehicles, and $27.6 million for advance procurement to support procurement in fiscal year 1987. The House amendment would authorize $1,007 million for procurement of 716 Bradley Fighting Vehicles, and $27.6 million for advance procurement. The Senate bill would authorize $1,007 million for procurement of 716 Bradley Fighting Vehicles, and $27.6 million for advance procurement.

Based on anticipated savings from multiyear contracts, the conferees reduced by $25.0 million the authorization for procurement in fiscal year 1986. The conferees agreed to authorize $982 million for procurement of 716 Bradley Fighting Vehicles, and $27.6 million for advance procurement.

Field artillery ammunition support vehicle (FAASV)

The budget request contained $101.5 million to procure 197 Field Artillery Ammunition Support Vehicles (FAASV). The House amendment would authorize $88.3 million for procurement of 180 FAASVs. The Senate bill contained no authorization for the FAASV.

The Army's acquisition strategy associated with the fiscal year 1986 budget included a competitive multiyear contract award. The Army, however, has not yet performed an economic analysis that justifies the proposed strategy as cost effective.

The report (House Report 99-81) accompanying the House amendment directs the Secretary of the Army to submit to the Congress an economic analysis justifying the advantages of a competitive multiyear strategy for the FAASV prior to embarking on such a competition. This analysis should include consideration of maintaining a production base for FAASVs and self-propelled howitzers. The Senate Report (Senate Report 99-41) contained no similar direction. The Senate recedes.

The conferees agreed to authorize $72.0 million for procurement of 150 FAASVs.

M88A1 recovery vehicle

The budget request contained $215.8 million for procurement of 240 M88A1 recovery vehicles. The House amendment would authorize $162.8 million for procurement of 180 M88A1 recovery vehicles. The Senate bill would authorize $215.8 million for procurement of 240 M88A1 recovery vehicles.

The conferees agreed to authorize $188.8 million for procurement of 210 M88A1 recovery vehicles.

M1 Abrams tank

The budget request contained $1,749.6 million for procurement of 840 M1 tanks, and $359.2 million for advance procurement to support the production of 840 tanks in fiscal year 1987. The House amendment would authorize $1,671.7 million and $359.2 million for advance procurement. The House amendment also would authorize $52.6 million of fiscal year 1984 contract savings to be transferred forward to fiscal year 1986. Additionally, the House amendment would authorize $25.3 million from proceeds of foreign military sales of M48A5 tanks in fiscal year 1985 to be transferred forward to fiscal year 1986. The Senate bill would authorize $1,749.6 million for procurment, and $359.2 million for advance procurement.

The conferees were informed by the Department of the Army that additional contract savings of $97 million are anticipated in fiscal year 1986. The conferees, therefore, recommend authorization of $1,574.7 million for procurement of 840 tanks in fiscal year 1986, and $348.2 million for advance procurement. The conferees also recommend authorizing the transfer forward of $52.6 million of fiscal year 1984 contract savings, and $25.3 million from proceeds of foreign military sales of M48A5 tanks.

M1/BFVS subsystem

The report (S. Report 99-41) accompanying the Senate bill directed the Secretary of the Army to submit a report to the Committee on Armed Services of the Senate and the House of Representatives by January 1, 1986 regarding the feasibility of establishing second source manufacturers for M1 and BFVS subsystems.

The House report (H. Report 99-81) contained no similar language.

The House recedes.

Modification of tracked combat vehicles

The budget request contained $426.3 million for modification of tracked combat vehicle, including $130.6 million for M60 tank modifications, $6.0 million for 105mm tank gun modifications, and $17.8 million for ROBAT.

The House amendment would authorize $442.1 million for modification of tracked combat vehicles, including $30.0 million for Improved TOW Vehicles, $130.6 million for M60 tank modification, and $9.6 million for ROBAT. The House amendment contained no authorization for the 105mm tank gun modifications. The Senate bill would authorize $388.5 million for modification for tracked combat vehicles, including $110.6 million for M60 tank modifications and $6.0 million for 105mm tank gun modifications. The Senate bill contained no authorization for procurement of ROBAT.

The conferees agreed to authorize $398.1 million for modification of tracked combat vehicles, including $116.6 million for M60 tank modifications, and $9.6 million for ROBAT. The conferees agreed to provide no authorization for the 105mm tank gun modification program. Section 104 contains authorization of $15 million for Improved TOW Vehicles for the Army National Guard.

Support equipment and facilities

The budget request contained $746.6 million for support equipment and facilities, including $649.0 million for spares and repair parts, and $95.8 million for production base support.

The House amendment would authorize $734.1 million for support equipment and facilities, including $636.5 million for spares and repair parts, and $95.8 million for production base support. The Senate bill would authorize $706.6 for support equipment and facilities, including $619.0 million for spares and repair parts, and $85.8 million for production base support.

The conferees agree to authorize $720.6 million for support equipment and facilities, $628.0 million for spares and repair parts, and $90.8 million production base support.

Sergeant York gun

The budget request contained $406.5 million for procurement of 117 Sergeant York guns, and $11 million for advance procurement. The House amendment authorized $210.0 million for procurement of 72 Sergeant York guns and authorized the transfer of $40.0 million in prior year authorizations to be applied to the fiscal year 1986 weapons and other combat vehicles. The House amendment also authorized $11 million for advanced procurement. The Senate bill authorized $150.0 million for procurement of 37 Sergeant York guns and $11 million for advance procurement.

The conferees agreed to authorize $210.0 million for procurement of 72 Sergeant York guns and to authorize the transfer of $40.0 million in prior year authorizations to be applied to the fiscal year 1986 weapons and other combat vehicles. The conferees also recommend authorization of $11 million for advance procurement.

The Senate recedes. The conferees also direct that 12 of the 72 fire units authorized in fiscal year 1986 be used to equip the first Army National Guard Sergeant York Battery. No fire units, however, may be fielded to National Guard units until the forward-deployed forces scheduled to receive the Sergeant York have been provided their authorized levels of equipment.

XM252-81mm mortar

The budget request contained $6.1 million for procurement of 187 81 millimeter mortars. The House amendment contained no authorization for procurement of 81 millimeter mortars. The Senate bill would authorize $6.1 million for procurement of 187 81 millimeter mortars.

The conferees agreed to authorize $6.1 million for 187 81 millimeter mortars.

The House recedes.

120mm mortars

The budget request contained $5.0 million for procurement of 63 120 millimeter mortars. The House amendment contained no authorization for 120 millimeter mortars. The Senate bill would authorize $5.0 million for procurement 63 120 millimeter mortars.

The conferees agreed that no authorization be provided for procurement in fiscal year 1986. The conferees, however, would welcome a fiscal year 1986 reprogramming request for the 120mm mortars after the completion of the following actions:

1. The Mortar Master Plan has been delivered to the Congress;

2. The Army ensures competition among the bidders;

3. The Army provides for the purchase and validation of the technical data package for manufacture in the U.S.;

4. The Army conducts a cost-effectiveness analysis for the domestic manufacturing of the winning 120mm technical data package.

The conferees agreed that an appraisal of the manufacturing participation by the U.S. Army's arsenal system should be addressed in the cost-effectiveness analysis. This appraisal shall be evaluated in accordance with decision #B175703 (July 23, 1973) by the Comptroller General specifying allowable costs in government facilities for purposes of comparing government and private costs.

M16A2 rifle

The budget request contained $39.3 million for procurement of 71,990 M16A2 rifles. The House amendment would authorize $41.8 million for procurement of 71,990 M16A2 rifles and initiation of procurement of an optical sight. The Senate bill would authorize $39.3 million for procurement 71,990 M162A rifles.

The conferees agreed to authorize $41.8 million for procurement of 71,990 M16A2 rifles, and initiation of procurement of an optical sight.

The conferees agreed that an optical sight for the M-16 rifles is a practical product improvement that could enhance the capabilities of individual soldiers.

The conferees recommend that the Army select a sight on a basis of a full and open competition.

The Senate recedes.

9mm personal defense weapon

The budget request contained $7.5 million for procurement of 25,400 9mm personal defense weapons. The House amendment would authorize $7.5 million for procurement of 25,400 9mm personal defense weapons. The Senate bill contained no authorization for the 9mm personal defense weapons.

The conferees agree to authorize $7.5 million for procurement of 25,400 9mm personal defense weapons.

The Senate recedes.

Associated with the authorization for procurement of 9mm handguns, the conferees direct that the Army, as the executive agent for the Department of Defense, accelerate the remaining procurement actions associated with the conversion of the military services to 9mm handguns.

The conferees understand that a number of future procurements remain outside the scope of the existing five-year multiyear contract and are not presently planned for at least three years. Thus, the conferees direct that the Army initiate a study of all the remaining necessary procurement and design efforts during fiscal year 1986. For the remaining procurements, maximum use of competition and standardization are to be emphasized. The conferees note that this approach is consistent with previous congressional direction.

The conferees would welcome reprogramming during fiscal year 1986 to accelerate these actions. The fiscal year 1987 request should also include funds to continue these actions.

The conferees also direct that funds for the procurement of 9mm handguns may not be obligated until the lawsuits pending on the date of enactment are resolved by settlement or trial judgment, or on December 31, 1985, whichever is sooner.

Support equipment and facilities

The budget request contained $240.7 million for support equipment and facilities, including $2.8 million for procurement of 4,685 5.56mm carbines (XM4). The House amendment would authorize $237.9 million for support equipment and facilities, but no authorization for 5.56mm carbines. The Senate bill would authorize $240.7 million for support equipment and facilities, including $2.8 million for procurement of 4,685 5.56mm carbines.

The conferees authorized $2.8 million for procurement of 4,685 5.56mm carbines.

The House recedes, and the conferees direct that no funds be obligated for the procurement of the XM4 Carbine until the Secretary of the Army submits to the Committees on Armed Services of the Senate and the House of Representatives a detailed report concerning total Army requirements and the planned procurement objectives for the XM4 Carbine.

Army Weapons and tracked combat vehicles

The Senate bill would authorize a transfer of prior year funds in the amount of $75.0 million. The House amendment contained no authorization for transfer of prior year funds.

The Senate recedes.

Army ammunition

The budget request contained $2,635.0 million for Army ammunition procurement in fiscal year 1986. The House amendment would authorize $2,499.4 million for procurement of Army ammunition. The Senate bill would authorize $2,408.3 million for the same purpose.

The conferees recommend authorization of $2,549.0 million for procurement of Army ammunition in fiscal year 1986. The amounts requested for specific items that were in dispute, the amounts allowed by the House amendment and the Senate bill, and the amounts allowed by the conferees are listed in the foregoing table.

OTHER PROCUREMENT, ARMY

(DOLLARS IN MILLIONS)

Other Procurement, Army

The budget request contained $5,712.8 million for Army other procurement for fiscal year 1986. The House amendment would authorize $5,122.2 million for Army other procurement. The Senate bill would authorize $5,049.5 million for this purpose.

The conferees recommend authorization of $5,323.5 million for Army other procurement. The amounts requested for specific items that were in dispute, the amounts allowed by the House amendment and the Senate bill, and the amounts allowed by the conferees are listed in the foregoing table.

Tactical and support vehicles

The budget request contained $1,016.8 million for tactical and support vehicles, including $5.6 million for procurement of 1,413 motorcycles, and $11.2 million for procurement of 144 XM 1000 low bed semitrailers. The House amendment would authorize $989.5 million for tactical and support vehicles, including no authorization for motorcycles, and XM 1000 low bed semitrailers. The Senate bill would authorize $1,013.7 million for tactical and support vehicles, including $5.6 million for procurement of 1,413 motorcycles, and $11.2 million for procurement of 144 XM 1000 low bed semitrailers.

The conferees agreed to authorize $1002.7 million for tactical and support vehicles, including $2.0 million for procurement of motorcycles, and $11.2 million for procurement of 144 XM 1000 low bed semitrailers.

The conferees agreed to several actions pertaining to procurement for the 9th Infantry Division (Motorized). The conferees were not convinced that specialized items of equipment fielded in small numbers represented a cost-effective approach in view of the current budgetary limitations and the commitment to complete the necessary modernization of the Army's heavy forces. The conferees, however, support the innovative efforts at the Army Development and Employment Agency (ADEA) and encourage the Army to pursue low-cost approaches that are applicable throughout the total force in the future.

Fast attack vehicle

The budget request contained $3.1 million to procure 88 fast attack vehicles (FAV). The House amendment contained no authorization, reflecting the intent to terminate the program. The House amendment would also authorize a general reduction of $7.4 million to be made available from unobligated prior year authorizations for the FAV. The Senate bill contained no authorization for the FAV.

The conferees agreed to a general reduction of $7.4 million to be made available from unobligated prior-year authorizations for the FAV.

The Senate recedes.

Communications and electronic equipment

The budget request contained $3,306.3 million for communications and electronic equipment. The House amendment would authorize $3,128.6 million for communications and electronic equipment. The Senate bill would authorize $3,160.8 million for this purpose.

The conferees agreed to authorize $3,131.3 million for communications and electronic equipment.

Army, RPV

The report (S. Report 99-41) accompanying the Senate bill directed the Secretary of the Army to provide a report to the Committees on Armed Services no later than December 15, 1985 concerning the Army's Aquila program. This report should address specifically the restructuring of the Aquila program, and the proposed development of a family of RPVs. Consideration should also be given to procurement of off-shelf systems.

The House report (H. Report 99-81) contains no similar direction.

The House recedes.

Steerable null antenna processor (SNAP)

The budget request did not contain authorization for the procurement of Steerable Null Antenna Processor (SNAP). SNAP provides anti-jamming protection for the Army's current combat net radios, the VRC-12.

Although the conferees recognize that the Army is fielding a new combat net radio, they are concerned that the reserves will continue to retain large quantities of the VRC-12 radio.

The conferees believe that the Army should review its requirements for acquiring additional SNAP's and, should that review justify expanded procurement, initiate a reprogramming request to procure the additional anti-jam production.

Other support equipment

The budget request contained $1,389.7 million for other support equipment. The House amendment would authorize $1,412.7 million for other support equipment. The Senate bill would authorize $1,250.7 million for other support equipment. The conferees recommend authorization of $1,307.4 million for other support equipment.

M9 armored combat earthmover (ACE)

The budget request contained $65 million to procure 70 M9 Armored Combat Earthmover (ACE). The House amendment would authorize $30 million for procurement of 34 M9 ACE's. The House amendment also recommends authorizing the transfer forward of $12.4 million from prior year authorizations to support procurement in fiscal year 1986. The Senate bill contained no authorization for the M9 ACE.

The conferees recommend authorization of $30 million for procurement of 34 M9 ACEs. The conferees agreed to transfer forward $12.4 million from prior year authorizations to support procurement in fiscal year 1986.

The Senate recedes.

Training devices, non-system

The budget request contained $177.8 million for procurement of non-system training devices. The House amendment would au-

thorize $227.8 million, including authorization of $50 million designated for the Army National Guard. The Senate bill would authorize $157.8 million for procurement of non-system training devices.

The conferees agreed to authorize $177.8 million for procurement of non-system training devices. Section 104 also provides authorization of $50 million for procurement of non-system training devices for the Army National Guard.

The report (H. Report 99-81) accompanying the House amendment directs the Secretary of Defense to submit a report to the Committee on Armed Services of the Senate and the House of Representatives concerning the total requirement and acquisition plans for non-system training devices for the National Guard.

The Senate report (S. Rept. 99-41) contained no similar language.

The Senate recedes.

Arapaho

The budget request contained no authorization for procurement of Arapaho helicopter support system in fiscal year 1986. The House amendment would authorize $5.0 million for procurement of long-lead items for Arapaho support system. The Senate bill contained no authorization for procurement of Arapaho support system in fiscal year 1986.

The conferees recommend authorization of $5.0 million for procurement of Arapaho helicopter support system.

The Senate recedes.

Non-centrally managed items

The House amendment would authorize $137.3 million in the Other Procurement, Army account for non-centrally managed items valued in excess of $3,000 for which the budget request sought funds in the Operation and Maintenance, Army account. The House report on the authorization bill notes that such items are more properly considered investment items rather than expense items.

The Senate bill contained no similar authorization.

The conferees recommend authorization of $105.3 million for non-centrally managed items valued in excess of $5,000 in the Other Procurement, Army account. As discussed in the Operation and Maintenance section, non-centrally managed items with a cost of $3,000-$5,000 are authorized in Operation and Maintenance.

The Senate recedes with an amendment.

Army other procurement transfer from prior year

The Senate bill would authorize a general transfer of prior year funds in the amount of $64.0 million. The House amendment would authorize a transfer of prior year funds in the amount of $44.2 million.

The Senate recedes.

A-6E aircraft (Intruder)

The budget request contained $202.6 million for procurement of 6 A-6E aircraft in fiscal year 1986, and $11.6 million for advanced procurement of 6 aircraft in fiscal year 1987. The House amendment would authorize $293.3 million for procurement of 11 A-6E aircraft in fiscal year 1986, and $20.9 million for advance procurement of 11 aircraft in fiscal year 1987. The Senate bill would authorize the requested amounts.

The conferees recommend authorization of $293.3 million for procurement of 11 A-6E aircraft in fiscal year 1986, and $20.9 million for advance procurement of 11 aircraft in fiscal year 1987. Section 132a limits the authority to procure only A-6E aircraft with an improved wing.

The Senate recedes.

AV-8B aircraft (Harrier)

The budget request contained $892.5 million for procurement of 46 AV-8B aircraft in fiscal year 1986, and $86.6 million for advanced procurement of 47 aircraft in fiscal year 1987. The House amendment would authorize $847.5 million for procurement of 46 aircraft in fiscal year 1986, and $86.6 million for advance procurement of 47 aircraft in fiscal year 1987. The Senate bill would authorize $847.5 million for procurement of 43 aircraft in fiscal year 1986 and $76.6 million for advance procurement in fiscal year 1987.

The conferees recommend authorization of $847.5 million for procurement of 46 AV-8B aircraft in fiscal year 1986 and $86.6 million for advance procurement of 47 aircraft in fiscal year 1987.

The Senate recedes.

F-14A aircraft (Tomcat)

The budget request contained $653.6 million for procurement of 18 F-14A aircraft in fiscal year 1986, and $148.2 million for advance procurement of 18 aircraft in fiscal year 1987. The House would authorize $553.6 million for procurement of 18 F-14A aircraft configured with the F-110 engine (designated F-14A "plus") in fiscal year 1986 and $148.2 for advanced procurement of 18 aircraft in fiscal year 1987. The Senate bill would authorize $553.6 million for procurement of 15 F-14A aircraft and $100.2 million for advanced procurement in fiscal year 1987.

The conferees recommend authorization of $553.6 million for procurement of 18 F-14A "plus" aircraft and $124.2 million for advanced procurement of 18 aircraft in fiscal year 1987. Section 131(b) limits the authority to procure only F-14A plus configured aircraft.

The Senate recedes with an amendment.

F/A-18 aircraft (Hornet)

The budget request contained $2,493.7 million for procurement of 84 F/A-18 aircraft and $268.1 million for advanced procurement of 102 aircraft in fiscal year 1987. The House amendment would authorize $2,453 6 million for procurement of 84 aircraft in fiscal year 1986 and $205.1 million for advance procurement of 84 aircraft in fiscal year 1987. The Senate bill would authorize $2,493.7 million for procurement of 84 aircraft in fiscal year 1986 and $215.1 million for advance procurement for fiscal 1987.

The conferees agreed to reduce the F/A-18 effort by $14.0 million. Accordingly, the conferees recommend authorization of $2,479.7 million for procurement of 84 F/A-18 aircraft in fiscal year 1986 and $210.1 million for advance procurement in fiscal year 1987.

CH/MH-53E helicopter (Super Stallion)

The budget request contained $260.1 million for procurement of 14 CH/MH-53E helicopters, and $33.3 million for advance procurement of 14 helicopters in fiscal year 1987. The House amendment would authorize $235.1 million for 14 helicopters in fiscal year 1986 and $33.3 million for advance procurement of 14 helicopters in fiscal year 1987. The Senate bill would authorize $254.1 million for procurement of 14 helicopters in fiscal year 1986 and $33.3 million for advance procurement in fiscal year 1987.

The conferees recommend authorization of $235.1 million for procurement of 14 CH/MH-53E helicopters in fiscal year 1986 and $33.3 million for advance procurement of 14 helicopters in fiscal year 1987.

The Senate recedes.

SH/60B helicopter (Seahawk)

The budget request contained $315.6 million for procurement of 18 helicopters in fiscal year 1986, and $54.9 for advance procurement of 18 helicopters in fiscal year 1987. The House amendment would authorize $281.6 million for 18 helicopters in fiscal year 1986 and $54.9 for advance procurement of 18 helicopters in fiscal year 1987. The Senate bill would authorize $356.6 million for 24 helicopters in fiscal year 1986, and $54.9 million for advance procurement in fiscal year 1987.

The conferees recommend authorization of $315.6 million for procurement of 24 SH-60B helicopters in fiscal year 1986, and $54.9 million for advance procurement of 18 helicopters in fiscal year 1987.

The House recedes with an amendment.

P-3C aircraft (Orion)

The budget request contained $329.9 million for procurement of 9 P-3C aircraft in fiscal year 1986, and $156.6 million for advance procurement of 9 P-3C aircraft in fiscal year 1987. The House amendment contained no authorization for the P-3C aircraft, but would authorize $81.6 million for advance procurement of 5 P-3C aircraft in fiscal year 1987. The Senate bill would authorize $322.9 million for 9 P-3C aircraft in fiscal year 1986, $106.6 million for advance procurement, and would deny authority to enter into multiyear procurement.

The conferees recommend authorization of $322.9 million for procurement of up to 9 P-3C aircraft in fiscal year 1986, and $106.6 million for advance procurement for fiscal year 1987. Sec. 102(f) denies multiyear procurement for the P-3C aircraft.

The House recedes.

The conferees believe the Navy must adopt new approaches to procuring resources for the long-range ASW mission. Three factors contribute to this conviction. First, the procurement program has become an annual struggle to retain funding at inefficient rates for P-3C production. That debate is not addressing the requirement to strengthen long-range ASW resources. The conferees believe a continuing investment in ASW patrol aircraft is essential in light of Soviet advances in submarine warfare. Second, insufficient competition exists in the P-3C program to contain costs. Competition should be expanded to include more of the government furnished (GFE) mission equipment and its integration or retrofit. Third, the Navy aviation accounts will likely be static in coming years at the same time that major commitments to new aircraft have been made.

These factors suggest a different direction is warranted. Therefore, the Secretary of the Navy may, at his direction, use up to $120.0 million of funds appropriated pursuant to an authorization of appropriation for procurement of new P-3C aircraft for fiscal year 1986, for modification of existing P3 aircraft with update III generation equipment.

The Navy may use the $120 million either for new production (buying up to 9 P-3s in fiscal year 1986) or for an expanded update III modification program, whichever provides the greatest benefit to the mission. However, the resulting modification program must be subject to competition.

In addition, the Navy shall submit a report with supporting analysis justifying the way in which it intends to allocate the $120.0 million cost-effectively before obligating any of the funds provided in this bill for P-3C aircraft or P3 aircraft modifications. The conferees expect the acquisition strategy to strike a balance between the continuing need to replace an aging P3 fleet and the need to increase the operational capabilities of the existing P3 inventory through modifications.

Further, the Navy shall establish a long range maritime patrol (VP) procurement plan to: (1) expand the capabilities of the current fleet through either upgrade or new acquisition, (2) introduce greater competition into the overall program, and (3) provide for greater capabilities within the general budget share reflected in the fiscal year 1986 budget request.

E-2C (Hawkeye)

The budget request contained $328.4 million for procurement of 6 E-2C aircraft in fiscal year 1986 and $31.3 million for advance procurement in fiscal year 1987. The House amendment would authorize the requested amounts. The Senate bill would authorize $323.4 million for procurement of 6 aircraft in fiscal year 1986 and $31.3 million for advance procurement in fiscal year 1987.

The conferees recommend authorization of $323.4 million for procurement of 6 E-2C aircraft in fiscal year 1986, and $31.3 million for advance procurement in fiscal year 1987.

The House recedes.

SH-2F (Seasprite)

The budget request contained $69.9 million for procurement of six SH-2F helicopters in fiscal year 1986 and no advance procurement. The House amendment would authorize $65.4 million for six helicopters and $4.5 million for advance procurement of six helicopters in fiscal year 1987. The Senate bill contained no authorization for the SH-2F helicopter.

The conferees recommend authorization of $65.4 million for procurement of six SH-2F helicopters in fiscal year 1986 and no advance procurement.

The Senate recedes with an amendment.

The conferees agreed that, faced with reduced growth in future defense budgets, together with an expanding need for modern ASW helicopters in both the active and reserve forces, lower cost alternatives to present helicopter/ship systems warrant consideration.

As an example, much of the total cost of introducing the SH-60B LAMPS MK-III helicopter is contained in the extensive ship modifications required to support this aircraft. Even without a full suite of supporting shipboard equipment, however, an autonomous SH-60B aircraft is more capable than earlier systems. This suggests that consideration should be given to a more austere ship conversion plan which might permit some ships to operate autonomous helicopter systems.

Similarly, the conferees believe that variations on the SH-60B series, or other helicopter ASW systems, might offer performance superior to the current SH-2F LAMPS MK-I aircraft, at less cost than the full SH-60B LAMPS MK-III and related shipboard conversion and modification costs. The conferees also recognize there is a continuing need to update the avionics mission equipment on older SH-2 helicopters to keep that system current with the Soviet threat.

The conferees agreed on the need to study the use of a variety of ASW helicopter/ship systems to improve the overall capabilities of those ships not scheduled for conversion to the LAMPS MK-III system. The conferees emphasize that the objective of this initiative would be to seek a lower cost ASW helicopter/ship system to complement, not replace, the ongoing conversion of ships to the full LAMPS MK-III configuration.

Accordingly, the Secretary of the Navy is directed to report to the Committee on Armed Services of the Senate and House of Representatives by January 15, 1986 as to the feasibility, operational desirability, and cost of alternative ASW helicopter/ship systems. The report should include among its alternatives a full range of helicopter/ship systems, including variations of the current SH-60 and SH-2 series helicopters. Lifecycle costs, timing, and capability against the projected threat should be among the analytical criteria. Should promising alternatives emerge, the Secretary should include funds in the fiscal year 1987 budget request to pursue such alternatives.

UC-12B/CX

The budget request contained $26.9 million for procurement of an appropriate mix of UC-12B and a complementary, longer range CX aircraft in fiscal year 1986. The House amendment would authorize $26.9 million for procurement of 12 UC-12B aircraft and $44.0 million for procurement of two C20A aircraft to satisfy the complementary CX requirement. The House amendment also would authorize the transfer of $26.9 million of prior year funds. The Senate bill would authorize no UC-12B aircraft and $22.0 million for one C20A aircraft.

The conferees recommend authorization of $26.9 million for procurement of 12 UC-12B aircraft and $44.0 million for procurement of two C20A aircraft in fiscal year 1986. Sec. 151 of this bill requires competitive procurement of all C-12 aircraft in fiscal year 1986. This competition is restricted to turboprop aircraft.

The Senate recedes with an amendment.

T-34C aircraft (Mentor)

The budget request contained $49.4 million for procurement of 38 T-34C aircraft in fiscal year 1986. The House amendment would authorize $24.7 million for procurement of 19 aircraft in fiscal year 1986. The Senate bill provided no funds for the T-34C aircraft.

The conferees recommend authorization of $24.7 million for procurement of 19 T-34C aircraft in fiscal year 1986.

The Senate recedes.

E-6A TACAMO aircraft

The budget request contained $297.3 million for the procurement of 2 E-6A TACAMO aircraft in fiscal year 1986 and $58.3 million for advance procurement of 4 E-6A TACAMO aircraft in fiscal year 1987. The House amendment contained no authorization for the program. The Senate bill would authorize the requested amounts.

The conferees recommend authorization of $297.3 million for procurement of 2 E-6A TACAMO aircraft in fiscal year 1986, and $58.3 million for advance procurement of 4 E-6A TACAMO aircraft in fiscal year 1987.

The conferees weighed the requirement for this aircraft and the programmatic and budgetary considerations that previously led to different findings by the two Houses. The conferees agreed that the United States' sea based deterrent can be no more effective or survivable than the communications relay capability to our SSBNs, especially to the Trident force in the Pacific.

The conferees are mindful of the considerable degree of concurrency in the program and reluctantly find this acceptable in this instance because of the critical importance of the program, and because of assurances that the technical risks in the program, which involves the integration of a proven communications suite in a proven airframe, should be minimal. The conferees direct the Navy to take all possible measures, short of slowing the program, to minimize the risks inherent in the concurrent approach to development and procurement.

Aware that an important issue regarding the E-6A has been one of affordability in the current and projected budget environment, the conferees are concerned about the continued commitment of the Department of Defense to the outyear funding requirement for this program. More specifically, the conferees find that the outyear funding requirements of the planned procurement rate will be particularly stressing on the Navy's aircraft procurement account, setting up competition between traditional naval aircraft needs and the national requirement for strategic connectivity. The Secretary of Defense is, therefore, directed to provide to the Committees on Armed Services of the Senate and House of Representatives at the time of submission of the fiscal year 1987 budget request, a plan whereby the Congress might be assured of funding continuity for this program.

VH-60 aircraft

The budget request contained $102.8 million for procurement of 9 VH-60 helicopters in fiscal year 1986. The House amendment contained no authorization for procurement of helicopters in fiscal year 1986, and advance procurement of $26.9 million for 9 helicopters in fiscal year 1987. The Senate bill would authorize the requested amounts.

The conferees recommend authorization of $102.8 million for procurement of 9 VH-60 helicopters in fiscal year 1986.

The House recedes.

Modification of aircraft

The budget request contained $1,865.7 million for modification of aircraft, including $284.3 million for S-3 series aircraft modifications. The House amendment would authorize $1,760.5 million for modification of aircraft; $293.6 million for S-3 series modifications including an increase of $9.3 million to accelerate procurement of an aerial refueling store (ARS) "buddy store" system for the S-3 and an undistributed reduction of $114.5 million. The Senate bill would authorize $1,835.7 million for modification of aircraft, including $284.3 million for S-3 series mods, and an undistributed reduction of $30.0 million. In addition, the report (H. Report 99-81) accompanying the House amendment directs that within the amounts authorized for Navy aircraft procurement in fiscal year 1986 and prior years, $7.0 million should be used for the procurement of second generation or better ground proximity warning system hardware and associated aircraft modifications. The Senate report (S. Report 99-41) contained no similar language.

The conferees recommended authorization of $1,845.0 million for modification of aircraft. Included are $293.6 million for S-3 series aircraft modification, an increase of $9.3 milion to accelerate procurement of the ARS "buddy store" capability, discretionary use of $7.0 million for ground proximity warning system and an undistributed reduction of $30.0 million.

Navy aircraft spares and repair parts

The budget request contained $1,463.7 million for procurement of Navy aircraft spares and repair parts in fiscal year 1986. The House amendment would authorize $1,344.6 million for Navy aircraft spares and repair parts in fiscal year 1986. The Senate bill would authorize $1,375.7 million for Navy aircraft spares and repair parts in fiscal year 1986.

The conferees recommend authorization of $1,425.2 million for procurement of Navy aircraft spares and repair parts in fiscal year 1986, including $85.3 million for F/A-18R spares, $4.0 million for C-20A spares, and an undistributed reduction of $40.0 million.

Navy aircraft support equipment and facilities

The budget request contained $864.7 million for Navy aircraft support equipment and facilities in fiscal year 1986, including $57.7 million for other production charges. The House amendment would authorize $786.7 million for Navy aircraft support equipment and facilities, including $54.7 million or other production charges, and an undistributed reduction of $75.0 million. The Senate bill would authorize $799.9 million for support equipment and facilities, including $57.7 million for other production charges, and an undistributed reduction of $64.8 million.

The conferees recommend authorization of $798.1 million for Navy aircraft support equipment and facilities in fiscal year 1986, including $56.0 million for other production charges, and an undistributed reduction of $64.8 million.

WEAPONS PROCUREMENT, NAVY

The President's budget request contained $5,627.9 million for Navy weapons procurement.

The Senate bill would authorize $5,470.2 million and the transfer of $15 million for Navy weapons.

The House amendment would authorize $5,577.4 million and transfer of $15 million for Navy weapons.

The conferees recommend an authorization of $5,655.1 million and transfer of $15 million for Navy weapons.

UGM-96A (Trident I)

The budget request contained $66.2 million for UGM-96A Trident I missile. The House amendment would authorize $56.2 million for UGM-96A. The Senate bill would authorize $36.2 million for UGM-96A.

The conferees agree to authorize $36.2 million for UGM-96A.

UGM 73A Poseidon mods

The budget request contained $15.0 million for UGM 73A Poseidon mods. The House amendment would authorize $15.0 million for UGM 73A Poseidon mods. The Senate bill would authorize $5.0 million for UGM 73A Poseidon mods.

The conferees agree to authorize $5.0 million for UGM 73A Poseidon mods.

AIM/RIM 7 F/M missile (Sparrow)

The budget request contained $359.2 million for procurement of 1,872 Sparrow missiles in fiscal year 1986, and $9.5 million for advance procurement in fiscal year 1987. The House amendment would authorize $359.2 million for 1,872 missiles and no advance procurement. The Senate bill would authorize the requested amounts.

The conferees recommend authorization of $359.2 million for procurement of 1,872 Sparrow missiles in fiscal year 1986 and no advance procurement.

The Senate recedes.

AIM 9L/M (Sidewinder)

The budget request contained $85.8 million for procurement of 1,220 sidewinder missiles in fiscal year 1986 and $8.0 million for advance procurement for fiscal year 1987. The House amendment would authorize $125.8 million for procurement of 1,850 missiles and no authorization for advance procurement. The Senate bill would authorize the requested amounts.

The conferees recommend authorization of $125.8 million for procurement of 1,850 sidewinder missiles in fiscal year 1986 and no advance procurement.

The Senate recedes.

AIM-54A/C missiles (Phoenix)

The budget request contained $343.6 million for procurement of 265 AIM-54A/C missiles in fiscal year 1986, and $38.3 million for advance procurement of 420 missiles in fiscal year 1987. The House amendment would authorize $343.6 million for procurement of 265 missiles in fiscal year 1986, and $24.8 million for advance procurement of 265 missiles in fiscal year 1987. The Senate bill would authorize the requested amounts.

The conferees recommend authorization of $343.6 million for 265 AIM 54A/C missiles in fiscal year 1986, and $24.8 million for advance procurement of 265 missiles in fiscal year 1987.

The Senate recedes.

Standard missile-1 MR (RIM-66E)

The budget request contained $26.4 million for SM-1 missile program procurement in fiscal year 1986 and $9.5 million for advance procurement for fiscal year 1987. The House amendment would authorize $26.4 million for missile program procurement and no advance procurement. The Senate bill would authorize the requested amounts.

The conferees recommend authorization of $35.9 million for SM-1 MR missile program procurement and no advance procurement.

The Senate recedes with an amendment.

Sidearm missiles

The budget request contained $20.5 million for procurement of 168 Sidearm missiles in fiscal year 1986. The House amendment would authorize $80.0 million for procurement of 885 Sidearm missiles. The Senate bill would authorize the requested amounts.

The conferees recommend authorization of $80.0 million for procurement of 885 Sidearm missiles in fiscal year 1986.

The Senate recedes.

Aerial targets

The budget request contained $105.6 million for procurement of aerial targets in fiscal year 1986. The House amendment would authorize $133.6 million for aerial targets. The Senate bill would authorize $85.6 million for aerial targets.

The conferees recommend authorization of $105.6 million for aerial targets in fiscal year 1986.

Drones and decoys

The budget request contained $29.4 million for procurement of drones and decoys in fiscal year 1986. The House amendment would authorize $44.4 million for drones and decoys. The Senate bill would authorize the requested amount for drones and decoys.

The conferees recommend authorization of $29.4 million for procurement of drones and decoys in fiscal year 1986.

The House recedes.

Navy missile support equipment and facilities

The budget request contained $84.0 million for Navy missile support equipment and facilities in fiscal year 1986. The House amendment would authorize the requested amount. The Senate bill would authorize $75.2 million for support equipment and facilities including no authorization for the Defense Meteorological Satellite Program.

The conferees recommend authorization of $80.2 million for Navy missile support equipment and facilities including $5.0 million for the Defense Meteorological Satellite Program.

Ordnance support equipment

The budget request contained $71.9 million for Navy missile ordnance support equipment in fiscal year 1986. The House amendment would authorize the requested amount. The Senate bill would authorize $51.9 million for ordnance support equipment.

The conferees recommend authorization of $71.9 million for Navy missile ordnance support equipment in fiscal year 1986.

The Senate recedes.

MK-60 encapsulated torpedo (CAPTOR)

The budget requested no authorization for the MK-60 CAPTOR mine. The Senate bill would authorize $59.6 million for 150 units. The House amendment contained no authorization for CAPTOR.

The House recedes.

MK-60 encapsulated torpedo (CAPTOR) modifications

The budget request contained $15.7 million for CAPTOR modifications. The Senate bill would authorize $11.7 million; the House amendment would authorize the amount requested.

The Senate recedes.

25-millimeter gun mount

The budget request contained $5.5 million for 29 25-millimeter gun mounts. The Senate bill would authorize $3.0 million for 29 gun mounts. The House amendment would authorize the amount requested.

The Senate recedes.

Small arms and weapons

The budget request contained $11.3 million for small arms and weapons. The Senate bill would authorize $8.3 million. The House amendment would authorize the amount requested.

The Senate recedes.

MK-15 close-in weapon system (CIWS) modifications

The budget request contained $37.1 million for CIWS modifications. The Senate bill would authorize $32.1 million. The House amendment would authorize the amount requested.

The Senate recedes.

5"/54 gun mount modifications

The budget request contained $14.1 million for 5"/54 gun mount modifications. The Senate bill would authorize $9.1 million. The House amendment would authorize the amount requested.

The Senate recedes.

Mk-75 76-millimeter gun mount modifications

The budget request contained $4.2 million for Mk-75 76mm gun mount modifications. The Senate bill would authorize $3.2 million. The House amendment would authorize the amount requested.

The Senate recedes.

Modifications under $900,000

The budget request contained $2.0 million for modifications of guns and gun mounts of less than $900,000. The Senate bill would authorize $1.0 million. The House amendment would authorize the amount requested.

The Senate recedes.

Weapons procurement, Navy spares and repair parts

The budget request contained $166.6 million for spares and repair parts for weapons procurement items. The Senate bill would authorize $116.6 million. The House amendment would authorize the amount requested.

The Senate recedes.

Weapons procurement, undistributed reduction

The Senate bill would make an undistributed reduction to the Weapons Procurement, Navy account of $25 million. The House amendment contained no reduction.

The House recedes.

Authorization for special operations weapons for the Navy

Section 1203 of the House amendment would authorize the Secretary of the Navy to obligate $2.3 million of the amounts authorized for Navy weapons in section 1184 of the House amendment for the acquisition of convertible special application sniper weapons.

The Senate bill did not contain a similar provision.

The conferees agreed that $2.3 million of the amounts authorized for Navy weapons may be used for convertible special application sniper weapons.

SHIPBUILDING AND CONVERSION, NAVY

SHIPBUILDING AND CONVERSION, NAVY

The President's budget request contained $11,411.6 million for the construction, conversion, reactivation, service life extension, and acquisition of 28 naval vessels.

The Senate bill contained an authorization of $9,926.2 million and authorized the transfer of $859.6 million for 26 naval vessels.

The House amendment contained authorization of $10,739.2 million and authorized the transfer of $859.6 million for 28 naval vessels.

The conferees agreed to authorizations totaling $10,001.2 million and the transfer of $859.6 million for 26 naval vessels.

Trident ballistic missile submarine

The budget request contained $1,531.8 million for the Trident submarine program, including $1,283.6 million for the thirteenth submarine and $248.2 million for advance procurement for the fourteenth and fifteenth ships.

The Senate bill would authorize $1,183.8 million for the thirteenth Trident submarine and $248.6 million for advance procurement. The House amendment would authorize the amounts requested.

The conferees agreed to recommend $1,233.6 million for the thirteenth submarine and $248.2 million for advance procurement, a total of $1,481.2 million.

Los Angeles class attack submarine

The budget request contained $2,708.4 million for the Los Angeles class attack submarine program, including $2,123.2 million for 4 submarines and $585.2 million for advance procurement.

The Senate bill would authorize $2,698.4 million for the 4 submarines and $585.2 million for advance procurement. The House amendment would authorize the amounts requested.

The House recedes.

Mine countermeasures (MCM) ship

The budget request contained $334.1 million for 4 mine countermeasures ships.

The Senate bill would authorize $167.1 million for 2 ships. The House amendment would authorize the number of ships and the amount requested.

The House recedes.

LHD-1 class amphibious assault ship (sec.)

The Senate bill contained a provision (sec. 102(c)) that would authorize multiyear procurement of the LHD-1 class amphibious assault ship in accordance with section 2306(h) of title 10, United States Code and would limit cancellation ceilings on the LHD-1 multiyear contracts to the amount appropiated for the LHD-1 program. The House amendment contained a provision (sec. 102(g)) that would authorize multiyear procurement in accordance with section 2306(h) of title 10, United States Code.

The Senate recedes.

The conference agreement authorizes $1,314.2 million for the amphibious assault ship program, including $165.6 million for advance procurement. The conference agreement also authorizes multiyear procurement of three LHD-1 class ships in accordance with section 2306(h) of title 10, United States Code. Under the provisions of section 2306(h) the Secretary of the Navy, after determination that the statutory provisions necessary for multiyear procurement have been met, may for example, use termination liability clauses, adjust the timing and quantity of component orders, and accelerate the acquisition of material and initial fabrication in order to obtain the most advantageous terms and reduce costs.

Strategic sealift

The budget request contained $203.4 million for the purchase of strategic sealift vessels.

The House amendment would authorize $228.4 million for strategic sealift, an increase of $25 million. The Senate bill would authorize the amount requested.

The Senate recedes.

Shipbuilding and conversion, undistributed reduction

The Senate bill would make an undistributed reduction in the shipbuilding and conversion account of $100 million. The House amendment contained no similar reduction.

The House recedes.

DDG-51 helicopter support facilities

The present design for the Arleigh Burke (DDG-51) class destroyer would provide only minimal helicopter support facilities. The Navy has indicated that expanded helicopter facilities would be desirable, but were not included because they would have increased the ship's projected costs above the established cost ceiling. Now as a result of recent favorable contract negotiations, it appears the DDG-51 may cost less than anticipated, and additional helicopter support facilities could be included within the established cost ceiling.

Accordingly, the conferees direct the Secretary of the Navy to review options for expanding helicopter support facilities in some or all of the DDG-51 class ships, and to submit a detailed report with recommendations to the Committees on Armed Services and Appropriations of the Senate and House of Representatives not later than January 15, 1986.

The report should address the cost effectiveness of a suitable range of options. At a minimum, the alternatives considered should include full LAMPS MK-III installation and simply adding a helicopter rearming capability to the existing DDG-51 design.

OTHER PROCUREMENT, NAVY

The President's budget request contained $6,601.2 million for Navy other procurement.

The Senate bill contained an authorization of $5,279.4 million and authorized the transfer of $221 million.

The House amendment contained an authorization of $6,591.8 million and authorized the transfer of $221 million.

The conferees recommend authorizations totaling $6,040.8 million and transfers of $221 million.

Sealift support equipment

The budget request contained $59 million for sealift support equipment.

The Senate bill would authorize $71 million, an increase of $12 million for seasheds.

The House amendment would authorize $74 million, an increase of $12 million for seasheds and $3 million for the modular causeway.

The House recedes.

AN/BLD-1 microwave intercept receiver

The House amendment would authorize $11.8 million for the AN/BLD-1 microwave intercept receiver for installation on operational Los Angeles class submarines.

The budget request did not seek funds in the Navy other procurement account for the AN/BLD-1, and the Senate bill contained no authorization.

The Senate recedes.

NAVSTAR GPS receivers

The budget request contained $24.8 million for 62 NAVSTAR Global Positioning System (GPS) receivers.

The Senate bill would authorize $9.8 million for 17 receivers. The House amendment would authorize the quantity and amount requested.

The conferees recommend authorization of $20.8 million for 62 NAVSTAR GPS receivers.

The Senate recedes with an amendment.

Low cost sonobouy

The budget request contained $11.1 million for procurement of 100,000 low cost sonobouys in fiscal year 1986. The House amendment would authorize $46.1 million for procurement of 250,000 low cost sonobouys. The Senate bill would authorize the amounts requested.

The conferees recommended authorization of $46.1 million for procurement of 250,000 low cost sonobouys in fiscal year 1986.

The Senate recedes.

Mobile van airborne mine countermeasures (AMCM) support unit

The budget request did not include Mobile Van Airborne Mine Countermeasures (AMCM) Support Unit procurement in fiscal year 1986. The House amendment would authorize $4.3 million to support follow-on procurement in fiscal year 1987. The Senate bill contained no similar provision.

The equipment would be used to support AMCM operations operating from ships of opportunity.

The conferees recommend authorization of $4.3 million for Mobile Van AMCM Support Unit procurement in fiscal year 1986.

The Senate recedes.

Civil engineering support equipment

The budget request contained $221.6 million for civil engineering support equipment and contained no authorization for the 9th CE battalion in fiscal year 1986. The House amendment would authorize $221.6 million for civil engineering support equipment and no authorization for the 9th CE battalion. The Senate bill would authorize $232.6 million for civil engineering support equipment including $11.0 million to equip the 9th CE battalion.

The conferees recommend authorization of $232.6 million for civil engineering support equipment including $11.0 million for the 9th CE battalion.

The House recedes.

Oceanographic support equipment

The budget request did not include oceanographic support equipment in fiscal year 1986 nor did the House amendment. The Senate bill would authorize $14.0 million for use as described in the accompanying report (S. Report 99-41).

The conferees recommend authorization of $14.0 million for procurement of oceanographic support equipment in fiscal year 1986.

The House recedes.

Non-centrally managed items

The House amendment would authorize $170.8 million in the Other Procurement, Navy account for non-centrally managed items valued in excess of $3,000 for which the budget request sought funds in the Operation and Maintenance, Navy account. The House report on the authorization bill notes that such items are more properly considered investment items rather than expense items.

The Senate bill contained no similar authorization.

The conferees recommend authorization of $125.3 million for non-centrally managed items valued in excess of $5,000 in the Other Procurement, Navy account. As discussed in the Operation and Maintenance section, non-centrally managed items with a cost of $3,000-$5,000 are authorized in Operation and Maintenance.

The Senate recedes with an amendment.

Other procurement, Navy undistributed reductions

The Senate bill included $1,025.6 million in undistributed reductions in the Other Procurement, Navy account.

The House amendment included reductions by budget activities totaling $190 million, which included $30 million for ship support equipment; $80 million for communications and electronics equipment; $79 million for ordnance support equipment; and $10 million for spares and repair parts.

The conferees agreed to an undistributed reduction of $495 million.

The House recedes with an amendment.

Ammunition

The budget request contained $488.9 million for ammunition, including $214.6 million for 155mm ammunition, and $55.2 million for procurement of the M483 155mm HE ICM DP round in fiscal year 1986. The House amendment would authorize $538.9 million for ammunition, including $264.6 million for 155mm ammunition, and $105.2 million for procurement of M483 rounds. The Senate bill would authorize the requested amount.

The conferees recommend authorization of $513.9 million for ammunition, including $239.6 million for 155mm ammunition, and $80.2 million for procurement of the M483 155mm HE ICM DP round in fiscal year 1986.

Armored vehicle launched bridge (AVLB)

The budget request contained $8.6 million for procurement of 16 AVLBs in fiscal year 1986. The House amendment would authorize $12.9 million for 24 AVLBs. The Senate bill would authorize the amounts requested.

The conferees recommend authorization of $8.6 million for procurement of 16 AVLBs in fiscal year 1986.

The House recedes.

M198 howitzer

The budget request contained $21.0 million for procurement of 35 M198 howitzers in fiscal year 1986. The House amendment would authorize $77.0 million for procurement of 154 M198 howitzers. The Senate bill contained no authorization for M198 howitzers.

The conferees recommend authorization of $28.0 million for procurement of 50 M198 Howitzers in fiscal year 1986.

Communications and electronics

The budget request contained $18.6 million for procurement of the Unit Level Circuit Switch (ULCS) in fiscal year 1986. The ULCS is a family of digital switching equipments that provide automatic secure telephone switching capability to the field. The main elements of the ULCS are the AN/TTC-42 large switch and the SB-3865 small switch. All three services intend to procure the ULCS.

Recently, the ULCS underwent a limited operational test conducted by the Marine Corps with Air Force participation. The independent test agencies of both services recommended that the AN/TTC-42 not enter production because of deficiencies discovered during the limited operational test and previous operational tests.

The Marine Corps, after subsequent negotiations with the contractor, overcame the objections of the test community and now recommends the AN/TTC-42 for production. This decision was reached after the contractor agreed to absorb some financial risks until first article test is successfully completed in fiscal year 1988.

The conferees believe that the problems with the AN/TTC-42 discovered during operational test must be resolved prior to full scale production. Therefore, the conferees recommend authorization of the requested amount but direct the department to expand funds only for those items required for first article testing until such time that the Committees on Armed Services of the Senate and the House of Representatives review the results of the first article test.

This would allow the obligation of funds but not permit their use for production quantities of the AN/TTC-42 except for first article test equipments.

The above direction does not apply to the SB-3865 small switch which successfully completed operational testing.

The above restrictions also apply to Air Force procurement of the ULCS.

Non-centrally managed items.

The House amendment would authorize $12.6 million in the procurement Marine Corps account for non-centrally managed items valued in excess of $3,000 for which the budget request sought funds in the Operation and Maintenance, Marine Corps account. The House report on the authorization bill notes that such items are more properly considered investment items rather than expense items.

The Senate bill contained no similar authorization.

The conferees recommend authorization of $9.7 million for non-centrally managed items valued in excess of $5,000 in the other procurement, Marine Corps, account. As discussed in the Operation and Maintenance section, non-centrally managed items with a cost of $3,000—$5,000 are authorized in Operation and Maintenance.

The Senate recedes with an amendment.

AIRCRAFT PROCUREMENT, AIR FORCE

Bomber force study

The conferees note that the Committees on Armed Services of both the Senate and the House of Representatives included language in their reports on this legislation directing the Secretary of Defense to conduct a study and analysis of the future strategic bomber force. The conferees confirm the requirements set forth in both reports (S. Rept. 99-41 and H. Rept. 99-81) with respect to the bomber force study and direct the Secretary of Defense to submit his analysis and report to the Committee on Armed Services of the Senate and House of Representatives not later than February 1, 1986.

Advance cruise missile integration (ACM)

The budget request contained $122.8 million for ACM integration in fiscal year 1986. The House amendment would authorize $122.8 million for this purpose. The Senate bill contained no authorization for ACM integration in fiscal year 1986.

The conferees recommend $100.0 million for ACM integration in fiscal year 1986.

F-15 fighter aircraft (Eagle)

The budget request contained $1,902.9 million for procurement of 48 aircraft in fiscal year 1986, and $236.0 million for advance procurement of 48 aircraft in fiscal year 1987. The House amendment would authorize $1,631.3 million for procurement of 42 aircraft in fiscal year 1986, and $212.0 million for advance procurement of 48 aircraft for fiscal year 1987. The Senate bill would authorize $1,872.9 million for procurement of 48 aircraft in fiscal year 1986, and $236.0 million for advance procurement of 48 aircraft for fiscal year 1987.

The conferees recommend authorization of $1,831.0 million for procurement of 48 aircraft in fiscal year 1986, and $210.0 million for advance procurement of 48 aircraft for fiscal year 1987.

The House recedes with an amendment.

F-16 fighter aircraft (Falcon)

The budget request contained $2,836.7 million for procurement of 180 aircraft in fiscal year 1986, and $553.1 million for advance procurement of 180 aircraft in fiscal year 1987. The House amendment would authorize $2,336.7 million for procurement of 150 aircraft in fiscal year 1986, and $461.0 million for advance procurement of 150 aircraft for fiscal year 1987. The Senate bill would authorize $2,784.7 million for procurement of 180 aircraft in fiscal year 1986, and $553.1 million for advance procurement of 180 aircraft for fiscal year 1987.

The conferees recommend authorization of $2,625.8 million for procurement of 180 aircraft in fiscal year 1986, and $553.1 million for advance procurement of 180 aircraft for fiscal year 1987.

The House recedes with an amendment.

MC-130H (combat talon)

The budget request contained $73.6 million for procurement of one aircraft in fiscal year 1986, and $5.9 million for advance procurement of two aircraft in fiscal year 1987. A total of $10.3 million in the MC-130 program was intended for the modification of a specially configured C-130 to the MC-130 configuration. The House amendment shifted the $10.3 million from the MC-130 procurement program to the Modification of Aircraft account. The House amendment also contained no authorization for the aircraft in fiscal year 1986. The Senate bill contained $73.6 million for procurement of one aircraft in fiscal year 1986 and $5.9 million for advance procurement of two aircraft in fiscal year 1987.

The conferees recommend authorization of $55.0 million for procurement of one aircraft in fiscal year 1986, and $5.9 million for advance procurement to two aircraft in fiscal year 1987.

The conferees expressed concern over the troubled history of the Combat Talon program. The conferees believe that any further increase in cost or delay in schedule would justify termination. The conferees caution the Air Force to devote the highest degree of management attention, to stabilize the program management and to improve performance and cost disipline.

C-130H airlift aircraft (Hercules)

No authorization was requested for C-130H aircraft. The House amendment would authorize $150.0 million for procurement of 8 aircraft for the Air Force Reserve. The Senate bill contained a $150.0 million authorization for procurement of 8 C-130H aircraft for the Air National Guard.

The conferees recommend authorization of $270.0 million for procurement of 14 C-130H aircraft in fiscal year 1986. The authorization is contained in the Guard and Reserve section (sec. 104) of the conference report.

C-20A airlift aircraft

The budget request contained $168.8 million for procurement of 8 aircraft in fiscal year 1986. The House amendment would authorize $84.4 million for procurement of 4 aircraft in fiscal year 1986. The Senate bill would authorize $168.8 million for procurement of 8 aircraft in fiscal year 1986.

The conferees recommend authorization of $168.8 million for procurement of 8 aircraft in fiscal year 1986.

The House recedes.

HH-60A (Night Hawk)

The budget request contained $94.0 million for procurement of three aircraft in fiscal year 1986, and $22.0 million for advance procurement of 25 aircraft in fiscal year 1987. The House amendment would authorize the requested amount. The Senate bill contained no authorization for the aircraft in fiscal year 1986, but included $12.0 million for advance procurement in fiscal year 1987.

The conferees recommend authorization of $94.0 million for procurement of three aircraft in fiscal year 1986, and $12.0 million for advance procurement in fiscal year 1987.

TR-1/U-2 standoff surveillance aircraft

The budget request contained $343.9 million for procurement of 8 aircraft in fiscal year 1986. The House amendment would authorize $279.8 million for procurement of 5 aircraft in fiscal year 1986, and $10.7 million for advance procurement of 5 aircraft in fiscal year 1987. The Senate bill would authorize $279.8 million for 6 aircraft in fiscal year 1986.

The conferees recommend authorization of $302.2 million for procurement of 6 aircraft in fiscal year 1986, and $9.0 million for advance procurement of 4 aircraft in fiscal year 1987.

Modification of Air Force aircraft

The budget request contained $2,917.8 million for procurement for various Air Force aircraft modification for fiscal year 1986. The House amendment would authorize $2,842.1 million for Air Force aircraft modifications. The Senate bill would authorize $2,577.8 million for Air Force aircraft modifications.

The conferees recommend authorization of $2,793.1 million for Air Force aircraft modifications including the following specific authorizations:

B-52 modifications, $428.6 million;
F-5 modifications, $25.7 million;
C-130 modifications, $211.3 million; including MC-130 modifications, $23.7 million;
HH-53 modifications, $76.4 million;
Classified projects, $112.4 million;
Undistributed reduction, $150.0 million;
Ground proximity warning system, $10.0 million.

B-52 squadrons

The budget request contained $463.6 million for procurement associated with modifications for the B-52 bomber force. The House amendment would fully support the request. The Senate, for budgetary reasons, reduced the requested amount by $100 million. The conferees agreed that the authorization for this program be reduced by $35 million to $428.6 million and direct that there be no change in funding for either cruise missile related modifications, including the common strategic rotary launcher (CSRL) or for electronic countermeasures modifications.

Special operations forces

Special operations forces (SOF) received special attention in both the House and Senate bills. The House amendment contained a provision (sec. 1202) that would express the Sense of the Congress that greater attention should be devoted to the capabilities of special operations forces. The Senate receded with amendment. The conferees agreed that although management resources in the Department of Defense to supervise development and acquisition for SOF had received necessary expansion, similar and necessary increases had not occurred in the staff elements responsible for overall SOF policy formulation. The conferees believe that this inadequacy of resources should be remedied expeditiously.

The conferees agreed that both committees would review the joint command and control of SOF as part of their consideration of departmental and Joint Chiefs of Staff reorganization. This review will include an examination of the specific SOF mission area.

The House amendment would also add funds for the modification of 10 HH-53 helicopters to the PAVE LOW configuration for special operations as well as directing the timely modification of two HH-53s out of unobligated prior-year funding balances. The Senate receded with an amendment (sec. 144) specifying that the Secretary of the Air Force must certify that for the PAVE LOW fleet the fiscal year 1987 five year defense plan provides sufficient resources to achieve and maintain the highest readiness level specified in the JCS Unit Status Report System.

The Senate bill contained a provision (sec. 943) that would prohibit the Air Force from spending funds on MC-130s or HH-53 modifications, and the Army from spending funds for CH-47 modifications, until the Secretary of Defense submits a plan for meeting the immediate airlift requirements of the Joint Special Operations Command, and a second plan for meeting the airlift requirements of JSOC and the unified commanders-in-chief by calendar year 1991. The House receded. The conferees agreed that, because severe readiness deficiencies persist in the unified and specified commands because of prior year development and procurement shortages, the Air Force should ensure stable increases in the funding for annual development, modification or procurement of special operations and combat rescue variants of the C-130, HH-53, HH-60,

and CV-22 aircraft, are sufficient to meet the JSOC and unified commanders-in-chiefs' requirements within the fiscal year 1986 five year development plan.

Ground proximity warning system

The report (H. Rept. 99-81) accompanying the House amendment directed that within the amounts authorized for Air Force aircraft procurement in fiscal year 1986 and prior years, $10.0 million should be used for the procurement of second generation or better ground proximity warning system hardware and associated aircraft modifications. The Senate report (S. Rept. 99-41) contained no similar language.

The conferees agreed that $10.0 million may be used for such purposes on a discretionary basis.

EC-T-39 aircraft

The report (H. Rept. 99-81) accompanying the House amendment directed the Secretary of the Air Force, in conjunction with the Air National Guard, to test the efficacy of airborne electronic countermeasures (ECM) training using an existing T-39 aircraft and Air Force ECM equipment.

The conferees agreed to request the Air Force, with the participation of the Air National Guard, to evaluate the feasibility and cost-effectiveness of providing Air Force T-39 aircraft to the Air National Guard for ECM training purposes. This report shall be submitted to the Committees on Armed Services of the Senate and House of Representatives no later than March 1, 1986.

Undistributed reduction to Air Force aircraft modifications

The Senate bill reduced the request for aircraft modifications for Air Force aircraft procurement by $240.0 million, with report language directing that the reductions oe made against airlift aircraft modifications. The House bill reduced the account by $106.3 million.

The conferees agreed on $150 million reduction, to be distributed against all modification programs and not exclusively against airlift modifications.

Air Force aircraft spares and repair parts

The budget request contained $4,934.6 million for procurement of Air Force aircraft spares and repair parts for fiscal year 1986. The House amendment would authorize $4,683.2 million for Air Force aircraft spares and repair parts. The Senate bill would authorize $4,624.6 million for Air Force aircraft spares and repair parts.

The conferees recommend authorization of $4,629.6 million for Air Force aircraft spares and repair parts including the following specific authorizations:

Initial spares, $1,093.7 million;

F-15 spares, $85.5 million;

F-16 spares, $250.2 million;

C-20 spares, $16.8 million;

TR-1/U-2 spares, $19.1 million;

MC-130 spares $3.0 million;

Replenishment spares, $3,785.9 million;

Classified spares, $0.2 million;

Undistributed reduction, $250.0 million;

Air Force aircraft support equipment and facilities

The budget request contained $3,490.3 million for procurement of Air Force aircraft support equipment and facilities for fiscal year 1986. The House amendment would authorize $2,814.0 million for this purpose. The Senate bill would authorize $3,232.9 million for this purpose.

The conferees recommend authorization of $3,204.8 million for Air Force aircraft support equipment and facilities, including the following specific authorizations:

Common ground support equipment, $631.0 million;

Industrial responsiveness, $74.2 million;

War consumables, $86.4 million;

Other production charges, $2,413.2 million; classified programs, $1,478.5 million; PLSS, $43.0 million; LANTIRN, $420.7 million, ALQ 131 pod, $48.0 million.

Peacekeeper (MX)

The Senate bill approved the full amount requested for research and development for the MX and provided for procurement of 12 MX missiles, equipment to support basing of not more than 50 MX missiles in existing silos, and full funding of the request for initial spares, for a total procurement of $1,889.3 million. In addition, the Senate bill expressed the sense of Congress that not more than 50 MX missiles should be deployed in existing Minuteman silos. The House amendment reduced the research and development request by $100 million, provided for the procurement of no additional MX missiles, and provided $921 million to support basing of not more than 40 deployed MX missiles.

The conferees agreed to a limitation in law of no more than 50 MX missiles in existing Minuteman silos. The conferees further agreed to provide $1,746.0 million to procure 12 MX missiles and 18 basing sets to support the silo based deployments of 50 MX missiles, $105 million for initial spares, and $734.1 million for MX research and development.

The conference provision is explicit with regard to the limitation on further deployment (beyond 50 MX missiles) in existing Minuteman silos and is equally explicit with regard to the possibility of further MX deployments should the President propose and the Congress approve a more survivable basing mode.

The conferees are in agreement that MX procurement shall continue to provide missiles necessary for the operational test program and the missile aging and surveillance program. Although the conferees did not address the ultimate size of the MX test program, the conference provision notes that from 12 to 21 missiles should be procured for these purposes in fiscal year 1987.

Missile replacement equipment—strategic

The budget request contained $86.7 million for procurement of strategic force modernization missile replacement equipment in fiscal year 1986. The House amendment would authorize $76.7 million for strategic force modernization missile replacement equipment in fiscal year 1986. The Senate bill would authorize $56.7 million for the same purpose.

The conferees agreed to authorize $66.7 million for procurement of strategic force modernization missile replacement equipment in fiscal year 1986.

AIM-9L/M Sidewinder

The budget request contained $43.3 million for procurement of 800 AIM-9L/M Sidewinder missiles in fiscal year 1986. The House amendment would authorize $81.3 million for procurement of 1502 AIM-9L/M Sidewinder missiles in fiscal year 1986. The Senate bill would authorize $43.3 million for procurement of 800 AIM-9L/M Sidewinder missiles in fiscal year 1986.

The conferees agreed to authorize $81.3 million for 1502 AIM-9L/M Sidewinder missiles in fiscal year 1986.

The Senate recedes.

AGM-130 powered GBU-15

The budget request contained $48.5 million for procurement of 97 AGM-130 powered GBU-15 missiles in fiscal year 1986. The House amendment would authorize $16.0 million for the AGM-130 powered GBU-15 missile. The Senate bill would authorize $48.5 million for procurement of 97 AGM-130 powered GBU-15 missiles in fiscal year 1987.

The conferees agreed to authorize $20.0 million for procurement of 40 AGM-130 powered GBU-15 missiles in fiscal year 1986.

AGM-65D Maverick

The budget request contained $489.0 million for procurement of 3500 AGM-65D Maverick missiles in fiscal year 1986. The House amendment would authorize $430.9 million for procurement of 2950 AGM-65D Maverick missiles in fiscal year 1986. The Senate bill would authorize $489.0 million for procurement of 3500 AGM-65D Maverick missiles in fiscal year 1986.

The conferees agreed to authorize $430.9 million for procurement of 2950 Maverick missiles in fiscal year 1986.

The Senate recedes.

AGM-88A HARM

The budget request contained $478.1 million for procurement of 1715 AGM-88A HARM missiles in fiscal year 1986. The House amendment would authorize $425.7 million for procurement of 1715 AGM-88A HARM missiles in fiscal year 1986. The Senate bill would authorize $478.1 million for procurement of 1715 AGM-88A HARM missiles in fiscal year 1986.

The conferees agreed to authorize $478.1 million for procurement of 1715 HARM missiles.

The House recedes.

Rapier

The budget request contained $7.6 million for procurement of Rapier missiles in fiscal year 1986. The House amendment would authorize $3.6 million for procurement of 1715 Rapier missiles in fiscal year 1986. The Senate bill would authorize $7.6 million for procurement of 1715 Rapier missiles in fiscal year 1986.

The conferees agreed to authorize $3.6 million for procurement of Rapier missiles.

The Senate recedes.

Advanced medium range air-to-air missile (AMRAAM)

The budget request contained $366.5 million to procure 90 AMRAAM missiles and $65.9 million for advance procurement.

The Senate bill would authorize $200.0 million for procurement of AMRAAM missiles and $65.9 million for advance procurement. The House amendment contained no funds for AMRAAM.

The conferees recommend authorization of $150.0 million for missile procurement for purposes of qualifying a second manufacturer and instituting producibility improvements and $30.0 million for advance procurement.

The conferees also agreed that unobligated funds totaling $29.4 million of fiscal year 1984 AMRAAM advanced procurement may be carried forward to fiscal year 1986.

The advance procurement funds totaling $59.4 million may not be obligated or expended until 30 days after the results of the Production Readiness Review (PRR) Number Four, scheduled for not later than June 1986, have been submitted to the Committees on Armed Services of the Senate and the House of Representatives.

BGM-109 (ground launched cruise missile)

The budget request contained $544.1 million for procurement of 95 BGM-109 (GLCM) missiles in fiscal year 1986 and $9.8 million for advance procurement of 76 missiles in fiscal year 1987. The House amendment would authorize $534.1 million for procurement of 95 BGM-109 missiles in fiscal year 1986 and $9.8 million for advance procurement of 76 missiles in fiscal year 1987. The Senate bill would authorize $544.1 million for procurement of 95 BGM-109 missiles in fiscal year 1986 and $9.8 million for advance procurement of 76 missiles in fiscal year 1987—the full amount requested.

The conferees agree to authorize $534.1 million for procurement of 95 BGM-109 CLCM missiles in fiscal year 1986 and $9.8 million for advance procurement of 76 missiles in fiscal year 1987.

Modification of missiles

The budget request contained $134.5 million for modification of missiles in fiscal year 1986, including $13.5 million for Class V modifications. The House amendment would authorize $129.4 million for modification of missiles in fiscal year 1986, including $8.4 million for Class V modifications. The Senate bill would authorize the full amount requested.

The House recedes.

Spares and repair parts

The budget request contained $539.2 million for missile spares and repair parts, including $143.0 million for MX initial spares, $0.9 million for Maverick spares, $7.2 million for HARM spares, $6.1 million for AMRAAM spares, and unspecified amounts for classified program spares. The House amendment would authorize $369.4 million for missile spares and repair parts, including $0.7 million for Maverick spares, and $6.3 million for HARM spares. The House amendment would make unspecified reductions in classified program spares. The House amendment does not contain authorization for MX initial spares or AMRAAM spares. The Senate bill would authorize $514.3 million for missile spares and repair parts, including $143.0 million for MX initial spares, $0.9 million for Maverick spares, $7.2 million for HARM spares, and $6.1 million for AMRAAM spares. The Senate bill would make unspecified reductions in classified program spares.

The conferees agree to authorize $465.3 million for Air Force missile spares and repair parts, including the following specific authorizations for initial spares:

MX initial spares, $105.0 million;
Classified program spares, [——];
Maverick spares, $0.7 million;
HARM spares, $7.2 million;
AMRAAM spares, $0.0 million;

Modification of spares

The budget request contained $2.2 million for modification of Maverick spares. The House amendment would authorize $1.9 million for modification of Maverick spares. The Senate bill would authorize $2.2 million for modification of Maverick spares.

The conferees recommend authorization of $1.9 million for modification of Maverick spares.

The Senate recedes.

Replenishment spares

The budget request contained $8.6 million for Maverick spares, $5.2 million for HARM spares, $4.1 million for Rapier spares, and $0.3 million for AMRAAM spares. The House amendment would authorize $7.3 million for Maverick spares, $4.6 million for HARM spares, $1.9 million for Rapier spares, and no authorization for AMRAAM spares. The Senate bill would authorize $8.6 million for Maverick spares, $5.2 million for HARM spares, $4.1 million for Rapier spares, and $0.3 million for AMRAAM spares.

The conferees recommend authorization of $7.3 million for Maverick spares, $5.2 million for HARM spares, $1.9 million for Rapier spares; no authorization for AMRAAM spares; and no authorization for MX spares.

Other support

Space launch support

The budget request contained $296.0 million for space launch support in fiscal year 1986. The House amendment would authorize the full amount requested. The Senate bill would authorize $261.0 million for space launch support in fiscal year 1986.

The House recedes.

Space defense system

The budget request contained $83.0 million for ASAT-related procurement under the space defense system program in fiscal year 1986, including $14.9 million for advance procurement for fiscal year 1987. The House amendment would authorize the requested amount. The Senate bill would authorize the requested amount.

The Committees on Armed Services are concerned with the technical problems being experienced in the ASAT program and the resulting schedule slippage and expect the Air Force to review and, If necessary, to restructure the program.

The conferees agreed to authorize $18.0 million for space defense systems in fiscal year 1986, and $14.9 million for advance procurement for fiscal year 1987. The conferees invite the Air Force to reprogram funds into the RDT & E program for the purpose of addressing technical issues.

Special programs

The budget request contained $1,915,8 million for special programs in fiscal year 1986. The House amendment would authorize $1,873.3 million for the same purpose. The Senate bill would authorize $1,883.4 million for the same purpose.

The conferees agreed to authorize $1,877.7 million for special programs in fiscal year 1986.

Special update programs

The budget request contained $887.4 million for special update programs in fiscal year 1986. The House amendment would authorize the requested amount. The Senate bill would authorize $927.5 million for special update programs in fiscal year 1986.

The conferees agreed to authorize $927.5 million for special programs in fiscal year 1986.

Prior year transfer

The House amendment authorized the transfer of $11.8 million in prior year appropriations to be applied to the fiscal year 1986 Air Force missile program. The Senate bill did not provide for similar authorization.

The conferees agreed to authorize the transfer of $11.8 million in prior year appropriations to be applied to the fiscal year 1986 Air Force missile program, including the following specific transfers:

Fiscal year 1985 Rapier, $4.0 million;

Fiscal year 1983 ALCM, $5.3 million;

Fiscal year 1983 AIM-9L/M Sidewinder, $0.3 million;

Fiscal year 1983 Defense meteorological satellite program, $2.2 million.

The Senate recedes.

Munitions and associated equipment

The budget request contained $1,621.8 million for munitions and associated equipment. The House amendment would authorize $1,389.2 million for munitions and associated equipment. The Senate bill would authorize $1,507.8 million for munitions and associated equipment. The conferees recommend authorization of $1,432.4 million for this program.

Vehicular equipment

The budget request contained $340.9 million for procurement of vehicular equipment. The House amendment would authorize $328.4 million for procurement of vehicular equipment. The Senate bill would authorize $320.9 million for procurement of vehicular equipment. The conferees recommend authorization of $320.8 million for procurement of vehicular equipment.

Electronics and telecommunication equipment

The budget request contained $2,816.8 million for procurement of electronics and telecommunication equipment in fiscal year 1986. The House amendment would authorize $2,599.7 million for electronics and telecommunication equipment. The Senate bill would authorize $2,722.3 million for the same purpose. The conferees recommend authorization of $2,635.8 million for electronics and telecommunication equipment.

Over-the-Horizon Backscatter (OHT-B) radar

The budget request contained $237.0 million for procurement of two Over-the-Horizon Backscatter (OTH-B) radar sectors in fiscal year 1986. In addition, $26.9 million was requested for associated initial spares. The Senate bill authorized the requested amount. The House amendment would reduce the request by $10 million associated with one sector and reduce the associated spares by $10.0 million. The conferees agreed to the spares reduction of $10.0 million and agreed to authorize $167.0 million to fund one sector and, due to budgetary constraints, to provide $40 million for advance procurement of electronic parts required for the remaining two west coast sectors to be procured in the future. The conferees believe that the cost savings gained from quantity buys of these parts warrant a waiver to the full funding policy for this appropriation.

Range improvements

The budget request contained $105.2 million for range improvements.

The Senate bill would authorize $90.2 million. The House amendment would authorize the full request.

The House recedes.

The conferees expressed concern over the increased funding for improvement of Department of Defense ranges. The conferees understand the Air Force is initiating a large effort to improve its strategic range capability. The Navy and the Air Force are spending significant funds to improve their tactical ranges with expensive equipment (e.g., electronic warfare simulators and air combat maneuvering instrumentation (ACMI)).

The conferees believe that proper training for combat is essential but are concerned that these funds are expended in the most cost-effective manner. To that end, the Department of Defense is required to submit a report to the Committees on Armed Services of the Senate and the House of Representatives detailing the department's plans for range usage and improvement.

This report should include but not be limited to (1) efforts to maximize interservice sharing of ranges; (2) plans to design ranges for multimission usage (e.g., tactical and strategic); (3) plans to minimize duplicative procurement of expensive range systems (e.g., ACMI); (4) range usage rates including interservice usage; and (5) total costs of all services range modernization programs.

This report should be submitted not later than January 31, 1986.

Other base maintenance and support equipment

The budget request contained $4,758.6 million for other base maintenance and support equipment. The House amendment would authorize $4,650.7 million for base maintenance and support equipment. The Senate bill would authorize $4,683.5 million for the same purpose. The conferees recommend authorization of $4,655.4 for other base maintenance and support equipment.

Non-centrally managed items

The House amendment would authorize $71.3 million in the Other Procurement, Air Force account for non-centrally managed items valued in excess of $3,000 for which the budget request sought funds in the Operation and Maintenance, Air Force account. The House report on the authorization bill notes that such items are more properly considered investment items rather than expense items.

The Senate bill contained no similar authorization.

The conferees recommend authorization of $54.7 million for non-centrally managed items valued in excess of $5,000 in the Other Procurement, Air Force account. As discussed in the Operation and Maintenance section, non-centrally managed items with a cost of $3,000–$5,000 are authorized in Operation and Maintenance.

The Senate recedes with an amendment.

Procurement, Defense agencies

The budget request contained $1,391.9 million to procure equipment to support Defense Agencies. The House amendment would authorize $1,290.1 million for Defense Agencies. The Senate bill would authorize $1,318.1 million for this purpose.

The conferees agree to authorize $1,342.3 million to procure equipment for Defense Agencies.

Air defense

The budget request contained no authorization for air defense for NATO Cooperative Programs in fiscal year 1986. The House amendment contained a provision (sec. 105) that would authorize $117.9 million for NATO Cooperative Programs air defense in fiscal year 1986. The Senate bill contained no authorization for this purpose.

The conferees agree to authorize $75.0 million for Department of Defense NATO Cooperative Programs in fiscal year 1986.

Guard and Reserve procurement

The Senate bill contained a provision (sec. 104) that would authorize $332.0 million for selected equipment for the National Guard and Reserves. The House amendment did not have a similar provision; however, the House amendment provided for authorization of similar equipment in the respective provisions authorizing Army, Navy and Air Force procurements.

The conferees agreed to include authorization in a separate section (sec. 104) for Guard and Reserve equipment totaling some $658.4 million. In doing so, adjustments were made to sections 101, 102 and 103 to reflect the transfer of corresponding authorizations to section 104.

UH-60 aircraft (Blackhawk)

The budget request did not include UH-60 helicopters for the Navy Reserve Combat Research and Rescue (CSAR) mission. The House amendment would authorize $25.0 million for procurement of 4 UH-60 helicopters in fiscal year 1986. The Senate bill contained no similar provision.

The conferees recommend authorization of $25.0 milion for procurement of 4 UH-helicopters in fiscal year 1986.

The Senate recedes.

Tanker aircraft

The budget request did not include tanker aircraft. The House amendment would authorize $40.0 million for procurement of 2 KC130T aircraft for the Marine Corps Reserve in fiscal year 1986. The Senate bill contained no similar provision.

The conferees recommend authorization of $40.0 million for competitive procurement of generic tanker aircraft to meet the most critical Navy/Marine Corps refueling requirements.

C-12J mission support aircraft

No authorization was requested for C-12J mission support aircraft in fiscal year 1986. The House amendment would authorize $18.0 million for procurement of 6 aircraft. The Senate bill contained no authorization for procurement of C-12J mission support aircraft.

The conferees recommend authorization of $18.0 million for procurement of 12 C-12J mission support aircraft in fiscal year 1986 for the Air National Guard. The autorization is included in section 104.

The Senate recedes with an amendment that would require the competitive procurement of C-12 aircraft.

C-131 modification

The Senate bill authorized $12.0 million for a C-131 aircraft modification program. The House amendment did not contain such authorization.

The conferees recommend authorization of $12.0 million for the program. The authorized funds, however, are not to be obligated until the General Accounting Office conducts a study to determine the cost effectiveness and feasibility of the program.

LEGISLATIVE PROVISIONS

LEGISLATIVE PROVISIONS ADOPTED

Multi-year contracting authorizations

The House amendment contained a provision (sec. 101(c)) that would provide multiyear contracting authorization for weapon systems, and subsystems, and other equipment. The Senate bill contained several provisions (sec. 101(c) and sec. 102(g)) that would prohibit multi-year contracting authorization for weapon systems and subsystem and other equipment.

The following table summarizes the House and Senate provisions and presents conference agreements on multi-year contracting authorizations.

Service	Senate	House	Conference
Army	Sec. 101(c) prohibits authorization for M-9 ACE.	Sec. 101(c) authorizes multiyear contracts for T-700 engine, M-1A1 chassis, AGT 1500 engine, LRF and TIS for M-1, M-1 ballistic computer components, Bradley Fighting Vehicle transmission.	Sec. 101(c)(1) authorizes multiyear contracts for T-700 engine, M-1A1 Chassis, AGT 1500 engine, LRF and TIS for M-1, M-1 ballistic computer components, Bradley Fighting Vehicle transmission. Sec. 101(c)(2) prohibits authorization of multiyear contracts for M-9 ACE.

The House amendment contained a provision (sec. 101(c)(2)) that would deny multiyear contracting authority of the cost of the multiyear contract exceeds 90 percent of cost annual contract.

The Senate bill contained no similar provision.

The Senate recedes.

Removal of limitations on contractors for 120 millimeter mortar (sec. 101(d))

The House amendment contained a provision (sec. 101(d)) that removes the limitation on selection of contractors for the 120mm mortars.

The Senate bill contained no similar provision.

The Senate recedes.

Shipbuilding and conversion, navy, transfer authorization for fiscal year 1986 programs (sec. 102(c)(4))

Section 102(c) of the House amendment contained a provision that would authorize the transfer to any authorized fiscal year 1986 shipbuilding program of amounts remaining available due to cost savings in carrying out the fiscal year 1985 shipbuilding program.

The Senate bill did not contain a similar provision.

The conferees agreed to authorize the transfer of such amounts as may remain available due to cost savings in carrying out shipbuilding programs in fiscal year 1985 and prior years.

The Senate recedes with an amendment.

Shipbuilding and conversion, navy, transfer authorization for battleship reactivation (sec. 102(c)(5))

Section 102(c) of the House amendment contained a provision that would authorize the transfer to the battleship reactivation program of amounts remaining available due to cost savings in carrying out the fiscal year 1985 and 1986 shipbuilding programs.

The Senate bill did not contain a similar provision.

The conferees agreed to authorize the transfer of such amounts as may remain available due to cost savings in carrying out shipbuilding programs in fiscal year 1986 and prior years.

The Senate recedes with an amendment.

Authorization for multiyear procurement MK-46 torpedoes (sec. 102(f))

The House amendment (sec. 102(g) contained an authorization for multiyear procurement of MK-46 torpedoes and modification kits. The Senate bill did not contain this provision.

The Senate recedes.

Authorization of ship contract design funds (sec. 102(g))

The Senate bill contained a provision (sec. 102(h)) that would require requests for authorization of ship contract design funds to be made in the shipbuilding and conversion account in fiscal years 1987 and beyond. Such authorization is currently requested in the Research, Development, Test and Evaluation, Navy account.

The House amendment did not contain a similar provision.

The House recedes.

Authorization for transfers of prior-year funds to fiscal year 1986 procurement programs

The Senate bill contained provisions in sections 101, 102, 103, and 105 that would authorize transfers of prior-year funds totaling $2,613.6 million to fiscal year 1986 procurement programs as shown in the table below:

Reductions in authorization due to savings from lower inflation and prior year cost savings (sec. 107)

The House amendment contained a provision (sec. 111) that would reduce authorizations for procurement by $7.827 billion, including a reduction of $5.62 billion in amounts included for inflation in fiscal years subsequent to 1986 and a reduction of $2.207 billion to reflect lower than projected inflation and program savings in fiscal year 1986 and prior years. Section 111 also would require a provision that certain reductions be achieved from savings and not from program reductions, cancellations or stretchouts.

The Senate bill incorporated reductions in the authorization for appropriations contained in sections 101 to 105 to reflect lower than projected inflation in fiscal year 1986 and prior years.

The conferees agreed to include reductions to reflect lower than projected inflation in fiscal year 1986 and prior year programs in the authorization contained in sections 101 to 105 and incorporated the reductions included in both the House and Senate provisions. The House recedes with an amendment.

The conferees did not agree to include reductions in amounts included for inflation in fiscal year 1987 and subsequent years.

The House recedes.

The conferees agreed to a provision that certain reductions that have been incorporated in the authorizations in section 101 to 105 can come only from program savings. The limitation would apply to savings totaling $123 million.

The Senate recedes with an amendment.

Provision relating to transfers of prior-year funds (sec. 108)

The House amendment contained a provision (sec. 112) that would authorize certain transfers and would provide that transfers could be made only where funds were available because of program savings.

The Senate bill contained no similar provision.

The conferees agreed to a provision that would provide that transfers authorized in Title I could only be made where funds were available as a result of program savings.

The Senate recedes with an amendment.

Report on reductions and transfers (sec. 109)

The House amendment contained a provision (sec. 113) that would require the Secretary of Defense to submit a report to the Committee on Armed Services of the Senate and House of Representatives before implementing a program change as a result of certain reductions that would be made by section 111 or 112 of the House amendment.

The Senate bill contained no similar provision.

The conferees agreed to a provision that would require the Secretary of Defense to submit a report to the Committee on Armed Services of the Senate and House of Representatives before implementing program reductions or transfers as provided in sections 101 to 105.

Conventional force enhancement (sec. 110)

The House amendment contained a provision (sec. 1184) that would provide authorization of $1 billion for additional conventional force enhancements. The Senate bill did not contain a similar provision.

The conferees agreed to authorize a number of conventional initiatives and include them in the appropriate sections of the Act. In addition, the conferees recommend language that recognizes the importance of improving the United States' conventional capabilities, particularly those of NATO forces, as a means of raising the nuclear threshold. Further, the conferees recommend increased conventional force enhancements in the future.

Limitation on procurement of Sergeant York Air Defense Gun (sec. 121)

The House amendment contained a provision (sec. 106) that would prohibit obligation of funds to enter a new contract for production of the Sergeant York Air Defense Gun until: (1) the follow-on evaluation I is completed and results demonstrate that the system meets or exceeds the pass/fail criteria of the tests; (2) the Director of Testing and Evaluation submits an evaluation of the tests; (3) the Secretary of Defense certifies that testing demonstrates that the operational capabilities of the system fulfill the performance specifications of the contract; (4) the Secretary of the Army negotiates with the contractor a guarantee for contracts beyond fiscal year 1985 that the system meets the performances specifications of the contract.

The Senate bill also contained a provision (sec. 101(b)) that would prohibit expenditures for option III and any new production contracts until the Secretary of Defense certifies that the results of the operational tests justify continuation of the program.

The Senate recedes with an amendment that would also prohibit expenditures for production contract option III.

Requirements with respect to the Bradley Fighting Vehicle (sec. 122)

The House amendment contained a provision (sec. 116) that would require the Secretary of Defense to submit a report regarding the live-fire survivability tests for the Bradley Fighting Vehicles.

The Senate bill contained no similar provision.

The Senate recedes.

Condition on procurement of certain combat vehicles (sec. 123)

The House amendment contained a provision (sec. 117) that would prohibit the Department of Defense from procuring any new combat wheeled or armored vehicles until these vehicles have undergone live-fire survivability testing.

The Senate bill contained no similar provision.

The Senate recedes with an amendment that applies this prohibition only to major defense acquisition programs, consistent with section 139 of title 10, United States Code. The conferees agree that this provision is not intended to criticize the Army's current testing procedures or programs.

Sales of L119 howitzers overseas (sec. 124)

The House amendment contained a provision (sec. 108) that would provide authority for the United States to sell to friendly foreign governments those howitzers produced in U.S. arsenals without any restrictions regarding the contents of such howitzers that must be of foreign origin.

The Senate bill contained no similar provision.

The House recedes with an amendment that stipulates the assumptions contained in the Memorandum of Understanding with the United Kingdom regarding U.S. sales to third countries during the period of coproduction, as determined jointly by the United States and the United Kingdom.

Restrictions on purchase by the Army of 5-ton trucks (sec. 125)

The House amendment contained a provision (sec. 107) that would impose restrictions on expenditures for procurement of 5-ton trucks. The House amendment also would authorize the Secretary of the Army to award a five-year multiyear contract for the purchase of 5-ton trucks.

The Senate bill contained a provision (sec. 101(d)) that imposes identical restriction on expenditures for procurement of 5-ton trucks. The Senate bill provides the authority for the Secretary of the Army to award a three-year multiyear contract.

The Senate recedes.

Other Army programs (sec. 126)

Copperhead (sec. 126(a))

Section 101(f) of the House amendment would limit the obligation of the appropriations authorized for the Copperhead projectile program until the Secretary of Defense submits to the Congress a plan for establishing a second source for production of Copperhead.

The Senate bill contained no similar provision.

The Senate recedes.

Safety modifications for the Pershing II missile (sec. 126(b))

The House amendment contained a provision (sec. 101(g)) that authorizes the Secretary of the Army to purchase safety modifications using fiscal year 1986 funds. The provision stipulates that no funds for these modifications may be obligated until a report providing the details of these modifications is submitted to the Committees on Armed Services of the Senate and House of Representatives. The Senate bill contained no similar provision.

The Senate recedes.

AH-64 Apache helicopter (sec. 126(c))

Section 101(h) of the House amendment would prohibit the obligation of funds after fiscal year 1985 for the AH-64 Apache helicopter program until the contractor has implemented an effective accounting system and made available to the Defense Contract Audit Agency certain financial records.

The Senate bill contained no similar provision.

The Senate recedes.

A6 aircraft rewing program (sec. 131)

The budget request did not include the A6 aircraft rewing program. The House amendment contained a provision (sec. 115) that would authorize $240.0 million in prior year transfer authority to carry out such a program in fiscal year 1985 subject to a firm fixed priced contract and a warranty guaranteeing an 8,800 hour wing fatigue life. The Senate bill contained no similar provision.

The conferees recommend authorization of the rewing program and the prior year transfer authority.

The Senate recedes.

Limitation on MX missile procurement and deployment (sec. 141)

Sec. 107 of the Senate bill contained a sense of Congress that not more than 50 MX missiles should be deployed in existing Minuteman silos, that further procurement of MX missiles should be limited to test missiles unless a different basing mode is approved by the Congress and that in fiscal year 1987 from 12 to 21 MX missiles should be procured. Sec. 114 of the House amendment provided that no more than 40 MX missiles should be deployed at any time and that after fiscal year 1985 only test MX missiles should be procured.

The conference agreement provides for a permanent limitation on the deployment of MX missiles in existing Minuteman silos at 50. It further provides that additional MX deployments are subject to congressional authorization of a more survivable basing mode. Further procurements of MX missiles would be limited to test missiles and from 12 to 21 test missiles should be procured in fiscal year 1987.

Fighter competition (sec. 142)

The House amendment contained a provision (sec. 103(c)) that would require the Secretary of the Air Force to establish in fiscal year 1986 and ongoing competition between the F-16 and F-20 fighter aircraft, as well as other suitable aircraft the Secretary considers necessary to procure. The Senate bill contained no similar provision.

The conferees agreed on the merits of establishing in fiscal year 1986 a competition for the procurement of fighter aircraft to meet the requirements of the active and reserve forces.

The Senate recedes with amendment.

Advanced technology bomber (sec. 143)

Section 118 of the House amendment would require the Secretary of Defense to submit to the Congress a report by February 1, 1986 on the total program costs of the advanced technology bomber report. The Senate bill contained no similar provision.

LEGISLATIVE PROVISIONS NOT ADOPTED

Marine Corps Reserve 30mm gun pod

Section 102 of the House amendment made $11.0 million of the amount authorized for procurement, Navy available only for procurement of gun pods for Marine Corps Reserve aircraft with a demonstrated anti-armor lethality equivalent to the GAU-8 30 millimeter gun pod. The Senate bill contained no similar provision.

The House recedes.

Restrictions on advance procurement authority for carrier service life extension program (CV-SLEP)

The Senate bill contained a provision (sec. 102(d)) that would prohibit the obligation or expenditure of more than $86.4 million of the $133.4 million recommended for authorization for the CV-SLEP program until 90 days from the date the Secretary of the Navy certifies that carrying out a full SLEP of U.S.S. *Kitty Hawk* (CV-63) in the Philadelphia Naval Shipyard in fiscal year 1987 can be done more cost effectively than through alternative means of achieving the same service life extension at other naval shipyards.

The House amendment did not contain a similar restriction.

The certification required by the Senate bill was provided on July 17, 1985.

The Senate recedes.

Prohibition on obligation or expenditure of SCN funds pending receipt of diesel submarine report

The Senate bill contained a provision (sec. 102(f)) that would prohibit the obligation or expenditure of any funds authorized for Shipbuilding and Conversion, Navy in fiscal year 1986 until the Secretary of Defense submits to the Committees on Armed Services of the Senate and House of Representatives the report on U.S. construction of foreign-designed diesel submarines required by the Department of Defense Authorization Act, 1985 (Public Law 98-525).

The House amendment contained no similar provision.

The report has since been received.

The Senate recedes.

Waiver on Limitation of Foreign Military Sales Program

The House amendment contained a provision (sec. 109) that would authorize the transfer of proceeds from foreign military sales of obsolete equipment in the inventory

and finance the replacement of modern equipment.

The Senate bill contained no similar provision.

The House recedes.

Limitation on repayment of construction differential subsidy (CDS) on liquid bulk carriers

Section 1176 of the House amendment would provide that no merchant vessel limited to the foreign trade by virtue of a construction differential subsidy (CDS) restriction could be released from that restriction and be able to enter the domestic trade unless the Secretary of the Navy determines that such release would not reduce the number of militarily useful liquid bulk carriers readily available to the United States in time of war or national emergency.

The Senate bill did not contain a similar provision.

The Senate conferees were adament in their opposition to the House amendment and refused to accept any compromise provision. The Senate conferees noted that the matter is currently being considered by the committees of primary jurisdiction and argued that the resolution should be left to those committees.

The Senate conferees further noted that the provision is opposed by the Department of Defense because it places a subcabinet official, the Secretary of the Navy, in a position to veto actions of the Secretary of Transportation.

The House reluctantly recedes.

TITLE II—RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

General

The Administration requested a total authorization of $39,280,100,000 for fiscal year 1986 Research, Development, Test, and Evaluation (RDT&E) appropriations. The conferees agreed on a total authorization of $35,488,754,000 for the RDT&E program, a reduction of $3,791,346,000 from the Administration's request. The following table summarizes the conference actions:

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION (RDT&E) SUMMARY

[in millions of dollars]

ITEMS OF SPECIAL INTEREST

Advanced anti-tank weapon system—medium

The Administration requested $81.077 million for the Army advanced anti-tank weapon system—medium (AAWS-M). The House amendment would reduce the request to $66.077 million. The Senate bill would reduce the request to $61.077 million

The conferees recognize that there is an urgent requirement to replace the DRAGON anti-tank weapon system in the light divisions/reaction forces on an interim basis while the AAWS-M system is developed. The conferees understand that the Army has decided to test the MILAN 2 as an interim system using funds appropriated in fiscal year 1985.

The conferees agreed to an authorization of $61.077 million for the research and development of AAWS-M. Of the sum provided, $6.0 million may be used to test MILAN 2.

Advanced strategic missile systems

The Senate bill would authorize $173.934 million for the Air Force Advanced Strategic Missile Systems (ASMS), the full amount requested by the Administration. The House amendment would authorize $133.934 million.

In view of Soviet efforts in the area of ballistic missile defense, including their capability to rapidly deploy a territorial AMB defense, the conferees attach high priority to the ASMS program, which is designed to ensure the effectiveness of the U.S. ballistic missile force against such threats. Therefore, the conferees agreed to an authorization of $163.934 million for the ASMS program in fiscal year 1986.

Within the ASMS program, the conferees attach high priority to work being done in the area of active and passive penetration aids for ballistic re-entry vehicles; and the development of maneuvering re-entry vehicles for evasion and accuracy, and their associated penetration aids including those designed to address optical threats.

Advanced surface-to-air missile

The Administration requested $41.510 million for the Navy's Advanced Surface-to-Air Missile (ASAM) program. The Senate bill would authorize the full amount. The House amendment would provide no authorization.

The House conferees expressed concern over the Navy's plan to develop a new surface-to-air missile for the outer air battle. The Navy has committed to the development of an improved A-6 attack aircraft, an improved F-14 and a follow-on aircraft. The synergism between tactical air and the surface fleet has not been fully explored to determine whether a new surface-to-air missile is required or if an improved Standard Missile—SM-III—would be sufficient.

The conferees agreed to an authorization of $25 million to study ASAM alternatives as well as the SM-III. This does not constitute a commitment to develop a new missile at this time.

ASW stand-off weapon

The Administration requested $75.328 million for the anti-submarine warfare stand-off weapon (ASW SOW) program. The Senate bill would provide $50.328 million and the House amendment would authorize the full amount.

In response to a request by the Senate Armed Services Committee, the Secretary of the Navy has provided a written commitment to fund this program so as to achieve the existing date for initial operational capability.

Given this firm commitment by the Navy to fund the program, the conferees agreed to authorize $75.328 million for the submarine ASW SOW.

C-17 aircraft

The Administration requested authorization of $453.681 million for development of the C-17 aircraft.

The Senate bill would authorize $383.681 million, a reduction of $70 million; the House amendment would authorize the full amount.

The Senate conferees maintained that the reduction would have no significant effect on the scheduled date for initial operational capability of the C-17.

The conferees agreed to authorize $383.681 million.

Ceramic rotary valves

The House amendment would include authorization of $300,000 for the development of ceramic elements for rotating valves for use in automotive and combat vehicle propulsion systems.

The Senate bill contained no similar provision.

The conferees are advised that $870,000 will be required to complete the testing of these components during fiscal year 1986.

Accordingly, the conferees require that of the total authorization for Army Research, Development, Test and Evaluation $870,000 be used only for the completion of these tests.

Command and control technology

The Administration requested $28.943 million for Command and Control technology. The Senate bill would authorize $24.443 million for this effort, a $4.5 million reduction. The House amendment would fully authorize the request.

The conferees agreed to the Senate bill level of $24.443 million in authorization with the stipulation that project F21-241, Information Processing, is authorized at the requested level of $8.083 million.

Countermines and barriers

The Administration requested $10.417 million for the Army Countermines and Barriers program.

The Senate bill would provide authorization of $5.617 million; the House amendment would provide $10.917 million, the additional authorization intended for a mine flail system.

The conferees agreed to an authorization of $8 million, of which $500,000 is available only for the conduct of tests and evaluation of mine flail systems that have already been developed by the United Kingdom, the Federal Republic of Germany, France, or any NATO country.

Electric drive

The Administration requested $9.762 million for the Navy's Electric Drive development program. The Senate bill would authorize the full request. The House amendment would provide no authorization.

On July 12, 1985, the Assistant Secretary of the Navy for Shipbuilding and Logistics forwarded a letter to the Chairman of the House Armed Services Committee stating that high power electric drive is an important initiative for future Navy ship programs. According to the Navy, electric drive can significantly reduce ship radiated noise, reduce ship acquisition costs by three percent, life-cycle fuel costs by 16 percent for a destroyer-sized ship, and improve machinery integration in advanced naval ships such as the SWATH (Small Waterplane Area Twin Hull) type.

The conferees agreed to authorize $9.762 million for Electric Drive.

Electronic warfare programs

The Statement of Managers' accompanying H.R. 5167, the Department of Defense Authorization Act, fiscal year 1985, expressed concern with the tri-service electronic warfare programs. This report reflected the opinion of the conferees that better coordination is required among all four services in identifying electronic warfare requirements and the programs required to address them. The conferees requested the Secretary of Defense to require the services to develop a comprehensive coordinated electronic warfare plan and to submit the plan to the Committees on Armed Services of the Senate and the House of Representatives not later than June 15, 1985. Only a draft plan was forwarded to the Congress after June 15 and it is apparent that a lack of proper coordination exists among the services. Some progress has been made but a great deal of work remains in getting the services to better coordinate their requirements and understanding of each others efforts in such promising technologies as the Integrated Electronic Warfare system (INEWS) and the Integrated Communication, Navigation, and Identification, Avionics (ICNIA) programs.

The conferees reiterate the need to complete the electronic warfare plan in a timely manner. The conferees agreed to general reductions of $30 million in electronic warfare programs in the Navy and Air Force. The conferees also agreed to provide authorization of at least $60 million for the INEWS/ICNIA programs for application in advanced tactical fighter and attack aircraft. Section 206(1) requires that $60 million be available only for research, development, test and evaluation of the INEWS/ICNIA systems.

Fleet telecommunications

The Senate bill would provide authorizaton of $50 million for the Navy's Fleet Telecommunications program; the House amendment would reduce the Navy's request for $72.697 million to $32.404 million.

The House amendment would deny authorization for the High Frequency Anti-Jam (HFAJ) program. The House position was based on an assessment that a lack of competition exists for the development of the HFAJ system.

The conferees strongly support the requirement for the HFAJ program. Accordingly, the conferees agreed to an authorization of not more than $25 million for the HFAJ system with the understanding that no funds would be obligated or expended until the following actions are taken by the Secretary of the Navy:

—the management and technical responsibility for the program has been assigned to the Naval Research Laboratory (NRL). The NRL will report directly to the Office of the Assistant Secretary of the Navy for Research, Engineering and Systems on this program.

—a new Request for Proposal (RFP) providing general specifications for the HFAJ system has replaced the existing RFP to ensure an open competition.

—a status report is provided to the Committees on Armed Services of the Senate and the House of Representatives.

The conferees agreed to authorize $16 million for projects other than HFAJ, for a total authorization of $41 million for the Fleet Telecommunications program.

Follow-on basing

The Administration requested $172.2 million for follow-on basing research and development, of which $152.2 million is associated with hard-silo work, and $20.0 million with deep-underground basing. The Senate bill would provide $122.2 million for these activities; the House amendment would provide no funding for these purposes.

The conferees agreed to provide $90.0 million for this program in fiscal year 1986: $70.0 million for hard silo work and $20.0 million for other basing technology. The funding for hard silo research and development is provided to develop a data package on an "austere" hard silo basing option.

The conferees are not satisfied with Air Force estimates of the cost of hard silo options, which they view as too high. By "austere", the conferees have in mind costs well below those presented for hard silo options to date. In this regard, the conferees direct that efforts on "ultra-hard" silos be terminated within the Air Force.

Free-electron lasers for medical research

The Senate bill (sec. 202(1)) and the House amendment (sec. 205(1)) each contained a provision requiring that, of the funds authorized for the Strategic Defense Initiative (SDI) program, $12.5 million be available only for the application of Free-Electron Lasers (FEL) for medical research and associated material support and physical science research.

The conferees strongly support this program but are concerned with the response of the SDI office on this congressional initiative. The Congress authorized and appropriated $10 million for fiscal year 1985 to establish six regional centers throughout the United States and at the Uniformed Services University for the Health Sciences. To date, the Strategic Defense Initiative Organization (SDIO) has been very slow in releasing the appropriated funds. The conferees understand that the SDIO now plans to provide these grants on a competitive basis, and they urge that this be done as expeditiously as possible.

The conferees emphasize the need to pursue this research in an efficient manner and agreed to an authorization of $12.5 million for fiscal year 1986.

Additionally, the conferees expect that the SDI office will assess its capability to effectively manage this program given its other requirements. Should the SDI office conclude that the program could be better managed at another activity and that this agency has the technical competence in free-electron laser and medical research, then the program should be transferred. The conferees expect funding for fiscal year 1987 and beyond to be requested by a more appropriate government activity.

Section 221 provides that $12.5 million is available only for the medical application of free-electron lasers and associated material and physical science research.

Marine Corps assault vehicles

The Administration requested $45.653 million for the Marine Corps Assault Vehicle program.

The Senate bill would provide authorization of $30.653 million; the House amendment would provide $16.802 million, a reduction of $28.851 million, which would delete the LVT-X vehicle as recommended by the Marine Corps.

The conferees agreed to an authorization of $20.802 million of which at least $4 million is available only for research, development and testing of the 75 millimeter multipurpose gun. Of this amount $500,000 is available for the Director of Test and Evaluation to evaluate the 75 millimeter gun system on wheel and track platforms for airbase ground defense and other applications. In the event additional funds are required, the Marine Corps should initiate a request for reprogramming.

Navy undistributed reduction

The House amendment would apply an undistributed reduction against the Navy RDT&E account of $37.5 million. This is the amount provided in past years for the Mark 92 Fire Control System Phase III upgrade program which has been discontinued.

The conferees agreed to reduce the Navy RDT&E account by $37.5 million.

New threat upgrade

The Administration requested $54.034 million for the Navy's New Threat Upgrade development program. The Senate bill would authorize no funds; the House amendment would authorize the full amount.

The Senate bill denied funds because the Navy had not provided a report requested last year explaining how the funds were being used and what funding would be requested in the future. Subsequently, the Navy provided this information in classified correspondence.

The conferees agreed that the program deserved full support, and accordingly agreed to an authorization of $54.034 million.

Range improvement program

The Administration requested $62.166 million for the Air Force Range Improvement program.

The Senate bill would provide authorization for $47.166 million; the House amendment would provide $59.166 million.

The conferees agreed to an authorization of $54 million. The reduction in this program is intended as a general reduction resulting in a constant level of effort from fiscal year 1985. The conferees do not intend that any of this reduction will be ap-

plied to the procurement of the five modular threat emitters as planned by the Air Force for fiscal year 1986.

Rankine cycle energy recovery

In the Senate report (S. Rept. 99-41) accompanying S. 1160, the Department of Defense Authorization Act for fiscal year 1986, the Senate Armed Services Committee expressed doubt that the Navy's Rankine Cycle Energy Recovery (RACER) program will be cost effective if cost thresholds for development or procurement are exceeded.

The conferees agreed that RACER's operational effectiveness and actual costs will be more accurately reflected if the system is tested in a DD-963 class destroyer as soon as possible rather than onboard a civilian ship.

Seafire

The Administration requested $48.717 million for the Navy's Semi-Active Laser-Guided Projectile/Electro-Optic Sensor development program, which included $25.8 million for Seafire. The Senate bill would authorize $22.917 million, which would delete $25.8 million and all funds for development of Seafire. The House amendment would authorize $44.717 million, a reduction of $4 million.

The conferees continue to be concerned about the cost of this system and its worth as compared to other potential improvements of the DDG-51 design. Accordingly, the conferees agreed that the Seafire program should be terminated if the cost per unit exceeds $4 million per unit. The Navy should explore alternatives, in case the price exceeds this threshold.

The conferees agreed to authorize $44.717 million for the SAL-GP/EO Sensor program.

Short range attack missile II

The Administration requested $78.958 million for research and development of the Short Range Attack Missile II (SRAM II) formerly designated the Advanced Air-to-Surface Missile. The Senate bill would authorize $53.958 million. The House amendment would deny all authorization for the program. The conferees agreed to authorize the program at $35 million.

The conferees concur in the requirement to provide a bomber force weapon that will be effective against mobile targets. The conferees require additional information, however, regarding the relationship between this requirement and the characteristics being considered for the SRAM II, particularly supersonic speed, before committing to full scale development.

The conferees also agree with the resource concerns raised by the Senate Armed Services Committee report with respect to this program and concur in the study directed by the Senate. The conferees further direct that the report addressing an austere version of the SRAM II be expanded to include consideration of and justification for SRAM II requirements and associated missile performance characteristics. This report should be provided to the Committees on Armed Services of the Senate and the House of Representatives not later than February 1, 1986.

Submarine research and development programs

The Senate bill would make reductions to several Navy research and development programs which would not adversely effect the SSN-21 new design submarine development program.

The Administration requested $22.414 million for the Submarine Sonar Development (Advanced) program; the Senate bill would provide $12.506 million, a reduction of $9.908 million. The request for Submarine Hull Array Development (Advanced) was $13.206 million; the Senate bill would provide $8.211 million, a reduction of $4.995 million. The request for submarine Tactical Warfare Systems (Engineering) was $49.798 million; the Senate bill would authorize $37.798 million, a reduction of $12 million.

These reductions were necessary to accommodate budget constraints. Accordingly, the conferees accepted the Senate position.

Surface ship navigation system

The Administration requested $2.841 million for the Surface Ship Navigation System development program. The Senate bill would authorize the full request; the House amendment would provide no authorization.

This program is developing ring laser gyroscope technology for use in navigation equipment for naval ships. The technology is already in commercial aviation use and promises to increase reliability and reduce maintenance costs relative to existing equipment in surface ships as well.

The conferees agreed to authorize $2.841 million for the Surface Ship Navigation System program, with the expectation that it will be used only to develop ring laser gypro equipment for shipboard navigation.

Surface ship torpedo defense

The Administration requested $45.199 million for the Surface Ship Torpedo Defense program. The Senate bill would authorize the full request. The House amendment would authorize $40.199 million, a reduction of $5 million.

The conferees have been informed that the Navy is restructuring this program, which will reduce the requirement for funding in fiscal year 1986.

The conferees believe the Navy should emphasize early delivery of interim equipment to the fleet and, accordingly, agreed to an authorization of $40.199 million.

Traffic control/approach/landing system (TRACALS)

The Administration requested $29.517 million for the Air Force Traffic Control/Approach/Landing System (TRACALS).

The Senate bill would recommend authorization of $19.517 million, the House amendment would provide authorization of $21.714 million, a reduction of $7.803 million to terminate the Microwave Landing System (MLS) project.

The Federal Aviation Administration (FAA) has made a substantial effort to obtain a detailed reprocurement data package for the competitive selection of a MLS. Subsequent FAA competitive procurements will include about 200 MLS for Air Force fixed bases. The conferees believe that the Air Force should take full advantage of the FAA effort to satisfy its tactical MLS requirements and should not develop a unique system. The Air Force can save both time and money by this approach and should submit a request to reprogram funds should they be required for the FAA effort.

The conferees agreed to authorize $21.714 million for TRACALS.

Trident II missile

The Administration requested $2,165.615 million for continued research and development for the Trident II missile. The Senate bill would fully authorize the request and the House amendment would reduce the request by $65.615 million. The conferees agreed to authorize the program at $2,130.615 million, a reduction of $35 million from the requested amount.

The conferees further agreed that efforts within the Trident II program to protect the option to accommodate a maneuvering re-entry body and/or penetration aids should continue to receive priority attention, even at the reduced funding levels for the overall program.

Vertical launch system anti-submarine rocket

The Administration requested $37.444 million for the Navy's vertical launch system anti-submarine rocket (VLS ASROC) program. The Senate bill would authorize the full amount. The House amendment would authorize $27.3 million, a reduction of $10.144 million.

The conferees agreed that the VLS ASROC program should be completed so that ships with vertical launch cells will retain an ASROC launch capability.

The Navy stated that the full request must be approved to keep the program on schedule.

The conferees agreed to authorize $37.444 million for VLS ASROC. The House recedes.

PROGRAM LIMITATIONS

LEGISLATIVE PROVISIONS ADOPTED

Civilian pay (sec. 201(b))

The House amendment contained a provision (sec. 201(b)) that would allow for general authorization for civilian pay contingencies.

The Senate bill contained no similar provision.

The Senate recedes.

Reductions in authorization (sec. 202)

The House amendment contained a provision (sec. 207) that would specify certain reductions in authorization due to savings from lower inflation and prior-year cost savings.

The Senate bill contained no similar provision.

The Senate recedes with an amendment.

Transfers to prior-year funds (sec. 203)

The Senate bill contained a provision (sec. 201(f)) that would authorize the transfer of prior year funds to fiscal year 1986 authorization of appropriation.

The House amendment contained a similar provision (sec. 208).

The Senate recedes.

Limitations on funds for the Army (sec. 204)

The conferees adopted the following provisions contained in section 202 of the House amendment:

The provision that would authorize $52.836 million for the Missile/Rocket Components program of which $10 million would be for development for the Fiber Optics Guided Missile and $10 million would be for development of the Hypervelocity Missile.

The provision that would authorize $23.583 million for the stinger Missile program.

The provision that would authorize $18.989 million for the M1 E1 development program of which $15 million would be for a fuel-efficient modification for the AGT-1500 tank engine and that would require a report from the Secretary of the Army delineating a program plan to include total system cost and milestones for the AGT-1500 tank engine modification and a similar plan for the Advanced Integrated Propulsion system.

The provision that would authorize $20 million for the development, test integra-

tion, and evaluation of the Hellfire Missile for the Blackhawk helicopter.

The conferees adopted a modified provision contained in section 201(c) of the Senate bill that would authorize $42 million for the Software Initiative (STARS) program.

Limitation on funds for the Navy (sec. 205)

The conferees adopted the following provisions contained in section 203 of the House amendment:

A modified provision that would authorize $17.5 million for the Low-Cost Anti-Radiation Seeker program and that would require a report from the Secretary of the Navy delineating a program plan to include total system cost and milestones for this seeker program.

A modified provision that would authorize $4.464 million for the Advanced Mine Development program.

The modified provision that would authorize $4 million for unique Wallops Island Test Range activity.

The provision that would authorize $10 million for the Skipper/Practice Bomb program.

The provision that would authorize $1.5 million for a classified sensor development program.

Naval oceanography (sec. 205(a)(3))

The Senate bill contained a provision (sec. 201(b)) that would authorize $5.9 million for a new Navy research and development program to be called Naval Oceanography, which was not in the Administration request.

The House amendment would provide no authorization for this purpose.

The conferees agree with the rationale provided for the program in the Senate report (S. Rept. 99-41).

The conferees agreed to authorize $5.9 million for the Naval Oceanography program. Furthermore, the conferees agreed that any reductions in program elements 65861N (RDT&E) laboratory and facility management support) and 65862N (RDT&E instrumentation and material support) should not be applied against naval oceanographic research activities.

Quick reaction surveillance system (sec. 205(a)(4))

The House amendment contained a provision (sec. 203(5)) that would authorize $12 million for evaluation of the Quick Reaction Surveillance System (QRSS).

The Navy's preliminary tests of the QRSS produced encouraging results. This system could potentially augment the tactical and surveillance towed array sonar systems (TACTAS and SURTASS) at an attractive price.

The conferees agreed to authorize $12 million for lease of Quick Reaction Surveillance System equipment for further evaluation.

Five-inch/155 millimeter guided projectile competition (sec. 205(a)(8))

The House amendment contained a provision (sec. 203(a)(8)) that would authorize $2.5 million in research and development to establish a second source of production for the Navy's five-inch guided projectile and the Army's 155-millimeter guided projectile. These funds were not in the Administration request or the Senate bill.

The House conferees expressed concern that these projectiles are over-priced and believed that over $250 million could be saved through increased competition.

The fiscal year 1984 Department of Defense Authorization Act included language that preserved the option of soliciting a second source for the Navy projectile.

The conferees agreed to authorize $205 million to establish a second source for production of the Navy's five-inch guided projectile and the Army's 155-millimeter guided projectile.

Limitations on funds for the submarine advanced combat system (sec. 205(c))

The Administration requested $205.205 million for the Submarine Advanced Combat System (SUBACS) development program. The Senate bill would authorize the requested amount. The House amendment contained a provision (sec. 203(4)) that would authorize no funds for SUBACS but would authorize $190 million for a new program called the SSN-21 Combat System.

SUBACS has encountered cost, schedule and performance problems. The Navy projected that several hundreds of millions of dollars in increased development and procurement costs would accrue during the next decade if the original plan was pursued. In a move to reduce unnecessary costs and retain expected performance, the Navy has restructured the SUBACS program. The projected cost growth for development of SUBACS Basic is now approximately $100 million.

The conferees expect the Navy to take necessary action to cap the cost to complete development of the modified SUBACS and to preclude the prime contractor from using procurement contracts to recoup further cost growth. If the Navy is unable to achieve this, then development of the modified SUBACS Basic program should not be funded.

The conferees agreed to authorize $200 million for the SSN-21 Combat System (advanced and engineering) program. This authorization may be used for completion of the modified SUBACS Basic program only after complying with the restrictions stated in the bill. Additionally, the conferees agreed that authorization provided for the SSN-21 Combat System program in fiscal year 1986 may be used for Project X1411 Attack Submarine Integrated Communication which was included in program element 64524N but which was separate from the SUBACS project.

Rolling airframe missile (sec. 205(d))

The Administration requested authorization for the 5" Rolling Airframe Missile (RAM) in two programs: $10.948 million for the Rolling Airframe Missile development program, and $8.047 million for NATO Sea Sparrow for the modification of the NATO Sea Sparrow shipboard launcher to accommodate RAM. The Senate bill would authorize $3.948 million for RAM development, a reduction of $7 million, and $3.047 million for NATO Sea Sparrow; the House amendment provided no authorization for either program.

The RAM program has incurred significant cost growth, largely as a consequence of reliability problems during developmental testing. The Navy stated its intention to request reprogramming of up to $39 million in fiscal year 1985 for RAM development. Moreover, none of the 30 missiles authorized in the weapons procurement account in 1985 will be purchased, and considerably fewer than the 117 missiles requested will be procured in 1986.

The conferees agreed to authorize $3.948 million for RAM development and $3.047 million for the NATO Sea Sparrow program; however, neither this authorization nor the authorization to procure rolling airframe missiles in the Navy weapons procurement account may be obligated or expended until the Secretary of the Navy complies with the restrictions stated in section 205(d) of the bill.

Acquisition of antisubmarine warfare (ASW) training systems (sec. 205(e))

Section 1208 of the House amendment would make available $6.8 million of the amount appropriated pursuant to the authorization for Research, Development, Test and Evaluation, Navy, only for the purchase of three service test models of the LAMPS MK-1 ASW shipboard training system for the Naval Reserve.

The Senate bill did not contain a similar provision.

The conferees agreed on the need for improved ASW training systems for the Naval Reserve and that such systems should be procured in a completely competitive and in the most cost-effective manner. Accordingly, the conferees agreed to include a provision directing the Secretary of the Navy to initiate a competitive procurement of three service test models of a LAMPS MK-1 ASW shipboard training system for the Naval Reserve. The provision specifies that $6.8 million of the RDT&E, Navy funds appropriated pursuant to the authorization in this Act may not be obligated before such procurement.

The Senate recedes with an amendment requiring competitive procurement.

Limitation on funds for the Air Force (sec. 206)

The conferees adopted the following provision contained in section 204 of the House amendment.

The provision that would authorize $60 million for RDT&E for the Integrated Electronic Warfare System and the Integrated Communication, Navigation, and Identification Avionics System.

A modified provision that would authorize $22 million for the RDT&E to modify Air Force F-4 air defense aircraft.

The provision that would authorize $19.57 million for a classified reconnaissance system.

A modified provision contained in section 202(5) of the House amendment that would authorize $15 million for the Pave Tiger system.

The Senate bill contained a provision (sec. 201(d)(1)) that would authorize $193.8 million for the Very High Speed Integrated circuits (VHSIC) program. The House amendment (sec. 204(4)) would authorize $223.8 million for this program. The conferees agreed to authorize $211.276 million for VHSIC.

The conferees adopted a provision contained in the Senate bill (sec. 201(d)(2)) that would authorize $11.742 million for the Software Engineering Institute.

Limitation on funds for the Defense Agencies (sec. 207)

The conferees adopted the following provisions contained in section 205 of the House amendment:

A modified provision that would authorize $300 million for the Joint Advanced Systems program. Details on this provision are contained in the classified annex.

The provision that would authorize $1 million to conduct a demonstration of advanced clothing manufacturing technology.

The provision that would authorize $500 thousand for the Military Sewn Products Automation Program.

The conferees adopted the provision contained in section 201(e) of the Senate bill that would authorize $142 million for the Strategic Computing Initiative.

University research initiative (sec. 207(a)(2))

The Senate bill would fully authorize the Administration's request of $25 million for university research. The Senate bill also contained a provision (sec. 202(2)) that would authorize not less than $1 million of the total authorization for University Research to programs at Syracuse University. The House amendment contained a provision (sec. 205(4)) that would authorize $181.25 million for the University Research Initiative program under Defense Agencies and $18.75 million under the other three service accounts for a total authorization of $200 million.

The conferees strongly endorse the purpose of this initiative, which includes providing fellowship aid in the scientific and technical disciplines, and modernizing the scientific equipment and instrumentation at our universities. The conferees do not believe, however, that the Department of Defense should bear the total, or even majority, burden of this initiative. To this end, the conferees direct that no funds in this Act be obligated for this purpose until the Administration provides to the Armed Services Committees of the Senate and House of Representatives a report stating the resource commitment of non-DOD agencies to this initiative and 15 calendar days have elapsed. Furthermore, the conferees believe that the Administration, and not the Congress, should be taking the lead on this national program, which is understood to be a level of effort of three years duration. Accordingly, the Administration is to ensure that the requisite level of funding for these purposes be included in the budget submissions of the Department of Defense and other appropriate agencies.

The conferees agreed to a provision in the Senate bill directing that $1 million of the University Research funds for the Defense Agencies be spent at the Syracuse University because of the special capabilities resident at that institution. The conferees do not consider or intend this action to establish a precedent with regard to the allocation of University Research funds, which the conferees intend to be awarded on the basis of merit following competitive procedures.

Limitation of funds for the joint tactical information distribution system (sec. 207(b))

The Senate bill would authorize $184.6 million for the Navy and $91.7 million for the Air Force for the development of discrete but interoperable Joint Tactical Information Distribution System (JTIDS) programs.

The House amendment would provide no authorization for either service but would authorize $150 million for the Defense Agencies to develop a common JTIDS. Additionally, the House amendment contained a statutory provision in section 205(2) that would require the authorization to be used only for this purpose.

The conferees agreed to an authorization of $200 million for the development of the Joint Tactical Information Distribution System (JTIDS). Currently both the Air Force and Navy are developing JTIDS systems that are interoperable but not common. According to the Department of Defense, differences in operational requirements between the Air Force and Navy justify the development of two separate systems.

The conferees believe that communications equipment interoperability among the services (and NATO) must be maintained. No equipment should be developed to meet the peculiar needs of any one service if that equipment ultimately diminishes the ability of all the services to interoperate. Furthermore, wherever the operation requirements of the services are substantially similar every reasonable effort should be made to achieve commonality in the development and procurement of system components.

The conferees agree that, if feasible and practicable, the services should be equipped with common JTIDS equipment. The Secretary of Defense is, therefore, directed to review the current Navy and Air Force JTIDS programs and select one for use by both services if he determines that such a selection is both feasible and practicable. In making this determination, the Secretary shall take into full account the essential military requirements of all services.

Of the funds authorized for the research and development of JTIDS, the conferees agreed that none shall be obligated or expended until the Secretary of Defense reports his decision to the Committees on Armed Services of the Senate and House of Representatives.

Notwithstanding the Secretary's decision (whether to continue one program or two), should any approved plan be developed that would modify the JTIDS equipment of any service in a way that would diminish interoperability, the Secretary shall immediately notify the Committees on Armed Services of the Senate and House of Representatives.

Limitation on testing of antisatellite weapons (sec. 20)

The Senate bill contained a provision (sec. 952) that would restrict the F-15 launched Miniature Homing Vehicle (MHV) Antisatellite (ASAT) System to three tests against an object in space following a Presidential certification as specified in Public Law 98-473 (98 Stat. 1941) unless the President provided the same certification prior to a fourth test of the system. Subject to these certifications, the Senate bill contained no limitation on the number of such tests that could be conducted. The House amendment contained a provision (sec. 213) that would deny authorization for any test of this system against an object in space unless the Soviet Union conducts another test of a dedicated antisatellite system against an object in space. The House amendment would also provide for $20 million in additional authorization for the Air Force Space Survivability program.

The conferees agreed to limit the number of tests of the U.S. MHV ASAT system against an object in space to three through the end of fiscal year 1986 following the Presidential certification. The conferees also agreed to authorize $16.1 million for the Space Survivability program of which $15 million is for the Satellite Survivability project.

Small Intercontinental Ballistic Missile (SICBM) Program (sec. 209)

The Senate bill contained a provision (sec. 203) that would require that, before any decision may be made by the Administration with regard to the full scale development of a SICBM, the Secretary of the Air Force shall prepare and submit to Congress a legislative environmental impact statement.

The House amendment contained a provision (sec. 204(5)) that would authorize an additional $150 million to carry out the RDT&E for the SICBM program. Section 211 of the House amendment would direct that a "Brick-Bat" priority continue for this program.

The conferees recommend that $100 million be added to the R&D program requested by the Administration. The conferees commend the Air Force for a well conceived and executed advanced development program that has been characterized by competition and by multiple approaches to the resolution of critical technical and cost uncertainties.

The conferees strongly support the concept of missile mobility and substantial decreases in throw weight in the interest of stability. The conferees require more information, however, about the extent to which the existing legislative weight constraint on the small ICBM has resulted in tradeoffs affecting payload or other features of the missile that relate to its military effectiveness, survivability or costs.

To enable the Armed Services Committees to address these matters fully, the conferees direct the Secretary of Defense to submit to the Committees on Armed Services of the Senate and House of Representatives by October 1, 1985, the report requested by the Senate Armed Services Committee. This report should address as well additional issues raised by the General Accounting Office report of July 8, 1985 on the Status of the ICBM Modernization Program.

The conferees further direct that an independent review of small missile and basing options be conducted by the Defense Science Board. The results of this review should be provided to the Committees on Armed Services of the Senate and House of Representatives prior to submission of the fiscal year 1987 defense budget.

The conferees recommend that a vigorous research program be conducted before the start of full scale development to resolve the technical issues, so that the Congress will have a basis to consider fully both the technical issues and broader policy matters raised by the small ICBM program.

In the interest of expediting the evaluation of environmental impacts so that the earliest possible initial operational capability for the small ICBM can be achieved, the conferees for the fiscal year 1985 Defense Authorization Act directed that a legislative environmental impact statement be prepared to address the peacetime environmental impacts of alternate basing modes and deployment areas. Section 209(c) of the fiscal year 1986 Defense Authorization Act provides statutory language to that same end.

Limitation of funds for the advanced medium-range air-to-air missile program (sec. 210)

The Administration requested $101.382 million for the Air Force and $17.051 million for the Navy for the research, development, test and evaluation of the Advanced Medium-Range Air-to-Air Missile (AMRAAM) program. The Senate bill would authorize $101.382 million for this program fully funding the Air Force request and reducing the Navy request to $9.0 million. The House amendment would deny all authorization.

The conferees seriously considered termination of the AMRAAM program. Development problems and cost increases have reduced the cost-effectiveness of the AMRAAM program to the point where any

further increase in cost will justify termination of the program.

The conferees agreed to continue development of AMRAAM, authorizing $5 million for the Navy and $101.382 million for the Air Force, and to provide sufficient procurement funds to qualify an alternative manufacturer and institute producibility improvements for the missile. Section 210 to Title II would require the Secretary of Defense to certify that a fixed price type research and development contract has been signed with the developing contractor, and procurement costs of the program are capped. The Air Force is prohibited from obligating any of the procurement funds and $54.4 million of the R&D funds until the Secretary makes the required certification, which must occur by March 1, 1986. If certification is not received by that date, the entire program is terminated.

In addition, the conferees decided to provide $25 million to the Navy to begin development of a modified AIM-7 Sparrow missile with tail controls. The AIM-7 Tail Control missile program will provide an alternative to meet this critical mission requirement should AMRAAM be terminated. The conferees stress that AMRAAM remains a joint program between the Air Force and the Navy, and cautions the Navy that the Tail Control AIM-7 is not a substitute for continued Navy participation in AMRAAM.

Limitation on unspecified R&D funds pending HARM certification (sec. 211)

The Administration requested $258.0 million for the procurement of 904 High-Speed Anti-Radiation Missile (HARM) missiles for the Navy and $478.1 million for the procurement of 1,715 missiles for the Air Force. The Senate bill would authorize the amounts requested, the House amendment would reduce the Air Force request by $52.4 million. The conferees agreed to the authorization levels in the Senate bill.

The House bill also contained a provision (sec. 206) that would require various certifications from the Secretaries of the Navy and Air Force dealing with the missile's performance and production configuration compliance with the current technical data package. In recognition of the vital contribution made by the HARM missile to the survivability of our tactical air forces and the importance of ensuring the missile is capable of defeating all anticipated threat systems, the Senate conferees agreed to accept the House provisions.

The conferees note that one of the House provisions, requiring the tear down of a production missile to ensure compliance with the technical data package, has been completed though the official report has not been delivered to the committees. The preliminary findings of this effort are highly favorable and indicate no instances of noncompliance with the approved hardware and software design and no undocumented hardware or software changes, and revealed no critical deficiencies (i.e. instances of hardware or software nonconformance which would have led to missile failure). Furthermore, the auditing team rated the manufacturer's quality assurance procedures as "Excellent".

The missile audit did determine that discrepancies in the government's engineering drawings exist but that missiles are being constructed in accordance with the manufacturer's drawings which are complete. The conferees agreed that all necessary steps to update the government's drawings should be taken.

The conferees agreed to restrict the expenditure of $100 million of unspecified Navy R&D funds and $50 million of unspecified Air Force R&D funds until the Secretaries of the Navy and Air Force provide the requested certifications.

LEGISLATIVE PROVISIONS NOT ADOPTED

Standard missile improvement

The House amendment contained a provision (sec. 203(3)) to authorize $60 million for Standard Missile Improvements.

The Senate bill contained no similar provision.

The conferees agreed to authorize $47.185 million for this program with no language in the conference report.

The House recedes.

Munitions lift trailer

The Senate bill would provide authorization to release $3.8 million in prior year funds to initiate full scale development of the Simplified Munition Lift Trailer (SMLT) and contained a provision (sec. 205) that would require that these funds be used for this purpose. The House amendment contained no similar provision.

The Senate recedes.

STRATEGIC DEFENSE INITIATIVE

LEGISLATIVE PROVISION ADOPTED

Strategic Defense Initiative funding (sec. 221)

The Administration requested $3.72 billion for the Strategic Defense Initiative (SDI) program. The Senate bill would provide $2.97 billion; the House amendment (sec. 205(1)) would provide $2.50 billion with specific reductions allocated against each of the five major program elements.

The conferees continue to be strongly supportive of a vigorous research effort under the President's Strategic Defense Initiative, with its goal of determining the feasibility of developing strategic defenses for the United States and its allies. Therefore, the conferees recommend an authorization of $2.75 billion in fiscal year 1986, with the allocation left to the discretion of the SDI program manager.

The conferees expressed a number of concerns about the SDI program as presented to the Congress this year. These concerns fall into three broad categories: (1) the apparent disparity between the evolving Administration policy with respect to strategic defense and the focus and scope of the SDI program; (2) the role of limited defenses in the program and the relationship between these technologies and the more advanced technologies being pursued; and (3) the relationship between the SDI technology program and U.S. arms control policy.

In the first category, the conferees would like the Administration to clarify what the main elements of an effective SDI would be and what specific technologies are likely to comprise such a system if a decision is made to develop and deploy it. The conferees would like information on the level of technological capability available in these technologies today, as well as the levels that would be required in order for a system comprised of these technologies to be effective and the plans the Administration has for overcoming these differences.

In the second category, the conferees question whether adequate emphasis is being given within the SDIO to near-term options. The conferees would like information on efforts underway on near-term options for defending U.S. strategic forces and whether they are necessary as a hedge against Soviet ABM activities and as a possible response to continued growth in Soviet offensive forces. In addition, the conferees would like information on the plans for defending against the Warsaw Pact's tactical and theater ballistic missiles armed with conventional, chemical or nuclear warheads. In general, the conferees desire information on the relative balance between the funding requirements and technology challenges associated with comprehensive defenses and those associated with near-term options.

In the final category, the conferees would like information on how the Administration has structured the SDI program to ensure that it is in full compliance with all U.S. arms control obligations. For example, the conferees desire to examine how the Administration has distinguished between permitted "research", and prohibited "development", and the ways in which planned technology demonstrations are to be conducted in a manner consistent with this distinction.

The conferees expect these concerns to be addressed by the appropriate Administration officials when the fiscal year 1987 defense budget request is presented to the Congress.

The conferees are also concerned that the structure and organization of the SDI Organization (SDIO) may not be optimally suited for an aggressive research and technology program. For example, the current relationship between the services and the SDIO does not appear to provide for the smooth and efficient management of the program. The SDIO apparently lacks the leverage necessary to manage the program effectively and requires more control of its budget.

The Defensive Technologies Study Team, chaired by Dr. James Fletcher, made the following recommendations regarding the management of the SDI program. "It is considered essential that the program be managed by a director who has responsibility for its execution and the authority and funds to do the job. The director must have direct control of the funds required, flexibility in the allocation of the funds and accountability for the outcome. He must have his own budget and have contracting authority."

Requirement for deployment (sec. 222)

The Senate bill contained a provision (sec. 916) that would require certain Presidential certifications prior to any deployment of an SDI system.

The House amendment contained no similar provision.

The conferees do not intend this provision to apply to individual systems, which might be components of a future strategic ballistic missile defense system, but whose primary purpose is not strategic defense related at the time of deployment. For example, an improved missile warning system, intended as a replacement of the existing system, would not be covered by this provision.

The House recedes.

Report in potential responses (sec. 223)

The House amendment contained a provision (sec. 210) that would require a report from the Secretary of Defense on probable enemy responses to an SDI deployment and cost estimates for the RDT&E, procurement, and deployment of SDI systems.

The Senate bill contained no similar provision.

The Senate recedes with an amendment.

Consultation with NATO (sec. 224)

The Senate bill contained a provision (sec. 957) that would urge the President to con-

tinue consultations with member nations of NATO in the SDI program.

The House amendment contained a similar provision (sec. 212).

The conferees agreed to adopt a modified version of the Senate provision. The House recedes with an amendment.

The conferees share the concerns about the transfer of sensitive technology contained in the House provision and consider the spirit of these concerns to be incorporated in the agreed language "within applicable United States national security guidelines".

Congressional expression on ABM treaty (sec. 225)

The Senate bill contained a provision (sec. 913) that would express full support for the Anti-Ballistic Missile (ABM) treaty of 1972 and that funding of the SDI program in no way implies a move to contravene this treaty.

The House amendment contained a provision (sec. 214) that would deny authorization for any SDI advanced development, demonstration, test, or evaluation of the use of weapons powered by nuclear explosions in space in a manner inconsistent with existing treaties.

The conferees agreed to adopt a modified provision that included the Senate bill provision and incorporated the language on the other treaties specified in the House amendment.

Report on strategic and theater ballistic missile defenses (sec. 226)

The House amendment contained a provision (sec. 1130) that would require the Secretary of Defense to conduct a study of early application of defenses against ballistic missile attacks on United States and allied high valued assets.

The Senate bill contained no similar provision.

The Senate recedes with an amendment.

LEGISLATIVE PROVISIONS NOT ADOPTED

Limitations on funding for AMRRC

The Senate bill contained a provision (sec. 202(1)) that would fence $9 million within the SDI for the Hardened Ballistic Missile Defense Materials Program, managed by the Army Materials and Mechanics Research Center (AMRRC). The conferees continue to support exploratory research in the area of strategic missile materials, particularly those areas which are required for effective defense against Soviet ballistic missiles. The Senate receded on this provision with the understanding that work on thermal protection systems, stiffened structural materials, and optical sensor materials under the Hardened Ballistic Missile Defense Materials Program will be funded as a minimum at the same level of effort as performed in fiscal year 1985.

Strategic defense initiative (SDI) impact studies

The Senate bill contained two provisions (sec. 954 and 955) that would have required studies of the impact that projected expenditures for SDI programs would have on research and development efforts for other government and civilian sectors of the economy.

The House amendment contained no similar provision.

The conferees are aware that a similar study is being performed by the House Appropriation Committee.

The Senate recedes.

SDI oversight commission

Section 1120 of the House amendment would direct the establishment of a Congressional Commission to monitor the progress of the Strategic Defense Initiative (SDI) program.

A similar provision was rejected by the Senate during debate of the Senate bill. The Senate Armed Services Committee agreed during the debate to appoint a limited number of advisors to provide the committee with a view, independent of that of the Executive branch, of the SDI program.

The conferees agreed that the Committees on Armed Services of the Senate and House of Representatives would separately appoint advisors to provide the respective committees with independent views of the SDI program.

The House recedes.

Presidential SDI commission

The House amendment contained provisions (sec. 1151-1158) that would establish a Presidential Stategic Defense Initiative Commission. This provision contained guidelines for the membership and staff of the Commission, required that it report to the Congress six months after enactment of this act, and directed that it would cease to exist after submission of its final report.

The Senate bill contained no similar provision.

The conferees are aware of Administration plans establishing an advisory commission to provide independent assessments of the SDI program. The Secretary of Defense is directed to provide the Committees on Armed Services of the Senate and House of Representatives with access to this commission through formal hearings and by providing the committees with the results of the Commission's work.

The House recedes.

TITLE III—OPERATION AND MAINTENANCE

OVERVIEW

ITEM OF SPECIAL INTEREST

Restoration of proposed five percent reduction in civilian pay

The Senate bill would authorize $768.2 million for the partial restoration of the Administration's proposed five percent reduction in civilian pay for fiscal year 1986. The Senate figure was derived by taking the Department of Defense budget reduction number associated with the five percent civilian pay reduction of $1,058.9 million and directing a pay absorption of $290.7 million.

The House amendment contained no specific authorization for this purpose, but included a general authorization in section 301(b) for such sums as may be necessary in the event Congress acts to restore the Administration's proposed five percent cut in civilian pay as reflected in the budget request.

The conferees agreed to an authorization of $1,054.5 million for the restoration of the Administration's five percent cut in civilian pay in fiscal year 1986 funded within the operation and maintenance budget request.

The House recedes with amendment.

Family programs

The House amendment included a reduction of $10 million in the Army's Family Action Program.

The Senate bill contained no similar reduction.

The conferees agreed that the reduction could be allocated to all family programs rather than to only the Family Action Program.

The Senate recedes.

Additional authorization for the Army National Guard

The House amendment included $33 million in additional authorization for the following three initiatives designed to improve the Army National Guard's ability to support increased full time-manning and civilian technician requirements.

First, $20 million was authorized to provide Federal funding for armory operational costs (including utilities, and communications costs) for the support of full-time National Guard personnel who are paid by the Federal government and whose function is to increase the mobilization capability and readiness of the Army National Guard.

Second, $6 million was authorized for full Federal funding for modification and repair of offices and/or other work space required in National Guard armories to accommodate full-time National Guard personnel.

Lastly, $7 million was authorized to provide partial Federal funding for major repair costs at National Guard armories, such as heating system repair and renovation and roof repair.

The Senate bill contained no similar authorization.

The conferees agreed to authorize $4 million for Federal funding of armory operational costs and $1 million each for Federal funding for armory modification and repair, and partial Federal funding for major repair costs. The conferees also agreed to a provision that would authorize, in addition to the amounts otherwise authorized, such additional funds as necessary for the above initiatives to increase the Army National Guard's support for increased full-time personnel.

The Senate recedes with amendments.

Navy stock fund

The Senate bill authorized $638 million for the Navy Stock Fund, which was $78 million below the President's request.

The House amendment authorized $681.5 million for the Navy Stock Fund.

The conferees endorse the Senate report language directing that $59 million of the amount authorized for the Navy Stock Fund be utilized to procure and provide for retail supplies on a unit basis to outfit the Reserve Naval Construction Force.

The House recedes.

LEGISLATIVE PROVISIONS

LEGISLATIVE PROVISIONS ADOPTED

General authorization of appropriations for pay raises, fuel costs, and inflation adjustments (sec. 301(d))

The Senate bill contained a provision (sec. 302) to authorize additional appropriations as may be necessary for increases in salary, pay, retirement and other employee benefits authorized by law for Department of Defense civilian employees, and unbudgeted increases in costs associated with inflation and the price of fuel.

The House amendment contained a similar provision (sec. 301(b)). The House provision differed in that it did not authorize a civilian pay raise, but included a general authorization for "unbudgeted amounts for salary, pay, retirement, and other employee benefits authorized by law for Department of Defense civilian employees" in the event that Congress acts to restore the proposed five percent pay reduction for civilian employees of the Department of Defense.

The Senate recedes.

Limitation on the use of O&M funds to purchase investment items (sec. 303)

The Senate bill reflected a Department of Defense proposal that would redefine the investment and expense criteria. The proposal would eliminate the current $3,000 expense ceiling and permit all non-centrally managed equipment to be procured with operation and maintenance funds. Accordingly, the Senate operation and maintenance authorization contained $429.7 million to purchase the non-centrally managed items associated with this proposal.

The House amendment rejected the proposed change in the expense and investment criteria and contained a provision (sec. 303) that would prohibit the use of operation and maintenance funding in fiscal year 1986 to purchase expense items of equipment if the price of the item is $3,000 or more. In addition, the House amendment reflected the transfer of $429.7 million to the other procurement accounts to purchase non-centrally managed items costing more than $3,000.

The conferees agreed to raise the expense ceiling to $5,000 and to authorize $100 million in the operation and maintenance accounts to purchase additional expense items resulting from this change. The conferees would also encourage the Department of Defense to submit an in-depth study regarding the need for further changes in the expense and investment critieria. Such a study should include a proposed new dollar threshold, the number of non-centrally managed items valued at more than $5,000 expected to be procured with operation and maintenance funds under the proposed criteria by each service and defense agency, along with their associated dollar value. The study should also include discussion of options involving changes in procurement procedures that would increase the flexibility of installation commander to purchase non-centrally managed items.

The Senate recedes with amendments.

Support for Pan American games (sec. 304)

Section 305 of the Senate bill provided that $25 million of funds otherwise authorized to be appropriated could be used for Department of Defense support of the Pan American Games. Section 304 of the House amendment authorized $10 million in new obligation authority and required extensive justification for such expenditures.

The House recedes to the Senate with an amendment providing for $10 million in new obligation authority.

Transportation for humanitarian relief purposes (sec. 305 and 306)

The House amendment contained a provision (sec. 1105) that would authorize the appropriation of $10 million for the purpose of transporting nonlethal assistance to persons displaced or made refugees by the Soviet invasion of Afghanistan. The Senate bill contained no similar provision but did contain a provision (sec. 911) that would provide an extension and expansion of the authority of the Secretary of Defense to transport humanitarian relief, on a space-available basis, worldwide.

The conferees agreed that humanitarian relief measures for the Afghan refugees, including transportation of individuals for medical treatment, were worthy of support. However, the conferees also agreed that the distribution of humanitarian relief was the responsibility of the Department of State and that the conferees did not want to create a new foreign aid or refugee assistance program within the Department of Defense. Therefore, the Senate receded to the House provision with an amendment (sec. 305) that transportation for humanitarian relief purposes is to be provided under the direction of the Department of State. Nonetheless, the conferees were distressed at reports that the Department of State has been slow in distributing humanitarian supplies to the Afghan refugees and, therefore, urged that the Department of State redouble its efforts to provide assistance as rapidly as possible.

The House receded to the Senate provision on section 911.

Limitation concerning Air National Guard and Air Force reserve flying units (sec. 307)

The House amendment contained a provision (sec. 310) that would limit the use of funds to deactivate, or divest of its flying mission, Air Force reserve component flying units.

The Senate bill contained no similar provision.

The Senate recedes with an amendment permitting the use of funds for those purposes only following 60 days written notice to the Committees on Armed Services of the Senate and the House of Representatives.

Commissary and exchange privileges for survivors of certain reservists (sec. 308)

The House amendment contained a provision (sec. 307) that would allow the Secretary of Defense to authorize dependents of reservists who die on active duty to use commissaries and exchanges on the same basis as dependents of other members of the uniformed services who die while on active duty.

The Senate bill contained no similar provision.

The Senate recedes.

LEGISLATIVE PROVISIONS NOT ADOPTED

Authorization for members of the Selected Reserve to have limited use of commissary services

The Senate bill contained a provision (sec. 534) that would authorize members of Selected Reserve components to use military commissary stores for a number of days each year equal to the number of days a member is on active duty.

The House amendment contained no similar provision.

The Senate recedes.

Reductions in authorization due to savings from cost savings

The House amendment contained a provision (sec. 308) specifying reductions in authorization due to cost savings identified by the Secretary of Defense after the House bill had been reported from committee. Section 308 also provided that all such reductions be applied as cost savings and without changing the quantity or quality of goods acquired by the Department of Defense.

The Senate bill contained no similar provision.

The House recedes.

TITLE IV—PERSONNEL AUTHORIZATIONS

PART A—ACTIVE FORCES

ACTIVE FORCES END STRENGTH

Active duty military strengths for the Marine Corps and the Air Force in the Senate bill and the House amendment differed by a total of 2,730. The conference agreement, 10,730 below the Administration's request, is summarized in the following table.

Active Forces	Administration request	House	Senate	Conference
Army	780,800	780,800	780,800	780,800
Navy	586,300	581,300	581,300	581,300
Marine Corps	199,500	199,500	198,800	198,800
Air Force	611,500	608,500	606,470	606,470
Total	2,178,100	2,170,100	2,167,370	2,167,370

PART B—RESERVE FORCES

RESERVE FORCES STRENGTH

Selected Reserve strength (sec. 411)

The Senate bill reduced the Administration's request for average strength for the Army National Guard, the Army Reserve, the Naval Reserve, the Marine Corps Reserve, the Air National Guard, and the Air Force Reserve by a total of 12,866. The House amendment reduced the Administration's request for the Army National Guard and the Army Reserve by a total of 2,672.

The conference agreement is summarized in the following table:

Reserve Forces	Administration request	House	Senate	Conference
Army National Guard	444,000	441,882	438,434	440,025
Army Reserve	291,900	291,346	288,830	290,639
Naval Reserve	134,400	134,400	131,270	134,212
Marine Corps Reserve	41,900	41,900	41,760	41,900
Air National Guard	108,700	108,700	107,950	108,700
Air Force Reserve	75,600	75,600	75,390	75,600
Coast Guard Reserve	12,500	12,500	12,500	12,500
Total	1,109,000	1,106,328	1,096,134	1,103,576

Full-time support (sec. 412)

The Senate bill froze full-time manning for all the reserve components at fiscal year 1985 levels, reducing the Administration's request for full-time support by 19,588. The House amendment reduced the Administration's request for full-time strength levels of the Army National Guard and the Army Reserve by a total of 4,900.

The conference agreement is summarized in the following table:

Full-time support	Administration request	House	Senate	Conference
Army National Guard	30,679	26,879	20,583	23,731
Army Reserve	14,714	13,614	10,700	12,157
Naval Reserve	19,510	19,510	15,210	19,010
Marine Corps Reserve	1,475	1,475	1,129	1,475
Air National Guard	7,269	7,269	6,469	7,629
Air Force Reserve	635	635	603	635
Total	74,282	69,382	54,694	64,277

The conferees remain concerned about the assignment and utilization of full-time active duty guardsmen and reservists in support of national guard and reserve units and headquarters. The conferees are concerned that the compensation and benefit program available to full-time reserve and guard members is virtually identical to that available to active duty personnel, despite the different conditions of service between these two groups. During the coming year, the conferees intend to review the full range of issues involving the question of full-time manning for the reserve components, including whether the full-time support should be provided by active duty personnel.

LEGISLATIVE PROVISIONS ADOPTED

Increase in number of certain personnel authorized to be on active duty in support of the reserve components (sec. 413)

In conjunction with the overall increases in full-time support, the Administration requested increases in the number of such personnel in the senior enlisted and officer grades.

The House amendment reduced the requested level consistent with reductions made in full-time manning. The Senate bill provided no increase.

The Senate recedes with an amendment reducing the level to reflect the reductions in full-time manning contained in section 412.

PART C—MILITARY TRAINING

MILITARY STUDENT TRAINING LOADS

The Senate bill contained a provision that would authorize 234 fewer personnel in the Air National Guard military student training load and 234 more personnel in the Air Force Reserve military student training load than the House amendment.

The House recedes.

LEGISLATIVE PROVISIONS NOT ADOPTED

Eligibility of certain aliens for junior reserve officers' training corps

The House amendment contained a provision (sec. 535) that would authorize permanent residents and other legal aliens of a permanent nature to count toward establishing and maintaining the minimum enrollment standards for junior reserve officers' corps units and that would provide such persons with uniforms and equipment at government expense.

The Senate bill contained no similar provision.

The House recedes.

TITLE V—DEFENSE PERSONNEL POLICY

PART A—CIVILIAN PERSONNEL

LEGISLATIVE PROVISIONS ADOPTED

Civilian personnel end strength for fiscal year 1986 (sec. 501 and sec. 502)

The Senate bill contained a provision (sec. 421) that would authorize a fiscal year 1986 end strength for the Department of Defense civilian personnel of 1,065,970. In addition, the Senate bill reduced the Department of Defense operation and maintenance request by $432.0 million in accordance with the above reduction in the civilian personnel request.

The House amendment contained two provisions relating to the management of civilian personnel within the Department of Defense. Section 501 waived the requirement for a statutory civilian personnel end strength authorization for fiscal year 1986. Section 502 prohibits the management of Department of Defense civilian personnel by end strength constraints.

The Senate bill contained no similar provisions.

The Senate recedes on the fiscal year 1986 civilian personnel ceiling.

With respect to managing through end strength, the Senate recedes with an amendment limiting the prohibition to fiscal year 1986. The conferees direct that the Department of Defense submit to Congress quarterly reports to the House and Senate Armed Services Committees showing the execution of the funds authorized and appropriated for Department of Defense civilian personnel in fiscal year 1986. This report shall show:

(1) by service and appropriation account the amounts authorized and appropriated for Department of Defense civilian pesonnel for fiscal year 1986;

(2) the actual number of Department of Defense civilians and dollar obligations for civilian personnel overall and by appropriation account as of the end of that quarter; and

(3) the projected number and dollar obligations for Department of Defense civilian personnel by appropriation account through the remainder of the fiscal year, and the projected number of civilian personnel and dollar obligations for the entire fiscal year as of the end of that quarter.

The conferees also agreed to require reports from the Department of Defense and Office of Management and Budget not later than February 1, 1986 on the experience of the Department of Defense during fiscal year 1985 and 1986 (to the date of the report) concerning the management of the Department of Defense civilian workforce without a congressionally imposed civilian end strength. Each report shall also include the views of the Secretary of Defense or the Director of the Office of Management and Budget, as appropriate, with respect to the desirability of managing such personnel in such manner.

The conferees agreed to reduce the operation and maintenance accounts by $296.9 million with the understanding that such a reduction is not to be associated with civilian end strength, but a general productivity target reduction to encourage better management of civilian personnel and other resources within the Department of Defense.

Exercise of certain authorities relating to civilian employees of the Department of Defense (sec. 503)

The House amendment contained a provision (section 1201) that would authorize the Secretary of Defense, for purposes of civilian employees, to exercise (1) the authorities relating to the investigation of the suitability of applicants which are currently assigned to the Director of the Office of Personnel Management under section 5.2(a) of Executive Order Number 10577, and (2) the authorities relating to security requirements for Federal employees, which are currently assigned to the Office of Personnel Management under Executive Order 10450.

The Senate bill contained no similar provision.

The Senate recedes with an amendment that would require the President to provide, within 60 days of the date of enactment, guidance which was requested by an interdepartmental group studying the personnel security program of the Federal government. The amendment further would require the interdepartmental group to report its findings and recommendations to the Congress within 90 days of the date on which the requested guidance is provided by the President.

The amendment further would provide that the exercise of authorities which would be transferred to the Secretary of Defense shall not take effect if, on or before the date of the transmittal to Congress of the findings and recommendations of the interdepartmental group, the President directs that these authorities shall not be exercised the Secretary of Defense. This authority of the President may not be delegated.

Modification and study of Department of Defense civilian personnel classification and pay systems (sec. 504)

The Senate bill contained a provision (sec. 536) that would authorize the Secretary of the Air Force to classify and pay civilian emloyees of the Air Force Institute Technology without regard to the provisions of chapters 51 and 53 of title 5, United States Code. In addition, the provision would require the Secretary of Defense to provide a report evaluating the effects of the pay and classification systems on recruitment and retention of Department of Defense scientific and engineering personnel no later than December 31, 1985.

The House amendment contained no similar provision.

The House recedes.

PART B—ACTIVE MILITARY PERSONNEL

LEGISLATIVE PROVISIONS ADOPTED

Marine Corps grade relief (sec. 511)

The House amendment included a provision (sec. 511) that would increase the authorized strength for Marine Corps majors by approximately 250 at current officer strength levels.

The Senate bill contained no similar provision.

The Senate recedes with an amendment reducing the amount of grade relief to approximately 200 majors at current officer strengths. The conferees relate the amount of this relief—and, indeed, the relief itself—to a mistake concerning the appropriate level for Marine Corps majors at the time the DOPMA grade tables were constructed.

The circumstances warranting this relief are unique to the grade of major in the Marine Corps. They appear neither in the other field grades in the Marine Corps nor in any of the field grades in the other services.

Service agreements of cadets and midshipmen (sec. 512)

The House amendment contained a provision (sec. 512) that would clarify the author-

ity of the service Secretaries to require and enforce service agreements of cadets and midshipmen.

The Senate bill contained no similar provision.

The Senate recedes.

Transfers to and from temporary disability retired list (sec. 513)

The House amendment contained a provision (sec. 513) that would authorize: (1) placement of service members whose disabilities are permanent but unstable, on the temporary disability retired list (TDRL); and (2) retirement or separation of service members directly from the TDRL.

The Senate bill contained no similar provision.

The Senate recedes.

Change in title of grade of commodore to rear admiral (lower half) (sec. 514)

The House amendment contained a provision (sec. 514) that would change the title of the grade of commodore to rear admiral (lower half).

The Senate bill contained no similar provision.

The Senate recedes.

Flag officer ceilings (sec. 515)

The Senate bill included a provision (sec. 515) that would extend for one year the existing temporary authorities for one additional Air Force general, three additional Navy vice admirals, and one additional Marine lieutenant general. In addition, section 515 would authorize for one year an additional Marine general contingent on his serving as the commander-in-chief of the United States Central Command.

The House amendment contained a related provision (sec. 534) that would authorize for three years an additional lieutenant general or vice admiral for a service having an officer in that grade serving as director of the Department of Defense Task Force on Drug Enforcement.

The House recedes from disagreement to section 515 of the Senate bill. The Senate recedes from disagreement to section 534 of the House amendment with an amendment authorizing for one year an additional Army lieutenant general contingent on his serving as director of the drug task force.

Grade of retired regular members recalled to active duty (sec. 516)

The Senate bill contained a provision (sec. 535) that would provide that a retiree may not be recalled in a grade higher than the highest permanent grade held while on active duty.

The Senate bill contained no similar provision.

The Senate recedes.

LEGISLATIVE PROVISIONS NOT ADOPTED

Increase in the number of deputy chiefs of naval operations

The Senate bill contained a provision (sec. 537) that would increase from six to seven the number of deputy chiefs of naval operations in the Department of the Navy.

The Senate bill contained no similar provision.

The Senate recedes.

PART C—RESERVE MILITARY PERSONNEL

LEGISLATIVE PROVISIONS ADOPTED

Extension of certain reserve officer management authorities (sec. 521)

The Senate bill contained a provision (sec. 514) that would extend until September 30, 1987, the authority for determining grades for reserve medical officers, for promoting certain reserve officers on active duty, and for determining years of service for mandatory transfer to the retire reserve.

The House amendment contained a similar provision (sec. 521).

The Senate recedes.

Retention of reserve civilian technicians (sec. 522)

The House amendment contained a provision (sec. 522) that would authorize the Secretaries of the Army and the Air Force to retain in active status until age 60 reserve officers who are employed as civilian technicians in the national guard or reserve in positions that require membership in the national guard or reserve.

The Senate bill contained no similar provision.

The Senate recedes.

Authority to retain in active status until age 62 up to 10 Army Reserve major generals (sec. 523)

The House amendment contained a provision (sec. 523) that would authorize the Secretary of the Army to retain until age 62 up to 10 Army Reserve major generals.

The Senate bill contained no similar provisions.

The Senate recedes.

Requirement of muster test of Army Individual Ready Reserve (sec. 524)

The House amendment contained a provision (sec. 524) that would direct the Secretary of the Army to conduct a nationwide test of the Army's ability to mobilize the members of the Individual Ready Reserve and to submit a report on the results of the muster test to the Committees on Armed Services of the Senate and the House of Representatives no later than February 1, 1986.

The Senate bill contained no similar provision.

The Senate recedes.

PART D—MISCELLANEOUS

LEGISLATIVE PROVISIONS ADOPTED

Appointments of warrant officers (sec. 531)

The House amendment contained a provision (sec. 531) that would conform service practices concerning appointments of warrant officers.

The Senate bill contained no similar provision.

The Senate recedes.

Prisoner of war medal (sec. 532)

The Senate bill contained a provision (sec. 928) that would authorize the President to award prisoner of war medals to service personnel who were taken prisoner and held captive on or after April 6, 1917.

The House amendment contained a similar provision (sec. 533).

The Senate recedes with an amendment vesting the Secretary concerned with the authority to issue the prisoner of war medal and eliminating the requirement that the medal be presented in the name of Congress.

Precedence of the award of the Purple Heart (sec. 533)

The Senate bill contained a provision (sec. 533) that would afford the Purple Heart a precedence not lower than immediately below the Bronze Star medal.

The House amendment contained no similar provision.

The House recedes.

Espionage Under the Uniform Code of Military Justice (sec. 534)

The House amendment contained a provision (sec. 1205) that would establish a capital espionage offense as a new Article 106a of the Uniform Code of Military Justice (UCMJ).

Similar to section 794(a) of title 18, United States Code, Article 106a(a) in the House provision would proscribe transmittal of defense information to a foreign government. The death penalty would be authorized under specified conditions, such as transmittal of information about a major weapons system. Similar to section 794(b) of title 18, Article 106a(b) in the House provision would proscribe wartime transmittal of defense information to the enemy.

Subsections (c), (d), and (e) of Article 106a, the capital sentencing provisions of the House provision, were derived from Federal Criminal Code legislation approved by the Senate in the 98th Congress (S. 1765, similar to S. 239 and H.R. 343 in the 99th Congress). They would establish procedures for adjudging the death penalty in espionage cases.

The House provision was not intended to affect the validity of existing death penalty provisions in the UCMJ or the capital sentencing procedures promulgated by the President in the Manual for Courts-Martial, 1984.

The Senate bill contained no similar provision.

The Senate recedes with an amendment.

The conferees agreed to establish a capital military offense patterned after section 794(a) of title 18. This will correct a substantial deficiency under current law, in which the maximum penalty a court-martial may adjudge is 10 years confinement for peacetime espionage or for wartime espionage where it cannot be proved that the information was provided to the enemy or was gathered for the purpose of transmittal to the enemy.

The conferees carefully considered whether the broad language of section 794(a) should be revised prior to incorporation into the UCMJ, but decided not to make substantive changes in the language. The espionage statutes in the Federal Criminal Code are products of lengthy legislative debates. That background has played an important role in the trial of espionage offenses in the civil sector, and the sweep of the statutes has been delimited by the courts. For example, section 794(a) has been interpreted as requiring determinations that the accused acted in bad faith and that the information passed not be of the type that is accessible to the public. See *Gorin* v. *United States*, 312 U.S. 19 (1941); *United States* v. *Heine*, 151 F.2d 813 (2d Cir. 1945), *cert. denied*, 328 U.S. 833 (1946). The continuing vitality of *Gorin* and *Heine* is illustrated by a number of recent cases that have cited one or both of these precedents concerning the meaning of section 794. See *United States* v. *Lee*, 589 F.2d 980, 990 (9th Cir. 1979), *cert. denied*, 444 U.S. 969 (1979); *United States* v. *Boyce*, 594 F.2d 1246, 1252 (9th Cir. 1979), *cert. denied*, 444 U.S. 855 (1979); *United States* v. *Truong Dinh Hung*, 629 F.2d 908, 918 (4th Cir. 1980); *United States* v. *Enger*, 472 F. Supp. 490, 507 (D.C.N.J. 1978).

The conferees adopted the language of section 794(a) for the new Article 106a to ensure that the treatment of the substantive offense by courts-martial and military appellate courts will be guided by applicable civilian precedents, including such cases as may arise in the future in the federal civilan system. The conferees intend that the statutory terms "instrument, appliance, or information" be interpreted in a manner consistent with modern defense technology, and

that the statute encompass transmittal of chemical and biological agents, computer technology, and other matter related to the national defense that is not lawfully accessible to the public.

The new Article 106a(a) enumerates the kinds of espionage offenses for which the death penalty would be authorized. Proof of the circumstances establishing these offenses would be made during trial on the merits.

Nothing in the new Article 106a is meant to preclude a prosecution under any other article of the UCMJ, including a prosecution under the Federal Criminal Code's noncapital espionage statutes as incorporated through Article 134. Likewise, nothing in the new Article 106a is intended to alter the relationships between the Department of Defense and the Department of Justice as to the concurrent jurisdiction of the two Departments with respect to investigation and prosecution of espionage offenses.

The conferees did not adopt subsection (b) of Article 106a as proposed by the House, pertaining to wartime assistance to the enemy. Such offenses are governed adequately by current military law under Article 104 (aiding the enemy) and Article 106 (spies). The conferees also did not adopt subsections (c), (d), and (e) of Article 106a as proposed by the House, pertaining to procedures for adjudication of the death penalty.

The conferees did, however, adopt a statutory formulation of capital sentencing standards for espionage cases and intend that those standards be implemented in a manner consistent with the provisions of Rule for Courts-Martial 1004 of the Manual for Courts-Martial, 1984. The conferees do not intend that the enactment of statutory capital sentencing standards for the new Article 106a be construed as affecting the validity of the regulatory capital sentencing standards that already exist for the other capital punitive articles.

LEGISLATIVE PROVISIONS NOT ADOPTED

Sentence for spying

The Senate bill included a provision (sec. 951) that would make actual life imprisonment (no possibility of release) the minimum punishment for the civilian crime of espionage.

The House amendment contained no similar provision.

The Senate recedes.

TITLE VI—COMPENSATION AND OTHER PERSONNEL BENEFITS

PART A—BASIC PAY AND ALLOWANCES

LEGISLATIVE PROVISIONS ADOPTED

Military pay raise for fiscal year 1986 (sec. 601)

The Senate bill included a provision (sec. 501) that would increase the rates of basic pay, basic allowance for quarters, and basic allowance for subsistence for members of the uniformed services by three percent effective on October 1, 1985.

The House amendment contained a similar provision (sec. 601) that would make the increase effective on January 1, 1986.

The House recedes.

VHA administration (sec. 602(a))

The Senate bill included a provision (sec. 503) that would limit the sum of a service member's variable and basic housing allowances to the member's actual housing costs.

The House amendment contained no similar provision.

The House recedes with an amendment of two parts. First, the word "actual" is deleted to permit statistical generalization with respect to housing costs other than rent or mortgage payments, such as utilities and maintenance. The conferees contemplate use of the 80th percentile of surveyed utilities and maintenance costs for a pay grade in a variable housing allowance area in computing a member's housing costs for purposes of this provision. Second, the sum of a member's variable and basic housing allowances is permitted to exceed the member's housing costs by up to half the difference between the housing costs and the sum of the prescribed housing allowances for the member's pay grade and area.

VHA data manipulation (sec. 602(b)

The Senate bill contained a provision (sec. 504(b)(4)) that would prohibit the use of certain administrative techniques with respect to variable housing allowance (VHA) survey data to prevent VHA rate inversion between members of different grades or to prevent VHA rates from falling when the survey data reflect falling prices.

The House amendment contained no similar provison.

The House recedes with an amendment permitting the otherwise prohibited practices (preventing rate inversions and reductions) if required to produce statistically valid results from limited survey data. Specifically, the amendment would permit the use of these practices to set VHA rates for groups of 50 or less persons of the same grade in the same housing survey area when the limited data might otherwise produce anomalous inversions or reductions in rates.

The conferees do not intend that statistical "smoothing" techniques ever be used solely to prevent pay inversions or to prevent reductions in VHA rates. The conferees recognize, however, that such techniques are ofter legitimately employed to produce valid statistical results, especially when the data for a particular VHA rate cell are limited in nature.

VHA and dependent status (sec. 602(c)

The House amendment included a provision (sec. 602(c)) that would expressly authorize the separate rates of the variable housing allowance for members with dependents and members without dependents.

The Senate bill contained no similar provision.

The Senate recedes.

VHA child support (sec. 602(d)

The House amendment included a provision (sec. 602 (a)) that would deny the with-dependents rate of the variable housing allowance to certain members of the uniformed services who receive the basic allowance for quarters at the with-dependents rate solely by reason of their payment of child support.

The Senate bill contained no similar provision.

The Senate recedes.

Variable housing allowance in Alaska and Hawaii (sec. 603)

The Senate bill included a provision (sec. 502) that would install the variable housing allowance—in place of the overseas station housing allowance—in Alaska and Hawaii. Section 502 would also grandfather the status quo for service members already housed under the station housing allowance.

The House amendment contained a similar provision (sec. 603) that would also effect technical corrections in a related provision of the Department of Defense Authorization Act, 1985 (Public Law 98-525).

The Senate recedes with a amendment addressing an oversight in the grandfather clause.

Advance payment of basic allowance for quarters and variable housing allowance (sec. 604)

The Senate bill contained a provision (sec. 504) that would authorize the advance payment of basic allowance for quarters and variable housing allowance.

The House amendment contained a similar provision (sec. 604).

The Senate recedes.

Basic allowance for quarters for certain personnel on field and sea duty (sec. 605)

The Senate bill contained a provision (sec. 510) that would restrict the existing prohibition on payment of basic allowance for quarters to single members above pay grade E-6 without dependents on sea or field duty in excess of 90 days to those who perform such field or sea duty incident to a permanent change of station.

The House amendment contained a similar provision (sec. 605).

The House recedes with a technical amendment.

BAQ in overhaul (sec. 606)

The Senate bill included a provision (sec. 511) that would extend through fiscal year 1986 the existing autority to pay basic allowance for quarters for accommodations in lieu of quarters during ship overhaul.

The House amendment contained a similar provision (sec. 606).

The House recedes.

Increase of family separation allowance (sec. 607)

The Senate bill contained a provision (sec. 505) that would authorize an increase in the family separation allowance from $30 to $60 a month.

The House amendment contained no similar provision.

The House recedes.

PART B—TRAVEL AND TRANSPORTATION ALLOWANCES

LEGISLATIVE PROVISIONS ADOPTED

Temporary lodging expenses (sec. 613)

The Senate bill contained a provision (sec. 506) that would make reimbursement for temporary lodging expenses an entitlement.

The House amendment contained no similar provision.

The House recedes.

Allowances for transportation of baggage and household effects (sec. 614)

The Senate bill contained a provision (sec. 510g) that would authorize the payment of a monetary allowance of a member who provides all or part of the packing and crating labor in connection with the transportation of baggage and household effects during a permanent change of station move but who elects commercial hauling of the baggage and household effects. The provisions would also require the Secretary of Defense to report on the operation of the program and to submit legislative recommendations concerning the program within three years.

The House amendment contained no similar provision.

The House recedes with an amendment authorizing the payment of the monetary allowance until September 30, 1989, and requiring the Secretary of Defense to submit the report and legislative recommendations concerning the program not later than September 30, 1988.

Travel during ship overhaul (sec. 616)

The Senate bill contained a provision (sec. 510a) that would improve the existing entitlement of service members assigned to ships that are overhauled or inactivated away from the homeport to government funded round-trip transportation from the overhaul or inactivation site to the homepart.

The provision would authorize member travel after the 31st day and after every 60-day period thereafter; dependent travel from the homeport to the overhaul or inactivation site in lieu of providing member travel to the homeport under certain circumstances; and the option of electing trips in lieu of dependent travel, household goods transportation, and privately-owned vehicle transportation when, incident to an overhaul or inactivation, the ship undergoes a homeport change to the overhaul or inactivation port.

The House amendment contained a similar provision (sec. 618).

The House recedes with a technical amendment.

Test program for flat rate per diem system (sec. 618)

The House amendment contained a provision (sec. 616) that would authorize the service Secretaries to conduct a flat rate per diem test in fiscal year 1986 and to prescribe regulations governing the test.

The Senate bill contained no similar provision.

The Senate recedes.

Travel and transportation allowances for travel within the administrative limits of a member's duty station (sec. 619)

The House amendment contained a provision (sec. 617) that would—

(a) authorize certain travel and transportation allowances to members directed to perform overnight duty within the geographic limits of their duty station; and

(b) authorize reimbursement for parking fees incurred in connection with local travel.

The Senate bill contained no similar provision.

The House recedes on subsection (a) concerning travel and transportation allowances for overnight travel within the geographic limits of a service member's duty station; the Senate recedes on subsection (b) concerning reimbursement for parking fees.

Transportation for survivors of deceased member to attend the member's burial ceremonies (sec. 620)

The Senate bill contained a provision (sec. 510d) that would authorize travel and transportation allowances for the dependents of a member who dies while on active duty for a period of 30 days or more to attend the burial ceremonies of the deceased member.

The House amendment contained no similar provision.

The House recedes with an amendment clarifying that such may be paid for travel from a foreign country to the United States if the member is assigned outside the United States at the time of death.

LEGISLATIVE PROVISIONS NOT ADOPTED

Increase in weight allowances for transportation of household goods

The Senate bill contained a provision (sec. 508) that would establish an entitlement to minimum household goods weight allowances by pay grade.

The House amendment contained no similar provision.

The Senate recedes without prejudice.

The conferees emphasize their support for the increases in household goods weight allowances requested by the Administration in the fiscal year 1986 budget and urge the Appropriations Committees to fund the program in full for fiscal year 1986. Notwithstanding this support, the conferees agreed not to establish an entitlement to minimum weight allowances by pay grade at this time because of a lack of sufficient data documenting what those minimum allowances should be. The conferees note that the General Accounting Office and the Department of Defense will be reviewing the current household goods weight allowance system and analyzing alternatives in the next six months. The conferees intend to reexamine the appropriate minimum levels for Department of Defense household goods weight allowances, as well as the overall differences for reimbursement for moving expenses between military and civilian employees following submission of these reviews and analyses.

Increase in death gratuity

The Senate bill contained a provision (sec. 510e) that would authorize an increase in the death gratuity to an amount equal to three months' basic pay, three months' basic allowance for quarters, and three months' basic allowance for subsistence, but not less than $3,000 nor more than $9,000.

The House amendment contained no similar provision.

The Senate recedes.

Transportation of motor vehicles for members making permanent changes of stations

The House amendment contained a provision (sec. 614) that would facilitate the shipment of a privately-owned vehicle (POV) during a permanent change of station move by repealing restrictive statutory language that provides that the shipment of a POV at goverment expense is only authorized when all, or a major portion, of the movement of the POV can be accomplished on an ocean vessel between customary ports of embarkation and debarkation.

The Senate bill contained no similar provision.

The House recedes.

Dependent student travel for members stationed in Alaska and Hawaii

The House amendment contained a provision (sec. 615) that would authorize travel for dependent students of members stationed in Alaska and Hawaii, except students attending school in Alaska and Hawaii.

The Senate bill contained no similar provision.

The House recedes.

PART C—BONUSES AND SPECIAL AND INCENTIVE PAYS

LEGISLATIVE PROVISIONS ADOPTED

Lump sum payment of selective reenlistment bonuses (sec. 631)

The House amendment contained a provision (sec. 631) that would provide that not less than 75 percent of the selective reenlistment bonus shall be paid at the beginning of the period covered by the bonus.

The Senate bill contained no similar provision.

The Senate recedes with an emendment delaying the effective date until October 1, 1986.

Officer career sea pay (sec. 634)

Under current law, the rates of career sea pay for officers do not increase after the officer has over 12 years of sea duty.

The Senate bill contained a provision (sec. 510f(e)) that would increase the rates of officer career sea pay for warrant officers in the grade of W-3 and W-4 with over 12 years of sea duty and would establish increased rates of career sea pay for warrant and commissioned officers with over 14, over 16, over 18, and over 20 years of sea duty.

The House amendment contained no similar provision.

The House recedes.

Hazardous duty incentive pay (sec. 635)

The Senate bill contained a provision (sec. 510f(a)) that would equalize the rates of various hazardous duty incentive pays for enlisted members with those of officers at $110 per month, would add handling of chemical munitions to the list of hazardous duty occupations, and would provide a payment of $165 per month for parachute jumping at high altitude with low opening.

In addition, the Senate provision would authorize payment of hazardous duty incentive pay for officer crew members involved in frequent and regular participation in aerial flight and would establish new rates of monthly incentive pay for crew member aerial flight duty.

The House amendment contained no similar provision.

The House recedes.

Aviation officer continuation pay (sec. 636)

The Senate bill included a provision (sec. 512) that would extend through fiscal year 1986 the existing authority to pay aviation officer continuation pay.

The House amendment contained a similar provision that would extend the authority through fiscal year 1988.

The House recedes with an amendment extending the authority through fiscal year 1987.

Engineering and scientific career continuation pay (sec. 637)

Currently, engineering and scientific career continuation pay may be paid to certain officers of the armed forces in critical shortage skills.

The Senate bill contained a provision (sec. 510f(j)) that would also authorize the payment of this special pay to members of the National Oceanic and Atmospheric Administration and the Public Health Service.

The House amendment contained no similar provision.

The House recedes.

Special pay for duty subject to hostile fire or imminent danger (sec. 638)

The Senate bill contained a provision (sec. 510f(g)) that would increase the rate of special pay for duty subject to hostile fire or imminent danger to that of the lowest hazardous duty incentive pay, would redefine the criteria for this special pay, and would redesignate it as special pay for duty subject to danger.

The House amendment contained no similar provision.

The House recedes with an amendment retaining the current name of this special pay as well as the criteria for payment.

Revision of special pay for dental officers (sec. 639)

The House amendment contained a provision (sec. 634) that would replace the current special pay and continuation pay for dental officers with a new variable special pay, additional special pay, and special pay for board certification modeled on the current special pay program for medical officers.

The Senate bill contained a provision (sec. 509) that would delay the effective date of section 8091 of the fiscal year 1985 Department of Defense Appropriation Act until September 30, 1985. Effective July 1, 1985, section 8091 of that Act would reduce by 50 percent the continuation pay for dental officers in skills manned at 95 percent or more.

The Senate recedes with an amendment making revisions in the rates of variable special pay and additional special pay and including a save pay provision to ensure that no dental officer receives less in total special pays under the new program than that dental officer is currently receiving under the present special pay and continuation pay programs.

Special pay for medical officers (sec. 640)

The House amendment contained a provision (sec. 635) that would provide that bankruptcy does not discharge the debt to the United States created by the failure to serve the period of service for which special pay for medical officers has been paid.

The Senate bill contained no similar provision.

The Senate recedes.

Selected reserve non-prior-service enlistment bonus (sec. 642)

The Senate bill contained a provision (sec. 513) that would extend the authority to pay the selected reserve enlistment bonus for two years, until September 30, 1987.

The House amendment contained a provision (sec. 641) that would extend the authority to pay the selected reserve enlistment bonus for five years, until September 30, 1990. In addition, the House provision would increase the maximum enlistment bonus authority from $2,000 to $5,000.

The House recedes.

Selected reserve reenlistment bonus (sec. 643)

The Senate bill contained a provision (sec. 513) that would extend the authority to pay the selected reserve reenlistment bonus for two years, until September 30, 1987.

The House amendment contained a provision (sec. 641) that would extend the authority to pay the selected reserve reenlistment bonus for five years, until September 30, 1990. In addition, the House provision would increase the maximum reenlistment bonus authority from $450 to $1,250 for a three-year reenlistment and from $900 to $2,500 for a six-year reenlistment.

The Senate recedes with an amendment limiting the bonus authority extension to two years.

Selected reserve prior service enlistment bonus (sec. 644)

The House amendment contained a provision (sec. 641) that would create a new selected reserve enlistment bonus for prior service personnel with less than 10 years of total military service. For enlistment in a designated unit or skill, the initial bonus payment would be a maximum of $1,250 for a three-year enlistment or $2,500 for a six-year enlistment with subsequent payments upon satisfactory completion of each year of the period of enlistment.

The Senate bill contained no similar provision.

The Senate recedes with an amendment limiting the bonus authority to two years and restricting eligibility to critical skills.

Selected reserve affiliation bonus (sec. 645)

The Senate bill contained a provision (sec. 513) that would extend the authority for payment of the selected reserve affiliation bonus for two years, until September 30, 1987.

The House amendment contained a provision (sec. 642) that would extend the authority to pay the selected reserve affiliation bonus for five years, until September 30, 1990. In addition, the House provision would increase the maximum payment from $25 per month to $75 per month for each month of remaining obligated service.

The Senate recedes with an amendment limiting the bonus authority extension to two years and reducing the maximum monthly payment from $75 to $50 per month for each month of remaining obligated service.

Individual ready reserve enlistment/reenlistment bonuses (sec. 646)

The Senate bill contained a provision (sec. 513) that would extend the authority for payment of the individual ready reserve non-prior-service enlistment bonus for two years, until September 30, 1987.

The House amendment contained a provision (sec. 645) that would extend the authority for payment of the individual ready reserve non-prior-service enlistment bonus for five years, until September 30, 1990.

The House recedes.

The Senate Bill contained a provision (sec. 513) that would extend the authority for payment of the individual ready reserve prior-service enlistment/reenlistment bonus for two years, until September 30, 1987.

The House amendment contained a provision (sec. 645) that would extend the authority for payment of the individual ready reserve prior service enlistment/reenlistment bonus for five years, until September 30, 1990. In addition, the House provision would revise the current bonus by providing a payment of $750 for a three-year enlistment and $1,500 for a six-year enlistment. As a condition for receipt of this bonus, the individual would be subject to an annual muster or a period or periods of active duty for training of one or more days.

The Senate recedes with an amendment limiting the bonus authority extension to two years.

Selected reserve hazardous duty incentive pay (sec. 647)

Presently, members of the reserve and national guard receive hazardous duty incentive pay (HDIP) for frequent and regular flying during active and inactive duty for training periods. To receive active duty HDIP, the reservist must fly four hours each month or a pro rata share of days on duty. For inactive duty, the requirement is two hours each month or a pro rata share of days on duty. The excess hours flown during inactive duty may be credited toward active duty flight requirements, but the reverse is not permitted.

The House bill contained a provision (sec. 646) that would allow reserve and national guard members who are entitled to HDIP for flying to credit active duty or inactive duty training flight time to fulfill active or inactive duty flight time requirements.

The Senate bill contained no similar provision.

The Senate recedes. The conferees intend that this change be accomplished without any increase in the overall program cost of HDIP.

LEGISLATIVE PROVISIONS NOT ADOPTED

Diving duty pay

Under current law, a service member who is receiving special pay for diving duty may also receive one incentive pay for hazardous duty.

The Senate bill contained a provision (sec. 510f(c)) that would authorize a service member who is receiving diving duty pay to receive two payments of hazardous duty pay in lieu of one payment.

The House amendment contained no similar provision.

The Senate recedes.

Pay for duty at certain places

The Senate bill contained a provision (sec. 510f(d)) that would authorize the payment for duty at certain places to officers as well as to enlisted personnel, increase the rates for all personnel, delete the prohibition against payment to personnel serving in the continental United States or the District of Columbia, and permit the payment of this special pay to those serving at designated locations even though the service members may be from that location.

The House amendment contained no similar provision.

The Senate recedes.

Responsibility pay

The Senate bill contained a provision (sec. 510f(f)) that would authorize the payment of responsibility pay for warrant officers as well as for junior officers in pay grades O-1 and O-2 and would increase the maximum monthly rates from $150 to $200.

The House amendment contained no similar provision.

The Senate recedes.

Reenlistment bonus for enlisted members on active duty for training and administration of reserves

The House amendment contained a provision (sec. 644) that would permit payment of the selective reenlistment bonus to members of the reserve components serving on active duty in connection with organizing, administering, recruiting, instructing, or training reserves.

The Senate bill contained no similar provision.

The House recedes.

Selected reserve unit affiliation pay

The House amendment contained a provision (sec. 643) authorizing a payment of $10 per drill payable to enlisted personnel assigned to designated high priority selected reserve units.

The Senate bill contained no similar provision.

The House recedes.

PART D—HEALTH CARE MATTERS

LEGISLATIVE PROVISIONS ADOPTED

Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) dental care for active duty dependents (sec. 651)

The House amendment contained a provision (sec. 651) that would authorize the Secretary of Defense to establish a dental insurance program for spouses and children of active duty service members. The program would be based on voluntary enrollment, and the cost would be cost shared between the government and the service member. Coverage would be provided for preventive, diagnostic and emergency services, payable at 100 percent of charges, and for composite and amalgam fillings and dental appliance repair services, payable at 80 percent of charges. Collection of premiums from plan participants would be accomplished by payroll deductions.

The Senate bill contained no similar provision.

The Senate recedes with an amendment providing that no contracts can be signed and no funds obligated until September 30, 1986. In the meantime, the Secretary of De-

fense should proceed with development of the statement of work, issuance of the request for proposals, and receipt and evaluation of bids, so that operation of the new program can begin as soon as possible after September 30, 1986.

Enhanced health care benefits for survivors of certain reservists (sec. 652)

Under current law, survivors of reservists who die as a result of injury, illness, or disease in conjunction with active duty for training of 30 days or less are entitled to medical care from the Veterans Administration medical system. Survivors of reservists who die of an injury during inactive duty training are also entitled to medical care from the Veterans Administration. Such care is not provided, however, to survivors of reservists who die of illness or disease during inactive duty training.

The House amendment contained a provision (sec. 654) that would extend military medical care benefits to the survivors of reservists and guardsmen who die of injury, illness, or disease during either inactive duty training or active duty for training of 30 days or less.

The Senate bill contained no similar provision.

The Senate recedes.

Licensure requirement for defense health care professionals (sec. 653)

The House amendment contained a provision (sec. 657) that would require all health care professionals providing care independently in military medical facilities to possess a current license. This requirement would apply to military personnel, civilian employees of the Federal government, and contract employees. In addition, the House provision would impose a civil penalty of not more than $5,000 for violation of the licensure requirement.

The Senate bill contained no similar provision.

The Senate recedes with an amendment limiting the imposition of civil penalties to civilians.

Study of medical aspects of casualty resolution (sec. 654)

The House amendment contained a provision (sec. 656) that would direct the Secretary of Defense to establish an advisory panel on medical aspects of casualty resolution. Within 180 days after receipt of the panel's report, the Secretary would submit to Congress a report evaluating the panel's report, describing corrective actions taken by the Department of Defense, and making recommendations for legislation needed to implement the panel's recommendations.

The Senate bill contained no similar provision.

The Senate recedes with an amendment providing that, rather than establishing an advisory panel, the Secretary of Defense would conduct the study and provide a report of his findings to the Congress.

LEGISLATIVE PROVISIONS NOT ADOPTED

Elimination of Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) deductible and copayment for active duty dependents in remote locations

The House amendment contained a provision (sec. 652) that would eliminate the CHAMPUS deductible and copayment for dependents of active duty personnel living outside a military medical treatment facility catchment area.

The Senate bill contained no similar provision.

The House recedes.

Catastrophic loss protection under the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS)

The House amendment contained a provision (sec. 653) that would place an annual limit on deductibles and copayments under the CHAMPUS program of $1,000 per family for active duty personnel and $3,000 per family for retirees and survivors.

The Senate bill contained no similar provision.

The House recedes.

Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) coverage of organ transplants

The House amendment contained a provision (sec. 655) that would authorize the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) to cover non-experimental organ transplants.

The Senate bill contained no similar provision.

The House recedes.

Provision of home health care

The House amendment contained a provision (sec. 1189) that would authorize the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) coverage of home health services for chronically ill dependents of active duty personnel when such care is medically necessary, cost-effective, and not covered by other insurance.

The Senate bill contained no similar provision.

The House recedes.

PART E—MILITARY RETIREMENT

LEGISLATIVE PROVISIONS ADOPTED

Changing the military retirement system (sec. 666–667)

Both the Senate bill and the House amendment contained similar language with regard to changing the military retirement system.

The Senate bill contained provisions (sec. 541 and 542) that would reduce the total request for basic pay and retirement accrual by $1.8 billion (a 10 percent reduction).

It would direct the Secretary of Defense to submit not later than September 1, 1985, a proposal to change the nondisability retirement system, other elements of military compensation, or other personnel programs (including promotion and retention) that would reduce the accrual charge by $1.8 billion, apply structural changes only to new entrants, and encourage longer service.

It also would require a separate report on the anticipated effects that the proposed changes would have on recruiting and retention. In addition, it would require a report on the impact of changes in retirement, compensation, or personnel programs that would be necessary to achieve savings equal to a 20 percent and a 30 percent reduction in the accrual charge.

The House amendment contained provisions (sec. 661 and 662) that would reduce the total request for basic pay and retirement accrual by $4 billion (a 22 percent reduction).

It would direct the Secretary of Defense to submit a proposal to change the nondisability retirement system that would reduce the accrual charge by $4 billion in fiscal year 1986, apply structural changes only to new entrants, and encourage longer service.

It also would require a separate report on a transition plan.

The conferees agreed to a ceiling on the total of basic pay and accrual charge that would require a $2.9 billion reduction in the accrual charge for the military retirement system. The Secretary of Defense would be required to submit a report (including draft legislation) proposing two separate changes; one of the changes would consist only of changes in the military retirement system other than changes in the procedure for periodic cost-of-living adjustments in retired pay. Each proposal must be sufficient to reduce the accrual charge by $2.9 billion.

The conferees agreed to require the reports and a proposal by September 15, 1985.

The conferees emphasize that the structural changes required by this provision are not to apply to any individual who is currently retired or who has entered the military before the effective date of the revised system. Only those who enter after the effective date are to be affected by the provisions of the new plan.

The conferees also agreed that the proposal submitted by the Secretary of Defense produce the required savings as a direct result of changing the active duty military nondisability retirement system. An accompanying report to be submitted by the Secretary, however, is also to evaluate possible ways to achieve savings through changes in other compensation elements or personnel programs.

The conferees agreed to require a report describing the changes necessary in retirment, compensation or personnel programs and the impact of such changes on recruiting and retention that would be necessary to achieve savings equal to $1.8 billion, $2.9 billion, $3.6 billion, $4.0 billion and $5.4 billion.

The conferees direct the Secretary of Defense to include in any report proposing changes an evaluaton of the impact of such changes using the final assumptions, methodology, and computer models utilized by the Fifth Quadrennial Review of Military Compensation in its final report. This would be consistent with the requirement (contained in both bills) to use the actuarial assumptions used in the preparation of the fiscal year 1985 budget. If other assumptions are used to project alternate impacts, these assumptions are to be explicitly described and justified. Similarly, the conferees direct that the same measures employed by the Fifth Quadrennial Review be used in describing the impact of changes. If additional measures are used, they are to be clearly described and justified.

PART F—EDUCATIONAL ASSISTANCE BENEFITS

LEGISLATIVE PROVISIONS ADOPTED

Loan repayment (sec. 671)

Educational loan repayment program

The Senate bill contained a provision (sec. 521) that would make permanent the test program of using higher education loan repayment to attract high quality personnel to enlist in the selected reserve and active forces. This test program was first authorized by the Department of Defense Authorization Act, 1981, and has been extended on an annual or biennial basis since that time.

The House amendment contained no similar provision.

The House recedes.

Authorization to repay educational loans for certain health professionals who serve in the selected reserve

The House amendment contained a provision (sec. 647) that would repay a maximum of $3,000 in higher education loans for each satisfactory year of service completed in the selected reserve by a health professional in a wartime combat medical skill designated

as critical by the Secretary of Defense. The maximum that could be repaid would be $20,000.

The Senate bill contained no similar provision.

The Senate recedes with an amendment limiting the authority for the program to three years, until September 30, 1988.

Selected reserve health professions scholarship (sec. 672)

The House amendment contained a provision (sec. 648) that would expand the Armed Forces Health Professions Scholarship Program to permit an individual to fulfill the required military service obligation in the selected reserve. The minimum repayment period would be two years of service for each year of education received. The House provision would also increase the number of scholarships from 5,000 to 7,500.

The Senate bill contained no similar provision.

The Senate recedes with an amendment limiting the number of scholarships to 6,000 and requiring a three-year service commitment for each year of scholarship assistance.

As stated in the House committee report, the conferees intend that this authority be used only for specialty training in combat medical skills. The conferees further intend that the authority be limited to operating room nurses, nurse anesthetists and surgeons.

The conferees direct the Secretary of Defense to submit a report to the Committees on Armed Services of the Senate and House of Representatives not later than February 1, 1987, on the results of this expanded scholarship authority.

Right of member to transfer educational entitlement to spouse or dependent child (sec. 673)

The Senate bill contained a provision (sec. 523) that would correct a problem created by the incorrect implementation by the Navy of the educational assistance test program authorized by section 901 of the Department of Defense Authorization Act, 1981.

The House amendment contained no similar provision.

The House recedes.

Changes to the Veterans' Educational Assistance Act of 1984 (sec. 674)

The Veterans' Educational Assistance Act of 1984, Title VII of Public Law 98-525 (the Department of Defense Authorization Act, 1985) established a new G.I. bill for those initially entering the armed forces between July 1, 1985, and June 30, 1988. In exchange for a reduction in pay of $100 per month for 12 months, service members will be able to earn a maximum of 36 months of educational benefits payable at $300 per month. They will be automatically covered unless they opt out upon initial entry onto active duty. In addition, the Veterans' Educational Assistance Act of 1984 established a program for service members with Vietnam-era G.I. bill eligibility who have been on continuous active duty since December 31, 1976, and whose benefits would otherwise expire on December 31, 1989.

The Senate bill contained a provision (sec. 522) that would make four changes to the new G.I. bill. First, the Senate provision would permit service members 120 days after entry onto active duty to elect to participate in the program. Second, the provision would permit participants to revoke their election within two years and receive a refund of their contributions. Third, the provision would provide credit on final pay for those who die on active duty after electing to participate and who have neither revoked election nor received any benefit. Fourth, the provision would permit service members with Vietnam-era G.I. bill eligibility to earn benefits under the new program even though they have had a break in service after December 31, 1976.

The House amendment contained no similar provision.

The House recedes with an amendment striking all provisions except the last providing eligibility for Vietnam-era veterans currently on active duty who have had a break in service since December 31, 1976.

The conferees agree that, due to the complex nature of this program, it should be allowed to operate for at least one year before it is amended.

PART G—MISCELLANEOUS

LEGISLATIVE PROVISIONS ADOPTED

Legal representation of civilians overseas (sec. 681)

The House amendment contained a provision (sec. 695) that would authorize the Secretary concerned to employ counsel and pay fees for legal representation before foreign courts of dependents and civilian employees of the armed forces overseas.

The Senate bill contained no similar provision.

The Senate recedes.

Accrued leave (sec. 682)

The House amendment included a provision (sec. 697) that would correctly codify the date after which not more than 60 days of accrued leave may be sold.

The Senate bill contained no similar provision.

The Senate recedes.

Pay allotments for Navy and Marine Corps (sec. 683)

The House amendment contained a provision (sec. 698) that would standardize the pay allotment system of the Navy and Marine Corps with that of the Army and the Air Force.

The Senate bill contained no similar provision.

The Senate recedes.

Debt collection (sec. 684)

The House amendment included a provision (sec. 699) that would extend the debt collection authority enacted in the Department of Defense Authorization Act, 1985 (Public Law 98-525) to all of the uniformed services. Section 699 would also authorize military payroll collections for dishonored checks.

The Senate bill contained no similar provision.

The Senate recedes with an amendment striking the authority to collect for dishonored checks.

Fee for veterinary service (sec. 685)

Current law provides that a $10 per visit fee be imposed for pets of military personnel provided care by military veterinarians beginning October 1, 1985.

The House amendment contained a provision (sec. 696) that would reduce the fee from $10 per visit to $2 per transaction at a military veterinary clinic; such fee is intended to recoup all appropriated fund costs associated with the provision of care to privately-owned pets. The resulting revenues are to be paid to the U.S. Treasury.

The Senate bill contained no similar provision.

The Senate recedes.

LEGISLATIVE PROVISION NOT ADOPTED

Compensation for military personnel and members of their families who were victims of terrorism

The House amendment contained a provision (sec. 1188) that would authorize the President to make a cash payment to members of the armed forces or their families who were held hostage or who were the victims of terrorism.

The Senate bill contained no similar provision

The House recedes.

TITLE VIII—SURVIVOR BENEFIT PLAN

LEGISLATIVE PROVISIONS

LEGISLATIVE PROVISIONS ADOPTED

Survivor Benefit Plan changes (secs. 701-731)

The House amendment contained a number of provisions (secs. 670-690) that would improve and simplify the Survivor Benefit Plan as well as correct certain inequities associated with the program.

The Survivor Benefit Plan was created to provide "reasonable income replacement" to surviving dependents of deceased retirees. During deliberations on the establishment of the plan, Congress determined that 55 percent of retired pay represented reasonable income replacement and that existing income security programs available to survivors of deceased service personnel—social security and, in some cases, Dependency and Indemnity Compensation (DIC)—ought to be considered when determining whether reasonable income replacement is achieved.

Because of the complexity of the plan, particularly with respect to the social security offset, substantial confusion about the Survivor Benefit Plan has occurred. In an effort to simplify and make the plan more understandable, the House Survivor Benefit Plan provisions would eliminate the social security offset to the Survivor Benefit Plan and establish a two-tier system under which the survivor would receive 55 percent of retired pay before age 62 and 35 percent thereafter in recognition of the entitlement to social security based on military service.

In addition, the House plan would: provide current survivors and future survivors of current retired or retirement-eligible members with benefits computed under the old social security offset system or under the new two-tier system, whichever yields the highest benefit for the individual; index the minimum base amount for calculating reductions in retired pay to increases in basic pay; provide that the decision to elect less than maximum survivor coverage, to elect survivor coverage for a dependent child but not for the spouse, or not to elect survivor coverage be a joint decision between member and spouse; provide the option not to resume survivor coverage upon remarriage (subject to spousal concurrence); and authorize former spouse-child coverage as an additional option under the program.

The Senate bill contained no similar provisions.

The Senate recedes with amendments—

(1) clarifying that future survivors of current active duty members with 20 years of service or more and current or retired reserve members with 20 years of service or more would be provided benefits under the old social security offset system or the new two-tier system, whichever yields the highest benefit for the individual;

(2) eliminating the requirement for spousal concurrence in the case of a remarriage in retirement and providing instead that such

a spouse would be notified in writing if the retiree elects to provide less than maximum coverage, to provide for a dependent child but not for the spouse, or not to elect survivor coverage;

(3) providing former spouse coverage in the spouse coverage category for all former spouses named as beneficiaries after the date of enactment, permitting those former spouses currently covered under the insurable interest category to elect jointly to switch to spouse coverage at the maximum level within one year and providing current participants who had the option of electing former spouse coverage in the past and chose not to do so, the option of electing former spouse coverage within one year; and

(4) providing members who elected to participate in the Survivor Benefit Plan between October 19, 1984, and the date of enactment of the fiscal year 1986 Survivor Benefit Plan changes and who may have made an election decision based on the changes enacted on October 19, 1984, but not effective until October 1, 1985 (elimination of social security offset in the case of a surviving spouse receiving a social security benefit based solely on his or her own earnings), the option to withdraw from the Plan within one year of the date of enactment with a refund of contributions.

Report on establishing needs-based survivor benefit annuity program for surviving spouses of certain retired reservists (sec. 732)

The House amendment contained a provision (sec. 1195) that would require the Secretary of Defense to submit a plan for establishing a needs-based survivor benefit annuity program for surviving spouses of reservists who died prior to September 30, 1978, after completing 20 years of service but before reaching age 60.

The Senate bill contained no similar provision.

The Senate recedes.

TITLE VIII—MILITARY FAMILY POLICY AND PROGRAMS

LEGISLATIVE PROVISIONS ADOPTED

Office of Family Policy (sec. 802)

The Senate bill contained a provision (sec. 926(b)) that would establish the Office of Family Policy in the Office of the Secretary of Defense. The office would have not less than five professional staff members and the staff of the office would be in addition to any statutory administrative limit on the number of employees assigned to the Office of the Secretary of Defense.

The House amendment contained similar provisions (sec. 1002 and sec. 1161(a)).

The House recedes with an amendment striking the exemption from any statutory or administrative ceiling on employees assigned to the Office of the Secretary of Defense and requiring a report by the Secretary of Defense not later than September 30, 1986, on the activities of the office.

Transfer of Military Family Resource Center (sec. 803)

The Senate bill contained a provision (sec. 926(c)) that would transfer the Military Family Resource Center from the Office of the Assistant Secretary of Defense for Health Affairs to the Office of the Assistant Secretary of Defense for Force Management and Personnel.

The House amendment contained similar provisions (sec. 1003 and sec. 1161(b)).

The House recedes.

Survey of military families (sec. 804)

The House amendment contained a provision (sec. 1004) that would authorize the Secretary of Defense to conduct surveys of military families, without clearance from any other Federal agency.

The Senate bill contained no similar provision.

The Senate recedes with an amendment providing that with respect to these surveys, members of military families and military retirees will be considered as employees of the Federal government for purposes of section 3502(4)(A) of title 44, United States Code.

Family members serving on advisory committees (sec. 805)

The House amendment contained a provision (sec. 1005) that would permit military family members to serve on committees that advise the Department of Defense on military family matters even though such family members are not fulltime employees of the Federal government.

The Senate bill contained no similar provision.

The Senate recedes.

Preference in Department of Defense employment (sec. 806)

The Senate bill contained a provision (sec. 926(d)) that would provide employment preference in hiring for Department of Defense jobs to spouses of active duty service members for positions above grade GS-7 (or the equivalent) if the spouse is among those determined to be best qualified for the position and if the position is located in the same geographic area as the permanent duty station of the member.

The House amendment contained provisions (sec. 1006 and 1161(f)) that would require the Secretary of Defense to issue regulations to ensure that military spouses are advised of vacancy announcements and are considered for vacant positions within the Department of Defense in the same geographic area as the member's duty station. In addition, the House provisions would (1) permit the President to except from competitive service positions within the Department of Defense located outside the United States in order to provide employment opportunities for qualified spouses of members of the armed forces stationed in the same geographic area and (2) require the Secretary of Defense to issue regulations to ensure that qualified spouses may be appointed to such excepted service positions. Additionally, the provisions would require the Secretary of Defense to issue regulations to ensure that all Department of Defense nonappropriated fund activities give preference in hiring to qualified dependents of members of the armed forces stationed in the same geographic area for positions in wage grade UA-8 and below (or the equivalent).

The House recedes with amendments directing the Secretary of Defense to issue regulations to ensure that spouses are advised of any vacancy announcements and are considered for any vacant position within the Department of Defense in the same geographic area as the member's permanent duty station. In addition, the House amendments would authorize the President to except from competitive service positions in the Department of Defense located outside the United States in order to provide employment opportunities for qualified military spouses and would authorize the President to provide preference in hiring to qualified spouses for positions in wage grade UA-8 and below (or the equivalent).

The conferees wish to clarify that any preference granted is not lifetime preference and, thus, would terminate when the spouse loses his or her connection with the military through the service member's discharge, retirement, or death, or through divorce.

Youth sponsorship program (sec. 807)

The Senate bill contained a provision (sec. 926(g)) that would require the establishment of a youth sponsorship program, at each military installation.

The House amendment contained similar provisions (sec. 1107 and 1161(c)).

The House recedes.

Student travel within the United States (sec. 808)

The House amendment contained a provision (sec. 1008) that would authorize payment of travel and transportation allowances within or between the contiguous United States for dependent students of military personnel stationed overseas.

The Senate bill contained no similar provision.

The Senate recedes.

Relocation assistance (sec. 809(a))
